PREFACE

The first of the two volumes of this work is devoted to the study of the history of the English language from its earliest beginnings to the present time. The second volume is devoted to the study of the English language as it is spoken and written in the present day. The first volume is divided into two parts, the first part dealing with the history of the English language from its earliest beginnings to the present time, and the second part dealing with the history of the English language from its earliest beginnings to the present time. The second volume is divided into two parts, the first part dealing with the English language as it is spoken and written in the present day, and the second part dealing with the English language as it is spoken and written in the present day.

on a scale about twenty per cent. (linear scale) larger than can be done on a sheet of the same size with all of Long Island projecting eastward of New York City. This increased scale will be found to fully compensate for the change of place of the eastern portion of Long Island. The map of the State is plotted to the scale of $\frac{1}{300,000}$, which is $\frac{9}{132}$ or a small fraction more than 4.7 miles to an inch; and the city plans to the scale of $\frac{1}{50,000}$, which is $\frac{1}{11}$ or a small fraction more than .78 of a mile to an inch.

The longitude of several points in the eastern and western portions of the State having been accurately determined by the Coast Survey and the Department of the Interior, and the latitude of many points on the north and south borders and within the State from numerous and repeated observations, the projection of the parallels and meridians was first made with accurately constructed scales, using the most recent tables of latitude and longitude measurements as adopted by the Coast Survey and the U. S. Military Academy at West Point. The boundaries of the State were next projected, after which the lines of the counties were located on the map. The town lines were next laid out; and finally the roads, bodies of water, streams, topography, and all other details were filled in. This course could not fail to secure accuracy in all parts of the work; and, while the map does not agree, in many points, with previous maps of the State, the author feels confident that it will bear the closest scrutiny and criticism.

A prominent and distinctive feature of the State Map is the representation of all the roads, railroads, canals, and routes of travel, every mile of each of which has been run and every angle measured.

The city plans are all drawn to the same scale, thus presenting, at a glance, the comparative extent of the built-up portions of each. Albany, Brooklyn, and Buffalo have so great an extent of unoccupied or farm lands that it was not practicable to show the entire corporate limits of either on the city plans; but no built-up part of either city has been omitted. The plans of the other cities embrace their entire area.

In the construction of the Geological and Land Patent Map, the geology of the State according to the New York System has been followed; but the different strata or formations are represented by a system of shading in the engraving,—instead of by color, as is usually done in geological maps. This plan was adopted, as it was desirable to present two distinct features in the one map; and the engraved shading for the geology permits the use of colors for the land patents. The size of the map would not admit of the representation of tracts of land smaller than a township; but a complete list of all the grants will be found in this work.

In the year 1825 the Regents of the University established meteorological stations in various parts of the State, and reports were required to be made from these stations annually to the Board of Regents. At the expiration of twenty-five years the Regents caused these reports to be digested; and the mean averages of the summaries thus deduced—so far as relates to temperature, fall of rain, and direction of wind—are embraced in the Meteorological Map. On this map the several stations (including three established at military posts, and not subject to the direction of the Board of Regents) are at the centers of the small circles. In each of these circles are either two or three numbers; when two, the upper number is the mean annual temperature in degrees Fahrenheit, and the lower number is the mean annual fall of rain in inches; and when three, the upper and lower numbers indicate, respectively, temperature and rain, and the middle one the elevation of the station above tide, in feet. The diagram at the right represents the mean annual direction of wind at the several stations, the index in any case denoting the point of compass, and its length the number of days,—one inch in length of radius representing five days. Thus, taking the index for Canandaigua, the direction is S. 63° 37' W., and the length of the radius is 3.1 inches. This indicates that the mean annual direction of the wind at this station was from the S. W. for 17 days in the year more than from all other directions. For the isothermal lines, or lines of equal temperature, and the shading representing the different depths of rain, we are indebted to LOUIS BLOWART, author of *American Climatology*.

The Time Indicator has been prepared from minute calculations, and will be found correct in every case.

The diagram showing the capacity of the church edifices is constructed to a scale, and correctly represents the proportion of each to the whole.

An examination of the various Gazetteers heretofore published cannot fail to satisfy any one that a great part of the material from which they were compiled was furnished by corre-

spondents. This plan seemed to be the one most likely to secure accuracy, and with some modifications it was at first adopted in collecting materials for this work. Agents were sent into some portions of the State, furnished with printed instructions, questions, and blanks, to obtain the desired information, either by personal research, or through the assistance of such competent persons in the various localities visited as would undertake to fill the blanks and return them to the general office. While a few persons promptly responded to the request thus made of them, others delayed giving it immediate attention, and still others neglected it altogether. A large proportion of the matter received from correspondents was found to be irrelevant, devoted to specialties, or unreliable, and therefore of little value. Much matter was received which possesses a greater or less amount of local interest, but which could not be admitted without giving undue prominence to some subjects or localities at the expense of others. After a fair trial of the plan first adopted, it was found subject to so many objections that it was abandoned. The surveyors and agents were then instructed to visit every city, town, and village, to search records, examine documents, consult the best living, printed, and manuscript authorities, and to make returns to the general office of all the reliable matter and information obtained. They were instructed to take no statement on a single authority, and in cases where authorities were found to differ, to examine diligently and impartially, and report all the facts, so that in digesting and arranging them for the press, all the evidence might be at hand. They were particularly cautioned against taking mere hearsay or traditional tales for truth, and not to seek wonders and marvels. A competent person was employed to examine records and documents in the State Library and State and other public offices at Albany and in New York City, for information that might be available in the preparation of this work. The Documentary History and the State Geology of New York, general and local histories, biographies, sketches, essays, reports, newspapers, manuscripts, and all other available authorities that were likely to contain any information of value, were collected, and in turn consulted, and their accuracy and value tested as the work progressed.

The plan for the work finally fixed upon, while it embraces a wider range than is usually taken by similar works, seems to be one that cannot fail to meet the wants and tastes of the people, as it presents the wealth, resources, present condition, and past history of the State in a form and style at once convenient, perspicuous, and concise.

The details of description of each county, city, town, and village, have been arranged, as far as practicable, according to a uniform plan or outline; as has been also the General Article embraced in the first 154 pages. The subjects embraced in this article seemed to cover all the ground that properly belongs to the work; and they are treated at as great length as their proportional importance to the limits of the volume would permit. A Gazetteer of a State should not be expected to contain, in a connected form, a complete compendium of knowledge upon whatever pertains to a State. But present condition, brief and comprehensive statements, short historical sketches of general interest, tables, facts and figures as connected with the wealth, prosperity, and resources of a State, should be considered to an extent sufficient for a work of reference, such as a Gazetteer is intended to be.

The general outline of the county descriptions is as follows: 1st. Date of formation of the county, from what taken, subsequent changes in boundaries, location in the State, and air-line distance of geographical center from the Capitol at Albany. 2d. Geology, topography, and drainage; embracing the general geological formations, general contour of the surface, lakes, rivers, and other watercourses. 3d. Soil, leading articles of production, and occupation of the people. 4th. Works of internal improvement. 5th. County seat, names of first county officers, and description of county buildings and institutions. 6th. History of the newspaper press. 7th. Brief historical sketch of the county from the date of first settlement to the present time. The descriptions of the towns are according to nearly the same general plan, and embrace, 1st. Date of formation, from what taken, subsequent changes in boundaries, and location in the county. 2d. Peculiarities in geological formations not mentioned in county description. 3d. Topography and drainage. 4th. Names and description of villages, hamlets, and localities, with their location in town, date of incorporation, institutions, leading branches of business, and population according to the most recent reliable enumeration. 5th. A brief historical sketch, embracing incidents of general and local interest, names of first settlers, first birth, marriage, and death, first church, school, mill, and factory, and number of churches

in 1855. After the towns in each county is a table compiled from the last State census, except the valuation and statistics of schools, which are from the returns for the year 1858. In many cases, the population of villages and the number of churches given are from enumerations taken since 1855; but the last State census has invariably been taken as authority on these two points, except in cases where later reliable enumerations have been taken. The acres of land as given in the tables fall short of the area of the county as given at the commencement of each county description. The reason of this is obvious: the acres of land as shown by the tables are from the returns of assessors, which seldom embrace marsh, swamp, and unproductive lands, and lands under water; while the area in square miles, as given in the county descriptions, has in every case been ascertained from actual measurements.

The steel plate illustrations are engraved from original views taken expressly for this work. The map has been engraved on stone, at great expense, by the best artists, and the mechanical execution of both works is highly creditable to the publisher.

The Index of Subjects at the commencement of the work, and the Index of Geographical Names at the close, cannot fail of being justly valued for their convenience. The uniform use of a bold-face letter for names of towns, villages, and hamlets will also be found to greatly facilitate rapid search for this class of geographical names.

To many of the officers in the several State Departments, and to numerous county, town, and city officers, local surveyors, civil engineers, land agents, members of the press, and others, the author is indebted for furnishing valuable materials for these works. To them, and to all who have in any way rendered him assistance in the preparation of either Map or Gazetteer, he desires to acknowledge his obligations. Many persons may feel disappointment at finding that information furnished by them has not been used. An examination of the work, however, must convince them that nothing has been omitted which was essential to the general plan of the work, and that whatever did not come within this plan could not be introduced.

The author would not be doing justice to himself nor to the public did he fail to acknowledge his obligations to those who have been associated with him in the preparation of these works. He desires to make particular mention of the valuable services of **LIEUT. FRANCIS MAHLER**, **FRANKLIN B. HOUGH**, **M. D.**, and **JAMES JOHANNOT**. Lieut. Mahler was educated in a European University for a Topographical Engineer. Ten years of subsequent practice rendered him eminently qualified for the position he has occupied on the Survey. Dr. Hough is well known to the people of the State as the Superintendent of the last State census and as the author of several historical and statistical works. His services in searching records and documents at Albany, in New York City, and elsewhere, have been invaluable, and to his practical knowledge of the geology of the State the author is mainly indebted for whatever pertains to that subject in this work. Mr. Johannot has devoted many years to the subject of Physical Geography. The topography of the State, its counties and towns, has been mainly written by him.

The intelligent citizens of the State of New York cannot fail to appreciate the liberality of the publisher in the great expenditures he has made in bringing out these works. The cost of the original surveys for the county maps was about \$48,000, and the expenditures on the works from the commencement of the re-survey to the date of publication have reached about \$46,000 more, making a total investment of \$94,000. The whole time spent in surveys, collection of materials, writing, engraving, proof-reading, &c., has been equal to the time of one person 125 years. It is believed that no similar enterprise of equal extent, and involving the outlay of so large a capital, has ever been undertaken at private expense in this or any other country. Time, talents, and money have alike been devoted to the production of a Map and Gazetteer that it is hoped will be found every way worthy of the Empire State.

GAZETTEER

OF THE

STATE OF NEW YORK.

STATE BOUNDARIES.

THE STATE OF NEW YORK is situated between $40^{\circ} 29' 40''$ and $45^{\circ} 0' 42''$ N. latitude, and between $71^{\circ} 51'$ and $79^{\circ} 47' 25''$ longitude W. of Greenwich. It is bounded on the N. by Canada, E. by Vermont, Massachusetts, and Connecticut, S. by the ocean, New Jersey, and Pennsylvania, and W. by Pennsylvania and Canada.

The Northern Boundary, commencing in the middle of Lake Ontario, N. of the mouth of Niagara River, extends eastward through the lake, midway between the opposite shores, to its E. extremity, thence north-easterly through the St. Lawrence River to the 45th parallel of N. latitude, and thence easterly in a gradually diverging line from the parallel, and terminating upon Lake Champlain 4,200 feet N. of it.

The Eastern Boundary extends S. through Lake Champlain to its S. extremity, thence a short distance S. E. along Poultney River, and thence in an irregular line, but in a generally southerly direction, to Lyons Point, at the mouth of Byram River, on Long Island Sound. From this point the line extends eastward through the Sound, very near the Connecticut shore, to the E. extremity of Long Island, including within the limits of the State nearly all the islands in the Sound.

The Southern Boundary extends from the E. extremity of Long Island along the ocean to the S. W. extremity of Staten Island, thence northward through the channel between Staten Island and New Jersey and through New York Bay and the Hudson to the 41st parallel of N. latitude, thence north-westerly to a point upon the Delaware at latitude $41^{\circ} 20'$ N., thence north-westerly along Delaware River to latitude 42° N., and thence W. along the 42d parallel to a meridian passing through the W. extremity of Lake Ontario.

The Western Boundary, commencing upon the 42d parallel, extends N. to the middle of Lake Erie, thence eastward to the E. extremity of the lake, and thence N. through Niagara River and to the middle of Lake Ontario.¹

¹ The boundary through Lake Ontario is 175 mi.; through the St. Lawrence, 108 mi.; along the Canada frontier, E. of the St. Lawrence, 62.75 mi.; through Lake Champlain, 105 mi.; along Poultney River, 17.25 mi.; the Vt. line, S. of that river, 54.00 mi.; the Mass. line, 50.52 mi.; the Conn. line, to Lyons Point, on Long Island Sound, 81.20 mi.; through the Sound, 96 mi.; along the ocean to the N. J. shore, 150 mi.; through the Bay and Hudson River, to latitude 41° N., 44 mi.; along the N. J. line, W. of the Hudson, 48.50 mi.; through Delaware River, 75 mi.; along the Penn. line, on latitude 42° , 225.50 mi.; on the meridian to Lake Erie, 18.75 mi., and upon the meridian in Lake Erie, 22 mi.; through Lake Erie to Buffalo, 59 mi.; and through Niagara River, 34 mi.

the two southerly tiers of counties is entirely occupied by these hills. Along the Penn. line they are usually abrupt and are separated by narrow ravines, but toward the n. their summits become broader and less broken. A considerable portion of the highland region is too steep for profitable cultivation and is best adapted to grazing. The highest summits in Allegany and Cattaraugus eos. are 2,000 to 2,500 feet above tide.

From the summits of the watershed the highlands usually descend toward Lake Ontario in series of terraces, the edges of which are the outcrops of the different rocks which underlie the surface. These terraces are usually smooth, and, although inclined toward the n., the inclination is generally so slight that they appear to be level. Between the hills of the s. and the level land of the n. is a beautiful rolling region, the ridges gradually declining toward the n. That part of the State s. of the most eastern mountain range the surface is generally level or broken by low hills. In New York and Westchester eos. these hills are principally composed of primitive rocks. The surface of Long Island is generally level or gently undulating. A ridge 150 to 200 feet high, composed of sand, gravel, and clay, extends e. and w. across the island n. of the center.

Rivers and Lakes.—The river system of the State has two general divisions,—the first comprising the streams tributary to the great lakes and the St. Lawrence, and the second those which flow in a general southerly direction. The watershed which separates these two systems extends in an irregular line eastward from Lake Erie through the southern tier of counties to near the n. e. corner of Chemung; thence it turns n. e. to the Adirondack Mts. in Essex co., thence s. e. to the e. extremity of Lake George, and thence nearly due e. to the e. line of the State.¹

The northerly division has 5 general subdivisions. The most westerly of these comprises all the streams flowing into Lake Erie and Niagara River and those flowing into Lake Ontario w. of Genesee River. In Chautauque co. the streams are short and rapid, as the watershed approaches within a few mi. of Lake Erie. Cattaraugus, Buffalo, Tonawanda, and Oak Orchard Creeks are the most important streams in this division. Buffalo Creek is chiefly noted for forming Buffalo Harbor at its mouth; and the Tonawanda for 12 miles from its mouth is used for canal navigation. Oak Orchard and other creeks flowing into Lake Ontario descend from the interior in a series of rapids, affording a large amount of water-power.

The second subdivision comprises the Genesee River and its tributaries. The Genesee rises in the n. part of Penn. and flows in a generally northerly direction to Lake Ontario. Its upper course is through a narrow valley bordered by steep, rocky hills. Upon the line of Wyoming and Livingston eos. it breaks through a mountain barrier in a deep gorge and forms the Portage Falls, —one of the finest waterfalls in the State. Below this point the course of the river is through a beautiful valley 1 to 2 mi. wide and bordered by banks 50 to 150 ft. high. At Rochester it flows over the precipitous edges of the Niagara limestone, forming the Upper Genesee Falls; and 3 mi. below it flows over the edge of the Medina sandstone, forming the Lower Genesee Falls. The principal tributaries of this stream are Canaseraga, Honeoye, and Conesus Creeks from the e., and Oatka and Black Creeks from the w. Honeoye, Canadice, Hemlock, and Conesus Lakes lie within the Genesee Basin.

The third subdivision includes the Oswego River and its tributaries and the small streams flowing into Lake Ontario between Genesee and Oswego Rivers. The basin of the Oswego includes most of the inland lakes which form a peculiar feature of the landscape in the interior of the State. The principal of these lakes are Cayuga, Seneca, Canandaigua, Skaneateles, Crooked, and Owasco, —all occupying long, narrow valleys, and extending from the level land in the center far into the highland region of the s. The valleys which they occupy appear like immense ravines formed by some tremendous force, which has torn the solid rocks from their original beds, from the general level of the surrounding summits, down to the present bottoms of the lakes.² Oneida and Onondaga

¹The most remarkable passes through the mountains are, first, that of the Hudson, through the eastern mountains; second, that of Wood Creek, from the Hudson to Lake Champlain; and third, that of the Mohawk, through the central mountains.

²The ravines of these lakes, and the streams which flow down parallel to them, are usually bordered by steep hillsides, the strata of which lie in parallel layers nearly level e. and w., and slightly inclined toward the s. Upon the opposite banks the

Lakes occupy basins upon the level land in the *n. e.* part of the Oswego Basin. Mud Creek, the most westerly branch of Oswego River, takes its rise in Ontario co., flows *n. e.* into Wayne, where it unites with Canandaigua Outlet and takes the name of Clyde River; thence it flows *e.* to the *w.* line of Cayuga co., where it empties into Seneca River. This latter stream, made up of the outlets of Seneca and Cayuga Lakes, from this point flows in a *n. e.* course, and receives successively the outlets of Owasco, Skaneateles, Onondaga, and Oneida Lakes. From the mouth of the last-named stream it takes the name Oswego River, and its course is nearly due *n.* to Lake Ontario.

The fourth subdivision includes the streams flowing into Lake Ontario and the St. Lawrence *e.* of the mouth of the Oswego. The principal of these are Salmon, Black, Oswegatchie, Grasse, and Racket Rivers. These streams mostly take their rise upon the plateau of the great Northern wilderness, and in their course to the lowlands are frequently interrupted by falls, furnishing an abundance of water-power. The water is usually very dark, being colored with iron and the vegetation of swamps.

The fifth subdivision includes all the streams flowing into Lakes George and Champlain. They are mostly mountain torrents, frequently interrupted by cascades. The principal streams are the Chazy, Saranac, and Au Sable Rivers, and Wood Creek. Deep strata of tertiary clay extend along the shores of Lake Champlain and Wood Creek. The water of most of the streams in this region is colored by the iron over which it flows.

The second general division of the river-system of the State includes the basins of the Allegany, Susquehanna, Delaware, and Hudson. The Allegany Basin embraces the southerly half of Chautauque and Cattaraugus cos. and the *s. w.* corner of Allegany. The Allegany River enters the State from the *s.* in the *s. e.* corner of Cattaraugus co., flows in nearly a semicircle, with its outward curve toward the *n.*, and flows out of the State in the *s. w.* part of the same co. It receives several tributaries from the *n.* and *e.* These streams mostly flow in deep ravines bordered by steep, rocky hillsides. The watershed between this basin and Lake Erie approaches within a few miles of the lake, and is elevated 800 to 1,000 feet above it.

The Susquehanna Basin occupies about one-third of the *s.* border of the State. The river takes its rise in Otsego Lake, and, flowing *s. w.* to the Penn. line, receives Charlotte River from the *s.* and the Unadilla from the *n.* After a course of a few miles in Penn. it again enters the State, and flows in a general westerly direction to near the *w.* border of Tioga co., whence it turns *s.* and again enters Penn. Its principal tributary from the *n.* is Chenango River. Tioga River enters the State from Penn. near the *e.* border of Steuben co., flows *n.*, receives the Canisteo from the *w.* and the Conhocton from the *n.* From the mouth of the latter the stream takes the name Chemung River, and flows in a *s. e.* direction, into the Susquehanna in Penn., a few miles *s.* of the State line. The upper course of these streams is generally through deep ravines bordered by steep hillsides; but below they are bordered by wide and beautiful intervals.

The Delaware Basin occupies Delaware and Sullivan and portions of several of the adjacent cos. The *n.* or principal branch of the river rises in the *n. e.* part of Delaware co. and flows *s. w.* to near the Penn. line; thence it turns *s. e.* and forms the boundary of the State to the line of N. J. Its principal branches are the Pepacton and Neversink Rivers. These streams all flow in deep, narrow ravines bordered by steep, rocky hills.

The Basin of the Hudson occupies about two-thirds of the *e.* border of the State, and a large territory extending into the interior. The remote sources of the Hudson are among the highest peaks of the Adirondacks, more than 4,000 feet above tide. Several of the little lakes which form reservoirs of the Upper Hudson are 2,500 to 3,000 feet above tide. The stream rapidly descends through the narrow defiles into Warren co., where it receives from the *e.* the outlet of Schroon Lake, and Sacondaga River from the *w.* Below the mouth of the latter the river turns eastward, and breaks through the barrier of the Luzerne Mts. in a series of rapids and falls. At Fort Edward it again turns *s.* and flows with a rapid current, frequently interrupted by falls, to Troy, 160 miles from the ocean. At this place the river falls into an estuary, where its current is affected by the tide; and from this place to its mouth it is a broad, deep, sluggish stream. About 60 miles from its mouth the Hudson breaks through the rocky barrier of The Highlands, forming the most easterly of the Appalachian Mt. Ranges; and along its lower course it is bordered on the *w.* by a nearly perpendicular wall of basaltic rock 300 to 500 feet high, known as "The Palisades." Above Troy the Hudson receives Hoosick River from the *e.* and the Mohawk from the *w.* The former stream rises in Western Mass. and Vt., and the latter near the center of the State,

discovered edges of the strata exactly correspond, showing that the intermediate portions have been torn away. The force that effected these immense changes was probably great currents of water from the *n.*,—the direction being determined by the character of the boulders upon the hills, and by the peculiar nature of the drift deposits.

At Little Falls and "The Noses" the Mohawk breaks through mountain barriers in a deep, rocky ravine; and at Cohoes, about 1 mile from its mouth, it flows down a perpendicular precipice of 70 feet, forming an excellent water-power. Below Troy the tributaries of the Hudson are all comparatively small streams. South of the Highlands the river spreads out into a wide expanse known as "Tappan Bay." A few small streams upon the extreme e. border of the State flow eastward into the Housatonic; and several small branches of Passaic River rise in the s. part of Rockland co.

Lake Erie forms a portion of the w. boundary of the State. It is 240 miles long, with an average width of 38 miles, and it lies mostly w. of the bounds of the State. It is 334 feet above Lake Ontario, 565 feet above tide, and has an average depth of 120 feet. The greatest depth ever obtained by soundings is 270 feet. The harbors upon the lake are Buffalo, Silver Creek, Dunkirk, and Barcelona.

Niagara River, forming the outlet of Lake Erie, is 34 miles long, and, on an average, more than a mile wide.¹ About 20 miles below Lake Erie the rapids commence; and 2 miles further below are Niagara Falls.² For 7 miles below the falls the river has a rapid course between perpendicular, rocky banks, 200 to 300 feet high; but below it emerges from the Highlands and flows 7 miles to Lake Ontario in a broad, deep, and majestic current.

Lake Ontario forms a part of the s. boundary to the w. half of the State. Its greatest length is 130 miles and its greatest width 55 miles. It is 232 feet above tide, and its greatest depth is 600 feet. Its principal harbors on the American shore are Lewiston, Youngston, Port Genesee, Sodus and Little Sodus Bays, Oswego, Sackets Harbor, and Cape Vincent. St. Lawrence River forms the outlet of the lake and the s. boundary of the State to the e. line of St. Lawrence co. It is a broad, deep river, flowing with a strong yet sluggish current until it passes the limits of this State. In the upper part of its course it encloses a great number of small islands, known as "The Thousand Islands."³

The surfaces of the great lakes are subject to variations of level,—probably due to prevailing winds, unequal amounts of rain, and evaporation. The greatest difference known in Lake Erie is 7 feet, and in Lake Ontario 4½ feet. The time of these variations is irregular; and the interval between the extremes often extends through several years. A sudden rise and fall, of several feet, has been noticed upon Lake Ontario at rare intervals, produced by some unknown cause.

Navigable Waters.—The natural internal navigation of the State is very extensive. Before the commencement of internal improvements, the rivers and lakes formed the most easy means of communication between distant portions of the State; and along these natural channels of commerce the early settlements were principally made.⁴ The most important lines of early

¹ For a more full description of Niagara Falls, see page 450.

² The river is very rapid upon the St. Lawrence is unsurpassed. The water is perfectly pure and nearly transparent. In consequence of its being fed by the great lake reservoirs, it is never subject to sudden rises, but steadily pursues its majestic way to the ocean, unaltered by the changes of the seasons of other causes.

³ The navigable waters N. of the great water-shed before the completion of the Erie Canal were as follows:—

- Cattaraugus Creek*, about 1 mi. from its mouth.
- Buffalo Creek*, beatable 8 mi. from Lake Erie.
- Tenawanda Creek*, beatable 30 mi. from its mouth.
- Niagara River*, navigable for vessels of any size from Buffalo to Schlosser, at the head of the Rapids—a distance of 22 mi.; also from Lewiston to Lake Ontario, a distance of 7 mi.
- Ontario Creek*, is about 4 mi. from its mouth.
- Genesee River*, to Cathage Landing, a distance of 5 mi.; and from Rochester to Mr. Morris for boats.
- Oswego River* was navigable with great difficulty by bataviaux, with a portage at Oswego Falls, now Fulton.
- Ontario, Chautauque & Cayuga* were navigable for bataviaux, and for many years constituted a portion of the great thoroughfare between the e. and w.
- Sarcelle River* was beatable to Cayuga Lake, and to Seneca Lake with one portage at Seneca Falls; Clyde River was beatable to Lyons.
- The Ades Lakes*, including Seneca, Cayuga, Cattaraugus, Ontario, Oswego, Skaneateles, Crooked, Chautauque, and Oswego, are all navigable. Steamers have plied upon each of them.
- Fish Lake* is navigable to Rome with canoes. A portage of less than 1 mi. intervenes between this stream and the Mohawk River.
- S. C. Lake* was navigable to Port Ontario.
- Sodus Bay* was navigable from each branch, for small vessels, about 1 mi. to the lake.
- Reh River* was navigable for large vessels from the lake to its mouth a distance of 6 mi., and for boats and small steamers from farther to Lyons Falls, a distance of 13 mi.
- Lake Ontario*, with all its bays and inlets, is navigable for vessels of all sizes.

inland navigation were, first, s. from Albany, through the Hudson to Fort Edward, thence a portage to Fort Ann, and thence by Wood Creek to Lake Champlain; and, second, w. from Albany, by way of the Mohawk, Wood Creek, Oneida Lake, and Oswego River, to Lake Ontario. Upon the latter route were portages at several of the rifts of the Mohawk, from the Mohawk to Wood Creek, and at Oswego Falls.

Tides.—The tides at New York Harbor and along the coast have been carefully observed, under the direction of the Coast Survey. The tidal wave from the Sound, as it moves forward in a wedge-shaped channel, becomes augmented, whilst that from Sandy Hook is slightly diminished. These two waves meet in East River, at points between Hell Gate and Throgs Neck.

Cranberry and French Creeks were boatable about 2 mi. from their mouths.
Indian River and Black Lake were navigable from Rossie to the foot of the lake.
Oswego Lake River is navigable in high water for rafts from Ox Bow to Ogdensburg.
Richelieu River was formerly boatable about 18 mi. from its mouth, but the navigation is now destroyed by dams. In the wilderness near the headwaters of this river are several miles of slack water navigation.
St. Regis River is navigable for steamboats 2 mi. from its mouth.
Sabine River, navigable to Fort Covington.
St. Lawrence River is navigable for vessels of any size from the Lake to Ogdensburg. Below that point rafts, arks, and boats could not ascend, but could ascend only by towing with horses and cattle up the principal rifts. Locks and canals have been constructed around the Rapids by the Canadian Government, so that the navigation for steamboats, sloops, and schooners is now uninterrupted from Lake Ontario to the ocean.
Head Creek was boatable from Fort Ann to Lake Champlain.
L. de la Gape is navigable for boats and steamers.
Lake Champlain is navigable for all kinds of vessels. Rafts were formerly sent down to the St. Lawrence; but vessels could not ascend the Richelieu until after the construction of a canal and locks around the Rapids.
Chazy River is navigable to Champlain Landing.
 The navigable waters of the great watershed were as follows:
Albany River, in high water, is navigable for small steamers up to Otsego.
Cattaraugus Creek and several of its tributaries are navigable for rafts in high water.
Susquehanna River was navigable for boats, in high water, to Otsego Lake.

Candelo River was also boatable for a considerable distance.
Chenango River and several of its tributaries were boatable in high water.
Chenango River was boatable and navigable for rafts in high water.
Columbia River was boatable to Bath.
Fargo River and the *Canoe* were also boatable a considerable distance.
Delaware River is navigable for rafts in high water. Immense quantities of lumber have been floated down the Delaware and Susquehanna to the markets of Philadelphia and Baltimore.
Hudson River is navigable for ships to Hudson, and by sloops and steamers to Troy. Rafts formerly ascended to Fort Labarand, with portages around the Falls.
Rondout and Wappinger Creeks are navigable each about 2 mi. from their mouths.
Mohawk River was boatable from Schenectady to "Fort Stanwix," now Rome, with several interruptions. The principal obstructions were the "Six Flats Rift," 6 mi. above Schenectady; "Fort Hunter Rift;" "Chamawaga Rift," at Champlain; "Elles Rift" near Fort Plain; "Knobshorn Rift," near the Upper Indian Castle; and the "Little Falls," which was a complete bar to upward navigation and required a portage around it.
Susquehanna River is navigable for small steamers from Hall's to Northampton, a distance of 20 mi. In and around New York and Long Island the bays, creeks, and inlets are nearly all navigable in high tide.
Potomac River is navigable to Riverhead.
Patuxent River is navigable to Port Chester.
Roanoke River is navigable to West Farms, a distance of 3 mi.
York River can be navigated by small craft from East River to High Bridge.

TIDE TABLES.

The following table, prepared by A. D. Bache, Superintendent of the Coast Survey, shows the progress of the tidal wave up the Hudson. The time is that after the last preceding transit of the moon across the meridian at Sandy Hook. The plane of reference is mean low tide.

GEOLOGY.

Our knowledge of the geology of the State is derived from the survey made under State authority from 1836 to 1843, and from the investigations of several eminent geologists who have examined particular localities.¹

Rocks.—The geological formations of the State include the igneous or primary rocks, and all the strata lying between them and the coal measures of Penn. The classification adopted by the State geologists, embracing all the rocks above the primary, is known as the "New York system," the rocks being identical with the Silurian and Devonian system of the English geologists. The igneous or primary rocks, including granite, gneiss, and other varieties destitute of organic remains, occupy the greater part of the mountainous region in the N. E. part of the State, the Highlands upon the Hudson, and a considerable portion of the country below, including Manhattan Island. A portion of these rocks are imperfectly stratified, and are generally found in broken and disrupted masses with the strata highly inclined. The remaining portions of the State are occupied by series of stratified rocks, generally extending E. and W. and varying in thickness from a few inches to several hundred feet. The strata overlie each other, and have a slight dip toward the S., so that a person in traveling from the N. border of the State to the Penn. line would successively pass over the exposed edges of the whole series. Toward the E. these strata all are bent, and appear to be arranged around the primitive region in the same order in which they lie elsewhere. The highest of the series of rocks found in the State forms the floor of the coal measures; so that it is perfectly futile to search for coal within the limits of the State. The rocks are distinguished by their color, quality, and situation, and by the fossils which they contain. In many instances a stratum disappears entirely, and in others strata of several hundred feet in thickness in one place are but a few feet thick in another. In places where many strata are wanting and two rocks usually widely separated are found in contact, the geologist is obliged to depend entirely upon the fossils which they contain to determine their classification.²

¹ In 1799, Dr. Samuel L. Mitchell, under the auspices of the "Society for Promoting Agriculture, Arts, and Manufactures," published an essay upon the rocks in the State. While the Erie Canal was in process of construction, Stephen Van Rensselaer employed Prof. Amos Eaton to prepare an account of the rocks along the canal route. This was published in 1824. Prof. Eaton's work was one of great merit, and to him we are indebted for the first accurate knowledge ever obtained of the general system of rocks in the State.

On the 15th of April, 1836, an act was passed authorizing a geological survey of the State. The State was divided into four districts, to each of which were appointed a geologist and an assistant. A zoologist, botanist, mineralogist, and paleontologist were appointed for the whole State.

The *First District* included the counties of Albany, Columbia, Delaware, Dutchess, Greene, Kings, New York, Orange, Putnam, Queens, Rensselaer, Richmond, Rockland, Saratoga, Schenectady, Schoharie, Suffolk, Sullivan, Ulster, Washington, and Westchester. Wm. W. Mather was appointed Principal Geologist, and Caleb Briggs, J. Lang Cassels, and Seymour, Assistants. The Report, in 1 vol. 4to, was published in 1833.

The *Second District*, consisting of the counties of Clinton, Essex, Franklin, Jefferson, St. Lawrence, and Warren, was placed under the charge of Dr. Ebenezer Linnons, Principal, and Jas. Hall and L. Linnons, jr., Assistants. The Report, in 1 vol., was published in 1842.

The *Third District*, consisting of the counties of Broome, Cayuga, Chemung, Cortland, Fulton, Herkimer, Lewis, Madison, Montgomery, Oneida, Onondaga, Oswego, Otsego, Toga, and the E. half of Tompkins, was placed under charge of Gardner Van Uxem, Principal, and Jas. Light and E. S. Can. Assistants. The Report, in 1 vol., was published in 1842.

The *Fourth District*, consisting of the counties of Allegany, Cattaraugus, Chautauque, Chemung, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Steuben, the W. half of Tompkins, Wayne, Wyoming, and Yates, was assigned to Jas. Hall, Principal, and J. W. Boyd and E. N. Horsford, Assistants. The Report was published in 1 vol. in 1843.

The *Mineralogical Department* was assigned to Dr. Lewis C. Beck, Principal, and Wm. Houston and L. B. Gale, Assistants. The Report, in 1 vol., was published in 1842.

The *Zoological Department* was assigned to Dr. Jas. E. De Kay, Principal, and John W. Hill, Draughtsman. The Report, in 5 vols., was published in 1842-43:—Vol. I, Mammalia with general Introduction by Gov. Seward; Vol. II, Ornithology; Vols. III and IV, Reptiles and Fishes; Vol. V, Mollusca and Crustacea.

The *Botanical Department* was assigned to Dr. John Torrey. The Report, in 2 vols., was published in 1843.

The *Agricultural Department* was assigned to Dr. Charles Emmons. The Report, in 5 vols., was published from 1846 to

1854:—Vol. I, Soils and Climate; Vol. II, Analysis and Results of Experiments; Vols. III and IV, Fruits; Vol. V, Insects.

The *Palæontological Department* was assigned to T. A. Conrad, in 1837. He resigned in 1843, and was succeeded by Prof. Jas. Hall. The Report, to consist of 5 vols., is in process of publication. Two vols. are already issued, and the third is in press. A geological map, accompanying the Reports, is issued with this work.

² The following is the classification of the New York system, with the position which the different strata occupy in the classification of English geologists. The order of the arrangement is from below upward:—

	LOWER SILURIAN.		NEW YORK SYSTEM.	
	UPPER SILURIAN.		DEVONIAN.	
				Primitive or Igneous Rocks.
				Taconic System.
				Potsdam Sandstone.
				Calcareous Sandstone.
				Chazy Limestone.
				Birdseye Limestone.
				Black River Limestone.
				Trenton Limestone.
				Ulster Slate.
				Hudson River Group, Lorraine Shales.
				Oneida Conglomerate, Shawangunk Grit.
				Molina Sandstone.
				Catskill Group.
				Niagara Group, Cordine Limestone in the east.
				(Red Shales.)
				Onondaga Salt Group, Green Shales.
				(Gypsum.)
				Waterlime Group.
				Pentamerus Limestone.
				Delthyris Shaly Limestone.
				Upper Pentamerous Limestone.
				Onondaga Sandstone.
				Cathartes Grit.
				Schubert Limestone.
				Onondaga Limestone.
				Circulatus Limestone.
				Macedonia Shale.
				(Henderville Shales.)
				Hamilton Group, (Lancaster Limestone.)
				(Moscow Shales.)
				Tully Limestone.
				Genesee Slate.
				(Coshqua Shales.)
				Portage Group, (Gardner Flag Shales.)
				(Portage Sandstone.)
				Chemung Group.
				Ottawa Sandstone.
				Conglomerate of the Coal Measures.

The Catskill Mts. are composed principally of Old Red Sandstone; and the tops of some of the higher peaks are covered with the conglomerate of the coal measures. New Red Sandstone is found in a few localities along the Hudson, below the Highlands. Trap, a rock of volcanic origin, forms the Palisades upon the Hudson; and trap dikes are common in the primitive region of the N. Tertiary clay, in deep strata, extends along the valleys of Lake Champlain and St. Lawrence River. Drift, including loose deposits of boulders, gravel, sand, and clay, is found in most parts of the State, in some places covering the rocks beneath to the depth of several hundred feet. The character of this drift, the peculiar forms which it has assumed, and the position which it occupies, all give evidence of some great general moving power which existed after the stratified rocks were lifted from their original beds, and ages before the present order of things was instituted.

Within more recent periods, considerable changes have been wrought by the action of present streams of water and the wasting agencies of the atmosphere and frost. From these are derived marl, alluvium, and the greater part of the soils. The thickness of the rock strata is generally determined by its outcrop along the ravines of the streams, and by Artesian wells, which have been sunk to a great depth in different parts of the State.¹

Metallic Minerals.—The principal metals in the State are iron and lead, the former only of which is found in sufficient quantity and purity to render its manufacture profitable. Iron ore is found in three distinct varieties, viz., magnetic oxide or magnetite, specular oxide or red hematite, and hydrous peroxide or limonite. Magnetic ore is widely diffused throughout the primitive region. It is usually found in beds between the rock strata, parallel to the mountain ranges; and sometimes it is blended with the rock. The beds in many places are immense in extent, and the ore is 75 to 95 per cent. pure iron.² Specular iron ore is found in narrow beds between the igneous and sedimentary rocks. It is principally found in St. Lawrence and Jefferson cos.³ A variety of this ore, known as argillaceous iron ore or clay ironstone, is associated with the lower strata of the Clinton group, extending from Herkimer to Monroe co. It is found in beds 2½ feet thick and about 20 feet apart, and its general form is that of flattened grains. Limonite is found also associated with the igneous rocks and in various other localities. It is usually in the form of shot or bog ore, or yellow ochre. It is wrought to a considerable extent in Richmond, Orange, Putnam, Dutchess, Columbia, Washington, Franklin, St. Lawrence, Jefferson, and Lewis cos. Bog ore is probably found, to a greater or less extent, in every co. in the State. The iron made from it is usually tough and soft.⁴

Lead ore is found in St. Lawrence, Ulster, Dutchess, Westchester, Orange, Columbia, Lewis, Jefferson, and Sullivan cos.; and in several of them the mines have been worked to some extent. The Rossie Mines, of St. Lawrence, are the only ones now wrought.⁵ Copper ore in the form of

New Red Sandstone.
Tertiary.
Tribal or Drift.
Quaternary.

The Taconic system is claimed by some as corresponding to the Cambrian system of Mr. Sedgwick, and by others to be newer formations changed by heat.

TABLE

Showing the depths of the principal Artesian wells in the State.

COUNTY.	LOCALITY.	DEPTH.	PRODUCT.
Albany.....	City.....	128	Fresh water.
".....	" Forty St.....	617	Mineral water.
Cayuga.....	Montezuma.....	200	Brine.
Columbia.....	Hudson.....	228	Fresh water.
Delaware.....	Elk Brook.....	394	Weak brine.
Jefferson.....	Water town.....	127	Fresh water.
Livingston.....	York.....	50	Weak brine and gas.
New York.....	F. S. Hotel.....	626	Fresh water.
".....	Bleeker St.....	448	" "
".....	By Manhattan co.....	280	" "
Oneida.....	Utica.....	314	" "
Oranida.....	Syracuse.....	600	" "
".....	".....	400	" "
".....	".....	80 to 390	Brine.
Orleans.....	Oak Orchard.....	140	Weak brine.
Wayne.....	Savannah.....	250	" "
".....	Little Falls and Clyde.....	400	" " and gas.

The deepest Artesian well in the U. S. is at St. Louis, Mo., and is 2190 feet deep. A well at Louisville, Ky., is 2086 feet deep; and another at Columbus, Ohio, 1900 feet deep.

²The principal mines which have been worked in the northern primitive region are in Warren, Essex, Clinton, St. Lawrence, and Franklin cos. So common are particles of iron in the rocks of this region that the iron sand upon the banks of the streams is sufficiently pure to repay the labor of collecting for the forge. Magnetic ores are also abundant in Orange co., and mines have there been worked since the earliest periods. This ore has also been found among the igneous rocks of Rockland, Westchester, Putnam, Washington, Saratoga, Hamilton, Herkimer, Jefferson, and Lewis cos.

³The principal mines in St. Lawrence and Jefferson cos. yield this variety of ore. It is most abundant in the towns of Gouverneur, Jossie, and Antwerp, and is there usually associated with crystalline sulphuret of iron, staurolite, mica, asbestos, and Weyssite. The argillaceous ore supplies the furnaces in Onondaga co. and Wayne cos. It is red, and imparts a dull red color to whatever it comes in contact with. In the regions of mines and furnaces the building of the laborers, the trees, fences, and vehicles employed, are all colored by it. It is used as a paint, under the name of "Spanish Brown."

⁴Bog ore is deposited in swamps, the bottoms of which are clay, harpan, or some other strata impregnated with it. It is continually accumulating, so that it may be removed two or three times in a century. It has various shades of color, from yellow to a dark brown. In the primitive region it sometimes assumes a stactital or botryoidal form, with a fibrous texture and a glossy black surface. A loamy variety, when used in brick furnaces, is liable to blow up. This is caused by the mass in fitting away below, leaving a crust above, and as the support of the crust gives away, the moisture contained in the mass is suddenly converted into steam by the intense heat, and the liquid now below is thrown out with great force, sometimes destroying the furnaces.

⁵A vein has recently been opened in Orange co. that promises great richness. Lead ore is usually found in the form of sulphurets, or galena. It is often associated with crystallized minerals of great beauty.

a sulphuret has been found in Washington, Jefferson, and St. Lawrence cos., but not in sufficient quantities to render mining profitable. Zinc ore in the form of a sulphuret, or blende, is found, associated with lead, in St. Lawrence co. Manganese, titanium, nickel, and several other metals, have been found in small quantities, though they have never been reduced except in the laboratories of the chemist.¹

Non-Metallic Minerals.—The most valuable non-metallic minerals in the State are limestone, gypsum, waterlime, pipeclay, clay and sand suitable for common and fire brick and pottery, graphite, tale, and slate. Nearly every part of the State is well supplied with building stone; and in most of the counties extensive quarries have been worked. Lime, waterlime, and gypsum are also extensively quarried.²

Mineral Springs are numerous, and are found in nearly every co. in the State. The most celebrated of these are the salt springs of Onondaga, the medicinal springs of Saratoga, and the thermal springs of Columbia co. Sulphur and chalybeate springs are common, and many of them have considerable notoriety for medicinal properties.³ In the w. part of the State springs emitting nitrogen and carburetted hydrogen gas are numerous. In the limestone regions of the State the water is generally more or less impregnated with carbonate and sulphate of lime; and in many places tufa is deposited in large quantities by the water. The slow dissolving of the limestone rocks has given a cavernous structure to several localities, and in others it has formed deep holes in the ground. The caves of Albany, Schoharie, and Jefferson cos. are doubtless formed in this manner; and the peculiar sink-holes and craterean lakes of Onondaga are probably formed by the breaking of the superincumbent mass into the caverns beneath.

SEAT OF GOVERNMENT.

THE SEAT OF GOVERNMENT was originally fixed at New York City, and remained there until the Revolution, with occasional adjournments of the General Assembly and Executive Department on account of prevailing sickness. Such of the public records as related to the immediate interests of the crown were removed, by order of Gov. Tryon, in Dec. 1775, to the armed ship *Duchess of Gordon*, and remained on board till Nov. 1781, when most of them were returned to the city.⁴ In June, 1776, the other public records were removed to Kingston, and, on the approach of the enemy in Oct. 1777, they were hastily taken to Rochester, Ulster county.⁵ They were soon afterward taken to Poughkeepsie, and in 1784 to New York. In 1797, commissioners were appointed to erect a building for the records in Albany, and an order dated July 31, 1798, authorized their removal thither⁶ and the permanent location of the seat of Government at that place.

The State House was begun in 1803 and finished in 1807, at the joint expense of the city and county of Albany and the State of New York. The original cost exceeded \$120,000, of which

¹ In many of the original patents of the mountainous regions upon the Hudson, reservations were made of all the gold and silver that might be found. To this day, however, these metals have not been found; though it is said that traces of silver have been discovered in several places.

² The following is a list of the most important quarries in the State:—

Gypsum is found in Cayuga, Madison, Onondaga, Wayne, Orleans, and Genesee.

Lime-stone is quarried in most of the counties of the State except those along the Penn. line.

Water-Limestone is quarried in Erie, Jefferson, Lewis, Madison, Montgomery, Niagara, Onondaga, and Ulster.

Flagging is found in most of the southern counties, and in various other localities. The thin bedded sand-stone of the Portage group furnishes the best varieties.

Building stone of excellent quality is found in nearly every section of the State. Granite and gneiss are extensively quarried in New York and Westchester and in the N. E. co. of the State. The Potsdam sand-stone, Black River limestone, the gray and Medina sand-stone, and the Onondaga limestone all furnish excellent building-stone. Most of the locks upon the Erie Canal are built of the last named stone. The shales of the Portage and Chemung group are separated into strata by hard, compact sand-stone, excellent for building or flagging.

Marble is found and quarried in Westchester, Putnam, Dutchess, and Orange cos.

Roofing slate is quarried in Washington, Rensselaer, Columbia, and Dutchess cos.

³ The principal of these springs are those of Messena, St. Lawrence cos.; Richfield, Otsego co.; Avon, Livingston co.; Sharon, Schoharie co.; New Lebanon and Stockport, Columbia co.; Chateaugay, Madison co.; and Alabama, Genesee co.

⁴ Six years' close confinement on shipboard damaged some of these records almost beyond remedy. The most valuable were transcribed in 1798, under the direction of commissioners appointed by law.

⁵ The first State Legislature, then in session, hastily adjourned and met in Jan. at Poughkeepsie. The citizens of Goshen rendered the hospitalities of their village and the use of rooms, at the Legislature chose to remove thither. In March, 1778, a concurrent resolution directed the secretary of State and the clerks of counties to put their records into strong and light enclosures, to be ready for instant removal in case of danger. The Legislature held its sessions at Poughkeepsie, Kingston, or Albany, as suited convenience until 1784 when it removed to New York. Two sessions were afterward held at Poughkeepsie, and three at Albany, before the final removal to the latter place in 1797.

⁶ Philip Schuyler, Abraham Ten Broeck, Jeremiah Van Rensselaer, Daniel Hale, and Thomas T. Van Vechten were appointed commissioners. The edifice stood on the site of the present Geological and Agricultural Hall, and was torn down in 1855.

\$34,200 was paid by the city and \$3,000 by the county of Albany. It continued to be used for city, county, and State offices and courts until about 1832, when the State became the exclusive owner and the Capitol was fitted up for legislative and other public purposes. It stands at the head of State Street, 130 feet above the Hudson, and has in front a park of three acres enclosed by an iron fence. It is substantially built of stone faced with Nyack red freestone.¹

The State Library is a fireproof building in the rear of the State House and connected with it by a long corridor. It is built of brick and iron and faced on its two fronts with brown freestone. It is already nearly filled with books, manuscripts, and maps, which the State has been collecting for many years.²

The State Hall, situated upon Eagle Street, fronting the Academy Park, was finished in 1842. It is built of cut stone, with a colonnade in front, supported by six Ionic columns, and is surmounted by a dome.³ It contains the offices of the Secretary of State, Comptroller, Treasurer, Auditor of Canal Department, Canal Appraisers, Canal Commissioners, State Engineer and Surveyor, Division Engineers, Clerk of Court of Appeals, Superintendent of Public Instruction, Superintendent of Bank Department, Attorney General, and State Sealer of Weights and Measures.

The State Geological and Agricultural Hall, corner of State and Lodge Sts., is the depository of the specimens collected during the geological survey, and also contains the cabinet of the State Agricultural Society.⁴

¹ It is 90 feet broad, 50 high, and was originally 115 feet long. In 1854, 15 feet were added to the W. end. The eastern front has an Ionic portico with four columns of Berkshire marble each 2 feet 8 inches in diameter and 23 feet high. The north and south fronts have each a pediment of 65 feet base; and the doorways are decorated with columns and angular pediments of freestone. The entrance hall is 40 by 60 feet and 16 feet high, the ceiling of which is supported by a double row of reeded columns, and the floor is vaulted and laid with squares of Italian marble. Upon the north side of the hall are the office of Adjutant General and the Assembly Library, and on the south side the Executive Chambers. The remainder of the first story is devoted to the Assembly Chamber with its lobbies and post-office. This chamber is now 56 by 65 feet and 28 feet high. The speaker's desk is on the W. side, and the desks of the clerks are upon each side and in front of it. Benches of numbers are arranged in semicircles in front. Upon the E. side is a gallery supported by iron pillars. The ceiling is richly ornamented in stucco. Over the speaker's seat is a copy by Ames of a full length portrait of Stewart's Washington. In the second story, over the entrance hall is the Senate Chamber, 40 by 50 feet and 22 feet high. The President's desk is upon the S. side, and the desks of the Senators are arranged in a circle in front. On the X. side are the library and cloak room of the Senate, and on the S. the post-office and room of the Sergeant at Arms. Over the President's seat is a raimon canopy, and opposite are the portraits of Gov. Geo. Clinton and Columbus. The latter was presented to the Senate in 1781 by Mrs. Farmer, a granddaughter of Gov. Loxley, and had been in her family 150 years. Over the Assembly lobbies is the room of the Court of Appeals, and in the third story are the consultation rooms of this court, committee rooms of both houses and part of the Senate Library. The courtroom of the Court of Appeals contains portraits of Chancellors Lansing, Sandford, Jones, and Walworth, Chief Justice Spencer, Abraham Van Vechten, and Daniel Cady. The inner Executive Chamber has a full size portrait of Gen. La Fayette, painted when he was in the city in 1825.

The roof of the State House is pyramidal, and from the center rises a circular cupola 20 feet in diameter, supporting a hemispherical dome upon 8 insulated Ionic columns. Upon the dome stand a wooden statue of Themis, 11 feet high, holding in her right hand a sword and in her left a balance.

² The State Library was founded April 21, 1818, and for nearly forty years was kept in the upper rooms of the Capitol. Its growth was comparatively slow until 1844, when its supervision was transferred from the State officers, who had been ex-officio trustees to the Regents of the University. Their secretary, the late Dr. T. Romeyn Beck, was eminently fitted for the task of building up an institution of this character. The library at the time of the transfer contained about 10,000 volumes. The number has increased during the subsequent 15 years to about 53,000. The present building, erected in 1853-54, is 114 feet long by 45 broad, was built at a cost of \$31,200, and opened to the public Jan. 2, 1855. The first floor is supported by stone pillars and grained arches, and the second floor and galleries by arched spans of iron filled with concrete. The roof, rafters, trusses, pillars, shelves, and principal doors are of iron, and the floors are paved with colored tile. The first story is devoted to the law department, and the second story to the general library, including a large number of costly presents from other Governments, a valuable series of MSS. and parchments relating to our colonial and early State history and an extensive collection of medals and coins. The office of the Regents of the University is in the library building.

The library, formerly known as the "Chancellor's Library,"

was divided in 1846, and, with additions since made, now forms two public libraries, called the "libraries of the Court of Appeals," one of which is located at Syracuse and the other at Colesburg. They consist chiefly of law books, and are in charge of librarians appointed by the Regents and paid by the State. There is also a small library for reference in the consultation room of the Court of Appeals. Each of the judges of the Supreme Court and the Vice-Chancellor of the Second District, under the late Constitution, held libraries owned by the State, which are for the use of the four judges of the Court of Appeals elected by the people of the State at large, and the four assessors in office. There is also a small library for the use of the Attorney General, and means are annually provided for the increase of each of these collections, chiefly from the income of money known as the "Chancellor's Library Fund" and "Attorney's Fund," which are kept invested by the Clerk of the Court of Appeals for this purpose.

³ This building is 138 by 88 feet and 65 feet high. The ceilings of the basement and of the two principal stories are grained arches, and all the rooms, excepting in the attic story, are fireproof. The basement and attic are each 19 feet, and the two principal stories each 22 feet high. The building cost about \$100,000.

⁴ In 1842 the old State Hall was converted into a geological hall, and rooms were assigned in the same building to the State Agricultural Society. The old building was torn down, and the present Geological and Agricultural Hall erected in its place in the summer of 1850. The Agricultural Rooms were dedicated Feb. 12, 1857, and the Cabinet was opened to the public Feb. 22, 1858. The present building is of brick, and is 4 stories high, besides the basement. In the rear is a spacious wing of the same height as the main building. It contains a lecture room, the spacious geological cabinet, and the rooms of the State Geological Society. The basement is occupied by a taxidermist and a printer. The building itself is subject to the order of the Commissioners of the Land Office. The Cabinet originated in the Geological Survey, and in extent and value it ranks among the first in America. Within the past year a series of English fossils has been given to the State by the British Government, and a valuable collection of shells, embracing several thousand species, has been recently presented and arranged by Philip Z. Carpenter, an English naturalist. The Museum is designed to embrace a complete representation of the geological formations of the State, with their accompanying minerals and fossils, and of its entire native flora and fauna. The birds and quadrupeds are preserved by a skilful taxidermist, with the attitudes and appearance of life; and the reptiles and fishes are particularly preserved and labeled. Connected with this cabinet is a historical and antiquarian department, embracing numerous aboriginal quantities and specimens of modern Indian art, relics of battle fields, and other objects of historical interest. The whole is under the charge of a curator appointed by the Regents. The museum of the State Agricultural Society, in a separate department of the building, contains a large collection of obsolete and modern implements of husbandry, specimens of agricultural and mechanical products, models of huts, samples of grains and soil, drawings illustrating subjects connected with the useful arts, and it is designed to include an extensive collection of insects, and with especial reference to showing their influence upon the fruit and grain crops of the State. The entomological department is in charge of Dr. Asa Fitch, who has been for several years employed by the Society in studying the habits of destructive insects, with the view to ascertaining the means of preventing their ravages. The whole of these collections are open to the public on every weekday except holidays. The meetings of the Executive Committee of the State Agricultural Society, and the winter fairs, are held in their rooms in this building.

STATE GOVERNMENT.

THE State Government consists of the Legislative, Executive, Judicial, and Administrative Departments: the powers and duties of the several officers being defined by the Constitution and regulated by law.

LEGISLATIVE DEPARTMENT.

The State Legislature is composed of a Senate and Assembly.

The SENATE consists of 32 members, chosen by single districts every two years, the whole number being chosen at once. The Lieut. Governor is *ex officio* President of the Senate, and has a casting vote in case of a tie. The Senate appoints a President *pro tem.*, who presides in the absence of the Lieut. Governor, and becomes *ex officio* Lieut. Governor in case of a vacancy in that office. The Senate with the Judges of the Court of Appeals forms a court for the trial of impeachments, and it ratifies or rejects the nominations of the Governor to a great number of offices.

The Senate elects the following officers: a clerk, sergeant-at-arms, assistant sergeant-at-arms, doorkeeper and assistants, librarian, and such other officers as may be deemed necessary.¹

The ASSEMBLY consists of 128 members, elected annually by single districts. The districts are re-apportioned once in ten years, after the State census is taken. The Speaker, or Presiding Officer of the Assembly, is elected by the members from their number, and usually appoints all committees. All bills upon financial matters must originate in the Assembly.

The Assembly elects the following officers: a Speaker, clerk, sergeant-at-arms, doorkeeper and two assistants. The Speaker appoints an assistant sergeant-at-arms, a postmaster and assistant, a janitor, keeper of the Assembly chamber, and several doorkeepers and pages.²

¹ The sergeant-at-arms is also librarian. The clerk appoints his deputies and assistants and the President appoints a janitor, superintendent of the Senate chamber, and pages. Committees are usually appointed by the Lieut. Gov. The appointments are made for two years. About half a dozen reporters are admitted to seats within the Senate chamber. Standing committees in the Senate consist of 3 members.

29. Genesee, Niagara, and Orleans Counties.
30. Allegany, Livingston, and Wyoming Counties.
31. Erie County.
32. Cattaraugus and Chautauque Counties.

² The clerk appoints his assistants and deputies, a librarian and assistant, a bank clerk, and a clerk's messenger. These officers are appointed for the session, except pages, who are changed in the middle of each session. Standing committees of the Assembly consist of 5 members, except those upon Ways and Means, the Judiciary, and Canals, each of which has 7 members. About 20 reporters are admitted and provided with seats within the bar. They usually share with members in extra appropriations for books, and in the privilege of mailing documents at the public expense.

SENATE DISTRICTS.

1. Queens, Richmond, and Suffolk Counties.
2. 1st, 2d, 3d, 4th, 5th, 7th, 11th, 13th, and 19th Wards of Brooklyn.
3. 6th, 8th, 9th, 10th, 12th, 14th, 15th, 16th, 17th, and 18th Wards of Brooklyn, and the towns of Kings County.
4. 1st, 2d, 3d, 4th, 5th, 6th, 7th, 8th, and 14th Wards of New York.
5. 10th, 11th, 13th, and 17th Wards of New York.
6. 9th, 15th, 16th, and 18th Wards of New York.
7. 12th, 19th, 20th, 21st, and 22d Wards of New York.
8. Putnam, Rockland, and Westchester Counties.
9. Orange and Sullivan Counties.
10. Greene and Ulster Counties.
11. Columbia and Dutchess Counties.
12. Rensselaer and Washington Counties.
13. Albany County.
14. Delaware, Schenectady, and Scholastic Counties.
15. Fulton, Hamilton, Montgomery, and Saratoga Counties.
16. Chilton, Essex, and Warren Counties.
17. Franklin and St. Lawrence Counties.
18. Jefferson and Lewis Counties.
19. Oneida County.
20. Herkimer and Otsego Counties.
21. Oswego County.
22. Oneida County.
23. Chenango, Cortland, and Madison Counties.
24. Broome, Tioga, and Tompkins Counties.
25. Cayuga and Wayne Counties.
26. Ontario, Seneca, and Yates Counties.
27. Chenango, Schuyler, and Steuben Counties.
28. Monroe County.

ASSEMBLY DISTRICTS.

[These Counties not enumerated in this list form but one District. Fulton and Hamilton form one District.]

ALBANY COUNTY.—FOUR DISTRICTS.

1. 1st Ward of Albany, Bethlehem, Coeymans, New Scotland, Rensselaerville, and Westerlo.
2. 9th and 10th Wards of Albany, Bern, Guelderland, and Knox.
3. 2d, 3d, 4th, 5th, 6th, and 8th Wards of Albany.
4. 7th Ward of Albany and Watervliet.

ALLEGANY COUNTY.—TWO DISTRICTS.

1. Allen, Almond, Angolia, Belfast, Birdsall, Burns, Cananda, Centerville, Granger, Grove, Hume, New Hanson, Rushford, and West Almond.
2. Alfred, Alma, Amity, Andover, Bolivar, Clarksville, Cuba, Friendship, Genesee, Independence, Scio, Ward, Wellsville, Willing, and Wirt.

CATTARAUGUS COUNTY.—TWO DISTRICTS.

1. Allegany, Ashford, Carrollton, Elgin, Farmersville, Franklinville, Freedom, Hunsdale, Humphrey, Ischua, Machias, Olean, Portville, and Yorkshire.

The sessions of the Legislature commence on the first Tuesday in January, and members can only receive pay for 100 days. The business of each year begins *de novo*; but if an extra session is called by the Governor, bills are taken up where they were left at the last previous adjournment. Each house decides upon the qualifications of its own members; and both houses must concur in the election of U. S. Senators, Regents of the University, and Superintendent of Public Instruction. Bills, except measures of finance, may originate in either house, and must be

2. Buckhorth, Codd-pring, Conewango, Dayton, Ellicottville, East Otto, Great Valley, Leon, Little Valley, Mansfield, Napoli, New Albion, Otto, Ferrysburgh, Persis, Randolph, and South Valley.

CAYUGA COUNTY.—TWO DISTRICTS.

1. Brutus, Cato, Conquest, Ira, Montz, Montezuma, Sennett, Sterling, Throop, Victory, and the 1st and 4th Wards of Auburn.
2. Aurelius, Fleming, Genoa, Ledyard, Locke, Moravia, Niles, Owasco, Scipio, Seneca, Springport, Summer Hill, Venice, and the 2d and 3d Wards of Auburn.

CHAUTAQUE COUNTY.—TWO DISTRICTS.

1. Burti, Chautauque, Clymer, Elery, French Creek, Harmony, Mina, Portland, Ridley, Sherman, Stockton, and Westfield.
2. Arkwright, Carroll, Charlotte, Cherry Creek, Ellicott, Ellington, Gerry, Hanover, Kiantone, Poland, Pomfret, Sheridan, and Villenova.

CHENANGO COUNTY.—TWO DISTRICTS.

1. Columbus, Linckola, New Berlin, North Norwich, Norwich, Otsego, Pharsala, Picher, Plymouth, Sherburne, and Smyrna.
2. Afton, Bainbridge, Coventry, German, Guilford, Greene, McDonough, Oxford, Preston, and Smithville.

COLUMBIA COUNTY.—TWO DISTRICTS.

1. Aneram, Claverack, Clermont, Copake, Galatin, German-town, Greenwich, Hudson City, Livingston, and Tughrick.
2. Anstettitz, Canaan, Chatham, Glent, Hillsdale, Kinderhook, New Lebanon, Stockport, and Stuyvesant.

DELAWARE COUNTY.—TWO DISTRICTS.

1. Colchester, Delhi, Franklin, Hamden, Hancock, Masonville, Sidney, Tompkins, and Walton.
2. Andes, Bovina, Davoutport, Harpersfield, Kortright, Meredith, Middleton, Roxbury, and Stamford.

DUTCHESS COUNTY.—TWO DISTRICTS.

1. Amenia, Beekman, Dover, East Fishkill, La Grange, North-east, Pawling, Pine Plains, Stanford, Union Vale, and Washington.
2. Clinton, Hyde Park, Milan, Pleasant Valley, Poughkeepsie, City of Poughkeepsie, Red Hook, and Klunbeck.

ERIE COUNTY.—FOUR DISTRICTS.

1. 1st, 2d, 3d, 4th, 5th, and 13th Wards of Buffalo.
2. 6th, 7th, 8th, 9th, 10th, 11th, and 12th Wards of Buffalo.
3. Alden, Amherst, Chicktown, Clarence, Elma, Grand Island, Hamburg, Lancaster, Marilla, Newstead, Tonawanda, and West Seneca.
4. Aurora, Boston, Brandt, Colton, Collins, Concord, East Hamburg, Eden, Evans, Holland, North Collins, Sardonia, and Wales.

HERKIMER COUNTY.—TWO DISTRICTS.

1. Fairfield, Herkimer, Little Falls, Manheim, Newport, Norway, Ohio, Russia, Salisbury, and Wilmar.
2. Columbia, Dumbs, Frankfort, German Flats, Litchfield, Schuyler, Stark, Warren, and Winfield.

JEFFERSON COUNTY.—THREE DISTRICTS.

1. Adams, Brownville, Ellisburgh, Henderson, Hounsfield, Lorraine, Rodman, and Worth.
2. Antwerp, Champlain, Le Ray, Philadelphia, Rutland, Watertown, and Wilna.
3. Alexandria, Cape Vincent, Clayton, Lyme, Orleans, Pamela, and Theresa.

KINGS COUNTY.—SEVEN DISTRICTS.

1. Flatbush, Flatlands, Gravesend, New Lots, New Utrecht, and the 8th, 17th, and 18th Wards of Brooklyn.
2. 1st, 6th, and 12th Wards of Brooklyn.
3. 4th and 10th Wards of Brooklyn.
4. 2d, 3d, and 5th Wards of Brooklyn.
5. 9th and 11th Wards of Brooklyn.
6. 13th, 14th, and part of 15th Wards of Brooklyn.
7. 7th, 15th, both, and part of 16th Wards of Brooklyn.

LIVINGSTON COUNTY.—TWO DISTRICTS.

1. Avon, Caldwain, Canastota, Genesee, Groveland, Leicester, Lima, Livonia, and York.
2. Mount Morris, North Danville, Nunda, Ossian, Portage, Sparta, Springwater, and West Sparta.

MADISON COUNTY.—TWO DISTRICTS.

1. Brookfield, De Ruyter, Eaton, Georgetown, Hamilton, Lebanon, Madison, and Nelson.
2. Cazenovia, Fenner, Lenox, Smithfield, Stockbridge, and Sullivan.

MONROE COUNTY.—THREE DISTRICTS.

1. Brighton, Henrietta, Irondequoit, Mendon, Penfield, Perrinton, Pittsford, Rush, and Webster.
2. The City of Rochester.
3. Chili, Clarkson, Gates, Greece, Ogdun, Parma, Riga, Sweden, Union, and Wheatland.

NEW YORK CITY AND COUNTY.—SEVENTEEN DISTRICTS.

17 districts, corresponding to Aldermanic districts.

NIAGARA COUNTY.—TWO DISTRICTS.

1. Lockport, Pendleton, Royalton, and Wheatfield.
2. Camhria, Hartland, Lewiston, Newfane, Niagara, Porter, Somerset, and Wilson.

ONEIDA COUNTY.—FOUR DISTRICTS.

1. Deerfield, City of Utica, and Whites-town.
2. Augusta, Bridgewater, Kirkland, Marshall, New Hartford, Paris, Sangerfield, Vernon, and West-on-the-land.
3. Camden, Florence, Rome, Verona, and Vienna.
4. Amesville, Ava, Brownville, Floyd, Lee, Marcy, Remsen, Steuben, Trenton, and Western.

ONONDAGA COUNTY.—THREE DISTRICTS.

1. Camillus, Clay, Elbridge, Lysander, Marcellus, Skaneateles, Stafford, and Van Buren.
2. Cicero, Salina, and Syracuse.
3. De Witt, Fabius, Geddes, La Fayette, Manlius, Onondaga, Otisco, Pompey, and Tully.

ONTARIO COUNTY.—TWO DISTRICTS.

1. Farmington, Gorham, Hopewell, Manchester, Phelps, and Seneca.
2. Bristol, Canadice, Cananotigua, East Bloomfield, Naples, Richmond, South Bristol, Victor, and West Bloomfield.

ORANGE COUNTY.—TWO DISTRICTS.

1. Blooming Grove, Chester, Cornwall, Monroe, Montgomery, Newburgh, and New Windsor.
2. Crawford, Deerpark, Goslen, Greenville, Hamptonburgh, Minerva, Mount Hope, Walkhill, Watwick, and Wawayanda.

OSWEGO COUNTY.—THREE DISTRICTS.

1. City of Oswego, Hannibal, Oswego, and Sodus.
2. Constantia, Grady, Hastings, Palermo, Schroepfel, Volney, and West Monroe.
3. Albion, Amby, Boylston, Mexico, Orwell, Parish, Redfield, Richland, Sandy Creek, New Haven, and Williamstown.

OTSEGO COUNTY.—TWO DISTRICTS.

1. Cherry Valley, Deceator, Excelsior, Maryland, Middlefield, Otsego, Plainfield, Richfield, Roschbaum, Springfield, Westford, and Worcester.
2. Unadilla, Burlington, Bitternuts, Edineston, Hartwick, Laurens, Milford, Morris, New Lisbon, Otsego, Oneonta, and Pittsfield.

QUEENS COUNTY.—TWO DISTRICTS.

1. Flushing, North Hempstead, and Oyster Bay.
2. Hempstead, Jamaica, and Newtown.

RENSELAER COUNTY.—THREE DISTRICTS.

1. City of Troy.
2. Berlin, Grafton, Hoosick, Lansingburgh, Peterburgh, Pitts-town, and Schaghticoke.
3. Brunswick, Clinton, Greenbush, Nassau, North Greenbush, Poestenkill, Sand Lake, Schoharck, and Stephentown.

ST. LAWRENCE COUNTY.—THREE DISTRICTS.

1. De Kalb, De Peyster, Fine, Fowler, Gouverneur, Macomb, Morrisstown, Oswegatchie, Pitcairn, and Rossie.
2. Canton, Colton, Edwards, Harmon, Lisbon, Madrid, Norfolk, Pierrepont, and Russell.
3. Brasler, Hopkinton, Lawrence, Louisville, Massena, Parishville, Potsdam, and Stockholm.

SARATOGA COUNTY.—TWO DISTRICTS.

1. Ballston, Charlton, Clifton Park, Galway, Halfmoon, Malta, Milton, Stillwater, and Waterford.
2. Corinth, Day, Edinburgh, Greenfield, Hadley, Moreau, Northumberland, Providence, Saratoga, Saratoga Springs, and Wilton.

passed by both, and receive the signature of the Governor,—or, if vetoed by him, the votes of two-thirds of both houses,—to become laws. The original laws of the Legislature, bearing the signatures of the presiding officer of each house and of the Governor and Secretary of State, are bound, and preserved in the Secretary's office. All general laws are published in such newspapers in each county as may be designated by the Board of Supervisors.

Besides the State Legislature, a limited power of enacting laws is possessed by the boards of supervisors in the several counties, by the common councils of cities, and by citizens generally assembled in town and school district meetings.

The Board of Supervisors meets annually at the county seat, on the week following the general election, to canvass the votes for State and county officers; it may hold special meetings at any time. It has power to appoint a clerk of the board, a county sealer of weights and measures, special commissioners for laying out roads, printers for publishing the general laws, inspectors of turnpike and plank roads, and, in some counties, the Superintendent of the Poor, and other officers, and to fix the salaries of the county Judge and Surrogate, and of School Commissioners, (above \$500, allowed by law.) and, in some counties, the salary of the District Attorney; to establish the bounds of assembly and school commissioner districts, to fix upon town meeting days,¹ to make orders concerning property owned by the county, and to repair or rebuild the county buildings; to audit and settle charges against the county, and the accounts of town officers; to equalize assessments and levy taxes to meet county expenses, and for such special purposes as may be directed by law. It also has power to alter the bounds of towns, and to erect new towns; to change the location of the county seat and purchase sites for the erection of new buildings; and to examine annually the securities held by loan commissioners. It may pass laws for the preservation of game or fish, and for the destruction of noxious animals, and perform such other duties as may be from time to time authorized by law.

STEBUEN COUNTY.—THREE DISTRICTS.

1. Avoca, Bath, Bradford, Conhoben, Prattsburgh, Pulteney, Urbana, Wayne, and Wheeler.
2. Addison, Cameron, Campbell, Caton, Corning, Erwin, Hornby, Lindley, Bathbone, Thurston, and Woodhull.
3. Canisteo, Dansville, Fremont, Greenwood, Hornellsville, Howard, Hartsville, Jasper, Troupsburgh, West Union, and Wayland.

SUFFOLK COUNTY.—TWO DISTRICTS.

1. East Hampton, Riverhead, Shelter Island, Southampton, and Southold.
2. Brookhaven, Huntington, Islip, and Smithtown.

PLASTER COUNTY.—THREE DISTRICTS.

1. Hurley, Kingston, and Sangerties.
2. Espous, Gardiner, Lloyd, Marlbtown, Marlborough, New Paltz, Plantkill, Rosendale, and Shawangunk.
3. Downing, Hardenburgh, Olive, Rochester, Shandaken, Wawarsing, and Woodstock.

WASHINGTON COUNTY.—TWO DISTRICTS.

1. Argyle, Cambridge, Easton, Fort Edward, Greenwich, Jackson, Salem, and White Creek.
2. Dresden, Fort Ann, Granville, Hampton, Hartford, Hebron, Kingsbury, Putnam, and Whitehall.

WAYNE COUNTY.—TWO DISTRICTS.

1. Butler, Galen, Huron, Lyons, Rose, Savannah, Sobus, and Wolcott.
2. Arcadia, Macedon, Marion, Ontario, Pahrnya, Walworth, and Williamson.

WESTCHESTER COUNTY.—THREE DISTRICTS.

1. East Chester, Morrisania, Westchester, West Farms, and Yonkers.
2. Greenburgh, Harrison, Mamaroneck, Mount Pleasant, New Rochelle, North Castle, Pelham, Poundridge, Rye, Scarsdale, and White Plains.
3. Bedford, Cortlandt, Lewisboro, New Castle, North Salem, Ossining, Somers, and Yorktown.

TOWN MEETINGS.

Town meetings are held on the same day throughout the county; and the time may be changed once in 3 years. The town meetings must come between the 1st day of Feb. and the 1st of May. They are at present all held on Tuesdays, as follows:—

COUNTIES.	Tuesdays upon which Town Meetings are held.	COUNTIES.	Tuesdays upon which Town Meetings are held.	COUNTIES.	Tuesdays upon which Town Meetings are held.
Albany.....	24 in April.	Herkimer....	1st in March.	Richmond ...	24 in Feb.
Allegany.....	24 in March.	Jefferson....	24 in Feb.	Rochland....	24 in April.
Bronx.....	24 in Feb.	Kings.....	1st in April.	St Lawrence	24 in Feb.
Cattaraugus	Last in Feb.	Lewis.....	24 in Feb.	Saratoga....	1st in March.
Cayuga.....	1st after 1st Mon. in Mar.	Livingston 2	1st in April.	Schenectady	1st in April.
Chautauque	24 in Feb.	Madison.....	1st in March.	Schoharie...	24 in Feb.
Chemung....	24 after 1st Mon. in Feb.	Monroe.....	1st after 1st Mon. in Mar.	Schuyler....	24 in Feb.
Chemung....	1st in March.	Montgomery	24 in Feb.	Suffolk.....	24 in March.
Clinton....	1st in March.	New York....		Stenben....	24 in Feb.
Columbia....	1st in March.	Niagara.....	24 in April.	Sullivan....	1st in April.
Cortland....	24 in Feb.	Oneida.....	1st in March.	Tioga.....	1st after 1st Mon. in Mar.
Delaware....	24 in Feb.	Ontonaga....	24 in Feb.	Tompkins...	1st in April.

Genesee....	1st in March.	Otsego.....	1st in March.	Westchester	Last in March.
Greene.....	1st in Feb.	Putnam.....	1st after 1st Mon. in April.	Wyoming....	Last in Feb.
Hamilton...	1st in Feb.	Queens....	1st in April.	Yates.....	Last in Feb.
		Rensselaer...	1st in March.		

At these meetings are elected, by ballot, a supervisor, town clerk, 4 justices, (with exceptions named on page 34, 3 assessors (of 3 years, 1 annually), a collector, 1 or 2 overseers of poor, and the option of the town, excepting Montgomery and Kings cos. that are not included in the general law,) 1 or 3 commissioners of highways, (if 3, one elected annually for 3 years, not more than 2 constables and 2 inspectors of election for

each election district, a third being appointed by the presiding officer of the town meetings from the two having the next highest vote. The town of Manlius elects 7 constables. Each town at its annual meeting also elects by votes and moos, or otherwise as many overseers of highways as there are road districts, and as many pound masters as the electors may determine.

The Common Council in each of the cities has jurisdiction over municipal affairs within limits fixed by law, and observes the usual formalities of legislative bodies in its proceedings. Two aldermen are generally elected from each ward, who, with the mayor, constitute the Common Council; but the organization of no two cities is in this respect exactly alike.¹ The enactments of the Common Council are usually termed "ordinances," and have the force of law. The council usually has the appointment of a large class of minor city officers, including the keepers of parks and public buildings, inspectors of various kinds, and in some instances the officers and members of the police and fire departments. These appointments are usually held at the pleasure of the appointing power.

Town Meetings may pass laws regulating roads and bridges, the height of fences, the support of the poor, the range of animals, the destruction of noxious weeds, the preservation of town property, and for such other purposes as may be directed by special acts. Every town is a corporate body, may sue and be sued, may hold and convey lands within its limits for purposes specified by law, and may appropriate moneys for public objects within the town.

School Districts, at regular meetings, may pass rules concerning the support of schools, employment of teachers, repairs, supplies, and similar affairs, which have the force of law.

EXECUTIVE DEPARTMENT.

The Governor is elected once in two years.² He is commander-in-chief of the military and naval forces of the State, and possesses the sole power of granting pardons and commutations of sentence after conviction.³ He issues requisitions for the return of criminals in other States, and he is authorized to offer rewards for the arrest of criminals within this State. He annually communicates to the Legislature, at the commencement of each session, a statement of the condition of the public departments, and such other matters as he may deem necessary. On extraordinary occasions he may convene the Senate or Legislature.⁴ Within ten days after its passage by the Legislature, he may veto any act, by returning it to the house in which it originated, with his objections; and such act can become a law only by the concurrence of two-thirds of both houses.⁵

The Governor nominates, for appointment by the Senate, a large class of State and county and a few military officers,⁶ and may fill vacancies occurring in these offices during the recess of the Senate. Some other classes of officers are appointed by the Governor alone,—generally for specific terms, but in some cases during pleasure. He may also fill vacancies occurring in elective offices, and

¹ In New York, the Common Council consists of two branches,—the Board of Aldermen, consisting of 17 members, chosen for 2 years; and the Board of Councilmen, consisting of 24 members, chosen annually, 6 from each senatorial district. Each of these branches elects one of its own number president; and the mayor possesses a veto power upon their laws analogous to that of the Governor upon those of the State Legislature.

² To be eligible to the office of Governor a person must be a citizen of the U. S., a resident of the State for the last 5 years previous to election, and must have attained the age of 30 years. The colonial governors of N. Y. were appointed by the crown. Under the Constitution of 1777 they were elected for 3 years, and were required to be freeholders. Under the Constitution of 1822, the governor was elected for 2 years, and, in addition to the present qualifications, was required to be a native of the U. S. and a freeholder.

³ Under the first State Constitution, debtors were classified, and only those owning freehold property worth \$250 and upward were allowed to vote for Senators and Governor. The aggregate of the several classes at different periods has been as follows:—

YEARS.	Worth \$250 and upward.	Worth \$50 to \$250.	Not freeholders, but owning no lands worth \$5.	Other debtors.	Total.
1790.....	19,569	23,425	14,674	138	57,606
1795.....	36,328	4,838	22,598	243	64,017
1801.....	52,058	5,264	28,522	63	85,907
1807.....	71,159	5,800	44,239	88	121,286
1814.....	87,491	5,231	59,104	20	151,846
1821.....	166,490	8,985	93,065	20	268,560

³ In cases of treason and impeachment the Governor can only suspend sentence until the next session of the Legislature, that body alone possessing the pardoning power in such cases. Under the Constitution of 1777, the same restriction was applied in cases of murder.

⁴ He also possessed under the Constitution of 1777 the power to prorogue the Legislature for a period not exceeding 60 days in one year. This was once done by Gov. Tompkins, to delay the passage of a bank charter, but without success.

⁵ The first court created a council of revision, consisting of the Governor, Chancellor, and judges of the Supreme Court, who sat with closed doors and observed the usual formalities of legislative proceedings. During the continuance of this council it reported 144 bills, several of which became laws notwithstanding.

⁶ The following officers are appointed by the Governor and Senate: 1 Superintendent of Bank Department, 1 Auditor of Canal Department, 3 Canal Assessors, 1 Superintendent of Onondaga Salt Springs, 6 Commissioners of Emigration, 5 Commissioners of Metropolitan Police, 11 Harbor Masters, 9 Wardens of the Port of N. Y., 2 special Wardens to reside at Canton, 1 Harbor Master at Albany, 1 Health Officer at Canton, 1 Physician of Marine Hospital and not less than 4 surgeons, 1 Resident Physician and 1 Health Commissioner for the city of New York, 1 Agent for the Onondaga Nation, 1 Attorney for Seneca Nation, directors in certain banks of which the State holds stock according to the amount held, as many 100,000 pilots as the Board of Wardens may require, 5 trustees of the idiot Asylum, 9 trustees of State Lunatic Asylum, 2 commissioners in each county for loaning moneys of the United States, as many notaries public as the law may allow or the Governor determine, and such other officers and special commissioners as are required from time to time by law. He appoints full officers of regiments and generals of brigades, when such regiments and brigades are not fully organized. Under the first constitution, almost every civil and military office was filled by the Council of Appointment, consisting of the Governor and 4 Senators, chosen annually by the Assembly. In 1821, 8247

may remove, under limitations prescribed by statute, most State and county officers.¹ He has a private secretary, with a salary of \$2000, a clerk and a doorkeeper.

The Lieutenant Governor is elected at the same time as the Governor, and must possess the same qualifications. He discharges the duties of Governor when a vacancy occurs in that office. He is President of the Senate, having the casting vote in that body, a Commissioner of the Canal Fund and of the Land Office, a member of the Canal Board, a trustee of the Idiot Asylum and of Union College, a Regent of the University, and a trustee of the Capitol and State Hall.

The Secretary of State² is keeper of the State archives; is a Regent of the University, a Commissioner of the Land Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, a trustee of the State Idiot Asylum, of Union College, of the Capitol, and of the State Hall. He has specific duties in relation to the publication and distribution of the laws; the issuing of patents for land, of commissions, pardons, and peddlers' licenses; the filing of the declarations of aliens, and the articles of association of companies under general laws; issuing notices of elections, receiving and reporting statistics of pauperism and crime from sheriffs and county clerks, and furnishing certified copies of laws and other documents in his office. He administers the oath of office to members of the Assembly, and other State officers. His deputy is *ex officio* Clerk of the Commissioners of the Land Office.

The Comptroller³ is the auditor of the public accounts, excepting those payable from the Canal and Bank Funds; a Commissioner of the Land Office and of the Canal Fund; a member of the Canal Board and of the Board of State Canvassers, and a trustee of the Idiot Asylum, of Union College, of the Capitol and State Hall. He has responsible duties in relation to the payment of appropriations made by the Legislature, the collection of taxes, and sale of lands sold for taxes, the management of funds, supervision of fire and life insurance companies, loaning of moneys, and other duties connected with the finances of the State. He reports annually to the Legislature the condition of the public funds, the receipts and expenses of the State, the condition of insurance companies, and upon such other matters as he may from time to time be called upon by the Legislature for information. He has a deputy, an accountant, and about a dozen clerks.

The Treasurer⁴ receives all moneys paid into the treasury, and pays all warrants of the Comptroller, Auditor of the Canal Department, Superintendent of the Bank Department, and Superintendent of Public Instruction. He is a Commissioner of the Land Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, and a trustee of Union College. He has a deputy, and two or three clerks.

The Attorney General⁵ is the legal prosecutor and adviser in behalf of the State. He is a

military and 6,663 civil officers held under this appointment, and most of them at will. From 1822 to 1846, the Governor and Senate appointed, in addition to most of these, they now appoints, all judicial officers, except justices, Masters and Examiners in Chancery, Supreme Court Commissioners, inspectors for commercial purposes, Commissioners of Deeds, several city officers, and State Prison Inspectors.

¹ Representatives in Congress and members of the State Legislature can be elected only. The Governor appoints, on his own authority, Commissioners for taking acknowledgments of deeds in other States and countries, wreck masters, and certain commissioners directed to be appointed for special purposes.

² The Secretary of State was formerly Clerk of the Council of Appointment and of the Council of Revision; and from 1823 to 1834 was Superintendent of Schools. In colonial times he was appointed by the crown; from 1777 to 1822, by the Council of Appointment; and from 1822 to 1846, by the Legislature.

³ This office was created in 1791, in place of that of Auditor General, formed by the Provincial Convention; but it was not permanently organized until 1812. The Comptroller was appointed by the Council of Appointment until 1822, when the appointing power was changed to the Legislature, and the tenure of the office fixed at 3 years.

⁴ The office of Treasurer, under the colonial government and early years of state government, was a very important one, and for many years after 1777, the Treasurer was appointed by special act from year to year. About the beginning of the present

century, the detailing of a Treasurer occasioned a revision of the law creating the department; and from his being the principal financial officer of the government, the Treasurer became the most important, and his powers were narrowed down to the payment of the drafts of other officers. For many years previous to 1822, he was appointed by the Council of Revision; and from 1822 to 1846, by the Legislature. The accounts of the Treasurer are annually compared with those of the Comptroller, Superintendent of Bank Department, and Auditor of the Canal Department, by a commissioner, appointed for the purpose; and these officers thus become a check upon each other. The Treasurer may be suspended for cause, by the Governor, in the recess of the Legislature.

⁵ This office has existed almost from the beginning of the Colonial government. It was filled by the Council of Appointment from 1777 to 1822, and by the Legislature, with a term of 3 years, from 1822 to 1846. The Attorney General originally attended the circuits of Oyer and Terminer, as prosecutor in criminal suits, until 1795, when the State was divided into 8 districts, each of which an assistant Attorney General was appointed, except in New York, where the head officer officiated personally. In 1818 each co. was made a separate district, and a District Attorney was appointed in each. The Attorney General still occasionally attends upon important criminal trials; but his time is chiefly occupied in civil suits in which the State is a party.

Commissioner of the Land Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, and a trustee of Union College, of the Capitol, and State Hall. He has a deputy and a clerk.

The State Engineer and Surveyor¹ has charge of the engineering department of the canals and such land surveys as involve the interests of the State. He reports annually the statistics of these departments and of railroads. He is a Commissioner of the Land Office, a member of the Canal Board and Board of State Canvassers, and a trustee of Union College and the State Hall. He must be a practical engineer. He is assisted by a deputy and 3 clerks.

JUDICIAL DEPARTMENT.

United States Courts.—The second of the U. S. Courts comprises New York, Vermont, and Connecticut. A court is held twice a year in each State by a Justice of the Supreme Court and the District Judge of the district in which the court sits.

The State of New York is divided into two Judicial Districts, in each of which is held a District Court.² The officers of this court in each district are a District Judge, Attorney, Marshal, and Clerk. In the Southern District a term is held in each month, at New York; and in the Northern District one term is held each year at Albany, Utica, Auburn, and Buffalo, and one term annually in St. Lawrence, Clinton, or Franklin co., as the Judge may direct.³ These courts have nearly concurrent original jurisdiction in all matters in which the United States is a party; and they take cognizance of offenses against the laws of the U. S. An appeal lies from the District to the Circuit Court, and thence to the Supreme Court.

State Courts.—The State Courts consist of a Court for the Trial of Impeachments, the Court of Appeals, the Supreme Court and Court of Oyer and Terminer, the County Court and Court of Sessions, Justices Courts, and City Courts.

The Court for the Trial of Impeachments consists of the Senate and the Judges of the Court of Appeals. Its judgments extend only to removal of officials and to disqualification for holding office.⁴ Parties impeached are liable to all the penalties of the civil and criminal laws. This court is a court of record; its meetings are held at Albany.

The Court of Appeals,⁵ instituted in 1847, is composed of 8 judges, 4 of whom are elected, (one every 2 years,) and 4 of whom are the Judges of the Supreme Court, having the shortest term to serve. The judge elected having the shortest term to serve is Chief Judge; and 6 judges constitute a quorum. This court has power to correct and reverse all proceedings of the Supreme Court, or of the former Supreme Court, and Court of Chancery. It holds 4 terms a year at the Capital; and every 2 years one term must be held in each Judicial District. Its clerk has an office in the State Hall, where the records of this and former State and Colonial Courts are preserved. The State Reporter prepares for the press and publishes the decisions of the court, copies of which are sent to each

county, and franked, under the Governor's hand, to each of the other States and Territories of the Union.

¹ This office takes the place of that of "Surveyor General," which existed under the colony. In the earlier years of the State Government, numerous and responsible duties were imposed upon this officer, under acts for the sale and settlement of lands, the adjustment of disputed titles, boundaries, and Indian claims, laying out roads, and business relating to the salt springs, reserved village plats, and other State property. These duties were discharged from 1784 to 1834 by Simeon De Witt, with great integrity and success.

The Secretary of State, Comptroller, Treasurer, Attorney General, and State Engineer are elected biennially at the same time,—their election occurring on alternate years from those of the election of the Governor and Lieut. Governor.

² *United States District Courts.*—There are two Districts within this State. The Southern District embraces Columbia, Greene,

Ulster, Sullivan, and the counties South. The Northern District embraces the remainder of the State.

³ The United States has caused or ordered buildings to be erected in part for the accommodation of these courts at New York, Utica, Buffalo, Ogdensburg, Cananahua, and Plattsburgh. These edifices are of the most substantial kind and generally fireproof.

⁴ This court has assembled but once. In 1853 it was convened for the trial of impeachment of John C. Mather, Canal Commissioner. He was acquitted.

⁵ *Constitution, Art. VI, Sec. 2.* This court takes the place of the former "Court for the Correction of Errors," and in some respects fills that of the old Supreme Court and Court of Chancery.

The Supreme Court.—The State is divided into 8 Judicial Districts,¹ in each of which, except the first, 4 justices are elected. The clerks of counties are clerks of this court. It has general jurisdiction in law and equity, and power to review the judgments of the County Courts and of the former Court of Common Pleas. This court has three distinct branches,—General Terms, Special Terms, and Circuits. The *General Term* held by three or more of the Supreme Judges, including the presiding judge, is an appellate court for the review of cases from the courts below, and for deciding solely upon questions of law. *Special Terms* are held by one Supreme Judge, without a jury, for the decision of equity cases; and *Circuit Courts* are held by one Supreme Judge, with a jury, for the trial of issues of fact. At least four general terms of this court are held in each district every year. Every county (except Hamilton) has at least one special and two circuit courts annually. A general term of the Supreme Court is held at the Capital in January of each alternate year, for the purpose of arranging the terms of all the Circuit Courts and Courts of Oyer and Terminer, of assigning the business and duties of the justices, and revising the rules of the court.

County Courts are held by the County Judge,² assisted by two justices of the peace elected annually for the purpose. The judge performs the duty of surrogate, except in counties where the population exceeds 40,000, in which the Legislature may provide for the election of a separate officer as surrogate.³ The Legislature may direct the election of local officers, not exceeding two in any county, to discharge the duties of judge and surrogate in case of inability or vacancy in that office, and to exercise such other powers as may be provided by law.⁴ Judges and surrogates receive a salary fixed by the Supervisors, and which cannot be increased during their term of office.

County Courts have jurisdiction in civil cases when the real estate, or all the defendants, or all the parties interested are within the co., and where the action of debt assumpsit or covenant claimed is not above \$2,000, or in actions for injury to the person, or trespass upon property, where the damage claimed does not exceed \$500; or in replevin suits where the value claimed is not above \$1,000. These courts have equity jurisdiction for the foreclosure of mortgages, the sale of the real estate of infants, the partition of lands, admeasurement of dower, the satisfaction of judgments over \$75, and the care and custody of lunatics and habitual drunkards. Surrogate's Courts are held by the County Judge or Surrogate, (in counties where the latter is elected,) and have the ordinary jurisdiction of Courts of Probate.

Justices' Courts are held by justices of the peace, who have jurisdiction in civil suits where the sum claimed does not exceed \$100 in value.⁵ They have jurisdiction in criminal cases for imposing fines to the amount of \$50, and of inflicting imprisonment in the county jail for a term not exceeding 6 months.⁶

Tribunals of Conciliation may be established, and their powers and duties prescribed by law; but their judgments are not obligatory unless the parties previously agree to abide by such decision.⁷

City Courts. In each of the cities and in several of the larger villages are courts of local jurisdiction organized under special laws.⁸

¹ *New York State Judicial Districts under the Act of May 8, 1857.*—

1. City and County of New York.
2. Dutchess, Kings, Orange, Putnam, Queens, Richmond, Rockland, Suffolk, and Westchester Counties.
3. Albany, Columbia, Greene, Rensselaer, Schoharie, Sullivan, and Ulster Counties.
4. Clinton, Essex, Franklin, Fulton, Hamilton, Montgomery, St. Lawrence, Saratoga, Schenectady, Warren, and Washington Counties.
5. Herkimer, Jefferson, Lewis, Oneida, Onondaga, and Oswego Counties.
6. Broome, Chemung, Chenango, Cortland, Delaware, Madison, Otsego, Schuyler, Tioga, and Tompkins Counties.
7. Cayuga, Livingston, Monroe, Ontario, Seneca, Steuben, Wayne, and Yates Counties.
8. Allegany, Cattaraugus, Chautauque, Erie, Genesee, Niagara, Orleans, and Wyoming Counties.

² From 1777 to 1822 Judges were appointed by the Council of Appointment; and from 1822 to 1846, by the Governor and Senate. One in each co. was styled "*First Judge*;" and a fixed number (subsequently 4) of others were called Judges.

³ Surrogates are elected in Albany, Cayuga, Chautauque, Columbia, Dutchess, Erie, Jefferson, Kings, Monroe, New York, Oneida, Onondaga, Ontario, Orange, Otsego, Rensselaer, St. Lawrence, Saratoga, Ulster, Washington, Wyoming, and Yates cos.

⁴ *Constitution, Art. VI, Sec. 15.* special acts have been passed for this purpose, as follows:—*Special Judge and Special Surrogate in Cayuga, Chautauque, Jefferson, and Oswego, 1849; Washington, 1855. Special Judge in Oneida, Orange, St. Law-*

rence, and Tioga 1849; Ulster, 1850; Chenango, 1851; Sullivan, 1854; Essex, 1857; and Tompkins, 1858. The term for which these others are elected is 3 years, except in Chenango, Tompkins and Ulster, in which it is 4 years.

⁵ There are 4 justices elected in each town except Champlain, Ellburgh, Fort Ann, Hanover, Harmony, Herk., Lenox, Niagara, Pointed, Potsdam, which have each 5, and Brookhaven, which has 8. Justices were appointed by the Council of Appointment from 1777 to 1822, and by the Supervisors and Judges from 1824 to 1827, since which they have been elected.

⁶ *Revised Statutes, Art. I, Title 4, Chap. 2, Part 3.*

⁷ *Constitution, Art. VI, Sec. 23.*

⁸ The principal City Courts are as follows:—

In Albany—A *Mayor's Court*, held by the Mayor, Recorder, and Aldermen, or the Mayor and Recorder jointly, or either of them singly. It is practically held by the Recorder only; a *Court of Special Sessions*, held by the Recorder or County Judge, with one or more Justices; a *Justice's Court*, held by 3 Justices elected for the purpose. Two Police Justices elected.

In Auburn—*Justices' and Police Courts.* Three Justices of the Peace elected.

In Broome—The *City Court*, held by the City Judge; *Police Courts and Justice's Courts*, for whose jurisdiction the city is divided into 5 districts; a *Court of Special Sessions*, held by a Justice or Police Justice.

In Buffalo—A *Superior Court*, held by 3 Justices; *Justices' and Police Courts.* Eight Justices of the Peace and one Police Justice elected.

The officers in each county, auxiliary to the judiciary, are as follows:—

The District Attorney,¹ who is the official prosecutor in all criminal cases coming before the county courts, and has general duties in relation to suits in which the county has an interest.

The Sheriff,² who is charged with the preservation of the public peace and the execution of the orders of the courts. He has charge of the jail and prisoners, and appoints as many deputies as he may deem necessary. He can hold no other office, and is ineligible to the same office for the next 3 years after his term expires. He is required to give bonds, in default of which the office becomes vacant.

The County Clerk, who is made the keeper of the county records. He attends the courts and records their proceedings, records deeds and mortgages, files papers and documents required by law to be preserved in his office, and is the medium of communication between State and town officers. He is the clerk of the Supreme Court for his county. He appoints a deputy, who, when duly sworn, may discharge all his duties.

Four Coroners, who are charged with the duty of inquiring into the cause of sudden deaths. Upon being notified, it is their duty to attend at the place where a dead body is found, summon a jury and witnesses, examine into the causes, and make a written report to the county clerk. They also have the sole power of issuing writs against sheriffs.

A Register, performing that part of the duties of county clerks relating to the recording of conveyances and mortgages, is elected in New York, Kings, and Westchester counties; and each of these appoints a deputy.

Commissioners of Deeds, to take acknowledgments of deeds and legal documents, are appointed by the Common Councils of cities in such numbers as they may decide, except in New York, where the number is limited to 300, and in Syracuse to 12.³

Notaries Public are appointed by the Governor and Senate for a term of 2 years, and have authority to demand and accept payment of foreign bills of exchange, and to protest the same for nonpayment, and to exercise the customary duties of this office. Their number is limited to 400 in New York, 25 in Troy, and in other cities and towns as many as the Governor may deem proper.

Criminal Courts. Courts for the trial of criminal cases consist of the Court of Oyer and Terminer connected with the circuit of the Supreme Court, the Court of Sessions connected with the County Court, City Criminal Courts, and Justices' Courts.⁴

Courts of Oyer and Terminer consist of a Justice of the Supreme Court associated with the County Judge and two Justices of the Sessions, (except in New York City,) the Supreme Judge and two of the others constituting a quorum for trials. This court has original and general jurisdiction.

Courts of Sessions are held by the County Judge and two Justices of Sessions. They have jurisdiction over cases in which the imprisonment in case of conviction is less than ten years. The inferior City Courts and Justices' Courts have jurisdiction over petty criminal cases.

In Hudson.—A Mayor's Court, held by the Mayor, Recorder, and Aldermen, or the Mayor and Recorder jointly or singly; a Justices' Court, held by 2 Justices. One Police Justice elected.

In New York.—The Superior Court, consisting of a Chief Justice and 6 Justices; the Court of Common Pleas, composed of 3 Justices; the Mayor's Court, composed of 3 Justices; the Court of Oyer and Terminer, held by a Justice of the Supreme Court; the Court of General Sessions, held by the Recorder or City Judge; the Court of Special Sessions, held by the Recorder or City Judge without a jury; Police Courts, held by Special Justices in 4 separate districts; and Justices' or District Courts, held in 8 separate districts.

In Oswego.—A Recorder's Court, held by the Recorder, or, in his absence, by the Mayor or any two Aldermen; a Court of Special Sessions, held by the Recorder. Two Justices elected.

In Poughkeepsie.—Justices' and Police Courts.

In Rochester.—Justices' and Police Courts. Three Justices of the Peace and 1 Police Justice elected.

In Schenectady.—Justices' and Police Courts. Four Justices elected.

In Syracuse.—Justices' and Police Courts. Three Justices of the Peace and 1 Police Justice elected.

In Troy.—A Mayor's Court, held by the Mayor, Recorder, and Aldermen, or the Mayor and Recorder jointly, or either singly. Practically it is held by the Recorder; a Justices' Court, held by 3 Justices elected for the purpose.

In Utica.—A Recorder's Court, held by the Recorder; a Court of Special Sessions, held by the Recorder and 2 Aldermen. Four Justices and 1 Police Justice elected.

¹ By an act passed April 14, 1852, the supervisors may determine whether this shall be a salaried office, and may fix the com-

ensation. In the absence of such action, the District Attorney is paid by fees.

² Constitution, Art. X., Sec. 1. From 1777 to 1822 sheriffs were appointed annually by the Governor and Council, and could not hold the office more than 4 successive years. They have been elected since 1822.

³ In towns the duties of the office are performed by justices of the peace. Special commissioners for this service were appointed in the several counties by the Council of Appointment under the first Constitution, and by the Governor and Senate under the Constitution of 1821. The Governor may appoint, for a term of 4 years, any number of persons not exceeding 5, in any city or co. of other States and of Canada, to take acknowledgments of instruments or conveyances to be recorded in this State. The consuls, vice-consuls, and ministers of the U. S. in foreign countries, the mayors of London, Liverpool, and Dublin, the provost of Edinburgh, and persons appointed by the Governor, not exceeding 3 in each of the cities of London, Liverpool, Glasgow, Paris, and Marseilles, may also perform this duty, and administer oaths or affirmations substantiating proofs to documents requiring to be recorded or to be produced in evidence within this State.

⁴ In 1829, co. clerks were required to report to the Secretary of State a transcript of all convictions and the sentences thereon. The intention of this act was to establish evidence in case of the trial of the same person for a second offense, in which the punishment for the same crimes is enhanced in severity. In 1857, the Secretary of State was required to report a statement of all convictions reported under this act, and annually afterward to lay before the Legislature a like summary. In 1839 sheriffs were also required to report the name, occupation, age, sex, and native country of every person convicted, and such other information as might indicate degree of education, the class of home influences, and such other details as might be required. Under the administration of E. W. Leavenworth, the statistics of crime

ADMINISTRATIVE DEPARTMENT.

Under the head of the Administrative Department are classed the officers charged with the general administration of the affairs of canals, of State prisons, of the salt springs, of academic and common school education, and other public interests, each of which is particularly noticed elsewhere. It also includes a variety of other offices, the principal of which are as follows:—

The County Treasurer is charged with the duty of receiving all moneys collected by tax, or otherwise payable into the county treasury, of paying all orders issued by the Supervisors, and of accounting to the Comptroller of the State for such moneys as are due to the State treasury. He is required to give bonds; and in case of vacancy the office is filled by appointment of the Supervisors until the January following the next general election.

Superintendents of the Poor have charge of the county poor and of the poorhouses, unless otherwise provided by law. The Supervisors may elect to have 1 or 3 superintendents. In several of the counties, special laws exist with regard to this office.¹

Commissioners of Excise are appointed by the County Judge and the two Associate Justices, except in New York, where the Chief Justice of the Superior Court, the presiding Judge of the Court of Common Pleas, and the Recorder, have the appointing power. They meet annually on the third Tuesday of May, to grant licenses for selling liquors and keeping inns under restrictions fixed by law. This office was created April 16, 1857. Twenty freeholders must unite in a petition for a license; and the same person can sign but one petition. Licenses cost \$30 to \$250 each.

from the first reports to, and including, 1854 were published, which gave the following results:—

New York State Prison received from 1798 to 1827 inclusive, 5,879 prisoners; died, 766; escaped, 29; sentence expiated, 1,262; pardoned, 3,160; removed, 348; natives of N. H., 99; Vt., 114; Mass., 392; R. I., 119; Ct., 391; N. Y., 2,426; N. J., 314; Penn., 234; Del., 21; Md., 75; Va., 69; other States, 43; B. A., 87; W. I., 141; S. A., 12; Eng., 247; Ire., 655; Scot., 79; Ger., 58; Hol., 22;

Fr., 49; Spain, 6; Italy, 13; Portugal, 6; Sweden, 10; Norway, 2; other European countries, 18; Africa, 26; E. I., 8; unknown, 152; crimes against the person, 280; against property, with violence, 291; without violence, 4,016; forgery, and against the currency, 728. Sentence varied from 7 mo. to life, the most being as follows: 1 year, 242; 2 years, 259; 3 years, 581; 3 years 1 day, 278; 4 years, 104; 5 years, 764; 7 years, 820; 10 years, 294; 14 years, 230; life, 603.

Convictions in Courts of Record from 1830 to 1856.

Of the 1712 convicted in 1858, 1582 were males and 130 females. The number of convictions reported by sheriffs bills short of that by clerks for the obvious reason that many who are fined pay down their penalties and never come into the sheriff's hands. The excess reported by clerks from 1839 to 1854 varied from 172 to 1,090 annually. Males form about 94 per cent. of all convictions reported by clerks, 93½ per cent. of those reported by sheriffs, and 85 per cent. of those convicted in courts of special sessions. The results of trial compared with total indictments have varied in different years within the following limits:—

Ratio of convictions to indictments.....	563 to 689.
" acquittals "	249 to 380.
" disagreement of juries "	313 to 925.
" conviction on confess'n "	182 to 390.

The least number of convictions reported from 1829 to 1855, in proportion to population, was in 1834, when it was 1 to 2,444. The greatest number was in 1845, when it was 1 to 1,542.

Pardons.—The number of pardons granted from 1758 to 1854 inclusive, was 8,793; of which 160 were from fines, 160 from fines and imprisonment, 1,285 from jails and local prisons, 5,747 from State prison for term of years, and 599 from State prison for life, of the whole number, 1,640 were conditional mostly to leaving the State or U. S., 807 were restored to rights of citizens, 59 were respited from capital offenses. The pardoning power has been exercised as follows:—

George Clinton.....	398	Wm. H. Seward.....	834
John Jay.....	190	Wm. B. May.....	577
Morgan Lewis.....	213	Wm. C. Bouck.....	279
Daniel D. Tompkins.....	1,993	Silas Wright.....	282
John Taylor.....	223	John Young.....	298
De Witt Clinton.....	2,289	Hamilton Fish.....	97
Joseph C. Yates.....	291	Washington Hunt.....	346
Nathaniel Pitcher.....	228	Horatio Seymour.....	456
Martin Van Buren.....	34	Myron H. Clark.....	539
Ernst T. Throop.....	415	John A. King.....	426

The salary of these officers, where there is but one in a county, is fixed by the Supervisors; but in those counties where there are 3 they are usually paid for the time employed. Albany has none. Chenung, Clinton, Dutchess, Essex, Franklin, Fulton, Genesee, Herkimer, Jefferson, Montgomery, Orange, Orleans, Otsego, Putnam, Schenectady, Schuyler, Sullivan, and Ulster, have each one; and these in italic are appointed by Supervisors. In early times each town supported its own poor, and where persons who had not acquired residence became chargeable, they were sent from town to town back to the place where they had formerly resided. A very able report was presented to the Senate by J. V. N. Yates, Secretary of State, Feb. 9, 1824, upon the subject of the "laws for the relief and settlement of the poor;" in which he advised the erection of one or more houses of employment in each co., in which paupers might

State Assessors.—The object of the office is to collect the necessary statistics among the several counties to enable the Board of Equalization to equalize the State tax among the several counties, and fix the amount of real and personal estate upon which the State tax shall be levied. The Assessors are appointed by the Government and Senate, and hold office for three years.

The Board of Equalization consists of the Commissioners of the Land Office, and the State Assessors. It meets at Albany on the first Tuesday of September of each year, for the purpose of equalizing the taxes, &c.

be maintained and employed at the county charge, and that children at suitable ages should be put out to some useful trade. An act was accordingly passed Nov. 27, 1824, authorizing the establishment of county poorhouses. In most of the counties such institutions were established within a few years. They were located upon farms, which were designed to be worked, as far as practicable, by the inmates. The towns in Queens and Suffolk counties have mostly town poorhouses, and in these there are no county establishments of this kind. The county of Albany supports its poor at the city almshouse.

In most counties a distinction is made between town and county poor, the former including those who have gained a residence; and this distinction may be made or not, at the option of the Board of Supervisors. Temporary relief may be extended in cases where the pauper cannot be removed, or for other causes satisfactory to the Superintendents. Towns may vote at town meetings the sum estimated to be necessary for the support of their own poor.

The following tables and summaries are from the last annual Report of the Secretary of State:—

Statistics of Poorhouses and of the Support of the Poor, for the year ending Dec. 1, 1858.

COUNTIES.	Acres of land not cultivated to Poor- houses.	Estimated value of Poorhouses and buildings.	Value of labor of paupers.	Weekly expenses of each person.	Number of county paupers relieved or supported.	Number of town paupers relieved or supported.	Number of per- sons temporarily relieved.	Expenses incurred by the county Poorhouses.	Expenses of town maintaining town paupers reliev- ed.	Weekly expenses of each person relieved, for the year ending Dec. 1, 1858.

During the year 1858, 38,682 were admitted, 38,400 were discharged, 1,007 absconded, 849 were born, 2,584 died, and 646 were bound out.

Supported in Poorhouse.—Male, 6,219; Female, 7,203; total 13,422. Foreigners, 6,503; Lunatics, 1,838; Idiots, 467; Mutes, 36. Temporarily Relieved.—Foreigners, 58,799; Lunatics, 2,408; Idiots, 595; Mutes, 52.

Loan Commissioners¹ are appointed in each county by the Governor and Senate, except in Onondaga, where they are elected. They are paid $\frac{1}{4}$ to $\frac{3}{4}$ of one per cent. on all moneys loaned, and are obliged to give bonds and report annually to the Comptroller.

School Commissioners are elected one in each Assembly District, and under certain circumstances another may be added. They are required to examine and grant certificates to teachers, visit schools, apportion the public moneys, and report to the Superintendent of Public Instruction. The Board of Supervisors in the counties have the power of arranging the several commissioner districts and of increasing the salary of the commissioners above \$500. All cities, and many villages, are under special laws with regard to schools, and are more or less exempt from the jurisdiction of County School Commissioners.²

Sealers of Weights and Measures are appointed for the State and for each county and town. The State Superintendent has an office at Albany, and he furnishes to the several counties and towns standard sets of weights and measures.³ The County Sealer keeps the Standards

Children under 16.—Males, 2,776; Females, 3,945. Total, 6,821.

¹ The first State loan was made by an act passed April 18, 1786, creating bills of credit to the amount of \$500,000, the most of which was apportioned among the counties in proportion to their supposed wants, and loaned by officers appointed for the purpose. These bills were of convenient denominations and circulated as money. They were receivable in payment of taxes, and for some purposes were legal tender. This loan was distributed among the counties then existing, as follows:—

Albany.....	\$55,000	New York.....	\$80,000	Suffolk.....	\$25,000
Dutchess.....	42,500	Orange.....	25,000	Ulster.....	21,000
Kings.....	11,250	Queens.....	28,750	Washington.....	7,500
Montgomery.....	50,000	Richmond.....	11,250	Westchester.....	23,750

The sum of \$79,447.53 remained due on the loan of 1786 at the beginning of 1810, and the whole was finally called in in 1830.

By an act of March 14, 1792, another loan of \$500,000 was made and distributed among the counties, as follows:—

Albany.....	\$10,000	New York.....	\$80,250	Saratoga.....	\$20,000
Clinton.....	3,500	Ontario.....	3,000	Suffolk.....	24,000
Columbia.....	40,750	Orange.....	27,250	Tioga.....	6,500
Dutchess.....	68,000	Otsego.....	7,500	Ulster.....	40,500
Herkimer.....	7,000	Orleans.....	21,500	Washington.....	33,500
Kings.....	4,750	Rensselaer.....	33,500	Westchester.....	55,250
Montgomery.....	23,500	Richmond.....	4,750		

A third loan of \$400,000 was apportioned to the several counties, excepting New York, Kings, Queens, Richmond, Suffolk, and Westchester, in proportion to the number of their electors. In case the Supervisors of these counties applied for a share, a further sum of \$50,000 was authorized to be issued. In 1819 the above loan was transferred to the Common School Fund. In 1840 the office of Loan Commissioner for the loans of 1792 and 1808 was abolished, and the loans remaining in their hands were transferred to the custody of the commissioners for loaning the U. S. Deposit Fund.

The U. S. Deposit Fund originated as follows: An Act of Congress, passed June 23, 1836, directed the surplus in the treasury on the 1st day of Jan. 1837, excepting \$5,000,000, to be deposited with the several States in proportion to their representation. The amount thus deposited was \$37,488,925, of which N. Y. received \$5,252,494.28. This was apportioned to the several counties according to population, as follows:—

Albany.....	\$147,307.48	Oneida.....	\$29,858.70
Albany.....	80,081.22	Onondaga.....	40,995.26

² In Ulster and Schoenectady the care of schools is intrusted to "Commissioners of Common Schools;" in Ballston and Hudson the Common Councils are *ex officio* Commissioners of Schools; and in Albany, Astoria, Auburn, Brooklyn, Castleton, and Southfield, (Clinton) College Point, East Chester, Flushing, Jamaica Lockport, Medina, Newburgh, New York, Oswego, Port Byron, Poulticepsie, Pulaski, Rochester, Salem, Syracuse, Troy, Waterford, Weststams, and Whitestown, schools are under a Board of Education, usually elected, but in some of the cities appointed by the Common Council. In most cities a Superintendent, who is clerk of the Board, is appointed by the Board of Education for the more immediate supervision of schools and inspection of teachers. In Ballston the Superintendent is elected.

³ A *U. S. Standard* consists of—

1. A large balance, comprising a brass beam and scales, with stand and level.
 2. A small balance, with a drawer stand for small weights.
 3. A set of large brass weights, namely, 50lb., 20lb., 10lb., 5lb.
 4. A set of small brass weights, avoirdupois, namely, 4lb., 2lb., 1lb., $\frac{3}{4}$ oz., $\frac{1}{2}$ oz., $\frac{1}{4}$ oz., $\frac{1}{8}$ oz., $\frac{1}{16}$ oz., $\frac{1}{32}$ oz., $\frac{1}{64}$ oz.
 5. A brass and copper graduated rod to feet and inches, and the first graduated to eighths of an inch, and also decimally; with a graduation to eighths of an inch on the other side, in a case.
 6. A set of liquid measures, made of copper, namely, 1 gallon, 1 gallon 1 quart 1 pint, 1 pint, 1 gill, in a case.
 7. A set of dry measures of copper, namely, $\frac{1}{2}$ bushel, 1 peck, 1 peck 2 quarts, 1 quart, in a case.
- There are also cases to contain the large brass weights and the necessary packing boxes included, etc. The cost of the set is \$200.
- ⁴ A *U. S. Standard* differs in some particulars, as consisting of but one medium sized balance, the large weights being of non-inferior brass; the yard measure being a cast metallic square rod, without decimal graduation, etc.; and likewise without cases, in general. The cost of the set is \$125.

furnished by the State, and is required to have them compared with the State Standard once in 3 years. The Town Sealer is required to examine all weights and measures in use once a year.¹

The Mayors of cities are administrative officers of State laws and executive officers of city ordinances. They are elected annually, except in Albany and New York, where they hold their offices for two years.

The Supervisors of towns are administrators of the general laws relating to towns.

The President and Trustees of villages have charge of every thing pertaining to the welfare of their respective localities within the limits of the charter of incorporation.

Trustees of School Districts are the officers recognized by law to whom is intrusted the administration of the school laws within their districts.

Turnpike Inspectors are appointed in every county in which there are turnpikes, the acts of incorporation of which do not require the appointment of special inspectors. They are 3 to 5 in number, and must have no interest in any turnpike in the State.

Plank Road Inspectors are appointed in every county having plank roads. Their duties are analogous to those of the inspectors of turnpikes; and they are chiefly intended to protect the public against the collection of tolls when plank roads are unsafe or difficult to travel from neglect or other cause.

Commissioners of Highways have the power of directing repairs, laying out and altering roads, discontinuing old roads, and of ordering new bridges to be built and kept in repair.² They must annually divide the towns into road districts, and assign such inhabitants to work upon them as they may deem proper; and they must deposit an accurate description of all new roads in the Town Clerk's office for record.

Overseers of Highways, or "Pathmasters," have charge of road districts,³

¹ The statute defines the State Standard of Weights and Measures to be the same as that approved by Congress June 14, 1836, and furnished by the U. S. to the States in 1842. The set furnished consisted of a yard, sets of Troy and avoirdupois weights, the wine gallon and the half bushel and their subdivisions. The unit of length and surface, from which all other measures of extension are derived, whether linear, superficial, or solid, is the yard, which is divided into 3 feet or 12 inches each, except for cloths or other articles sold by the yard, when it may be divided into halves, eighths, and sixteenths. The rod contains 5½ yards, and the mile 1,760 yards; the acre is 160 square rods; the chain for land surveying is 22 yards long and subdivided into 100 links; the Troy pound is to the avoirdupois as 5,760 to 7,000, the one containing 12 and the other 16 ounces; 100 lbs. avoirdupois form a hundredweight, and 2,000 lbs. a ton. All measures of capacity not liquid are derived from the half bushel, the subdivisions of which are obtained by dividing repeatedly by 2. Coal, ashes, manure, earth in the cart, turf, and roots, are sold by heap measure.

The Standards now in use do not vary essentially from those established by the State Government before standards were furnished by the U. S. As formerly defined, the unit of linear measure was the yard, which bore the ratio of 1,000,000 to 4,086,149, to a pendulum beating seconds in a vacuum at the temperature of melting ice at Columbia College. A cubic foot of water at its maximum density in vacuum was declared equal to 1000 ounces avoirdupois. The liquid gallon to contain 128, and the dry gallon 108 lbs., of distilled water at its greatest density and mean pressure at sea level.

Weights of articles per bushel as fixed by Standard.

² Roads extending through several towns may be laid out by commissioners appointed by the Supervisors; and those extending through several counties are usually laid out by special commissioners appointed by law. The commissioners of highways are required to report annually, at town meeting, their receipts and expenditures, and a statement of what improvements are necessary, and the cost of obtaining them. These estimates are referred to the Board of Supervisors, and assessed as other town charges. They may summon jurors and witnesses in opening and closing roads. Roads through improved lands must be certified as necessary by the oath of twelve respectable freeholders; and a like certificate to the contrary is required in closing roads. Every owner may obtain a road to his land.

New roads cannot be laid through orchards or gardens of more than four years' growth or use, or through buildings or yards, and enclosures of mills and factories, without the owner's consent. The law requires the commissioners of highways to erect mile-boards along the line, and guide-boards at the crossing of post and such other important roads as they may deem

proper; and the defacing of these is punishable as a misdemeanor. Every owner or occupant of lands in any town, and every male inhabitant above the age of 21, must be assessed for highway labor. The whole number of day's labor annually expended in the town must be at least three times the number of taxable inhabitants; and every male inhabitant over 21, except miners, pumbers, fillets, and linemen, must be assessed at least one day. The residue is assessed upon the property of individuals and corporations. Labor may be commuted at the rate of 62½ cts. per day; and the moneys so paid must be expended in the district.

³ Overseers of Highways are required by law to warn out to work all persons assessed for highway labor in their respective districts; keep their roads in order; superintend work; receive and apply commutation moneys; cause the next mow weeds upon the wayside to be cut down or destroyed once before July and once before Sept. of each year; remove obstructions; and collect all fines, whether for neglect of work, idleness, or putting up of gates contrary to law. They may require additional labor, to the amount of one-third of the first tax. All roads must be fenced by the owners of adjacent lands, unless liable to be overflowed by streams, when the overseers of highways must erect, and keep in repair, good swinging gates at the expense of the lands benefited; and persons leaving such gates open are liable to triple damages. All rivers where the tides ebb and flows are public highways, without special law. Many other streams have been so declared by acts, and obstructions in such streams and in highways are punished by fine, notwithstanding a plea of title. Such obstructions may be abated as nuisances; and the persons causing them are liable to actions for damage. Persons owning lands upon roads 3 rods wide, or more, may plant trees on the roadside adjacent to their line, and may present for damages to such trees. They may also constitute a sidewalk, with a railing. Trees falling into the road from enclosed lands must be removed by the occupant within 2 days, after notice by any person, under a fine of 50 cts. a day. Assessors and commissioners of highways are *ex officio* free voters in their several towns. In case of fires in the woods of any town, it is the duty of the supervisor, justices, and commissioners of highways to order such and so many inhabitants, liable to work upon the roads, as may be deemed necessary, and reside near, to assist in checking the fires, under penalty of \$30, and liability to prosecution for misdemeanor, and further fine not over \$200 or imprisonment not more than 60 days.

Persons aggrieved at the decision of commissioners may appeal to referees appointed by the county judge or justices of sessions. Kings, Queens, and Suffolk cts. have from an early colonial period had a road law peculiar to themselves. It differs by fixing the number of days at *twice* the number of persons assessed. In granting private roads, for *limited periods*, in allowing roads through gardens, and orchards of less than ten years' use or growth, by allowing appeals to the *county judge*, and in a few other minor details. Richmond cts. has also a special law, which requires assessments in *money only*, to be collected with the general tax, and the repairs of roads to be let out at public auction by districts from year to year and to the lowest bidder. There are many other special laws, chiefly applicable to cities and villages, but too numerous to mention here.

^a 4 elected for 8 yrs. and 4 senior Justices of Supreme Court.
^b 4 others are *ex officio* Regents. ^c Regulated by special acts.
^d 4 in each Assembly district. ^e In certain counties.
^f 2 inspectors are elected and 1 appointed from the next highest ticket, to each election dist. by the chairman of town meetings. In cities there is 1 such dist. if under 500 inhabitants; 2, if from 500 to 800; and there may be more if above 800. In towns of over 500, the supervisor, assessors, and clerk meet annually to designate or change these districts. If vacancies of supervisors, assessors, commissioners of highways, or overseers of the poor are not filled within 15 days, the justices may appoint; and, if from any cause there be less than 3, they may asso-

ciate justices of neighboring towns in making appointments.
^g Towns in Sullivan co. may have 1 or 2; and if 1, he is chosen annually. Oyster Bay, Oswegatchie, and Waterford have 6, and Southold 6.
^h Towns may decide upon the number. Manlius has 7.
ⁱ In Seneca co. 1 in each town. ^j See exceptions on p. 26.
^k Annual school meetings determine whether to elect 1 or 3.
 Among the officers of local jurisdiction, not included in the foregoing lists, are harbor masters, wardens, health officers, and others connected with sanitary supervision, pilots, wreck masters, superintendent of iron-ore salt springs, and others charged with duties relating to Indian affairs.

PRISONS.

For a great number of offenses criminals are sentenced to be confined at labor for different periods of time, and the State has provided prisons at several places for the security of these offenders against law.¹ The principal of these are the three State Prisons, an Asylum for Insane Convicts, two Houses of Refuge, and several penitentiaries and jails.

The Auburn State Prison is located upon a lot of 10 acres near the center of the city of Auburn. It consists of the prison proper, containing 800 cells and a large number of workshops, all surrounded by a high and strong wall. **The Sing Sing State Prison** is located upon a lot of 130 acres upon the Hudson, in the village of Sing Sing. It contains a prison for males and another for females, the latter the only one in the State. It has an aggregate of 1,600 cells and a great variety of workshops.² **The Clinton State Prison** is situated upon a lot of 250 acres in the town of Dannemora. About 25 acres are enclosed within the walls of the prison. It contains workshops, forges, and furnaces, and has an aggregate of 396 cells.³

The general supervision of the State Prisons is intrusted to a Board of 3 Inspectors, one of whom is elected each year for a term of three years.⁴ They appoint all the officers of the several prisons and renew them at pleasure.⁵ The discipline of the several prisons is rigid and uniform, and all convicts are treated alike, irrespective of their former standing in society or of the crimes of which they are convicted. The rules for the general conduct of prisoners are rigidly enforced. In the administration of discipline a leading object is to secure the reform of the criminal and his return to society with regular and industrious habits and correct moral principles.⁶ All convicts in health are required to labor in shops by day, under rigid supervision, and without exchanging words or looks with each other or with those who may visit the prison. They observe strict silence upon all occasions when not addressed by some person allowed the privilege. In passing to and from the cells, shops, and dining rooms, they march in close single columns, with their

¹ By an act of March 26, 1796, John Watts, Matthew Clarkson, Isaac Sloatenburgh, Thomas Eddy, and John Murray, jr. were appointed commissioners to build a State prison in New York City. This prison, styled "Newgate," was located on a lot of 9 acres on the Hudson, at the foot of Ames St. with its principal front on Greenwich St. It was 204 feet long, and from each end a wing extended to the river. It had 54 rooms, each for 8 persons, and cost \$208,846. It was opened Nov. 25, 1797, and continued in use until May, 1828, when it was sold. Convicts were employed in shoe and nail making and other work in leather and iron, and as carpenters, tailors, weavers, spinners, and gardeners. A second prison was ordered, in 1796, to be built at Albany, but the act was repealed in 1797. The limited accommodations and wretched moral influences of the New York prison led to the ordering of another prison, in 1816, which was located at Auburn. The south wing was completed in 1818, and in 1819 the north wing was ordered to be fitted up with single cells. The prison was enlarged in 1824.

² An act passed March 7, 1824, ordered a prison to be erected at Sing Sing. Work was begun May 14, 1825, and the prison was finished in 1829, with 800 cells, to which 200 were added in 1830. It was finally completed in 1831. The grounds here occupy 130 acres, and include marble quarries, upon which it was designed to employ the convicts. The State Hall at Albany is built of magnesian marble or dolomite quarried and dressed at this prison. The prison for females is built of rough marble in the Ionic style of architecture. It stands on elevated ground and is entirely distinct from the male prison in its officers and management. Previous to its erection, in 1835-40, female convicts were kept by the city of New York at their prison at Bellevue, at an annual cost to the State of \$100 each.

³ Clinton Prison was built, in 1844-45, under the direction of Ransom Cook, with the design of employing convicts in iron mining and manufacture.

⁴ These Inspectors must visit all the State prisons four times a year, in company, inspect their management, discipline, and financial affairs, keep minutes of their proceedings, and report annually to the Legislature. They establish rules for the observance of the officers of the prisons, and may examine witnesses. One of the Inspectors is assigned to each prison for three months, and he is required to spend at least one week in each month at the prison, in special charge, and to inform himself minutely concerning its details. The Inspectors are successively changed to other prisons. The Inspectors can make no appointments of relations within the 3d degree, and they can have no interest in contracts. Their salary is \$1000.—*Constitution, Art. V, Sec. 4.*

⁵ The officers of each prison consist of the following:—

1. An Agent, or Warden, who is the principal fiscal officer of

the prison. He receives a salary of \$1,250 to \$1,500, and is required to give a bond of \$25,000.

2. A Principal Keeper, who has charge of police regulations and discipline of the prison, and must live upon the premises. He keeps a journal of every infraction of rules, records, punishments, complaints, &c., and reports monthly to the Inspectors. Salary, \$800.

3. Keepers under the direction of the Principal are appointed, not to exceed 1 for every 25 prisoners. Salary, \$800.

4. A Clerk, who records all commitments and discharges, keeps the accounts, and reports annually to the Secretary of State. Salary, \$1,000 at Sing Sing and \$900 at the other prisons.

5. The Chaplain visits prisoners in their cells, devotes a stated time each Sabbath to religious services, keeps the prison library, and allows the use of books, under proper regulations, and is expected to counsel and assist convicts in the formation of settled resolutions for reform upon leaving the prison. Though him they may obtain whatever is allowed of correspondence with friends. Salary, \$900.

6. A Physician and Surgeon, who has charge of the Hospital and attends at all times when his services are required. Salary, \$700 at Sing Sing and \$600 at the other prisons.

7. Instructors, of which there are 2 each at Auburn and Sing Sing, 1 at Clinton, and 1 at the Female Prison, who give all necessary instruction to the prisoners in their several occupations.

8. A Store Keeper, who has general charge of the provisions and clothing and other property belonging to the prison.

9. A Guard, under the command of a sergeant, who are stationed in the prison and upon the walls to prevent escapes. The number of privates is 26 at Auburn, 25 at Clinton, and 30 at Sing Sing. They are armed and equipped from the State arsenals, and are held legally justified if they shoot down prisoners attempting to escape.

10. A Matron, who has charge of the Female Prison. Assistant matrons are appointed, not to exceed 1 for every 25 prisoners.

⁶ Solitary confinement without labor was tried at Auburn in 1821, but with the most unhappy results, and in 1823 the present system was adopted upon the suggestion of Capt. Eben Lynds and John D. Gray. Capt. Lynds deserves particular notice from the energy and firmness with which he brought his favorite system into successful operation and to a degree of perfection scarcely conceivable to one who had not witnessed it. This plan has been adopted in many prisons and has received the name of the "Auburn System." The labor not required in the domestic affairs of these prisons is hired upon contract to manufacturers, who put up the requisite machinery and employ agents and foremen to superintend the work. Willful violation of the rules is punished by the lash, ball and chain, yoke, strait jacket, shower bath, dark cell, and similar means.

for life; of \$100, an honorary member of the Executive Committee for life, and \$500 a life patron. A department, consisting of ladies, has in charge the interests of prisoners of their sex. The managers of the association receive no pay for their services. They usually report to the Legislature annually; but no reports were made in 1856 and 1858. Office, 15 Center Street, New York.

MILITARY.

The Governor is Commander-in-Chief of the land and naval forces of the State. In time of peace the supervision of the militia and military establishments is intrusted to the Adjutant General, who has an office of record at the capital, issues, under his seal, all military commissions, keeps a register of the names and residences of the officers of militia throughout the State, issues all orders on behalf of the Commander-in-Chief, prescribes the manner of reporting from the several subordinate divisions, and reports the statistics thus obtained—through the Governor—to the Legislature annually.¹ He has the rank of brigadier general; and his assistant has the rank of colonel. The militia of the State is composed of 8 divisions, 26 brigades, and 62 regiments, embracing 220 companies of infantry, 126 of artillery, 41 of cavalry, 37 of rifles, and a total of 18,107 officers and privates.²

All able-bodied white male citizens between the ages of 18 and 45, not exempt by law, are

The office of the Adjutant General was made an office of record in 1827, previous to which commissions were issued by the Secretary of State, under the privy seal of the Governor.

² In Jan. 1859, the division districts were as follows:—

1. New York and Richmond cos.
2. Kings, Orange, Putnam, Queens, Rockland, Suffolk, and Westchester cos.
3. Albany, Columbia, Dutchess, Greene, Rensselaer, Saratoga, Sullivan, Ulster, and Washington cos.
4. Clinton, Essex, Franklin, Jefferson, Lewis, St. Lawrence, and Warren cos.
5. Broome, Chemung, Cortland, Delaware, Fulton, Hamilton, Herkimer, Madison, Montgomery, Otsego, Schoharie, and Schenectady cos.
6. Cayuga, Onondaga, Oswego, Schuyler, Seneca, Tomka, and Tompkins cos.
7. Channing, Livingston, Monroe, Ontario, Steuben, Wayne, and Yates cos.
8. Allegany, Cattaraugus, Chautauque, Erie, Genesee, Niagara, Orleans, and Wyoming cos.

The estimated number of enrolled militia at the beginning of 1850, was 250,000. Those included in regiments were as follows:—

Infantry.....	7,490	privates,	and 8,000	including officers.
Artillery.....	5,365	"	5,760	"
Cavalry.....	1,590	"	1,773	"
Rifles.....	1,420	"	1,528	"

liable to military duty. An enrolment is made annually by the assessors.¹ Militia officers are chosen by election;² excepting major generals and the Commissary General, who are appointed by the Governor and Senate. Staff officers are appointed by the commanding officer of the forces to which they are attached.³ The Adjutant General, Judge Advocate General, Quartermaster General, Paymaster General, Surgeon General, Engineer-in-Chief, and one Instructor of Artillery and one of Cavalry to each division, are appointed by the Governor.⁴

Arsenals. An arsenal is provided for each division of the Militia, and an armory for each regiment. The general custody and supervision of the military property of the State is intrusted to the Commissary General, who has his office in New York, and reports annually through the Governor to the Legislature.⁵

¹ The laws of the U. S. exempt from military service the Vice President, the Judicial and Executive officers of the Government of the U. S., members and officers of both Houses of Congress, customhouse officers and clerks, post officers and stage drivers in charge of mails, ferrymen on post roads, inspectors of exports, pilots and mariners in actual sea service. The State exempts, besides the above, persons in the army and navy and those honorably discharged therefrom, preachers of every sect, commissioned officers and privates of uniformed companies who have resigned after seven years' service, and certain firemen. All others may commute by paying 50 cts. annually, except in Kings and New York cos. and the cities of Albany and Buffalo, where the commutation is fixed at 75 cts.

These moneys are paid to the collectors of taxes and applied to the military fund,—from which the officers and men of regiments are paid, from \$1.25 to \$4, according to rank, for every day's military service. Persons going to, remaining at, or returning from military duty are exempt from arrest upon civil process. Previous to the act of 1846, the State contained 33 divisions, 66 brigades, 272 regiments, and 1856 companies, and numbered 141,436 officers and men. The number of enrolled militia had been as follows, at different periods:—

Years.	Infantry.	Artillery.	Cavalry.	Light Artillery.	Riflemen.	Total.
1805	74,429	1,700	1,852	77,982
1810	86,673	2,619	3,385	92,677
1815	90,383	6,364	2,158	98,905
1820	112,760	6,538	3,132	123	122,553
				Horse Artillery.		
1825	131,561	4,432	2,505	646	146,805
1830	166,514	12,803	5,814	1,763	188,610
1835	168,786	11,698	7,317	1,174	192,983
1840	163,300	9,682	7,395	183,100
1845	141,436	9,369	3,840	4,276	162,427

² Under the Constitution of 1777, nearly every military as well as civil officer in the State received his appointment from the Council of Appointment, and mostly held during their pleasure. The Constitution of 1822 introduced the following system, now in use:—Militia officers shall be chosen, or appointed, as follows: Captains, subalterns, and non-commissioned officers shall be chosen by the written votes of the members of their respective companies; field officers of regiments and separate battalions, by the written votes of the commissioned officers of the respective regiments and separate battalions; brigadier generals and brigade inspectors, by the field officers of their respective brigades; major generals, brigadier generals, and commanding officers of regiments or separate battalions shall appoint the staff officers to their respective divisions, brigades, regiments, or separate battalions.—*Constitution, 1822, Art. IV, Sec. 1; Constitution, Art. XI, Sec. 2.*

The above rule does not apply to regiments and brigades not fully organized. If the former contain less than 6 companies, the field officers are appointed by the Governor; and if the brigades are not within the requirements of the law, the brigadier generals are also appointed by the Governor. *Const. 1846.*

³ The staff of the Commander-in-Chief consists of the Adjutant General, Inspector General, Commissary General, Engineer-in-Chief, Judge Advocate General, Surgeon General, Quartermaster General, Paymaster General, Aid de-camp, and Military Secretary, who severally rank in the order here given. The precedence and gradation of officers and non-commissioned officers in the militia is as follows:—

- | | |
|----------------------------|-----------------------------|
| 1. The Commander-in-Chief. | 8. First Lieutenant. |
| 2. Major General. | 9. Second Lieutenant. |
| 3. Brigadier General. | 10. Sergeant-Major. |
| 4. Colonel. | 11. Quartermaster Sergeant. |
| 5. Lieutenant Colonel. | 12. First Sergeant. |
| 6. Major. | 13. Sergeant. |
| 7. Captain. | 14. Corporal. |

In each grade precedence is given by priority in date of election, or appointment.

⁴ The instructors, with the rank of colonel, are attached to the headquarters of the division, and hold by the same tenure as commissioned officers of the line. Instructors and division engineers must pass an examination as to special qualification before a board of not less than five officers, convened by the Commander-in-Chief. Appointments to this office have hitherto been made entirely from among the graduates of West Point.

⁵ The Constitution of 1777 ordained that a proper magazine of warlike stores, proportionate to the number of inhabitants, should be established in every county of the State; but this provision was never fully carried out. An arsenal was built at New York at an early period, and another at Albany soon after, the latter on the site purchased for a State prison. Under an act of Feb. 12, 1808, entitled "An Act for the defense of the northern and western frontiers," and by subsequent acts, arsenals were erected at Cananadaga, Batavia, Cananadaga Hollow, Rome, Watertown, Russell, Malone, Plattsburgh, and Elizabethtown.

The arsenal at Plattsburgh was burned in 1813 or '14, and the one at Rome, which occupied the present site of St. Peter's Church, was burned with its contents a few years since. Neither has been rebuilt. In 1844 the State leased of the city of Buffalo a market building on Batavia st. for an arsenal. Magazines were also located at New York, at Albany, and on Staten Island. In 1850 these arsenals were mostly ordered to be sold, together with such arms and other property as had become unserviceable for military purposes. An arsenal occupying the site of an old powder magazine of the Dutch, between Center, Elm, Franklin, and White Streets, New York, was authorized to be sold in 1844, and a new one was directed to be built. The site was purchased by the city for \$30,000, and a new city armory was built on the corner of White and Elm Streets. In 1808 the city of New York conveyed to the State a tract of ground upon Fifth Avenue, between Sixty-third and sixty-Fifth Sts., upon which a magazine was erected. In 1844 the Legislature authorized a new arsenal to be erected on these premises with such moneys as might be paid by the U. S. for the military works upon Staten Island. The sale was completed in April, 1847, for \$27,281.87, of which \$33,284.87 was applicable to the arsenal. The work was commenced, but in March, 1848, was suspended by the Commissioners of the Land Office, to whose charge and that of the Commissary General the work had been intrusted. It was alleged that the latter officer had expended moneys most unwarrantably; and subsequent observation has proved that the structure was unfit for its use, in fact, for any other purpose.—*Assembly Doc. 1846, No. 141; Senate Doc. 1848, No. 34.*

In laying out the Central Park, the premises consisting of 152 building lots, valued in 1856 at \$246,000, were included in the proposed improvement, and an act was passed, April 15, 1857, under which this property, which the State purchased in 1808 for \$700, was conveyed back to the city for \$275,000. Of this sum \$100,000 was made applicable to the erection of an arsenal at New York; \$45,000 for an arsenal at Buffalo; \$40,000 for an arsenal in Brooklyn; \$25,000 for the improvement of the arsenal at Albany and the erection of an armory; \$17,000 for the purchase of the U. S. arsenal at Rome; \$14,000 for an arsenal at Corning, and for armories; \$5,000 at Rochester, \$5,000 at Troy, \$4,000 at Auburn, \$4,000 at Syracuse, \$4,000 at Utica, \$3,000 at Ballston Spa, \$3,000 at Dunkirk, \$3,000 at Ogdensburgh, \$2,000 at Oswego, and \$3,000 for the purchase of a stone fort in Schenectady for an armory. The arsenal in Albany, by act of April 17, 1858, was exchanged with the city for a site on Hudson and Eagle Streets, and \$5,000 toward an arsenal and armory buildings, which were erected in 1858-59. During the summer of 1858, buildings at Albany, Auburn, Ballston Spa, Brooklyn, Corning, Dunkirk, New York, Ogdensburgh, and Syracuse were put under contract and finished, or far advanced, the same year. The stone fort of church at Schenectady was purchased, but no steps were taken for the erections authorized at Troy, Rochester, Oswego, and Utica. The new arsenal built at New York in 1858 was located on Seventh Avenue, corner of Thirty-Fifth St., and was newly completed, when the roof fell on the morning of Nov. 13, 1858, greatly injuring the building.

Most of the structures erected under this act are of substantial workmanship and elegant architectural style. They were built under the direction of commissioners appointed by law. When completed, they will be placed in charge of the Commissary General, who also attends to the safe keeping of arms and

The fortifications within the State are owned and supported by the United States, although several of them were built by the State of New York under an arrangement for the settlement of the Revolutionary debt.¹

military equipments belonging to the State. He keeps his office in New York.

Summary of the ordnance arms in the hands of the troops and in the arsenals of the State on the 1st day of January, 1853.

¹ In Feb. 1801, there was due from the State of New York to the United States, on account of Revolutionary expenses, the

sum of \$2,074,846. An Act of Congress, passed February 15, 1799, allowed any State to discharge its debt by payment into the treasury before April, 1800, or by expending a like amount within five years in the erection of fortifications. New York was the only State that chose to extinguish its debt by erecting defenses upon its own soil; and a committee of Congress reported in February, 1801, that no other States had shown any disposition to pay the balances repeated against them. The amount credited to New York was \$891,129.31, and the remainder of the indebtedness was subsequently released.—*American State Papers, Finance*, I, 697.

The amount of moneys redeemed to specie value received by, or paid to, the State of New York from the beginning of the Revolution to April, 1790, was as follows, in dollars:—

Received from State.....	\$1,515,889
Paid to State.....	822,803

A descriptive and historical notice is given of the several fortifications in the localities where they occur. The latest official summary that has been published, dated in 1851, is given below:—

United States Fortifications.

Fort.	Location.	When commenced.	When finished.	Garrison in war.	Total number of guns.	Estimated cost of construction or repair.	Amount expended for construction or repair.	Amount required to complete or construct.	Estimated cost or value of work, up to 100 pounds of ammunition.
Fort Schuyler.....	Throeges Neck.....	1833	1,250	318	9,873,013	\$48,013	\$25,000	\$225,040
Fort Columbus.....	Governors Island.....	1831	105	105	103,743
Castle Williams.....	1837	800	78	269,467	250,407	10,000	79,332

Fort Porter.....	Black Rock.....	1842	300	64	150,000	116,500	33,500	51,208

The forts on Staten Island are being rebuilt on an extensive scale. Fort Schuyler, on Throeges Neck, has since been finished, a site purchased for a fort at Wilkins Point, directly opposite, and an immense fortress has been commenced on Sandy Hook, for the more effectual defense of New York Harbor. These works will effectually defend the approaches to New York by water, but would not prevent an attack by land should an enemy effect a landing upon Long Island. To guard against this, it has been proposed to erect a line of redoubts across the island from Wilkins Point to Fort Hamilton at such intervals as would secure this object.

The General Government has appropriated large sums of money during many years to the construction of a floating battery for the defense of New York Harbor. It is building at Hoboken, and is said to be nearly completed. It is of iron, of great strength and thickness, with its outer deck oval, and every part proof against cannon ball. It is to be mounted with heavy guns and propelled by steam. No official account of its construction has been published; and, for obvious reasons, the details of its plan are kept secret. It is reported that it has a capacity to accommodate 3000 men, with the necessary supplies of fuel and military stores; and it is thought that of itself it might oppose an effectual barrier against the approach of a hostile fleet in any passage which it might be brought to defend. This mighty engine of war was planned by the late John C. Stevens.

The other military establishments of the National Government in New York are,—

The Military Academy at West Point.

The Navy Yard, Dry Dock, Naval Hospital, and Laboratory at Brooklyn.

The Arsenal at Water-vliet for the manufacture of gun-carriages and other heavy furniture of artillery for the field and fort.

The Arsenal of Deposit, at Rome.

Plattsburgh Barracks.

Malden Barracks, at Sackets Harbor.

Buffalo Barracks.

A few years after the last war with Great Britain, a military road was surveyed and partly opened by the United States from Plattsburgh to Sackets Harbor; but this work from the first has been kept in repair by the towus as a common highway.

Fort Montgomery is the only work now under construction on the northern frontier. The Canadians have the following fortifications adjacent to New York:—

Fort Wellington, at Prescott, erected in 1812-15.

Fort Henry, at Kingston, with several Martello towers and batteries, for the protection of the harbor and town and defense of the north channel of the St. Lawrence. They were partly built in the War of 1812-15, and partly in 1837-40. Fort Carlton, now within the United States, commanded the south channel, and portions of the work, executed a century ago, (and since the Revolution entirely neglected,) might still be made available upon short notice.

Fort Missisquoi, at Niagara, directly opposite the American fort, is of modern origin.

NOTE.—By the Militia Regulations of this State, the device at the head of this article is borne upon buttons and other insignia worn by military officers.

LANDS.

The absolute property of all the lands in the State is vested in the respective owners, liable only to escheat and to the reservation of gold and silver mines in such as derive title from Colonial patents.¹

The law prohibits the leasing of agricultural lands for a longer period than twelve years.² The care and sale of lands belonging to the State are entrusted to the Commissioners of the Land Office. These commissioners have also the sole right of dealing with the Indians for the sale and surrender of reservations, excepting within the territory whereof the pre-emptive right of purchase was ceded to Massachusetts and is now held by the Ogden Company.

The Commissioners of the Land Office were created by an act of May 11, 1784, to carry into execution the promises of bounty lands for Revolutionary services which had been made by the Legislature in 1780. As now formed, this Board consists of the Lieutenant Governor of the State, Speaker of Assembly, Secretary of State, Comptroller, Treasurer, Attorney General, and State Engineer and Surveyor. The Deputy Secretary of State is *ex officio* Clerk of the Board, and the meetings are held in the Secretary's office, upon the call of the Secretary of State.

When State lands are to be sold, they are first surveyed, appraised, and advertised for sale at auction, and their minimum bid affixed. The lots that remain without a bid are liable to be taken by the first applicant upon payment of one-fourth of the price and giving bonds for the residue. If they remain unsold any considerable time, they are re-appraised and offered at a lower rate.³

The lands under water in the bays around Long Island are in most cases the property of the townships, by virtue of original patents; and the privilege of fishing and taking oysters and clams is by some towns held as exclusively belonging to their inhabitants.⁴

¹ The Dutch Government sometimes granted lands in the Colony without the formalities of Indian purchase; but it was the rule of the English to first extinguish the aboriginal title. It was customary to apply to the Governor and Council for leave to purchase. If granted, a treaty was held and an Indian deed obtained, a warrant was issued to the Surveyor General for a survey, and the map and field notes were reported. The Attorney General was then directed to prepare a draft of a patent, which was submitted to the Governor and Council, and, if approved, was engrossed upon parchment, recorded, sealed, and issued. The fees incident to procuring a patent were important sources of revenue to the officers concerned. Only 1,000 acres could be granted to one person; but this rule was evaded by associating great numbers of merely nominal parties; and the officers through whose hands the papers passed were often largely interested in the grants. The Colonial Government in this respect became exceedingly corrupt, and stood greatly in need of a reform like that wrought by the Revolution. In a few isolated cases grants of land were made directly by the crown, and no records appear in our offices. Of this class was the Royal Grant to Sir Wm. Johnson, x. of the Mohawk. Patents for land were generally very formal, and abounded in repetitions. "The grants were 'in fee and common soage,' as in the name of East Greenwich, in the co. of Kent, and included with the land all "houses, messuages, tenements, erections, and buildings, mills, millhaues, fences, inclosures, gardens, orchards, fields, pastures, common pastures, meadows, marshes, swamps, plains, woods, underwoods, timber, trees, rivers, rivulets, runs, streams, water, lakes, ponds, pits, brachen, quarries, mines, minerals, (gold and silver [wholly or in part] excepted) creeks, harbors, highways, easements, fishing, hunting, and bowling, and all other franchises, profits, commodities, and appurtenances whatsoever." This enumeration of rights, more or less varied, was embraced in all land patents. Colonial grants were usually conditioned to the annual payment of a *quitrent* at a stated time and place named in the patent. This payment was sometimes due in money, and often in wheat or other commodity. Others were conditioned to the payment of the skins of animals or a merely nominal article, as simply an acknowledgment of the superior rights of the grantors. The quitrents formed an important source of revenue, and, after the Revolution, became due to the State. In 1786 it was provided that lands subject to these rents might be released upon payment of arrears, and 11 shillings to every shilling of the annual dues. Large amounts of land upon which arrears of quitrents had accumulated were sold from time to time; and laws continued to be passed at frequent intervals for the final sale of all lands which had not been released by commutation as a matter of law. Such lands as then remained unredemmed were allowed to be released by payment of \$2.50 to each shilling of annual due. The last sale took place in March, 1829. The arrears for quitrents, then amounting to \$33,280, were in 1831 taken from the general fund and given in equal portions to the Lat. and Sch. of Funds.

² This feature was adopted to prevent the recurrence of anti-rent difficulties. The Legislature, in 1846, enacted a law providing that all lands previously rented for a life or lives, or for more than 21 years, should be taxed as the personal property of the persons receiving the rents, to an extent equal to a sum that at legal interest would produce the annual rent. Such taxes were made payable in the eos, where the lands lay; and this unpleasant encumbrance has largely contributed to reduce the amount of lands thus held.

³ Unappropriated lands in the counties of Clinton, Essex, Franklin, Hamilton, Montgomery, Saratoga, St. Lawrence, Washington, and Warren may be sold by the commissioners in quantities of not less than 100 acres, if already surveyed, at such price as they may be found worth. If over 1,000 acres, they may be surveyed and sold for their value, and may not be assessed at a higher rate for five years. Lands sold under foreclosure of loan mortgages are bid in by the Loan Commissioners if liable to go for less than the sum due. They are then sold by auction, or otherwise, for the best interests of the State, under the regulations above stated. Land under water may be conveyed by the Commissioners of the Land Office, under regulations fixed by law. Notice of application for such grants must be advertised for six weeks in the co. newspaper where the lands lie, and posted on the courthouse door. These notices must describe the adjoining lands and give the names of their owners. Applicants must make affidavit that they intend to appropriate the lands applied for to a commercial purpose. The co. judge, or supervisor and town clerk, or two assessors of the town where the lands lie, must make affidavit that the land is not more than is necessary for the purposes of commerce, and that the persons applying are believed to be *bona fide* applicants for the purposes stated. Applicants must also produce an accurate map of the proposed grant and the adjacent lands owned by them, certified by the oath of a surveyor; and also a correct description in writing, with courses and distances, and the soundings for every 50 feet on the exterior line. The map must show the general course of the shore for a mile each way, and the particular course of the point applied for, and include all docks, bulkheads, or other improvements, the names of owners of lands adjoining, and the width of the channel or river if less than two miles. The deduction of title and proof that the lands belong to the State must also be produced, with claim of ownership by the applicant, or by himself and those under whom he claims. The patent is conditioned to occupation in the mode agreed upon within — years, and the fees are \$500. Grants under the waters of navigable rivers and lakes can only be made to the owners of the land along the shores; and the commissioners are restricted in their powers so far as relates to New York City and the Hudson River R. R.

⁴ Around Staten Island the owners of the shores possess the right of using or leasing the adjacent lands under water for planting oysters. The custom of granting lands under water without the restrictions here enumerated has led to serious encroachments upon the harbor of New York, the details of which are stated on pages 418, 419.

The public lands are greatly reduced in quantity, and belong to the several permanent funds to which they have from time to time been granted.¹

Gospel and School Lands.—Under an act of 1782, a lot of 400 acres was to be reserved in each township of the Military Tract for the support of the gospel, and two lots of 200 acres for schools.²

In each of the Twenty Towns of the Chenango Tract a lot of 250 acres (usually Lot 45) was reserved for the gospel, and another (Lot 46) of like extent for schools; but these lots were sold with the lands, and the Canastota Tract, in Sullivan and Lenox, adjoining Oneida Lake, was in 1805-08 given in lieu, and apportioned among the Twenty Towns.³

In each of the Ten Towns on the St. Lawrence a mile square (usually Lot 55) was granted for gospel and schools, and in some towns was applied in early years to both these objects.⁴

Besides these grants for schools by the State, land proprietors have in some instances conveyed certain lots for this purpose, to encourage settlement. In nearly every instance these lands have been applied for the benefit of the original townships within which they were granted, and in their subdivision the local school fund has been equitably divided. Other lands were subsequently granted, as elsewhere noticed; and in 1822 the Constitution gave all the public lands not specially appropriated to the school fund.⁵

¹ The quantity now owned forms about 4½ per cent. of that held in 1823, and compares between the two periods as follows:—

	Jan. 1, 1823.	Jan. 1859.
Lands belonging to the School Fund	991,659A.	9,463A.
" " Literature Fund 17,946 "		640 "
" " Canal " 129,769 "		209 "
" " General "		39,209 "
" " Salt "		209 "
Total.....	1,139,374 "	49,581 "

² These lots were designated by the supervisors of Onondaga and Seneca cos., under acts passed in 1796 and 1808, as follows:—

Gospel and School Lands of the Military Tract.

³ In each of the following townships a lot of 640 acres was reserved for schools, viz.:—*Fayette*, now Guilford, and part of Oxford; *Clinton*, now Bambridge, Atton, and part of Coventry; *Greene*, now parts of Greene, Smithville, and Coventry; *Wagon*, now parts of Colesville, Sandford, and Windsor; *Chenango*, now parts of Port Crane, Conklin, Colesville, and Windsor; *Sabney*, now parts of Binghampton and Vestal; *Randolph*, now parts of Sandford, Windsor, and Coddlin; and *Hambden*, now parts of Vestal, Owego, and Nichols.

⁴ In Plattsburgh 640 acres was reserved for the gospel, and 490 for schools; and in Totten and Crossfield's Purchase 16 lots of 640 acres each. The latter have been selected under the Sackets Harbor and Saratoga R. R. Grant. In Benson Township (Hope and Lake Pleasant) 4 lots of 160 acres each were given for schools and literature.

⁵ The lands of the school fund were, Jan. 1859, as follows:—4,270 acres in Hamilton, 2,861 in Essex, 1,680 in Clinton, 350 in Wayne, 105 in Schoharie, 75 in St. Lawrence, 20 in Washington, 28 in Oneida, 25 in Fulton, 16 in Montgomery, 12 in Herkimer, 6 in Dutchess, and 5 in Onondaga cos.

Literature Lands have been reserved as follows:—1 mi. square in each of the townships of Fayette, Greene, Clinton, Chenango, Warren, Sidney, and Hampden. Townships 1, 4, 5, 8, 13, 14, 17, 19, 31, 32, 33, 34, 35, 36, 38, 41, in Totten and Crossfield's Purchase. Lot No. 56 in each of the Ten Towns of St. Lawrence co. A lot of 550 acres (less 50 for survey) in each of the 28 townships of the Military Tract. These lots were appropriated as follows:—

<i>Military Tract.</i> —Townships 7, 8, 9, 10, 11, 12, 15, 16, 17, and 20, to Union College.
Township 13, to Oxford Academy, Chap. 112, Laws of 1800.
" 5, " Pompey " " 119, " 1813.
" 3, " Cayuga " " 71, " 1814.
" 1, " Onondaga " " 209, " 1814.
" 19, " Cortland " " 10, " 1822.
" 28, " Auburn " " 206, " 1825.
" 22, " Ithaca " " 308, " 1825.

The remainder were sold for the benefit of the Literature Fund. *Clinton Township*, granted to the town of Jericho, Chap. 3, Laws of 1822. All other townships in Broome and Chenango cos. were sold for the benefit of the Literature Fund.

Ten Towns in St. Lawrence Co.—In Potsdam, granted to St. Lawrence Academy, Chap. 148, 1816. In Canton, granted to Lowville Academy, Chap. 134, Laws of 1818. The remainder was sold, and \$1,000 given to Middlebury Academy in 1825; \$1,000 to Rowlock Academy in 1824; \$2,500 to St. Lawrence Academy in 1825; and the remainder passed to the Literature Fund.

Totten and Crossfield's Purchase,—10,240 acres, absorbed by S. H. & S. R. R. In Benson Township, 4 lots of 160 acres each remain unsold. Of the unsold lands of the State in Jan. 1859, there were 39,209 acres; of which 19,020 are in Clinton, 5,133 in Hamilton, 5,111 in Essex, 4,725 in Franklin, 1,643 in Warren, 1,417 in Delaware, and the same in Erie, 780 in Herkimer, 212 in Cortland, 175 in Seneca, 116 in Sullivan, and 57 in Washington cos.

The Salt Springs Lands are, by Article 7, Sec. 7 of the Constitution of 1846, declared as belonging individually to the State, and comprise the grounds upon which salt is manufactured, whether by solar evaporation or artificial heat. The Commissioners of the Land Office may sell, under authority of law, certain portions for the purpose of purchasing other lands, so that the amount shall not be diminished. Since 1846, 14,485 acres have been sold, for \$153,039.50, and 543.12 acres purchased, for \$164,164.79.

ORIGINAL TOWNSHIP AND ITS NUMBERS.	Gospel Land School Lot.	Literature Lot.	Present Towns sharing in Profits of School Lot.
1. Lysander.....	9	100	Lysander and part of Granby.
2. Hammit.....	5	14	Hammit, Cicero, parts of Oswego City, and Granby.
3. Cato.....	25	89	Victory, Ira, and parts of Conquest and Cato.
4. Brutus.....	87	58	Brutus, and parts of Sennet, Mentz, Conquest, and Cato.
5. Camillus.....	72	15	Camillus, Elbridge, and Van Buren.
6. Cicero.....	14	16	Clay and Cicero.

25. Cincinnati.....	53	49	Cincinnati, Free-town, Marathon, and Willet.
26. Junius.....	78	79	Junius, Tyre, Waterloo, and part of Seneca Falls.
27. Gaben.....	45	33	Gaben and Savannah.
28. Sterling.....	73	88	Sterling, Butler, Wolcott, Huron, and Rose.

^a Exchanged for No. 17 by Chap. 177, Laws of 1812.

With certain exceptions¹ all property, both real and personal, is liable to taxation whether owned by individuals or corporations. Real estate is taxed in the town where it lies, unless adjacent to lands of the same owner or occupant in another town where he resides.

Personal property is taxed where the owner resides, and corporations in the towns where their property lies. Stocks of corporations are taxed to the company and not to the holders. Property may be sold for the payment of taxes, and lands upon which the taxes remain unpaid are returned by the co. treasurers to the comptroller, and so much of each parcel is sold at stated periods, as is necessary to pay the taxes, interest, and charges that accrue thereon.²

The pre-emptive title to the lands of the State w. of a meridian passing through the 82d milestone on the Penn. line, was conveyed to Massachusetts, (except a mile strip along the Niagara,) at a convention held at Hartford, Dec. 16, 1786. These lands amounted to about 6,000,000 acres. Ten towns of 234,400 acres, in Broome and Tioga cos., called "*The Massachusetts Ten Towns*," were also conveyed at the same time.

Large tracts of land remained in possession of the government when it became a State. These and other portions derived from forfeitures, escheats, tax sales, Indian purchases, and foreclosure of loan mortgages, have been sold in small parcels, as parts of large tracts, having a general name and system of survey. Sometimes as many patents have been issued for these tracts as they had lots, and in others many lots have been conveyed to the same person.

The largest grant ever made by the State to citizens was that of Macomb's Purchase, in Franklin, St. Lawrence, Jefferson, Lewis, Herkimer, and Oswego cos. It embraced 3,693,755 acres, and was patented to Daniel McCormick and Alexander Macomb in 1791-8. The State, in accordance with Indian treaties, has conveyed sundry tracts, the principal of which are Penet Square, (10 mi. sq.,) in Jefferson co., and Perches, Kirkland, and other minor tracts, in Oneida co. Others, for like cause, have been assigned for missions and other specific objects. The Legislature has also by acts directed the land commissioners to convey extensive tracts for the promotion of roads, rail-roads, and canals; colleges, academies, schools, and other institutions, and to reward military or other services to the State. Of the latter class was a grant of 16,000 acres in Oneida co. to Baron Steuben, in 1794.

Of patents to citizens not included in either of the preceding lists, the principal are Scriba's 500,000 acres in Oswego and Oneida cos. Adgate's, Coxe's, Machin's, Oothoudt's, Remsen's, Dean's, and other tracts in Oneida; Vrooman's, Noble's, &c. in Herkimer; and Watkin's & Flint's in Chemung and adjoining counties. Numerous grants of land to communities, with privileges of government, were made upon Long Island, and in the counties bordering upon the Hudson, which will be specially noticed in the localities to which they refer.

Several of the cities have special laws for the sale of real estate for taxes, and such sales are made under the direction of the fiscal officer of the corporation. All other tax sales occur at Albany once in three years, and are duly advertised by the comptroller and in each co. by such newspapers as are designated by the supervisors.

¹ The real estate not subject to taxation comprises property belonging to the State and United States; buildings and grounds for public uses owned by counties, cities, villages, and towns; colleges, academies, and incorporated seminaries; churches, school houses, and the property of corporations for reform of offenders; public libraries; bank stock owned by State and by literary and charitable societies; Indian reservations, and the property of Indians living thereon; the property of clergymen to the extent of \$1,500 each, and property not liable to sale under execution for debt. The last named includes (if owned by homesteaders) a spinning wheel, a loom, stoves put up or in use, the family Bible, family pictures, and school books in use, not exceeding \$50 in value, a seat or pew in church, ten sheep with their fleeces, and the yam or cloth made thereon, one cow, two swine, and their necessary food, all necessary pork, beef, fish, flour, and vegetables provided for family use, and fuel for 60 days, all necessary wearing apparel, beds, bedsteads, and bedding for the family, arms and accoutrements required by law to be kept for service in the militia, necessary cooking utensils, one table, six chairs, table furniture for six persons, one crum and its appendages, one pair of andirons, a shovel and tongs, beds of mechanics to the value of \$25, a team worth \$150, and land set apart for a private burying ground not more than 1 acre. A building and lot worth \$1,000 occupied as a dwelling by the owner and his family may be exempt by causing a description of the premises to be

recorded in the co. clerk's office, but such record does not exempt from sale for taxes, and property generally is liable for debts contracted in its purchase. Where a homestead is exempted the privilege continues for the benefit of the widow and family after the death of the head. Such of the above articles as are movable continue exempt while the family to whom they belong are removing from one place of residence to another.

² Each parcel is held up at auction, and those persons competing at the sale name the least amount of land in a square, usually in the N.W. corner, that they will accept, and pay the taxes and charges due. The sale is declared in favor of the person naming the least quantity, and the purchaser receives a certificate naming the time when a deed will be due. If not paid, the controller may in 3 months cancel the certificate and give to another upon payment of the same amount, and any person may redeem within 2 years by paying the taxes, charges, and 10 per cent. in addition. Specific or undivided parts of tracts of land may be sold. If not redeemed in 2 years the comptroller issues a full deed to the purchaser. The portion sold to pay taxes is designated by the comptroller and varies with circumstances. If a village lot, it is located so as to front upon a street, and in long narrow tracts it is taken off from one end. A tax sale takes place in 1850, and triennially thereafter.

TABLES OF MANORS, COLONIAL PATENTS, PURCHASES, AND LAND GRANTS.

Manors of the Colonial Period in New York and its Dependencies.

NAMES.	PATENTEES.	DATES.	LOCATION AND REMARKS.
Bentley	Capt. Ch'r Billop.....	May 6, 1687	S. W. part of Staten Island, sometimes called "Billop Manor."
Cassidown	John Palmer	Mar. 29, 1687	N. part of Staten Island.
Cortlandt	Col. Stephanus Cortlandt	June 17, 1697	S. part of Westchester co., had 1 Rep. in Gen. Assembly.
Fletcher	Capt. John Evans	Sept. 6, 1694	Canceled.
Fox Hall	Capt. Thos. Chambers.....	May 21, 1667	Annexed to Kingston, Mar. 12, 1787.
Gardners Island.....	Earl of Surling.....	Mar. 10, 1639	With full power as an independent town.
Livingston	Robert Livingston.....	June 22, 1663	Columbia co., had 1 Rep. in Gen. Assembly.
Marthas Vineyard.....	Matthew Mayhew.....	April 29, 1685	Since annexed to Massachusetts.
Morrisania	Col. Lewis Morris.....	May 9, 1697	S. point of Westchester co.
Pelham	John Pell.....	Oct. 25, 1687	S. E. border of Westchester co.
Philipsburgh	Frederick Philipse.....	April 1, 1680	Putnam co.
Plumme Island.....	Samuel Willes.....	April 2, 1675	Plum and Gill Islands.
Rensselaerwyck.....	Killian Van Rensselaer..	1630-37	Fully organized; represented in Gen. Assembly; confirmed Oct. 17, 1685, May 29, 1704.
St. George	Col. Wm. Smith	Oct. 5, 1693	In town of Brookhaven, Suffolk co.
Scarsdale	Caleb Heathcote.....	Mar. 21, 1701	Westchester co.
Sophy	John Paine.....	July 25, 1672	Prudence Island, R. I. Disallowed by R. I. and authority resisted.
Tysbury	Thos. Mayhew.....	July 8, 1761	Marthas Vineyard, now a part of Massachusetts.

Several of these existed only in name; perhaps a few other patents bore the name of Manors, upon which active settlement were not begun under the Colonial Government.

Table of the more important Patents

Granted under the English Colonial Government, in the eastern part of New York.

NAME OF PATENT.	County.	Date.	Extent in Acres.	Patentees.
Adapatangie Patent.....	Otsego.....	May 8, 1770	25,000	Sir William Johnson and others.
Amherst Tracts.....	Hamilton.....	April 6, 1774	40,000	Sir Jeffery Amherst, (2 tracts.)
Annapescook Patent.....	Washington.....	May 11, 1762	10,000	R. J. P. & W. Schermernhorn and others.
Argyle Patent.....	".....	March 13, 1764	47,450	Duncan Reid and others.
Arieskill Patent.....	Montgomery.....	Nov. 12, 1737	10,000	James De Lancey.
Artillery Patent.....	Washington.....	Oct. 21, 1764	24,000	Joseph Walton and others.
Babington's Patent.....	Delaware.....	May 22, 1770	2,000	Charles Babington.
Bagley's Patents.....	Schenectady.....	June 17, 1737	4,000	Timothy Bagley and others.
".....	Montgomery.....	Feb. 9, 1838	6,000	"
Balfour's Patent.....	Ham. & Warren.....	March 6, 1775	5,000	Henry Balfour, (Totten & Crossfield's Pur.)
Banyar's Patent.....	Otsego & Scho.....	April 14, 1753	4,000	Gold-brow Banyar and others.
Batavia Patent.....	Greene.....	April 24, 1736	4,200	Vincent Matthews and others.
Bayard's Patent.....	Oncida & Herk.....	June 12, 1771	50,000	Wm. & Rob. Bayard and others, (Freemasons' Patent.)
Becker's Patent.....	Schoharie.....	March 19, 1754	6,000	Johannes Becker and others.
Beddington Patent.....	Delaware.....	May 24, 1770	27,000	John Leake and others.
Beekman's Patent.....	Dutchess.....	June 25, 1763	Henry Beekman.
Beekmantown Patent.....	Clinton.....	March 27, 1769	30,000	William H. Beekman.
Belvidere Patent.....	Otsego & Scho.....	July 6, 1760	100,000	George Croghan and others, (2 tracts.)
Bishop's Patent.....	Hamilton.....	April 6, 1774	14,000	Wm. Bishop, (T. & C. Pur.)
Bleeker's Patent.....	Montgomery.....	Sept. 22, 1729	4,500	Rutger Bleeker and others.
Blenheim Patent.....	Schoharie.....	Nov. 28, 1769	40,000	John Weatherhead and others.
Bradshaw's Patent.....	Washington.....	May 18, 1762	23,000	James Bradshaw.
Bradt's Patent.....	Schenectady.....	Feb. 14, 1738	4,000	Krent Bradt and others.
".....	".....	Dec. 16, 1737	3,870	"
Buffington Patent.....	Schoharie.....	July 13, 1770	4,000	David Buffington.
Burnetfield Patent.....	Herkimer.....	April 30, 1775	9,400	John Just Petrie and others, (German Flats.)
Cambridge Patent.....	Washington.....	July 21, 1761	31,500	Cobden, Smith, Banyar, and others.
Campbell's Patent.....	Essex.....	July 11, 1764	5,000	Allen Campbell.
".....	Hamilton.....	April 5, 1784	4,000	Duncan Campbell, (T. & C. Pur.)
Catskill Patent.....	Greene.....	July 11, 1767	35,500	Martin Garrison Van Bergen and others.
Cauganawaga Patent.....	Montgomery.....	Nov. 4, 1774	2,000	John & Margaret Collins.
Clarke's Patent.....	Delaware.....	May 22, 1770	2,000	James Clarke.
Clus's Patent.....	Fulton.....	Sept. 29, 1770	3,000	David Clus.
Caterskill Patent.....	Greene.....	Nov. 1, 1695	Jacob Loelerman.
Choesesock's Patent.....	Orange.....	March 25, 1767	Ann Bridges and others.
Cherry Valley Patent.....	Otsego.....	April 18, 1738	7,050	John Lindsey and others.
Clifton Park Patent.....	Saratoga.....	Sept. 23, 1768	N. Hermaus and others, (Shenondehowa Pat.)
Cobus Kill Patent.....	Schoharie.....	Jan. 15, 1770	40,000	Stephen Skinner and others.
Corry's Patent.....	Mont. & Scho.....	Nov. 19, 1737	25,000	Wm. Corry and others.
Cosby's Manor.....	Oncida & Herk.....	June 2, 1734	22,000	Joseph Worrell and others.
Cosby's Patent.....	Schenectady.....	Feb. 9, 1738	6,000	Alex., Ph. & Wm. Cosby.
Coxburgh & Carolina.....	Oncida.....	May 30, 1770	"
Cox's Patent.....	".....	May 30, 1770	47,000	Daniel Cox and others, (s. w. of Mohawk.)
".....	".....	Jan. 5, 1775	20,000	" " " (s. of Susquehanna.)
Croghan's Patent.....	Otsego.....	June 29, 1770	18,000	Geo. Croghan and others, (s. of Mohawk.)
Bartmouth Patent.....	Hamilton.....	Oct. 4, 1774	18,025	Jeremiah Van Rensselaer.
Debn's Patent.....	Clinton.....	July 11, 1769	30,000	Elkanah Debn.
De Berniers Patent.....	Delaware.....	May 22, 1770	2,000	John De Bernier.
De Lancey's Patent.....	Montgomery.....	Nov. 12, 1737	10,000	James De Lancey and others, (s. of Mohawk.)
".....	".....	Aug. 23, 1737	5,425	" " " (s. of Mohawk.)
Edmeston's Patent.....	Otsego.....	July 21, 1770	5,000	Robert Edmeston.
".....	".....	July 20, 1770	5,000	William Edmeston.
Franklin Patent.....	Otsego.....	June 20, 1770	9,000	Walter Franklin and others.

NAME OF PATENT.	County.	Date.	Extent in Acres.	Patentees.
Franklin Township.....	Delaware.....	Feb. 26, 1770	30,000	Thomas Wharton and others.
Frank's Patent.....	Herkimer.....	Sept. 6, 1765	5,000	Conrad Frank and others.
Frazier's Patent.....	Greene.....	June 17, 1765	2,000	Hugh Frazier.
Freeman's Patent.....	Schenectady.....	July 3, 1736	5,000	Thomas Freeman.
Friswell's Patent.....	Clinton.....	May 7, 1765	3,000	John Friswell.
Gage's Patent.....	Oneida.....	July 6, 1739	18,000	Thomas Gage.
Glazier's Patent.....	Schoharie.....	Sept. 10, 1772	3,000	Benjamin Glazier.
Glen's Purchase.....	Saratoga.....	Aug. 24, 1770	45,000	John Glen, Jr.
Goldborough Township.....	Delaware.....	June 15, 1770	6,000	Edward Tudor and others.
Grant's Patent.....	Essex.....	Aug. 17, 1764	3,000	Robert Grant.

SUBDIVISIONS OF THE MASSACHUSETTS PURCHASE

Of about 6,000,000 acres of Lands ceded to Massachusetts by the State of New York at the Hartford Convention, Dec. 16, 1786.

TRACTS.	Parties.	Date.	Acres.	Counties.
Phelps and Gorham's.....	Massachusetts to Phelps and Gorham.....	Nov. 21, 1788	2,600,000	Allegany, Livingston, Ontario, Schuyler, Steuben, Wayne, and Yates.
Morris Reserve..... to Robert Morris.....	May 11, 1791	500,000	Allegany.
Triangular Tract.....	Morris to Le Roy, Bayard & McVoy's.....	87,000	Mourne.
Connecticut Tract..... Watson, Craigie & Greenleaf.....	104,000	Orleans and Genesee.
Craigie Tract..... Andrew Craigie.....	50,000	Genesee.
Ogden Tract..... Gerrit Cutting.....	50,000	Wyoming.
Cottinger Tract..... Wilhelm and Jan Willink.....	50,000	Wyoming and Allegany.
Forty Thousand Acre Tract..... Samuel Sterritt.....	40,000	Wyoming & Livingston.
Sterritt Tract..... John B. Church.....	150,000	Allegany.
Church Tract..... Creditors.....	100,000	Allegany.
Morris Honorary Creditors' Tract..... Agents of Holland Co.....	1792-93	3,600,000	Allegany & Livingston, Chautauque, Cattaraugus, Albany, Wyoming, Erie, Genesee, Orleans and Niagara.
Holland Co's Purchase.....
Boston Ten Towns.....	Massachusetts to Settlers.....	Nov. 7, 1787	230,400	Broome and Tioga.

* Phelps and Gorham originally contracted for the whole tract at \$1,000,000, payable in a kind of scrip called "Consolidated Securities," then much below par. A rise to par prevented them from fulfilling the agreement.

^b In 1801, conveyed in undivided halves to the State of Conn. and Sir Wm. Pulteney, the former using part of her School Fund in the purchase. Divided by alternate lots in 1811.

^c Conveyed in four tracts to the agents of the Holland Co.; viz., 1,500,000, Dec. 24, 1792, to Le Roy and Lincklaen; 1,000,000 Feb. 27, 1793, to Le Roy, Lincklaen, and Boon; 800,000, July 20, 1793, to the same; and 300,000, same date, to Le Roy, Bayard, and Clarkson.

West of Road Patent.....	Essex.....	174	
White Face Mountain Tract.....	Essex and Clinton.....	

Tables of many small grants, tracts, and purchases will be found in the descriptions of the counties in which such lands are located.

CANALS.

THE PUBLIC CANALS of the State are made, by the Constitution, inalienable. They were first constructed for the purpose of facilitating settlement and of opening an easy means of communication between the Atlantic and the great lakes. The canals are under the care of several State officers, the powers and duties of whom are as follows:—

The Canal Commissioners, three in number, are elected one each year and hold office for three years. They have the immediate supervision and management of the construction and repairs of canals, and are *ex officio* members of the Canal and Contracting Boards. They have their office in the State Hall, and report annually

to the Legislature. The canals have three general divisions, each of which is under the special charge of a commissioner.¹

The State Engineer and Surveyor has general charge of the engineering department of the canals, and is a member of the Canal and Contracting Boards. He has an office in the State Hall, and reports annually to the Legislature.²

The Canal Board consists of the Commissioners of the Canal Fund, the State Engineer, and the Canal Commissioners. It meets, during the session of the Legislature, at the office of the Canal Department, fixes the rates of toll, appoints collectors of tolls, their assistants and weigh-masters, directs extraordinary repairs; hears appeals from the Canal Appraisers, remits penalties, and regulates the police of the canals.³

The Auditor of the Canal Department draws warrants on the Treasurer for all canal payments, audits accounts, instructs collecting and disbursing officers, and keeps account of canal receipts and expenditures. He is *ex officio* Secretary of the Commissioners of the Canal Fund and of the Canal Board, and a member of the Contracting Board. His office, known as the "Canal Department," is in the State Hall at Albany.

The Canal Appraisers, three in number, are appointed one each year, and hold office for three years. They appraise all damages arising from the canals, whether temporary or permanent in their nature. They have an office in the State Hall.

The Contracting Board consists of the State Engineer, the Auditor of the Canal Department, and the Canal Commissioners. It appoints all division, resident, and first assistant engineers.⁴

The Commissioners of the Canal Fund consist of the Lieutenant Governor, Secretary of State, Comptroller, Treasurer, and Attorney General. The Auditor of the Canal Department is *ex officio* Secretary of the Board. They have the general management of the funds and debts of the canal.⁵

¹ The Eastern Division embraces the Erie Canal as far w. as Ononda Lake Canal, 136 miles; Champlain Canal and Glens Falls Feeder, 75 miles; Pond above Troy Dam, 3 miles; Black River Canal and Improvement, 98 miles; making a total of 313 miles.

² The Middle Division embraces the Erie Canal from the E. bank of Ononda Lake Canal to the E. line of Wayne co., including feeders and reservoirs, 76 miles; Chenango Canal, 95 miles; Ononda Lake Canal, 7 miles; Oswego Canal, 38 miles; Baldwinsville side cut, 1 mile; Ononda River Improvement, 20 miles; Seneca River towing path, 53 miles; Cayuga & Seneca Canal, 23 miles; Crooked Lake Canal, 8 miles; Chemung Canal and Feeder, 33 miles; Ononda Creek Feeder, 2 miles; Seneca River Improvement, 124 miles; making a total of 331 miles.

³ The Western Division embraces the remainder of the Erie Canal, 155 miles, and the Genesee Valley Canal and Dansville Spile Cut, 118 miles, making a total of 273 miles.

⁴ He prescribes the duties of engineers and assigns to them divisions, visits and inspects all the canals at least once in each year, and prepares plans, surveys, maps, and estimates for construction or improvement. He has other duties relating to railroads, lands belonging to the State; and other subjects are also assigned to him from time to time.

⁵ In the Engineering Department are the following subordinate officers:—

Division Engineers, one to each division, are appointed by the Contracting Board with the consent of the State Engineer. They have special supervision of the sections of canals in their respective divisions, and are obliged to frequently pass over the canal; and they prepare all maps, plans and specifications for work to be put under contract. They make full reports annually to the State Engineer. The office of the Resident Engineer of the Eastern Division is at Albany, of the Middle Division at Syracuse, and of the Western Division at Rochester.

Resident Engineers, 12 in number, have immediate charge of certain sections under the supervision of resident engineers. They are assisted by:

First Assistant Engineers, appointed by the Contracting Board, and

Second Assistant Engineers, appointed by Resident Engineers. The number of these assistants is regulated by the amount of labor in progress. Levelers, surveyors, draftsmen, clerks, &c. are employed as the department may require, and are appointed in the same manner as Second Assistant Engineers. No engineer or other public officer appointed upon the canals, or a clerk, foreman, or overseer of laborers, is allowed to have an interest in the boarding of laborers, or in furnishing teams, materials, or any other thing belonging to himself, for the use of the public.

³ There are 20 collectors of tolls on the Erie, 3 on the Champlain, 3 on the Oswego, 3 on the Seneca & Cayuga, 3 on the Chemung, 1 on the Crooked Lake, 3 on the Chenango, 5 on the Genesee Valley, 1 on the Black River, and 1 on the Ononda Lake Canal. There are also 41 assistant collectors. Collectors may be removed by the Canal Commissioners or the Auditor.

⁴ This Board was created April 15, 1854, and its powers were enlarged and amended May 14, 1857. Until May 1, 1859 it appointed superintendents of repairs, but since that time all repairs are made by contract. Repairs were formerly made by laborers, hired by the day or month, under the direction of superintendents; but in 1857 the Contracting Board was authorized to let the ordinary repairs upon contract for a term of years.

⁵ The canal fund was derived from the following sources:—

1817-25. Auction duties, (in part) amounting in all to	\$3,592,009.05
" " Salt duties amounting in all to	2,055,438.99
In 1855, these 5 items were restored to the general fund, by a popular vote of 68,126 to 8,675.	
1817-23. Steamboat passenger tax, amounting in all to	79,509.99

Reports are annually made to the Legislature by the heads of the various Canal Departments concerning every thing pertaining to the Canal interests. These reports, embodying voluminous details and summaries, are printed, and are easily accessible to all.

Loans for construction, at sundry times, secured by State stocks. The avails for Erie and Champlain Canals up to Sept. 30, 1858, amounted to.....	\$5,271,831.00
Loans for enlargement, &c.....	11,828,000.00
Loans for deficiencies.....	10,233,844.10
Loans for enlargement and completion.....	10,500,000.00
Canal revenue certificates.....	1,512,330.75
Temporary loans.....	1,700,000.00
Tolls.....	64,429,475.41
Tax (1844, 45, 46, 47, 1854, 55, 56, 57, 58).....	2,356,623.21
Sale of lands for benefit of canals, viz.: 102,035 acres in Cattaraugus co., given by the Holland Land Co.; 3,000 acres, by John Borley; 1,000 acres, by Gideon Grainger; Grand Island, (17,381.5 acres), and 8 small islands, (592 acres,) given by the State for benefit of canals; and a tract of land on Wood Crek, bought with the rights of the Western Inland Lock N. Co.....	107,430.48
Interest on investment and deposits.....	3,157,560.00
Surplus bills, from lateral canals.....	1,010,731.43
Miscellaneous.....	1,101,123.43
Total receipts Erie and Champlain Canals.....	123,043,734.84
Receipts upon all the State canals.....	143,697,002.91
Total payments upon the Erie and Champlain Canals.....	141,627,845.85
Total payments upon all the State canals.....	141,627,845.85

The total premiums upon loans amounted to..... \$2,288,711.12
 The total discount upon loans amounted to..... \$260,508.04
 Special loans were made for most of the lateral canals. A tract of land from the Onondaga Salt Springs Reservation was sold for the benefit of the Oswego Canal and another tract for \$100,000, stock in the Western Inland Lock Navigation Co., amounting to \$2,000, was canceled for the benefit of the canals, and the interests of individuals in that work were canceled by purchase. The amount appraised was \$52,718.32.
 The Constitution provides (Art. VII) that, after paying the expenses of collection, superintendence, and repairs, the sum of \$1,300,000, and after 1850, \$1,700,000, shall be applied annually, from the revenues of the canals, for sinking bond, to pay the canal debt. In 1857, the surplus receipts of tolls paid, for the first time since 1846, to meet this, and it became necessary to raise by direct tax the money required to pay interest on the stock. The clause in the constitution prohibiting the creation of a debt for any public work, without imposing a direct tax for its payment, and a submission to the popular vote, was suspended by an amendment adopted Feb. 14, 1854, to allow of the raising of \$9,000,000, by the issue of State stock, for the more speedy enlargement and completion of the canals. A measure was introduced in the Legislature of 1859, for the loan of a further sum for this object, and the submission of the question to the decision of a popular vote.

SUMMARIES OF THE PRINCIPAL RESULTS.

Amount and value of property moved, and mills run, on all the State Canals, since 1835.

Year.	ESTIMATED VALUE OF PROPERTY TO AND FROM OTHER STATES, VIA BUFFALO, BLACK ROCK, TONAWANDA, AND OSWEGO.		Total value of property moved on all the canals.	Clear'd at New York, Albany, and West Troy.	Clear'd at Buffalo, Black Rock, and Tonawanda.	Clear'd at all other places.	Total number of tons moved on all the canals.	MILES RUN IN EACH YEAR BY ALL THE BOATS.

« To 1853 inclusive.

The Erie Canal, connecting the Hudson with Lake Erie, was commenced at Rome, July 4, 1817, and was completed Oct. 26, 1825. As first constructed, it was 363 mi. long, 28 ft. wide at the bottom, 40 ft. wide at the top, and 4 ft. deep. The locks were 90 ft. long between the gates, and 15 ft. wide. The original cost of the whole was \$7,143,789. 86.¹

The number of boats upon the canals at different periods has been—in 1843, 2,156; in 1844, 2,126; in 1847, 2,725; in 1853, 3,191; and in 1859, about 3,500. The following numbers of new boats have been registered:—

1844, 278	1847, 1,496	1850, 152	1853, 500	1856, 364
1845, 297	1848, 437	1851, 215	1854, 700	1857, 329
1846, 477	1849, 215	1852, 271	1855, 471	1858, 255

Some opinion may be formed of the class of boats used from the numbers built. These were, in 1857, of scows, 103; decked scows, 23; lake boats, 95; bullheads, 102; and jacksets, 3. None of the last named were built in 1858; and the day for traveling upon the canals may be considered as virtually passed, unless steam canal boats—now being introduced into use—prove successful competitors in speed with steam upon railroads.

The largest boat registered in 1844 was 90 tons. In 1849, some were as high as 135 tons; in 1850, 170 tons; in 1853, 250 tons; and in 1858, 300 tons. The average tonnage of boats has been as follows:—

1849.....	76
1850.....	80
1851.....	87
1852.....	88
1853.....	97
1854.....	105
1855.....	102
1856.....	107
1857.....	114
1858.....	109
General average.....	100

^a Double locks, side by side, are counted as one. The number upon the Erie Canal, when completed, will be two less, by dispensing with those now at Montezuma.

^b Farm bridges are gradually lessening in number, as the claims of individuals are from time to time commuted, or the

damages appraised from failure to rebuild them. The principal increase of bridges is in cities and villages, from the opening of new streets; and in these localities permanent iron bridges are now generally built upon the principal thoroughfares.

^c Of the 10 dams in the first column, 8 are feeder dams.

Plans for improving the navigation of the Mohawk were proposed in 1725, but nothing was done to this end till March 30, 1752, when the Western Inland Navigation Company was incorporated, with powers to improve the channel and build canals and locks to Lake Ontario and Seneca Lake. The cost to Ouedia Lake was estimated at \$39,599. This work consisted mainly of the following:—

1st. A canal at Little Falls, 4,752 feet long, of which 2,550 feet were through solid rock. Upon it were 5 locks, with a total rise of 143 feet. 2d. A canal 12 miles long, with a lock at Wolf Rift, German Flats. 3d. A canal, 41 miles long, at Rome, connecting the Mohawk with Wood Creek; and, 4th, four locks upon Wood Creek, with a total depth of 25 feet. The work was begun at Little Falls, in 1793, but the want of funds delayed the work until 1794, when a subscription of 200 shares was obtained from the State. Boats first passed the canal and locks at this place, Nov. 17, 1795, and on that day and the next 8 large and 192 small boats were passed, at a toll of \$50 10s, exclusive of 9 that passed free the first day. The chambers of the locks were 74 by 12 feet, and allowed boats of 32 tons to pass; but other impediment—loaded boats to a burden of 10 or 11 tons. Light boats could go from Schenectady to Fort Stanwix and back in 9 days; but the larger boats required 14 days to make the trip. In 1793, Wood Creek was cleared out, and 13 isthmuses were cut across shortening the channel 7 miles. In 1796, boats passed through to Ouedia Lake; and the work, in 1797, had cost \$109,000, of which the State paid \$92,000. The great cost required high tolls; and in 1812 but 300 boats passed, with 1,500 tons at Little Falls. The company gave up its rights west of Ouedia Lake in 1808, and sold out to the State, in 1820, for \$152,718.52.—*Report of Weston, the Engineer, 1796; Spafford's Gazetteer, 1833; Hist. N. Y. Canals, 11, 40.*

It is entirely uncertain who originated the first idea of constructing a chain of water communication through the State. All of the early efforts were directed to effecting a passage through the Mohawk, Wood Creek, Ouedia Lake, and Oswego River to Lake Ontario. The Western connection was sought by leading around Niagara Falls. In 1800, Governor Morris first suggested the idea of a direct canal from Lake Erie to the Hudson, through the center of the State. His plan was to tap Lake Erie and have a continuous slope from the lake to the high land that breaks upon the Hudson, and a series of locks thence to the river. In 1802 he stated the outline of his plan to the Surveyor General, Simon De Witt, who looked upon it as

chimerical. The next year Mr. De Witt, in a conversation with James Geddes, then a land surveyor of Ouedia county, stated the plan of Mr. Morris as one of the impracticable schemes which had been advanced. Mr. Geddes, however, looked at the matter in a different light, and after some little reflection, he concluded that the plan, with some modifications, was by far the best that had yet been suggested. He consulted with Jesse Hawley upon the subject and the latter, convinced of the feasibility of the project, wrote a series of papers which were published in the Genesee Messenger from Oct. 1807, to March, 1808. These essays were signed "Hercules," and were the first ever printed in favor of the Erie Canal. In 1808, Joshua Forman, an intimate associate of Mr. Geddes, then a member of the Assembly, introduced a resolution to the survey of a canal route, to the end that Congress might be led to grant moneys for the construction of a canal. The sum of \$500 was granted for surveys under the direction of the Surveyor General, James Geddes was intrusted with this service, and was directed to level down from Ouedia Lake to the mouth of Salmon Creek, to ascertain whether a canal could be opened from Oswego Falls to Lake Ontario and to survey the best route for a canal around Niagara Falls. He was also directed to survey a route eastward from Lake Erie to Genesee River, and thence to the waters flowing east into Seneca Lake. He finished this work, and made a report showing the practicability of the last named route and its great superiority over the others which had been proposed. This report at once excited general attention, and secured the influence of De Witt Clinton, then a member of the Senate, and many other prominent men. In 1810, commissioners, at the head of whom was De Witt Clinton, were appointed to explore a canal route through the center of the State. On the 5th of April, 1811, an act was passed to provide for the improvement of the inland navigation of the State, and efforts were made to obtain aid from the Federal Government but without success. The report of the commissioners stated the importance of this measure with such force and eloquence that a law was passed the next year containing the commissioners, and authorizing them to borrow and deposit money and take possession of land, for the proposed canal; but the war suspended active operations. The project, however, continued to be discussed, and an act was passed on the 17th of April, 1816, providing for a definite survey. The canal was begun at Rome, July 4, 1817, and on the 22d of October, 1819, the first boat passed from Utica to Rome.

The completion of the canal was celebrated by extraordinary

The enlargement of this canal was ordered May 11, 1835, and has been going on more or less rapidly since, except during a few years of suspension commencing under Gov. Wright's administration. It was estimated by the State Engineer and Surveyor, in Jan., 1859, that \$1,565,977.75 would complete the enlargement upon the present plan, making the total cost of that work \$23,000,000. The length of the Erie Canal when enlarged will be reduced to 319.74 mi. Its section gives a breadth of 70 ft. at the surface of the water, 52½ ft. at the bottom, and a depth of 7 ft.

civic and military ceremonies throughout the State, and especially in New York City, on the 4th of Nov. 1825. As the first boat, with Governor Clinton on board, entered the canal, at Buffalo, at 10 o'clock, (cont. 26,) a line of cannon, previously arranged a few miles apart, passed a signal along to Albany, and down the Hudson to Sandy Hook, from whence it was returned in like manner. The signal was heard at New York, at 11.20. The militia with the Governor was everywhere greeted with enthusiastic rejoicing. Upon reaching New York it passed down to Sandy Hook, and the waters of the lake were mingled with those of the ocean with imposing ceremonies.

The Canal Commissioners under whom the Erie and Champlain Canals were constructed were Stephen Van Rensselaer, De Witt Clinton, Joseph Elliott, Samuel Young, and Myron

Holley. Henry Seymour was appointed in place of Elliott in March, 1819, and William C. Boeck was added to the number in March, 1821. The chief engineers were James Geddes, of Oneida co., and Benjamin Wright, of Rome, neither of whom had ever seen a canal, or enjoyed means of acquiring a practical knowledge of engineering other than that obtained from surveying land. The precision with which their canal surveys were executed, under the circumstances, may be regarded as truly wonderful. Among the assistant engineers were — Hancock, David Thomas, Nathan S. Roberts, Charles S. Bates, Conway White, Davis Burd, Noah Deems, David P. Whipple, William Jerome, Henry G. Sargent, Frederick C. Mills, Isaac J. Thomas, Henry Fairman, Alfred Barrett, John Bates, William H. Price, John Hopkins, and Seymour Skiff.

The Canal Board have adopted the following table of distances from place to place upon the Erie Canal. The elevations above tide are those shown by the lockages, and do not take into account the descent given to cause a flow of water between locks, which does not vary much from an inch to a mile. The long level is supposed to be perfectly uniform in elevation above tide.

Stations, Distances, and Elevations above Tide on the Erie Canal.

The number of locks will be 74, or 10 less than the original number.¹ The banks of the enlarged canal are protected from washing by slope walls, consisting of stone firmly packed upon the sloping sides. The canal will allow the passage of boats of 200 to 250 tons burden. Steam has been introduced to some extent in propelling boats, and the success of the experiment has been so great that probably steam power will ultimately supersede horse power.

The Champlain Canal, extending from the Erie Canal, near Cohoes, to Lake Champlain, was begun June 10, 1818, finished to Waterford Nov. 28, 1822, and completed Sep. 10, 1823, at an original cost of \$875,000, exclusive of the feeder to Glens Falls. It is 64 mi. long and has a navigable feeder of 7 mi. to Glens Falls, with a slackwater navigation 5 mi. further upon the Hudson.²

The Chenango Canal,³ connecting the Erie Canal at Utica with the Susquehanna River at Binghamton, was authorized Feb. 23, 1833. It is 97 mi. long exclusive of 13½ mi. of feeders, none of which are navigable.

The Black River Canal and Erie Canal Feeder extends from Rome up the valley of the Mohawk and of Lansing Kil to Boonville, and thence it descends the valley of Black River to a point below the High Falls. From the latter point is a river navigation 42½ mi. to Car-

¹The chambers of the enlarged locks are 110 by 18 feet, and their lift varies from 3 to 15½ feet. The canal leaves Lake Erie at Buffalo, follows the river bank to Black Rock, and communicates with the dam at that place. At a point 10 mi. below Buffalo it enters Tonawanda Creek, follows its channel 12 mi., and crosses thence, through a rock cutting, to the brow of the mountain ridge, at Lockport, where it descends 55,83 feet by 5 combined locks. It continues thence, eastward, from 1 to 3 mi. S. of the ridge road, to Rochester, crosses the Genesee upon a stone aqueduct, makes a circuitous sweep across the Iron-ore-quarry valley, along the top of a natural range of hills, and finally delivers the waters of Lake Erie into Seneca River, after supplying 153 mi. of the Erie Canal, and affording a large amount of water-power at various points along its course. It then rises by 2 locks, descends into the Onondaga valley by 1 lock, and then rises by 3 locks to the long level which extends from Syracuse to Utica, from whence it descends the Mohawk valley, mostly on its S. side, to the Hudson. Below Schenectady, it twice crosses the Mohawk, upon stone aqueducts. It is continued down the bank of the Hudson to Albany, where it terminates in a spacious basin. At West Troy it also opens into the Hudson. The total lockages going W. are 612.9 feet up, and 43.5 feet down, or a total of 656.4 feet. The canal is fed by numerous streams along its course, and by 9 reservoirs, all of which, with a single exception, are upon the middle division. They are as follows:

RESERVOIRS.	Area in area.	Elevation above canal, in feet.	Depth, in feet.	Length of feeder, in miles.

^a Built in 1857, at a cost of \$10,884.75. In Nelson, Madison co.

^b Leads to Bradley Brook reservoir.
^c Leads to Eaton Brook feeder.

Besides these are the reservoirs upon the Black River Canal, which is itself but a feeder to the long level of the Erie Canal. Several of the feeders to the middle and western divisions of the Erie Canal are navigable for short distances. Connected with the canal at Buffalo are Mann and Hamburg street canals, the Clark and Skinner Canal, the Ohio basin, and several ships connected with the canal, and a ship-lock channel at Black Rock. At Tonawanda is a side-cut for a river lock.

²A company styled the "Northern Inland Navigation Co." was formed at the same time as the Western Co.; but failed to raise funds to a accomplish its objects. A natural water communication, interrupted by portages, extended along the route of this canal, which was used by the natives with their canoes. The canal was built of the same dimensions as the Erie. It crosses the Mohawk in a pond formed by a dam 1,700 feet in length, and follows near the W. bank of the Hudson to Schuylerville, where it crosses into Washington co. by another dam 700 feet long, and continues near the east bank to Fort Edward,

Here it leaves the river and crosses to the valley of Wood Creek, and thence, partly in the bed of that stream, to Whitehall. When this canal was first opened slackwater navigation upon the Hudson was used 8 miles above and 3 miles below Fort Miller, with a short canal and 2 locks around the falls at that place. It was fed from the Hudson by means of a high and costly dam near Fort Edward. The use of the channel of the Hudson is now entirely superseded by a canal along its bank, built in 1826-27; and the high dam has given place to a feeder to a point above Glens Falls, where there is a dam 770 feet long and 12 feet high. The feeder enters the canal at the summit level, 1½ miles S. E. from Fort Edward. The canal communicates with the Hudson above the State dam at Waterford by a side-cut with 3 locks. It has 7 locks between the lake and the summit, with 44 feet total lift, and 14 locks, with a total of 134 feet, between the Summit and the Hudson at Waterford. The locks on this canal are being enlarged to a capacity of 15½ by 100 feet.

³This canal is supplied by Chenango River and 6 reservoirs, viz.—Madison Brook, Woodmans Pond, Lelands Pond, Bradleys Brook, Hatches Lake, and Eaton Brook Reservoirs,—all of which are in the south part of Madison co. The canal extends across to and up the valley of Oniskany Creek to the summit level, and down the valley of Chenango River. It was begun in 1833 and finished in 1837, at a cost of \$1,737,703. From Utica to the Summit it rises 796 feet by 76 locks, and from thence it descends 203 feet by 28 locks to the Susquehanna. On its 114 locks, 2 are stone and the remainder composite. Upon the feeders are 12 road and 18 barn bridges.

thage, on the line of Jefferson co. At Boonville the canal receives a navigable feeder 12 mi. long, which derives its water from Black River. Length of main canal 36.62 mi., of feeders 12.48 mi., and of reservoirs 12.95 mi.¹

The Oneida Lake Canal² connects the Erie Canal at Higginsville (33 mi.) with Wood Creek, and by slackwater, 2½ mi. on that stream, with Oneida Lake, a total distance of 6 mi., and a descent of 56 ft.

The Oswego Canal, extending from Syracuse to Oswego, was authorized Nov. 20, 1821. A loan of \$160,000 was allowed April 20, 1825; it was begun in 1826, and was completed in 1828, at a cost of \$525,115.³ It is 38 mi. long and includes 19 mi. of slackwater navigation in Oswego and Seneca Rivers, with a towing path on the E. bank. Connected with this work are the **Oneida River Improvement**, extending the whole length of that stream from Three River Point to Fort Brewerton, at the outlet of Oneida Lake; the **Seneca River Improvement**, extending from Mud Lock, on the Oswego Canal, to Baldwinsville, by slackwater navigation; and

¹ This canal was authorized April 19, 1836, and began the next summer. The summit level is 635 feet above the canal at Rome, to which it descends by 70 locks. Northward the canal descends 586 feet, by 20 locks. The feeder has but one lock. The State has caused reservoirs to be formed by damming the outlet of Woodhull, Chub, North and South Branch, and other lakes in Herkimer co. The Eight Lakes near the source of Moose River are available as reservoirs to supply Black River with water, withdrawn to feed the canal southward.

In September, 1857, the Canal Board abandoned its plans for improving the channel of Black River by wing-dams and piers, and ordered a dam and lock to be built at the mouth of Otter

Creek. The river has no towing path, and boats are towed by steamers. The State has built a dam and bridge at Carthage, and the piers of two other bridges, of which the superstructure is built by the towns.

² This canal was completed in the fall of 1855 by a company incorporated March 22, 1852 as the Oneida Lake Canal Co. The company having to use the waters of the Erie Canal from the low level, were required to supply an equivalent amount. A feeder was constructed 5 miles west, drawing its waters from Oneida Creek. It is 2 miles long, and not navigable. The company had authority to extend its improvements 4 miles up Wood Creek, but nothing was ever done in that direction. By an act of May 11, 1849, the Canal Commissioners were authorized to purchase it at a cost not exceeding \$50,000, which was done April 12, 1841, and State stock bearing 5 per cent. interest, and redeemable in 10 years, was issued in payment. The first cost of the canal and feeder was \$78,824.85.

This canal forms an important link in the internal water communication of the State, extending navigation from the Erie Canal to Oneida Lake, and by the Oneida Outlet to the Oswego Canal and River. Before the Erie Canal was built the Oneida Lake route was the great thoroughfare for the transportation of goods westward.

³ The act did not originally authorize a connection with the Erie Canal, but only a communication with Oneida Lake. The connection was recommended by the commissioners in 1827, and it was authorized soon after. This canal has a fall of 123 feet by 18 locks.

The Oneida River Improvement has 2 steamboat locks, one of 3 and one of 33 feet lift, 129 feet long and 30 wide, passing boats drawing 4 feet of water. It also has one dam and one boat bridge at Oak Orchard and Brewerton.

thence by a canal three-fourths of a mile long, with one lift and one guard lock, and by slack-water on the Seneca River to Jacks Reef.

Cayuga and Seneca Canal connects the Erie Canal at Montezuma with Cayuga Lake at East Cayuga and with Seneca Lake at Geneva. About half of the canal is formed by slackwater navigation upon Seneca River, and the remainder is a channel parallel to the river. As enlarged, this canal admits the passage of large boats from the Erie Canal to the head of Cayuga and Seneca Lakes.¹

Crooked Lake Canal connects Crooked Lake at Penn Yan with Seneca Lake at Dresden.²

Chemung Canal and Feeder connects Seneca Lake at Watkins with Chemung River at Elmira, with a navigable feeder from Knoxville on Chemung River to Horseheads, on the summit level of the Chemung Canal, including slackwater navigation from the dam and guard lock at Gibson to Knoxville.³

The Genesee Valley Canal extends from Rochester up the Genesee Valley to Olean upon the Allegany. The summit level is 978 ft. above Rochester and 86 ft. above the Allegany River, at Olean, and from it 97 locks descend toward the n. and 9 toward the s.⁴

The Seneca Lock Navigation Co. was incorporated April 6, 1813, for the purpose of improving the outlet of Seneca and Cayuga Lakes; and the Cayuga and Seneca Canal Co. was chartered April 20, 1815. Its capital was increased in 1816 to \$60,000, and in 1817 a further call of 25 per cent. upon the original stock was authorized. In 1818 a like extension of payment on stock held by the State. The proposition for assuming this work by the State was approved in 1825, and the interest of the company was purchased for \$33,867.18, exclusive of the amount owned by the State. The work was begun in 1820, and finished in 1828, at a

cost of \$214,000. The inlet to Cayuga Lake is navigable 1½ miles to Ithaca. The locks of this canal are all enlarged, excepting one at Chamberlain's Dam, which will be dispensed with so as to include the distance from Seneca Falls to Waterloo in one level. The descent from Geneva to Montezuma is 74 feet by 12 locks.

² The survey of this canal was authorized by the Legislature in 1828. The canal was ordered to be built by an act of April 11, 1829. It was begun in 1830 and finished in 1833. It has a descent of 269 feet by 27 locks. It extends water communication to the various ports upon Crooked Lake.

³ This canal was authorized April 15, 1820, and its construction was begun in that year and finished in 1833. The total lockages on both the canal and feeder are 516 feet by 53 locks, and the original cost was \$244,000. From Corning, the Blossburg & Chemung R. R. ascends into the bituminous coal region of Tioga co., Penn., and this article forms a very important item in the business of the canal. It also communicates with the Erie R. R. The Junction Canal, a private enterprise connecting the Chemung Canal at Elmira with the North Branch Canal of Penn. at Athens, 19 mi. s., promises to become an important tributary to the trade of this canal by opening access to the coal region. The diversion of Chemung River into our canals has been made a subject of complaint and remonstrance by the State of Penn. Plans have been proposed for using Mud Lake, (459 acres) and Little Lake, (708½ acres) in Tyrone, as reservoirs to relieve this canal from the inconvenience felt in dry seasons of low water.

⁴ This canal was authorized by act of May 6, 1836, and was begun the same year. The portion from the Junction to Rochester and the Dansville sub-cut, in all 52 miles, were finished in 1840; to Oramel, 36 miles further, with the Genesee Feeder at that place, in 1851; to Belfast, 2 miles, in 1853; to Rockville, 3 miles, in 1854, and to Olean, 24 miles, in 1855. A section of one mile, with 2 lift locks and 2 bridges, still remains to be finished.

The repairs of the first and second sections of this canal were put under contract for five years in Dec. 1855, the former for \$8,440 and the latter for \$13,000 per annum. In consequence of heavy freshets and unexpected damages, the contractor on the first section abandoned his contract in June, 1857.

An act passed, 1857, authorized the extension of this canal from Olean eastward across Olean Creek and the bottom lands along the s. bank of the Allegany to its entrance into Mill Grove Pond, 6.52 miles.

Besides the foregoing navigable improvements by the State, the following have been placed under the direction of the Canal Commissioner for construction:

The Owasco Lake Improvement, ordered in 1852, and designed to make this lake a reservoir for supplying a water power for the machinery in Auburn State Prison.¹

The draining of Cayuga Marshes, for reclaiming a large amount of land, estimated at 40,000 acres, at the outlet of Cayuga Lake and along Seneca River. By an act of April 12, 1853, the channel of the river was ordered to be lowered, and the lands benefitted to be taxed for the expense. Surveys have been made and the work partly accomplished under the direction of the Canal Commissioners.²

Several companies have been incorporated for the purpose of constructing navigable canals, but, with two or three exceptions, none of these have at present a corporate existence.

The Delaware and Hudson Canal, extending from Rondout on the Hudson to Honesdale, Penn., is the most important of these. It is connected with the Lackawanna coal region by a r. r. 16 mi. long, and is one of the principal routes by which coal is brought to the market upon the Hudson.³

¹ This work was 2 years in charge of the Agent of the State Prison and the Mayor of Auburn, but in 1855 it was placed in the hands of the Canal Commissioners. The work, up to 1857, was greatly injured by a Spring flood. From 1852 to 1857 inclusive, \$3,485 had been appropriated for this work.

² In 1824, and several times afterward, the drainage of these marshes was made the subject of legislative enactment, but without other results than surveys. A concise history of this movement is given in *Senate Doc.*, 25, 1855. The work was placed in 1853 under the direction of George Godde, and up to 1858, \$175,000 had been appropriated and mostly expended.—*Report Canal Commissioners*, 1858, p. 110.

³ The Delaware and Hudson Canal Company was incorporated April 23, 1823, with a capital of \$1,500,000, with the right of using \$50,000 in banking until 1844. The credit of the State was loaned for \$800,000, in stock, bearing interest of 4 or 5 per cent. The canal was begun in July, 1825, and opened for use in Oct. 1828. Its length from Rondout to Port Jervis, on the Delaware, is 59 miles; and from Port Jervis, up the Delaware to the mouth of the Lackawanna, 24 miles. It crosses the river at the latter place, and extends 26 miles further to Honesdale. Its highest summit between the Hudson and Delaware Rivers is 585 feet above tide. Its descent to the Delaware is 80 feet; its rise along the Delaware is 148 feet; and its rise between the Delaware and Honesdale 187 feet. The aggregate number of locks is 107, and the total rise and fall is 950 feet. The railroad to the coal mines is also owned by the Canal Company. The original cost of the New York section of the canal was \$1,424,904, and of the Penn. section \$612,125. The company own most of the boats used upon the canal, and conduct the mining operations at Carbondale. Present capital, \$7,500,000. The canal was originally constructed to afford 4 feet of depth, and to accommodate boats of 30 tons. In Sept., 1842, a plan of enlargement was adopted, and 5 feet of water was obtained, accommodating boats of 40 tons each. In 1851 a further enlargement was completed, obtaining 6 feet of water, and accommodating boats of 120 tons. The locks are now constructed with a single gate at the upper end, which turns down upon hinges like a door. It is found to be very serviceable, and much quicker to operate than the double gate.

Table of Companies which have been organized for Constructing Canals and Extending Navigation in the State.

NAMES OF CANALS.	Date of Organization.	Capital.	Connections.	Remarks.
Allegany River Slackwater Navigation Co.....	April 7, 1857	\$30,000	To improve Allegany River below them.
Auburn Canal and R. R. Co.....	April 24, 1822	150,000	Auburn and Erie Canal.....	Nothing done.
Auburn & Owaseo Canal Co.....	April 21, 1828	100,000	Auburn and Owaseo Lake.....	Charter renewed in 1834; not finished.
Binghamton, Oswego, & Penn. Slackwater Navigation Co.....	April 9, 1815	100,000	Act amended in 1857.
Black River Canal Co.....	March 29, 1828	400,000	Erie Canal and Black River.....	Nothing done.
Black River Navigation Co.....	April 5, 1810	10,000	Brownville and Lake Ontario.....	Not constructed.
Casselaga Navigation Co.....	April 16, 1827	20,000	To improve Casselaga Creek; not completed.
Cattaraugus Navigation Co.....	March 3, 1815	70,000	To improve Cattaraugus Creek from its mouth to N.W. branch. Nothing done.
Cayuga & Seneca Canal Co.....	April 29, 1815	Monfuzuma and Seneca Lake.....	Rights purchased by the State.
Chemung Junction Canal Co.....	May 12, 1845	Binghamton to State Line.....	Nothing done.
Chittenango Canal Co.....	March 1, 1818	Chittenango Village and Erie Canal.	Assumed by the State, and used as a navigable feeder to Erie Canal.
Delaware & Susquehanna Navigation Co.....	April 29, 1825	Delaware and Susquehanna River.	Nothing done.
Ellis's Creek Slackwater Navigation Co.....	April 23, 1829	5,000	Nothing done.
Gowanus Bay & East River.....	April 24, 1837	City of Brooklyn may cause to be constructed.	Partially improved.
Great Chazy Navigation Co.....	May 11, 1836	5,000	Lake and Lower Bridge at Champlain.
Granville Canal Co.....	April 18, 1825	Champlain Canal and Bishops Corners.	Nothing done.
Harlem Canal Co.....	April 18, 1826	500,000	East River and Manhattanville.	Partly done and abandoned.
Hudson River Canal Co.....	April 16, 1827	500,000	Sparten Dryvil Creek and Harlem River.	Surveyed but not constructed.
Hudson River & Channel Co.....	April 4, 1806	3,500	For raft navigation on upper water.	Nothing done.
J. P. Person County Canal Co.....	April 15, 1828	200,000	Carthage and Sacket's Harbor.....	Nothing done.
Junction Canal Co.....	April 21, 1828	100,000	From Taje Canal near Champlain Junction to Hudson River.	Nothing done.

Table of Companies which have been organized for Constructing Canals and Extending Navigation in the State, continued.

NAMES OF CANALS.	Date of Organization.	Capital.	Connection.	Remarks.
Junction Canal Co.....	May 11, 1845	From Chemung Canal at Elmira to State line to connect with North Branch Canal.	Completed in 1858.
Long Island Canal Co.....	April 15, 1828	\$200,000	To connect Bays on s. side and to cross Canoe Place to Peconic Bay.	Nothing done but survey.
Long Island Canal & Navigation Co.	April 8, 1848	300,000	The same.....	Nothing done.
Manlius Canal Co.....	April 15, 1828	50,000	Erie Canal and Manlius Slackwater Navigation.	State Canal Feeder.
Mohawk & Hudson Lock Navigation Co.	April 17, 1816	500,000	Coboes Falls and Schenectady...	Nothing done.
Neversink Navigation Co.....	April 16, 1816	50,000	The project failed. The State loaned its credit for \$10,000 and lost the whole sum.
New York & Sharon.....	April 19, 1823	From Sharon, Conn., to tide water to any point on the Hudson or in the City of New York.	Surveyed nearly on the present line of the Hudson R. R.
Niagara Canal Co.....	April 5, 1798	Lake Erie and Lake Ontario.....	Nothing done.
Northern Inland Lock Navigation Co.	March 30, 1792	Hudson River and Lake Champlain.	Work commenced but no part completed.
Northern Slackwater & Railway Co.	May 13, 1846	Port Kent and Saranac.....	Nothing done.
Oneida Lake Canal Co.....	March 22, 1832	40,000	Finished in 1835, and purchased by the State in 1841.
Onondaga Canal Co.....	Nov. 25, 1824	Erie Canal and Onondaga Hollow.	Not constructed.
Ontario Canal Co.....	March 31, 1821	100,000	Canandaigua Lake and Erie Canal.	Nothing done.
Orange & Sussex Canal Co.....	April 11, 1825	From Columbia, on the Delaware, through Orange co., to the Hudson.	The right granted in 1828 to build a R. R. on the line. Nothing done on either.
Oswegatchie Navigation Co.....	April 25, 1831	From the St. Lawrence to Black Lake and Canton.	Nothing done.
Owaseo & Erie Canal Co.....	May 1, 1829	150,000	Owaseo Lake and Erie Canal....	Nothing done.
Peconic River Lock Navigation Co.	April 8, 1808	To construct Locks and Dams in Peconic River.	Nothing done.
Rochester Canal & R. R. Co.....	March 26, 1831	20,000	Rochester and Lake Ontario.....	Railroad only constructed.
St. Lawrence Lock Co.....	April 1, 1808	For building Locks at Isle au Rapit.	Locks completed but too small for general use.
Salmon River Harbor Canal Co.	May 16, 1837	350,000	Lake Ontario and Port Ontario..	Never completed.
Scottsville Canal Co.....	April 30, 1829	15,000	Scottsville and Genesee River.	Merged in Cayuga & Seneca Canal.
Seneca Lock Navigation Co.....	April 6, 1813	50,000	For improving navigation between Seneca and Cayuga Lakes.	
Seneca & Susquehanna Lock Navigation Co.	March 31, 1815	300,000	From Seneca Lake to Chemung River near Elmira.	Nothing done.
Sodus Canal Co.....	March 19, 1829	200,000	From Seneca River or Canandaigua outlet to Great Sodus Bay.	Partly constructed, but never used.
Susquehanna & Chenango.....	May 20, 1836	From river to Chenango Canal.	
Wallabout Canal Co.....	April 9, 1828	20,000	Wallabout Bay and Tillary St. Brooklyn.	Not constructed.
Wallabout Canal Co.....	April 18, 1838	25,000	Wallabout Bay to Kent Avenue Brooklyn.	
Western Inland Lock Navigation Co.	March 30, 1792	To open navigation on the Mohawk, Wood Creek, Oneida, and Oswego Rivers to Lake Ontario.	Completed to Oneida Lake in 1797. The rights were afterward vested in the State, and such as were available were used for the Erie Canal.

RAIL ROADS.

THE first rail road in the State, and the second in the U. S., was opened from Albany to Schenectady in 1831. Although rudely constructed, at great and much needless expense, the advantages of this means of communication became so apparent that within 3 years rail roads, duly chartered by law, were projected in every part of the State.¹ These early grants were generally limited to 50 years, and work was required to be commenced within 3 years, the State being allowed to become purchaser at the expiration of the charter. The charters contained the necessary provisions for the taking of property by appraisements, named the commissioners for opening subscriptions, and sometimes for locating and surveying the road, which in a few instances was done at the expense of the State.

At an early period the aid of the General Government was solicited, in view of the utility of these roads in the transportation of the mails, and, in case of war, of military supplies; but, with the exception of surveys made in two instances, no aid was obtained from this source. The State has

1 Albany, Vermont, & Canada Rail Road, formerly the Albany Northern R. R. Company organized Feb. 12, 1851. Connects Albany and Eagle Bridge. Road opened through about the 1st of July, 1853. It was sold under foreclosure of mortgage Oct. 16, 1856, and assumed its present name Nov. 7, following.

Albany & West Stockbridge Rail Road, formerly Castleton & West Stockbridge R. R. Company organized April 19, 1830, but nothing was done under the first name. Present name assumed May 5, 1836. Road opened from Greenbush to Chatham Dec. 21, 1841, and to the State line Sept. 12, 1842. It was leased to the Western (Mass.) R. R. Nov. 18, 1841, for the term of its charter; and has since been operated as a part of that road, including the ferry at Albany. The city of Albany, at different times, issued its bonds for \$1,000,000, to aid in building the road, the lessees paying the interest and \$10,000 annually toward the sinking fund. It connects Albany with Springfield and Boston.

 Kent St. to Furman St. in..... Dec., 1853
 City Line to Yellow Hookland in..... July, 1856

Brooklyn & Jamaica Rail Road. Company formed April 25, 1832. In 1836 the road was leased to the Long Island R. R. Co. for the term of its charter. The lessees built a tunnel 2,550 feet long under Atlantic St., bought access to the river, erected buildings and docks at a cost of over \$300,000, and have since maintained and operated the road in connection with the Long Island R. R., of which it is virtually a part.

Buffalo, Bradford, & Pittsburgh Rail Road Co. was formed ——— 1859, by the consolidation of the Buffalo & Bradford and Buffalo & Pittsburgh R. R's.
Buffalo & New York City Rail Road, formerly Attica & Hornellsville R. R. Articles filed Jan. 25, 1851. 31 mi. sold to Buffalo, New York, & Erie R. R. Oct. 31, 1857, and name changed to

Buffalo, New York, & Erie Rail Road.

Canandaigua & Corning Rail Road. Company incorporated May 11, 1845; capital \$1,000,000. Time extended April 15, 1847, and again March 24, 1849. Surveys were begun June, 1845, and the construction in Aug. 1850. Road opened from Canandaigua to "Jefferson" (now Watkins) 46.74 mi. Sept. 15, 1851, the New York & Erie R. R. furnishing engines, cars, &c., for a specific rate per mile. The road was allowed to connect with the Chenung R. R. at Jefferson, and to change name Sept. 11, 1852, to Canandaigua and Elmira R. R.

Canandaigua & Elmira Rail Road, changed from Canandaigua & Corning R. R. Sept. 11, 1852. Leased the Chenung R. R. 17.36 mi. and 4 mi. of Erie R. R. Sold to parties in Elmira, Penn. Jan. and Providence, R. I. April 23, 1857, and possession given May 1. Price \$35,000, subject to \$500,000 due bondholders, and name changed to the Elmira, Canandaigua, & Niagara Falls R. R. the next day.

Canandaigua & Niagara Falls Rail Road. Company incorporated Dec. 10, 1850; capital \$1,000,000. Road opened to Batavia, 50 mi. Jan. 1, 1853, to Niagara Falls 47 mi. July 1, 1853, and to Suspension Bridge 13 mi. April 1, 1854. Sold March 22, 1857, to Jas. M. Brown and others, and name changed to Niagara Bridge & Canandaigua R. R. Now leased and run by New York Central R. R.

Cayuga & Susquehanna Rail Road, formerly the Ithaca & Owego R. R., was chartered Jan. 28, 1828,—the second R. R. charter granted in the State. The road was opened in April, 1834. An inclined plane at Ithaca rose 1 foot in 475, R. and stationary steam power was used for drawing up the cars. Above this was another inclined plane that rose one foot in 21 ft., on which horse power was used. The road was subsequently sold by the Comptroller on stock issued by the State, on which the company had failed to pay interest. A new company was organized and the present name assumed April 18, 1843; the road was reconstructed, the inclined planes were done away with, and Jan. 1, 1855, it was leased to the Delaware, Lackawanna, & Western R. R. Co., and is operated by them as the Cayuga Division. This is an important route from the coal mines of Penn., and coal forms the principal item of business.

custom that has since been continued, except during the short period in which the office of R. R. Commissioners was in existence. This Board was created April 14, 1855, and abolished April 16, 1857. The expenses of the State Engineer and Surveyor's office chargeable to Rail roads are assessed upon the several companies in proportion to their earnings. The general act to authorize the formation of R. R. companies was passed March 27, 1848. There are at present within the State 2,554½ mi. of R. R., besides double tracks and turn outs. The Rail roads give employment to about 18,000

Long Island Rail Road. Company organized June 15, 1853. Opened through in July, 1844. The road extends from Brooklyn to Greenport: \$100,000 in State stocks was issued to aid in the construction. The company have leased the Brooklyn & Jamaica and the Hicksville & Cold Spring Branch R. Roads, which they operate as a part of this road.

Newburgh Branch of New York & Erie Rail Road. Branch allowed to Newburgh April 8, 1845. Opened Jan. 8, 1850.

New York Central Rail Road. Company formed by consolidating the several roads in operation, and some projected roads between Albany, Troy and Buffalo, and Niagara Falls. The act allowing the consolidation was passed April 2, 1853, and was carried into effect the 17th of May following. The consolidated capital amounted to \$23,085,600, and debts were assumed to the amount of \$1,947,815.72. The stock of the several companies was received at the following rates, viz.:—

Albany & Schenectady.....	117	Rochester & Syracuse.....	130
Syracuse & Utica Direct.....	150	Rochester, Lockport & Ni-	
Schenectady & Troy.....	75	agara Falls.....	125
Utica & Schenectady.....	115	Buffalo & Rochester.....	140
Mohawk Valley.....	155	Buffalo & Lockport.....	125
Syracuse & Utica.....	160		

Each stockholder received a like amount of stock of the new company, at par, (the Troy & Schenectady upon payment of \$25 per share,) and for the differences, certificates or premium bonds bearing six per cent. interest, semi-annually, and payable May 1, 1883. These certificates amounted to \$8,892,600. The Rochester & Lake Ontario R. R., and the Buffalo & Niagara Falls R. R., have since been merged in this road.

Date of opening the several roads now forming the New York Central Rail Road.

New York and Erie Rail Road. Company organized in July, 1833. The act authorizing the road was passed April 24, 1832. The first preliminary survey was made in 1832, by de Witt Clinton, jr., by order of the government. In 1834 the Governor appointed Benj. Wright to survey the route; who, assisted by Jas. Seymour and Charles Ellett, began the survey May 23d, and finished it the same year. In 1835 the Co. was reorganized, and 40 mi. were put under contract. In 1836 the Comptroller was directed to issue \$2,000,000 State stock to aid in constructing the road. In 1845 the State released its lien on the road, and authorized the original stockholders to surrender two shares of old stock, and receive one share of new. April 8, 1845, a branch was allowed to be built from Chester to Newburgh, 19 mi. The road was opened as follows: from Peirmont to Gosheh, Sept. 22, 1841; to Middletown, June 7, 1843; to Port Jervis, Jan. 6, 1845; to Binghamton, Dec. 28, 1845; to Oswego, June 1, 1849; to Elmira, Oct. 1849; to Corning, Jan. 1, 1850; and to Dunkirk, May 14, 1851. The Newburgh Branch opened Jan. 8, 1850. The road is compelled to pay a bonus of \$10,000 annually to the State of Pennsylvania for the privilege of passing a short distance in that State. Ample details will be found in The New York & Erie R. R. Guide, the annual and special reports of the company, and especially that of Nov. 1853, and in the following documents of the New York Legislature: Senate Doc. No. 12, of 1836; Nos. 57, 58, of 1839; Nos. 18, 58, of 1842. Assem. Docs. Nos. 27, 171, of 1835; No. 47, of 1839; No. 215, of 1840; Nos. 113, 297, of 1841; and No. 59, of 1842. The Patterson & Ramapo (N. J., R. R., 29 1/2 mi., and the Union R. R., 1 1/2 mi., the Chesmng R. R., and the Elmira, Jefferson, & Cananagua R. R. are leased and operated by the this company.

The Plattsburgh & Montreal R. R., 23.17 mi.; Champlain & St. Lawrence R. R., 2.5 mi. to Canada line; and Williamsport & Elmira R. R., 8 mi. to Pennsylvania line, are not included in the above table, from default in reports. The gauge of the New York & Erie R. R. and of the connecting roads is 6 ft., the same as that of several roads in Penn. The New York Central R. R.

General Summary of Rail Road Statistics for the year ending September 30, 1858.

Length of roads in miles.....	3,124.71
Length of roads laid.....	2,442.91
Length of roads in operation, excluding city roads.....	2,397.62
Length of double track, including sidings.....	970.48
Length of branches owned by company and laid.....	373.44
Length of double track on same.....	6.37
Length of equivalent single track, exclusive of city roads.....	3,709.08
Number of engine houses and shops.....	183
Number of engines.....	738
Number of first-class passenger cars, rated as right wheel.....	1,071
Number of second-class and emigrant cars.....	175
Number of baggage, mail, and express cars.....	239
Number of freight cars.....	9,014
<i>Excluding City Roads.</i>	
Average rate of speed of ordinary passenger trains, including stops.....	29.72
Average rate of same when in motion.....	25.53
Average rate of speed of express passenger trains, including stops.....	25.44
Average rate of same when in motion.....	29.39
Average rate of speed of freight trains, including stops.....	10.69
Average rate of same when in motion.....	13.95
<i>Tons.</i>	
Average weight in tons of passenger trains, exclusive of passengers and baggage.....	73.09
Average weight in tons of freight trains, exclusive of freight.....	129.27
Miles run by passenger trains.....	11,578,745
The same, excluding city roads.....	6,145,862
Number of passengers of all classes carried in cars.....	43,786,579
The same, excluding city roads.....	11,250,973
Number of miles traveled by passengers, or number of passengers carried one mile, city roads not included.....	373,159,179

Miles run by freight trains.....	5,417,456
Number of tons carried on freight trains.....	3,473,725
Total movement of freight, or number of tons carried one mile.....	420,604,609

Classification of Freight.

	Tons.
Products of the forest.....	203,236
Products of animals.....	734,995
Vegetable food.....	914,206
Other agricultural products.....	77,174
Manufactures.....	325,596
Merchandise.....	562,378
Other articles.....	556,140
Total tonnage.....	3,473,725

Costs.

Repairs of road bed.....	\$2,282,807.73
Cost of iron for repair.....	404,712.95
Repairs of buildings.....	297,846.56
Repairs of fences and gates.....	48,690.35
Taxes on real estate.....	290,771.47
Other road expenses.....	598,329.66
Total road expenses.....	\$3,663,129.72
Repairs of engines.....	\$ 939,627.16
Repairs of cars.....	1,003,906.25
Repairs of tools.....	82,975.15
Oil, waste, &c.....	112,518.64
Other costs.....	43,799.29
Total cost of repairs of machinery.....	\$2,173,786.69

Office expenses, stationery, &c.....	\$ 86,427.81
Agents and clerks.....	622,981.68
Labor, loading and unloading freight.....	449,000.96
Porters, watchmen, and switchmen attendance.....	420,180.66
Wood and water station attendance.....	96,958.14

for the year ending Sept. 30, 1858.

Total cost of road equipments and other expenses.	Earnings for the year ending Sept. 30, 1858.	Gross transportation expenses.	Dividends paid.	PASSENGER TRANSPORTATION.		FREIGHT TRANSPORTATION, IN TONS.		ACCIDENTS.

Average number of miles traveled by each passenger.....	35.17
Average number of passengers to each train.....	60.72
Average distance each ton of freight is transported in miles.....	120.91
Average number of tons in each freight train.....	77.54
Average number of trains over each track daily.....	8.54
<i>Average Cost per Mile of Road.</i>	
For maintaining of road way.....	\$1,511.70
For repairs of machinery.....	892.47
For operating road.....	2,415.49
<i>Average Cost per Mile of Single Track.</i>	
For maintaining of roadway.....	\$ 677.19
For repairs of machinery.....	577.45
For operating road.....	1,614.42
Average amount received for passengers per mile, 198 cts.
Proportion of passengers killed to miles traveled, 1 to 1815.7,950.
Proportion of passengers killed to passengers traveling, 1 to 562,704.
Proportion of expenses to earnings, 63 to 100,32.

Rail Roads Projected, Abandoned, and merged in other Roads.

NAMES OF RAIL ROADS.	Date of Organization.	Capital.	Connections.	Remarks.
Adirondack	April 1, 1839	\$100,000	{ Adirondack Iron Works and } { Clear Pond	Nothing done.
Albany, Bennington & Rutland	April 23, 1850	400,000	{ Albany, Bennington, and } { Rutland	Merged in Albany Northern R.R.
Albany Northern	Feb. 12, 1851	335,000	{ Albany and Troy, and Rutland } { R. R. at Eagle Bridge.	Sold, and succeeded by Albany, Vermont, & Canada R. R.
Albany & Cohoes	Co. not organ'd	Albany and Cohoes	Nothing done.
Albany & Saratoga	June 28, 1852	300,000	Albany and Green Island	Nothing done.
Albany & Saratoga Springs	Sept. 20, 1852	200,000	{ Albany Northern R. R. and } { Saratoga Springs	Nothing done.
Albany & Schenectady	April 19, 1847	Albany and Schenectady	Changed from Mohawk & Hudson, and merged in the New York Central R. R., May 17, 1853.
Albany & Susquehanna	April 2, 1851	4,000,000	Albany and Binghamton	Partly graded.
Albion & Tonawanda	April 17, 1832	200,000	Albion and Batavia	Nothing done.
Atlantic & Great Western	Dec. 1, 1858	150,000	{ Buffalo & New York Central } { R. R. and Penn. State Line }	Nothing done.
Attica & Allegany Valley	Sept. 16, 1852	1,000,000	Attica to Penn. State Line	Partly graded.
Attica & Buffalo	May 3, 1836	350,000	Attica and Buffalo	Consolidated as Buffalo & Rochester, afterward as Buffalo & N. York City R. R., at present as Buffalo, New York, & Erie.
Attica & Hornellsville	May 14, 1845	750,000	Attica and Hornellsville	Consolidated, and is now the Buffalo & New York City R. R.
Attica & Sheldon	May 21, 1836	50,000	Attica and Sheldon	Nothing done.
Auburn & Canal	April 24, 1832	150,000	Auburn and Canal	Nothing done.
Auburn & Ithaca	May 21, 1836	500,000	Auburn and Ithaca	Nothing done.
Auburn & Rochester	May 13, 1836	2,000,000	Auburn and Rochester	Consolidated in New York Central R. R.
Auburn & Syracuse	May 1, 1834	400,000	Auburn and Syracuse	Consolidated in New York Central R. R.
Aurora & Buffalo	April 14, 1832	300,000	Aurora and Buffalo	Not constructed.
Batavia & Cheektowaga	Aug. 17, 1850	500,000	Batavia and Attica & Buffalo R.R.	Nothing done.
Bath & Coney Island
Bath & Crooked Lake	March 24, 1831	20,000	Bath and Crooked Lake	Nothing done.
Binghamton & Susquehanna	April 29, 1833	150,000	Binghamton and Penn. S. Line } { Rome or Herkimer and River }	Nothing done.
Black River	April 17, 1832	900,000	{ St. Lawrence	Nothing done.
Black River	May 21, 1836	200,000	Clayton and Carthage	Nothing done.
Black River	Jan. 27, 1853	120,000	Clayton and Mohawk Village	Nothing done.
Brewerton & Syracuse	May 1, 1836	80,000	{ Outlet of Oneida Lake and } { Syracuse	Nothing done.
Broadway R. R. Co. of Brooklyn	Aug. 11, 1858	200,000	Through a part of Brooklyn	Not constructed.
Brooklyn, Fort Hamilton	May 12, 1836	150,000	Nothing done.
Buffalo International	Feb. 25, 1857	150,000	{ Buffalo and proposed inter- } { national bridge, opposite } { Squaw Island	Nothing done.
Buffalo, New York & Erie	Sept. 1, 1857	1,500,000	{ Buffalo, New York & Erie } { R. R. at Corning	{ Consolidation of the Buffalo, } { Corning, and New York R. R. } { and part of Buffalo & New } { York City R. R.
Buffalo & Allegany Valley	May 21, 1853	300,000	{ Buffalo and Attica & Alle- } { gany R. R.	Partly done.
Buffalo & Batavia	April 18, 1838	500,000	Buffalo and Batavia	Not constructed by this organization.
Buffalo & Black Rock	April 29, 1833	100,000	Buffalo and Black Rock	Horse-power. Since abandoned.
Buffalo & Conhocton Valley	June 29, 1850	1,400,000	{ Buffalo, New York & Erie R. R. } { at Corning.	Now the Buffalo, New York & Erie R. R.

Williamburgh, Brooklyn, & Bushwick & New Lots	June 29, 1853	Williamburgh and New Lots	Allowed to build Horse R. Road for 21 years.

CORPORATIONS.

CORPORATIONS were generally formed under special acts until the adoption of the Constitution of 1846, which directed that general laws should be passed for this purpose, and forbade special legislation, except for municipal purposes and in cases where the purpose to be attained could not otherwise be effected. The Legislature has power to alter and repeal the powers of any corporation formed under the general laws. The articles of association or declaration of intention must in all cases be filed in some office of record specified in the general acts; and limitations of time, capital, and location must be specified. The stockholders of the more important classes of corporations are personally liable to an extent equal to the amount of stock owned. Under the present Constitution, general acts of incorporation have been passed for a variety of purposes, all of which belong to one of 4 general classes.¹

Class I. includes those whose articles are filed in the office of the Secretary of State.

1. "An Act to provide for the Incorporation of Companies to construct **Plank Roads and Turnpikes.**"²

2. "An Act to authorize the formation of Companies for **Mining, Mechanical, and Chemical Purposes**" was passed Feb. 8, 1848.³

3. "An Act to authorize the formation of **Gas Light Companies**" was passed Feb. 16, 1848.⁴

¹ Constitution, Art. VIII, Revised Statutes. Previous to 1846, general laws existed for the organization of religious societies, (1784;) colleges and academies, (1787;) public libraries, (1796;) medical societies, (1806;) manufacturing companies, (1811;) banks, (1835) and agricultural societies, (1819, 1841.)

² Several hundred of these corporations were formed and several thousand miles of plank road built in 1848-52. It is probable that less than 5 per cent. of these are now in use,

having mostly been abandoned and divided into road districts as public highways. The companies were required to report, but generally neglected to do so; and few general statistics are preserved concerning them.

³ These companies, though quite numerous, were not required to report; and statistics concerning them cannot be obtained. Many companies that filed their articles never went into operation.

4 Gas Light Companies.

A * indicates companies not in operation.

NAMES OF COMPANIES.	Date of Organization.	Original Capital.	Present Capital.
Albany Gas Light Consumers' Co.*	Feb. 18, 1856	\$75,000	\$75,000
Albion Gas Light Co.*	March 13, 1856	20,000	20,000
Albion Gas Light Co.	May 13, 1858	30,000	30,000
Astoria Gas Co.	Dec. 1, 1853	20,000	20,000
Auburn Gas Light Co.	Jan. 29, 1850	20,000	50,000
Batavia Gas Light Co.	June 11, 1855	32,000	32,000
Binghamton Gas Light Co.	June 25, 1853	50,000	50,000
Brockport Gas Light Co.	Jan. 17, 1859		
Brooklyn Gas Co.*	Oct. 21, 1848	200,000	200,000
Brooklyn Consolidated Gas Light Co.	Oct. 24, 1856	500,000	500,000
Buffalo City Gas Light Co.	March 12, 1853	150,000	150,000
Buffalo Gas Light Co.	Feb. 29, 1848	150,000	750,000
Camden Gas Light Co.	Aug. 31, 1853	50,000	50,000
Catskill Gas Light Co.	July 13, 1855	40,000	40,000
Citizens' Gas Light Co.	Oct. 26, 1858	1,000,000	1,000,000
Citizens' Gas Light Co. of the City of Rochester.....	Jan. 22, 1852	50,000	50,000
Citizens' Independent Gas Co.	June 15, 1859		
Cohoes Gas Light Co.	Sept. 13, 1852	50,000	50,000
Elmira Gas Light Co.	May 8, 1852	50,000	50,000
Fishkill Gas Light Co.	July 20, 1858	15,000	15,000
Flushing Gas Light Co.	July 18, 1855	40,000	61,000
Fulton Gas Light Co.	June 12, 1858	12,000	12,000
Gas Light Co. of Syracuse.....	Feb. 9, 1849	100,000	100,000
Geneva Gas Light Co.	Nov. 24, 1852	75,000	75,000
Glens Falls Gas Light Co.	July 17, 1854	75,000	55,000
Green Point Gas Light Co.	Nov. 29, 1853	100,000	40,000
Harlem Gas Light Co.	Feb. 5, 1855	120,000	250,000
Hempstead Gas Light Co.	April 18, 1857	75,000	15,000
Hempstead Gas Light Co.	April 9, 1859		
Hudson Gas Co.	Feb. 23, 1853	50,000	50,000
Hudson Gas Light Co.*	May 22, 1852	50,000	50,000
Ithaca Gas Light Co.	Oct. 28, 1852	75,000	75,000
Jamaica Gas Light Co.	June 2, 1856	50,000	20,000
Johnstown Gas Light Co.	March 16, 1857	18,000	18,000
Lansingburgh Gas Light Co.	Feb. 28, 1856	100,000	100,000
Lockport Gas Light Co.	March 17, 1851	17,000	40,000
Lyon Gas Light Co.	Jan. 25, 1859		
Mandeville Gas Light Co.	Oct. 4, 1855		2,000,000
Morrisania Gas Light Co.	Oct. 28, 1852	200,000	200,000
Newburgh Gas Light Co.	May 17, 1852	40,000	70,000
New York Mutual Saving Gas Light Co.*	Sept. 20, 1852	1,500,000	1,500,000
Ogdensburgh Gas Co.	Aug. 23, 1854	75,000	75,000
Ogdensburgh Gas Light Co.	June 15, 1853	100,000	100,000
Ogdensburgh Gas Light & Coke Co.	June 11, 1854	75,000	75,000
Oswego Gas Light Co.	April 22, 1852	65,000	65,000
Owego Gas Light Co.	March 24, 1856	40,000	40,000

4. "An Act for the incorporation of **Benevolent, Charitable, Scientific, and Missionary Societies**" was passed April 12, 1848.¹
5. "An Act to provide for the incorporation and regulation of **Telegraph Companies**" was passed April 12, 1848, and amended June 24, 1853.²
6. "An Act for the incorporation of **Building, Mutual Loan, and Accumulating Fund Associations**" was passed April 10, 1851.³
7. "An Act to provide for the formation of **Insurance Companies**" was passed April 10, 1849.⁴

Gas Light Companies, continued.

NAME OF COMPANIES.	Date of Organization.	Original Capital.	Present Capital.
Palmyra Gas Light Co.....	Oct. 29, 1856	12,500	12,500
Peekskill Gas Light Co.....	July 18, 1855	40,000	31,000
Plattsburgh Gas Light Co.....	July 5, 1859		
Poughkeepsie Gas Light Co.....	Dec. 18, 1850	70,000	70,000
Richmond County Gas Light Co.....	April 26, 1856	200,000	250,000
Rochester Gas Light Co.....	May 12, 1848	100,000	200,000
Rome Gas Light Co.....	Dec. 28, 1850	20,000	30,000
Rondout & Kinetics Gas Light Co.....	May 27, 1854	65,000	65,000
Saratoga Gas Light Co.....	Aug. 4, 1853	75,000	75,000

³ These associations were chiefly limited to the vicinity of New York, numbering 72 in New York co., about 40 in Kings co., with a few in Queens, Richmond, and Westchester. Their operations consisted in raising money by subscription of the members, to be loaned to that member who would allow the highest premium,—the avowed intention being to afford to people of humble means the opportunity of securing for each a home. This absurd fallacy found multitudes of dupes; and in the competition for loans the premiums paid in some instances ran as high as one half of the amount loaned. The mode of appropriating loans varied. It appeared in evidence before the legislative committee of 1855 that in one instance it was as follows:—"The

names of all the shareholders who are not more than four weeks in arrears are put in the end of a quill, and all put into a bottle; the whole is then shaken, and the name which first comes out on reversing the bottle has the right to the appropriation." Nearly or quite all of these associations have been abandoned, a few only being kept together by the complexity of their interests and obligations, which are not readily adjusted. A statement showing the operation of these associations was reported by a special legislative committee in 1856.—*Jesson, Doc., 1856, No. 46, p. 16.*

⁴ This act relates to Marine Insurance Companies which make no report. A list of them will be found in the general list of Insurance Companies, pp. 83 to 89.

8. "An Act for the Incorporation of Companies formed to Navigate the Ocean by Steamships" was passed April 12, 1852.¹

9. "An Act to authorize the formation of Companies for Ferry Purposes" was passed April 9, 1853.²

10. "An Act for the Incorporation of Companies formed to Navigate the Waters of Lake George by Steamboats" was passed January 14, 1854.³

11. "An Act for the Incorporation of Companies formed to Navigate the Lakes and Rivers" was passed April 15, 1854. Cos. report annually to the State Engineer and Surveyor.⁴

¹ Previous to 1852, Steamship Cos. were incorp. by special acts; since that time they have organized under the general act.

Lake Ontario Steamboat Co.....	Jan. 28, 1851	100,000			

^a Capital reduced to \$270,000 Jan. 15, 1859.

^b Charter expired April 11, 1838. The first steamboat on Lake Champlain was in 1810.

^c Merged in the Ontario & St. Lawrence Steamboat Co. in 1848.

^d Charter expired April 11, 1838.

^e Charter limited to 20 years. Reincorporated April 12, 1842.

^f Merged in the Ontario & St. Lawrence Steamboat Co. in 1848.

^g Merged in the American Steamboat Co. in 1858.

Exclusive individual and corporate rights for steam navigation upon the waters of this State have been granted under special acts.—An act was passed March 19, 1797, granting to John Fitch the sole right of steam navigation in the waters of the State for a period of fourteen years. Having

done nothing for ten years, this act was repealed in 1798. An act was passed March 27, 1798, granting to Robert R. Livingston the sole right of navigating by steam for twenty years, conditioned to building a boat of at least 20 tons, capable of moving four miles per hour against the current of Hudson River. This

12. "An Act for the Incorporation of Associations for Improving the Breed of Horses" was passed April 15, 1854.¹

13. "An Act to facilitate the formation of Agricultural and Horticultural Societies" was passed June 8, 1853, and amended April 15, 1855.²

Class II. includes all those whose certificates are required to be filed in the Comptroller's office.

1. "An Act to provide for the Incorporation of Life and Health Insurance Companies, and in relation to Agencies of such Companies," was passed June 24, 1853.³

2. "An Act to provide for the Incorporation of Fire Insurance Companies" was passed June 25, 1853.⁴

¹ The following companies have been formed under this act:—

NAMES.	Places.	When formed.
Fashion Association.....	Newtown.....	Nov. 26, 1855
National Association.....	Newtown.....	May 29, 1854
Orange County Central Horse Co.....	Goshen.....	July 31, 1855
Union Association.....	Jamaica.....	July 31, 1858

² For Table of Agricultural Societies, see pp. 102, 103.

privilege was extended two years, March 29, 1799, to enable Nicholas J. Roosevelt to complete experiments. By act passed in 1798, Robert R. Livingston and Robert Fulton secured the exclusive right of navigating by steam for a period of twenty years; and by an act passed April 11, 1808, an extension of five years was granted for each new boat—the whole time, however, not to exceed thirty years. This monopoly was contested in the State and Federal Courts, in a suit begun in 1819, and finally decided in the Supreme Court of the U. S. in Feb. 1824, as repugnant to the Constitution, which authorizes Congress to regulate commerce. So far as these acts prohibited vessels licensed by the laws of the United States from carrying on a coasting trade, they were void.—*Johanson's Reports*, IV, 448; *Cowan's Reports*, 111, 713; *Wharton's Reports*, IX, 1.

³ These companies report annually to the Comptroller. A list of them is given in the general list of Insurance Companies.

⁴ These companies were formerly created by special acts,—generally for periods of 20, 21, or 30 years. Until about 1834 they were almost invariably upon the joint stock principle. For many years this class of investments was considered extremely reliable, and large dividends were often paid to the stockholders. The great fire in New York in Dec. 1835, proved a heavy disaster to almost all the Insurance companies then formed, and many of them were prostrated by it. This event soon led to the formation of Mutual Insurance Companies in almost every county in the State; most of these companies have since become insolvent. A graphic and truthful statement of the operations that ruined these companies is given in the Comptroller's Report on Fire Insurance Cos. of 1854. A general law, passed April 19, 1849, provided for the incorporation of these companies, under which risks of every kind might be taken. The frauds perpetrated under this system rendered a revision indispensable; and in 1853 two general laws were enacted,—one for the formation of companies for insurance of life and health, and the other against loss by fire, or inland navigation, and transportation. The articles of association (under the law of 1849, required to be filed in the Secretary's office) were, by

these acts, filed in the Comptroller's office, and general powers were conferred upon the Comptroller, with the view of protecting the public from any frauds that might be attempted, and to secure the equal and uniform operation of the laws relating to insurance. Annual reports are made to the Comptroller, and by him to the Legislature, under each of these laws. Marine Insurance companies are still filed in the Secretary's office, but are required to make no report.

Insurance companies formed under the laws of other States or countries cannot establish agencies in this State without first depositing with the Comptroller a certified copy of their charters, and of the vote or resolution creating the agency, a statement of their condition, and proof that their capital is equal to that required, by the laws of this State, and, if a Life Insurance company, securities to the amount of \$100,000, for the benefit of policy holders. Foreign Marine Insurance companies are required to pay 2 per cent, upon all premiums received by any agent; and a bond in the penal sum of \$1,000 is required of every agent of such companies for the payment of this tax. This tax was first collected in 1858, and amounted to \$3,742.55. Several companies are not required to report their statistics to the Legislature. The aggregate reports of Fire Insurance Companies for 1857 show the following results:—

Capital invested.....	\$16,731,010.00
Cash premiums received.....	6,051,394.87
Gross amount of income.....	7,577,872.92
Losses paid.....	2,898,166.11
Dividends paid.....	2,440,434.72
Taxes paid.....	245,062.79
Gross expenditures.....	6,855,955.88
Unpaid claims.....	968,683.00

The following tables comprise the companies which have been incorporated under special acts or the general laws of the State. Foreign companies authorized to transact business in the State are not included in the list:—

Insurance Companies in the State on 1st day of Jan. 1858.

Tioga County Mutual Insurance Co.	Owego	April 1, 1837		

* Capital reduced from \$199,880.00 to \$87,536.45 by the great Troy fire of 1829. Life insurance taken away in 1831. Directed to close up by act of April 18, 1843. See Comptroller's Report, 1838, p. 45.

Class III. includes those whose certificates are filed in the Banking Department.

"An Act to authorize the **Business of Banking**" was passed April 18, 1838, and was modified April 12, 1851, upon the creation of a Bank Department. Reports previously made to the Comptroller are now made to this Department. In 1853 the articles of association previously filed in the Secretary's office were transferred to this department.¹

Individuals or copartners may obtain bills from the department for circulation as individual bankers, and are liable to the full extent of their property for the redemption of the notes and the payment of the debts of such private banks. The name of individual banks must now be that of their

owners; and the privilege cannot be sold, or the bills be signed by an agent. It may, however, be

Obsolete Insurance Companies, continued.

Yates County Mutual Insurance Co.	March 9, 1837	M.	f.

¹ The first bank organized in the State was the Bank of New York, which had existed several years previously as a private partnership. In many of the earlier banks the State reserved the right of subscribing stock, and of appointing directors to represent their interest in proportion to the amount held. Banking powers could only be enjoyed by special act of the Legislature, and were commonly limited to a period of 30 years. In 1828 a general law was enacted, allowing the organization of associations for banking, upon depositing the requisite securities with the Comptroller and filing articles of association in the Secretary's office. Up to the date of the general law, 106 banks had been created,—of which 31 are still in existence, 36 have

reorganized, and 39 have failed, closed, or changed their names. The Manhattan Co., created "for supplying the city of New York with pure and wholesome water," and the New York Dry Dock Co. possess perpetual banking powers. Other corporations for manufacturing or commercial purposes were allowed like privileges for limited periods, all of which have expired. In 1829 a "safety fund" was created, by requiring an annual contribution of $\frac{1}{2}$ per cent. of its capital paid in from each bank formed or extended after that time, until each had paid 3 per cent. This fund was placed in charge of the Comptroller, and applied to the redemption of the bills of insolvent banks contributing to this fund, after their other means had been ex-

bequeathed. All banks, excepting those in New York, Brooklyn, Albany, and Troy, must have an agency in New York, Albany, or Troy, for the redemption of their bills within one-fourth of one per cent. of par.

hausted. The bank fund has long since been exhausted, the draft upon it far exceeding the income. In 1848, 11 insolvent banks that had contributed but \$86,282 to this fund, had drawn from it \$2,577,927.—*Comptroller's Report, 1848, p. 55.*

The same law provided for the appointment of 3 Bank Commissioners, who were required to visit the banks three annually, to ascertain their condition, take measures to secure the public against fraud or loss, and report annually to the Legislature. This office was abolished April 18, 1843, and the Comptroller was invested with general powers relating to banks, from which he was relieved by the creation of a special Bank Department in 1851. This department is under a superintendent appointed by the Governor and Senate for 3 years. It has the custody of all plates for printing bank bills, registers, numbers, and issues to banks such bills as their charters and securities entitle them to; destroys the same when withdrawn from circulation; and appoints special agents for examining the condition of doubtful banks, directs prosecutions in behalf of the State, sells the securities of broken banks to redeem their circulation, and reports the condition of banks to the Legislature annually. Banks can only obtain bills for circulation by depositing New York State or United States stocks bearing interest equivalent to 6 per cent., or bonds and mortgages of not over \$5,000 each upon unincumbered improved land at two-fifths value, exclusive of buildings, and bearing 7 per cent. interest. Closing banks, after calling in 99 per cent. of their

circulation, may withdraw their stocks or mortgages, and substitute cash for the redemption of the remaining 10 per cent. of circulation. Stockholders of banking associations are personally liable to an extent equal to their capital stock. Experience has shown that under our free bank system, bonds and mortgages have realized but about 88 per cent. on the sum for which notes were issued, while the aggregate securities, including stocks, have almost always sold for more than enough to redeem the circulation based upon them.—*Report, 1850, p. 8.*

Bank Note Engraving is now done by a company, formed in 1858, by the union of most of the establishments previously existing. The Bank of the United States had branches for discount and deposit at New York, Utica, and Buffalo, in this State.

Specie payment has been generally suspended three times by the banks of New York State. In the fall of 1814 all the banks of the Union, except those of New England, suspended until the spring of 1817. In May, 1837, there was a second suspension, which continued until the spring of 1838. On the 13th of Oct. 1857, a third suspension took place in all the banks of New York City, with one exception (Chemical Bank) and this was soon followed by the banks of the State generally; but specie payment was resumed in about 60 days.

The following tables, derived from returns in the Bank Department, are corrected up to Jan. 1, 1859. The amount of capital is reported for Dec. 18, 1858:

Existing Banks in the State, Jan. 1, 1859.

Savings Banks are institutions intended to receive in trust small sums of money, generally the surplus earnings of the laboring classes, and to return the same with moderate interest at a future time. They are banks of deposit only; their officers serve without pay, and the money received on deposit can be invested only in mortgages upon real estate, public stocks, or such other securities

as may be approved by law. They can be organized by special act of the Legislature, and their charters are perpetual. The total number of savings institutions incorp. prior to 1859 was 75, of which 57 reported their statistics in 1858. They are placed under the care of the Superintendent of the Banking Department, who has general powers for the protection of the interests of depositors, and is required to report their condition annually to the Legislature. Most of these institutions bear names closely resembling those of banks of discount and circulation, and are kept in the same building and have the same persons as officers of both.¹

Class IV. includes those whose certificates are filed in the County Clerks' offices. Most of the corporations already described are required to file their articles in the clerk's office of their respective counties, in addition to depositing them in the departments of the State Government.

"An Act to provide for the Incorporation of **Religious Societies**" was passed April 6, 1784.²

"An Act authorizing the Incorporation of **Rural Cemetery Associations**" was passed April 27, 1847.

"An Act to provide for the **Incorporation of Villages**" was passed Dec. 7, 1847.³

¹ The first savings bank in England was formed in 1804, and the first in New York in 1819, under the auspices of the "Society for Prevention of Pauperism." A public meeting was called and the plan discussed and approved Nov. 29, 1816. The first deposits were made July 3, 1819, and \$2,807 were received the first evening from 80 depositors, in sums of from \$2 to \$300. Within 6 mo., \$153,378.31 had been deposited, by 1,527 persons, and but \$6,606 had been withdrawn. Up to 1857, \$47,530,067.61 had been intrusted to the care of this institution.—*Common Council Manual*, 1858, p. 623.

The first savings bank in Albany was established in 1820; in Troy, in 1823; in Brooklyn, in 1827; and in Buffalo, in 1836. Most of these banks were originally required to report to the Legislature; but their returns were seldom published. Under the act of March 20, 1857, they are required to report to the

Superintendent of the Banking Department. Sixteen savings banks have been incorp. that never organized. Only two of the whole number chartered have ever failed. The "Knickerbocker Savings Institution," of N. Y., incorp. April 8, 1851, failed and went into the hands of a receiver in 1854; and the "Sixpenny Savings Bank of Rochester," incorp. July 13, 1854, failed.

² This act was amended, so far as it related to the Ref. Prot. D. Societies, March 7, 1788. Other amendments were made in 1801, 1813, and 1828. For statistics see p. 139.

³ Previous to this act, villages were incorp. by special acts of the Legislature, and the articles were filed in the State Department; but since, the filing of articles has become a mere local affair; and it is extremely difficult to obtain a complete list of the incorporated villages of the State.

AGRICULTURE.

The climate of the State is adapted to the cultivation of most of the crops and fruits of the temperate zone. The improved lands comprise a little more than one-half of the entire area of the State, and of these 37 per cent. is devoted to pasturage and 25 per cent. is occupied by meadow lands. The principal crops, in the order of relative amount, are oats, corn, wheat, buckwheat, rye, and barley, together occupying 37 per cent. of the cultivated lands,—leaving 1 per cent. for the minor crops and gardens. The northern eos. of the State and the highland regions along the s. border and upon the Hudson are much better adapted to pasturage than tillage; and the people in these sections are almost exclusively engaged in stock and sheep raising and in dairying. Little more grain is raised than is strictly necessary for a proper rotation of crops; and the greater part of the grain for home consumption is imported from other sections of the country. The low lands that surround the great lakes and occupy the greater portion of the surface in the w. part of the State are best adapted to grain growing. Several sections of the State are found peculiarly adapted to particular products. The Mohawk Valley intervals have been long almost exclusively devoted to the cultivation of broom corn. The Chemung Valley parts of Onondaga co. and several other sections are becoming known as tobacco raising districts. Hops are extensively cultivated in Madison, Oneida, Otsego, and Schoharie eos. The Hudson Valley below the Highlands, the n. shore of Long Island, and the s. extremity of several of the lake valleys in the central portion of the State are well adapted to the culture of grapes. Maple sugar is largely produced in the northern eos. and in the central highland districts. Upon Long Island and in Westchester large sections are devoted to the cultivation of vegetables for the New York market. The people of Orange, Rockland, Westchester, Putnam, and Dutchess eos. are largely engaged in furnishing the city of New York with milk.¹

The New York State Agricultural Society was formed by a convention held at Albany in Feb. 1832; but for several years it received no support from the State and held no regular fairs. In 1841 the society was re-organized, and measures were adopted for raising funds and holding annual fairs. On May 5 of that year, an act was passed by the Legislature, appropriating \$8,000 for the encouragement of agriculture, \$700 of which was to go to the State Society, and the remainder was to be divided among the co. societies in the ratio of Assembly representation. This appropriation has been continued until the present time. The society is required annually to report to the Legislature a full account of its proceedings, and such facts concerning the agricultural condition of the State as may be of general interest. The volumes of Transactions are published by the State, and are widely distributed among the farming population. The annual fairs are held in different parts of the State, and are largely attended.² They usually succeed in

¹ Hay is most largely produced in St. Lawrence, Oneida, Chautauque, Otsego, Chautauque, Delaware, and Orange counties; wheat, in Livingston, Monroe, Genesee, Niagara, Ontario, and Jefferson counties; oats, in Onondaga, Montgomery, Oneida, Cayuga, and Otsego; rye, in Columbia, Rensselaer, Ulster, Orange, Albany, Saratoga, and Washington; barley, in Jefferson, Onondaga, Ontario, Cayuga, and Wayne; buckwheat, in Schoharie, Montgomery, Otsego, Saratoga, and Tioga; corn, in Onondaga, Cayuga, Monroe, Wayne, Oneida, and Ontario; and potatoes, in Washington, Monroe, Oneida, St. Lawrence, Rensselaer, and Franklin. The counties having the greatest number of cows are St. Lawrence, Jefferson, Oneida, Orange, Chenango, Herkimer, and Chautauque; and the greatest number of sheep, Ontario, Livingston, Steuben, Cayuga, Washington, Wyoming, Monroe, and Genesee. The counties that produce the greatest quantity of butter are St. Lawrence, Delaware, Chenango, Jefferson, Chautauque, Orange, and Otsego; and the greatest amount of cheese, Herkimer, Oneida, Jefferson, Madison, Erie, Cattaraugus, St. Lawrence, and Otsego.

²The earliest agricultural exhibition on record within the present limits of the State was a cattle fair, held at New Amsterdam, Oct. 15, 1641. An act passed Nov. 11, 1632, entitled "An act for settling fairs and markets in each respective city and co. throughout this province," remained in force until repealed by the State Legislature, March 12, 1788. A special act was passed for the fairs of Albany, Cumberland, and Ticondoga eos., March 8, 1773, but scarcely took effect before the Revolution. Acts applying to particular towns were passed by the earlier State Legislatures; but the custom of holding fairs soon fell into disuse. These fairs were more properly market days; no premiums were offered, and no inducements to competition existed beyond the ordinary stimulus of trade. The products of farm culture being placed side by side, their comparative excellence was left to the decision of the purchaser, which doubtless contri-

buted to excite emulation among the producers. These fairs were generally held semi-annually, upon fixed days, under the direction of "Governors and Rulers," appointed in colonial times by the Governor, and afterward by the judges of the co. courts. The expenses were defrayed by tolls, usually 1 per cent., upon the commodities sold, half of which was paid by the buyer and half by the seller.

The Society for the Promotion of Agriculture, Arts, and Manufactures was instituted Feb. 26, 1791, and incorporated March 12, 1793. For more efficient action, it in 1801 divided the State into as many agricultural districts as there were eos., in each of which a secretary was appointed, to convene the members of the society within his district, inquire into the state of agriculture and manufactures, receive communications and arrange and transmit them to the President of the society. The transactions of this body were printed by the State, and the society numbered among its members nearly every person of eminence throughout the State. Its charter expired in 1804, and its corporate powers were revived and continued April 2 of that year, under the name of the Society for the Promotion of the Useful Arts. The affairs of the new body were managed by a council of 9 members, and State patronage was continued in the printing of its Transactions. In 1808-12 liberal premiums were offered for the best cloths of household manufacture, a part of which were awarded by the co. judge and a part by this society. The samples, upon which \$10,000 were thus paid, are still preserved in the library of the Albany Institute. After being once extended, the Society for Promoting Agricultural Arts was superseded, in part, by a Board of Agriculture, but continued as a local institution of Albany until merged, with the "Albany Lyceum of Natural History," in the "Albany Institute," in 1829. The latter has most of the books, papers, and effects of its predecessors; and tracing back through its change it is the oldest scientific society in the State. "An act to improve the agriculture of this State,"

awakening a great local interest in agricultural matters. The office of the society is kept at the Agricultural Rooms, corner of State and Lodge Sts., Albany, where it has a museum and library.

County and Town Societies.—The act of 1853 allows county agricultural societies to purchase and hold real estate to an amount not exceeding \$25,000 and personal property not exceeding \$1,000, for the purposes set forth in their articles of incorporation, and for no other purposes. Town and other societies may hold real estate to the amount of \$10,000 and personal property to the amount of \$3,000. Each county or union society must have at least one director or manager for each town; and each town, village, or city society must have not less than 10 directors, who are elected annually by ballot. Upon application of two-thirds of their members to the Supreme Court of the district in which they are located, these societies may obtain an order for the sale of a part or the whole of their property. An amendment to the act was passed April 13, 1855, by the provisions of which the number of directors was changed to 6, 2 of whom are elected each year for a term of three years. Any person may become a life member by the payment of a sum not exceeding \$10; and the officers are jointly and severally liable for all debts due from the society contracted while they are in office, if suit be commenced within one year

passed April 7, 1819, created a board of agriculture and appropriated \$10,000 annually for 2 years, to be distributed for the promotion of agriculture and family domestic manufactures in the several cos., on condition that a similar sum should be subscribed by the co. societies formed under this act. A board, formed of the president, or a delegate chosen from each co. society, met annually at Albany, elected officers, examined reports, and selected for publication such returns as they deemed proper. These were published by the State. Three volumes of Memoirs were issued, and the board continued in existence but little longer than the appropriation was continued. County societies, on the plan of the Berkshire Co. Agricultural Society, began to be formed in 1817; and, by the exertions of De Witt Clinton, Elkanah Watson, and other friends of the measure, they were extended to most of the cos. These societies, after a brief period, fell into disuse; and that of Jefferson co. is the only one of this class that can trace an unbroken descent from that period.

The first officers of the present State Agricultural Society, formed in 1832, were Le Ray de Chaumont, *President*; E. P. Livingston, Jacob Morris, and Robert L. Rose, *Vice Presidents*; P. S. Van Rensselaer, *Recording Secretary*; Jesse Buell, *Corresponding Secretary*; Charles R. Webster, *Treasurer*; and H. W. Delavan, John Townsend, and H. Hickox, *Executive Committee*. County societies were again instituted in many of the cos. under the influence of this society; but most of them were short lived. The "Cultivator" was begun in March, 1834, by Jesse Buell, under the guarantee of Stephen Van Rensselaer and James Wadsworth, as the organ of the society and medium of communication between the friends of agriculture; and it has been continued ever since, under private auspices, but entirely devoted to the interests of agriculture. It has for many years been published by Luther Tucker, of Albany.

Any person a citizen of the State may become a member of the State Society upon payment of \$3 annually, or a life member by payment of \$10 at one time. Presidents of co. societies and one delegate from each are *ex officio* members. The officers of the society are elected annually in Feb., and consist of a

President, one Vice President from each of the Judicial Districts, a Recording and a Corresponding Secretary, a Treasurer, and an Executive Committee, consisting of the above and 5 others chosen for the purpose.

Prémiums are awarded in money, plate, medals, books, and diplomas; and the society embraces within the field of its patronage not only stock, farm, and garden products and implements of husbandry, but a wide range of useful and ornamental manufactures, particularly those which are the products of home industry. The places and times of holding the State fairs, names of Presidents, and total receipts of the State society have been as follows:—

YEARS.	Place of holding fair.	Time of holding fair.	Presidents.	Receipts.

County societies usually require the payment of \$1 annually from each member, or \$10 for life membership without further payment. It is customary to restrict competition for premiums to members of the society, and to collect of all others an entrance fee to the exhibition grounds.

Dwellings, Area, and Products.

MANUFACTURES.

The manufactures of the State are very extensive, embracing an almost endless variety of articles. In many sections the manufacturing interests surpass those of agriculture or commerce. The lines of internal communication through the State have greatly facilitated the spread of manufactures; and now flourishing establishments are found in nearly every part of the State.¹ The most im-

portant and extensive manufactories are those of iron and machinery, leather, articles of wood, and cotton and woolen goods. Such articles as relate to the professions and fine arts, to books, maps, and engravings, and to the heavy machinery used in ocean steamships, are principally manufactured in New York City and its suburbs. Immense quantities of brick are manufactured on the Hudson for the New York and Southern markets. Lime, waterlime, and gypsum are largely manufactured on the Hudson and through the center of the State; and iron ware is produced in large quantities in the iron districts of Essex, Clinton, Dutchess, Orange, and Oneida counties. Details of the principal manufacturing establishments are given in the statistics of the cities or towns in which they are located.¹

The returns of manufacturing establishments from many counties are quite unsatisfactory, as an examination of the table will show. It is to be hoped that the next census will be more complete in this particular.

COMMERCE.

THE position of New York in the confederacy of States gives it peculiar facilities for maritime affairs, and through its various ports a large proportion of the foreign and internal commerce of the nation is carried on. This commerce extends to every accessible port in the world, and in amount and variety exceeds that of all the other States of the Union. It is regulated by acts of Congress; and the revenues arising from duties upon articles imported are collected by officers appointed by the President and Senate, or subordinate to those thus appointed. These officers are accountable to the U. S. Treasury Department.

Collection Districts.—The Federal Government has established 11 Collection Districts within this State for the collection of these revenues. Each of these has one port of entry, in charge of a collector, and several ports of delivery, at which one or more deputy collectors, inspectors, or other officers reside.¹ The number of officers employed in collecting these revenues in New York City and its dependencies is nearly 800. Duties on foreign importations form much the largest item of revenue for the support of the General Government, and those collected at the port of New York form the largest part of the whole amount. The absolute and relative amounts of moneys collected from this source in the United States and State of New York have been steadily increasing, except as influenced by pecuniary embarrassments; and now the former amount to about \$60,000,000 annually.²

¹ Collection Districts in New York.

DISTRICT.	Date of Establishment.	Principal Office.	Subordinate Offices.
Sag Harbor.....	July 31, 1789	Sag Harbor.....	Greenport.
New York City..	July 31, 1789	New York.....	Albany, Troy, Cold Spring Harbor, Port Jefferson.
Champlain.....	Mar. 2, 1793	Plattsburgh.....	Whitehall, Rouses Point, Champlain, Ferrysville, Mooers, Centerville, Chateaugay, Burke, Trout River, Westville, Fort Covington, Hogansburgh, Malone.
Oswego.....	Mar. 2, 1811	Ogdensburg.....	Hammond, Morristown, Lisbon, Waddington, Louisville, Massena.
Cape Vincent.....	April 18, 1818	Cape Vincent.....	Alexandria Bay, Millens Bay, Clayton, Chamout, Three Mile Bay, Point Peninsula.
Sackets Harbor..	Mar. 3, 1803	Sackets Harbor..	Dexter, Henderson, Sandy Creek.
Oswego.....	Mar. 2, 1799	Oswego.....	Bigodus, Littleodus, Texas, Port Ontario.
Genesee.....	Mar. 3, 1805	Rochester.....	Carthage Landing, Kelsey Landing, Pulteycyville, Charlotte.
Niagara.....	Mar. 2, 1799	Lewiston.....	Niagara Falls, Niagara Bridge, Youngstown, Wilson, Eighteen Mile Creek, Oak Orchard.
Buffalo Creek....	Mar. 3, 1805	Buffalo.....	Black Rock, Black Rock Dam, Tonawanda, Schlosser.
Dunkirk.....	July 27, 1834	Dunkirk.....	Barcelona, Irving, Cattaraugus Creek, Silver Creek.

Albany was made a port of delivery in N. Y. Dist. July 31, 1789.
Cape Vincent was made a port of delivery in Sackets Harbor Dist. Mar. 2, 1811.

Hudson was made a port of delivery in N. Y. Dist. July 31, 1789, and a district and port of entry Feb. 26, 1795. Annexed to N. Y. Dist. May 7, 1822.

Catskill and Kinderhook were made ports of delivery from Feb. 26, 1795, to May 27, 1796.

New Windsor, Newburgh, Poughkeepsie, and Esopus were made ports of delivery July 31, 1789.

Niagara.—Office removed from Ft. Niagara to Lewiston Mar. 2, 1811.

¹ The following table exhibits the receipts for customs for the ports of the U. S. and N. Y. for a series of years:—

Receipts into United States Treasury.

1855	65,351,374.68	53,025,794.21	
1857	68,969,212.57	63,875,905.05	42,510,753.79
1858	70,273,869.59	41,789,620.96	

The amount of revenue from duties varies with the amount of tariff, and the sum thus collected becomes a very uncertain measure of the amount of commerce. The present tariff was adopted March 3, 1857, and admits a large class of goods free of duty. The system of bonding, introduced in 1846, permits goods to be stored in Government warehouses until re-exported or sold, before the payment of duties are required. The State Government took early measures for establishing custom houses and regulating duties upon foreign importations. By an act of Nov. 18, 1784, Sag Harbor and New York were made ports of entry and delivery, and officers were appointed by the Governor and Council of Appointment at each. The reluctance of New York to part with these revenues led to much delay in her ratifying the Constitution of the U. S. by which her revenues were surrendered to the General Government.

The Foreign Trade of New York from 1700, although fluctuating considerably, has exhibited a general progressive increase. The commerce of the country was suspended during the Revolution; and no statistics of its amount have been preserved during the period in which the States formed each an independent sovereignty under the Confederation. The amount of imports has been reported separately by States only since 1821.¹

Tonnage.—The size of registered American vessels engaged in foreign trade has been steadily increasing, and has more than doubled within twenty years. Steam vessels were first enrolled in 1823 and first registered in 1830. They now form 12 to 15 per cent. of the total amount of tonnage.¹

Steamboats applying for registry, enrolment, or license must be inspected under the direction of a Board of Supervising Inspectors. The United States is divided into 9 Supervising Districts, the 2d of which includes the seaboard, and the 9th the lakes of New York. Steamboats are required to be well guarded against fire, to have suitable pumps worked by hand and by steam, at least two boats, and large steamers more, in proportion to their tonnage, (except upon rivers,) one life preserver to every passenger, and a certain number of floats, and fire buckets and axes. Their boilers, engines, and hull must be examined and approved by inspectors appointed by the Collector, the Supervising Inspector for the district, and the Judge of the U. S. District Court; and every requirement of the law must be found complied with. Pilots and engineers on steamers must be examined and licensed by the Inspectors. The present steamboat law was passed Aug. 30, 1852.²

The Coasting Trade of the United States is entirely restricted to American vessels, and the share belonging to New York is very great; but from the want of official returns it cannot be definitely ascertained. Unless carrying distilled spirits or foreign goods, these vessels are not required to report their entrance and clearance; and, as they oftener leave than arrive with these articles, the number of clearances reported is disproportionately high.³

The affairs of commerce relating to police, sanitary, and municipal regulations are governed by the laws of the State, and their care is intrusted to officers appointed under its authority. These officers are divided into several classes, each of which has charge of a particular department.

1. **The Board of Commissioners of Pilots** consists of 5 persons,—3 elected for 2 years by the Chamber of Commerce, and 2 for a like term by the presidents and vice-presidents of the marine insurance companies of N. Y., composing or representing the Board of Underwriters in that city. This Board appoints a secretary, has an office, meets once a month or oftener, and licenses, for such term as it may think proper, as many pilots as may be deemed necessary for the port of New York.¹

2. **The Board of Health of New York** is composed of the Mayor and Common Council of the city.²

3. **The Commissioners of Health** are composed of the President of the Board of Aldermen, the Health Officer, the Resident Physician, the Health Commissioner, and the City Inspector.

4. **The Health Officer**, appointed by the Governor and Senate, is required to board every vessel subject to quarantine or visitation, upon its arrival, to ascertain whether infectious diseases are present, and to obtain, in such case, the facts necessary to determine the period that such vessel must be detained.³

5. **The Resident Physician** for the city and county of New York is appointed by the Governor and Senate. He is required to visit all sick persons reported to the Board of Health, or to the Mayor and Commissioners of Health, and to perform such other professional duties as the Board may require.

6. **The Health Commissioner**, appointed in like manner, is required to assist the Resident Physician.⁴

7. **The Quarantine Hospital** is located in the town of Castleton, in Richmond co.; and vessels detained on account of infectious diseases are anchored in the adjacent waters, or, in sickly seasons, in the lower bay.⁵

8. **Harbor Masters** are appointed by the Governor and Senate, for the purpose of assigning piers and other stations for landing and receiving cargoes.⁶

9. **The Port Wardens of the Port of New York** are appointed by the Governor and Senate, for the purpose of inspecting vessels and the stowage of cargoes and of estimating all damages to the same. They consist of a Board of 9 members, one of whom must reside in Brook-

Enrolled Tonnage of the U. S. engaged in the Coasting Trade for different periods.

1825	587,273.07	1845	1,190,898.27	1858	2,261,595.72
1830	516,978.18				

In June, 1858, there were, of small vessels under 20 tons licensed for the coasting trade, 189,21 tons at Sag Harbor and 71,25 tons at Greenport.

¹The licenses thus granted may express different degrees of qualification, appropriate to different branches of duty, and may be revoked at pleasure. Candidates must sustain a satisfactory examination and be found of good character and temperate habits. They must also give bonds for the faithful discharge of their duties. The board has power to regulate pilotage; and the fees of pilots are fixed by law. The masters of vessels of under 200 tons, owned by a citizen of the U. S., and licensed in the coasting trade, need not employ a pilot unless they prefer. If the master of a vessel of from 150 to 200 tons, owned and licensed as above, be desirous of piloting his own vessel, he may obtain a license from the Commissioners of Pilots for such purpose. All masters of foreign vessels and vessels from a foreign port, and all vessels sailing under register by way of Sandy Hook, are required to take a licensed pilot, or, if they refuse, they must pay the pilotage to the pilot first offering his services. Pilots licensed by other States have no privileges in this. Candidates for recommendation as Heligate pilots must have served an apprenticeship of 3 years, and, until they attain the age of 21 years, must have served 2 years after as deputy pilots and sustained repeated examinations before the Board of Wardens in the presence of at least 2 Heligate pilots.

The first act regulating the pilotage of New York was passed in 1731; and since that period this service has been conducted under rules and penalties established by the Colony or State of New York. All special laws concerning pilotage by the way of Sandy Hook were repealed in 1845. The present law was enacted in 1853 and amended in 1854-57. The pilots belonging

upon steamboats are licensed by inspectors appointed under the Treasury Department of the U. S. Those employed in conducting vessels by way of Sandy Hook are licensed by the Board of Commissioners of Pilots; and those by way of Heligate, by the Governor and Senate, upon recommendation of the Board of Wardens.

²Boards of Health are by law created in every city, incorporated village, and town, under an act of 1850; but the greater number of these have never acted officially. In towns the Supervisor and Justices of the Peace are a Board of Health, and may appoint a physician as health officer.—*Revised Statutes, 5th Edition, 11, p. 25.*

³The Health Officer resides at quarantine, has general direction of the location of vessels detained, their purification, and the discharge of their cargoes, and other duties connected with the health of vessels in quarantine. He is paid by fees, and reports to the Mayor or Commissioners of Health.

⁴This officer receives all moneys applied to the Marine Hospital, and pays all demands against the same that shall have been approved by a majority of the Commissioners of Health. He reports his accounts monthly to the Board of Health, gives a bond of \$20,000 for the faithful discharge of his duties, and receives a salary of \$3,500, to be paid by the Commissioners of Emigration. The Board of Health may from time to time appoint as many visiting, hospital, and consulting physicians as may be deemed proper, and may also fix their duties and compensation.

⁵The Hospital buildings, destroyed Sept. 1-2, 1858, (see page 565,) have been temporarily rebuilt.

The removal of quarantine to some place less dangerous to the public health has been fully shown to be necessary; but the final disposition of the important question as to whether, is not settled. The only available place for the construction of buildings seem to be upon some of the shoals in the lower bay. Old Orchard Shoal, on which the water is from 1 to 3 fathoms deep at mean low tide, has been proposed for this purpose. The East Bank and Dry Bone Shoals have about the same depth, but are more exposed to the open sea.

⁶There are 9 Harbor Masters in New York, 2 in Brooklyn, and 1 in Albany. They enforce the regulations of the city authorities relative to clearing docks and preventing nuisances or obstructions. They are paid by fees and report the amount thereof annually to the Governor.

lyn, and 3 must be nautical men. They choose one of their number President, appoint a Secretary, use a seal, and keep an office. They are exclusive surveyors of vessels damaged or wrecked, or arriving in distress, and, when called upon, judge of the fitness of vessels to depart upon voyages. They are also, upon application, required to estimate the value or measurement of vessels when the same is in dispute or libelled: and they may examine goods in warehouses that have been damaged on shipboard. The Board, or some member thereof, must attend all sales of vessels or their cargoes condemned and in a damaged state: and such sales by auction must be made under the direction and by order of the Wardens, and are exempt from auction duties.¹

The Commissioners of Health are authorized to collect of the masters of every vessel entering the port of New York a certain tax, for the benefit of the Health Office.²

The Board of Commissioners of Emigration, consisting of the Mayors of New York and Brooklyn, the President of the German Society and Irish Emigrant Society, and 6 Commissioners appointed by the Governor and Senate, have charge of the interests of immigrants when they first arrive at New York.³

The Marine Court of the City of New York has jurisdiction in civil cases arising between persons engaged in maritime affairs, where the sum in dispute does not exceed \$500.⁴

Canadian Trade.—The revenues collected on the Canada frontier, in some periods, have fallen short of the cost of collecting them. The Reciprocity Treaty of 1854 admits the greater part of articles the produce of the U. S. and B. A. into each country respectively free of duty.⁵

¹ The Wardens are paid by fees and percentages upon sales. Special Wardens are appointed to reside at quarantine. They report to the Board of Wardens of N. Y., and have jurisdiction as wardens over vessels detained in quarantine. The Board of Port Wardens reports annually to the Comptroller a statement of its receipts and expenses, with an abridgment of each member and of the Secretary that they have not received directly or indirectly any moneys except their legal fees.

² Under an act passed in March, 1801, the amount of this tax was fixed at \$1.50 for every cabin and 75 cts. for every stowage passenger, mate, and mariner. In 1813 the tax was fixed at \$1.50 for every captain and cabin passenger; \$1.00 for every stowage passenger and mariner of foreign vessels; and 25 cts. for master, mate, and sailor of every coasting vessel. The moneys thus paid, after supporting the Marine Hospital at Quarantine and contingencies and yielding \$8,000 annually to the Society for the Reform of Juvenile Delinquents, was invested by the Comptroller as the "Marine Fund." In 1831 the Board of Trustees of the Seamen's Fund and Retreat was created, under whose direction the present establishment known as the "Seamen's Retreat," on Staten Island, more particularly described on page 596, has since been managed. Of the 44,332 admitted up to Jan. 1, 1859, 80 per cent were discharged cured, 8½ per cent were relieved, 3 per cent were discharged by request, and 4½ per cent died.

³ The master of every vessel bringing passengers from foreign countries must give a bond of \$200, conditioned that such persons shall not become chargeable for support within 5 years. They may commute this bond by paying \$2 upon each passenger, of which sum ½ is set apart for the countries other than N. Y. toward the support of emigrants in the several counties. For every lunatic, idiot, deaf and dumb, blind, maimed, or infirm person, and every widow with children, or person over 60 years of age, and liable to become a public charge, a bond of \$500 is required.

The Commissioners of Emigration have a large establishment on Ward's Island for the support of the sick, infirm, and destitute, and have leased Castle Garden as a general landing place. Emigrants may here purchase tickets for any part of the Union, and procure such articles as they may stand in need of, without encountering the horde of faithless agents and mercenary runners that formerly proved the scourge of immigration and the disgrace of the city. The Marine Hospital at

Quarantine was placed under these Commissioners in 1847. See pages 116, 427, 565.

⁴ These actions may be for compensation for the performance, or damages for the violation, of a contract for services on board a vessel during a voyage performed in whole or in part, or intended to be performed, by the vessel; or for assault and battery, false imprisonment, or other injury committed on board a vessel upon the high seas, and not coming within the jurisdiction of the U. S. District Courts. The Marine Court is held daily, except on Sundays and holidays; and its Justices, three in number, are elected for a term of 4 years, and enter upon their duties on the second Tuesday of May after their election. Their Clerk is appointed by the supervisors, and their salary is fixed by the Common Council and cannot be increased during their term of office.

The State Government, before the adoption of the Federal Constitution, had instituted a court of Admiralty; but in 1789 it surrendered these powers to the General Government, and they have since been exercised by the District Court of the U. S. Suits for salvage, and other questions arising in the sale of wrecked property, are decided in this court.

The Governor appoints 15 *Wreck Masters* in Suffolk, 12 in Queens, 3 in Kings, 2 in Richmond, and 2 in Westchester cos. These officers have, with coroners and sheriffs, the custody of wrecks and property cast ashore by the sea. Such property belongs to the owners, and may be recovered by paying reasonable salvage and in due course of law.

⁵ Imports from Canada duty free for the year ending June 30, 1858.

As the only avenue to the sea which Canada possesses is closed by ice during about five months in the year, the foreign trade of that country in winter must seek other avenues; and, from the acknowledged superiority of New York as a commercial point, a large part of the trade is through that port. Over half the vessels that arrive in Quebec come in ballast; while none leave port without cargoes of timber or other commodities of the country. This renders the outward freights disproportionately high; and, although vessels may load in the upper lakes and pass without transshipment down the St. Lawrence, the difference of ocean freights makes it cheaper to send by the canals to New York.

The number of vessels and amount of tonnage employed upon the great lakes have been rapidly increasing for the last 10 years. In the several collection districts of this State, the ratio of increase has been much greater in ports where railroads terminate.¹

The above indicates but a part of the commerce of these districts not entered upon the custom house books is much larger in trials. It is probable that the amount of coasting trade which is each district than that here given.

The canals and rail roads of Canada terminating upon our frontiers are intimately connected with the commercial prosperity of this State; and a notice of their extent and capacity is necessary to a full understanding of our commercial possibilities.¹

Custom Houses have been erected by the General Government at New York, Plattsburgh, Oswego, and Buffalo; and a site has been purchased at Ogdensburgh. These edifices are built of stone, fireproof, and are generally fine specimens of architecture. Efforts have been made to secure the erection of similar buildings at Rochester, Sackets Harbor, Albany, Brooklyn, and Sag Harbor, but so far without success.²

1. *The Welland Canal* extends from Port Colborne, on Lake Erie, to Port Daulhousie, on Lake Ontario. It has a feeder branch to Dunnville, on Grand River, and another from the feeder to Port Maitland. It passes sloops, schooners, and propellers of a capacity of 400 tons. In 1856 it tolls are quoted to be \$263,598.43; in 1857 to \$232,437.78; and in 1858 to \$247,771.52.

The Rideau Canal was built as a military work by the Home Government and transferred some years since to the Province. It extends from Kingston to Ottawa, most of the way along the channel of rivers. Its total length is 125 miles. It rises from Kingston to the summit 165 feet by 13 locks, and descends to the Ottawa 242 feet by 34 locks. Its total cost was \$3,960,000. *The Glorioso, Point Lepinois, Rapid Point, Ferris Point, Cornwall, De Barbarnois, and Lake de Champlain* extend around the rapids on the St. Lawrence. Steamers usually pass down the rapids, but must return by the canals and pay toll both ways. Sail vessels

pass both up and down by canal. These canals afford navigation down to Montreal, to which point ships come up from the sea. The total fall by river without locks is 201 feet to Montreal and 132 feet thence to tide water at Three Rivers. The rapids of the St. Lawrence have been surveyed with the design of deepening them to afford a channel 200 feet wide and 10 feet deep, but nothing further has been done. These surveys make Lake Erie 534 feet above tide.

Chamby Canal extends from the foot of navigation on Lake Champlain to Chamby Basin, and with a lock at St. Ours, upon Richibou River, completes the line of navigation from the lake to the St. Lawrence. A ship canal has recently been proposed between these important navigable waters.

The amount of tonnage on these canals in which this State is interested, is very large; and in the Welland Canal more than half the duties are paid by American vessels.

Statistics of the Business of the Canadian Canals for two years.

It has been proposed to build a ship canal from Lake Huron to Lake Ontario, by way of Lake Simcoe, 80 mi. A cutting to allow Lake Simcoe to pass southward would not exceed 175 ft. in depth; and in the 8 mi. surveyed the principal obstacles would not average over 10 ft. It has been estimated that the cost for a canal 120 ft. wide at bottom, and 135 ft. at surface, 12 ft. deep, with 64 double locks 50 ft. wide, and 250 ft. long, would be \$2,035,000, and that it could be constructed in 5 years.

Great Western Railway of Canada, from Suspension Bridge to Windsor, 22 1/2 mi., and thence by ferry to Detroit, was opened Jan. 27, 1854. It branches extend from Hamilton to Toronto, 38 mi.; from Harrisburgh to Guelph, 237 mi.; from Preston to Berlin, 10 1/2 mi.; and from Kamoka, near London, to Port Sarina, 60 mi.

Buffalo & Lake Huron Railway extends from Fort Erie, opposite Buffalo, to Godrich Harbor, on Lake Huron, 165 mi.

Erie & Ontario Railway extends from Chippewa to Niagara, 17 miles.

Welland Railway, from Fort Daulhousie to Port Colborne, 27 mi., is on the eve of completion.

Grand Trunk Railway of Canada extends from Portland, Me., and Quebec to Richmond, and thence to Montreal, Toronto, and Port Sarina, at the foot of Lake Huron. More than 700 mi of this road are finished. A branch extends from Belleville to Peterborough, 50 mi., and others are proposed.

Ontario, Simcoe & Huron Railway extends from Toronto to Collingwood, on Georgian Bay, 95 mi.

Colony & Peterborough Railway is 28 1/2 mi. long, with privilege of extending to Marmora Iron Works.

Ottawa & Prescott Railway extends from Prescott to Ottawa City, 54 mi.

Montreal & New York R. R. extends from Montreal to Lac-hamp, 8 mi., and thence by ferry, 2 mi., always open, to Caughnawaga, the terminus of a road leading to Plattsburgh, 52 mi. This line is now united with the *Champlain & St. Lawrence R. R.*, from St. Lambert, opposite Montreal, to Rouses Point, 44 mi.; and the consolidated company is known as the *Montreal & Champlain Rail Road Co.*

		\$105,293,617.2

Marine Hospitals.—Since 1778, every American seaman has been taxed 20 cents per month for a Hospital Fund; and in return he is entitled in case of sickness to assistance and support from the revenues thus collected. This fund is in charge of the U. S. Government, and is entirely independent of the various State and private hospital funds of New York City.¹

Light Houses.—The United States Government has erected 62 light houses, lighted beacons, and floating lights within the State of New York, for the benefit of navigation. Of these, 3 are upon the seacoast, 15 upon Long Island Sound, 4 within the Harbor of New York, 16 upon Hudson River, 3 upon Lake Champlain, 14 upon Lake Ontario and St. Lawrence River, and 7 upon Lake Erie. The Government has also erected buoys, spindles, beacons, and other signals to indicate channels or to point out dangerous localities.²

The site for the New York Custom House was purchased Jan. 9, 1823, the building was completed Feb. 22, 1842; it is used for a custom house only. The site for the Plattsburgh Custom House was purchased Nov. 22, 1855, the building was completed May 19, 1858; it is used for a custom house, post office, and courthouse. The site for the Ogdensburgh Custom House was purchased Jan. 20, 1857, the building has not been commenced; it is designed to be used for a custom house, post office, and courthouse. The site for the Oswego Custom House was purchased Dec. 15, 1854, the building was completed Sept. 1, 1858; it is used for a custom house and post office. The site for the Buffalo Custom House was purchased Jan. 25, 1855, the building was completed July 12, 1858; it is used for a custom house, post office, and courthouse.

The Custom House in New York occupied before the present one was finished was erected in 1816, at a cost of \$928,512.96. In 1850 the only custom house building in the State belonging to the United States was at New York City. On the 19th of Feb. 1857, the Federal Government purchased a site for stores at Atlantic docks, Brooklyn, for \$100,000; but as yet no use has been made of it.

¹ The Federal Government has built 34 marine hospitals, none of which are in this State. Those entitled to aid are supported in this State in private families or local hospitals. The number of seamen relieved and supported in the several

collection districts in the year ending June 30, 1858, was as follows:—

COLLECTION DISTRICT.	Admitted.	Discharged.	Deceas'd.	Total expenditures.	Hospital money collected.

Lifeboat Stations have also been established by the General Government upon the sea-coast and great lakes. On the shores of Long Island and the adjacent islands are 30 lifeboat stations, the first of which were established about 1850. Each of these consists of a house, containing a lifeboat, boat wagon, life cars, mortar for throwing lines, and every fixture that could be used in affording aid to vessels in distress. The houses are furnished with stoves for warming them when necessary, and with fuel and matches for kindling a fire on short notice. They are each intrusted to a local agent, and are under the general care of a superintendent appointed by the Secretary of the Treasury. Their location is indicated on the map.

Coast Survey.—A survey of the coast, with soundings of its adjacent waters, was ordered by the General Government about 50 years since; but many years were necessarily employed in making preliminary arrangements. Active surveys were begun about 1832, and during the last 15 years they have been prosecuted with great effect. The triangulations of this survey are conducted with great precision, and extend up all rivers navigable from the sea as far as tide flows.

Light Houses, continued.

Besides the above, there are nine State lights established in 1856 in the marshy "Narrows" at the head of Lake Champlain. Big Sodus Beacon was destroyed in a gale in 1857. A flashing light has been authorized at Crown Point.

There are lifeboats on Lake Ontario at Tibbetts Point, Sandy Creek, Salmon River, Oswego, Sodus, Genesee River, and Niagara River, which were supplied by the U. S. Government in the summer of 1854. Several have also been placed on Lake Erie. None of them on the lakes have been provided with houses, except such as have been erected by the persons having them in charge.

Immigration into the U. S. for many years past has been very great; but the proportion landing in New York has been less than the relative amount of trade. Other routes in some respects afford superior facilities for immigration. The large number of ships arriving in Canada without cargoes favors immigration to a great extent; and hundreds of thousands of immigrants have crossed into this State from Canada without their names ever appearing on the U. S. Government records. These immigrants have consisted chiefly of Irish and Germans; though there has also been a large number of English, Scotch, and Norwegians. The greater part of the immigrants either locate in the cities or immediately pass on to the wild lands of the West. The English and Scotch usually prefer to settle in Canada.¹

Assay Office.—By an act of 1853, the Secretary of the Treasury was directed to establish an assay office at New York, for the special accommodation of the business of the city. At this place the owners of gold or silver bullion, or of foreign coin, may deposit the same, have its value ascertained, and certificates issued payable in coin of the same metal as that deposited, either at the office of the assistant treasurer in New York, or at the Mint in Philadelphia. The metal assayed may, at the option of the owner, be cast into bars, ingots, or discs, of pure metal, or of standard fineness, and stamped with a device designating its weight and fineness. This office is under the general direction of the Director of the Mint, in subordination to the Secretary of the Treasury. The Assay Office is located on Wall St., adjacent to the Custom House, and is fitted up with every appliance for carrying on its operations upon a very extensive scale. Its lofty chimney, emitting dense, orange colored fumes of nitric acid, forms a conspicuous object in the district. About 50 men are employed upon the premises. Its officers are a superintendent, treasurer, assayer, melter, and refiner, with their assistants and clerks. The site of the Assay Office was bought Aug. 19, 1853, for \$553,000, and the premises were fitted up and completed Oct. 9, 1854, at a total cost of \$761,493.62.²

The Mail Service of the State of New York forms about 5 per cent. of the whole U. S. in miles, and 7 per cent. in cost, while the receipts from postage in this State amount to 22 per cent.

1829	14,814	1839	47,888				

Until 1850 these returns were made up to Sept. 30; but since 1851 they began up in Jan. 1 each year. The number between Sept. 30 and Dec. 31, 1850, not included in the above, was 38,831.

The total number of passengers who arrived in the U. S. from 1820 to 1858 was 4,482,867, of which number 3,028,225 arrived in New York.

² The establishment of a mint at New York has been repeatedly urged, and the addition of coining machinery to the existing Assay Office could be made at a moderate expense.

The Fisheries in New York, although considerable in amount, are quite subordinate to other branches of industry. The whale fisheries, formerly of great importance, are now chiefly limited to Sag Harbor, Greenport, and Cold Spring Harbor.¹ The shores and bays of Long Island support great numbers of fishermen, and the product of their labor chiefly finds a market in New York City.² The Hudson yields shad, sturgeon, and other fish in great quantities;³ and there are extensive fisheries upon the great lakes, especially near the E. end of Lake Ontario and in the waters of Chaumont Bay.⁴ The waters of Lake Champlain and the St. Lawrence formerly abounded in salmon; but, from the building of dams and mills, or other causes, the tributaries of these waters now afford but very small supplies. Trout and other fish highly prized for food abound in the clear mountain streams of Northern New York. Hundreds of millions of "bony fish" are taken annually around Long Island for manure; and the manufacture of oil from sharks, porpoises, and other fish has been at various times carried on with encouraging success. Numerous special laws have been passed for the preservation of fish in certain waters and at particular seasons; but this is now made one of the subjects within the legislative jurisdiction of Boards of Supervisors.

¹ The right to drift whales was often made a subject of special reservation or sale by the Indians of Long Island; and the capture of whales in open boats from the shore has continued from the first settlement to the present time. Scarcely a year passes without one or more being taken along the shore of the island. The whale fisheries from Hudson, Poughkeepsie, and Newburgh, once large, have ceased altogether. On the 30th of June, 1858, 5,927.92 tons were employed in the whale fisheries at Sag Harbor, 1,942.12 tons at Greenport, and 2,159.27 tons at Cold Spring Harbor. The total of whaling vessels in the U.S. at the same time was 198,593.51 tons.

² The wholesale fish mart of N. Y., on the East River, at the foot of Fulton St., occupies an entire block. The rarer kinds are oftener sold in the Washington Market. A record kept in 1856 enumerated 79 species, in 56 genera and 20 families, as found in

these markets, the majority of them being marine fish from the waters adjoining Long Island and the New England coast. A few came from the South, and many from the interior lakes and rivers.

³ It is estimated that \$100,000 worth of shad are taken annually below the Highlands. They are caught in seines nearly as far up as Albany. About \$20,000 worth of sturgeon are sold annually at the Albany market.

⁴ As many as 10,000 bbls. have been taken at Chaumont Bay in one season, although sometimes no more are taken than enough to supply the local want. The fish are chiefly lake herring and whitefish. The amount of tonnage invested in this State in the cod fisheries is quite unimportant, and amounted in June, 1858, to 131.22 tons at Greenport, and 159.34 tons at New York, consisting of licensed vessels under 20 tons.

COLLEGES AND ACADEMIES.

IN 1754 King's College was incorporated in N. Y. City by patent, and liberally endowed by a lottery and grants of land. At the commencement of the Revolution it was the only incorporated educational institution in the colony. In 1784 its name was changed to Columbia College; and in connection with it an extensive scheme of education was devised, in which the college was to be the center of the system, and subordinate branches were to be established in different parts of the State,—the whole to be under the control of a board denominated "Regents of the University." This board was to consist of the principal State officers, two persons from each co., and one chosen by each religious denomination. The number of the Regents was afterward increased by adding 33 others, 20 of whom resided in N. Y. City. This whole scheme

was found to be impracticable; and by act of April 13, 1787, it was superseded by a system which has continued without essential change to the present time.¹ By this act the Governor, Lieut.-Governor, and 19 persons therein named were constituted

Regents of the University, and required to visit and inspect all colleges and academies, and report their condition, annually. They might appoint presidents of colleges and principals of academies for one year, in case of vacancy, and incorporate new colleges and academies, providing the revenue of the latter should not exceed the value of 4,000 bushels of wheat annually. In 1842 the Secretary of State, and in 1854 the Superintendent of Public Instruction, were made *ex officio* members of the Board of Regents. Vacancies are filled by the Legislature in the same manner that U. S. Senators are appointed; and Regents hold their office during life, unless they resign or forfeit their place by removal from the State, by accepting the office of trustee in an incorporated college or academy, or by accepting a civil office the duties of which are incompatible with their duties as Regents;² but the members may be removed by concurrent resolution of the Senate and Assembly.³ They receive no pay. Under a special act of 1791, the Regents appoint the faculty of the College of Physicians and Surgeons of the City of N. Y. and confer degrees upon its graduates.⁴ They confer the honorary degree of M. D. upon four persons annually, upon recommendation of the State Medical Society, and may grant any honorary degree. They have exercised this right by conferring the degree of LL. D. upon 12 persons since their first organization.⁵

In 1821 they were authorized to incorporate Lancasterian and select schools.⁶ In 1844 the Regents were made trustees of the State Library, and, with the Superintendent of Schools, were charged with the supervision of the State Normal School. In 1845 they were made trustees of the State Cabinet of Natural History, and in 1856 were intrusted with what remained of the publication of the colonial history. Their secretary and the Secretary of State are commissioners to superintend the completion of the publication of the natural history of the State.

The Regents annually apportion \$40,000 of the income of the Literature Fund⁷ among academies, in proportion to the number of students pursuing the classics or the higher English branches;

¹ The authorship of this system has been generally ascribed to Alexander Hamilton, then in the Assembly. The original drafts of the act, still preserved, and the legislative journals of that period show that Ezra P. Houdredien, then in the Senate, was prominently concerned in its passage, if not the original mover. The bill was introduced in the Senate upon a petition from Clinton Academy, in Suffolk co.

² What these offices does not appear to have been settled. On several occasions an appointment to the bench of the Supreme Court has created a vacancy. Non-attendance at the meetings of the Board during one year has also been construed to vacate the seat of a Regent.

³ This power has never been exercised by the Legislature.

⁴ A similar power existed with regard to the Western College of Physicians and Surgeons at Fairfield, during its existence.

⁵ The honorary degree of M. D. had been conferred upon 120 persons previous to 1850. Resolutions were passed, Oct. 14, 1851, for conferring the degrees of Doctor of Philosophy and Doctor of Literature, but none have been granted.

⁶ This right has been exercised four times, viz.:—
Select School at Henrietta, Monroe co., July 2, 1827.
Lewiston High School Academy, Niagara co., April 16, 1828.
Fairfax Select School, Oneida co., Feb. 27, 1841.
Hunter Classical School, Greene co., June 23, 1851.
Lancasterian schools were incorporated by special acts, as follows:—

Albany, Lancaster School Soc., May 26, 1812.

Catskill, Lancaster School Soc., March 14, 1817. Repealed April 29, 1830.

Hudson, Lancaster Soc., April 15, 1817.

Schenectady, Lancaster School Soc., Nov. 12, 1816.

Poughkeepsie, Lancaster School Soc.

⁷ This fund originated with certain tracts of land reserved for literature, and was largely increased by four lotteries, granted April 3, 1801, by which \$100,000 were to be raised for the joint benefit of academies and common schools, but chiefly for the latter. In 1816, the avails of the Cranheim Mount on Tract, amounting to \$10,415, were given from the general fund to academies and common schools; and in 1819 the avails of other tracts, amounting to \$33,380, were also thus equitably divided. In 1827, \$150,000 was given to this fund by the Legislature; and on the 17th of April, 1838, the sum of \$28,000 was set apart annually, from the income of the U. S. Deposit Fund, for distribution among academies. The sum previously applied for this purpose was \$12,000 annually; and since 1834 a small part of the income, aside from this, has been applied, from time to time, to the purchase of apparatus.

This fund was managed by the Regents until, by act of Jan. 25, 1832, it was transferred to the Comptroller for investment,—the Legislature appropriating the proceeds annually, and the Regents designating the mode of apportionment.

The principal of the fund amounted, Sept. 30, 1858, to \$209,952.72, aside from the U. S. Deposit Fund, and was invested chiefly in stocks and Comptroller's bonds.

designate such academies as shall receive aid in establishing classes for instructing teachers of common schools; conduct exchanges of books and documents with other States and countries; maintain a system of meteorological observations at certain academies; and make full reports annually to the Legislature upon the condition of the colleges and academies of the State, the State Library, and the Cabinet of Natural History.

The officers of the Regents are, a chancellor, vice-chancellor, and secretary. They appoint a librarian and assistants to the State Library, and a curator to the State Cabinet. Six members form a quorum for the transaction of business. Their annual meeting is held on the first Thursday of January, in the Senate chamber, and is adjourned for short periods during the session of the Legislature. Most colleges report annually to the Regents, but are not uniformly subject to visitation, nor do they share in the income of the Literature Fund. They have generally been assisted by grants of land or money from the State.

Colleges and Academies are entrusted to boards of trustees, who possess the usual powers of corporations, and usually fill all vacancies occurring in their number.¹ They appoint professors and instructors, and remove them at pleasure, unless employed by special agreement. All degrees in colleges, whether honorary or in due course of study, are conferred by the trustees.

By an act passed April 12, 1853, the Regents were required to establish general rules under which colleges, universities, and academies might claim incorporation, subject to such limitations and restrictions as might be prescribed by law, or which, by the Regents, might be deemed proper; and institutions thus formed should possess, in addition to the powers thus vested in them, the general powers of a corporation, under the Revised Statutes of this State. The trustees of academies

¹ Genesee College, N. Y. Agricultural College, People's College, University of Buffalo, and University of the City of N. Y., are owned by shareholders, who elect trustees, or officers analogous, for stated terms. The principal state officers are *ex officio* trustees of Union College; and the Mayor and Recorder of cities are, in some cases, trustees of medical colleges. The principal facts concerning colleges and professional schools may be classed as follows:—

Theological Department Albion University.....	Hamilton	Baptist	1850	3	24	262	7,500
Theological Seminary of Auburn.....	Auburn	N. S. Presb.	April 14, 1820	4	50	80	6,000
Theological Seminary of Associate Reformed Church.....	Newburgh	A. R. Presb.	1830	1	11	143	3,200
Union Theological Seminary.....	New York	N. S. Presb.	1859	5	100	211	18,000

* Mostly upon authority of the American Almanac of 1859. Several of these possess liberal endowments, and defray the personal expenses of the students attending them. Tuition fees are, it is believed, in no case required from those receiving instruction. All the above are now in operation.

The following institutions have been projected, but have not been established, or have ceased to exist:—

NAME.	Date of Incorporation.	Remarks.
Albany College.....		Applications were made for a college in 1795, but refused.
Auburn University.....	Feb. 26, 1826	Provisions of charter not complied with.
Auburn Female University.....	Jan. 29, 1852	Never organized.
Brookport College.....	March 4, 1830	Never organized.
Cayuga College.....		Applications made Feb. 15, 1802. Refused.
Central Medical College and Syracuse Medical College.....	1843	(After a few courses of lectures, these institutions were abandoned.)
Clinton College, Fairfield.....	Mar. 25, 1816	Conditions not complied with.
College of Physicians and Surgeons of Western District, Fairfield.....	June 12, 1812	(Courses of lectures were held until 1840, the Regents continuing the degrees.)
Flushing College.....		Applications refused Feb. 20, 1845.
Ithaca College.....	April 10, 1822	Conditions not complied with.
Kingston College.....		Applications refused in 1779, 1804, and 1811.
Medical Department of Columbia College.....	1795	Discontinued in 1814.
N. Y. College of Dental Surgery, Syracuse.....	April 15, 1852	Discontinued in a short time.
Richmond College, Richmond co.....	April 18, 1838	Never organized.
St. Paul's College, College Point, Flushing, L. I.....	May 9, 1840	Closed in a short time.
Troy Medical College.....		Application refused, Feb. 16, 1824.
University of Western N. Y., Buffalo.....	April 8, 1836	Never organized.
Washington College, Richmond co.....	Jan. 27, 1827	Conditions not complied with.
Westminster College, Buffalo.....	April 17, 1851	Never organized.

Besides these, several institutions bearing the name of colleges have been established, but of which no general statistics have been obtained. Among them are the "Martin Luther College," at Buffalo, the "College of St. Francis Xavier," (R. C.) in New York; the "Franciscan College and Convent," inaugurated Oct. 4, 1858, at Albany; Cattaraugus co.; the "De Veaux College for Orphan and Destitute Children," incorporated April 15, 1856, and located at Suspension Bridge, Niagara co.; and the "St. Peter's College," (R. C.) in course of organization, at Troy. Most of these are unincorporated, and none possess the right of granting degrees, and they generally partake more of the character of academies than of colleges.

Tabular Summary of Colleges as reported Jan. 1859, for the year previous.

NAME.	No. of Professors and Teachers.	No. of Students during the year.	No. of Graduates during the year.	Value of college buildings and grounds.	Tuition and room rent received.	Subsidies or Prof. fees received.	Voluntary Prof. fees received.	Grants from Govt.	Value of Library.

* Charter repealed Feb. 19, 1841. Merged in Black River Literary and Religious Institute.

libraries, free to every person in the district, generally comprise books on scientific and literary subjects and affording means of information which would otherwise be unattainable.

The State Normal School was established in 1844, for the instruction and practice of teachers of common schools in the science of education and the art of teaching. It is supported by an annual appropriation from the literature fund, and is under the immediate charge of an executive committee appointed by the Regents of the University. Each county in the State is entitled to send twice as many pupils to the school as it sends members to the Assembly. The pupils receive tuition and the use of textbooks free, and also receive a small amount of mileage. The school is located at the corner of Howard and Lodge Streets, Albany.¹

The law makes provision for the establishment of **Union Free Schools** wherever the inhabitants may desire it, and for the formation of **Colored Schools** in districts where the presence of colored children is offensive to a majority of the people of the district.²

Previous to the Revolution no general system of education was established. All the schools that had been founded were of a private character or the result of special legislation. The necessity and importance of common schools had not been recognized, and education was principally confined to the wealthier classes. At the first meeting of the State Legislature, in 1787, Gov. Clinton called the attention of that body to the subject of education, and a law was passed providing for the appointment of the Regents of the University. In 1789 an act was passed appropriating certain portions of the public lands for gospel and school purposes. In 1793 the Regents in their report recommended the establishment of a general system of common schools; and in 1795 Gov. Clinton in his message to the Legislature strongly urged the same.³ On the 9th of April of that year a law was passed "for the purpose of encouraging and maintaining schools in the several cities and towns in this State, in which the children of the inhabitants of the State shall be instructed in the English language, or be taught English grammar, arithmetic, mathematics, and such other branches of knowledge as are most useful and necessary to complete a good English education." By this act the sum of £20,000, or \$50,000, was annually appropriated for 5 years for the support of these schools.⁴

The beneficial result of this system, imperfect as it was, became at once apparent; and from time to time measures were taken to increase the funds and to improve the system.⁵ The successive Governors nearly all strongly recommended the passage of new laws for the encouragement and support of schools;⁶ but nothing definite was accomplished until 1811, when 5 commissioners were

because they incidentally and indirectly betray the religious opinions of their authors.

* 3. Works, avowedly on other topics, which abound in direct and unreserved attacks on, or defence of the character of any religious sect, or those which hold up any religious body to contempt or execration by singling out or bringing together only the darker parts of its history or character, shall be excluded from the school libraries. In the selection of books for a district library, information and not mere amusement, is to be regarded as the primary object. Suitable provision should, however, be made for the intellectual wants of the young, by furnishing them with books which, without being merely juvenile in their character, may be level to their comprehension and sufficiently entertaining to excite and gratify a taste for reading. It is useless to buy books which are not read.—*Code of Public Inst.*, 1856, p. 320.

¹ Males are admitted at 18 and females at 16 years of age; and upon entering each one is required to sign a pledge that he intends to become a teacher. The number of graduates up to the close of the thirtieth year, 1856-57, was 993, and the number of pupils at that time was 225. The school for several years occupied the building near the head of State Street, now known as "Van Vechten Hall." In 1848 the present building was erected, at a cost of \$25,000. The experimental school taught by the graduating class numbers somewhat over 100 pupils. These pay tuition, and are elected or appointed by the Executive Committee.

² Under the Union Free School law a large number of schools have been established in different parts of the State. These schools are supported by a direct tax upon the property of the district, and the rate bill system is discarded. Free schools are established in all the cities and in most of the larger villages in the State by special laws. In most cases the free schools are graded, and comprise 3 or 4 distinct departments, furnishing instruction from the primary to a full academic course. Being entirely free and within the reach of all, they afford to every child, regardless of his position in life, an opportunity to secure a thorough English education. These free schools rank among the best public schools in the country; and they have thus far proved superior to those in which the rate bill system is retained.

³ In his message Governor Clinton uses the following language:—"While it is evident, that the general establishment and liberal endowment of academies are highly to be commended and are attended with the most beneficial consequences,

yet it cannot be denied that they are principally confined to the children of the opulent, and that a great portion of the community is excluded from their immediate advantages. The establishment of common schools throughout the State is happily calculated to remedy this inconvenience, and will therefore engage your early and decided consideration."

⁴ The principal features of the system inaugurated by this act were as follows:—

1. The public money was to be appropriated to the several counties in the proportion of their representation in the Legislature, and to the towns in proportion to the number of taxable inhabitants in each.

2. The Boards of Supervisors were required to raise by tax one-half as much as they received from the State.

3. Each town was to elect not less than 3 nor more than 7 commissioners, to take general charge of the schools, to examine teachers, and to apportion the public moneys in the several districts.

4. The people in each district were authorized to elect 2 or more trustees, to employ teachers, and to attend to the special interests of the school.

5. The public money was to be divided among the various districts in proportion to the number of days' instruction given in each.

6. Annual reports were to be made from the districts, towns, and counties.

The returns of 1798 show a total of 1,352 schools organized and 50,400 children taught.

⁵ An act was passed in 1799 authorizing the raising of \$100,000 by 4 lotteries, \$87,500 of which was appropriated for the support of common schools. In 1801 \$100,000 more was raised by lottery for school purposes, of which sum \$50,000 was devoted to common schools. In 1800 a bill appropriating \$50,000 to the support of common schools passed the Assembly, but was defeated in the Senate.

⁶ Gov. Jay, in 1800; Gov. Geo. Clinton, in 1802; Gov. Lewis, in 1804; and Gov. and Gov. Tompkins, in several successive years, urged upon the Legislature the necessity of revising the school laws and of making more liberal appropriations for the support of schools. Several bills were introduced into the Legislature; but they were all defeated in either the Senate or Assembly. In the mean time the school moneys gradually increased, and were funded by the Comptroller, laying the foundation of the present large school fund.

appointed to report a complete system for the organization and establishment of common schools. The commissioners made a report, accompanied by a draft of a bill, Feb. 14, 1812. The report was accepted by the Legislature, and the bill became a law.¹ Under this act, Gideon Hawley was appointed Superintendent, and continued in office from 1813 to 1821. The great success which this system met with, and the firm hold which it speedily attained, is mainly due to the administrative abilities and indefatigable exertions of Mr. Hawley. Several important changes were made in the law during his administration, all of which tended greatly to improve the schools. In 1821 the office of State Superintendent was abolished, and the superintendence of schools was made an appendage to the department of Secretary of State. Every successive year the Governor and Secretary of State urged upon the Legislature the necessity of systematizing the schools and of correcting obvious defects in the existing laws.² In 1835 a law was passed providing for the establishment of teachers' departments in 8 academies, 1 in each of the Senatorial Districts of the State.³ In 1838 the District Library system was established by law;⁴ and in 1841 the office of Deputy Superintendent was created.⁵ In 1843 the Board of Town Inspectors and School Commissioners was abolished and the office of Town Superintendent was substituted. May 7, 1844, an act was passed for the establishment of a State Normal School; and the school was opened at Albany on the 18th of Dec. following.⁶

On the 13th of Nov. 1847, the Legislature abolished the office of County Superintendent,—although the act was strongly resisted by many of the best friends of education in the State.⁷ During the same session Teachers' Institutes, which had existed for several years as voluntary associations, were legally established.⁸

On the 26th of March, 1849, an act was passed establishing free schools throughout the State. By the conditions of this act the rate bill system was abolished, and the whole expense of the schools beyond the State appropriation was made a tax upon the property of the district. This act was submitted to a vote of the people and was sustained by a majority of 3 to 1. In consequence of the inequality of the laws in regard to taxes, it was found that the Free School system did not work well in practice. Remonstrances poured in upon the next Legislature from all parts of the

¹ These commissioners, appointed by Gov. Tompkins, were Jedediah Peck, John Murray, jr., Samuel Russell, Roger Skinner, and Samuel Macomb. The principal features of this bill were,—

1. \$50,000 was annually to be divided among the counties of the State.

2. The Boards of Supervisors were obliged to raise an equal sum, to be distributed among the towns and districts.

3. Three commissioners were to be appointed in each town to superintend the schools and examine teachers.

4. Three trustees were to be elected in each district to engage teachers and otherwise provide for the local necessities of the school.

5. The whole system was to be placed under the charge of a State Superintendent.

² In 1812 the office of School Commissioner was created, and from 3 to 6 school inspectors were annually elected in each town, with the same powers and duties as school commissioners. Bills were introduced from time to time to place the whole system again under the charge of a distinctive officer, to provide for more efficient supervision of schools, to secure more competent teachers, and to establish a seminary for the instruction of teachers; but they all failed of receiving the necessary support. In 1828 the number of inspectors was reduced to 3. The laws that were passed corrected the most obvious abuses; but no great step was taken in advance until 1828.

³ Erasmus Hall Academy in Kings co., Montgomery Academy, Orange co., Kinderhook, St. Lawrence, Fairfield, Oxford, Canadagua, and Middlebury Academies, were the institutions in which this department was established.

⁴ On the 13th of April of this year, the foundations of the District School Library were laid by "an act authorizing the taxable inhabitants of the several school districts to impose a tax not exceeding \$20 for the first year and \$10 for each succeeding year, for the purchase of a district library, consisting of such books as they shall in their district meeting direct." This bill was ably advocated in the Senate by Col. Young of Saratoga, and the Hon. Levi Beardsley, of Otsego; and its friends were indebted for its success to the untiring exertions and extensive influence of James Wadsworth, of Genesee. By act of July 9, 1831, the law was modified, giving to supervisors of towns a discretionary power of levying a tax for library purposes.

In 1838 an act was passed requiring \$55,000 of the school moneys to be distributed among the school districts and expended by the trustees in the purchase of suitable books for district libraries, and the residue for the payment of the wages of duly qualified teachers. An equal amount was also required to be raised by taxation on the several counties and towns and applied to the same purposes.

The first definite proposition to establish district libraries was made by A. C. Flegg, in his report of 1830.

⁵ In 1830, John C. Spencer, superintendent of Schools, recommended a plan of county supervision, which was urged upon the department and the Legislature; and under the strong recommendation of the Superintendent, backed by the exertions of several of the most eminent friends of popular education,—among whom may be enumerated the Hon. Jabez D. Hammond, who as early as 1835 had given to the public the details of a plan essentially similar; the Rev. Dr. Whitehouse, of Rochester; Francis Dwight, Esq., editor of the *District School Journal*, then of Geneva; Professor Potter, of Union College; and James Wadsworth, Esq., of Genesee,—this project became, in 1841, by the nearly unanimous action of the Legislature, incorporated with our system of common schools.—*Rivall's Common School System*, p. 44.

⁶ The establishment of a Normal School for the professional education of teachers was strongly advocated by several superintendents, and had been a favorite measure of many distinguished friends of the cause for many years. The bill for the establishment of the Normal School was introduced March 22, 1844, by Hon. Calvin T. Hurlburt, of St. Lawrence. The bill, as passed, appropriated \$9,000 for the first year, and \$100,000 per year for five years, for the support of the school, under the direction of the State Superintendent and Regents of the University. The Superintendent of Schools, (Samuel Young,) Rev. Alonzo Potter, Rev. W. H. Campbell, Hon. Gideon Hawley, and Francis Dwight, Esq., were appointed an executive committee to attend to the interests of the school. The committee proceeded to organize the school by the appointment of David P. Page, Principal; Frederick L. Halsey, Teacher of Music; and J. B. Howard, Teacher of Drawing. Only 29 pupils were in attendance the first day; but the number speedily increased to 100, and since that time the school has been an uninterrupted success.

⁷ This office had become very unpopular in some sections of the State, in consequence of appointments having been frequently made by the Board of Supervisors upon political considerations merely, without the least regard to the qualifications of the appointees. Under the supervision of the County Superintendents the schools had progressed more rapidly than ever before, in the same period; and after the abolition of that office they steadily retrograded for several years.

⁸ The first Teachers' Institute in the State was held at Ithaca, Tompkins co., April 4, 1843, under the direction of James S. Denman, County Superintendent. Immediately afterward institutes were held in other counties; and in a few years they became a fixed institution. In 1847 they were recognized by the Legislature, and appropriations were made for their support.

State; and in 1850 the law was again submitted to a vote of the people and again sustained,—though by a decreased majority. In April, 1851, the Free School Act was repealed and the rate bill system was reinstated.¹

During the session of 1853 a law was passed allowing Union Free Schools to be established under certain conditions.² On the 30th of March, 1854, the office of Superintendent of Public Instruction was created,—thus substantially restoring the original system of general supervision.³ On the 13th of April, 1855, a law was passed allowing the Regents of the University to designate certain academies in the several counties in which a teachers' class might be taught free, the State allowing \$10 for each pupil so taught, to a number not exceeding 20 in each academy.

¹ At the time of the repeal of the Free School act a provision was made for raising \$800,000 annually by a State-tax, which in many of the rural districts practically made free schools. This tax was afterward made a ½ mill tax upon all the property of the State, producing a sum somewhat larger in the aggregate, and one increasing with the wealth and wants of the State.

² The law for the creation of Union Free Schools was a recognition of the free school principle and an important step in the progress of education.

³ While the School Department was a subordinate branch of the Department of State, it was impossible to give to it that character and efficiency necessary to the best interests and welfare of the schools. Since the change, every department of education has felt a new impulse and has been constantly improving. The administration of the schools has been much more perfect, the reports have been more regular and reliable, and the standard of teaching has materially advanced.

*School Statistics from the Report of the Superintendent of Public Instruction for 1859.**

* The above Table embraces returns from Jan. 1 to Oct. 1, 1859, except the last column, which is for the year 1857.

The office of School Commissioner was created by law April 12, 1856, and by the same act the office of Town Superintendent was abolished. This substantially reinstated the office of County Superintendent, the abolishment of which in 1847 was so disastrous to the interests of education.¹ On the 15th of March, 1856, an act was passed directing that the school laws should be digested and codified.² By act of April 12, 1858, the school year was changed so as to commence Oct. 1, and the annual district school meetings were directed to be held on the second Tuesday of Oct. annually.

Mercantile Colleges, especially adapted to instruction in opening, conducting, and closing business accounts of every kind, and an elucidation of the laws and customs that have been established concerning them, have within a few years been opened in most of our cities. They depend entirely upon individual enterprise for support, and instruction is usually given by oral illustrations, lectures, and examples.³

CHURCHES.

THE various church organizations in the State are independent of each other and are supported entirely by private contributions. The aggregate amount of church property in the State, and the amount annually raised for religious purposes, is immense. The following is a list of the different denominations, arranged in alphabetical order:—

The African Methodist Episcopal (Zion) Church was formed in 1820. The State of New York forms one conference, having in 1852 1,928 members.

The American Swedenborgian Association was formed in 1857, and has its office in New York City. A Printing and Publishing Society of this denomination, formed in 1850, collected in the year ending in 1858 \$3,108.25. It owns the stereotype plates of all the theological writings of Swedenborg.

The Anti Mission or Old School Baptist, in 1855, had in the State 18 churches and 1,101 members.

The Associate Presbyterian Church, in 1855, had 26 churches and 3,926 members, and **The Associate Reformed Presbyterian Church** 38 churches and 5,634 members. These two denominations united in May, 1858, under the name of **The United Presbyterians**.

The Baptist Church has in the United States 565 associations, 11,600 churches, 7,141 ordained ministers, 1,925 licentiates, and 923,198 members. Of these 43 associations, 812 churches, 738 ordained ministers, 90 licentiates, and 84,266 members are in New York. Its general Benevolent Associations are the "American Baptist Missionary Union," "American Baptist Publication Society," "American Baptist Historical Society," "American Baptist Home Mission Society," "American and Foreign Bible Society," "American Baptist Foreign Mission Society," "Southern Baptist Convention," 1845, and "Southern Baptist Publication Society," 1847. It has in this State 2 colleges and 2 theological seminaries, and has 5 periodicals devoted to its interests.⁴

¹ The School Commissioners have generally succeeded in awakening a new interest in their respective districts by personally visiting the schools and teachers, by encouraging the formation of teachers' associations and institutes, and by requiring a higher standard of qualification on the part of teachers. The schools under their supervision are steadily improving.

² The expense of this codification of the school laws was defrayed from the library fund.

³ These institutions are almost indispensable in every mercantile community. They afford instruction upon every department of business accounts, and incidentally upon methods of conducting business generally. Courses of lectures are usually given, in which are unfolded the laws relating to all business matters, and a vast amount of information is given relating to all departments of commercial transactions. The most extensive of these colleges are those of Bryant & Stratton, 7 in number, of which 3 are in this State,—1 at Buffalo, 1 at Albany, and 1 at New York.—Eastman's Colleges, at Rochester and Oswego, and Bassett's College, at Syracuse. There are various other institutions of the kind in the State, of good local repute, and

of great value to the villages and towns in which they are established.

⁴ *The Missionary Union* was formed in 1814; its receipts for 1857-58 were \$97,808.77. It has 19 missions, 80 missionaries, and over 300 churches. The headquarters of the Society are at Boston. *The Baptist Publication Society* was formed in 1824, and has its depository at Philadelphia. It supports 3364 preachers, and its receipts for 1857-58 were \$60,588.42. *The American Baptist Home Mission Society* was formed in 1842, and has its office in New York. It employs 90 missionaries and supplies about 250 stations. Its receipts for 1857-58 were \$52,093.23. *The American and Foreign Bible Society* was formed in 1825, has its office at New York. Its receipts for 1857-58 were \$57,049.98. Madison University, at Hamilton, and the University of Rochester are Baptist institutions; and attached to each is a theological seminary. The papers published by this denomination are,—*The New York Examiner*, *New York Chronicle*, *American Baptist*, (newspapers,) and the *Home Mission Record*, and *Mothers' Journal*, (magazines,) all published in New York City.

The Christian Connexion¹ divide the State into the New York Eastern, New York Central, New York Western, Northern, Black River, and Tioga Christian Conferences, each having distinct boundaries. They have in the U. S. and Canada over 1,500 ministers and 335 communicants. The census reports 85 churches in this State and 9,825 persons usually attending them.

The Congregational Churches of the Union number about 2,900, with 2,400 ministers and 240,000 members. Of these, 425 churches, 400 ministers, and 25,000 members are claimed within the State of New York.²

The Congregational Methodists³ were first composed of seceders from the Methodist Episcopal Church, in 1820. They have 3 churches in the State.

The Disciples of Christ have in the Union over 1,700 churches, 1,100 ministers, and 130,000 members.⁴ In New York they reported, in 1855, 28 churches and 2,015 members. The New York State Convention embraces, besides the State, parts of Connecticut and Vermont.

The Evangelical Lutheran Church embraces 35 synods in the U. S., of which 25 are connected with a general synod. It numbers 1,083 ministers and 1,920 congregations,⁵ and has of general societies the Parent Educational, Home Missionary, Foreign Missionary, Church Extension, Lutheran Historical, and Lutheran Publication, for the purposes indicated by their respective titles. It has within this State a Theological Seminary and Academy at Hartwick, Otsego county, and Martin Luther College, with a theological department, at Buffalo.

The Free Will Baptist Church in the U. S. has 28 yearly and 129 quarterly meetings, 1189 churches, 957 ordained and 164 licensed preachers, and 55,209 communicants.⁶ This State comprises 5 whole yearly meetings and parts of 2 others. As no attention is paid to State lines

The Fifty-First Annual Report of the Baptist Missionary Convention of the State of New York (Oct. 1855) gives the following statistics of this denomination in New York. The dates of organization are from the Baptist Almanac:—

ASSOCIATIONS.	Organized.	Churches.	Ordained Ministers.	Members.

¹ Otherwise named "Unitarian Baptists." They originated between 1793 and 1801, in secessions from Baptists, Methodists, and Presbyterians. Each church is independent in government; and full statistics are not accessible.
² The General Association of New York includes the Oneida, Black River, Essex, St. Lawrence, Western New York, Long

Island, New York, & Brooklyn, Ontario, Susquehanna, Albany, and Partian of Wyoming & Allegany Associations. The American Congregational Union has for one of its objects the aid of feeble churches. In the year ending in 1855 it expended \$6,154.05 for this purpose.

³ Otherwise known as "Stillewites."
⁴ Sometimes known as "Campbellites," from Rev. Alexander Campbell, the founder.—*Enc. & Hoyt's Quind. Reg.*, 1852, p. 253.
⁵ From the Lutheran Almanac, 1859. The synods embraced in New York are as follows:—

SYNODS.	When formed.	Ministers.	Congregations.
New York Ministerian.....	1785	59	55
Hartwick Synod.....	1830	25	33
Frankean Synod.....	1838	24	30
Synod of Buffalo.....	1839	16	16

Of these the last two are not connected with the General Synod.

These synods have no definite boundaries, but overlap each other, and in some instances extend into neighboring States.

The Kirchliches Informations und Historische Zeitblatt, of Buffalo, and Der Lutherische Herald, of New York, are the official organs of this denomination.

⁶ The Free Will Baptist Register for 1859 gives the following statistics. To those extending partly into neighboring States a star is prefixed; and those entirely out of the State are in Italics.

ANNUAL MEETINGS.	QUARTERLY MEETINGS.	Churches.	Ordained Preachers.	Licensed Preachers.	Communicants.

Central N. Y.....	{ Whitestown, Oswego, Rensselaer, *Otsego, Lake George.....	40	36	2	2,163

in these divisions, the exact numbers in the State cannot be determined from the reports. Its general institutions are 3 mission societies, an anti-slavery society, a biblical school and institution at New Hampton, N. H., and a seminary in this State.

The Friends or Quakers have, since 1827, been divided into 2 distinct branches, known as "Hicksite" and "Orthodox." The Hicksites have a general meeting for the United States and Canada, which is divided into 6 yearly, 33 quarterly, and 138 monthly meetings in the U. S., and 2 half-yearly and 6 monthly meetings in Canada. This State is embraced within the New York and the Genesee yearly meetings, the former of which extends into New Jersey and the latter into Canada. There are of the New York yearly meeting in this State 7 quarterly and 31 monthly meetings; of the Genesee yearly meeting 2 quarterly and 8 monthly meetings.

The Orthodox Friends divide the United States and Canada into 8 yearly, 1 half-yearly, 65 quarterly, and 222 monthly meetings. The New York yearly meeting comprises 1 half-yearly, 15 quarterly, and 43 monthly meetings, of which 9 entire and a part of 1 other quarterly and 28 monthly meetings are within the State, the remainder being in adjoining States and Canada.¹

The German Methodists² originated in the year 1800, and number about 20,000. They have in New York about 15 churches and 3,000 members.

The Mennonites have in the Union 300 churches and 36,280 members; of these, 6 churches and 442 members were reported in Western N. Y. in 1855.

The Methodist Episcopal Church in the United States was divided in 1844 into the Church North and the Church South, forming two independent organizations, differing only upon the question of slavery. The Church North embraces 49 annual conferences, 5,365 traveling, 769 superannuated, and 7,169 local preachers, and 820,514 members and probationers. The total number of preachers in both divisions is 20,644, and of members 1,476,291. This State embraces 5 entire and parts of 4 other conferences, which are subdivided into districts and circuits, each with definite boundaries. The Sunday School Union of the M. E. Church North reports 11,229 schools, 120,421 officers and teachers, 639,120 scholars, and 2,054,253 volumes in S. S. libraries. Its Tract Society has auxiliaries in each conference, and distributes large quantities of tracts and a small paper called "The Good News." Its Missionary Society supports 44 foreign missionaries and 76 helpers, and 302 missionaries and 214 helpers among the Indians and foreign populations. Its "Book Concern" carries on an amount of publication equaled by that of few private firms in the country, including books, papers, and magazines. This denomination has within the State 1 college and 10 seminaries, in connection with annual conferences.³

The Methodist Protestant Church was formed Nov. 1830. It divides the Union into conferences, stations, and circuits. The census reports as belonging to this denomination in this State, in 1855, 46 churches and 1,605 members.

The Presbyterian Church existed as one body until 1837, when it was divided into "Old School" and "New School," which form two distinct organizations, with similar professions of faith but different views of discipline. The Old School General Assembly of the U. S. report 33 synods, 159 presbyteries, 2,468 ministers, 3,324 churches, and 259,335 communicants. During

¹ The missionary societies under the charge of this society are the Free Will Baptist Foreign Mission Society, which supports 3 missionaries and their families at Arris-s, India, the Free Will Baptist Home Mission Society, and the Free Will Baptist Female Missionary Society. The Whitesboro Seminary, occupying the premises erected for the Oneida Institute, formerly a manual labor school, is under the auspices of this denomination.

² The names of quarterly meetings within the State, with the number of monthly meetings in each, according to *Fooler's Friends' Almanac* for 1858, are, in the New York yearly meeting, Westbury, 6; Purchase, 3; Nine Partners, 3; Stanford, 4; Easton, 5; Saratoga, 5; Duaneburgh, 5; in the Genesee yearly meeting, Farmington, 5; Scipio, 3.

³ The quarterly meetings within the yearly meeting, according to *Ward's Book of Meetings*, 1858, are as follows, with the date of establishment and number of monthly meetings in each:—Westbury, (1676;) 2; Purchase, (prior to 1745;) 3; Nine Partners, (1783;) 3; Stanford, (1800;) 3; Ferrisburgh, (partly in Vermont, 1809;) 1; in New York, 2; in Vermont, Farmington, (1810;) 5; Butterouts, (1812, under the name of Duaneburgh, changed in 1858;) 3; Saratoga, (1793, in 1795 changed to Easton, in 1815 divided into Saratoga and Easton, and in 1835 the latter was discontinued;) 3; Scipio, (1823;) 2; Le Ray, (1830;) 3. The first meeting within New York was established at Oyster Bay, by Richard Smith and others who were banished from Boston in 1656. The persecutions of that colony drove others to Rhode Island and Long Island, and meetings were established at Oyster Bay, Gravesend, Jamaica, Hempstead, Flushing, and other places, at an early period.

² Correctly known as Evangelical Association, or Abrights.

³ The following is a summary of the Conferences in New York. Those marked with a star are partly in other States.

CONFERENCE.	PREACHERS.				MEMBERS IN SOCIETY.		Benevol. contribu- tions, in dollars.		
	Conference first held.	Traveling.	Superannuated.	Local.	Members.	Probationers.

The districts within the State of New York forming the above Conferences are:—

New York—Poughkeepsie, Blinckbeck, Prattsville, Monticello, N. Y. German Mission, Rochester, and German Mission.

the year ending May, 1858, \$2,544,692 was raised for various religious and benevolent objects. Its general objects of promotion and extension are conducted by Boards; and it has various funds for special objects. The State of New York embraces the greater part of 3 synods.¹

The New School Presbyterian General Assembly of the United States reports 26 synods, 120 presbyteries, 1,612 ministers, 1,687 churches, and 143,510 communicants. During the year ending May, 1858, \$273,965.90 was raised for domestic and foreign missions, education, and publication. It has several committees for the promotion of its general objects, and has in this State 2 theological seminaries and several periodicals.²

The Primitive Methodists have 2 churches and about 500 members in this State. They have in the Union over 1,200 members.

The Protestant Episcopal Church embraces in the Union 31 dioceses and 4 missions, 1,995 parishes, 39 bishops, 1,979 clergymen, and 127,953 communicants. Total contributions for missionary and charitable purposes, \$1,265,642.96. Its general institutions are the "General Theological Seminary," New York, the "Domestic and Foreign Missionary Society," the "General Protestant Episcopal Sunday School Union and Church Book Society," the "Protestant Episcopal Historical Society," the "Western Church Extension Society," and the "Prot. E. Society for the Promotion of Evangelical Knowledge."

The Diocese of New York³ embraces all E. of the E. lines of Broome, Chenango, Madison, Oneida, Lewis, and Jefferson cos., and comprises 275 parishes, 321 clergymen, and 22,411 communicants.

Genesee—Buffalo, Niagara, Genesee, Wyoming, and Olean.
Oneida—Oneida, Chenango, Cortland, Auburn, and Cazenovia.
Troy—Troy, Albany, Saratoga, Plattsburgh, and 3 in Vt.
Black River—Rome, Syracuse, Oswego, Adams, Watertown, Ogdensburgh, and Potsdam.
Erie—Erieonia. The remainder in Ohio and Penn.
East Genesee—Geneva, Rochester, West Rochester, Bath, Corning, Elmira, and Lima.
New York East—New York, (E. district.) Long Island, and 2 in Conn.
Wyoming—Binghamton and Owego, in part; the remainder in Penn.

The offices of the several Missionary Societies and of the Book Concern are at 200 Mulberry St., N. Y. The periodicals issued from that establishment are the Christian Advocate and Journal, a weekly newspaper; the Quarterly Review, the National Magazine, and the Ladies' Repository, octavo magazines; and the Sunday School Advocate, the Good News, and the Missionary Advocate, small newspapers. The Northern Christian Advocate, at Auburn, is also an official publication of this denomination. Under the auspices of this Church are the Genesee College, at Lima, Livingston co.; the Amenia Seminary, Dutchess co.; Ashland Collegiate Institute, Greene co.; Charlotte Boarding Academy, Schoharie co.; Falley Seminary, Fulton, Oswego co.; Genesee Wesleyan Seminary, Lima, Livingston co.; Gouverneur Wesleyan Seminary, St. Lawrence co.; Jonesville Academy, Saratoga co.; New York Conference Seminary, Charlotteville, Schoharie co.; Oneida Conference Seminary, Cazenovia, Madison co.; and the Susquehanna Seminary, Binghamton, Broome co. Besides these, a large number of institutions, including several of the incorporated academies, are owned and patronized mainly by members of this denomination.

¹The names of presbyteries and statistics of churches of this branch in the State are reported in the Old School Presbyterian Almanac for 1859 as follows:—

SYNODS.	Organized.	Presbyteries.	Ministers.	Churches.	Communicants.
Albany.....	1803	Londonderry, Troy, Albany, Mohawk.....	99	64	7,756
Buffalo.....	1813	Ogdensburgh, Genesee R., Buffalo City, Michigan, Rochester City.....	60	62	5,028
New York....	1788	Indson, North River, Bedford, Long Island, New York, New York 2d, Canton, Nappo, Connecticut, Nassau, Western Africa.....	169	130	17,495

The Board of Domestic Missions has 610 missionaries and 900 churches and missionary stations. Receipts for the year ending March 1, 1858, \$105,277.52. Its offices are located in Philadelphia and Louisville.

The Board of Education is divided into ministerial education and education in schools, academies, colleges, and parochial

schools. Under the auspices of this denomination are 22 colleges, 60 academies, and 100 parochial schools. The receipts for 1857 were \$56,492.00. Its office is at Philadelphia.

The Board of Foreign Missions has 69 ministers, 30 male and 90 female assistant missionaries, and 23 native teachers. The receipts for 1857 were \$223,977.79. Its office is at the corner of Center and Reade Sts., N. Y.

The Board of Publication issues tracts, books, newspapers, and other periodicals in great numbers. Its receipts for 1857 were \$129,960.28. Its office is at Philadelphia.

²The following summary of the New School Presbyterian Church in New York is from the American Presbyterian Almanac for 1859, and other authentic sources:—

SYNODS.	Organized.	Presbyteries.	Ministers.	Churches.	Communicants.
Albany.....	1803	Champlain, Troy, Albany, Columbia, Catskill.....	84	70	8,257

The various societies under the care of this denomination are in charge of the Presbyterial Publication Committee, Foreign Mission Committee, Permanent Committee on Education, and Church Extension Committee. Young men preparing for the ministry are educated at the Union Theological Seminary, of New York City, and Auburn Theological Seminary, of Cayuga co. The newspapers of the denomination are the Evangelist, of New York, and the Genesee Evangelist, of Rochester.

³Its institutions are the "Society for the Promotion of Religion and Learning," the "Corporation for the Relief of Widows and Children of Clergymen," the "Prot. E. Tract Society," the "New York Bible and Common Prayer Book Society," the "New York Prot. E. City Mission Society," the "Prot. E. Christian Mission Society for Seamen in the City and Port of New York," the "Prot. E. Brotherhood of New York," the "Northern Missionary Convocation," the "Bible and Common Prayer Book Society of Albany and its Vicinity," the "Brotherhood of St. Barnabas," (Troy.) "Columbia College," "Trinity School," (N. Y.), "St. Luke's Hospital," (N. Y.), "St. Luke's Home for Indigent Christian Females," the "Church Charity Foundation," (Brooklyn,) and the "Pastoral Aid Society."

The Diocese of Western New York¹ embraces the remainder of the State, comprising 149 parishes, 129 clergymen, and 10,551 communicants.

The Reformed Methodists originated in 1814, in Vt. Their church government is Congregational. They report in the State 8 churches and about 500 members.

The Reformed Presbyterians, or Covenanters, is derived from the church of the same name in Scotland. In 1855 it numbered in the State 15 churches and 2,274 members.

The Reformed Protestant Dutch Church of the State belongs to the General Synod of the Ref. Prot. Dutch of N. A. It is subdivided into the particular Synods of New York and Albany, the former embracing 16 and the latter 14 classes, of which 19 are entirely within the State and 1 partly in New Jersey. In 1855 it reported 364 churches, 348 ministers, 130,120 persons attending congregations, and 38,927 communicants. Of these, 260 churches, 259 ministers, 21,027 families, 97,553 total of congregations, and 31,208 communicants, were in this State.

The Roman Catholic Church divides the Union into 7 Provinces, 43 Dioceses, and 3 Vicarates Apostolic. The Province of New York comprises the New England States, New York and New Jersey, and the dioceses of New York, Portland, Burlington, Boston, Hartford, Brooklyn, Albany, Buffalo, and Newark. Four of these are within this State. There are 3 theological seminaries, 1 preparatory seminary, 2 colleges, and a large number of benevolent and educational institutions belonging to this denomination within the State, and 9 periodicals devoted to its interests.²

The Seventh Day Baptists have in the United States 67 churches, 70 ordained ministers, and 7,250 members. Of these 36 churches are in New York. In 1835 the denomination was divided into associations, of which the Eastern, Central, and Western are embraced wholly or in part in this State. De Ruyter Institute and the Alfred Academy are under the patronage of this denomination.

Shakers, or the "United Society of Believers," otherwise called the "Millennial Church," numbers in the Union 18 communities and about 6,000 members. They live in "families," and in New York they are principally located at New Lebanon, Watervliet, and Groveland.

The Unitarians number in the Union 293 clergyman and 250 societies, mostly in Massachusetts. They have within this State 10 societies. Their only periodical within the State is the "Christian Inquirer," a weekly newspaper in New York City, published under the auspices of the "Unitarian Association of the State of New York."³

The Universalists United States Convention is composed of clerical and lay delegates from each State and Territorial Convention, and meets on the third Tuesday of Sept. annually.⁴ The denomination has a Historical Society, composed of all preachers and laymen in good standing who sign the constitution. It also has a General Reform Association, that meets in Boston on the

¹ Its institutions are Hobart Free College, at Geneva; and De Veaux College, at Suspension Bridge. There are besides several incorporated and private academies supported by members of this denomination.—*Church Almanac* for 1859, pp. 32, 47.

The Diocese of New York, formed in 1808, comprises Delaware, Dutchess, New York, Orange, Putnam, Richmond, Rockland, Sullivan, Ulster, and Westchester counties. *The Diocese of Brooklyn*, formed in 1833, comprises Kings, Queens, and Suffolk counties. *The Diocese of Albany*, formed in 1847, comprises the remainder of the State E. of the west lines of Cayuga, Tompkins, and Tioga counties. *The Diocese of Buffalo*, formed in 1847, comprises the counties W. of the west lines of Cayuga, Tompkins, and Tioga.

The distinctive schools under the patronage of this denomination are the St. John's College, at Fortham, Westchester Co.; College of St. Francis Xavier, New York City; St. Joseph's Theological Seminary, Fortham; Ecclesiastical Seminary, Buffalo; Franciscan Convent, Allegany; and Preparatory Seminary of Our Lady of the Angels, Niagara.

The Catholic papers in the State are The New York Freeman's Journal and Catholic Register, The New York Tablet, The Pilot, (N. Y. and Boston,) Katholische Kirchen Zeitung, weekly, of N. Y.; The Buffalo Sentinel, weekly; Catholic Institute Magazine, Newburgh; Brownson's Quarterly Review, N. Y.; American Catholic Almanac and Clergy List; and the Six Cent Catholic Almanac and Laidy's Directory, of N. Y.

³ *Year Book of the Eastern Cong. Churches*, 1857.

⁴ *The New York State Convention* embraces the Central, Niagara, Cayuga, Buffalo, Mohawk River, Ontario, Genesee, Black River, St. Lawrence, Otsego, Allegany, Steuben, Chautauque, Chenango, Hudson River, and New York Associations, and contains 220 societies, 194 church edifices, and employs 107 preachers. It has a State Educational Society, with \$40,000 subscribed, and has a State Educational Society, with \$40,000 subscribed, and has in charge the Theological School in Canton; and has in charge the Clinton Liberal Institute. The Universalist Paper and Book Establishment has assets amounting to \$13,700, and unpledged stock to the amount of \$1,160. The profits of the concern are applied to the purchase of the shares, which will thus become the property of the State Convention. It has a relief fund for aged and disabled preachers. The Young Men's Christian Union, formed Jan. 1856, and the

last Tuesday in May. This denomination has organizations in 32 States and Territories, in 19 of which State Conventions are held. It has 4 educational, 9 missionary, 1 tract, and 4 Sunday school associations, 1 relief fund, and 1 book and newspaper establishment,—all of which are of a State character. It has 85 associations, 1,334 churches or societies, 913 church edifices, 655 preachers, 18 periodicals, and 9 institutions of learning.

The Wesleyan Methodists.¹ This denomination in the United States was formed by seceders from the M. E. Church, May, 1843.

Besides these, there are churches in the State known as *Bethels, Evangelical, German Evangelical Reformed, Jewish, Calvinistic Methodists, German Methodists, Moravians, French Evangelical Presbyterian, Protestant Community of Inspiration, Second Advent, True Dutch, Free, and Union*, numbering in the aggregate a large number of church edifices and communicants.²

RELIGIOUS, LITERARY, AND BENEVOLENT SOCIETIES.

SOCIETIES of a religious, humane, and benevolent character began to be formed in considerable numbers about 1822-25. The objects of these societies enlisted the co-operation of members of the different religious denominations and of other philanthropic persons, and annual meetings were held in New York for the several objects.

The time of meeting has been usually in the second week in May, and the appointments were so made that the same persons could attend several of them in succession. These societies have become numerous, and "Anniversary week" thus becomes a season of interest to thousands. The assembling of so large a number of persons from distant sections of the Union has led reformers of every degree to appoint the anniversary meetings of their societies at the same time and place; and there is scarcely a society for the promotion of religion, morality, charity, or civil and social reform that is not thus annually brought to public notice, its operations exhibited, and its claims urged.

The societies exclusively under the control of a single denomination are noticed under the religious sects.

The principal societies of a general character are as follows:—

The American Bible Society, formed by a convention of 60 persons, mostly clergymen, May 8, 1809, has for its object the publication and distribution of the Bible and parts

N. Y. City Missionary Society are connected with this denomination. Its periodicals are the Christian Ambassador, at Auburn and New York, and a monthly periodical by the female department of the Clinton Liberal Institute.

The church of this name in the U. S. differs from the others in rejecting the classification of the ministry as bishops, elders, and deacons. Their official organ is the True Wesleyan.

¹The M. E. Church in England and Canada is thus known.

²The following table shows the general statistics of churches in the several counties:—

thereof without note or comment.¹ Auxiliary to the American Bible Society are numerous county and local societies, through which the greater part of the funds are raised.²

The American Tract Society was instituted in 1825, by the several evangelical denominations, for the purpose of disseminating tracts and books upon moral and religious subjects.³ Several of the religious denominations have tract societies of their own.

The American Board of Commissioners for Foreign Missions was formed in 1809, for the purpose of supporting missions in foreign lands. Its central office is in Boston; but it has auxiliary societies throughout this State. It is chiefly supported by the Congregational and New School Presbyterian societies.⁴

¹ The first society within the State for the gratuitous distribution of the Scriptures was the N. Y. Bible and Common Prayer Book Society, formed in 1809. A large number of co. societies was formed within the next five years. The present society, formed in 1816, has gradually increased in wealth and influence, until its operations have extended to almost every section of the globe. It has a Bible house in New York,—one of the most extensive publishing houses in the world. Its books are gratuitously distributed, or sold at cost; and the total number of volumes issued up to May, 1858, was 12,804,014. These are produced in great varieties of style and in upward of forty different languages. The society has also published the Bible in English with raised characters for the blind.

The Baptist and Protestant Episcopal denominations have separate societies for publishing the Scriptures, although many members belonging to both of these co-operate with the American Bible Society.

² The following table gives the names of these societies, the date of their organization, and the amount of their donations and remittances up to May, 1858:—

NAME.	Date.	Donations.	Remittances for Bibles.
Albany Co.	May, 1816	\$19,621.00	\$16,385.26

³ This society has a large property vested in a publishing house and grounds, corner of Nassau and Spruce Streets, New York, and in the stock, machinery, and materials used in the manufacture of books and tracts. Its fiscal affairs are managed by a finance committee. It has 31 auxiliaries in the State of New York. The receipts up to May, 1858, were \$5,556,711.05,—about three-fifths of which were derived from sales, and the remainder from donations. Previous to May, 1858, this society had circulated 13,098,012 volumes, 188,371,408 publications, 4,753,741,573 pages; including 149,761 volumes (9,831 sets) of the Evangelical Family Library, 94,026 volumes (2,089 sets) of the Christian Library, 48,628 volumes (1,990 sets) of the Religious or Pastor's Library, 39,323 volumes (4,557 sets) of the Youth's Library, and 160,921 volumes (20,044 sets) of the Youth's Scripture Biography. The society publishes an Almanac, the American Messenger, (in English and German,) and Child's Paper, in large editions; and issues books and tracts in the English, German, French, Spanish, Portuguese, Italian, Welsh, Dutch, Danish, Swedish, and Hungarian languages. It operates through branch and auxiliary societies, general agents and superintendents, and paid and volunteer colporteurs. The American Tract Society of Boston, which formerly co-operated with this, is now a distinct organization.

Societies of kindred character were formed in the State previous to this,—the more important of which was the New York Religious Tract Society, formed in 1812, with auxiliaries in various parts of the country.

⁴ This society has established 27 missions, 121 stations, and 101 out stations in Africa, Greece, Western and Southern Asia, China, Sandwich Islands, Micronesia, and among the North American Indian Tribes. It employs 373 missionaries and assistants, and 524 native pastors and assistants, has 8 printing presses, and up to 1858 had issued 1,080,481,083 pages of tracts and religious books. These missions numbered 318 churches, and 27,749 members; and the educational department embraced

The American Home Missionary Society was formed May 12, 1826, for the purpose of supporting the ministry in feeble and destitute Presb. and Cong. churches in the U. S.¹

The American Sunday School Union was formed in 1824, for the purpose of encouraging the establishment of Sunday schools and of supplying them with books. Its central office is at Philadelphia. The New York Sunday School Union, auxiliary to this, was established in 1816, and has numerous local subordinate societies in different parts of the State.²

The American Seamen's Friend Society was formed in 1828, and endeavors to carry out the intentions expressed in its title by distributing Bibles and tracts, supporting the ministry, and otherwise promoting the moral welfare of seamen.³

The American Bethel Society was instituted in 1836, for the purpose of opening chapels for boatmen and mariners, distributing tracts, and extending other means for their moral improvement. It established a magazine named the "Bethel Flag;" and has auxiliaries in many places on the lakes, rivers, and canals.

The American and Foreign Christian Union was formed in 1849, for the special object of counteracting the influence of the Romish and other churches opposed to the class usually denominated "evangelical."⁴

The Central American Education Society was formed for the purpose of assisting young men preparing for the ministry. In 1858 the society aided 111 students.

The American Colonization Society was formed at Washington, Jan. 1817, for the colonization of free colored persons in Africa. **The New York State Colonization Society** was formed at Albany, April 9, 1829, and has had numerous auxiliaries in the State.⁵

The National Compensating Emancipation Society, formed in 1857, has for its object the purchasing of slaves for the purpose of giving them freedom.

The American Anti Slavery Society was organized Dec. 4, 1833. Auxiliary societies were formed throughout the State.⁶

The American Missionary Association was formed Sept. 1846, as a Home and Foreign Missionary Society. Business office in N. Y. City. Receipts for first 12 years of its existence, \$421,001.98. Present and monthly income, \$3,000 to \$5,000. It has a slaves' Bible fund. The assoc. publish *The American Missionary* (paper) and *American Missionary Magazine*, both monthly.

Young Men's Christian Associations have been formed in most of the cities and

6 seminaries, 17 other boarding schools, 619 free schools, (of which 312 were supported by the Hawaiian Government,) and 17,029 pupils. The receipts in the year ending July 31, 1858, were \$334,918.48, the principal part of which was derived from donations.—*Party-Ninth Report A. R. C. F. M.*, 1858.

This society was formed by the union of two societies previously formed by the Presbyterian and Reformed Protestant Dutch Churches. It is supported by the Congregationalists and New School Presbyterians, and to some extent by the Reformed Protestant Dutch, Lutheran, and German Reformed Churches. In 1858, 1,012 persons were connected with this society or its agencies and auxiliaries, of which 133 are within this State. The number of congregations and stations fully or partially supplied is 2,034; Sabbath school scholars, 65,599; contributions to benevolent objects, \$24,272.28. The receipts in 12 months were \$175,971.37; the payments in the same time were \$190,735.70. Total receipts in 32 years, \$3,456,982; total years of labor, 18,871; total additions to churches, 159,275.

There is a central and a western agency in this State.—the office of the former of which is at Utica and of the latter at Geneva. The number of missionaries aided within the year was 123. Total contributions, \$39,347.96.

This movement was supported by most of the evangelized denominations; but several of them have since established Sunday school organizations among themselves. The American Sunday School Union had, in 1858, expended about \$2,500,000 in books and \$1,000,000 more in organizing Sunday schools. Its receipts for the last year were \$5,076,14; and it had formed 1,623 new schools, with 57,787 pupils and 9,994 teachers. The New York Sunday School Union had, in 1858, 210 schools, reporting 69,000 pupils, 4,825 teachers, 82,294 books in libraries, and \$13,089 received in contributions. Sunday schools in some form are supported by nearly every religious denomination, and are chiefly for Bible and instruction. A State Sunday School Teachers' Convention, formed in 1855, meets annually. Its third report, made Oct. 1858, gave a total in the State of 1,895 schools, 22,263 officers and teachers, and 212,312 pupils.

This society has 15 stations in various parts of the world, and grants aid to various Bethel operations not connected with it. The receipts for the year ending in 1858 were \$25,256.29; and the total expenses in the seamen's cause about \$100,000; 2,257 mariners had been received at the Sailors' Home in New York, and the whole number received into that institution from its establishment was 32,353.

⁴The association has 61 home laborers; and its receipts in the year ending in 1858 were \$76,603.22. Its expenses in the same time were \$79,604.33. It has agents, and supports chapels in several foreign countries.

⁵The slave trade was abolished in 1807, and after Jan. 1, 1808, the cargoes of captured slaves were to be sold for the benefit of the State where they might land. By an act of March 3, 1819, the General Government appropriated \$100,000 for the restoration of a large number of Africans to their native country. By the co-operation of the Government with this Society a purchase was made in Dec. 1821, in the neighborhood of Cape Montserado, on the W. coast of Africa, from which has grown the present Republic of Liberia, under the special patronage of this society. Formal possession was taken April 28, 1822.

Several of the subordinate State societies have been merged in anti-slavery and other more radical societies for the termination of slavery. In the year ending in 1858 the receipts of the New York Colonization Society were \$15,624.02.

⁶The expenses of the society for the year ending in 1858 were \$17,052, including those of the Anti Slavery Standard, its principal organ. Receipts, \$15,200 from the paper and donations, and \$17,355 by auxiliaries.

A New York State Anti Slavery Society, with numerous auxiliaries, was formed about 1834-36, and its friends soon organized themselves into a political party. The highest State vote of this party was in 1814, when it amounted, on the Governor's ticket, to 15,126. Slavery existed under the Dutch, and was continued through the English period of our colonial history. An act was passed March 31, 1817, declaring that every child born of a slave in this State after July 4, 1790, should be free at the age of 28 if a male, or at 25 if a female. Every child born after the passage of the act was to become free at the age of 21, and men-servants were ordered for the education of children held in service. The importation of slaves was prohibited. The first emancipation under this law, therefore, took effect July 5, 1827, as the law fixed the period as *after* instead of *upon* the 4th of July, as was perhaps intended. The 5th of July has sometimes been celebrated as their anniversary of independence; and hence arises the slang expression of "Fourth of July one-day after." Those born before the above date remained slaves till their death, and the census of 1855 reported one such as living in the State. The number of slaves in New York at different periods has been as follows:—

1790.....	21,321	1810.....	15,017	1820.....	10,016	1840.....	4
1800.....	20,613	1814.....	11,480	1830.....	75	1850.....	—

large villages in the United States and British Provinces. They form a general confederation, the State of New York forming the fourth district. These associations embrace within their objects a library, reading room, lectures and prayer meetings.¹

The Young Men's Christian Union of New York is supported by the Unitarian and Universalist denominations principally.

Young Men's Associations for mutual improvement have been formed in various parts of the State and under various names. The plan of organization is essentially alike: and it usually includes a library, reading room, cabinet, lecture course, and debating club. Most of these associations have been organized by special acts, and their affairs are managed by executive committees chosen annually by the members. They can hold a limited amount of property for the special objects of their organization.²

In most of the large villages, associations have been formed for the support of lectures at stated intervals in the winter months. They are generally of a temporary character, are re-organized every season or are attached to academies or other existing institutions.

The New York State Temperance Society was formed April 2, 1829. Its objects were to suppress intemperance and limit the traffic in intoxicating liquors. It received the support of a large number of the best and most philanthropic citizens, and its influence spread rapidly throughout the State.³ Since the formation of the first society, efforts to suppress intemperance have been made upon an extended scale, and the strong arm of the law has been invoked to prohibit the traffic in alcoholic liquors.

Fraternity of Free and Accepted Masons. "The Ancient and Honorable Fraternity of Free and Accepted Masons" of the State of New York is under the government of a Grand Lodge, composed of its Grand Officers and the representatives (the Master and Wardens) of every lodge in the jurisdiction. As at present constituted, the Grand Lodge dates from 1785, when Chancellor Robert R. Livingston was elected Grand Master, and continued in office till 1801.⁴ In 1859 there are 430 chartered lodges in the State, (numbered to 474,) with about 33,000 members, numbering among them a very respectable class in all the walks of life. There is at least one lodge in every county in the State, (except Hamilton;) 93 of the lodges are in the city of New York: and a lodge is located in every considerable town and village. The annual receipts of the

¹ In July, 1858, associations of this kind were in active operation in Albany, *Albion*, Black Rock, *Brooklyn*, *Buffalo*, Catskill, Flushing, Hudson, Jamestown, New York, *Oswego*, Poughkeepsie, Rondout, Saratoga Springs, *Stuyveson*, Troy, *Utica*, and Watford. Those in italics belonged to the confederation.

² The first organization of this kind in the State was the Albany Young Men's Association, formed Dec. 13, 1823, and incorp. March 12, 1835. The following is a list of these associations in the State formed under special acts:—

NAME AND LOCATION.	Date of incorporation.	Remarks.
Albany, Albany co.....	March 12, 1835	Fully organized. Library 7,000 vols.
Buffalo, Erie co.....	March 3, 1843	Library in 1855, 7,500 vols.
" " (German)	May 12, 1846	Library in 1855, 1,800 vols.
Elmira, Chemung co.....	April 11, 1842	
Fulton, Oswego co.....	May 13, 1846	
Geneva, Ontario co.....	April 17, 1839	
Fort Byron, Cayuga co.	April 19, 1844	
Sackett Harbor, Jefferson co.....	March 2, 1843	Closed.
Saratoga Springs, Saratoga co.....	May 14, 1840	
Franklin Institute, Syracuse, Onondaga co.....	Dec. 1849	{ Library in 1859, about 3,000 vols.
Schenectady, Schenectady co.....	March 9, 1839	
Troy, Rensselaer co.....	April 10, 1835	Fully organized.
Utica, Oneida co.....	March 25, 1837	Closed.
Watertown Jeffersons.	April 17, 1841	Burned out in 1849.

³ The fourth report of the State Society, in 1838, gave 1,533 societies and 231,074 members. Its principal organ, the Temperance Recorder, was begun March 6, 1832, at Albany, and issued many years. It also published almanacs, tracts, and circulars to a large extent. The American Society for the Promotion of Temperance, formed in 1827, was in 1836 absorbed by the "American Temperance Union." The latter, in the year ending in 1858, received \$1,987,200. Its principal organ is the Journal of the American Temperance Union, at New York. Both this

and the State Society are still in operation. About 1841-45 the "Washingtonian" temperance movement, originating among reformed inebriates, spread over the State, and several thousand independent societies were formed under it,—most of which, however, died out with the enthusiasm under which they were created. The secret orders of "Ichabites" and "Sons of Temperance" originated in New York about 1842 and subsequently those of "Cadets of Temperance," "Daughters of Temperance," "Good Samaritans," "Daughters of Samaria," "Knights Templar," "Social Circles," and other associations of a similar class were formed for the avowed purpose of promoting temperance reform. Numerous lodges or encampments were formed, and these societies at one time embraced large numbers of members. Several of them have been given up entirely; and it is believed none of them are increasing. They required a form of initiation and pledge of secrecy, had fixed dues payable at regular intervals, provided money to assist the sick and bury the dead, and gave certificates of membership, which, with passwords and other tokens of recognition, might enable a person to claim assistance among strangers belonging to the order.

The license question was submitted to the popular vote May 5, 1846, with the result of 111,854 *for*, and 177,683 *against*, license. The operation of the law was deemed by many to be unequal; and its effect upon the temperance cause was unquestionably adverse. In 1847 the majorities *for* license were large in most of the towns. The "Maine Law," or prohibition movement, began in 1831, and was urged by its friends with great force during several sessions of the Legislature. A prohibitory law was passed, but was declared unconstitutional by the Court of Appeals. The present law regulating the sale of intoxicating liquors, passed April 16, 1857, provides a Board of Excise Commissioners in each county for granting licenses and prosecuting violations of the law.

⁴ At the close of his term there were 94 lodges in the State of which the oldest was St. John's, No. 1, (yet in active existence) established in the city of New York in 1757. Gen. Jacob Morton was Grand Master from 1801 to 1806, De Witt Clinton from 1806 to 1820, and Daniel D. Tompkins from 1820 to 1822, when the Grand Lodge became divided. In 1826, at the commencement of the Anti-Masonic excitement, (see Genesee co.) there were about 500 lodges in the State, (numbered to 507,) with about 22,000 members. In 1836 the number of lodges had been reduced below 75, with a corresponding membership,—say 4,000.

Grand Lodge are about \$16,000; and during the year ending in June, 1859, the amount expended for charitable relief by the Grand Lodge and its immediate agents was about \$3,000; and probably three times more than that sum was expended for the same purposes by lodges and individual Masons. There is in the Hall and Asylum Fund, raised for charitable and educational purposes, about \$25,000, controlled by trustees chosen by the Grand Lodge, (it not being incorporated;) and this sum is constantly being increased from various sources,—a portion of it arising from the stated revenues of the Grand Lodge. The fraternity are now all united in one body, under the jurisdiction of the Grand Lodge and its subordinates, and are in a sound and flourishing condition. The office of the Grand Secretary and place of business of the fraternity is in Odd Fellows Hall, corner of Grand and Center Sts., New York. The Grand Lodge is in correspondence and direct communication with all the Grand Lodges and Masonic fraternity throughout the world.¹

Independent Order of Odd Fellows. This order was introduced into the United States from Manchester, England; and the first regular lodge was opened at Baltimore, in 1819. The Grand Lodge of the U. S. includes 42 subordinate Grand Lodges in the States and Territories, Canada, and the Sandwich Islands. There are 2 Grand Lodges and 623 subordinate lodges in this State.²

Sons of Malta. This order embraced in this State, on the 1st of July, 1859, the Grand Lodge of the State and 8 subordinate lodges, with an aggregate membership of 12,680.

MEDICAL SOCIETIES.

THE formation of County Medical Societies was authorized by an act passed April 4, 1806. They were empowered to grant licenses to practice medicine in the State and to collect of the members a sum not exceeding \$3 annually. Delegates sent from each co. society, in number equal to the representation of the co. in Assembly, were to constitute a State Medical Society, which had the power of granting diplomas to practice medicine and to decide upon cases appealed from the co. societies. Although local societies were formed under this act in most of the counties then existing, several of them have ceased to exist; and there are at present but about 40 county societies that are represented by delegates. The State Society was formed Feb. 5, 1807, and is

¹ The stated festivals of the fraternity are on the 24th of June and 27th of December, usually styled St. John's days. The officers of the Grand Lodge and of the subordinates are elected annually; and the time and place for the "Annual Communication" of the Grand Lodge is on the first Tuesday of June, in the city of New York.

The elective Grand Officers of the Fraternity are Grand Master, Deputy Grand Master, Senior Grand Warden, Junior Grand Warden, Grand Treasurer, Grand Secretary, and 5 Grand Chaplains.

² *Statistics of the Odd Fellows for the year ending Jan. 30, 1858.*

¹The first act regulating the practice of physic and surgery in New York was passed June 10, 1790. It was amended in 1792 and 1797, and under the latter the judges of State courts and courts of Common Pleas and Masters in Chancery were, upon proof of two years' study of medicine, authorized to license persons to practice as physicians. By the act of 1806, medical societies might be formed in each co. by securing five or more members; and where there were less than five physicians in a co. they might unite with the society of a neighboring co.

The restrictions upon practice without a diploma were finally abolished in 1844; and the law now makes no distinction between the different classes of practitioners. Those assuming to act as physicians become responsible for their practice, and if not licensed by a county or the State Society or regularly graduated

at a medical school, can collect pay according to the time employed, but they cannot collect the specific fees, implying professional skill, which are recognized by the established usages of the profession.

²The number of homeopathic practitioners in the State is about 600, of whom 150 are in New York and Brooklyn. The Central Bond St. and Northern Homeopathic Dispensaries in New York, the Homeopathic Dispensary of Brooklyn, the Hahnemann Academy of Medicine of New York, and the Homeopathic Medical Society of Northern N. Y., are sustained by this class of physicians, and the North American Homeopathic Journal, (quarterly,) the Homeopathic Review, (mo.) and the Homeopathic, (semi-mo.) all published at New York, are devoted to their interests.

Population, Classified by Color, Political Relation, Nativity, &c., according to the State Census of 1855.

Total.....		1,947	1,987	735	21	997	464	10	350	13,867½	2,089	1,094	679	236	2,895

* The total number reported was from neglect of the marsh, too small. In May, 1855, 1,388 were returned as entitled to share in annuities.

† The returns of civil condition are too indefinite to be relied on.

• The larger part of this village is in Canada.

‡ In the returns of the last State census 235 Indians (102 males and 133 females) not residing on reservations were enumerated and reported with the population of the towns in which they live. These, added to the numbers in the above table, make 2,049 males and 2,120 females, or a total of 4,169 Indians residing in the State in 1855.

Persons engaged in the various Professions, Trades, and Occupations

COUNTIES.	Blacksmiths.	Boot and Shoe Makers.	Wagon Makers and Trainers.	Carpenters and Joiners.	Printers, Copyists, and Accountants.	Clergymen.	Coach and Wagon Makers and Wheelwrights.	Coppers.	Dress Makers, Sewers, and Seamstresses.	Farmers.	Grocers.	Hood and Bonnet Makers.	Laborers.

ALBANY COUNTY.

THIS was an original county; formed Nov. 1, 1683, and confirmed Oct. 1, 1691.¹

Tryon and Charlotte (now Montgomery and Washington) counties were taken off in 1772, Columbia in 1786, Rensselaer and Saratoga in 1791, a part of Schoharie in 1795, a part of Greene in 1800, and Schenectady in 1809. The Manor of Rensselaerwyck was erected into a district March 24, 1772, and subdivided into east and west districts soon after the Revolution. The county lies on the west bank of Hudson River, about 150 miles from its mouth, and contains an area of 544 square miles. Its surface is undulating and hilly, and it has a general inclination toward the southeast. A narrow intervalle extends along

the course of the river, bounded by a series of steep bluffs from 100 to 180 feet high, from the summits of which an undulating and slightly ascending plateau stretches westward to the foot of the Helderberg² Hills, where it reaches an elevation of about 400 feet above tide. This range of hills rises from 400 to 800 feet above the plateau, and 800 to 1200 feet above tide. Their declivities are very steep, and sometimes precipitous, on the east, but more gradually sloping upon the west. Several other ranges of hills, inferior to them in height, extend in a general northerly and southerly direction through portions of the county. The highest point is the summit of the Helderbergs, in the northeast corner of the town of Bern, and is 1200 feet above tide. All these ranges of highlands may be considered as outlying spurs of the Catskills, which, in turn, are but a northerly continuation of the Alleghany Mountains, and a part of the great Appalachian system.

The geological formations of this county belong to the Upper Silurian system, and comprise nearly all the rocks of the "New York System," from the Utica slate to the corniferous limestone. Above the rocks, in the eastern part of the county, are thick deposits of drift, consisting of sand, gravel, and clay; and along the river intervalles are rich alluvial deposits. The lowest rock, cropping out on the Hudson, Normans Kill, and Mohawk, is the Utica slate. Next above is the graywacke and shales of the Hudson River group, appearing in the valleys of all the streams that flow into the Hudson, and apparently underlying the entire eastern part of the county. This stone is quarried for building stone and flagging.³ The red rocks that form the base of the Helderbergs evidently belong to the Medina sandstone series, though they have sometimes been confounded with the red shales of the Onondaga salt group. Next above, forming the first terrace of the mountains, is the water-lime group, from 50 to 200 feet in thickness, furnishing both water and quicklime. Next in order is the pentamerus limestone, 50 feet in thickness, consisting of impure gray and black limestone mixed with slate and shale. Overlying this is the Catskill limestone, from 50 to 180 feet in thickness, consisting of thick, compact masses of limestone alternating with thin layers of shale. It is used for building stone and lime. The Oriskany sandstone is next developed, in a strata of only 2 feet in thickness, followed by the cauda-galli grit, from 50 to 60 feet in thickness. This last has a fine grit, and resembles black or gray slates, but is easily disintegrated, and crumbles upon exposure to the air. Next in order come the Onondaga and corniferous limestones, the latter crowning the summits of the mountains. These rocks furnish both a superior quality of lime and an excellent building stone. The surface of the eastern part of the county is covered with immense beds of clay, gravel, and sand. The highlands west of Albany City are covered 40 feet deep with sand, which rests upon a bed of clay estimated to be 100 feet deep. In this drift are found small beds of bog ore and numerous chalybeate and sulphuretted springs. In the limestone regions are numerous caves, sink holes, and subterranean water courses, forming a peculiar and interesting feature of the county.

The principal streams are,—the Hudson River, which forms the eastern boundary; the Mohawk, which forms a part of the northern boundary; the Patroon Creek, Normans Kill, Vloamas, Coey-

¹ The county by these acts embraced "the Manor of Rensselaerwyck, Schenectady, and all the villages, neighborhoods, and Christian plantations on the east side of Hudson's River, from Roeloffe Jansen's Creek; and on the west side, from Sawyer's Creek to the outermost end of Saratoga." The Manor of Livingston was annexed to Dutchess co. May 27, 1717, and by subsequent statutes the county of Albany was also made to com-

prise every thing within the colony of New York north and west of present limits, and at one time the whole of Vermont.

² Signifying "Clear Mountain," from the fine prospect from their summit.

³ Several of the intermediate series of rocks, including the gray sandstone, Clinton, Niagara Falls, and Onondaga salt groups, are not found in the county.

mans, Haanakrois, and Catskill Creeks, and their branches. Nearly all the streams that flow into the Hudson have worn deep gulleys in the sand and clay. Many of these gorges are 100 feet deep, and extend from one-fourth of a mile to one mile from the river. The streams farther west generally flow through narrow, rocky ravines bordered by steep banks. These streams are mostly very rapid, and subject to extremes of flood and drowth. There are several small lakes among the hills, but none of special importance.

The soil upon the intervalles is a deep, rich alluvial loam. In Watervliet, Albany, and the eastern parts of Guilderland and Bethlehem, it consists of almost pure sand, with strips of clay along the banks of the streams. A belt of land lying between the sandy region and the foot of the Helderbergs is principally a clayey and gravelly loam, and very productive. Upon the Helderbergs, the soil consists of alternate layers of clay, slate, and gravel, generally with a sub-soil of tenacious clay called "hard-pan." Patches in this region are also stony, and much of it is wet and cold, and only moderately productive. Pitch pine, oak, and chestnut are the principal kinds of timber that grow upon the sandy region. In the most barren parts these trees are mere dwarfs, and the region has much the appearance of a desert. In the southeast corner of the county is a limited amount of red cedar. West of the sandy tract are found the usual trees of this northern climate, including both the deciduous and evergreen.¹

In the farming districts the people are principally engaged in raising spring grains, dairying, the raising of stock, and in gardening for the markets of Troy and Albany. The people of Albany, West Troy, and Cohoes are principally engaged in manufactures and commerce.

The city of Albany is the county seat and State capital. The county buildings are commodious, and the county institutions are well organized. The City Hall² at Albany, erected at the joint expense of the city and county, contains the principal city and county offices. The Albany County Penitentiary³ is a fine building in the western part of the city. Persons convicted of certain crimes, and sentenced to short terms of imprisonment, are confined here; and prisoners are received from Dutchess, Columbia, Rensselaer, Washington, Saratoga, and Schenectady counties. The county has no poor-house, but contracts with the city for the support of its paupers.

Albany is 145 miles above New York, upon the Hudson. The tide rises about one foot in the river.⁴ In low water, navigation is obstructed, except for vessels of light draught, by the "overslaugh," or bar, near Castleton, and at other points; and considerable sums have been expended in attempting to deepen the channel, by dredging, and building a long stone dyke below Albany.⁵ The most important works of internal improvement in the county are,—the Erie Canal,⁶ the New York Central, and the Albany, Vermont, and Canada Railroads, all terminating in the city of Albany. Connected with these lines, and terminating at Greenbush, directly opposite Albany, are the Hudson River, Albany and West Stockbridge,⁷ Harlem, and Troy and Greenbush Railroads. A company has been chartered to build a R. R. from Albany in a s. w. direction to Binghamton, and the work upon it is now in progress. A pier has been built in the river in front of Albany, for the benefit of navigation.⁸

Hendrick Hudson is supposed to have ascended the river as far as Albany in 1609. During the next three or four years, several Dutch traders commenced a traffic with the Indians, and small trading houses were built at Manhattan and Albany. In after years these stations were fortified, the one to protect from invasion by sea, and the other against incursions from the French settlements in Canada. The principal military work at Albany (built in 1623) was known as Fort Orange. The station at Albany remained a mere trading post until 1630, when agricultural improvements began. The Dutch West India Co. was formed in 1621, for promoting settlement in "New Netherlands," as the Dutch possessions in America were then called. In 1629, this company granted to Killian Van Rensselaer, one of the commissioners, (a pearl merchant of Amsterdam,) a charter conferring upon him privileges similar to those enjoyed by the feudal barons of Europe. His

¹ A geological and agricultural survey of Albany co. was made, in 1829, by Dr. T. Romeyn Beck, for the Co. Ag. Soc., and was the first enterprise of the kind in the state.—*Mem. Bd. Ag.*, i. 367.

² See page 161.

³ This penitentiary was built in 1845-46, and opened for prisoners in April, 1846. It was organized under the direction of Amos Pillsbury, in 1848, and has since continued under his direction and that of his son, Louis D. Pillsbury. It has 300 cells, and the average number in confinement has been 220. The convicts are principally employed in the manufacture of cement clinkers and saddlery hardware. During the first 8 years the total receipts were \$115,982, and the total expenditures \$104,680.

⁴ The tide rises here 6 h. 34 m. behind time of the moon's southing

⁵ The Erie Canal terminates in a basin at Albany, and communicates with the Hudson at West Troy. It crosses the Mohawk River, above Cohoes Falls, upon a stone aqueduct. A company has been incorp. for building a ship-canal from Albany to New Baltimore, a point below the bars which obstruct navigation.

⁷ Leased by the Western (Mass.) R. R. Co.

⁸ The pier is built across a curve in the west shore, and opens into the river at both ends. It is divided for the accommodation of the railroad ferries, and is 1½ miles long. It was formerly closed by locks. The basin enclosed within the pier affords a secure harbor, during winter, for river vessels and canal boats, which otherwise would be exposed to destruction from ice. The pier is owned by an incorporated company.

⁶ Senate Doc. 40, 1857, p. 171.

agents¹ made large purchases of land lying on both sides of the Hudson, near Albany,² in 1630-37, at which last date the manor embraced a territory 24 mi. N. and S. and 48 mi. E. and W., including nearly all of the present counties of Albany and Rensselaer.³ By the terms of the grant the charter would be forfeited unless the lands were settled in 7 years by at least 50 persons over 15 years of age. A ship load of emigrants was forwarded in 1630, and others in each of several succeeding years. The emigrants were furnished with stock, seeds, and farming implements, and the land was leased at an annual rent, payable in grain, beaves, and wampum, or a share of the products.⁴ The proprietor received the title of Patroon, and in him was vested authority in civil and military affairs subordinate only to the West India Co. and the States General. He had his forts, soldiers, cannon, and courts of justice; and, although the laws allowed an appeal from the decisions of the local courts, he required every person who settled within his jurisdiction to pledge himself never to exercise this right. Altercations soon arose between the agents of the patroon and the officers of the garrison at Fort Orange, in regard to the land immediately around the fort; and the controversy was not settled until after the English conquest.⁵ The settlement formed under Van Rensselaer gradually acquired importance as a trading post, and a considerable hamlet was built under the guns of Fort Orange.⁶ Mills were built on several of the streams, and a church was erected. By the surrender of the colony to the English, in 1664, the personal rights of the colonists were secured, and a new charter was granted to the patroon, restricting his civil power, but confirming the relations existing between landlord and tenant.⁷ The feudal tenure was finally abolished in 1787.⁸

The leasehold tenures, from an early period, excited discontent among the tenants.⁹ The late patroon, by his indulgence, had secured their regard; and when he died, in 1839, the course that would be pursued by his successor became a matter of solicitude. A committee of respectable men, appointed by the tenants to wait upon him and confer upon subjects of mutual interest, were treated with marked coldness and disdain, which quickly led to the organization of armed resistance to the enforcement of civil processes in the collection of rent. In Dec. 1839, the excitement was so great in the W. part of the county, that the Governor issued a proclamation, and sent an armed force to assist the civil officers. The people finally dispersed, and no collision ensued. For many years the anti-rent question greatly excited the public mind in all sections of the State where the leasehold tenure prevailed.¹⁰ Within a few years, much of the land has been conveyed in fee to the lessees; and probably in a few years the whole question will be amicably arranged in this manner.¹¹ There are 17 newspapers and periodicals now published in the county.¹²

¹ Jan-son Krol and Derick Cornelissen Duyster, commissary and under commissary at Fort Orange.

² The tract first purchased, W. of the Hudson, extended from Beeren (Bear) Island—called by the Indians "Passagenek"—up to Smeekyk Island, and "of a breadth of two days' journey."

³ On the 1st of Oct. 1630, a copartnership was formed between Van Rensselaer on the one part, and Saul, Godlyn, Johannes de Laet, Saul, Bloemwaert, Adam Bissels, and Toussaint Mossart on the other, by which the latter were constituted co-directors of Rensselaerwyck, and were bound to do homage and fealty to the lord of the manor.

⁴ The patroon reserved the right to trade with the Indians. For several years this trade was carried on by the settlers, who received goods from the patroon's store, and sent the peltries which they received to be sold by him in Holland. This business afterwards fell into the hands of local traders.

⁵ So active did this controversy become, that at one time Gov. Stuyvesant sent an armed force to Albany to support the rights of the company against the proprietor.

⁶ This place soon became the seat for holding all great councils with the Indian tribes. Among the curious things mentioned in the annals of the "old colony" is the fact that, during an almost unprecedented freshet in the spring of 1646, a whale 40 feet long came up the river and stranded on an island near the mouth of the Mohawk. Four others stranded the same season, 40 Dutch mi. above New Amsterdam.

⁷ For a concise view of the changes made by this charter, see *Barnard's Hist. Sketch of Rensselaerwyck*, p. 107.

⁸ The manorial title has descended as follows:—KILLIAN VAN RENSSELAER, first Patroon, died in 1647, at Amsterdam, leaving the property with his two sons, JOHANNES and JEREMIAH. Each of these had a son named KILLIAN, the former of whom died without issue in 1687, leaving the title with

KILLIAN, son of JEREMIAH. Dongan's patent was confirmed to the two cousins Nov. 5, 1685, and all other claimants released to the survivor in 1695; to whom also Queen Anne's patent of confirmation was granted May 20, 1704. He willed the property to his son,

JEREMIAH, and to the male heirs of his body; but, dying without issue, the title passed to his younger brother,

STEPHEN, who had a son (sole heir under the will above mentioned,) named

STEPHEN, who died in 1769, leaving the title with

STEPHEN, the late patroon, who was born in 1704, and died in 1839. The entail ended with this person, who, in his will, gave the W. part of the manor to his son, STEPHEN, the present proprietor, and the E. part to his son, WILLIAM P., of New York.

⁹ The "Quarter Sales," as they were technically called, in which the landlord claimed a part of the purchase money at each transfer of a lease, was particularly obnoxious. In 1850 the Quarter Sales were declared unconstitutional by the Supreme Court.

¹⁰ This movement led to the adoption of Art. I, Sec. 14, in the constitution of 1846, prohibiting the lease of agricultural lands for a longer period than 12 years.

¹¹ The relative amount of the land held by lease and in fee in the county is now nearly as follows:—In Waterliet, nearly all held in fee; in Guilderland, three-fourths; in Bethlehem, Coxsack, and New Scotland, two-thirds; in Knox, Rensselaerville, and Westerlo, half; and in Bern, one-third,—the remainder being held by lease.

¹² The following list is imperfect, but is supposed to include all the more important newspapers ever published in the Co. We are indebted to Joel Munsell, printer, for assistance, and the use of his immense collection of specimen numbers, in the preparation of this class of statistics.

The Albany Gazette was first issued in Nov. 1771, by Alex. and James Robertson, who joined the loyalists in N. Y. in 1776.

The New York Gazette or Northern Intelligencer, in 1782, by Solomon Blandine and Charles K. Webster. In 1784 the name was changed to

The Albany Gazette, and in 1788 a semi-weekly edition was issued. In March, 1817, united with the *Albany Daily Advertiser*, and took the name of

The Albany Gazette and Daily Advertiser, continued until 1845, *The Albany Journal*, or *Montgomery, Washington, and Columbia Intelligencer*, semi-w. in winter and w. in summer was started in Jan. 1788, by Chas. K. & Geo. Webster, and published in connection with the *Gazette*.

The Albany Daily Advertiser, Sept. 1815, by Theodore Dwight.

- In 1817 W. L. Stone united it with the Albany Gazette.
- The Albany Register* was published by John Barber from 1788 till 1808, and by S. Southwick till 1817.
- The Federal Herald*, by Claxton & Babcock, brought from Lansingburgh in Feb. 1788, and again returned thither.
- The Albany Gazette*, semi-w., 1796. In Nov. 1806 changed to *The Republican Crisis*. Backus & Whiting and Isaac Mitchell were successively publishers.
- The Albany Chronicle* was commenced in 1797 by John McDonald. Joseph Foy and Henry C. Southwick were afterward its editors. It was discontinued in 1799.
- The Guardian*, 1807. Van Benthuyzen & Wood, 2 years.
- The Balance*, and *New York State Journal*, semi-w., 1808-11. Crosswell & Frary; removed from Hudson.
- The Albany Republican* was started in April, 1812, by Samuel K. Brown—Romaine succeeded the next year, and after several years it merged in the Saratoga Patriot.
- The Stranger*, 1813-14, 8vo. John Cook, pub.
- The Albany Argus* was established as a semi-w., tri-w., and w., Jan. 1, 1813, by Jesse Buel; and da. semi-w., and w. editions were issued in Oct. 1825. Edwin Crosswell was many years its publisher. Feb. 15, 1836, merged in *The Atlas and Argus*, da., semi-w., and w. Comstock & Cassidy, pub.
- The Albany Atlas*, da., semi-w., and w., was started in 1841 by Vance & Wendell; in 1856 it was united with the Argus.
- The Christian Advocate*, 4to, was begun June 3, 1816, by S. Southwick, and continued 2 years.
- The Friend*, 8vo, mo., was begun in 1815 by D. & S. A. Abbey. 1 vol. published.
- The Statesman*, pub. by — Carter; removed to N.Y. in 1818.
- The Plough Boy* was started 1819, by Solomon Southwick, under the non-de-plume of Henry Honespun.
- The Albany Microscope*, 1820, by Chas. Galpin, continued till 1842.
- The National Democrat*, published at Albany and N.Y., was started in 1823 by Wm. McDonald, and continued 1 year.
- The Religious Monitor*, mo., was commenced in May, 1824, by Chauncy Webster. It is now published in Philadelphia.
- The Esquire, or Masonic and Miscellaneous Album*, was started in 1826 by E. B. Child. Its name was changed to *The American Masonic Record*, and was pub. by E. B. Child for 4 or 5 yrs.
- The American Masonic Register* was pub. 5 y. by L. G. Hoffman.
- The National Observer*, w. and semi-w., was started in 1826 by Geo. Galpin, and continued 4 years; S. Southwick, ed.
- The Albany Telegraph and Christian Register* was started in 1826, and in 1827.
- The Albany Christian Register*, L. G. Hoffman, pub., and J. R. Boyd, ed., May 19, 1827.
- The Albany Daily Chronicle* was started April 22, 1826, and published a short time by Galpin & Cole.
- The Comet* was begun Aug. 4, 1827. D. McGlashan, ed.
- The Standard* was published in 1827 by Matthew Cole.
- Signs of the Times* was started Oct. 13, 1827, and discontinued Nov. 8, 1828. D. McGlashan, pub., S. D. Wood, bloodgood, ed.
- The Antislave* was pub. in 1827. Webster & Wood, pub. S. Southwick, ed.
- The Mercury Chronicle*, da., and *The Albany Chronicle*, semi-w., were published in 1828 by Beach, Denio, & Richard.
- The Age* was published in 1828 by Galpin & Sturtevant.
- The Albany Times and Literary Writer* was started Dec. 27, 1828, by Jas. McGlashan; Bloodgood & Van Schaick, eds.
- The Albanian*, semi-mo., was started Jan. 30, 1828, by Arthur N. Sherman.
- The Albany Mirror* was published in 1828 by J. Munsell.
- The Albany Evening Journal** was commenced March, 1830. It was published by B. D. Packard & Co., Thurlow Weed, ed. A w. and a semi-w. journal are now issued from this office by Weed, Dawson & Co.
- The Farmers, Mechanics, and Working Men's Advocate*, da., was started in 1830 by McPherson & McKecher. The following year it appeared as
- The Daily Freeman's Advocate, and Farmers, Mechanics, and Working Men's Champion*, and was pub. 1 or 2 yrs.
- The Albany Bee*, da., was started in April, 1830, by J. Duffey, W. S. McCulloch, and Charles Angus.
- The Temperance Revue*, mo., was published in 1831 by the State Temperance Society.
- The Albany quarterly*, 8vo. Commenced in 1832 by the Alb. Hist. Soc. Jas. R. and Sam'l M. Wilson, eds. 1 vol. pub.
- The Daily Craftsman* was removed from Rochester in 1831. L. J. Roberts & Henry James, publishers.
- American Temperance Intelligencer*, mo., was started in Jan. 1831.
- The Seaboard*, 8vo, mo., begun May, 1835. The 3d vol. was changed to
- The Silk Worm and Sugar Annual*, devoted in part to sugar beet culture. It was discontinued in 1838.
- The American Quarterly Hemp Magazine* was commenced Feb. 1831. 2 vols. published.
- The Albany Transcript*, da., the first penny paper in Albany, was started Oct. 12, 1835.
- The Albany Democrat and Literary Spectator*, mo., was published in 1835 by Geo. Trumbull.
- The Albany Whig* was commenced in 1834, by J. B. Van Schaick & Co., as the weekly of *The Daily Advertiser*. It was soon merged in *The Albany Gazette*, a semi-w. paper issued from the same office.
- The Common School Assistant*, mo., was published in 1836 by J. Orville Taylor.
- The Associate Presbyterian Magazine*, 8vo, mo., Rev. P. Bullions, ed. Pub. from 1838 to 1842.
- Southwick's Family Newspaper* was published in 1838.
- The Jeffersonian* was published by Horace Greeley during the campaign of 1838.
- The Cultivator**, mo., was commenced in March, 1839, by Jesse Buel. It was afterward published by W. Gaylord and L. Tucker, and now by L. Tucker & Son.
- The Tomback and Sculpting Knife* was published a short time.
- The Albany Patriot* was started in 1840 by Jas. C. Jackson, and continued 4 years.
- The Unionist*, da., was published by J. Munsell, and
- The Rough Haver* by Theo. M. Burt, during the campaign of 1840.
- The District School Journal*, mo., was established at Genes in 1840. Francis Dwight, ed. Removed to Albany in 1841, and continued by the State School Dep. until 1852.
- The Examiner* was published in 1841 by G. Galpin.
- The American Magazine*, 8vo, mo., started in 1841 by J. S. & B. Wood. 3 vols. pub.
- The Irishman* was published seven weeks in 1842 by H. O'Kane, J. Munsell, printer.
- The New York State Mechanic* was started in 1842 by J. Munsell, and continued eighteen months.
- The Northern Star and Freeman's Advocate* was started in 1842 by J. G. Stewart and Charles S. Morton.
- The Sunday Ticker* was published in 1842 by C. W. Taylor.
- The Albany Specter* was commenced in 1842 by H. J. Hastings. In 1855 Edward Leslie became its editor.
- The Youth's Temperance Enterprise*, mo., started Nov. 13, 1842, by J. Stanley Smith, ed. and pub., and continued 3 years.
- The American Citizen*, da. and w., was started in 1843 by Stone & Henley, and ed. by J. S. Smith.
- The Albany Knickerbocker**, da., and w., was commenced in 1843 by H. J. Hastings, and is still continued.
- The Albany Daily Patriot* was published in 1843 by C. T. Torry.
- The Subterranean* was started Mar. 23, 1843, by Jas. Duffey.
- The Albanian*, da., was published in 1844.
- The Albany Religious Spectator* was started in 1844 by J. Munsell and E. H. Pease. The next year it passed into the hands of B. F. Romaine, who continued it until 1857.
- The Birney Advocate*, semi-mo., was pub. during the campaign of 1844 by E. W. Goodwin.
- The Anti-Renter* was started by Thos. A. Deyrer Aug. 16, 1845.
- The Albany Freeholder* was started April 9, 1845, by Thos. A. Deyrer, and continued until 1854.
- The American Quarterly Journal of Agriculture and Science*, 8vo, was commenced Jan. 1845, by E. Emmons and A. T. Prime. Jan. 1846 it was pub. monthly by E. Emmons and A. Osborne. It was sold to Ch. Bennett in 1848, and discontinued in Dec. of the same year.
- The Gavel*, mo., published in 1845 from Munsell's press.
- The Squire* was published in 1845 by Woodward & Packard.
- The Vesper Bell*, da., a few numbers pub. by Abbott & Crosby.
- The Albany Herald*, da. and tri-w., was commenced in 1846 by A. B. Van Olinda, and in Dec. it took the name of
- The Morning Telegraph*, and in March, 1847, of
- The Statesman*, edited by W. M. Watson.
- The Balance* was published in 1846.
- The Mechanic's Advocate*, 1846, J. Tanner, pub., continued 1 yr.
- The Mechanic's Journal*, 1846, Munsell & McFarlan, pub., was issued 1 year.
- The Horticulturalist, and Journal of Rural Art and Rural Taste*, was commenced in July, 1846: A. J. Downing, ed. L. Tucker, pub. The 8th vol. was removed to Rochester. In 1855 it was pub. at Philadelphia by R. P. Smith; John J. Smith, ed. In Jan. 1858 removed to N.Y.; Saxton, pub. J. J. Smith, ed.
- The Mechanic's Mirror*, 8vo, was published in 1846 from Munsell's press.
- The Son of Temperance and Reclitah*, 8vo, mo., was pub. in Aug. 1846 by J. Stanley Smith & Co.
- The Albany Vestigator* was issued in 1847 by M. J. Smith.
- The American Literary Magazine*, mo., started July, 1847, T. Dwight Sprague, pub.; removed to Hartford, June, 1848.
- The Christian Palladium*, J. Hazen, ed., was brought from Fulton co. in 1847 or '48, and removed to Irvington, N.J., Oct. 1856.
- The Busy Bee*, E. Andrews, ed., was pub. from 1848 to 1850.
- The Odd Fellow's Literary Magazine* was pub. in 1848. W. K. Cole, ed.
- The Telegraph and Temperance Journal*, mo., was commenced in 1848 by S. Myers, and continued 4 years.
- The Daily Argus* was pub. a short time in 1849 by Tanner & Stow.
- The Albany Daily Messenger* was pub. 1849 by B. F. Romaine.
- The American Christian Messenger* was commenced by Jasper Hazen Jan. 17, 1841.
- Transactions of N.Y. State Institute of Civil Engineers*, 4to, with plates, was pub. Feb. 1849. Two nos. issued.
- The Christian Herald and Messenger* was issued Feb. 10, 1849, by J. Hazen, and afterward removed to Irvington, N.J. It was in part successor to the Ch. Messenger, pub. at Newburyport, Mass., many years, and is the oldest religious newspaper in the country.
- The Courier and Journal** was started Feb. 10, 1849, and is now published by J. T. Hazen.
- The Albany Dutchman and The Albany Sunday Dutchman*

ALBANY CITY¹—was incorporated by patent July 22, 1686,² having previously enjoyed divers rights and privileges, under the names of "*Beverwick*," "*William Stadt*," and Albany. The Dutch styled it "*Near Oranget*." The part of the city north of Patroon and Quackenboss Streets, known as the "*Colonie*," was incorp. March 31, 1791; and again, March 30, 1801. It was made a village April 9, 1804; and was erected as a town April 11, 1808. The town was divided, and merged in Albany and Watervliet, Feb. 25, 1815. The city lies upon the w. bank of the Hudson River, a little s. of the center of the county; and embraces a strip of land about one mile wide, extending 13½ miles in a n. w. direction to the n. boundary of the county. A narrow interval of low land lies along the

course of the river, bounded by steep banks from 150 to 250 feet high, where a barren region commences, rising toward the w., and broken by numerous sand hills and ridges. The banks which form the declivities of this tract are separated into several distinct ridges by the deep gulleys worn in the clay by the streams which flow through them. The soil, except near the river, is a light sand, not adapted to cultivation without the aid of costly artificial means. A mineral spring was obtained on Ferry St. in 1827, while boring for water.³ Albany is situated near the head of navigation upon the Hudson, and at the eastern terminus of the Erie Canal.⁴ The several railroads before mentioned render it a place of considerable commercial importance.⁵ It is the largest barley market in the U.S., and immense

were started in 1849 by Griffin & Farnsworth, and subsequently removed to N.Y.

The Temperance Courier was commenced Feb. 10, 1849, by J. T. Hazen, and subsequently pub. by J. Hazen & Son.

The Washingtonian and Rehebele was issued in 1849 by J. T. Hazen, and in 1855 united with *The Courier*.

Florence Oneida Telegraph was printed at Albany in 1849.

The Albany Morning Express was started in 1850 by Stone & Henley. In 1854 it passed into the hands of Munsell & Co., and in 1856 its title was changed to

The Daily Statesman, now published by J. B. Swain & Co. *The Albany State Register*, da., semi-w., and w., was started in 1850 by Fuller & Seward. S. H. Hammond and C. D. Brigham were afterward eds., and in 1856 it was removed to N.Y.

The Albany Daily Times commenced Feb. 16, 1859. Five nos. were issued.

The New York Reformer, John Abbott, ed., Munsell, pr., was pub. 10 mos.

The State Military Gazette, C. G. Stone, pub., was commenced in 1858, and was soon after removed to N.Y.

The Half-Dollar Monthly was pub. in 1859 by B. F. Romaine.

The Journal of the N. Y. State Agricultural Society, mo., was started in May, 1850.

The Daily Albany Eagle was started Sept. 1, 1851, by John Sharts, and continued 4 months.

The American Mechanic was started Jan. 4, 1851, by J. M. Patterson.

The Carson League, published by J. T. Hazen & T. L. Carson, was removed from Syracuse in March, 1851.

The Albany Mirror and Literary Cabinet was published in 1851 by J. H. Canoll and W. M. Collburn.

The Catern was started Oct. 11, 1851, Warner & Rooker, pub.

The Northern Light, mo., conducted by Dix, Hawley, Dean, Beck, Olcott, and Delavan, and subsequently by A. B. Street, was started in 1851, and continued about 3 yrs.

Deutsche Freie Blätter, tri-w., was started in 1852. Henry Bender and Augustus Miggel, present pub.

The Family Intelligencer was commenced by Jasper Hazen, Sept. 11, 1852, now pub. by J. T. Hazen.

The New York Teacher, mo., the organ of the N. Y. State Teachers' Association, was started in 1852, and is now conducted by James Czukshank.

The Evening Transcript, da., and w., commenced Jan. 31, 1853, by Cuyler & Henry, was last published by Snyder & Ellis.

The Country Gentleman, started by J. J. Thomas and L. & L. H. Tucker in 1853, is now pub. by L. Tucker & Son.

The Probationist, mo., ed. by A. McCoy, the organ of the N. Y. State Temperance Society, was started in 1854, and in 1857 united with the Jour. of the Am. Temp. Union.

The Family Dental Journal, mo., was pub. in 1854 by D. C. Estes.

The State Police Tribune was started July 21, 1855, by S. H. H. Parsons and E. M. Griffin. Removed to New York.

The Albany Morning Times was started in 1856, and is published by Barnes & Godfrey.

The Albany Evening Voice, edited by J. McFarlan, and subsequently by John New, begun 1856, and ended 1857.

The Albany Volksblatt was published in 1856 by Geo. Herb.

The Albany Morning Express was started in 1856 by Stone & Henley, and edited by J. C. Cuyler.

The Almanac, semi-mo., boys' paper, commenced June, 1857.

The Hour and the Minute, da., and w., Geo. W. Clarke, pub., John Thomas, ed., commenced Aug. 1858.

The Mercantile Horn, w., was pub. gratis Oct. 1858.

The Voice of the People—Republican campaign of 1858.

The Albany Evening Standard, da., was begun Dec. 1858. R. M. Griffin & Co., pub.

The Independent Press, da., started Dec. 1858, was pub. a few nos.

Astronomical Notices was started at Ann Arbor, Mich., in 1858. Since the 7th no. it has been pub. at Albany. Prof. Brunow, ed.

The American Magazine, mo., by J. S. & R. Wood, was pub. 11 yrs.

The Gospel, mo., was published by John Tamer 2 years.

The Albany Literary Gazette was published by John B. Germain.

The Rural Echo was started at Rousesville in Jan. 1848, by C. G. & A. Palmer, and continued 2 years. An Anti-Rent paper has also been published.

The Zebra, mo., was published about 1856 by Gen. De Courcy Holstein.

The West Troy Advocate was commenced at West Troy in Oct. 1857, by Wm. Hollands, and is now published by his widow and son.

Watervliet Daily Democrat was started at West Troy Jan. 20, 1859. Allen Corey, ed.

The Cohoes Advertiser was started at Cohoes in 1847, by Wilants & Agnes. In 1849 its name was changed to

The Cohoes Cataract. J. H. Masten, publisher.

¹ The name Albany was derived from the Scotch title of the Duke of York, to whom the province was granted.

² The charter conveyed municipal jurisdiction over the territory bounded e. by the low water mark on the Hudson; s. by a line drawn from the southernmost end of the pasture at the s. end of Martin Gerritsen's island, and running back due s. w. 16 miles into the woods to a certain creek called Sandkik; s. by a line parallel to the former, about 1 mile distant; and w. by a straight line drawn from the western extremities of the s. and s. lines. This charter embraced the right of certain public buildings and fields, the ferry, all waste land within their boundaries, the right of fishing in the Hudson within the county, and of purchasing of the Indians 500 acres of meadow land at "Schaatsgez" on the s., and 1000 acres at "Tionnondeog" (Fort Hunter) on the w., in the Mohawk country, on which to plant colonies as barriers against hostile incursions. The quit-rent was fixed at one beaver skin, payable at Albany on the 25th of March annually forever.

³ This boring was commenced to obtain water for a brewery. At a depth of 480 feet, sparkling water, of a saline taste and impregnated with carbonated hydrogen gas, was obtained. The boring was continued to a depth of 637 feet without any change in the character of the products. A few rods distant a second well was bored, with similar results. One of the wells was ruined by placing a pump in the other. (See page 146.)

⁶ Besides the river, canal, and railroads, there are 5 plank roads and 2 turpikes terminating in the city.

quantities of this grain are here manufactured into malt and beer.¹ Albany, Troy, and West Troy are the largest lumber markets in the State. "The Lumber District" in Albany is along the canal above the little basin, where extensive wharves and slips have been built for transferring lumber from canal boats to vessels and barges upon the river.² The manufactures of the city are varied and extensive.³ Among those that may be considered specially important are the stove-foundries and breweries. The city is amply supplied with water from works erected at public expense.⁴ The water is obtained from several creeks w. and n. of the city. The main reservoir (Rensselaer Lake,) is 5 miles w. of the City Hall, and is elevated 262 feet above the river. It covers 39 acres, and its capacity is 180,000,000 gallons. A brick conduit conveys the water to Bleeker Reservoir, on Patroon St., whence it is distributed through the portion of the city w. of Pearl St. This reservoir has a capacity of 30,000,000 gallons. The lower portion of the city is supplied from Tivoli Reservoir, on Patroon Creek, covering 20 acres, and has a capacity of 30,000,000 gallons. These works are under a Board of Water Commissioners, and the rents are charged to property owners and collected with the taxes.⁵ Pop. 57,333.

The State buildings at Albany, including the Capitol, State Hall, State Library, Geological and Agricultural Hall, Normal School, and State Arsenal and Armory, have already been described under the head of State Institutions.⁶ Besides these, there are several buildings and institutions worthy of a particular notice.

The *City Hall* is situated on Eagle St., fronting the e. end of Washington Avenue. It is an elegant structure, faced with Sing-Sing marble, and surmounted by a gilded dome,—the only one in the U. S. It was built at the joint expense of the city and county, and it contains most of the city and county offices.⁷ The jail is in Maiden Lane, near the City Hall.

The *Albany Exchange*, a massive granite building, is situated on Broadway, at the foot of State St. It was erected in 1839 by a joint-stock company, and contains the post-office, the general offices of the New York Central R. R. Co., and a variety of other offices.

The *Public Schools*⁸ have hardly kept pace with the progress of other institutions of the city, or with the public schools of other cities in the State. Until within the last few years, the whole public school interest was under the charge of a Board of Commissioners, appointed by the Regents of the University. The people, having no power over school matters, took but little interest in them, and the schools languished in every department. There was a great deficiency in school-houses, in the number of teachers employed, and in the general supervision of schools. This system has been changed of late, and a series of improvements have commenced which bid fair to soon place the schools of Albany on a par with those of her sister cities. In 1857, there were 13 school districts, employing 53 teachers, 16 males and 37 females. The number of children between 4 and 21 was 18,359, of which 6729, or 37 per cent., were in attendance some portion of the year.⁹ There are 70 private schools, reporting 3827 pupils.

The *Albany Academy*, (for boys,) fronting on Eagle St., opposite the State Hall, is a flourishing institution. It was chartered by the regents, March 4, 1813; the corner-stone of the present building was laid July 29, 1815, and it was opened for students Sept. 1, 1817. Dr. T. Romeyn Beck was its principal for 31 years; and under him the school obtained a deservedly high reputation. The building is an imposing structure, of red Nyack freestone, in the Italian style, fronting on a park of 3 acres.¹⁰

¹ In 1836, the receipts of barley at tide water exceeded 2,000,000 bushels.

² In 1858 there was received at Albany by canal, principally from the S., 277,496,411 feet of boards and scantling, 11,919,709 feet of timber, 51,823 M. of slunglogs, and 67,505 tons of staves.

³ The directory of 1858 gives the following aggregate of the manufacturing establishments in the city: 432 implement factories; 8 boiler and steam-engine shops; 9 bookbinderies; 10 laweries; 9 brick yards; 17 carriage and car factories; 1 car wheel factory; 5 distilleries; 4 drain tile factories; 9 flour mills; 13 harness shops; 8 hat factories; 14 iron foundries; 11 machine shops; 14 mill houses; 15 printing offices; 3 sode factories; 5 sawing and planing mills; 2 type and stereotype foundries; 13 stove manufactories; and 4 piano factories. There are about 50 commission merchants; 60 dealers in flour and grain; and 50 lumber dealers.

⁴ In 1796 the corporation was empowered to construct water works, but nothing was done. Afterward the enterprise was completed by a private company, who obtained their supply of water from Maczand's Kid. S. of the city. This supply not being sufficient, an act was passed in 1850 for the construction of public water works. The vote in the city stood, "For water," 4405; "No water," 6; "Brandy and water, strong," 1. The works of the old company were purchased and the present works built.

⁵ The original cost of construction was \$850,000; and the total cost up to Jan. 1, 1858, \$1,018,496. The main pipes measure

42.78-100 miles. The receipts for the year ending Oct. 31, 1857, were \$75,550. The revenues are sufficient to pay the interest on the debt for construction and the cost of maintenance, and leave a considerable balance to form a sinking fund for the final liquidation of the debt.

⁶ See pages 27, 44, 136.

⁷ This building is 100 feet front by 80 feet deep. In front it has a recessed porch, supported by 6 Ionic columns. In the center of the hall, in the second story, is a statue of Hamilton, by H. West; and in the common council room are portraits of the first 13 Governors of the State.

⁸ A Lancasterian School Society was incorp. May 26, 1812, a school having been maintained for some time previous. The members of the common council were ex-officio members of the society, and those giving \$25 were entitled to a scholarship. In 1817, the society erected the building now occupied by the Albany Medical College, for the use of the school, which continued to be occupied until 1834, when the school was superseded by the public school system of the State. Wm. Tweed Dale was principal of the school for 22 years.

⁹ The total expenses of the schools for 1857 were \$41,510 10. Total receipts, the same. No. of volumes in Dist. Libraries, 9285.

¹⁰ The late Henry W. Dehaven bequeathed \$2000 to this institution, the income of which is devoted to the education of indigent youth.

The *Albany Female Academy*, on N. Pearl St., was established in 1814, and incorp. in 1821, and the present building was completed May 12, 1834. The institution has uniformly borne a high reputation. The building is in Grecian style, with an Ionic portico.¹

The *Albany Female Seminary*, situated on Division St., was incorp. April 9, 1828. It is under the charge of the Meth. denomination.

The *Albany Institute*, a society for the promotion of science and art, was incorp. Feb. 27, 1829, by the union of Society of Arts and the Albany Lyceum of Natural History.² It has three departments, devoted to—1st, Physical Sciences and the Arts; 2d, Natural History; and 3d, History and Gen. Literature. During the winter months it holds semi-monthly meetings. It has a valuable library, and an extensive cabinet of minerals and of specimens of natural history.³

The *Young Men's Association* was formed in 1833, and incorp. March 12, 1835. It supports a lecture course during the winter, and has a library of above 7000 vols., and a reading room supplied with 70 papers and 15 other periodicals. It is the oldest institution of the kind in the U.S., and has about 1000 members.

A *Catholic Young Men's Association* has sustained a course of lectures for several winters.

The *Albany Industrial School*, erected by the city in 1857, for vagrant children, is not completed. It is located in the rear of the Penitentiary, and, with those buildings, presents a fine architectural appearance.

The *Dudley Observatory*, on an eminence in the n. border of the city, was founded through the munificence of Mrs. Blandina Dudley and other liberal patrons of science. It was incorp. April 2, 1852, and its management intrusted to 15 trustees. The building is admirably arranged, and furnished with instruments, several of which are the largest and most delicate ever constructed. It was dedicated Aug. 28, 1856, and placed under the charge of a scientific council, to be employed by the coast survey in the determination of longitudes, and other purposes connected with that great national enterprise. It has a special library of about 1000 volumes.⁴

The *Albany Medical College*, located upon Eagle St., was incorp. Feb. 16, 1839. Two courses of lectures are held annually; and the institution has secured a deservedly high reputation in the medical profession. It has an extensive medical museum, and a choice library of 5000 vols.

The *Law School of the University of Albany* was instituted under the university charter of April 17, 1851. Two courses of lectures are annually held in rooms attached to the medical college building. This school has obtained an excellent reputation.

The *Albany Almshouse*, consisting of a poor house,⁵ insane asylum,⁶ and a fever hospital,⁷ is located upon a farm of 116 acres, 1½ miles s. w. of the city, and is entirely owned and managed by the city authorities. These departments are supplied with commodious and appropriate buildings. The Industrial School building is located upon the same farm.

The *Albany City Hospital*, located on Eagle St., was incorp. April 11, 1849. It was founded by private subscription, and the present building⁸ was opened for the reception of patients Aug. 8, 1854.⁹

The *Albany Orphan Asylum*, on Washington St., at the junction of the Western Turnpike, was incorp. March 30, 1831, at which time it had been in practical operation for nearly two years. It was commenced as a private enterprise, and the present building was erected by subscription and the product of several ladies' fairs. It is now supported by funds received from the State, the interest on its endowment, and the proceeds of an annual fair.

The *St. Vincent Orphan Asylum* was incorp. in 1849. The female department, situated on N. Pearl St., is under the charge of the Sisters of Mercy. The male department, 2 mi. w. of the capitol, is under the care of the Christian Brothers.

The first church (Ref. Prot. D.) was formed in 1640. Rev. Johannes Megapolensens was settled as pastor in 1642, under the patronage of the patroon. A regularly organized Lutheran church existed in 1680, but the date of its formation is unknown. It was reorganized Aug. 26, 1784.

¹ The Albany Library, kept in this building, was incorp. Feb. 14, 1792. It contains about 5,000 vols.

² Prof. Henry, of the Smithsonian Institution, read his first scientific papers before this association, and performed his first original experiments while a pupil at the Albany Academy. The Society for the Promotion of Agriculture, Arts, and Manufactures, was established in 1791, incorp. 1793, and expired in 1804, by limitation of charter. Revived as the Society for the Promotion of Useful Arts; incorp. 1804. These were State Institutions, and became local on the establishment of the Board of Agriculture, in 1819, and continued a city institution until its union with the Albany Lyceum of Natural History in 1829.

³ The library and cabinet are kept in the Albany Acad. building.

⁴ The building is in the form of a cross, 86 by 70 feet. Among the instruments is a calculating engine, made by C. Schentz, a

Swede, and purchased by John F. Rathbone. It is the only one in existence. A large class of calculations is performed by its use, and the results are impressed upon leaden plates, ready to electrotype and print. This institution has been involved in an unhappy controversy between the trustees and council, which has embarrassed its plans; but it is now in active operation under cheering auspices.

⁵ The city contracts to support county paupers at \$1.25 per week each. A school connected with this institution is kept throughout the year.

⁶ Built at an expense of \$12,000, and with accommodations for 80 inmates.

⁷ Cost \$5000.

⁸ This building was erected by the city for a jail.

⁹ The whole cost of the institution has been about \$50,000.

The first Prot. E. Church (St. Peter's) was erected in 1715, on a site granted by the governor of the colony. It stood in the center of State St., opposite Barrack (now Chapel) St., and was demolished in 1802, and the present edifice built by Philip Hooker. The communion plate of this church was presented to the Onondagas by Queen Anne. The most imposing and costly church edifices in the city are the Catholic Cathedral of the Immaculate Conception, corner of Eagle and Lydius Sts., and St. Joseph's (R. C.) Church. There are now (1858) 48 churches in the city.¹

At an early period Albany acquired much importance from being the principal center of the Indian trade, and afterward the place where the great military expeditions against Canada were fitted out.² Its importance as a military station led to its being fortified at an early period; and, although it was often threatened with invasion, no hostile army ever reached it.³ It became the permanent seat of the State government in 1797. For 30 years after the Revolution, Albany was the seat of the entire trade of the western part of the State, the produce being brought in by sleighs in winter. The first great impulse to its commercial prosperity was given by the successful trip of the Clermont,⁴ the first steamboat of Fulton, in 1807, and the improvements in steam navigation which immediately followed. The steamboats now upon the Hudson River are among the very largest that navigate any inland waters.⁵ The completion of the Erie Canal, in 1825, and of the various lines of railroads since that time, have each essentially added to the growth and prosperity of the city.⁶ Business is principally centered upon Broadway, State, S. Pearl, and Washington Sts. The Dutch language and customs, which continued until long after the English conquest, have almost entirely disappeared. Very few families retain any characteristics of their origin, although many occupy the same lots that were conveyed to their ancestors two centuries ago. The peculiar Dutch architecture has now nearly disappeared, and within the limits of the city there are not more than a dozen houses with the sharp gables fronting even with the street, the tile roof, and antiquated appearance, so common but a few years ago. The city has been visited by several disastrous fires,⁷ and the lower part has often been inundated by water.⁸

BERN⁹—was formed from Rensselaerville, March 17, 1795. Knox was taken off in 1822. It lies near the center of the western border of the county. The Helderbergh Mts., 1200 feet above tide, form the eastern border. Grippy and Irish Hills, two broad mountains, with steep declivities and rolling summits, 900 to 1000 feet above tide, occupy the center. The s. and w. parts are hilly, and the n. rolling. The principal streams are the Foxen Kil and the Switz Kil. These streams flow n. w. through narrow valleys bordered by steep hill sides. Werners and Thompsons Lakes, in the n. e., are small sheets of water. In the lime rock, in the n. e. part, are numerous small caves and sink holes.¹⁰ There are several sulphur springs in town. The soil is a sandy and gravelly loam interspersed with clay. **Bernville** (Bern p. o.) contains 50 houses;¹¹ **E. Bern**¹² (p. v.) 15; **S. Bern** (p. v.) 15; and **Reidsville** (p. v.) 12. **Peoria** is a small village on the line of Knox. Settlement was begun about 1750 by a few German families. In 1777, a company of 85 militia were raised in this town, of which the captain and 63 men joined the British, and the remainder the Americans at Saratoga. Bernville, then called "*Beaver Dam*," was fortified during the war, and sentinels were posted at night to prevent surprise by the Indians.¹³ The place at one

¹ Of these there are 8 Meth. E., 7 Pap., 5 Prot. E., 5 Presb., 5 R. C., 3 Ref. Prot. D., 3 Jewish Syn., 3 Evang. Luth., 2 Wes. Meth., Cong., Evang. Ger. Assn., Evang. Prot. Ger., Assn. Presb., Friends, Unitas, and Univ.

² On the 9th of June, 1754, the first Congress of the colonies assembled at Albany, to devise a general plan of union and measures of defence, in view of the French and Indian hostilities, then just commencing. This Congress consisted of delegates from N. H., Mass., R. I., Conn., N. Y., Penn., and Md. The "plan of union" drawn up by Dr. Franklin was adopted, but it was afterward rejected by the British government as being too democratic, and by the colonies as giving too much power to the king.

³ The first fort was built by the Dutch, in 1614, on the island below the city, which is hence called Castle Island. In 1617 a fort was built at the mouth of the Normans Kil; and in 1628 another was erected near the present steamboat landing, in the s. part of the city, and named Fort Orange, in honor of the reigning prince of Holland. A quadrangular fort, called "Fort Frederick," was afterward built on the high ground, now State St., between St. Peter's Church and the Geological Hall, with lines of palisades extending down State and Hudson Sts. to the river. These fortifications were demolished soon after the Revolution, and the only evidence of their existence now remaining is the curved outlines which they have given to the streets in the older parts of the city.

⁴ The Clermont was 100 feet long, 12 feet wide, and 7 feet deep. The first voyage to Albany was accomplished in 28 hours and 45 minutes. This boat was afterwards enlarged, and her name changed to the "North River."

⁵ As a contrast to the "Clermont," it may be stated that the "Isaac Newton," of the People's Line of Steamers, is 404 feet long, 75 wide, and 47 deep, and has sleeping accommodations for more than 700 passengers.

⁶ The sloop "Experiment," of 80 tons, Capt. Stewart Dean, sailed in the fall of 1785 from Albany to China. This was the second vessel from the U. S. to Canton. She was absent 18 months, and returned with a cargo of teas, nutmegs, damask silks, and 13 sets of China ware, to order, for family gifts.

⁷ A fire in 1797 burned 96 dwellings, and rendered 150 families homeless. Aug. 17, 1848, a most destructive fire broke out, which destroyed a considerable portion of the commercial part of the city bordering upon the river, and also many boats in the basin.

⁸ Upon the breaking up of the ice in the river, Feb. 9, 1857, the water completely submerged the lower part of the city, and came up so high that it covered Broadway in front of the Exchange. The damage to property was immense.

⁹ Named from the native place of Jacob Weidman, first settler and mill owner.

¹⁰ In one of these caves, during the war, a notorious tory and spy named Salisbury was concealed for some time, but was at last arrested. The place is still known as "Tory's Hole."—*Stuam's Scholastic*, p. 525.

¹¹ In 1825 an extensive ax factory was erected here; but it was soon after removed to Cohoes.

¹² Formerly called "Philadelphia," and still locally known as "Phila."

¹³ The family of Johannes Deitz, consisting of 8 persons, were murdered by the Indians.—*Stuam's Scholastic*, p. 429.

time became a rendezvous for Tories.¹ The Ref. Prot. D. Church of Beaver Dam was formed in Jan. 1763. The first settled pastor was Johannes Schuyler, in 1767.²

BETHLEHEM—was formed from Watervliet, March 12, 1793. New Scotland was taken off in 1832. It lies on the bank of the Hudson, E. of the center of the county, and includes the islands W. of the main channel of the river. Its surface consists of a rolling upland, ending upon the river in steep bluffs 100 to 150 feet high. Near the center of the town are a few sand ridges and rocky knolls. The principal streams are Coeymans Creek, Vlamans Kil and Normans Kil. The declivities of the upland are broken by numerous deep gulleys worn by streams flowing into the Hudson. There are two small caves, several sulphur springs, and quarries of coarse brown sandstone, in town. The soil is sand and clay.³ **Groesbeck** is a suburb of Albany. Pop. 1,232. **Kenwood**, a small village near the mouth of Normans Kil, contains an extensive mill, and a manufactory of silver and Britannia ware. **Upper Hollow, Adamsville, Normanskill**, (p. o.), **Bethlehem Center**, (p. o.), **Beckers Corners, Cedar Hill**, (p. o.), and **S. Bethlehem** are hamlets. **Callanans Corners**, in the N. W. corner, is a p. o. On the hills overlooking the Hudson below Albany are several fine country seats. The first settlement was made upon Castle Island,⁴ in 1614, and a fort erected the same year. As this island was liable to overflow, in 1617 another fort was built at the mouth of Normans Kil.⁵ Agricultural improvements commenced in 1630, by tenants under Van Rensselaer. Mills were built on the Normans Kil and Beaver Kil at a very early period. A part of the house known as "Whitehall," near the Delaware Road, was built by Gen. Bradstreet, and during the Revolution is said to have been a secret rendezvous for Tories. Cherry Hill, just out of Albany, on the river road, was the residence of Gen. Solomon Van Rensselaer. A Ref. Prot. D. church was formed in colonial times, and in 1794 S. Van Rensselaer gave the society 100 acres of land, known as the parsonage farm.⁶

COEYMANS—(Quee'mans) was formed from Watervliet, March 18, 1791. A part of Westerlo was taken off in 1815. It was named from the patentee. It is the S. E. corner town in the county, and includes the adjacent islands in the Hudson. Its surface consists of an upland, 200 to 400 feet above the river, broken by ridges and hills rising 100 to 400 feet higher. The principal streams are the Coeymans⁷ and Haanakrois Creeks. In the former, at Coeymans village, are two falls at which the stream descends, in the aggregate, 75 feet. Lawsons Lake is a small sheet of water in the N. W. part of the town. A stratum of marble or limestone extends through the town 3 or 4 mi. from the river. In the N. E. part are two caves, the largest extending 40 rods into a perpendicular ledge. Fenri-Spruyt Kil, a small stream in the N. part, disappears, and flows for half a mi. in a subterranean passage, coming to the surface again in New Scotland. At the place where the stream disappears it falls perpendicularly into a deep cavity, forming a considerable water power. Another brook, in the W. part, flows in a similar manner under ground for 40 or 50 rods. There are several mineral springs in town, impregnated with sulphate of magnesia. In the E. the soil is sand mixed with clay, and in the W. it is gravel and clay. The fossil remains of an elephant were found on the farm of Mr. Shears, 4 mi. W. of the river. Large quantities of hay are sent annually from this town to the New York market. **Coeymans Landing**, (Coeymans p. o.) on the Hudson, is a village of considerable trade. Pop. 650. **Coeymans Hollow**, (p. o.) **Stephensville**, and **Indian Fields** (p. o.) are small villages in the valley of the Haanakrois. **Keefers Corners** is a p. o. Barent Peterse Coeymans, an emigrant from Utrecht in 1636, settled under the patroon as miller, and leased the mills upon the Patroon Creek and Normans Kil. In 1673 he bought the territory included in this town of the Catskill Indians, and a patent was granted him April 17, 1673, by Gov. Lovelace. Van Rensselaer had previously bought the same lands of the Mohawks: and a conflict of titles ensued. The matter was finally settled in 1706, by Coeymans agreeing to receive title under the patroon and pay a small annual quit rent.⁸ Settlement commenced early in the last century.⁹ The first mills were erected by the patentee at Coeymans

¹ Cornelius Schermerhorn kept a Tory rendezvous, and at one time an ascending paymaster from Burgoyne's army is said to have been murdered at his house.

² A parsonage farm was given to this church by S. Van Rensselaer, midway between Bernville and Peoria, and a church was erected upon it. In 1835 the society was divided, and a new edifice was erected at each of the villages, the farm being held in common by both societies. The census reports 13 churches in town; 4 M. E., 3 Christian, 3 Ref. Prot. D., and one, each, Bap., Evang. Luth., and Friends.

³ The proximity of this town to Albany has afforded an excellent market for produce, and much of the land has been devoted to the production of milk, butter, and culinary vegetables.

⁴ In 1618 Martin Gerritsen Van Bergen had a lease of this

island, and on some old maps, it is called Martin Gerritsen's Island.

⁵ A map dated 1630 gives the name of "Godyns Kil" to this stream. The Indian name was Tas-wal-sou-tha. The present name is derived from Albert Andriessen Bradt de Noorman, the lessee of the falls at an early period, and one of the first settlers.

⁶ The census reports 5 churches; 2 R. P. D., 2 M. E., 1 Presb.

⁷ The Indian name of this creek is said to have been O-ni-ske-than, and of the flats at Coeymans Hollow Ach-spu-tuck.

⁸ This arrangement was confirmed by patent from Queen Anne, Aug. 6, 1714.

⁹ Andreas and Lendert Whitbeck were early settlers near Ach-spu-tuck; Daniel Traver and Baldwin Keefers near Keefers Corners; and John and Thos. Witbeck near Indian Fields.

Falls. The first church (Ref. Prot. D.) was built in 1797, 1 mi. west of Coeymans Landing. This church was organized March 5, 1793, Rev. Jacob Siekles first pastor.¹

GUILDERLAND—was formed from Watervliet, Feb. 26, 1803. It lies near the center of the northern border of the county. Its surface is greatly diversified. In the w. rises the precipitous wall of the Helderberghs to a height of 800 feet above the general level of the valleys. The central part is undulating, and the eastern is occupied by numerous sand ridges. The Normans Kil with its branches, the Bozen Kil,² Black Creek, Wildehouse Kil, and Hunger Kil, are the principal streams. The lower course of the Normans Kil in this town is through a narrow ravine, with steep clayey banks. The soil is light and sandy in the e., and gravelly loam mixed with clay in the w. A mineral spring is found upon the farm of Wm. McGowan. **Hamiltonville**, (Guilderland p.o.) formerly known as the "Glass House,"³ is situated on the old turnpike, 8 mi. w. of Albany. **Guilderland Center**, (p.v.), locally known as "Bangall," contains 18 houses. **Dunnsville**,⁴ (p.o.) **Knowersville**,⁵ (p.o.) and **Frenchs Mills**,⁶ on the Normans Kil, are small villages. During the Revolution, a portion of the inhabitants sided with the British; and the feuds which grew up between families and neighborhoods have not yet entirely subsided.⁷ The Ev. Luth. church (St. John's) was organized Oct. 13, 1787. Heinrich Moeller was the first pastor.⁸

KNOX—named from John Knox, the Reformer—was formed from Bern, Feb. 28, 1822. It is the s. w. corner town of the county. Its surface consists of a high plateau region broken by a few small hills. Its eastern part constitutes a portion of the Helderbergh region; but the declivities are so gradual that they only serve to give to the town a moderate inclination towards the s. and w. The Bozen Kil, forming a part of the e. boundary, with its tributaries, and the Beaver Dam Creek, are the principal streams. There are two caves, supposed to be of considerable extent, about 1½ mi. s. of Knoxville. The soil is principally gravel and clay, with hard pan underneath. **Knoxville**⁹ (Knox p.o.) contains 23 houses. **W. Township**, (p.o.) **E. Township**, and **Peoria**, on the line of Bern, are small villages. This town was settled by Germans before the Revolution. During the war the people became divided in politics, and after the defeat of Burgoyne many of the tory families went to Canada.¹⁰ Saml. Abbot and Andrew Brown, from Conn., settled in town in 1789; and soon after 20 to 30 families came in from the same State. The first church was a Ref. Prot. D.¹¹

NEW SCOTLAND—was formed from Bethlehem, April 25, 1832. It is the central town of the county. The eastern and central parts are high and rolling, with occasional isolated hills and ridges; and the western border is occupied by the Helderbergh Mountains. The principal streams are Normans Kil, Vlamans Creek, and Coeymans Creek, (or Oniskethau Kil.) and several of their tributaries. Upon the side of Bennett Hill, in the s. w. part, is a strong sulphur spring. Near Clarksville are two caves, extending respectively ½ and ½ mi. under ground. Streams flow through each of them. The outlet of Lawsons Lake, in the s. w. part, about 1 mi. from the lake, falls into a deep cavity and flows ½ mi. in a subterranean passage, and in its course it receives a considerable tributary.¹² At the northern foot of Copeland Hill, near the same locality, are remarkable sink holes, 5 to 8 feet in diameter, and extending down through the soil and lime rock to a depth of 10 to 20 feet. A subterranean stream connects the bottoms of these cavities.¹³ The soil is a gravelly loam mixed with clay. **Clarksville** (p. v.) is situated at the foot of the Helderberghs, on Coeymans Creek, and contains 211 inhabitants. **New Salem** (p. v.) contains 27 houses; and **New Scotland** (p. v.) 15. **Unionville**, (Union Church p. o.) **Petribush**,

Since the Revolution, a small number of Indians belonging to the Oneida tribe lived in this town. They removed, but returned for a short time in 1812. An acct. of £10 was audited in 1792, for building stocks and a whipping post.

¹ The census reports 6 churches in town; 3 M. E., R. P. D., R. C., and Union.

² From "Boos," angry, because of its rapid descent and severe froshets.

³ A glass factory was erected here in 1792; and in 1793 the State loaned the proprietors £3000 for 8 years,—3 years without interest and 5 at 5 per cent. In 1796 the project was conceived of establishing here a manufacturing town, and the ground was laid out into streets and lots, under the name of Hamilton. To encourage the project, the company and workmen were exempted from taxation for 5 years. The works were discontinued in 1815 for want of fuel.—*Munsell's Annals*, vol. 111, p. 157.

⁴ Named from Christopher Dunn, original owner; locally known as "Hardscrabble."

⁵ An inn was kept here during the Revolution by Jacob Aker. It was the seat of a factory in 1800.

⁶ Named from Abel French, who built a factory here in 1800. A clothing works was erected here in 1795, by Peter K. Brueck.

⁷ The news of Burgoyne's surrender was celebrated by the whigs by burning a hollow chestnut tree on a hill. A barrel of tar had previously been turned down the hollow trunk and branches.

⁸ A R. P. D. church was formed Dec. 14, 1793. The census reports, besides those already mentioned, 3 churches; 2 Presb. and 1 M. E.

⁹ Knoxville was formerly known as "Union Street," and is still locally called "The Street."

¹⁰ Capt. Jacob Van Aerden was an active leader of the whigs of this section during the war.

¹¹ The census reports 6 churches; 3 M. E., R. P. D., Luth., and Bap.

¹² This cavity has been explored, and in it are found beautiful stalactites, and thousands of bats clinging to the roof.

¹³ This passage has been explored, and is found to contain several rooms of considerable size. Some years ago a notorious thief used this cavity as a depository for stolen goods, and for a

and **Oniskethau** (locally known as "Tarrytown") are hamlets. Tennis Slingerland, from Holland, was the first settler on the Oniskethau flats. He purchased 9874 acres, and built a dwelling near the center of the tract, and erected the first mills.¹ The first church (Ref. Prot. D.) was organized at New Salem about 1786.²

RENSSELAERVILLE—named from the Van Rensselaer family—was formed from Water-vliet, March 8, 1790. Bern was taken off in 1795, and a part of Westerlo in 1815. It is the s. w. corner town of the county. Its surface is mostly upland, broken by parallel ridges extending n. and s. and rising 400 to 600 feet above the valleys. The principal streams are Catskill Creek and its tributaries, Scrub, Fox, Ten Mile, and Eight Mile Creeks, and Willow Brook. The valleys of these streams are narrow, and are bordered by steep hill sides, and the streams are rapid, and subject to sudden and destructive freshets. Upon Ten Mile Creek, near Rensselaerville, is a fall of 100 feet; and upon Willow Brook is another of 40 feet. Bog iron has been found in the n. part. There is a sulphur spring 2½ miles n. e. of Preston Hollow. The soil is clay and gravel, underlaid by hard pan. **Rensselaerville**³ (p. v.) contains an academy.⁴ Pop. 561. **William-sburgh**, on the w. border of the town, contains 18 houses; **Preston Hollow**⁵ (p. v.) 40; and **Medusa**⁶ (p. v.) 30; **Potters Hollow**⁷ and **Cooksburg**⁸ are post-offices.⁹ The town was mostly settled by emigrants from New England soon after the Revolution. Michael Brandt, a German from Schoharie, lived in town during the war.¹⁰ Daniel Shay, the leader of the revolt known as Shay's Rebellion, moved to this town in 1795. Maj. John Edmonds, a Revolutionary officer, was also a settler in this town. The first church (Presb.) was formed in Nov. 1793, and the edifice erected in 1796.¹¹ Rev. Samuel Fuller was the first pastor.

WATERVLIET—was formed March 7, 1788, and included the w. district of the manor of Rensselaerwyck.¹² Rensselaerville was taken off in 1790, Coeymans in 1791, Bethlehem in 1792, Guilderland in 1803, and Niskayuna in 1809.¹³ It lies at the junction of the Hudson and Mohawk, in the n. e. corner of the county. Its surface is mostly an upland, 200 to 300 feet above the river. The declivities of this upland are broken by numerous gulleys worn by the small streams. A fine intervalle, nearly half a mile in width, extends along the Hudson. At Cohoes, on the Mohawk, the river flows over a rocky declivity 78 feet in height, of which 40 feet is perpendicular.¹⁴ The banks, both above and below the falls, are high and precipitous. The Erie Canal rises, by a series of 18 locks, from the Hudson, through the village of Cohoes, to the most northerly angle of the town 3 mi. above, and 188 feet above tide. At this point it crosses the river into Saratoga co., in a stone aqueduct, 1137½ feet long, 26 feet high, and resting upon 26 piers. The soil is a deep, rich alluvial upon the river intervalle, and a light, sandy loam upon the upland. Sulphur and chalybeate springs, and bog iron ore, are found in town. The quarries of graywacke furnish an excellent flagging and building stone. This is the most populous town in the State. **West Troy**, (p. v.) incorp. April 30, 1836, is a commercial and manufacturing village opposite the city of Troy. Pop. 8306. It is especially noted for the extent of its lumber trade, and for being the seat¹⁵

long time eluded the vigilance of those who were searching for him. At length he was tracked to his hiding place, and the existence of the cavity was made known.

¹ Among the other first settlers were Daniel Pangburn and Wm. Van Waller, at Stoney Hill; Ebenezer Wands, John Watt, Geo. Swan, and Wm. Kirkland, Scotch emigrants, near New Scotland; and Geo. Reed, John Patterson, Saml. Ramsey and sons, James McMullin, David Allen, Wm. McInloch, and ——— Brandt in other parts of the town.

² There are in town 8 churches; 4 Ref. Prot. D., 3 M. E., Presb. The Friends organized a meeting in 1812.

³ Samuel Jenkins, the first settler, located here February 22, 1788. ⁴ Opened Jan. 17, 1847.

⁶ Named from the family of first settlers, who came in soon after the Revolution.

⁶ Formerly called "Halls Mills," or "Halls Hollow."

⁷ Named from Saml. Potter, who, with his sons and brothers, were first settlers.

⁸ Named from Thomas B. Cook, who purchased land here in anticipation of business from the Catskill and Canajoharie R. R., which was completed to this place from the Hudson. The road was run two years, when the rails were taken up.

⁹ Upon the farm of Ezra Lester, in a place known as Willow Glen, formerly stood a village, known as "Beckham Hollow," consisting of 2 stores, 2 smith's shops, and 14 houses. For a time it was a rival of Rensselaerville; but now not a vestige of it remains.

¹⁰ At the time of the Indian incursion into Bern, Mr. B. had gone to Catskill Landing, leaving his family alone. On their return, the savages passed closely by their scalps, prisoners, and plunder, but offered no molestation.

¹¹ A Bap. church was formed at Rensselaerville in 1797; Rev.

Truman Benan was the first pastor. A Bap. church was formed at Preston Hollow in 1800; a Friends meeting at Potters Hollow in 1808; and Trinity Church (P. E.) was organized in 1816. There are besides, in town, 2 M. E. churches.

¹² The manor was divided into the East and West Districts, March 5, 1779, the river being the separating bounds. This district, as defined by act of March 24, 1772, embraced all that part of the manor north of an e. and w. line from Benon Island north to Cumberland co., except the city of Albany.

¹³ It includes the former village of "Gibbonsville," (incorp. April 23, 1823,) and places known as "Washington" and "Pat Schuyler."

¹⁴ The cascade is in full view from the R. R. bridge, a few rods below Cohoes. The Champlain Canal crosses the Mohawk a short distance below, in a pond formed by a dam 160 feet long and 7 feet high, and unites with the Erie Canal 2 m. s. of this point.

¹⁵ The arsenal grounds occupy about 100 acres, located between the Troy and Albany turnpike and the Erie Canal, the latter furnishing water power for the machinery of the arsenal. The grounds are enclosed by a high wall, excepting the part between the river and the turnpike. This is the principal government manufactory of gun carriages, machines, equipments, ammunition, and military supplies for the troops and forts of the United States. The building of this establishment was begun in 1814, under Col. Geo. Bomford of the Ordnance department, and it was for many years under the charge of Maj. Jas. Balliba. The Watervliet Arsenal now consists of more than thirty buildings, of brick and stone, mostly large shops and storehouses.—the former of which will accommodate, in case of need, more than 500 workmen. The stores deposited here exceed \$1,500,000 in value. A company of soldiers of the

of an extensive U. S. arsenal. It has a bank, printing office, 8 churches,¹ and extensive manufactures of woolen goods, bells, butts and hinges, castings, carriages, and malt. The annual aggregate value of manufactured products is about \$1,000,000.² **Green Island** (p. v.) was incorp. Oct. 14, 1853. Pop. 1,324. It contains 2 churches,³ a car factory, brass, malleable iron, and 2 iron foundries, and r. r. machine shops. It is also the seat of considerable lumber trade.⁴ **Cohoes**, (p. v.), incorp. under general act, is a manufacturing village upon the Mohawk.⁵ Pop. 6106. A dam is here erected across the Mohawk,⁶ and the water is conducted by canals to convenient places for factories. The whole fall is 103 feet, and the water is used 5 times from canals of different levels. The annual aggregate of manufactured products is nearly \$2,000,000.⁷ The village contains a savings bank, 6 churches,⁸ and a large number of stores, shops, &c. **Boght**⁹ (p. v.) contains 15 houses. The Ref. Prot. D. church of this place was organized April 14, 1784, by Rev. E. Westerlo. **Lishas Kil, Newtonville**,¹⁰ and **Ireland Corners**¹¹ are hamlets and p. offices. **Loudonville** is a hamlet, 2½ miles from Albany. **Tivoli Hollow**, on Patroon Creek, adjoining Albany, has extensive manufactures of ag. implements, bolts, and hollowware. **North Albany** lies on the river, north of the city, and contains 40 houses. It includes a portion of the "Lumber District" and several manufactories. **Spencerville**, or **West Albany**, is the name applied to the recent establishments of the N. Y. C. R. R., 3¼ mi. s. w. of the city, including the cattle and wood yards and car and engine houses of the company. The **Shaker Settlement**,¹² in the w. part of the town, consists of about 300 persons, living in 4 distinct families, in a manner peculiar to that people. **Town House Corners** is a populous neighborhood near the center of the town, where town business has usually been transacted. **Waterliet Center** (p. o.) is a hamlet. The Albany Rural Cemetery¹³ was incorp. April 20, 1841, and the site selected April 20, 1844. The premises were dedicated and consecrated Oct. 7 of the same year. Haver (Dutch for "Oat") and Van-Schaicks Islands, in the Hudson above Green Island, are separated from each other and the mainland by the "Sprouts" of the Mohawk. Upon the approach of Burgoyne, in the summer of 1777, Gen. Schuyler retired to these islands and threw up fortifications to check the advance of the enemy expected from both the s. and w. Upon the retreat of St. Ledger from the siege of Fort Stanwix, no further trouble was apprehended from the direction of the Mohawk Valley; and Gen. Gates, upon assuming the command of the northern army, advanced into Saratoga County. The traces of the fortifications are still visible.

WESTERLO¹⁴—was formed from Coeymans and Rensselaerville, March 16, 1815. It lies upon the center of the southern border of the county. Its surface is broken and hilly, with a general southerly inclination. The highest point in the northerly part of the town is 800 feet above tide. The hills are very steep and irregular, and the valleys are mere narrow ravines. The streams are Haanakrois, Basie, Wolf, Fly, and Eight Mile Creeks and their branches. These are all rapid streams, and are liable to severe freshets. The soil is a sandy and gravelly loam, inter-

Ordnance department forms the guard of the arsenal, and the men are also employed in the shops. Most of the employees are citizen mechanics. A large number of trophy cannon are deposited upon the premises.

¹ Bap. org. 1827; Ref. Prot. D., 1844; P. E., (Trinity,) 1855; 2 R. C., (St. Patrick's, 1839, and St. Bridget's, 1851,) and 2 M. E.

² The village is built on land formerly held by the Bleeker family. It was purchased by a company of Troy capitalists and laid out as a village, and has mostly grown up since the completion of the canals. ³ Presb., and M. E.

⁴ It is situated upon an island in the Hudson directly opposite the city of Troy, of which it forms a suburb.

⁵ The Cohoes Co. was incorp. March 28, 1826, with a capital of \$250,000, afterward increased to \$500,000. This co. built the dam, and constructed the canals, for the purpose of leasing the water power.

⁶ This dam is half a mile long, and the canal 2 miles long.

⁷ The following manufactories were reported here in the census of 1855:

6 knitting mills, value of product.....	\$647,100
2 cotton factories.....	618,000
1 wax and edge tool factory.....	210,000
2 brood-stead factories.....	45,000
1 veneering factory.....	42,000
2 mills.....	28,000
1 machine shop and foundry.....	34,200
1 tobacco factory.....	21,450
1 shoddy mill.....	21,840
1 wheel factory.....	9,000
1 straw paper factory.....	9,000
1 bobbin shop.....	6,000

There are now a considerable number of manufactories not included in the above list.

⁸ M. E., Ref. Prot. D., Presb., P. E., (St. John's,) Bap., and R. C., (St. Bernard.)

⁹ The Dutch for "bend," in reference to the bend in the Mohawk; sometimes called "Grosbeck Corners," from Wm. G. Grosbeck. One of the earliest settlements in the county was made in this neighborhood.

¹⁰ Named from J. M. Newton.

¹¹ Named from E. H. Ireland, innkeeper.

¹² This community was formed in 1776, by Ann Lee and her followers, by whom she is regarded as the spiritual mother of mankind. It is the oldest of the kind in the U. S., and now owns 2540 acres, including about 300 acres of alluvial land on the Mohawk at the mouth of the Schoharie Creek and on Shaker Island, which are annually fertilized by the floods of the Mohawk, and chiefly devoted to the raising of broom corn. The whole number of buildings in the settlement is about 150, several of which are of stone or brick. They have a commodious church, (built in 1818,) 3 offices, 1 schoolhouse, 8 dwellings, (suitable for 50 to 100 persons each,) 2 grist mills, 3 saw mills, 3 machine shops, for turning, sawing, &c., and numerous other shops and storerooms. Their pursuits are agriculture, horticulture, the manufacture of brooms and medicines, and such mechanical trades as their own wants require. The females are employed in household work, dressmaking, spinning, weaving, braiding whips and bonnets, and in making small saddle articles. They keep 40 to 50 horses, 80 cows, 16 yoke of oxen, 500 sheep, and young stock in proportion. "Mother Ann" (as their founder is affectionately named) was buried in the cemetery near the church family.

¹³ This cemetery is located upon the hills west of the Troy and Albany Road, 4 miles from the city. The grounds are tastefully laid out, and contain many elegant monuments.

¹⁴ Named in honor of Rev. Elisha Westerlo, of Albany.

spersed with clay and underlaid by hardpan. There are several fine quarries of flagging stone in town. **Chesterville**¹ (Westerlo p. o.) contains 196 inhabitants. **Dormansville**,² (p. o.,) **South Westerlo**, (p. o.,) **Lambs Corners**, and **Van Leuven's Corners**,³ are hamlets. Settlement commenced before the Revolution.⁴ A Bap. church was organized, about 1800, at Chesterville; Roswell Beckwith was the first pastor.⁵

¹ Named in honor of Rev. John Chester, former pastor of 2d Presb. Ch. of Albany.
² Named from Daniel Dorman, former inn and store keeper.
³ Named from Isaac Van Leuven. First called "Sackets Corners," from Jas. Sacket, and afterward "Preston Corners," from an innkeeper named Preston.
⁴ Among the early settlers were Nicholas Stoddard, Philip Meyer, and Lodowyck Haynes. Apollus Moore, afterward first

Judge of the county, taught school in 1788. Robt. O. K. Benet taught a school in 1790. Grant & Edie kept a store and made potash at Chesterville in 1798. Lebbell & Baker built the first mill about 1795.
⁵ The Ref. Prot. D. Ch. was formed about the same time Emanuel Church, (P. E.) at S. Westerlo, was formed in 1854. There are also 1 Christian and 2 M. E. churches, and a society of Friends, in town.

ALLEGANY COUNTY.

This county was formed from Genesee, April 7, 1806. A portion of Steuben co. was annexed March 11, 1808. Portions were set off to Genesee in 1811, and to Wyoming and Livingston in 1846. It lies upon the s. line of the State, w. of the center; is centrally distant 220 mi. from Albany, and contains 1,033 sq. mi. The surface is mostly an upland, separated into ridges and broken by the deep valleys of the streams. A large portion of the co. is rough and mountainous. The highest summits, in the s. part, are 500 to 800 feet above the valleys and 2,000 to 2,500 feet above tide. The declivities are usually too steep for profitable cultivation. Toward the n. the co. gradually loses its mountainous character and spreads out into a hilly region. The Genesee River flows in a n. e. direction through near the center of the co., forming a deep valley bordered by abrupt hillsides. The main ridges—parallel to the river and about 10 mi. distant from it—form watersheds, dividing the waters flowing n. from those flowing s. The streams e. of the e. ridge are tributaries of the Susquehanna, and those w. of the w. ridge of the Allegany. Narrow valleys break the continuity of these ridges, and in numerous instances streams flowing in opposite directions take their rise within a few rods of each other. The principal tributaries of the Genesee are Wigwam, Angelica, Philips, Vandemark, Dike, Chenunda, and Cryders Creeks on the e., and Fords, Knight, Van Campens, White, Black, Canadea, and Six Town Creeks on the w. The streams flowing e. from the e. border of the co. are Canaseraga and Sugar Creeks, Canisteo River, Karr Valley, McHenry Valley, and Whitney Valley Creeks; and the streams flowing w. from the w. border are Oil, Wolf, Dodges, Deer, and Little Genesee Creeks.

The rocks of the co. belong to the shales and sandstones of the Portage and Chemung groups,—the former appearing in the deep valleys in the n. part, and the latter covering the tops of the s. hills. At various localities the sandstone furnishes an excellent building material; and in Rushford it is quarried for grindstones. The shales in the s. w. part are highly charged with bituminous matter: and many of the springs have a strong bituminous taste and smell. From a spring in Cuba petroleum, or rock oil, issues in considerable quantities. Iron pyrites are found to some extent associated with the shale. Drift deposits are found in some portions of the co., though not in large quantities. The soil upon the uplands is generally a heavy clay, derived from the disintegration of the shales, and in most sections largely mixed with undecomposed fragments of the rocks. In the valleys the soil is mostly a gravelly loam and alluvium. From the nature of its surface and geological formation, the co. is best adapted to grazing; and, although wheat and the spring grains are successfully produced, stock and wool growing and dairying form the principal branches of agricultural pursuit. The manufacture of lumber has formed the leading interest for a long series of years, and facilitated the occupation and cultivation of the lands; but as the primitive pine forests have disappeared the pursuits of the people have become more and more exclusively agricultural. A considerable portion of the s. part of the co. is yet covered with forests, and lumbering is still pursued to some extent.

The county seat is located at the village of Angelica.¹ The courthouse is an old, dilapidated brick building, built in 1819, and now entirely inadequate to the comfortable accommodations of the courts. The jail is a wood structure, erected in 1849. It has no facilities for the proper classification of prisoners, and no means of ventilation.² The clerk's office is in a separate building, contiguous to the courthouse. The poorhouse is located upon a farm of 180 acres in Angelica, 2 mi. e. of the courthouse. It is a stone building, affording ample accommodations for

¹ By the act erecting the county in 1806, courts were directed to be held at Angelica on the 2d of June, 1807. By an act of March 11, 1808, the county seat was permanently located at Angelica, and a courthouse and jail were authorized to be erected, under the direction of Moses Carpenter, John Gibson, and Wm. Higgins. The jail was built soon after; but the courts continued to be held in private rooms until 1819, when the present courthouse was erected. The old jail continued to be occupied until 1849, when it was superseded by the present structure. An act was passed, April 2, 1858, providing for the immediate removal of the county seat s. to the line of the N. Y. & Erie R. R.; but the execution of the law has been arrested and restrained by legal proceedings now pending in the State courts. The first co. officers were Philip Church, *First Judge*; Jacob S. Holt, *County Clerk*; John Gibson, *Sheriff*; and Luke Godspeed, *Sarrogate*.

² The jail has an average number of 6 inmates, supported at a weekly cost of \$2.75 each.

the inmates, but is destitute of means of ventilation. The average number of inmates is 57, supported at a weekly cost of \$1.03 each. The farm yields a revenue of \$1,000.¹

The Genesee Valley Canal extends s. from the n. boundary of the co. along Genesee River to Belfast, thence up the valley of Black Creek to New Hudson, and thence across to the valley of Oil Creek, and down the valley of that stream to the w. bounds of the co. The N. Y. & Erie R. R. extends from Steuben co. up Whitney Valley Creek; thence across to Dyke Creek, and down the valley of that stream to Genesee River; thence down the Genesee to Belvidere; thence up Van Campens Creek to Friendship Village; thence across to the valley of Oil Creek, and down that stream to the w. bounds of the co. It passes through Almond, Alfred, Andover, Wellsville, Scio, Amity, Friendship, and Cuba. The Buffalo & N. Y. City R. R. extends through Burns and Grove, in the s. e. corner of the co.

Four weekly newspapers are now published in the co.²

The two western tiers of towns in this co. were included in the Holland Land Purchase, and the remaining part belonged to the Morris Reserve. John B. Church became the owner of 100,000 acres of this tract. His son, Judge Philip Church, subsequently became the proprietor of one-half, or 50,000 acres, and the pioneer settler of the tract at Angelica, in 1804. A few settlers had previously located at different points in the valley of the Genesee; and the settlement of the co. may be said to have commenced with the century. The roughness of the surface, and the superior richness of the lands further n., had a tendency to retard the development of this co.; and for many years comparatively little progress was made. The construction of the Genesee Valley Canal and of the Erie R. R. gave an impulse to improvement and afforded an opportunity to convey the rich products of the extensive pine forests to a profitable market. Agricultural improvements have slowly followed the retreat of the forests; and now nearly one-half of the co. is under improvement to some extent.

ALFRED—was formed from Angelica, March 11, 1808. A part of Angelica was annexed in 1816. Almond and Independence were taken off in 1821, a part of West Almond in 1833, and a part of Ward in 1856. It lies upon the e. border of the co., a little s. of the center. The surface consists of deep, irregular hills separated by narrow valleys. The highest summits are 500 to 800 feet above the streams. Whitney Valley Creek flows to the n. e., and Dyke Creek to the s. The soil upon the hills is a clayey or shaly loam, and in the valleys a gravelly loam. **Alfred Center** (p. v.) contains a church, the Alfred Academy and University,³ and 177 inhabitants; **Bakers Bridge**, (Alfred p. o.) in the n. e. corner, contains a church, flouring mill, and 134 inhabitants. It is a station upon the Erie Rail Road. **Tip Top Summit** is also a rail road station. The first settlement was made near Alfred Center, in May,

¹ In the report of the Senate committee of 1857, this institution is reported as poorly kept. Lunatics were confined for weeks together without attendance and without having their cells cleaned; and it was a custom of the keeper to flog the inmates with a raw hide.

² *The Angelica Republican* was started in Oct. 1820, by Franklin Cowdery, and was continued 2 years. In 1827 it was revived as

The Allegany Republican, published by Samuel P. Hull. In 1832 it was changed to

The Angelica Republican and Farmers and Mechanics' Press, issued by B. F. Sneed. During the same year it was again changed to

The Allegany Republican and Internal Improvement Advocate, and published by Peter Cherry. In 1836 it was issued as

The Angelica Republican and Allegany Whig. It soon after passed into the hands of Wm. Pitt Angell, who changed it to *The Angelica Reporter and Allegany Republican*. It soon passed into the hands of Samuel C. Wilson, and was issued for several years as

The Angelica Reporter. In 1841 it was published by Horace E. Purdy and Chas. Horton; and in 1844 Mr. Horton became sole proprietor. In 1856 he purchased *The Advocate and Whig*, and published the combined paper as

The Angelica Reporter and Angelica Advocate and Whig, under which name it is still issued.

The Republican Egis and Allegany Democrat was published at Angelica in 1830.

The Allegany Gazette was issued at Angelica in 1840.

The Allegany Co. Advocate was started at Angelica in Jan. 1842, by Erastus S. Palmer. It was successively issued by Elroy & Churchill, Peter S. Norris, and Wm. H. & C. M. Beecher. In 1852 it was united with *The Cuba Whig* and issued as

The Advocate and Whig. In 1856 the Beechers sold to Charles Horton, who united the paper with *The Reporter*.

The Republican Era was started at Angelica in 1844 and issued a short time.

The Republica Era was started at the village of Oramel in 1846 by Horace E. Purdy. Its publication was continued by different persons until 1857.

The Cuba Advocate was commenced at Cuba, Oct. 29, 1838, by Isaac C. Sheldon, and was continued several years.

The Political Investigator (mo.) was published at Angelica a short time in 1848.

The American Banner was commenced at Cuba in Feb. 1855, by Hatch & Pratt. In July, 1857, the name of the paper was changed to

The Southern Tier, and its publication continued by C. Pratt, M. B. Champin, editor.

The Almond Herald was commenced at Almond in 1855 by R. Benton, who published it 1 year, when it was suspended. In about 6 months it was resuscitated by Melvin Hyde and Isaac Bushy, and appeared under the name of

The Allegany Sentinel. Subsequently it passed into the hands of Pruner & Spencer, by whom the paper was published until 1856.

The Genesee Valley Free Press was commenced at Belfast in Jan. 1855, by A. N. Cole. In March following, the paper was removed to Wellsville, where the publication is continued by Mr. Cole.

The Rural Budget was commenced at Wellsville in Oct. 1856, by Richard O. Shant, by whom the publication is continued.

³ The academic part of this institution was incorp. in 1842, and the university in 1857. The erection of the university building has been commenced. It is under the charge of the Seventh Day Baptists. The building occupied by the female department was burned Feb. 14, 1858.

1807, by Clark Crandall, from Rensselaer co.¹ The first church (Seventh Day Bap.) was formed in 1816. There are now 2 churches in town; both Seventh Day Bap.

ALLEN—was formed from Angelica, Jan. 31, 1823. A part of Birdsall was taken off in 1829. It is an interior town, situated north of the center of the co. Its surface is a hilly upland, divided into ridges by the valleys of the streams. The highest summits are 500 to 700 feet above the valleys. The principal streams are Wignam, Plum, and Baker Creeks. The soil upon the uplands is clay underlaid by hardpan, and in the valleys a gravelly loam and alluvium. **Allen**, (p. o.), in the e. part, and **Allen Center** (p. o.) are hamlets. There are no stores, taverns, doctors, or lawyers in the town. A few small settlements were made about the commencement of the century, but the principal settlements were made subsequent to 1820.² The first religious services were conducted by Rev. Robert Hunter, (Presb.,) in 1821; and the first church (Presb.) was formed in 1830.³

ALMA—was formed from Willing, Nov. 23, 1854. It is the central town on the s. border of the co. The surface is broken and mountainous. Honeoye Creek and its branches, flowing in deep, narrow ravines, form the drainage. The greater part of the surface is yet covered with forests. The soil upon the uplands is a clayey and sandy loam, and in the valleys a gravelly loam and alluvium. Lumbering is the principal pursuit: and large quantities of pine lumber are annually manufactured. **Alma**, (p. v.) in the w. part of the town, contains a steam sawmill and 15 houses. The first settlement was made in 1833, by Warren Huff, from Quebec, Canada.⁴ The first religious services were performed by Rev. Reuben Kent, in 1838; and the first and only religious association (M. E.) in town was formed in 1850. There is no church edifice in town.

ALMOND—was formed from Alfred, March 16, 1821. A part of Birdsall was taken off in 1829, and a part of West Almond in 1833. It lies upon the e. border of the co., a little s. of the center. Its surface is mostly an upland, separated into several distinct ridges by the deep valleys of Canisteo River and the Karr Valley, McHenry Valley, and Whitney Valley Creeks. The highest summits are 500 to 800 ft. above the valleys. The soil is a gravelly and clay loam. Quarries of good building stone, and sulphur springs, are found in various localities. **Almond**, (p. v.) near the e. line, contains 2 churches, 2 flouring mills, several manufactories, and about 1,000 inhabitants. **Center Almond**, in Karr Valley, and **North Almond** are p. offices. The first settlement was made at Karr Valley, by Rev. Andrew Gray, Wm. Gray, Jos. Rathbun, and — Vandemark, all from Penn., in the spring of 1796.⁵ The first religious meeting was held at Karr Valley, by Rev. Andrew Gray, (Presb.,) in his own house, May 1, 1797; and the first church was formed, the same year, by Mr. Gray.⁶

AMITY—was formed from Angelica and Scio, Feb. 22, 1830. A part of Ward was taken off in 1856. It is an interior town, lying a little s. of the center of the co. The surface is hilly and broken, the summits rising 500 to 800 feet above the valleys. Genesee River flows n. w. through the w. part and receives as tributaries Van Campens and Philips Creeks. The valleys of these streams are narrow and are bordered by steep hillsides. The soil is principally a clayey and sandy loam. **Phillipsville**, (p. v.) on the Genesee, was incorp. Feb. 21, 1853. It contains 3 churches, 2 sawmills, a flouring mill, and about 1,000 inhabitants. It is a station upon the rail road. **Belvidere**, (p. v.) on the Genesee, at the mouth of Van Campens Creek, in the n. w. corner of the town, contains 3 sawmills and 181 inhabitants. It is also a rail road station. The first settlement was made in 1804, near Belvidere, by John T. Hyde.⁷ The first religious

¹ Nathan Green, from Madison co., settled at Bakers Bridge in 1807. The first child born was Rebecca Stillman, in 1808; the first marriage, that of Luke Maxson and Susan Green; and the first death, that of Chas. H. Clark, who accidentally shot himself. Nancy Teator taught the first school, in 1815; John Teator kept the first inn, in 1818; and E. S. Davis built the first sawmill, in 1821, and the first gristmill, in 1824.

² The first school was taught near the s. line, in 1820. The first inn was kept by Mrs. Armstrong, near the s. line, in 1827. The first sawmill was erected by Asher Mamer, on Wigwam Creek, in 1825.

³ The census reports 3 churches; Cong. Bap., and M. E.

⁴ The first child born was Emeline, daughter of Azor Hurlbut, Sept. 1, 1836; and the first death, that of John Bazley, in 1838. The first school was taught by Clarinda Kent, in 1829. Azor Hurlbut kept the first inn, in 1837. Saml J. Peet the first store, in 1841; and John W. Post erected the first sawmill, in 1843.

⁵ Maj. Moses Van Campen, Capt. Henry McHenry, Walter, Jos., and Saml' Karr, Silas Ferry, Stephen Major, Benj. Van Campen,

Matthew McHenry, Jos. Coleman, and Geo. Lockhart, all from Luzerne co., Penn., settled in the town in 1797. The first child born was Wm. McHenry, in 1799; the first marriage, that of Peter Putnam and Polly Waters, in 1804; and the first death, that of Matthew McHenry, in 1801. The first school was taught at Karr Valley, by Jos. A. Rathbun, in Dec. 1802. Benj. Van Campen kept the first inn, at Karr Valley, in 1805; and Phineas Stevens built the first sawmill, in 1806, at Almond Village, and Asa Clark the first gristmill, in 1818.

⁶ The census reports 3 churches; Presb., Bap., and Wes. Meth.

⁷ Harry Davis, from Hampshire co., Mass., settled near Phillipsville in 1805. The first child born was Hannah Hyde, Nov. 4, 1804; the first marriage, that of Leammil Astley and Rachel Baker, in 1807; and the first death, that of Harvey Manning, in 1806. Polly Baker taught the first school, in 1810; Ebenezer Hyde kept the first inn, at Belvidere, in 1809; Alvin E. Parker the first store, at Phillipsville, in 1830; and Philip Church built the first sawmill, on Genesee River, in 1806, and the first gristmill, in 1808.

meeting was held at the house of Samuel Van Campen, by Rev. Robert Hubbard, (Presb.,) in 1814; and the first church (Bap.) was formed by Rev. Jonathan Post, in 1816.¹

ANDOVER—was formed from Independence, Jan. 28, 1824. A part of Independence was taken off in 1824, and a part of Wellsville in 1855. It lies upon the e. border of the co., s. of the center. The surface is very hilly and still retains some of the original pine forests. Dyke Creek flows s. w., receiving several small tributaries. The soil is chiefly a heavy loam resting on hardpan. The primitive forests had a large proportion of pine; and the manufacture of pine lumber—for many years a leading pursuit—is still carried on to some extent. **Andover**, (p. v.,) near the center of the town, contains 4 churches, a grist and saw mill, and 374 inhabitants. It is a R. R. station. **Shoemakers Corners** (Elm Valley p. o.) is a hamlet on the w. line of the town. The first settlement was made in the spring of 1795, by Nathaniel Dyke, from Tioga Point, Penn.—originally from Conn.² The first religious meeting was held at the house of Mr. Dyke, by Rev. Silas Hubbard, in 1808; and the first church (Cong.) was formed by Rev. Robert Hubbard, July 4, 1824.³

ANGELICA⁴—was formed from Leicester, (Livingston co.,) Feb. 25, 1805. Alfred and Canadea were taken off in 1808, Allen and Scio in 1823, a part of Amity in 1830, and a part of West Almond in 1833; and a part was annexed to Alfred in 1816. It lies a little n. of the center of the co. Its surface is a hilly upland, broken by the deep ravines of the streams. Genesee River flows across the s. w. corner, and its tributary, Knights Creek, through the center. The soil is a clayey loam upon the uplands, and a gravelly loam in the valleys. **Angelica**, (p. v.,) on Knights Creek, a little n. of the center of the town, was incorp. May 2, 1855. Besides the co. buildings, it contains the Angelica Academy, 5 churches, 1 bank, 2 newspaper offices, and several mills and manufactories. Pop. 846. The first settlement was made on the site of the village, in 1802, by Philip Church.⁵ The first church (Presb.) was formed by Rev. Robt. Hubbard, in 1811.⁶

BELFAST—was formed from Canadea, March 24, 1824, as "*Orrinsburgh*." Its name was changed April 21, 1825. A part of Canadea was annexed in 1831. It lies a little n. w. of the center of the co. Its surface is a hilly upland, separated into distinct ridges. Genesee River flows across the n. e. corner. Black and White Creeks, the other principal streams, flow through narrow, irregular valleys bordered by abrupt hillsides. The highest summits are 600 to 800 feet above the streams. The soil is a clayey loam upon the hills, and a gravelly loam in the valleys. **Belfast**, (p. v.,) on the Genesee, near the mouth of Black Creek, contains 3 churches, the Genesee Valley Seminary,⁷ and several mills. Pop. 801. At this place considerable commerce is carried on by means of the Genesee Valley Canal. **Beckville**,⁸ (p. o.,) in the w. part, and **Transit Bridge**, (p. o.,) in the e., are hamlets. The first settlement was made on Genesee River, in 1803, by Benjamin, Elisha, Calvin, and David Chamberlin, brothers, from Penn.⁹ Rev. Ephraim Sanford (Bap.) held the first religious meeting, at the house of Nath'l Reynolds, in 1806, and formed the first church, in 1807-08.¹⁰

BIRDSALL¹¹—was formed from Allen and Almond, May 4, 1829. It is an interior town, lying n. e. of the center of the co. Its surface is principally a hilly upland, separated into several distinct ridges. The declivities are usually very abrupt, and the highest summits are 500 to 800 feet above the valleys. Black Creek and its branches form the principal drainage. The soil is

¹ The census reports 4 churches; Bap., Cong., M. E., and Univ.

² Mr. Dyke was educated at Yale College, served as an officer during the Revolutionary War, was attached to the staff of Gen. Warren at Boston, and subsequently to that of Gen. Washington. Stephen Cole settled on lot adjoining Dyke, in 1796, and Benj. Brookings and John T. Hyde, from Vt., near the same place, soon after. The first child born was Daniel Cole, Feb. 18, 1797; the first marriage, that of Isaac Dyke and Pamela Gibson, in 1802; and the first death, that of Zerah, daughter of James Dyke, Jan. 21, 1798. Robert Reed taught the first school, in 1820; Luther Strong built the first saw and grist mill, in 1819, and kept the first inn, in 1820; and Asa S. Allen kept the first store, in 1823.

³ The census reports 4 churches; Bap., Cong., M. E., and R. C.

⁴ Named from Angelica, wife of John B. Church and eldest daughter of Gen. Philip Schuyler.

⁵ Mr. Church was son of John B. Church and grandson of Gen. Schuyler. Evert Van Winkle, John Gibson, and John Lewis settled in the town in 1802, and John Ayers in 1803. The first child born was Catherine S. Mullender; the first marriage, that of Sylvanus Bussell and Esther Van Winkle, in 1805; and the first death, that of Frederick S. Smith, Sept. 29, 1803. Wilbur S. Smith taught the first school, in 1844-05; Philip Church built the first saw and grist mill, in 1802-03, and kept the first store, in 1803; and Jos.

Taylor kept the first inn, in 1804. Hyde de Neville—an exile during the Government of the Empire, and minister to the U. S. upon the restoration of the French monarchy, from 1816 to 1822—resided at Angelica in 1807-08. Victor Dupont, also a distinguished French exile, was an early settler at Angelica.

⁶ The census reports 6 churches; Presb., Prot. E., Bap., M. E., Ref. Prot. D., and R. C.

⁷ This institution was chartered in 1856 and opened Dec. 2, 1857. It will accommodate 500 students, and is under the charge of the M. E. Church.

⁸ Named from a grind-stone quarry in the vicinity. This quarry is not now worked.

⁹ Jed-diah Nolles, from Elmira, settled on the river and Benj. Littleton, from the same place, on Wagwan Creek, in 1806. The first child born was Moses V. Chamberlin; and the first marriage, that of John Sanford and Mary Collier, in 1806. Rigbt Reynolds taught the first school in 1807; Jos. S. Bayard kept the first inn, near the village, in 1821, and Sam'l King the first store, in 1824. David Sanford erected the first saw and grist mill, on the river, near the village, in 1809.

¹⁰ There are 5 churches in town; Bap., Cong., M. E., Univ., and R. C.

¹¹ Named from Judge John Birdsall, Circuit Judge of the Eighth Judicial District in 1828-29.

a clay loam underlaid by hardpan. **Birdsall**, (p. o.) in the n. w. part, and **Birdsall Center**, (p. o.) are hamlets. The first settlement was made by Josiah Whitman, on Lot 24, in 1816. The first religious meeting was held at the house of Wm. Day, in 1823,¹ by Rev. Robert Hubbard; and the first church (M. E.) was formed by Rev. Eleazur Day, in 1825.²

BOLIVAR—was formed from Friendship, Feb. 15, 1825; and a part of Wirt was taken off in 1838. It lies upon the s. border of the co., w. of the center. Its surface is a broken, mountainous upland, in some parts too steep for profitable cultivation. The streams are Little Genesee, Honeoye, and Horse Creeks. The soil upon the hills is a reddish clay loam, and in the valleys a gravelly loam. **Bolivar**, (p. v.) n. of the center, contains a church, flouring mill, and 157 inhabitants. **Honeoye Corners** (S. Bolivar p. o.) is a hamlet near the s. border. Timothy Cowles, from Otsego co., settled in the w. part of the town in 1819.³ The first religious services were held by Austin Cowles, (M. E.,) in 1820; and the first church (M. E.) was organized in 1828.⁴

BURNS—was formed from Ossian, (Livingston co.,) March 17, 1826. It lies upon the e. border of the co., n. of the center. Its surface is very hilly and broken, the highest summits being 400 to 700 feet above the valleys. The principal streams are Canaseraga, South Valley, and Slader Creeks. **Canaseraga**,⁵ (p. v.) in the n. part, contains 2 churches, the Canaseraga Academy,⁶ several mills, and about 200 inhabitants. It is a station on the B. & N. Y. City R. R. **Burns**, (p. v.,) on the E. line of the town, contains 1 church and 20 dwellings. It is also a r. r. station. **Whitneys Crossing** is a p. o. in the w. part. The first settlement was made at Whitney Valley, in 1805, by Moses and Jeremiah Gregory, John Gaddis, and Samuel Rodman.⁷ The first religious meeting (M. E.) was held at the house of Moses Gregory, by Robert Parker, in 1806; and the first church (Bap.) was formed at Whitney Valley, by Rev. Jesse Braman, in 1817.⁸

CANEADEA—was formed from Angelica, March 11, 1808. Friendship was taken off in 1815, Rushford in 1816, "*Orrinsburgh*" (now Belfast) in 1824, and a part of Belfast in 1831. It is an interior town, lying n. w. of the center of the co. Its surface is divided into two ridges by Genesee River, which flows in a northerly direction through the center. The soil upon the highlands is a gravelly and clayey loam, and in the valleys a gravelly loam and alluvium. Upon Canadea Creek is a valuable stone quarry. **Oramel**, (p. v.,) upon the Genesee, in the s. part, was incorp. June 9, 1856. It is an important canal village, and contains 2 churches, several mills, and 733 inhabitants. **Canadea**, (p. v.,) at the mouth of Canadea Creek, contains 1 church, 3 mills, and about 400 inhabitants. **Houghton Creek** is a p. o. in the n. part. The first settlement was made about the commencement of the century, by a Mr. Schooner, from Penn.⁹ The first religious meeting (Bap.) was held by Elder Ephraim Sanford, in his own house, at Oramel Village, in 1804.¹⁰

CENTERVILLE—was formed from Pike, (Wyoming co.,) Jan. 15, 1819. It is the n. w. corner town of the co. Its surface is a moderately hilly upland. Six Town Creek and its branches form the principal drainage. The soil is a heavy clay loam. **Centerville** (p. v.) contains 2 churches and about 150 inhabitants. The first settlements were made by Jos. Maxson, of R. I., in April, 1808, and by James Ward, in the fall of the same year.¹¹ The first religious meeting

¹ James Mathews, from N. J., settled on Section 21, near the center, in 1818. Previous to this, — Vance, Wm. P. Schaaneck, from N. J., Jeremiah Van Wormer, and Wm. Day, from Cayuga co., had located in town. The first child born was James E. Mathews, March 7, 1820; and the first marriage, that of Sam'l Van Winkle and Harriet Freeman, in 1821. Hannah Scott taught the first school, in 1822. Josiah Whitman kept the first inn, in 1820, and Joseph B. Welch the first store, in 1828. The first sawmill was erected on Black Creek, by Elias Hull and David Peterson, in 1823.

² There are 3 churches in town; M. E., F. W. Bap., and R. C.

³ Christopher Tyler settled in 1819, Austin and Asa Cowles in 1820, in the w. part of the town,—all from Otsego co. The first birth was that of Almond W. Cowles, in 1820; the first marriage, that of Daniel Kellogg and Sophia Hitchcock, in 1825; and the first death, that of a child of Luther Austin, in 1823. The first school was taught by Austin Cowles, in 1820-21. Hollis B. Newton kept the first inn, in 1821, and Newton & Cowles the first store, in 1825. The first sawmill was built by Asa and Austin Cowles, near the village, on Genesee Creek, in 1822, and the first gristmill, by Asa Cowles, at the village, in 1824.

⁴ The census reports 3 churches; 2 M. E. and Bap.

⁵ Formerly called "*Whitney Valley*."

⁶ This institution was formed in 1856, and is in charge of the Bap. denomination.

⁷ Wm. Carroll and Wm. Hopkins settled at South Valley, Elijah and Daniel Abbott, Elias Van Scoter, and Thos. Quick, all from

Penn., at De Witts Valley, and Sam'l Boylan, at Whitney Valley, in 1806. The first child born was Lewis W. Carroll, Aug. 1, 1807; the first marriage, that of John Gregory and Betsey Doty; and the first deaths, those of Jeremiah Gregory, who was killed by the fall of a tree, April 4, 1812, and his twin-brother, killed in the same manner, Sept. 17 of the same year. The first school was taught at Canaseraga, by Wm. Crooks, in 1810. S. De Witt Brown kept the first inn, at "*De Witts Valley*," (now Burns Village,) in 1826, and Isaac N. Town the first store, at Canaseraga, in 1828. Daniel Schull erected the first gristmill, in 1810, and David McCurdy the first sawmill, in 1813.

⁸ There are 5 churches in town; Bap., F. W. Bap., Presb., Prof. E., and M. E.

⁹ Ephraim Sanford, jr., Zephaniah Huff, David Sanford, and Nehemiah Sears settled in 1803, and Ezra Sanford and others soon after. The first children born were Moses V. Chamberlain and Betsey Sanford, both in 1806. The first school was taught, near the center, by Asa Harris, in 1811. The first inn was kept by Widow Brailley, from Penn., at the center, in 1810; and the first store, at the same place, by ——— Hunt, in 1812. John Hoyt erected the first sawmill, at the mouth of Canadea Creek, in 1810, and David Hitchcock put the first carding machine in operation, in 1810, on Canadea Creek.

¹⁰ The census reports 2 churches; Cong. and M. E.

¹¹ Calvin P. Perry, from Berkshire co., Mass., settled near Mr. Maxson in 1808. Abraham and David Jolatt, Brothers, were the next settlers in the order of time; and next were Zacheus, Thos.,

(Bap.) was held by Rev. John Griffith. The first church (Presb.) was formed in July, 1824, by Rev. Silas Hubbard.¹

CLARKSVILLE—was formed from Cuba, May 11, 1835. It lies upon the w. border of the co., s. of the center. Its surface is a mountainous upland, divided into several steep ridges by the narrow valleys of the streams. The highest summits are 700 to 1,000 ft. above the canal at Cuba. Dodges Creek and its branches form the principal drainage. The soil is principally a heavy clay loam. Considerable pine lumber is still made in town. **Clarksville Corners**, (West Clarksville p. o.), near the center, contains a church, sawmill, and 12 dwellings. The first settlement was made a little s. of the center, in 1822, by John and Horatio Slayton, from Warsaw, Wyoming co.² The first religious meeting (M. E.) was held at the house of Nelson Hoyt, in 1828, by Rev. Mr. Cole, from Friendship; and the first church (Bap.) was organized by Rev. Holden E. Prosser, in 1842, and is still the only church in town.

CUBA—was formed from Friendship, Feb. 4, 1822. Genesee was taken off in 1830, and Clarksville in 1835. It lies upon the w. border of the co., s. of the center. Its surface is a broken and mountainous upland, divided into irregular ridges by steep and narrow valleys. Oil Creek and its branches form the principal drainage. The canal and r. r. both extend through the narrow valleys of this town.³ The highest summits are 600 to 800 ft. above the level of the canal. The soil is a clayey and gravelly loam.⁴ **Cuba**, (p. v.), on Oil Creek, incorp. Nov. 11, 1850, contains 5 churches, a newspaper office, and several mills and manufactories. Pop. 816. **North Cuba**, (Seymour p. o.), in the n. part, contains 20 houses. **Cuba Summit** is a r. r. station. Settlement was commenced in 1817, by Salmon Abbott, — Freer, and — Hall, from Conn.⁵ The first religious meeting was held by Rev. Robt. Hubbard, in 1818; and the first church (Bap.) was formed in 1824.⁶

FRIENDSHIP—was formed from Canadea, March 24, 1815. Cuba was taken off in 1822, Bolivar in 1825, and a part of Wirt in 1838. It is an interior town, lying a little s. w. of the center of the co. Its surface is broken by high, mountainous ridges, the summits of which are 600 to 800 feet above the valleys. It is drained by Van Campens Creek and its branches. The soil is a clay and gravelly loam. **Friendship**, (p. v.), near the Center, contains 4 churches, the Friendship Academy, 2 flouring mills, 25 sawmills, and about 800 inhabitants; **Nile**, (p. v.), in the s. part of the town, contains a church, 3 mills, and 40 dwellings. The first settlement was made in Nov. 1806, by Richard Frair, from Kingston, Ulster co.⁷ The first religious service was held in a barn, by Samuel Vary, in July, 1810; and the first church (Presb.) was formed by Rev. Robert Hubbard, in the spring of 1813.⁸

GENESEE—was formed from Cuba, April 16, 1830. It is the s. w. corner town in the co. Its surface is very broken and mountainous; and the highest summits are 1,000 to 1,400 feet above the valleys.⁹ The streams are Little Genesee, Dodges, Deer, Windfall, and Oswayo Creeks,—all flowing through narrow, mountainous ravines. The soil is a sandy and clayey loam. A considerable portion of the surface is still covered with pine, and lumbering is extensively carried on. **Little Genesee**, (p. v.), in the s. e. part of the town, contains a church, sawmill, and 30

and Strong Warner, Perkins B. Woodward, from Ashford, Conn., settled a little s. of the center, Sargent Morrell, from Vt., in the s. part of the town, in 1810, and Benj. Blanchard, from Vt., on Oct. 25, in 1811. The first birth and the first death in town was that of a child of Calvin P. Perry, in June, 1809; and the first marriage, that of Wm. Foy and Ruth Merrill, in 1811. Perkins B. Woodward taught the first school, in the winter of 1813-14; Benj. and Mark Blanchard and Eber Hetchkiss erected the first sawmill, on Six Mile Creek, in 1813; and Bussell Higgins and Packard Bruce the first gristmill, in 1817, on the same stream. — Thatcher kept the first inn, at the center, in 1810, and Sparrow Smith the first store, at the same place, in 1820.

¹ The census reports 4 churches; 2 Presb., Cong., and M. E.
² James McDougal, from Steuben co., settled a little e. of the center, and Jabez Survey near the same place, in 1827. The first child born was Jos. P. Slayton, in 1826; the first marriage, that of Van Kesselser Delivan and Harriet Palmer, in 1827; and the first death, that of Mrs. Sally Olds, in 1831. The first school was taught by Maria McDougal, e. of the center, in 1827. Daniel S. Carpenter kept the first inn, near the center, in 1828; and Samuel King erected the first sawmill, on Dodge Creek, in 1832.

³ The n. e. crosses the Genesee Valley Canal in this town, near the reservoir built to feed the summit level of the canal. The reservoir—built, at a cost of \$150,000, by the erection of a dam across Oil Creek—is 60 ft. high. It raises a pond that covers an area of 500 acres, and finds an outlet near its head, so that no water runs over the dam. Its capacity when full is estimated to be equal to 200 m. of canal.

⁴ The celebrated Oil Spring, in the w. part of this town, is

situated upon the Indian Oil Spring Reservation. It is a dirty pool, 20 ft. in diameter, and has no outlet. The water is mixed with bitumen, which collects upon the surface. There are several quarries of good building stone in town.

⁵ John Bennett, Andrew Hawley, and Stephen Cole came about the same time. The first death was that of Andrew Hull. The first school was taught by David Bow, in 1822. Stephen Cole kept the first inn, near the center, in 1814, and King & Graves the first store, in 1821 or '22. The first sawmill was built by Wm. Dwyer, on Oil Creek, in 1815; and the first gristmill, by Gady & Baldwin, on the same stream, in 1822.

⁶ The census reports 5 churches; Bap., Presb., Prot. E., M. E., and R. C.

⁷ John Harrison and Simon and Zealun Gates settled in June, 1807. The first birth was that of Sherman Haskins, in a sugar camp, in March, 1808; the first marriage, that of Jos. Sanford and Sally Harrison, in Dec. 1808; and the first death, that of Hattie Frair, in Dec. 1806. The first school was taught by Pelatiah Morgan, in the winter of 1810-11. Simon Gates opened the first inn, in May, 1808, and Stephen Smith the first store, in the spring of 1818. Sylvanus Meriman and Aaron Axtell built the first gristmill, in 1810; and Ebenezer Stearns the first sawmill, in 1815, and a mill for wool ending and cloth dressing, in 1816.

⁸ The census reports 5 churches; Bap., Seventh Day Bap., Cong., M. E., and Univ.

⁹ Upon a high summit near the center is a locality known as "Rock City." It consists of a tract of 40 acres covered with conglomerate, composed of milkwhite pebbles broken into regular layers, forming alleys and streets.

dwellings; and **Ceres**, (p. v.) on the s. line, a church and 12 dwellings. The first settlement was made on Genesee Creek, on Lot 3, in the E. part of the town, in 1823, by Jabez Burdick, from Rensselaer co.¹ The first religious services (Seventh Day Bap.) were held by Rev. John Green, in 1826; and the first church (Seventh Day Bap.) was organized, in 1827, by Rev. Henry P. Green.²

GRANGER—was formed from Grove, as "*West Grove*," April 18, 1838. Its name was changed March 6, 1839. It is the central town upon the n. border of the co. It is a hilly upland, divided into several distinct ridges. Genesee River, forming a portion of the w. boundary, is bordered by abrupt hillsides 600 to 800 feet high. The soil is a clayey loam upon the hills, and a gravelly loam in the valleys. **Short Tract** is a p. o. in the s. part of the town, **Granger** a p. o. in the n., and **Grove** a p. o. in the E. The first settlement was made near Short Tract, in Feb. 1816, by Reuben Wilcox, Isaac Smith, and Rufus Trumbull, from Vt., and Elias Smith, from Otsego co.³ The first religious meeting was held at the house of Elias Smith, in 1818, by Rev. Mr. Hill, (M. E.) and the first church (M. E.) was organized about 1830.⁴

GROVE—was formed from Nunda, (Livingston co.) March 8, 1827, as "*Church Tract*." Its name was changed in 1828, and Grauger was taken off in 1838. It lies upon the n. border of the co., near the n. e. corner. Its surface is a hilly upland, divided into several distinct ridges. A valley in the E. part is known as Chautauque Valley. Branches of Black and Canasraga Creeks form the drainage. The soil upon the hills is a clay loam underlaid by hardpan, and in the valleys a gravelly loam. **Swainsville** is a p. o. on the R. R., in the E. part of the town, and **Chautauque Valley** a p. o. on the R. R., in the n. e. part. **Grove Center** is a hamlet. John White, from Herkimer co., made the first settlement, in May, 1818, in the n. w. part.⁵ The first religious meeting (M. E.) was held at the house of Mr. White, by Rev. Cyrus Story, in 1820; and the first church (M. E.) was formed in the White Settlement, in 1821.⁶

HUME—was formed from Pike, (Wyoming co.) Feb. 20, 1822. It lies upon the n. border of the co., w. of the center. Its surface is a hilly upland. Genesee River flows through the s. e. corner and forms a portion of the E. boundary. It is bordered by abrupt hills rising to a height of 400 to 700 feet. The other principal streams are Six Town and Cold Creeks. The soil is a gravelly and clayey loam. **Cold Creek**, (Hume p. o.) near the center of the town, contains 2 churches, a saw and grist mill, and about 300 inhabitants; **Fillmore**, (p. v.) a canal village at the mouth of Cold Creek, contains a church, a saw and grist mill, and 372 inhabitants. **Wisecoy**, on Wisecoy Creek, and **Mill's Mills**, in the n. part, are p. offices. **Nixville**, at the mouth of Wisecoy Creek, contains a church, saw and grist mill, and 200 inhabitants. An immense water-power at this place is but little used. The first settlement was made at Mill's Mills, in 1807, by Roger Mills, from Montgomery co.⁷ The census reports 5 churches in town.⁸

INDEPENDENCE—was formed from Alfred, March 16, 1821. Andover was taken off in 1824, and a part of Willing in 1851. It is the s. e. corner town in the co. The surface is a mountainous upland, broken by deep, narrow valleys. The highest summits are 800 to 1,200 ft. above the valleys. The streams are Cryder and Chenunda Creeks. The soil is principally a gravelly loam with sections of sand. **Whitesville**, (p. v.) s. e. of the center, contains 2 churches and several mills and manufacturing establishments. Pop. 220. **Spring Mills**, (p. v.) in the s. e. corner, contains several mills and 14 dwellings; **Greens Corners**, (Independence p. o.) in the n. part, contains a church and 16 dwellings. The first settlement was made in 1798, by John Cryder, who built a house, a sawmill, and made other improvements, and soon after abandoned them and left the country. The first permanent settlement was made by Samuel S. White, from Madison co.,

¹ Roswell Streeter, from Rensselaer co., settled in 1823, and Ezekiel Grand-H and Joseph Wells, from R. L., in 1826, on Windfall and Canas Creeks. Joseph Maxson, from R. L., and John Cook, settled in the w. part in 1827. The first child born was Edward W. Burdick, in 1826; the first marriage, that of Joseph Allen and Phoebe Maxson, in the same year; and the first death, that of Arvilla Burdick, in 1824. The first school was taught by Henry P. Green, near the mouth of Windfall Creek, in the winter of 1826-27. Lewis P. Coon kept the first inn, in 1842, at Genesee Valley, and Albert Langworthy the first store, in 1831. The first sawmill was built on Genesee Creek, by Newman Crabtree, in 1820. No liquor license has ever been granted in the town; and it is claimed that no inhabitant has ever been sent to a prison or a poorhouse.

² The census reports 3 churches; all Seventh Day Bap.

³ The first birth was that of a child of Elias Smith, in March, 1817; and the first death, that of Olive Lince, in 1817. The first school was taught in the Smith Settlement, by Miss Williams, in

1819. Elias Smith kept the first inn, in 1819, and the first store, in 1820. Isaac Van Nostrand erected the first gristmill, in 1831, and the first sawmill, in 1823.

⁴ The census reports 2 churches; M. E. and Wes. Meth.

⁵ In the same year Alex. Bailey, from Vt., settled near Mr. White. The first child born was Laura Bailey, Dec. 25, 1820; and the first marriage, that of Elijah White and Lucy Duce, in 1822. The first school was taught by Emily Page, in 1825. Henry Andrews kept the first inn, in 1828, in the S. w. corner, and Thayer A. Smith the first store, at or near the same place, in 1825. John S. Culver erected the first sawmill, in the N. part.

⁶ There are 4 churches in town; 3 M. E. and Bap.

⁷ The first school was taught in the barn of Roger Mills, jr., in the summer of 1812, by Caroline Russell, from Montgomery co. Geo. Mills kept the first inn, at Mills Mills, in 1815, and Elsha Mills the first store, at the same place, in 1809. Roger Mills erected the first sawmill, in 1807, and the first gristmill, in 1808.

⁸ Cong. Bap., F. W. Bap., M. E., and Wes. Meth.

in the spring of 1819, at Whitesville.¹ The first religious meeting was held at the house of Sam'l S. White, by Rev. Daniel Babcock, (Seventh Day Bap.,) Jan. 1, 1820.²

NEW HUDSON—was formed from Rushford, April 10, 1825, as "*Hought*." Its name was changed April 4, 1837. It lies upon the w. border of the co., a little n. of the center. The surface is a hilly upland, broken by valleys extending n. r. and s. w. The principal streams are Black, Oil and Rush Creeks. The soil is a gravelly or clayey loam. **McGrawville**, (New Hudson p. o.) on the n. line, contains a church, 2 sawmills, and 20 dwellings; **New Hudson Corners**, (Black Creek p. o.) in the s. part, contains 2 churches and 30 dwellings. **North Valley** is a hamlet near McGrawville. The first settlement was made on Lot 49, in the s. part, by Spenceer Lyon, from Waterbury, Vt., in 1820.³ The first religious meeting was held by Rev. James Eastwood, (M. E.,) at his own house, in 1821. The first church (Presb.) was formed with 6 members, by Rev. Robert Hubbard, June 4, 1822.⁴

RUSHFORD—was formed from Caneadea, March 8, 1816. New Hudson was taken off in 1825. It lies upon the w. border of the co., n. of the center. Its surface is a hilly upland, divided into two distinct districts by Caneadea Creek, which flows e. through near the center. The valleys of several smaller streams, tributaries of the Caneadea, divide the highlands into narrow ridges. The soil is a shaly loam overlaid by hardpan. Quarries of building stone, several sulphur springs, and a brown mineral paint resembling ochre are found in town. A woolen factory upon Caneadea Creek manufactures about 12,000 yds. of cloth annually; and a pineapple cheese factory turns out 70,000 lbs. of cheese annually. **Rushford**, (p. v.) at the center of the town, contains 4 churches, the Rushford Academy, and several manufacturing establishments. Pop. 654. **East Rushford** (p. v.) contains several mills and 40 dwellings. The first settlement was made on Lot 30, in 1808, by Enos Gary, from Vt.⁵ The first religious meeting was held by Rev. Mr. Sanford, (Bap.,) in 1813; and the first church (Bap.) was formed in 1815, by Rev. Nathan Peck, a missionary from Boston.⁶

SEIO—was formed from Angelica, Jan. 31, 1823. A part of Amity was taken off in 1830, a part of Willing in 1851, and a part of Wellsville in 1855. It is an interior town, lying s. e. of the center of the county. Its surface is a mountainous upland, the highest summits being 700 to 1,000 ft. above the valleys. The streams are Genesee River and Knights and Vandemarks Creeks. The soil is principally a sandy loam. **Seio**, (p. v.) on Genesee River, contains a church, several mills, and 496 inhabitants. The first settlement was made at the mouth of Knights Creek, in 1805, by Joseph Knight and his son Silas, from Oneida co.⁷ The census reports 5 churches.⁸

WARD—was formed from Alfred and Amity, Nov. 21, 1836. It is an interior town, lying s. e. of the center of the co. The surface is a hilly upland, the highest summits being 500 to 800 feet above the valleys. The streams are Philips and Vandemarks Creeks. The soil is a clayey loam upon the hills, and a gravelly loam in the valleys. **Philips Creek**, (p. v.) in the s. part, contains 2 churches and 16 dwellings. The first settlement was made in 1817, by Abraham Wald-ruff, from Ontario co.⁹ The first church (M. E.) was organized at an early period. There are now 2 churches; M. E. and Univ.

WELLSVILLE—was formed from Seio, Andover, and Willing, Nov. 22, 1855. It is an

¹ In the spring of the same year John Teator, from Dutchess co., David Wilson and Stephen Boyce, from Mass., settled in or near Whitesville. The first child born was Bugabi C. White, oct. 23, 1819; the first marriage, that of Daniel Benington and Eliza Eaton, Jan. 1, 1824; and the first death, that of Sam'l W. Goodridge, Jan. 27, 1822. The first school was taught at Whitesville, by Deborah Covel, in the summer of 1822. Sam'l S. White kept the first inn, in 1827, at Whitesville, and Josiah W. Green kept the first store, at Greens Corners, in 1822. Nath'l Covel erected a sawmill on Cyders Creek, in 1822; and Jas. Maxwell the first gristmill, at Spring Mills, in 1820.

² The census reports 5 churches; Bap., Seventh Day Bap., Presb., M. E., and Univ.

³ James Eastwood, John C. McKeen, and Jas. Davidson, from N. H., settled in the s. part in 1821. The first birth was that of Mary McKeen, in June, 1821; the first marriage, that of Earl Gould and Catharine Eastwood, in June, 1822. The first school was taught by Mrs. Graham McKeen, in the summer of 1821. Wm. Andrews kept the first inn, near Black Creek Corners, in 1826, and Nelson McCall the first store, near the same place, in 1830. The first sawmill was erected by James Davidson, on Black Creek, in 1820.

⁴ The census reports 4 churches; 2 Cong. and 2 M. E.

⁵ Chas. South, Abel Belknap, Amos Rose, and Joshua Wilson,

from New England, were settlers in the town in 1809-10; Levi Benjamin, from Windsor, Vt., settled on Lot 30, near Rushford Village, in 1813. Bethiah Belknap, born in the spring of 1810, and Sam'l Gordon, June 12, 1810, were the first births in town; Wm. Rawson and Lawrence Swift were the first married, in 1811. Phina Bannister taught the first school, near the center, in the winter of 1813-14. Levi Benjamin kept the first inn, a little n. of Rushford Village, in 1813, and Jas. McCall the first store, at the same place, in 1814. The first sawmill was built by Matthew P. Cady, on Caneadea Creek, in 1815; and the first gristmill, by Jas. McCall, on the same stream, in 1818.

⁶ The census reports 4 churches; Ep., Cong., M. E., and Univ.

⁷ Silas Bellamy and Silas Palmer settled in 1809—the former at Seio Village and the latter in the s. part of the town. Polly, daughter of Silas Knight, was the first child born, in 1806, and the first one that died, in 1808; the first marriage was that of Silas Bellamy and Betsey Kniff, in 1809. The first school was taught by Lucy Moore, near the village, in 1810. Alfred Johnson kept the first inn, in 1821. The first sawmill was erected in 1822, and the first gristmill in 1823, by Benj. Palmer.

⁸ 2 B. C. Cong., Ep., and M. E.

⁹ Daniel Hart and Ezekiel Ward settled in the s. part, in 1817-18. Geo. Waldhuff kept the first inn, at Philips Creek Village, and Waldhuff & Catwright the first store.

interior town, lying s. e. of the center of the co. Its surface is very broken and mountainous, the highest summits being 800 to 1,200 feet above the valleys. The declivities are too steep for profitable cultivation. The streams are Genesee River and Dyke and Chemunda Creeks, all flowing in narrow and deep valleys winding among the almost precipitous mountains. The soil is mostly a sandy loam. Considerable pine lumber is still manufactured in town. **Wellsville**, (p. v.) on Genesee River, was incorp. Oct. 12, 1857; it contains 4 churches, 2 weekly newspaper offices, 2 flouring and 3 saw mills. Pop. 1,286. The first settlements were made in the valley of the Genesee, about the commencement of the century.¹ There are 4 churches in town.²

WEST ALMOND—was formed from Angelica, Almond, and Alfred, April 15, 1833. It is an interior town, lying a little n. e. of the center of the co. Its surface is a broken and elevated upland. The streams are Angelica, Black, Phillips, and Karr Valley Creeks,—all flowing in narrow ravines bordered by steep hillsides. The soil is principally a clay loam underlaid by hardpan. **West Almond** (p. v.) contains a church and 15 houses. The first settlement was made at the center, in 1816, by Daniel Atherton.³ The first religious meeting was held by Rev. Robert Hubbard, (Presb.), at the house of Daniel Dean, in 1823; and the first and only church (Bap.) was formed in 1824.

WILLING—was formed from Independence and Scio, Nov. 19, 1851. Alma was taken off in 1854, and a part of Wellsville in 1855. It lies upon the s. border of the co., e. of the center. Its surface is a broken and mountainous region, the highest summits being 800 to 1,200 ft. above the valleys. The streams are Genesee River, Cryder, Chemunda, and Fords Creeks, all flowing in narrow valleys bordered by steep mountain declivities. The soil is a clay and sandy loam. A considerable part of the surface is still covered with forests, and lumbering is extensively carried on. **Beanville**, (Shongo p. o.) on Genesee River, in the s. part of the town, contains a church and 61 inhabitants; and **Halls Port**, (p. v.) in the n. e. corner, a sawmill and 64 inhabitants. Elijah Robinson, from Brookfield, Madison co., settled on the Genesee, adjoining the State line, in 1825. He built a sawmill, made other improvements for four or five years, when he became deranged, and left the town.⁴ The first religious meeting (Prot. Meth.) was held at the house of Daniel Baker, by Rev. Seneca Fish, in 1834.⁵

WIRT—was formed from Bolivar and Friendship, April 12, 1838. It is an interior town, lying s. w. of the center of the co. Its surface is a wild, mountainous upland, divided into three general ridges extending n. and s. The streams are headwaters of Van Campens, Little Genesee, and Dodges Creeks. **Richburgh**, (p. v.) in the s. w. part of the town, contains 2 churches, the Richburgh Academy,⁶ 2 steam gristmills, 2 sawmills, and 50 dwellings. **Wirt** is a p. o., near the center of the town. The first settlement was made in the n. part of the town, in 1812, by Benj. Crabtree and Levi Abbott, from Amsterdam, Montgomery co.⁷ The first religious meeting (Bap.) was held at the house of Benj. Crabtree, in 1816, by Rev. Jonathan Post. The first church (Bap.) was organized in 1826.⁸

¹ The first child born was Rachel Dyke, in 1805; and the first death, that of Thos. Brink, in 1807. The first school was taught, near the e. line, by Ithamer Brookings, in 1814. Nathl Dyke built the first grist and saw mill, in 1805, on Dyke Creek, near the e. line.

² Cong., M. E., Bap., and R. C.

³ Jason Bixby, Isaac Pray, and Daniel Hooker settled on the road leading from Almond to Angelica, and John Alfred, from N. J., near the s. line, all previous to 1818. The first child born was Jerusha, daughter of Daniel Atherton, in the fall of 1817; and the first death, that of Jason Bixby, in the spring of 1818. The first school was taught, in the e. part, by Jasper White, in 1818. Daniel Atherton kept the first inn, in 1817, at the center, and Samuel M. Eddy the first store, at the same place, in 1832. The first sawmill was erected by Enoch Hawks, on Angelica Creek, in 1833.

⁴ The first death was that of a child of Austin Butler, in 1837. The first school was taught near Beanville, in 1836, by Betsy

Lowell. Allen Gifford kept the first inn, in 1838, at Beanville, and Jas. R. Wood the first store, at the same place, in 1839. Elijah Robinson erected the first sawmill, near the Penn. line, on the Genesee.

⁵ There are 2 churches in town; M. E. and Univ.

⁶ This institution has lately been incorp. with the common school system.

⁷ Azel Buckley, from Unadilla, Otsego co., settled in 1814, and Daniel Willard, from Mass., in 1815. Mr. W. is the oldest settler now living in town. The first child born was Benj. Crabtree, jr., in 1813; and the first marriage, that of Hyra Axell and Lucy Crabtree, in 1814. The first school was taught, in the s. part of the town, by Sophia Hitchcock, in 1820. Alvan Richards erected the first sawmill, in 1824, and the first gristmill, in 1825, on Genesee Creek, near Richburgh. Mr. Richards also kept the first inn, in 1824, and Francis L. Leroy the first store, in the same year.

⁸ There are 4 churches in town; Bap., F. W. Bap., Seventh Day Bap., and M. E.

Form-1 since 1855.

BROOME COUNTY.

This county was formed from Tioga, March 28, 1806,¹ Owego and Berkshire were annexed to Tioga co. March 21, 1822. It is situated near the center of the s. border of the State, centrally distant 110 mi. from Albany, and contains 706 sq. mi. Its surface is greatly diversified, consisting of rolling and hilly uplands, broad river intervalles, and the narrow valleys of small streams. The hills extend from the Penn. line northerly through the co. They are divided into 3 general ranges by the valleys of the Susquehanna and Chenango Rivers. The first range lying e. of the Susquehanna forms the e. border of the co. Its highest summits are 400 to 700 feet above the Delaware and 1,400 to 1,700 feet above tide. The declivities of the hills are usually steep, and the summits spread out into a broad and hilly upland. This ridge is divided by the deep ravines of a large number of small streams; and in several places it rises into peaks. The second ridge lies in the great bend of the Susquehanna, and is bounded by the valleys of that river and the Chenango. The highest summits are 300 to 500 feet above the Susquehanna and 1,200 to 1,400 feet above tide. The hills are generally bounded by gradual slopes, and the summits are broad, rolling uplands. The southern portion of this ridge is high above the valleys; but toward the s. the hilly character subsides into that of a fine rolling region. The third ridge lies w. of Chenango and Susquehanna Rivers. Its summits are a little less in elevation than those of the second ridge; and the general characteristics of the two regions are nearly the same. The wide valley of the Susquehanna divides it into two distinct parts, the southern of which is more hilly than the northern. The hills in the central and western parts of the co. are rounded and arable to their summits. The narrow valleys that break the continuity of the ridges are usually bordered by gradually sloping hillsides.

The rocks of this co. all belong to the Chemung and Catskill groups. The former—consisting of slaty sandstone and shales—occupy all the n. and w. portions of the co.; and the latter—consisting of gray and red sandstone, red shale, and slate—crown all the summits in the s. and w. portions. Drift—consisting of sand, gravel, clay, and hardpan—covers a large share of the more level parts of the co., the rocks only cropping out upon the declivities and summits of the hills. The valleys throughout the co. appear to have been excavated by the action of water, showing that a force immensely greater than any now in existence must once have swept over this portion of country. Weak brine springs were early found, extending for several mi. along the valley of Halfway Brook, in the n. part of this co.² Several excavations have been made for coal, but without success, as all the coal measures are above the highest strata of rocks found in the co.

The principal rivers are the Susquehanna,³ Delaware, Chenango, Tioughnioga,⁴ and Otselic. The Susquehanna enters the co. from the n., and flows in almost a due s. direction through Colesville and Windsor to the Great Bend in the State of Penn., whence, turning s., it again enters the co. in Conklin, flows through that town in a s. w. direction, and thence westerly to the w. border of the co. In the upper course of this river the valley is narrow and bordered by high and steep declivities; but further w. it expands into broad intervalles bordered by gradually sloping hillsides. The whole valley is celebrated for its beauty. The majestic river, with its strong current of clear, sparkling water, the deep, rich intervalles, and the beautiful slopes crowned with forests, all together form a landscape rarely equalled for beauty and quiet repose. The Delaware forms a small portion of the r. boundary. It flows through a deep, rocky valley bordered by steep and often

¹ Named from John Broome, of N. Y., then Lieut. Gov. of the State. For the compliment Lt. Gov. Broome presented the co. with a handsomely executed silver seal, appropriately designed by James H. emblematic of the name.

² A few years since, a boring was commenced in Lisle, on the site of an old deer lick, and was continued to a depth of more than 100 feet, without any practical result. The theory of the operators was, that the salt came from the same source as the

Ontonagon brine, and that, to obtain water of the same amount of saltiness, all that was necessary would be to bore to the geographical level of those wells. Sulphur springs have been observed in Sautoke, 14 mi. from Binghamton, and at Bellona.

³ Called by the Indians *Gawa-no-wa-in-neh*, at the Great Island.

⁴ Indian name, *Ontonogoriska*, Shagbark hickory.

precipitous hills. Chenango River enters the co. from the n. and flows in a general southerly direction until it enters the Susquehanna at Binghamton. A broad intervale extends along the lower part of this river, but farther n. the high ridges shut close in on either side, confining the valley to very narrow limits. The Tioughnioga enters the co. from Cortland and flows s. e. until it unites with the Chenango at Chenango Forks. The valley of this river is very narrow, and is bordered by high and steep hillsides. Otsego River, also from the n., flows through a similar narrow valley and unites with the Tioughnioga at Whitney's Point. The other principal streams are Onuga Creek, a tributary of the Delaware, Okkanum, Little Snake, Little and Big Chocomaug, and Nanticoke Creeks, tributaries of the Susquehanna, and Castle Creek, tributary of the Chenango.

The soil along the river intervale is generally very fertile, consisting of deep, sandy and gravelly loam mixed with disintegrated slate and vegetable mold. The narrow valleys of the smaller streams are also fertile. The soil upon the n. and w. hills consists principally of gravelly loam intermixed with clay and disintegrated shale, and is well adapted to grazing. The declivities of the s. and e. hills are similar to the last in character, but their summits are generally covered with clay and hardpan. The large proportion of upland and the unevenness of the surface render this so, best adapted to pasturage. While all branches of agriculture are pursued, fruit raising, and stock and wool growing, in connection with the products of the dairy, form the leading interests. A limited amount of manufacturing is carried on at Binghamton and several other places.

The co. seat is located at Binghamton, at the junction of the Chenango and Susquehanna Rivers.¹ The courthouse, situated at the head of Chenango St., fronting Court St., is a fine stone and brick edifice, with a Grecian portico in the Ionic style. It contains the usual co. offices, and in many respects is a model building.² The jail is on Hawley St., at a little distance from the courthouse.³ A fireproof co. clerk's office is situated adjacent to the courthouse. The co. poorhouse is located upon a farm of 130 acre 3 mi. n. of Binghamton. The average number of inmates is 45, kept at a weekly cost of \$1.08 each, exclusive of the products of the farm, which are estimated at \$800 per annum. The children are sent to the district school, and when of proper age are bound out. No religious instruction is afforded. The sexes are kept in separate buildings, and the general arrangement of the institution is such as to secure the health and comfort of the inmates.

The principal works of internal improvement are the Chenango Canal, connecting the Susquehanna River at Binghamton with the Erie Canal at Utica; the N. Y. & Erie R. R., and the Syracuse, Binghamton, & N. Y. R. R.⁴ These various routes furnish all necessary facilities for traveling and commercial purposes, and bring the agricultural lands of the co. into close proximity to the great Eastern markets.⁵ Several plank roads have been built; but they are now mostly abandoned.

There are 6 newspapers published in the co.⁶

¹ Binghamton (then "Chenango Point") was a half-shire of Tioga co. previous to the creation of Broome co. The co. was divided into 2 jury districts in 1801, and a courthouse was built in 1802. Previously the courts had been held a part of the time at the house of J. Whitney, in Binghamton. A courthouse was built in 1826, which was superseded by a new and elegant brick edifice in 1857. The first co. officers were John Patterson, *First Judge*; James Stoddard, Amos Patterson, James Hindon, Geo. Harper, and Mason Wattles, *Associate Judges*; Ashel Wells, *Co. Clerk*; and Wm. Woodruff, *Sheriff*. The first court was held on the 20 Tuesday of May, 1806.

² This building was erected in 1857, at a cost of \$32,000. It is 100 feet long by 58 wide. The front is ornamented by a portico supported by 4 Ionic pillars 6 feet in diameter, and 26 feet high. The basement is built of stone and the upper stories of brick. The rooms are all large, convenient, and well ventilated.

³ The portion of the jail containing the cells was built in 1858, at a cost of \$16,000. In its construction due provisions were made for the safety, health, and classification of prisoners.

⁴ The Albany & Susquehanna R. R. now in process of construction, extends from Binghamton s. e. through the co. to Albany. This road will probably be completed in a few years.

⁵ The Delaware, Lackawanna, & Western R. R. connects with the N. Y. & Erie R. R. at Great Bend Station just s. of the line of this co., thus forming a direct communication with the coal mines of Pa. Penn. Large quantities of this coal are sent over the Erie and the S. R. & N. Y. R. R., supplying the salt works at Syracuse and the markets in the w. part of the State; and a considerable amount is shipped on the canal at Binghamton.

⁶ The *American Constitution* was pub. at Union Village (then in Tioga co.) in 1809.

The *Broome Co. Patriot* was commenced at Binghamton in 1812, by Chamney Morgan. In 1815 it was changed to

The *Phoenix*, and was published by Morgan & Robinson. In 1819 it was discontinued.

The *Exp'tianna Herald* was commenced in 1818, and successively published by Morgan & Howard, Abraham Burrell, and Burrell & Aikyn, until 1822.

The **Broome Republican** was established at Binghamton in 1822, by Maj. Augustus Morgan. It was published by Morgan until 1824 by Morgan & Cramel until 1825, by Evans & Canby until 1830, by Canby & Cooke until 1839, when it passed into the hands of Davis & Cooke. It was continued by T. Cooke until 1848, and by E. R. Colston until 1849. It subsequently became the property of Wm. Stuart, and is now published daily and weekly.

The *Evening Express*, d. was issued from the Republican office in 1848.

The *Daily Iris* was started in 1849, by Wm. Stuart and E. T. Evans. It was soon after changed to

The **Binghamton Daily Republican**, and is still published by Wm. Stuart.

The *Broome Co. Courier* was started in 1831, by J. R. Orton, and was continued by him until 1857. It then successively passed into the hands of Sheldon & Marble; J. C. Sheldon; E. P. Marble, L. P. & J. W. Marble; and Marble & Johnson. In 1864 it was changed to

The *Binghamton Citizen and Broome Co. Democrat*, and was published by J. C. Orton. In 1826 it passed into the hands of N. S. Davis. In 1841 it passed into the hands of J. K. Dickinson and was changed to

The **Binghamton Democrat**. It is now published by Adams & Lawyer.

The *Iris*, semi-weekly, was started in July, 1833, by C. P. Cooke. In July, 1841, it was purchased by Edwin T. Evans, and by him it was enlarged and published weekly until 1853, when it was merged in the Binghamton Republican.

The **Binghamton Standard** was started in Nov. 1833, by J. Van Valkenburgh, and is still published.

The *Binghamton Mercury*, semi-weekly, was issued a short time by Chester Dehart.

The *Susquehanna Democrat*, started in Oct. 1833, by W. H. Peaine, was merged in the Broome Republican in 1854.

The *Broome Co. Democrat* was started in May, 1865, by Ramsden Bestwick.

The **Union News** was established at Union in 1841, by

By a treaty held at Fort Herkimer, June 28, 1785, between the Governor and Commissioners of Indian Affairs, in behalf of the State, and the Oneidas and Tuscaroras, the latter for \$11,500 ceded all their lands, bounded s. by an e. and w. line from the Chenango to the Unadilla, 10 mi. above the mouth of the latter, e. by the Line of Property,¹ s. by Penn., and w. by the Chenango and Susquehanna. At the Hartford Convention, in 1786, a tract of 230,000 acres, between the Chenango and Tioughniga on the e. and Owego River on the w., was ceded to Massachusetts.² This tract was afterward known as the "Boston Ten Towns," and was sold by Mass. (Nov. 7, 1787) to 60 persons for £1500.³ It is embraced in Broome, Tioga, and Cortland cos. The Indian title to this tract was extinguished in 1787, and the remaining Indian titles within the co. were extinguished by the treaty of Fort Stanwix in 1788. The s. and e. parts of the co. were granted to Hooper, Wilson, Bingham, Cox, and others, several of whom resided in Philadelphia.⁴

The first settlements in the co. were made in the valleys of the Susquehanna and Chenango, in 1785. The settlers were people who had traversed the region in the Revolution; and they located while the country was still threatened with Indian hostilities, and before Phelps and Gorham had opened the fertile lands of Western N. Y. to immigration. The early settlement was retarded by a remarkable ice-freshet in 1787-88, which destroyed most of the property of the settlers upon the river intervals. Scarcely less calamitous to life and property was the scarcity that followed in 1789. Onnaga, on the e. branch of the Susquehanna, was a noted rendezvous of Tories and Indians during the Revolution.⁵ Most of the invasions into the Schoharie and Mohawk settlements, as well as those upon the frontiers of Ulster and Orange cos., were by way of the Tioga and Susquehanna Rivers from Niagara; and this war path, with its sufferings and cruelties, has been often described in the narratives of returned captives.

BINGHAMTON—was formed from Chenango, Dec. 3, 1855. It lies at the junction of the Susquehanna and Chenango Rivers, and extends s. to the s. line of the co. The surface is hilly in the s., but the s. part embraces the wide and beautiful intervals extending along the two rivers at and near their junction. The hills are 300 to 400 feet above the river, and are generally arable to their summits. The soil in the valleys is a deep, rich, alluvial and gravelly loam, and upon the hills it is a fine quality of slaty loam. **Binghamton**⁶ (p. v.) was incorp. April 2, 1813. By a subsequent charter, passed May 3, 1834, its limits were enlarged and its territory was divided into 5 wards. It is beautifully situated on the s. bank of the Susquehanna at its junction with the Chenango. It contains the State Inebriate Asylum,⁷ the Binghamton Academy, and the Susquehanna Seminary,⁸ 3 female seminaries,⁹ a commercial college,¹⁰ 2 water cures,¹¹ 9 churches,¹² 5 newspaper offices, and several manufactories. The village is an important station upon the Erie R. R., and is connected with Syracuse by the S. B. & N. Y. R. R. It is also the s. w. terminus of the Chenango Canal and of the Albany & Susquehanna R. R. It is the center of a large trade.

A. E. Quindlan. It was subsequently sold to Ophus Bomee and Ebenezer M. Batts, and is still published. **The Broome County Gazette** was commenced at Whitney's Point, in July, 1838, by G. A. Deane, its present publisher.

¹This line was agreed upon at Fort Stanwix in 1788, and was surveyed by Simon Metcalf the next year. It defines the e. boundary of this co.

²The s. bounds of this tract were to be the s. line of the tract granted to Daniel Cox and Robert Lettice Hooper, and it was to extend as far s. as was necessary to include the above quantity of land. Upon survey it was found to overlap the 31,000-acre tract by 17,294 acres, which was allowed, and an equivalent was granted to the claimants under the latter in January, 1792, *see Bulletin Book*, pp. 26, 28.

³The partition of a part of this tract by lot was held March 3, 1788, in an act recording the names of the lot-seekers—*Laws of N. Y. ed. 1814, 12th Stat.*, p. 76; *Mem.* v. 148; *Stat. Practice and Surveyor's Office*.

⁴A tract of 10,000 acres on both sides of the Susquehanna was sold to Jacob and John Springsfield, Josiah Dwyer and Daniel Stow, David Horbless, and Joseph Becher. Other tracts were sold to Wm. Albers, Thomas Clinton, Isaac Melcher, Abijah Hammond, and others. The Indians in the Susquehanna were sold to by Jas. Clinton, at 4 shillings per acre.

⁵This place is sometimes found written Onnagah-ey, and Onnag-ey. It is a sheltered hill or mountain on both sides of the river, gently sloping from the beautiful view of Fort Onnaga in the north and east to the hill above. When first settled, it was a rendezvous of Indians, French, and English. Applications of the above were found growing in traces of 417th annual crops supposed to have been raised in 1741. Clinton, Missionary Indians were directed to this locality about the middle of the last century, and in 1753 the Rev. G. C. Hawley was sent hither

from Mass.—*Doc. Hist.*, III, 1063; *Williamson's Binghamton*, p. 31.

⁶Binghamton was originally called "City and Port." Its present name was given in honor of William Bingham, the original purchaser of the 100,000-acre tract of land lying on both sides of the Susquehanna, and including the site of the village. He made liberal donations of land to the village.

⁷The New York State Inebriate Asylum was incorporated in 1834 for the term of 50 years. It is designed for the instruction, treatment, and cure of inebriates. It owes its origin mainly to the persevering efforts of Dr. J. E. W. Turner. Favorable reports denouncing intemperance, as a public and social evil, and the building of the site of the village on a beautiful site, 250 ft. above the water. It is 545 feet long, by 82 feet broad, built of stone and brick in the Tudor castellated style of architecture. The city is donated a farm of 250 acres, upon which the buildings are erected.

⁸This institution is under the charge of the M. E. denomination, and is designed for a large boarding school. The building is a 4-story brick edifice, pleasantly located s. w. of the village upon an eminence overlooking the valley.

⁹Laver's Missions Seminary, established in 1848 by Miss R. C. Ingalls. Miss Burton's Seminary, established in 1857, and Harmony Retreat Seminary, established in 1857, by Misses March.

¹⁰Lowell & Warner's Commercial College.

¹¹Binghamton Water Cure, established in 1855 by O. A. Flower, and the Mt. Prospect Water Cure, under the supervision of J. E. North.

¹²2 M. E. and 1 each, Bap., Presb., Cong., Prot. E., Univ. R. C., and A. M. th.

¹³There was transhipped from the Del. Lacawanna & Western R. R. cars to the Chenango canal boats, in 1857, 31,709 gross tons of coal, and from these boats to the cars 26,876 tons of timber (round wood) from one.

and is an important point for the trans-shipment of coal.¹³ Pop. 8,818. **Hawleyton** (p. o.) is a hamlet in the s. part, near the Penn. line. The first settlement was made in 1787, by settlers mostly from New England.¹ The first religious services were conducted by Rev. Mr. Howe, (Bap.) in 1788. Hon. Daniel S. Dickinson is a resident of this town.

BARKER²—was formed from Lisle, April 18, 1831. A part of Greene was annexed April 28, 1840. It lies upon Tioughnioga River, s. w. of the center of the co. The surface consists of a high, broken plateau divided into two distinct parts by the valley of the river. The declivities of the hills are in some places very steep; but their summits spread out into a broken region. The declivities of the hills are too steep for cultivation, but their summits spread out into a broken region generally covered with timber and adapted to pasturage. The highest point, in the s. w. part of the town, is about 1400 feet above tide. The river valley is very narrow, but the limited amount of intervale is excellent land. Halfway Brook flows through a narrow valley in the n. part of the town. In this valley brine springs have been found; and here also the unsuccessful boring for salt was made.³ The soil in the valley is a rich alluvium and gravelly loam, and that upon the hills is a clayey loam mixed with disintegrated slate and shale. **Chenango Forks** (p. v.) is situated mostly in this town, at the fork of Chenango and Tioughnioga Rivers. It is a station on the S. B. & N. Y. R. R. Pop. 506,—in Barker 287, in Chenango 127, and in Greene (Chenango co) 92. **Barker** is a p. o. in the central part of the town. The first settlement was made in 1791, by John Barker, from Branford, Conn.⁴ There are 3 churches in town.⁵

CHENANGO—was formed Feb. 16, 1791. Windsor was taken off in 1807, Conklin in 1821, and Binghamton and Port Crane in 1855. A part of Union was annexed Feb. 26, 1808, and a part of Maine, Nov. 27, 1856. It lies upon the w. bank of Chenango River, a little w. of the center of the co. Its surface consists of the river intervale and several high ridges extending in a s. and s. direction and separated by the narrow valleys of small streams. The declivities of the hills are steep, and their summits are 300 to 600 feet above the valleys. Castle and Kattel Creeks, tributaries of Chenango River, are the principal streams. The former was named from the location of an Indian castle near its mouth, and the latter from a family of early settlers. The soil upon the n. hills is a gravelly loam mixed with disintegrated slate and underlain by hardpan, but farther s. it becomes a deeper and richer gravelly loam. It is productive, but, from its moist character, it is largely devoted to grazing. Stock growing and dairying form the leading branches of agricultural interest. **Castle Creek** (p. v.) is on the creek of the same name, in the w. part of the town. Pop. 185. **Glen Castle**, (p. o.), on a branch of the same stream, is in the central part. **Chenango**, (p. o.) on Chenango River, is a station on the S. B. & N. Y. R. R. **Kattelville** is a hamlet on Kattel Creek. The first settlement was made in 1787, by Thos. Gallop.⁶ There are 4 churches in town.⁷

COLESVILLE⁸—was formed from Windsor, April 2, 1821. It lies upon the Susquehanna, E. of the center of the co. Its surface consists principally of a high and broken upland divided into 2 parts by the deep valley of the river. The summits of these uplands are 400 to 700 feet above the valley, and considerable portions are still covered with forests. The soil upon the river bottoms is a deep, fertile, gravelly loam, and upon the summits of the hills it consists of clay and slate. It is generally much better adapted to pasturage than tillage. **Harpersville**, (p. v.) on Susquehanna River, contains 3 churches and has a pop. of 230. **Center Village**,⁹ (p. v.) on the Susquehanna, has a pop. of 147. **New Ohio**, (p. o.) in the n. part of the town, **Osborne Hollow**, (p. o.) in the w. part, **West Colesville**, (p. o.) in the s. w. part, **Colesville**, (p. o.) s. of the center, **Onquaga**, (p. o.) and **Nineveh**, (p. o.) on the Susquehanna, are hamlets. **Vatonia Springs** and **Unitaria** are p. offices. The first settlement¹⁰

¹ Among the early settlers were Capt. Joseph Leonard, Col. Wm. Rose, the two brothers Whitney. — Lyon, Jesse Thayer, Peter and Thos. Ingersoll, Saml. Harding, Capt. John Sawtell, — Amasa Leonard, Sept. 23, 1788; the first marriage, that of Ezekiel Crocker and Polly Benton; and the first death, that of Mrs. Blunt, in 1787. Lewis Keeler opened the first inn, and Dehano & Monroe the first store. Ezekiel Crocker erected the first grist-mill, in 1794. The first school was taught by Col. Wm. Rose, in 1794. For details of early history see *Wilkinson's Annals of Binghamton*.

² Named from John Barker, the first settler.

³ See p. 178.

⁴ Simon Rogers, John Allen, Asa Beach, and Sol. Ross, from Conn., settled in town in 1792. The first marriage was

that of Simon Rogers and a daughter of J. In. Butler, in 1792; the first birth, that of Clarence, a son of Simon Rogers, in 1793; and the first death, that of Thos. Gallop, the same year. Simon Rogers opened the first inn, in 1794, at the first store, and built the first mill. The first school was taught by Thos. Cartwright, in 1796.

⁵ 2 M. E. and Cong.

⁶ Stephen Palmer and Jared Pige, were among the earliest settlers. The first birth was that of Sally, s. of Thos. in 1791.

⁷ 3 M. E. and 1 Bap.

⁸ Named from Nathaniel Cole, one of the first settlers.

⁹ At this place is a tannery, which turns out various kinds of leather for tanning.

¹⁰ Emanuel and Nath'l. Balzer and Casper Spring, settled in the town in 1789; Nathaniel and Vena Cole, Daniel Pickett, Jed.

was made in 1785, by John Lamphere, from Watertown, Conn. The first religious services were conducted by Rev. Joseph Badger, in 1793. There are 10 churches in town.¹

CONKLIN²—was formed from Chenango, March 29, 1824. A part of Windsor was taken off in 1831, and a part was annexed from Windsor in 1851. It lies upon the Susquehanna, s. of the center of the co. Its surface consists of the fine broad intervale of the river and high, broken uplands which rise upon each side. The summits of the hills are 400 to 600 feet above the valley. The declivities upon the w. side of the river are very steep, but upon the e. they are generally more gradual. Little Snake Creek flows in an easterly direction through the s. w. part. Its valley is narrow and is bordered by steep hills. The soil upon the summits of the hills is a hard clayey and gravelly loam largely intermixed with fragments of slate. In the valley the soil is a deep, rich alluvium and gravelly loam. **Kirkwood** (p. v.) is situated on the e. bank of the Susquehanna, in the s. part of the town. It is a station on the Erie R. R., and contains 25 houses. **Conklin Center** and **Corbetsville** are p. offices, and **Millburn** and **Conklin** are hamlets. At Millburn are extensive pyroigneous acid works. The settlement of the town was commenced in 1788, at the mouth of Snake Creek, by Jonathan Bennett, Ralph Lathrop, and Waples Hance.³ The first religious services were conducted by Revs. David Dunham and John Leach, Methodist missionaries. There are 4 churches in town; M. E., Presb., Bap., and Christian.

LISLE⁴—was formed from Union, April 7, 1801. Nanticoke, Barker, and Triangle were taken off in 1831. The line of Berkshire was altered in 1812, and a part was annexed to Union in 1827. It is the s. w. corner town of the co. The surface is mostly a hilly and broken upland, divided by the valley of Tioughnioga River into 2 unequal parts. The summits of the hills are 400 to 700 feet above the river, and their declivities are generally steep. Dudley or Yorkshire Creek flows easterly through near the center of the town, its narrow valley breaking the continuity of the w. ridge. The soil along the valley is a rich, gravelly loam, but upon the hills it consists of clay and a slaty gravel underlaid by hardpan. The declivities of the hills are usually too steep for easy cultivation, and the soil upon the summits is a moist clay loam, better adapted to grazing than grain growing. **Lisle** (p. v.) is situated on the w. bank of the Tioughnioga. It is a station on the S. B. & N. Y. R. R., and contains about 30 houses. The old Catskill & Ithaca Turnpike, built in 1796, crossed the river at this point. **Yorkshire**, (Center Lisle p. o.) near the center of the town, contains about 30 houses. **Killawog**, (p. o.) in the s. part, on the Tioughnioga, is a station on the S. B. & N. Y. R. R. The first settlement was made in 1791, by emigrants from N. E.⁵ The first religious services were conducted in 1795, by Rev. Seth Williston. There are 5 churches in town.⁶

MAINE—was formed from Union, March 27, 1848. A part of Chenango was taken off in 1856. It is the central town upon the w. border of the co. Its surface consists of ranges of hills divided by numerous narrow valleys, the principal of which extends in a s. and s. direction. These hills are 400 to 600 feet above the valley of Chenango River. The principal streams are Nanticoke, Bradley, and Crocker Creeks. The soil is a gravelly loam largely intermixed with the underlying slate. **Maine**, (p. v.), situated on Nanticoke Creek, w. of the center, contains 3 churches. Pop. 220. **East Maine** is a p. o. The first settlement was made in May, 1797, by Daniel Howard, Alfred and Russell Gates, and Winthrop Roe.⁷ There are 4 churches in town: 2 M. E., Bap., and Cong.

NANTICOKE⁸—was formed from Lisle, April 18, 1831. It lies upon the w. border of the co., n. of the center. Its surface consists of an upland broken by a few narrow ravines.

Merchant, Bateman S. Dickinson. — Walnut, Daniel Crofoot, and Titus Hamilton, in 1795; John Ruggles and Isaac Tyndal, in 1796; Eli Osborne and Peter Warn, in 1800. The first birth was that of Louisa Badger, May 28, 1788; the first death, that of John Lamphere, the same year; and the first marriage, that of Benj. Bird and Mrs. John Lamphere, in 1794. Benj. Bird kept the first inn, in 1794, and Bateman S. Dickinson the first store, in 1805. The first school was taught by Job Bunnel.

¹ M. E., 2 Bap., 2 Union, Prot. E., Presb.

² Named from Judge John Conklin, one of the early settlers.

³ Among the early settlers were Gerrit Snelaker, David Bond, Daniel Chipman, Peter Wentz, Asa Reed, Nathaniel Tazot, Asa Squires, John Bell, Silas Bowker, Joel Lamoreaux, Abraham Sweden, David and Joseph Compton, Abraham Miller, Ebenezer Park, Noel Carr, and Thos. Cooper. The first birth was that of William Wentz, Feb. 18, 1795; the first marriage, that of Noel Carr and Sally Tinsler, in 1803; and the first death, that of Silas Bowker. The first gristmill was built at "Fitchs

Creek," in 1790. The first school was taught by George Lane in 1801.

⁴ Named from Lisle, in France.

⁵ The first settlers were Josiah Patterson, Ebenezer Tracy, Edward Edwards, David Manning, Liphadot Parsons, and Whittlesay Glendon. The first birth was that of Henry Patterson, in 1793; the first marriage, that of Solomon Owen and Sylvia Cook; and the first death, that of Wright Dudley. The first gristmill was built in 1800, by Jacob Hill. The first store was kept by Moses Adams, and the first tavern by O. Wheaton in 1793.

⁶ 2 P. p., Cong., Presb., and M. E.

⁷ Benjamin Norton lived in the town in 1798. The first birth was that of Cynthia, daughter of Winthrop Roe, in July, 1797. The first school was taught by Betsy Ward, in 1802. Daniel Howard built the first gristmill, in 1810; Jared Ketchum kept the first store, in 1825; and Oliver Whitecomb the first tavern, in 1826.

⁸ This name is derived from the Indian name of Nanticoke Creek.

The summits of the highest hills are 100 to 300 feet above the river and 1,200 to 1,400 feet above tide. The town is drained principally by the two branches of Nanticoke Creek, which flow s. through the central portions of the town. The soil upon the hills is a slaty loam underlaid by hardpan. The settlements are principally confined to the valleys. **Lambs Corners**, in the central part of the town, contains about 12 houses. **Nanticoke Springs**, in the s. part, and **Glen Aubrey**, are p. offices. The first settlement was made on Nanticoke Creek, in 1793, by Philip Counselman and John Beachtle, from Luzerne co., Penn.¹ There are 2 churches in town: Bap. and M. E.

PORT CRANE²—was formed from Chenango, Dec. 3, 1855. It lies upon the e. bank of Chenango River, extending from the central portions of the co. s. to the borders of Chenango. Its surface consists principally of a high and rolling upland region. The valley of the Chenango is very narrow, and the hills rise steeply to an elevation of 500 to 700 feet above the river. Page Brook flows in a southerly direction through the center of the town, dividing the uplands into 2 distinct ridges. The soil upon the hills is a clay and slaty loam underlaid by hardpan, and in the valleys it consists of a fine, rich gravelly loam and alluvium. **Port Crane**, (p. v.) on the Chenango Canal, in the s. part of the town, has a pop. of 193. **Doraville**, (p. o.) in the s. part, is a hamlet. Settlement was commenced in 1788, by Elisha Pease.³ The first religious services were conducted by Rev. John Camp, in 1798. There is a M. E. church in town.

SANFORD—was formed from Windsor, April 2, 1821. It is the s. e. town of the co., bordering upon Delaware River. Its surface is principally occupied by the high, mountainous range that extends between Delaware and Susquehanna Rivers. The summits of the hills are 600 to 900 feet above the valley, and the declivities are usually very steep.⁴ The deep, narrow valley of Ojuga Creek, flowing s. through the center of the town, separates the highlands into 2 parts. This valley and that of Delaware River are both bounded by nearly precipitous mountain declivities. In its course the creek has numerous falls, furnishing an abundance of water power. The soil in the valleys is a fertile, gravelly loam, but upon the hills it is a cold, clayey loam underlaid by hardpan. Considerable portions of the central and s. parts of the town are still unsettled. Lumber and leather are largely manufactured. **Deposit** (p. v.) is situated partly in this town and partly in Tompkins, (Delaware co.) The depôt, several hotels, and about half of the dwellings are in this town. Pop. 1249.—656 in Sandford, 593 in Tompkins.⁵ **Sanford**, in the central part of the town, **N. Sanford**, in the n. part, and **Gulf Summit**, in the s., are p. offices. Settlement commenced in 1787, by Wm. McClure, from N. H., — Whitaker, and Capt. Nathan Dean.⁶ There are 3 churches in town; Bap., M. E., and R. C.

TRIANGLE⁷—was formed from Lisle, April 18, 1831. It is situated in the extreme n. part of the co., bordering upon both Cortland and Chenango. Its surface consists of a hilly and rolling upland divided into ridges by the valleys of Otselic River and Halfway Brook. The summits of the hills are 300 to 500 feet above the valleys. The soil is generally a gravelly loam, better adapted to grazing than to tillage. **Whitneys Point**,⁸ (p. v.) situated at the junction of Otselic and Tioughnioga Rivers, contains 3 churches and has a pop. of 205. **Upper Lisle**, (p. v.) on the Otselic, in the n. part of the town, contains 2 churches and 35 houses; and **Triangle**, (p. v.) on Halfway Brook, in the s. e. part, 3 churches and 175 inhabitants. The first settlement was made at Whitneys Point, in 1791, by Gen. John Patterson, from Berkshire co., Mass.⁹ The first religious services were conducted by Deacon Josiah Lee, in 1792; and the first sermon was preached by Rev. Seth Williston, in 1795. There are 9 churches in town.¹⁰

¹ The first birth was that of Betsey Stoddard, in 1796, and the first death, that of Miss Bird, sister of Mrs. Stoddard.

² Named from Jason Crane, one of the engineers on the Chenango Canal.

³ Jacob Fuge and — Vining were among the first settlers. The first birth was that of Chester Pease, in 1793; the first marriage, that of Gardner Wilson and Polly Fuge, in 1800; and the first death, that of Mrs. Pease, in 1789. Elisha Pease erected the first sawmill, in 1797, and Thomas Cooper kept the first store, in 1816. The first school was taught by Ozias Masch, in 1800.

⁴ The highest point between the two rivers, by the State Road Survey, is 1688 feet above tide.

⁵ See page 265.

⁶ Among the first settlers were Daniel Race, Noah Carpenter, Nathan Austin, Simon Alexander, Russel Farrham, S. P. Green, Anthony West, Joseph Fuge, John Pinney, J. P. Appleton, Sias Seward, Capt. Barker, Isaac Denton, and Dexter May. The first marriage was that of Conrad Edret and Elizabeth Whitaker, in

April, 1787; the first birth, that of Phoebe Edret, in 1788; and the first death, that of Stephen Whitaker, Oct. 24, 1793. Capt. Dean built the first sawmill, in 1791, the first gristmill, in 1792, opened the first store, in 1794, and kept the first inn. The first school was taught by Hersh Compton, in 1795.

⁷ This name was applied to the tract s. of the Military Tract and "Twenty Towns" and between the Chenango and Tioughnioga Rivers. It was bought by Col. Wm. Smith, at \$1000 per 50 acres per acre. The Chenango Triangle embraces 8000 acres and part of Greene in Chenango co., and Triangle and part of Barker in Broome.

⁸ Named from Thos. Whitney.

⁹ In 1792, David Seymour and family settled at Whitney's Point; and between 1791 and 1797, Timothy Shephard, Asa Rodgers, Benj. and Hendrick J. Smith, and John Leathers, settled at Upper Lisle. The first death was that of Mrs. Hannah Lee, in 1791. The first school was taught by Martha Seymour, in 1793.

¹⁰ 4 Bap., 2 M. E., 2 Cong., and 1 F. M.

UNION—was formed Feb. 16, 1791. A part of Norwich and Oxford (Chenango co.) were taken off in 1793, a part of Greene (Chenango co.) in 1798, Tioga (Tioga co.) in 1800, Lisle in 1801, a part of Chenango in 1808, Vestal in 1823, and Maine in 1848. A part was annexed from Tioga, (Tioga co.) April 2, 1810, and a part from Lisle, April 11, 1827. It lies upon the n. shore of the Susquehanna, s. w. of the center of the co. The surface consists of the Susquehanna intervale and the hilly region n. of it. The highlands are nearly centrally divided by the deep valley of Nanticoke Creek. The soil in the valley consists of a mixed clayey, sandy, and gravelly loam and alluvium, and is very productive. The hills have a rich soil of slaty and gravelly loam, and are cultivated to their summits. **Union**, (p. v.), situated near the Susquehanna, in the s. part of the town, is a station on the N. Y. & E. R. R. The Union News is published at this place. Pop. 520. **Union Center**, (p. v.), on Nanticoke Creek, partly in this town and partly in Maine, contains 2 churches and about 40 houses. **Hooper**, (p. o.) in the s. part of the town, is a station on the Erie R. R. The first settlement was made in 1785, by Joseph Draper, Nehemiah Crawford, Bryant Stoddard, Nathan Howard, Jabesh Winchop, Caleb Merriman, and Winthrop Roe.¹ The first church (Ref. Prot. D.) was organized in 1789, at Union Village, and Rev. John Manley was the first settled preacher. There are 4 churches in town.²

VESTAL—was formed from Union, Jan. 22, 1823. It lies upon the s. bank of the Susquehanna, and is the s. w. corner town of the co. The surface consists of the river intervale and the hilly region immediately s. of it. The soil upon the hills is a fine quality of slaty loam, and in the valley it is a deep, rich, gravelly loam and alluvium. It is adapted to both grain raising and grazing. **Vestal**, (p. v.), near the mouth of Big Choconut Creek, contains 1 church and about 45 dwellings. **Vestal Center**, (p. v.) on the same stream, 1 church and about 20 houses, and **Tracy Creek**, (p. o.) in the w. part, 1 church and about 10 houses. Settlement was commenced in 1785, by emigrants from New England.³ The M. E. church at Vestal was the first religious organization in town.⁴

WINDSOR⁵—was formed from Chenango, March 27, 1807. Coleville and Sanford were taken off in 1821, and a part of Conklin in 1851. A part of Conklin was annexed April 18, 1831. It lies upon the s. border of the co., s. e. of the center. Its surface is principally occupied by 2 high ridges separated by the valley of the Susquehanna. Upon the e. side of the valley the hills attain an elevation of 400 to 800 feet above the river, and culminate in several sharp ridges; on the w. the hills are less elevated, though the highest summits attain an elevation of 400 to 800 feet above the valley.⁶ The declivities of these hills are generally quite abrupt. Oquaga Hill, in the n. e. part of the town, is one of the highest peaks, and it has some historical notoriety. (See, p. 180.) The valley of the river is generally narrow. The soil is a deep, rich, gravelly loam in the valleys, and a slaty loam underlaid by clay and hardpan upon the hills. Considerable portions of the e. and s. parts of the town are yet uncultivated. **Windsor**, (p. v.), situated on the Susquehanna, near the center of the town, contains 3 churches and Windsor Academy. Pop. 339. **Stillson Hollow** (West Windsor p. o.) contains about 20 houses. **Randolph Center**⁷ (p. o.) is a hamlet. The first settlement was made on the Susquehanna, at the mouth of Doolittle Creek, in 1786, by John Doolittle, from Conn.⁸ The first church (Cong.) was organized Aug. 15, 1793, by Rev. Mr. Judd. There are 5 churches in town.⁹

¹ Among the early settlers were Joshua and John Merseoun, Gen. O. Stoddard, Nehemiah Spaulding, Walter Sabin, Capt. Wm. Brink, Moses Chambers, Ezekiel and Oliver Crocker, Jeremiah and Benj. Brown, Amos Patterson, Abner Rockwell, and Medad and Elisha B. Bradley. The first death was that of Mary J. Fisk, June 13, 1789. James Ross and Jabesh Winchop built the first gristmill, in 1791, and the latter opened the first tavern, the same year. The first school was taught by Flavel Sabin, in 1787. The first birth was that of Joseph Chambers, July 4, 1790.

² 2 Presb. and 2 M. E.
³ Samuel and Duna¹ Seymour, David Barney, Daniel Price, Wm. Coe, Ruggles Winchel, and Asa Camp, were the first settlers. Saml. Coe kept the first inn, in 1791, and R. Winchel built the first gristmill, in 1786. The first school was taught by John Kutch, in 1793.

⁴ The census reports 3 churches; Bap., M. E., and Ref. Meth.
⁵ Named from Windsor, Conn.

⁶ The surface of the Susquehanna in this town is about 910 feet above tide.

⁷ So called from its being the center of Randolph's Patent.

⁸ David Amaghad and Cyrus Hotchkiss, John Gurnsey and ———— Swift, settled in town in 1787. The first birth was that of David Doolittle, Dec. 27, 1786; the first marriage, that of Capt. Andrew English and Miss Rachel Moore; and the first death, that of Mrs. Ashley, the interpreter at the Oquaga Mission, in Aug. 1787. Josiah Stow opened the first inn and store, in 1788, and Nathan Lane built the first gristmill, in 1797. The first school was taught by Stephen Seymour, in 1789.

⁹ 2 M. E., and 1 each F. W. Bap., Bap., and Presb.

* Formed since 1875.

CATTARAUGUS COUNTY.

This county was formed from Genesee, March 11, 1808. It lies upon the Penn. line, near the s. w. corner of the State. It is 260 mi. from Albany, and contains 1,334 sq. mi. The surface is a hilly upland, forming the n. spurs of the Alleghany Mts. The upland is separated by deep valleys into distinct ridges, having a general n. and s. direction. The valleys deepen toward the s., and the hills rise abruptly to a height of 800 to 1,300 feet above them and 2,500 to 3,000 feet above tide. Nearly the whole co. is very broken; and many of the hills, though arable to their summits, are too steep for profitable cultivation. Toward the n. border the extreme mountainous character is somewhat modified, and the summits of the hills spread out into high, rolling uplands. Allegany River enters

the s. e. corner of the co. from Penn., flows in a n. w. direction to near the center, thence s. w. to the s. border. It receives Four Mile, Trout, Tunegawant, Red House, Tunessassa, and Split Rock Creeks from the s., and Oswaya, Hodges, Haskill, Ischua, Five Mile, Mill, Wrights, Little Valley, Cold Spring, and Bone Run Creeks from the n. Cattaraugus Creek, forming the n. boundary, receives Buttermilk and South Middle Branch Creeks. Connewango Creek, draining the w. border, flows into Chautauque co. Upon all these streams are numerous falls, furnishing an abundance of water-power.

The rocks of this co. mostly belong to the shales and sandstones of the Portage and Chemung groups. The former are exposed along Cattaraugus Creek, and the latter in the valleys in the central and s. parts of the co. The summits of the southern hills are covered with Catskill conglomerate. These rocks afford a good building stone in a few localities, but generally they are too easily acted upon by the elements to be very valuable. Drift deposits are found to some extent, scattered over the co.; and beds of clay, alluvium, and muck are found in limited quantities in the valleys.¹ The only lime in the co. is derived from small, isolated beds of marl and tufa. Springs of sulphur, weak brine, petroleum, and carburetted hydrogen are found in different localities. The "Oil Spring" of Freedom, yielding petroleum, is a place of considerable note. A very small amount of bog iron ore has been discovered in the swamps, but not in sufficient quantities to be profitably worked. The soil in the valleys is a yellowish loam, composed chiefly of disintegrated sandstone and shale; upon the uplands it is clay alternating with sand and gravel and underlaid by hardpan. The whole region is best adapted to grazing. For many years lumbering has been extensively carried on, and it still is a leading branch of business in the s. part of the co. The pine lands now remaining are exceedingly valuable; and the revenue derived from them forms no inconsiderable portion of the wealth of the co. Stock and wool growing and dairying form the leading pursuits in the other parts of the co.

The county seat is located at Ellicottville.² The courthouse is a brick edifice, situated near the center of the village, upon ample grounds donated by the Holland Land Company. The clerk's office is a fireproof brick building, adjacent to the courthouse. The jail is a stone building, amply provided for the accommodation and classification of prisoners. The poorhouse is located upon a farm of 200 acres in Machias, 16 mi. n. e. of Ellicottville. The average number of inmates is 35, supported at a weekly cost of \$1.40 each. The farm yields a revenue of about \$1,000.³

The N. Y. & Erie R. R. enters the co. from the n., and extends along Oil Spring and Ischua Creeks to Olean, thence along Allegany River to the mouth of Little Valley Creek, thence upon the valley of that creek about 9 mi., and thence in a n. w. direction to the w. border of the co. It passes through the towns of Hinsdale, Olean, Allegany, Carrolton, Great Valley, Bucktooth, Little Valley, Mansfield, New Albion, Persia, Dayton, and Perrysburgh.⁴ The Genesee Valley Canal

¹ The superficial deposits and alluvium of the n. and s. portions of the county are essentially different. The hillsides and valleys of the n. are covered with hardpan, and those of the s. with pine.

² Upon the organization of the co. in 1808 Jonas Williams, Jesse Southwick, and Asa Bains were appointed commissioners to locate the county seat. They fixed upon the site of Ellicottville, then a wilderness, and erected a large iron wood post to mark the spot. Up to 1817 the co. was merged in Niagara. The first courts were held at Olean, July 5, 1817. The first co. officers were Timothy H. Porter, *First Judge*; James Brooks,

Ashbel Freeman, and Francis Green, *County Judges*; Simeon Boughton, *County Clerk*; Israel Curtiss, *Sheriff*; and Jeremy Woodley, *Sergeant*. The first courthouse and jail was erected at Ellicottville, in 1817-18. It was burned in 1822, and the present buildings were soon after erected.

³ This establishment is represented by the Senate Committee of 1857 as being in bad repair and indifferently kept. The food supplied was plain and wholesome; but the house was old and dilapidated, and little attention was paid to cleanliness.

⁴ Several railroads have been surveyed through the co., and upon

extends through Hinsdale and Olean, uniting with Allegany River at the latter place. An extension of this canal 7 mi. up the Allegany to the Penn. line is in process of construction.

Five weekly newspapers are now published in the co.¹

This co. was included in the territory ceded by the Six Nations to the Holland Land Co. in 1797. Three reservations made within the limits of the co. are held by the Indians at the present day. The Oil Spring Reservation, containing 1 sq. mi., is partly in Iselua, Cattaraugus co. and partly in Cuba, Allegany co. The Allegany Reservation, containing 42 sq. mi., extends from the Penn. line 25 mi. N. E. along Allegany River. The tract is, on an average, about 2 mi. wide, and embraces nearly all of the river intervals.—the finest agricultural region in the co. It embraces portions of Allegany, Carrollton, Great Valley, Bucktooth, Cold Spring, and South Valley. A small portion of the Cattaraugus Reservation lies in the N. part of Perrysburgh.² The Philadelphia Quakers established a mission on the Allegany Reservation, in what is now South Valley, as early as 1798. The first permanent settlement was made at Olean, by Maj. Adam Hoop and his brother Robert, from Albany, in 1804. For many years a large share of Western emigration was by way of the Allegany River and Pittsburgh; and, being at the head of boat navigation upon the river, Olean speedily became a place of importance. Upon the completion of the Erie Canal travel was diverted from this route and improvements advanced very slowly. The completion of the N. Y. & Erie R. R. gave a new impulse to enterprise and industry; and the co. is now rapidly progressing in all the elements of wealth and civilization.

ALLEGANY—was formed from Great Valley, as "*Burton*," April 18, 1831. Its name was changed March 28, 1851. Humphrey was taken off in 1836. It lies upon the S. border of the co., E. of the center. The surface is a hilly upland, broken by the deep valley of Allegany River, which extends E. and W. through the center. The declivities of the hills are steep, and their highest summits are 700 to 900 feet above the valleys. The streams are Four Mile, Five Mile, and Mill Creeks, tributaries of the Allegany. About nine-tenths of the town is still covered with forests. The soil is a shaly and sandy loam on the hills, and a clayey and gravelly loam in the valleys.

some of them considerable labor has been expended. The Erie & N. Y. City R. R. extends W. from the N. Y. & Erie R. R. at Bucktooth to Erie, Penn. A large portion of this road is graded. The Buffalo & Pittsburgh and the Attica & Allegany Railroads, both to terminate at Olean, have been surveyed; but work upon them has been indefinitely postponed.

¹ *The Allegany Mercury*, the first paper in the co., was started at "*Hannibal*," now Olean, in 1818, by Benj. F. Smead. In 1819 Franklin Cowdery became interested in its publication, and the name was changed to

The Hamilton Recorder. It was continued but a few years. *The Western Courier* was started at Ellipticville in 1826 by Richard Hill. In 1827 it was changed to

The Cattaraugus Gazette, and was continued about 2 years. *The Lodi Pioneer* was started at "*Lodi*," now Gowanda, in 1827 by Lewis B. Edwards. At the end of 3 years it was changed to

The Lodi Freeman and Messenger, and issued by G. N. Starr. In 1833 it passed into the hands of Eliakim Hough, and was changed to

The Cattaraugus Freeman, under which name it was continued until 1844, when it was changed to

The People's Advocate and Lodi Banner. In Oct. 1850, it passed into the hands of Henry M. Morgan, and its name was changed to

The Cattaraugus Chronicle. It was soon after changed to *The Independent Chronicle*, under which name it was published 4 years. In 1854 John M. Henry became interested in its publication, and it was changed to

The Gowanda Chronicle, and was continued until the office was burned, April 30, 1856.

The Ellipticville Republican was commenced in May, 1853, by Jos. E. Sill. In 1854 it passed into the hands of R. H. Shankland, and was changed to

The Cattaraugus Republican. In 1855 it became the property of Fred. A. Stanton, by whom it is still published.

The Allegany Mercury was started at Olean in 1825 by G. W. Cutler. In 1826 it was changed to

The Olean Advertiser, and was issued by Rufus W. Griswold for about 1 year. In 1837 Charles Woodcock had charge of it; and in 1838 it passed into the hands of Dudley Bryan and was changed to

The Olean Times. It was afterward published by A. M. Badger until 1841.

The Hinsdale Democrat was started at the Village of Hinsdale in 1836 by Joseph T. Lyman. It soon passed into the hands of Edward Hughs & Co., and was continued 2 years.

The People's Gazette was started at Hinsdale in 1840 by Geo. C.

Smith. In 1842 it was removed to Genesee, Livingston co.

The Cattaraugus Whig was started at Ellipticville in July, 1840, by De los E. Sill. It was continued by him until 1844, when its name was changed to

The Cattaraugus Freeman, under which title it is still issued by Sill & Beidler.

The Randolph Herald was started at Randolph in March, 1842. It was successively issued by Wm. Mason, Lorenzo and Julius Marsh, and Fletcher & Russell until 1844, when it passed into the hands of J. J. Strong, who continued it 2 years. Strong then joined the Mormons, and removed the establishment to Nauvoo, Ill.

The Freeman and Messenger was started at Hinsdale in 1847 by L. E. Smith. Its name was soon changed to

The Express, and it was issued by Edwin and Allen C. Fuller until 1846.

The Gowanda Whig was started at Gowanda in Nov. 1850, by James T. Henry. In the following Feb. it was removed to Ellipticville, and its name changed to

The Whig and Union; soon after it appeared as

The Union, under which title it is now published by R. H. Shankland.

The Gowanda Union rose from the ashes of the great fire of April, 1846, and was issued 1 year by Louis S. Morgan, when it was removed to Bradford, Penn.

The Cattaraugus Sachem was started at Randolph in June, 1847, and was continued about 1 year, when the press was removed to Olean.

The Randolph Whig was started at Randolph in July, 1842, by C. K. Judson and Benj. F. Morris. In 1847 its name was changed to

The Randolph Reporter, and it was issued by Morris until July 5, 1848, when it was removed to Gowanda and changed to

The Gowanda Reporter. It is now published by N. W. Henry and Frank S. Hibbs.

The Olean Journal was started at Olean in 1837 by Chas. M. Smith. In June, 1856, it passed into the hands of James T. Henry, who changed its name to

The Olean Advertiser, under which title he still issues it.

The Newspaper Gun, now, was started at Randolph in 1847 by A. M. Shattuck, and was continued 1 year.

² The Indian titles to these lands have been extinguished, but both the State and F. S. agents have denied them the right of purchase, absolute, and exclusive. By an act of Feb. 10, 1847, the Legislature formally renounced all right in the public lands, so far as to tax these lands. The Indians are now engaged in their cultural pursuits, in which they have made considerable progress.

Lumbering is extensively pursued. **Allegany**, (p. v.) upon Allegany River, e. of the center, contains a tannery, door and blind factory, 3 churches, and 70 houses. It is a station on the N. Y. & E. R. R. The Franciscan College is located near the village.¹ **Five Mile Run** is a p. o. The first settler was Ebenezer Reed, from Conn., who located near the mouth of Nine Mile Creek in 1820.² The first religious services (Bap.) were held at the house of James Strong, by Elder Benj. Cole, in 1823. The first church (M. E.) was formed in 1829.³

ASHFORD—was formed from Elliotville, Feb. 16, 1824. It is centrally located on the s. border of the co. The surface is hilly, with ridges extending generally in a s. and s. direction. The highest points in the s. part are 300 feet above the valleys. Cattaraugus Creek, forming the s. boundary, and Buttermilk Creek, are the principal streams. The soil is a slaty loam intermixed with gravel and clay. Maple sugar is largely manufactured. **Ashford**, (p. v.) in the s. w. part of the town, contains a grist and saw mill, 2 churches, and 36 dwellings; **East Ashford** (p. o.) contains 2 churches and 11 dwellings. The first settlers were Henry Frank and his two sons Andrew and Jacob H., from Herkimer co., who located on Lot 56, in 1816.⁴ The first church (F. W. Bap.) was organized in 1821, by Elder Richard M. Cary. There are now 6 churches in town.⁵

BUCKTOOTH—was formed from Little Valley, Nov. 19, 1854. It lies upon the s. border of the co., w. of the center. Its surface is mostly a broken and mountainous upland, the highest summits being 800 to 1,000 feet above the valleys. Allegany River flows w. and s. w. through the s. part. The other principal streams are Red House, Little Valley, and Bucktooth Creeks, and Sawmill Run. The soil is a clay and sandy loam. A large share of the town is yet covered with forests; and lumbering forms the leading pursuit.⁶ **Bucktooth** is a p. o. in the s. part. A few settlements were made previous to 1812; but they were abandoned during the war. The first permanent settler was James Rosenbury, who located in town in 1816.⁷ The only church (M. E.) was formed about 1830.

CARROLTON⁸—was formed from Great Valley, March 9, 1842. Part of Allegany Reservation was annexed in 1847. It is the central town upon the s. border of the co. Ball Hill, in the s. e. part, is 800 feet above the valley. The Allegany flows n. w. through the n. part, receiving as tributaries Tunegawly and Windfall Creeks. The soil is a clay and shaly loam upon the uplands, and a gravelly loam in the valleys. Lumbering is the leading pursuit. **Limestone**,⁹ (p. o.) in the s. part, and **Tuna**, (p. o.) in the n., are hamlets. Charles Foster, Horace Howe, and Marcus Leonard located upon Lots 28 and 29 in 1814.¹⁰ The first religious meeting (Bap.) was held by Rev. Aaron Kellogg, at his own house, in 1831; and the first church (M. E.) was organized in 1843. The census reports 2 churches; M. E. and R. C.

COLD SPRING—was formed from Napoli, March 20, 1837. Parts of South Valley were taken off in 1847 and '48. It is an interior town, near the s. w. corner of the co. The surface is a hilly and broken upland, the highest summits being 400 to 500 feet above the valleys. The Allegany flows s. w. through the n. e. corner, and receives from the n. Cold Spring Creek, which flows through the center. The soil is a clay and slaty loam upon the uplands, and a sandy and gravelly loam in the valleys. A sulphur spring is found in the n. e. part. There is no village, p. o., or church edifice in town. Lumbering is extensively carried on. The first settlements were made by Chas. Crook, with his 3 sons Chas., jr., Ira, and Nathan, from Vt., on Lot 32, and Joshua Basson,

¹ This institution is under the control of the Franciscan (R. C.) Association. The buildings are now in process of erection. Nicholas Bever-ux donated to the association, for the institute, 200 acres of land and \$4,000.

² Among the other early settlers were Andrew L. Allen, Hiram Wood, James Strong, Isaac Eggelston, Amos B. and David Orton, who located on Five Mile Creek in 1821. The first child born was Nathan Reed, Oct. 2, 1820; the first marriage, that of Wm. R. Fox and Sally Strong, in 1825; and the first persons who died were children of Isaac Eggelston, in 1823. Leonard Cronkhite taught the first school, in a house of James Strong's, in the winter of 1825-26; Ebenezer Reed kept the first inn, in 1820; Aaron Wheeler, the first store, in 1833; and Reuben Lambertson erected the first sawmill, on Five Mile Creek, in 1826.

³ The census reports 4 churches; Bap., Cong., M. E., and R. C.
⁴ Among the other early settlers were John Goodenote, Saml. Flagg, Griffin and David Wyley, Amos, David, Thomas, and Muley Sampson, David Over, Augustus Van Slyke, Calvin Woodruff, Marceua Brooks, Jacob and Michael Houghstader, John Quackenbush and his son Peter, all from Herkimer and Montgomery cos., and all of whom located in town in 1818. The first birth was that of Elizabeth, daughter of Jacob H. Frank, in the fall of 1817; and the first death, that of Phoebe, a child of Andrew Frank, Aug. 30, 1818. David, Thomas and Norman B. Carter taught the first schools, in 1822-23.

⁵ 2 Bap., F. W. Bap., Cong., M. E., and Wes. Meth.

⁶ This town contains an area of 47,620 acres, of which less than 1,000 acres were under cultivation in 1855.

⁷ Among the other early settlers were James Green, Adam Johnson, and John Boutell. The first birth was that of a child of David Hathaway, in 1834; and the first marriage, that of Andrew Mills and Sally Hadly. Leister Granger taught the first school, in 1831; Adam Johnson kept the first inn, in 1832, and John Boardman the first store, in 1834. The first sawmill was built by the Indians, in 1813, on Sawmill Run.

⁸ Named from G. Carrolton, one of the original proprietors.

⁹ Upon the flats near Limestone are the remains of an ancient fortification. It is in the shape of a figure 8, the remains of the ditch and earthworks being plainly visible.

¹⁰ John and Wm. Moore, Elias Stone, Peter Zoloff, — Hancock, Isaac Farr, Aaron Kellogg, and Wm. Smith settled on Tuna Creek in 1828. The first birth was that of Merit Zoloff, in June, 1829; the first marriage, that of — Brown and Emeline Fuller, in 1828; the first death, that of Enoch Fuller, in 1828. The first school was taught by Milton Northrop, at Limestone, in the winter of 1830-31. Elias Stone kept the first inn, near the mouth of Tuna Creek, in 1828, and Chas. Lewis the first store, in 1832. The first sawmill was built by Marcus Leonard, in 1826.

from Mass., on Lot 22, in 1820.¹ The first religious meeting (Cong.) was held in 1823, by Rev. Wm. J. Wilcox.

CONN EWAN GO—was formed from Little Valley, Jan. 20, 1823. Randolph was taken off in 1826, and Leon in 1832. It lies upon the w. border of the co., s. of the center. The surface in the s. w. and w. parts is level and swampy, the Connewango Swamp being 30 to 50 feet below the bed of Allegany River at its nearest point. The remaining parts are hilly. It is drained s. by Connewango, Little Connewango, and Clear Creeks, and other small streams. The soil on the uplands is clay and gravel, and on the flats a gravelly loam. **Rutledge**, (Connewango p. o.) in the s. w. part, on Connewango Creek, contains a church and 17 dwellings. **Clear Creek** (p. v.) is on the line of Chautauque co. **Anville** is a hamlet. Settlement was commenced in 1816, by Eliph. Follet, near Rutledge.² The first church (Presb.) was organized at Rutledge, in 1816.³

DAYTON—was formed from Perrysburgh, Feb. 7, 1835. It lies upon the w. border of the co., s. of the center. Its surface is generally a rolling and hilly upland. The highest elevations in the n. part are about 300 feet above the n. r. at Dayton Station. It is drained s. by two branches of Connewango Creek and other small streams. The soil is a clayey and gravelly loam. Lumbering is an important branch of industry. **Dayton**, (p. v.) on the N. Y. & E. R. R., in the s. e. corner of the town, contains 13 dwellings; and **West Dayton**, (Cottage p. o.) in the s. w. corner, a church, 2 sawmills, and 14 dwellings. **Sociality** is a hamlet, in the s. e. part. The first settlement was made by Silas Nash and Simeon Rumer, from Otsego co., in 1810.⁴ The first religious meeting (Bap.) was held at the house of Joshua Webb, in 1816, by Rev. Elnathan Finch; and the first church (Bap.) was organized in March, 1818, at the house of Mr. Webb.⁵

EAST OTTO—was formed from Otto, Nov. 30, 1854. It lies upon the s. border of the co., w. of the center. The surface is hilly and broken; Mt. Tug, the highest summit, being 300 feet above the valleys. Cattaraugus Creek forms the s. boundary; and South Middle Branch flows w. through the town, s. of the center. The soil is a clay and gravelly loam, favorable for both grain and grass. **Otto Corners**, (East Otto p. o.) a little s. w. from the center, contains 3 churches and 17 dwellings. The first settlements were made by Joseph Bates, on Lot 20, and Horace Wells, near Otto Corners, about 1816.⁶ The first religious meetings were held at the house of Tyler M. Beach, in 1821. The first preaching (M. E.) was at the same house, by Rev. Ira Brownson, in 1822.⁷

EL LICOTTVILLE⁸—was formed from "Ischua," now Franklinville, April 13, 1820. Ashford was taken off in 1824. It is an interior town, lying a little s. e. of the center of the co. The surface is a hilly upland, broken by the deep and narrow ravines of the streams. The principal stream is Great Valley Creek, flowing s. through near the center. The soil upon the hills is a clay loam, and in the valleys a gravelly loam. **Ellicottville**, (p. v.) on the creek, in the s. w. part of the town, was incorp. April 1, 1837. Besides the co. buildings, it contains 4 churches, 3 newspaper offices, and an iron foundry. Pop. 695. **Plato** and **Ash Fork** are p. offices. The first settlements were made in 1815, by David Waldo, from Oneida co., and Olin Pitcher, from Mass.⁹ The first religious meeting was held at the house of Wm. Vinton, by Rev. John Spencer, in 1818. The first church (Presb.) was formed Sept. 10, 1822.¹⁰

¹ Eastman Prescott and his father settled in the s. part, and Isaac Merrill in the s. w. part, in 1821. The first birth was that of Martha, daughter of Charles Crook, jr., in the spring of 1824; and the first death that of Miss Jones, in the fall of 1821. Miss E. Sant of taught the first school, in the summer of 1831. Phileas Hall kept the first inn and the first store in 1822. Chas. Crook and Juliana Basson erected the first sawmill, in 1820, on Cold Spring Creek.

² Samps in Crocker, from Cairo, Greene co., settled near Rutledge in 1818; and Calvin Treat, H. Camp, Wm. Holbrook, and John Darling about the same time. The first school was taught by Olive Cheney, in the summer of 1819. Eliphad Follet kept the first inn, in 1817, near Rutledge, and H. Camp and Wm. H. Brook the first store, in 1822, at Olds Corners. The first sawmill was erected by Sampson Crocker, on Mill Creek, in 1810, and the first gristmill by Calvin Treat, near the center of the town, in 1821. Mrs. Crocker, wife of Sampson Crocker, killed a wildcat at her hen roost with a pair of tongs, in the winter of 1819.

³ The census reports 3 churches: Presb., Bap., and M. E.

⁴ Joshua Webb, from Madison co., settl'd on Lot 56, Leman H. Pitcher, on Lot 58, in the s. w. part; Ralph Johnson, Heman and Anson Merrill, and Timothy M. Shaw in the s. e. part,—all in 1810. The first child born was Amos Nash, in June, 1811; the first marriage, that of Benj. Parsell and Mary Redfield, in March, 1818; and the first death, that of Dr. Witt, son of Silas Nash, in Feb. 1812. Caleb Webb kept the first inn, in 1827, at West

Dayton, and Wm. H. Leland, the first store, in 1837, in the s. e. part of the town. Silas Nash erected the first sawmill, in 1817, at West Dayton.

⁵ The census reports 3 churches: Bap., F. W. Bap., and M. E.
⁶ Soon after, Moses T. and Tyler M. Beach, Justice Bartholomew, Abraham Gibbs, and S. and T. Tuttle settled in the town. The first children born were Azam and Britannia, twins, son and daughter of Justice Bartholomew; the first marriage was that of Moses N. Leland and Britannia Wells, in 1821, and the first death of an adult, that of Mrs. John Darling, in Dec. 1824. Rezekiah Stovel kept the first inn near Otto Corners, in 1823, and Vine Plumb the first store, near the same place, in 1824. Moses T. Beach built the first sawmill, in 1827, and the first gristmill, in 1824, on South Middle Branch, in the e. part of the town.

⁷ The census reports 3 churches: M. E., Cong., and Bap.

⁸ Named from Joseph Ellicott, agent of the Holland Land Co.
⁹ Grove Harbut built the first house, in 1810, on Lot 72, and settled in March, 1816. Ezekianton Bartholomew and Ephraim Finch settled in 1816. The first child born was Orlando Finch, in June, 1816. The first school was taught by A. Dunce, Carpenter, at the house of Olin Pitcher, in the summer of 1817. Baker Leonard kept the first inn, in 1817, and the first store, in 1818. Olin Pitcher erected the first sawmill, in 1824, on Great Valley Creek.

¹⁰ The census reports 4 churches: Presb., Prot. E., M. E., and R. C.

FARMERSVILLE—was formed from "*Ischua*," now Franklinville, March 29, 1821. It lies on the e. border of the co., n. of the center. The surface is a hilly upland, forming the watershed between the streams flowing s. w. into Lake Erie and those flowing e. into Genesee River and s. into Allegany River. The highest point, near the center, is 800 to 900 feet above the R. R. at Olean. Mud Lake, in the n. part, covering an area of about 30 acres, discharges its waters n.; and Ischua Creek flows s. through the w. part. On the uplands the soil is chiefly a vegetable mold resting on clay, shale, and slate; in the valleys, a gravelly loam. **Farmersville**, (p. v.) near the center, contains 2 churches and 17 dwellings. **Fairview** is a p. o. The first settlement was made by Peter and Cornelius Ten Broeck and Richard Tozer,—all from Otsego co.,—on Lots 4 and 26, in 1817.¹ The first religious meeting was held by Rev. Eliab Goings, (Bap.,) at the barn of Levi Peet, in 1821. The census reports 2 churches: Bap. and M. E.

FRANKLINVILLE—was formed from Olean, June 16, 1812, as "*Ube*." Its name was changed to "*Ischua*," April 17, 1816; and to Franklinville, March 3, 1821. A part of Perrysburgh was taken off in 1814, Ellicottville, Freedom, and Yorkshire in 1820, Farmersville in 1821, and Lyndon in 1829. It is an interior town, lying n. e. of the center of the co. Its surface is undulating and hilly. It is drained s. by Ischua and Great Valley Creeks and several other small streams. The soil is clay and gravelly loam. **Franklinville**, (p. v.) on Ischua Creek, in the n. e. corner of the town, contains 2 churches, 2 sawmills, and 370 inhabitants; **Cadiz** (p. v.) a church and several mills. Pop. 165. The first settlement was made at the village of Franklinville, by Joseph McClure, originally from Vt., in March, 1806.² The first church (Bap.) was formed in 1823. There are 3 churches in town; Bap., Presb., and M. E.

FREEDOM—was formed from "*Ischua*," now Franklinville, April 13, 1820. A part of Yorkshire was taken off in 1844. It is the n. e. corner town of the co. The surface is a rolling or moderately hilly upland. Clear Creek and the s. branch of Cattaraugus Creek are the principal streams. Beaver Lake, in the s. part, Fish Lake, in the e., and Scum and Laws Lakes, in the center, are small ponds. The soil is a clay and gravelly loam. Several quarries of good building stone are found in different parts of the town. **Sandusky**, (p. v.) on Clear Creek, in the n. part, contains 2 churches, a gristmill, and 2 sawmills. Pop. 175. **Elton**, (p. v.) near the s. w. corner, contains a church and 14 dwellings. **Freedom** is a p. o. The first settlements were made in 1811, by Warren Stanley, Ezekiel Reynolds, from N. H., and Earl Lawyer, Rufus Metcalf, and Enoch Howlett, from Vt.³ The first religious meeting was held at the house of Rufus Metcalf, in April, 1813, by Eber P. Root. The first church (M. E.) was formed in 1820.⁴

GREAT VALLEY—was formed from Olean, April 15, 1818. "*Burton*," now Allegany, was taken off in 1831, and Carrleton in 1842. Part of Allegany Reservation was taken off in 1847. It is an interior town, lying a little s. of the center of the co. Its surface is a mountainous and hilly upland. The highest summit, near the s. w. corner, is 1,300 feet above the river. The declivities are generally very abrupt, and many of them are too steep for cultivation. Allegany River flows through the s. w. corner, and receives as tributary Great Valley Creek. The soil upon the highlands is a hard clay mixed with disintegrated slate and shale; and in the valleys a gravelly loam. Lumbering is the leading pursuit, five-sixths of the surface being still covered with forests.⁵ **Great Valley Station**, (Killbuck p. o.) at the mouth of Great Valley Creek, in the s. part, contains 18 dwellings; and **Peth** (Great Valley p. o.) II. Settlement was commenced at the

¹ Levi Peet and Peleg Robins, from Otsego co., settled on Lots 26 and 4 in 1817. The first child born was Addison, son of Richard Tozer, in 1817; the first marriage, that of Peter Ten Broeck and Polly Troniman; and the first death, that of Mrs. Magdalen Adams, Nov. 7, 1820. The first man was kept in 1817, by Richard Tozer, and the first store by Jacob Comstock, in 1828. James Wooden erected the first sawmill, in 1824, on the outlet of Mud Lake.

² Mr. McClure was agent and surveyor of the Holland Land Co., and located his lot in 1805. He was a leading man in the town for many years, filled the principal town offices, served with the rank of captain on the Niagara frontier in the War of 1812, and represented the town in the Assembly of 1814-15. His brother David settled in the town in 1809. Thos. Morris and Henry Conrad in 1807, and Timothy Butler, Jeremiah Burroughs, and Dr. G. G. Wright, soon after. All in the valley of Ischua Creek. The first child born in the town and co., was Horatio, son of David McClure, April 20, 1808. John McClure taught the first school, in 1809. Joseph McClure kept the first inn, in 1809, and Thos. Morris the first store, in 1816, at near Franklinville Village. Henry Gray of built the first gristmill, in 1805, and a sawmill, in 1809, at Cadiz.

³ These settlers made improvements and put up log houses in

1811, and moved in with their families in the spring of 1812. The first child born was Patus Metcalf, Jr., Dec. 21, 1812; and the first death of an adult was that of Peter Davis, Dec. 17, 1816. Lihou Buggart and Sally McKee, and Sylvester Davis and Miss Buggart, were all married at the same time, in 1817. The first school was taught in 1816, by Joanna Clark. Enoch Howlett kept the first inn and the first store, in 1824. He also erected the first sawmill, in 1821, on Clear Creek. Dr. F. H. Cruttenford erected the first gristmill, on the same stream, in 1822.

⁴ The census reports 5 churches: 2 Bap., F. W. Ep., C. M., Meth., and Unit.

⁵ On lot 10, about 1 m. n. of the center of the town, is a place known as the "Breathing Well." About 1830, Nicholas Flint attempted to dig a well; but, after reaching a depth of 25 feet and obtaining no water, he abandoned the undertaking, but stoned up the well, hoping that water might come. Noting a current of air proceeding from the well, he inserted a pump, 6 m. and covered it up, except the end of the log. A current of air is continually blowing either into or out of the well; and a whistling placed at the end of the log has been heard half a mile. The current of air is sometimes steady in one direction for a while day, and sometimes it changes every hour.

mouth of Great Valley Creek, by Judge James Green, in 1812.¹ The first religious meeting was held at the house of Orin Pitcher, by Rev. John Spencer, in 1815. The first religious association (Cong.) was formed, with 8 members, in 1817. There is now no church edifice in town, and but 1 church, (M. E.)

HINSDALE—was formed from Olean, April 14, 1820. Ischua was taken off in 1816. It lies on the e. border of the co., s. of the center. The surface is a hilly and broken upland. The hills are 500 to 600 feet above the valleys and are bordered by abrupt declivities. The highest points, on Lots 23 and 24, are 500 feet above the r. r. at Hinsdale Village. Reservoir Lake is a small sheet of water near the s. e. corner. Ischua and Oil Creeks—the former from the s. e. and the latter from the s. w.—form a junction near the center, and thence the united stream takes the name of Olean Creek, flowing s. through the town. The soil upon the uplands is chiefly clay, and in the valleys a gravelly loam. **Hinsdale**, (p. v.), at the junction of Ischua and Oil Creeks, contains 2 churches and several mills and manufacturing establishments. Pop. 255. It is a canal village and a station upon the N. Y. & Erie R. R. **Scotts Corners**, in the s. part, contains a church and 13 houses. **Haskel Flat** is a p. o. The first settlers were Horace Noble, Chas. Foot, and Thos. Lusk, who located near the present site of the village in 1806.² The first religious meeting was held at the log barn of Zachariah Noble, in June, 1807. The first regular preacher was Rev. Reuben Aylesworth, (M. E.,) in 1820, who organized the first religious association in 1821.³

HUMPHREY⁴—was formed from "Barlow," now Allegany, May 12, 1836. It is an interior town, lying a little s. e. of the center of the co. The surface is a broken and hilly upland, the highest summits being 600 feet above the r. r. at Olean. Its streams are Great Valley, Five Mile, Wrights, and Sugar Town Creeks. The soil upon the hills is mostly clay, occasionally intermixed with sand, and in the valleys it is a gravelly loam. **Humphrey Center** is a hamlet. **Humphrey** and **Sugar Town** are p. offices. The first settlement was made in the s. w. corner, on Lot 56, by Russel Chappell, in 1815.⁵ The first religious association (M. E.) was formed in 1834.⁶

ISCHUA—was formed from Hinsdale, Feb. 7, 1846, as "*Rice*." Its name was changed March 27, 1855. It lies upon the e. border of the co., a little s. of the center. Its surface is a broken and hilly upland, the highest summits being 600 feet above the valleys. Ischua Creek flows s. through the town and receives several tributaries. The soil is chiefly clay, with a thin surface mold and some gravelly loam. Quarries of good building stone are found in the town. **Ischua**, (p. v.), formerly called "*Rice*," on Ischua Creek, in the s. part, contains a gristmill and 19 dwellings. The first settlement was made on Lot 45, on the creek, by Abraham M. Farwell, from Mass., in 1812.⁷ The first religious meeting was held at the house of Mr. Farwell, by Rev. John Spencer, in 1815; and the first church (M. E.) was formed in 1827.

LEON—was formed from Conewango, April 24, 1832. It lies on the w. border of the co., a little n. of the center. Its surface in the w. and s. w. is level and marshy, and in the remaining parts moderately hilly. It is drained s. by Conewango Creek and its tributaries. The soil is a clay, sandy, and gravelly loam. **Leon**, (p. v.) near the center, contains 2 churches and 18 dwellings. **East Leon** is a p. o. **Thompsonville** is a hamlet in the s. e. part. Settlements were made on Mud Creek, in 1819, by Jas. Franklin and his son James, from Riga, Monroe co., and Abner Wise and his son Abner W., Thos. W. Cheney, and Ed. Dudley, from Otsego co.⁸

¹ Among the other early settlers were Dan. McKay, Judge Benj. Chamberlin, and ——— Hubbard, who located in 1813; Lewis Worcester and Laurin Norton, in 1814. The first child born was Ira Green, in 1813; and the first death, that of Mrs. Hubbard, the same year. The first school was taught at the house of James Green, by Joel Fairbanks, in the winter of 1817-18. James Green kept the first inn, in 1812; at the mouth of Great Valley Creek, and Lewis Worcester the first store, in 1815, at Path. The first sawmill was erected by James Green, in 1812.

² Zachariah and Seymour Noble also settled in 1806. All the settlers at this time were from Ontario co. and originally from Mass. The first child born was Chrissy, daughter of Horace Noble, in the fall of 1808; and the first death, that of Bibban Foller, in 1809. Reuben Turner taught the first school, at Scotts Corners, in 1818. Lihou Murray kept the first inn, near Hinsdale Village, in 1819, and Emery Wood the first store, in 1825. The first sawmill was erected by Lewis Wood, in 1815; and the first grist-mill, by Henry Conrad, in 1825.

³ The census reports 2 churches; Bap., and M. E.

⁴ Named from Charles Humphrey, of Tompkins co., Speaker of the Assembly at the time of the formation of the town.

⁵ Among the other early settlers were Abnazo Berry, Abijah

Rowley, Nathan Howe, Thomas Scott, and Stephen S. Cole. The first store was taught by John Howe, at Sugar Town, in 1824. Mr. Howe has since been a member of Congress from Penn. Russel Chappell kept the first inn, in 1824, and Averil Lawyer the first store, at Humphrey Center, in 1848. The first sawmill was erected by Foster B. Salisbury, on Wright Creek.

⁶ There are 4 churches in town, Bap., F. W. Bap., M. E., and R. C.

⁷ Seymour Boughton, from Westchester co., settled at the village in 1815, and William Kimball, Amos Pitcher, and Jonathan Davis about the same time. The first child born was C. Adaline, daughter of A. M. Farwell, in 1810; and the first death, that of Henry Boughton, by the fall of a tree, in 1811. The first school was taught on the premises of Mr. Farwell, by Caroline Putnam, in the summer of 1821. Mr. Farwell erected the first sawmill, on Lot 45, in 1811, and Cook & Tyler the first grist-mill, in 1826, both on Ischua Creek. The first store was opened by Albert Lawrence and Henry Stephens, in 1852, and the first inn by Seymour Boughton, in 1816.

⁸ Robert Durlin, from R. L., settled on Lots 50 and 57, in 1819, where he still resides; and John Fairbanks and John Battles, in 1819-20. The first birth was that of Edward Dudley, July 25,

The first religious meeting was held at the house of Abner Wise, in 1820, by Elder Hadley; and the first church (Ref. Meth.) was formed by Rev. Ezra Amadon, in 1822.¹

LITTLE VALLEY—was formed from "Perry," now Perrysburgh, April 10, 1818. Conewango and Napoli were taken off in 1823, Mansfield and New Albion in 1830, and Bucktooth in 1854. It is an interior town, lying a little s. w. of the center of the co. The surface is mostly a hilly upland, divided into two principal ridges by the deep valley of Little Valley Creek. The highest summits are 500 to 600 feet above the creek. Upon Lot 77, in the s. e. part of the town, is a peculiar rock formation, known as "Rock City."² The soil is a hard, clay loam upon the hills, and a gravelly loam in the valleys.³ **Little Valley**, (p. v.) in the n. w. corner, contains a church and 36 dwellings. It is an important station upon the N. Y. & Erie R. R. **Little Valley Creek**, near the center, contains a church and 11 dwellings. The first settlements were made in the valley, in 1807, by John Green, Judge Benj. Chamberlin, and several other families, who left during the War of 1812.⁴ The first church (F. W. Bap.) was formed by Elder Richard M. Cary, Oct. 8, 1826.⁵

LYNDON—was formed from Franklinville, Jan. 24, 1829. Its name was changed to "Elgin" April 7, 1857, and back to Lyndon April 16, 1858. It lies on the e. border of the co., n. of the center. Its surface is hilly, the highest ridges, near the center, being about 500 feet above the r. r. at Olean. It is drained by Oil Creek and branches of Ischua Creek. The soil is chiefly clay covered with a light vegetable mold upon the hills, and a gravelly loam in the valleys. **Elgin**, (p. o.) near the center, and **Rawson**, (p. o.) in the e. part, are hamlets. The first settlement was made by Solomon and Wm. Rawson, who located upon Lots 6 and 7 in 1808.⁶ The first religious services (F. W. Bap.) were conducted by Seth Markham, at his own house, in 1810. The first church (F. W. Bap.) was organized in the e. part of the town, in 1816, by Elders Jeremiah and Abraham Folsom.⁷

MACHIAS—was formed from Yorkshire, April 16, 1827. A part of Yorkshire was annexed in 1847. It is an interior town, lying n. e. of the center of the co. The surface forms a portion of the elevated table land dividing the waters of Allegany River from those of Cattaraugus Creek. Lime Lake, in the n. e. part, 1,100 feet above Lake Erie, discharges its waters n. into Cattaraugus Creek. Ischua Creek flows s. into the Allegany. The soil is a clay and gravelly loam, mostly of good quality. Maple sugar is largely produced. **Machias**, (p. v.) in the n. e. part, contains 2 churches, a gristmill, sawmill, and 39 dwellings. **Lime Lake** is a hamlet at the head of the lake of the same name. Timothy Butler and Jeremiah Ballard, from Me., located on Lots 13 and 14, on the creek, below the village, in 1813.⁸ The first religious services were performed by Rev. John Spencer, a missionary from Conn.; and the first church (M. E.) was organized in 1822.⁹

MANSFIELD—was formed from Little Valley, Feb. 23, 1830. It is an interior town, a little

1820; the first marriage, that of Abner W. Wise and Laura Parsons, in 1823; and the first death, that of Laura, daughter of Capt. John Fairbanks, in 1821. Richard Outhett fought the first school, in the winter of 1822-23. Asa Franklin kept the first inn, in 1823, and Johnson Noyes the first store, in 1828. Ebenezer Collar erected the first sawmill, in 1824, on Mud Creek; and Jobez Thompson the first gristmill, on the same stream, in 1832.

1 There are now 3 churches in town; Bap., M. E., and United Brethren.

2 Rock City is situated upon the nearly level summit of a hill 400 feet above the valley and 2,000 feet above tide, and covers an area of about 100 acres. The rock, consisting of Cat-skill conglomerate, is arranged in regular blocks, with sharp angles and perpendicular sides, presenting the appearance of corn-cobs or spars, in the midst of numerous streets and alleys. In a more minute description of the place, Prof. Hall, in his "Geology of New York," says: "The large trees which stand upon the top of the massive blocks here often send their roots down the sides, when they are sustained by the deep soil, supporting the lime growth above upon an almost barren rock. The rectangular blocks, composed of pure white pobbles conglomerated, are from 20 to 25 feet in thickness, and standing regularly arranged along the line of outcrop, present an imposing appearance."

3 A successful experiment in domesticating the American Elk has been made in this town by Mr. Lorenzo Stratton. This gentleman purchased a pair in 1833, and subsequently 3 more, from the head branches of the Missouri, and placed them in a pasture of 125 acres of well fenced woodland. By frequent attention and feeding, the animals have become so domesticated that they are driven to the annual co. fairs without trouble. His original number of 5 have increased to 16, including a pair of 5 year olds sold for \$1,000 for shipment to England, in 1867, and a 3 year old buck slaughtered July 4, 1858.

4 Among the first settlers before the war were Luther Stewart, Wm. Gillmore, David Powers, and Alpheus Bassom. After the war, Stephen Crocker, from Madison co., located on Lot 30, in Feb. 1816; and Noah Culver, Enoch, David, and Alvin Chase, and John Stratton, from New England, soon after. David Powers built the first saw and grist mill, in 1809, on Little Valley Creek.

5 The census reports 3 churches; F. W. Bap., Cong., and Prot. Meth.

6 Among the other early settlers were J. Simons, David, Seth, and Alphin Markham, from Penn., who settled on Lot 7 in 1809. The Markhams were originally from Conn. The first child born was Natalia, daughter of Solomon Rawson, in Aug. 1809; the first marriage, that of Wm. Markham and Rachel Phillips, March 1, 1813; and the first death, that of James Markham, the father of the 3 Markhams among the first settlers, in 1811. Sally Osborne taught the first school, in the summer of 1815, in the e. part of the town. The first inn was kept by Wm. Rawson, in the e. part, in 1825, and the first store, by Charles Gillmore, at the center, in 1827. The first sawmill was built by Jason Sherman, in 1843.

7 The census reports 4 churches; F. W. Bap., Wes. Meth., Asso. Presb., and Asso. Btd. Presb.

8 Joseph Kinney settled in 1815; Obadiah Vaughn in 1818; E. T. Ashcraft, Chas. Rutton, Chas. H. Briggs, and Wigen M. Farver soon after. The first marriage was that of Brigham Brown and Polly Mason, in April, 1821; and the first death, that of Esther Ashcraft, in Dec. 1819. Nathl. Bowen taught the first school, in 1819, on Lot 25. Andrew McInuzell erected the first sawmill, in 1822, and Dml. Potter the first gristmill, in 1823,—both on the outlet of Lime Lake. The first store was kept at the same place, by Howard Peck and Alva Johnson; and the first inn, on Ischua Creek, by Widow Freeman, in 1820.

9 The census reports 2 churches; M. E. and Christian.

s. w. of the center of the co. The surface is hilly, the highest elevations, in the s. e., being about 300 feet above the N. Y. & E. R. R. where it crosses the s. w. corner of the town. The s. branch of Cattaraugus Creek flows w. through the s. part, and several small streams s. into the Allegany. The soil is a hard, clay loam on the uplands, and a gravelly loam in the valleys. **Eddyville**, (p. v.) in the s. part, contains 2 churches, a sawmill, and 11 dwellings. The first settler was Amos Morgan, who located in the s. part in 1817.¹ The first church, (Bap.) formed in 1828, has since broken up.²

NAPOLI—was formed from Little Valley, Jan. 20, 1823, as "*Cold Spring*." Its name was changed April 15, 1828; and the present town of Cold Spring was taken off in 1837. Its surface is a hilly upland, the highest summits being 600 feet above the valley. The principal stream is Cold Spring Creek. The soil is a clay and gravelly loam. **Napoli**, (p. v.) s. of the center, contains a church and about a dozen houses. The first settlement was made on Lot 27, by Major Timothy Butler, in 1818.³ The first religious meeting was held by Rev. John Spencer, in 1820. The first church (Cong.) was organized in 1820.⁴

NEW ALBION—was formed from Little Valley, Feb. 23, 1830. It is an interior town, s. w. of the center of the co. The surface is a hilly upland. It is drained by streams flowing into Cattaraugus Creek on the s. and into the Allegany in the s. The soil is a clay loam on the hills, and a gravelly loam in the valleys. **New Albion**, (p. v.) a little s. of the center, contains 20 dwellings; **Cattaraugus**,⁵ (p. v.) in the s. part, contains a steam flouring mill and 50 dwellings. It is an important station upon the N. Y. & E. R. R., and has grown up since this road was completed. The first settlement was made on the s. w. corner of Lot 57, by Matthew Dimmick, in 1818.⁶ The first religious association (M. E.) was organized in 1830. There are 3 churches in town, but no church edifice.⁷

OLEAN—was formed March 11, 1808, and at first included the whole territory of Cattaraugus co. "*Ischna*," now Franklinville, was taken off in 1812, a part of Perrysburgh in 1811, Great Valley in 1818, Hinsdale in 1820, and Perryville in 1837. It lies upon the s. line of the co., near the s. e. corner. The surface is a hilly upland, separated into two distinct parts by the valley of the Allegany. The highest points are 500 to 600 feet above the valley. Lumbering is the leading occupation. **Olean**, (p. v.) on the Allegany, at the mouth of Olean Creek, was incorp. in 1851. It contains 6 churches, the Olean Academy,⁸ a newspaper office, a flouring mill, foundry, tannery, and 3 sawmills. Pop. 994. It is a station upon the N. Y. & E. R. R., and an important commercial point upon the river; and it was for some years the southern terminus of the Genesee Valley Canal.⁹ The first settlement was made prior to 1805. In that year Robert Hoops, agent of Adam Hoops, and David Heusten were residents near the river on small improvements, and must have settled as early as 1804.¹⁰ The first church (M. E.) was formed in 1820.¹¹

OTTO¹²—was formed from Perrysburgh, Jan. 29, 1823. East Otto was taken off in 1854, a

¹ Among the other early settlers were Nathaniel Fish, Sewell Gunn, and ——— Bennett, who located in the s. part in 1817; and Samuel L. Holtster, from Great Valley, who located in the s. e. part in 1822. The first child born was Mahala Fish, Dec. 9, 1820; and the first marriage, that of Prince W. Fish and Lois Grover, Jan. 1, 1824. The first school was taught by John Chase, in 1821. Nathaniel Fish kept the first inn, on the old John on Bond, in the s. part, in 1818, and Thos. H. McKay the first store, in 1818, at Eddyville. The first sawmill was erected by George and Mims on Clark, in 1820, on the s. branch of Cattaraugus Creek.

² The census reports 3 churches; M. E., F. W. Bap., and Unit.
³ In 1819, Geo. Hill located on Lot 29, Harvey Paine and Harlow Butler on Lot 51, Sargent Napoli on Lot 50, and Timothy B. Dimmick on Lot 43. The first child born was Joseph Fox, in June, 1820; the first marriage, that of Dr. Noble and Statira Confield, in 1821; and the first death, that of a child of Timothy Butler, in 1820. The first school was taught by Emory Bondman, in the summer of 1819. Moses Cook kept the first store, in 1820, and Estman Prescott the first inn, in 1831. James West erected the first sawmill, in 1820, on a branch of Cold Spring Creek.

⁴ There are 4 churches in town; Cong., Bap., F. W. Bap., and M. E.

⁵ Joseph Plumb, the owner of the lands on which the village is built, deeded the lots with the condition on penalty of forfeiture that no intoxicating liquors should be sold on the premises. It is, of course, a temperance village.

⁶ David Hammond, jr. located on Lot 33, and Jonathan Kinnecutt on Lot 10, in 1818; A. Smith Waterman on Lot 25, and James Godard on Lot 9, about the same time; Benj. Chamberlin on Lot 1, and David Hill and John A. Kinnecutt on Lot 18, in Dec. 1820; Robert and Timothy P. Gay subsequently located on

Lot 23. The first birth was in the family of Matthew Dennis E. in Dec. 1818. Capt. Rosecrantz, an Indian trader, lost his death in this town in the winter of 1819, while on his way to in the mouth of Cattaraugus Creek to Olean. The first inn was kept by Jas. Godard, on Lot 9, in 1819, and the first store by 1819—Booth, in 1822, at the center. Matthew Nealy built the first sawmill, on s. s. branch of Cattaraugus Creek, and Charles Stanley the first gristmill, on Lot 19, in 1820.

⁷ M. E., Wes. Meth., and Prot. Meth.

⁸ The academic buildings were burned April 1, 1856. The new buildings are nearly ready for the reception of students.

⁹ An act was passed in 1806 authorizing the extension of this canal 7 mi. to the Penn. line. The work is now in progress, and, when completed, it will, in connection with slack water navigation upon the river, open a direct communication with the coal mines of Penn.

¹⁰ John Brooks, James Green, Cornelia Brooks, Wm. Shepard, and Willis Thrall located in 1806. Jas. G. Johnson was the first settler in the village, in 1808. The first lumber was rafted down the Allegany in 1807, by Bilbas Fidler, Joseph Strong, and Dr. Bradley. The first birth in town was that of Oliver, daughter of Wm. Shepard, May 22, 1807; and the first death, that of Wm. B. Shepard, Sept. 21, 1809. Sylvanus Russell kept the first inn, in 1808, at Olean Point, and Levi Gregory the first store, in 1811, at Olean Village. Wm. Shepard and Willis Thrall erected the first sawmill, in 1807, on Olean Creek; and Adam H. Fox, the first gristmill, in 1809, at the mouth of the Creek. Mr. Hoops was a proprietor of lands and a pioneer settler. He had served with distinction in the Continental army,—at one period as aid to Gen. Washington.

¹¹ There are now 7 churches in town; 2 Evan. Luth., M. E., Prot. E., Presb., Bap., and F. C.

¹² Named from Jacob S. Otto, agent of the Holland Land Co.

part of Perrysburgh in 1823, and a part of Ashford in 1835. It lies on the s. line of the co., w. of the center. The surface is a hilly and broken upland. It is drained w. by Cattaraugus Creek, which forms its s. boundary, and several tributaries, the principal of which is the South Branch, forming the w. boundary. The soil is chiefly a hard, clay loam, with occasional spots of gravelly loam. **Waverly**, (Otto p. o.) in the s. part, contains a church, woolen factory, and gristmill. Pop. 277. The first settlement was made on Cattaraugus Creek, in 1816, by Joseph Adams and his son Bina, and Joseph Bartlet.¹ The first church (Christian) was formed about 1826.²

PERRYSBURGH³—was formed from Olean and "Ischua," now Franklinville, April 13, 1814, as "Perry." Its name was changed April 10, 1818. Little Valley was taken off in 1818, Otto in 1823, and Dayton and Persia in 1835. Part of Otto was annexed in 1823. It is the s. w. corner town in the co. Its surface is a hilly and broken upland. Cattaraugus Creek forms the s. boundary. The streams are small branches of Cattaraugus and Silver Creeks. The soil is a clay and gravelly loam. **Perrysburgh**, (p. v.) s. of the center, contains a church and 23 dwellings. It is a station on the N. Y. & E. R. R. **Versailles**, (p. v.) on Cattaraugus Creek, in the s. e. part, contains a church, 2 flouring mills, and a tannery. Pop. 274. The rapid descent in the creek at this point affords an extensive water-power. The first settlement was made in 1815, by John Clark.⁴ Religious meetings (M. E.) were held in 1820; but the first church (Bap.) which drew the lands granted by the Holland Land Co. was formed in 1821.⁵

PERSIA—was formed from Perrysburgh, Feb. 7, 1835. It lies on the s. line of the co., w. of the center. The surface is a hilly upland, with a general inclination toward the s. The highest points are about 650 feet above Lake Erie. The principal streams are Cattaraugus Creek, forming the s. boundary, and South Branch. The soil is a clay and gravelly loam. **Gowanda**,⁶ (p. v.) on Cattaraugus Creek, in the s. w. corner, was incorp. Dec. 7, 1847. It contains 2 churches, a newspaper office, a large flouring mill, 2 sawmills, and various other manufacturing establishments. Pop. 908, of which 520 are in Persia and 388 are in Collins, (Erie co.) The first settlement was made a little above Gowanda Village, in 1811, by John Russell, from Vt. Upon the breaking out of the War of 1812, he left with his family and never returned. In 1814, Ahaz Allen, from Vt., settled permanently on the lot left by Russell.⁷ The first religious meetings were held by Elder Elnathan Finch, (F. W. Bap.,) in 1815-16. The first church (Presb.) was formed in 1826, at Gowanda.

PORTVILLE—was formed from Olean, April 27, 1837. It is the s. e. corner town of the co. The surface is mostly a hilly upland, the highest summits being 500 to 600 feet above the valleys. The Allegany River enters the town upon the s. border, flows s. to near the center, and thence s. w. to the w. border. It receives as tributaries Oswaya, Dodges, and Haskill Creeks. The soil is a sandy loam; and the flats were originally covered with a magnificent growth of white pine. Lumbering is the leading pursuit. **Portville**, (p. v.) on the Allegany, contains 2 churches, 2 sawmills, and a gristmill. Pop. 287. **Mill Grove**, s. of Portville, on the Allegany, contains 2 sawmills, a gristmill, and 18 dwellings. The first settlement was made in 1805, by James Green, on Haskill Creek, in the s. part of the town.⁸ The first church (M. E.) was formed in 1824. The census reports 2 churches; M. E., and Presb.

RANDOLPH—was formed from Connewango, Feb. 1, 1826, and named from Randolph, Vt. A part of South Valley was taken off in 1847. It lies upon the w. border of the co., s. of the center. Its surface is an undulating and hilly upland, the highest summits being about 400 feet above the valleys. Little Connewango Creek is the principal stream. The soil is mostly a clay

¹ Stephen, Isaac, and Benj. Balkard, from Vt., and Ephraim Brown, settled in 1818, in different parts of the town. David S. Elliott kept the first inn, and Vine Plumb the first store, in 1828, at Waverly. The first sawmill was erected by Isaac W. Sherman, in 1822; and the first gristmill, by Stephen Rogers, in 1828, at Waverly.

² There are now 3 churches in town; Christian, M. E., and Presb.

³ Named from Commodore O. H. Perry.

⁴ Among the other early settlers were Edward Russell, Phineas Spencer, Hugh Camplell, Ralph Gaswood, Wm. Cooper, John Sprague, and Simon Waterman, who came in about 1816; and Elisha Ward, Stephen Crocker, and Freeman Edwards, who located near Perrysburgh Village in 1817. The first school was taught by Olive Barto, in the summer of 1819. Jeng. Waterman kept the first inn, in 1816, and Cobb, Cook & Pilton the first store, at the village, in 1827. The first sawmill was erected on the branch of Silver Creek, by Isaac Balcomb; and the first gristmill, at Versailles, about 1820.

⁵ The census reports 4 churches; 3 M. E., and Bap.

⁶ Formerly called "Lodi."

⁷ Thomas Farnsworth located in 1814, and Merrill Aldrich and Daniel Wheeler in 1815. The first child born was Amie Farnsworth, in the summer of 1815. The first school was taught by Polly Redfield, in 1817. Ahaz Allen erected the first sawmill, in 1814; the first clothing works, in 1821; and first gristmill, in 1823, on Cattaraugus Creek. Phineas Spencer kept the first store, about 1825, at Gowanda. "Point Peter" is the name given to a locality $\frac{1}{2}$ mi. above Gowanda that marks the site of an ancient fortification.

⁸ There are 2 churches in town; Presb. and M. E.

⁹ The first child born was Hannah Green, daughter of Jas. Green, April 28, 1807; the first marriage was that of Jonathan Dodge and Eunice Atherton, in 1809; and the first death, that of David Heusten, killed by the spring of a tree while getting out spurs, in the spring of 1807. Anna Carpenter taught the first school, near Portville Village, in the summer of 1822. James Rice kept the first inn, in 1822, and Allen Rice the first store, in 1825. The first sawmill was erected by James Green and Alpheus Dodge, on Haskill Creek, in 1807; and the first gristmill, by Samuel King, on Dodges Creek, in 1830.

and gravelly loam. A sulphur spring is found $\frac{1}{2}$ mi. s. of East Randolph. **Randolph**, (p. v.) on Little Connewango Creek, in the s. part, contains a sawmill, 3 churches, and about 600 inhabitants; **East Randolph**, (p. v.) in the s. e. corner, contains 2 churches, a grist and saw mill, a furnace, machine shop, tannery, and about 700 inhabitants. Randolph Academy is situated upon an eminence about midway between the villages. The first settlement in town was made at Randolph Village, by Edmund Fuller, from Oneida co., in 1820.¹ The first church (M. E.) was organized in 1823.²

SOUTH VALLEY—was formed from Randolph and Cold Spring, April 2, 1847. A part of Cold Spring was annexed in 1848. It is the s. w. corner town of the co. The surface is mountainous and broken. Allegany River flows s. w. through the town and receives as tributaries Split Rock, Hotchkiss, Tunnessassa, Pierce, Sawmill, and Bone Run Creeks. The soil is a clay loam on the hills, and a rich, gravelly loam in the valleys. Lumbering is the principal occupation of the people.³ **Onoville** is a p. o. The first settlement was made, under the auspices of the Friend's Mission, upon the Allegany Indian Reservation. The Mission was established in 1798, by the Yearly Meeting of Philadelphia Friends; and Joel Swayne, Holliday Jackson, and Chester Simmons, from Chester co., Penn., settled upon the Reservation, in the s. part of the town.⁴ It does not appear that any other religious association has ever been formed in the town. The Presb. missions on the Reservation, however, have an extensive range in the valley of the Allegany.

YORKSHIRE—was formed from Franklinville, April 13, 1820. Machias was taken off in 1827. A part of Freedom was annexed in 1844, and a part of Machias was taken off in 1847. It lies upon the s. border of the co., e. of the center. Its surface is a rolling and hilly upland. Cattaraugus Creek forms the s. boundary. South Branch flows through near the center and receives several tributaries. The soil is a clay and gravelly loam. A large amount of maple sugar is annually produced. **Yorkshire Corners**, (Yorkshire p. o.) on Cattaraugus Creek, contains 38 dwellings. **Yorkshire Center**, (p. v.) a little e. of the center, contains 2 churches, 2 sawmills, a gristmill, and 42 dwellings. **West Yorkshire**, (p. v.) on the s. line, at the junction of the South Branch with Cattaraugus Creek, contains a gristmill, sawmill, carding machine, and 14 dwellings. The first settlement was made in 1810, on Lot 1, in the s. e. corner, by Abner Bomp, from Vt.⁵ The first church (M. E.) was formed about 1814.⁶

¹ The first child born was James Fuller, in June, 1822; and the first death was that of Zalmon C. Smith, June 17, 1824, while at work on mills of Chauncey C. Helms. The double marriage of David Salisbury and Clement Russell with daughters of Thos. Harvey, at the same time, were the first in town. The first school was taught by Nelly Morton, at Randolph Village, in the summer of 1822. Benj. Clark kept the first inn, in 1823, and Robert Helms the first store, in 1837. Thos. Harvey erected the first sawmill, in 1822; Chauncey C. Helms, the first gristmill, in 1826; and Jonathan Wood, the first carding and cloth dressing mill, in 1827.

² There are 5 churches in town: M. E., Bap., F. W. Bap., Cong., and R. C.

³ The extensive pine forests which grew in town are nearly exhausted; and the lumbering is now mostly confined to the coarser kinds of lumber. The town has an area of 37,749 acres, of which only about 2,000 acres are under improvement.

⁴ Soon after the first settlement the Yearly Meeting at Phila-

delphia purchased 300 acres of land of the Holland Land Company and built a saw and grist mill. The mills did work for white settlers on the usual terms, and furnished lumber and ground corn for the Indians free. The Indians were also instructed in agriculture and the arts of civilized life. The mills were built by Jacob Taylor and Jonathan Thomas. Robert Clendenon, from Chester co., Penn., occupied the Mission Station in 1812. It is said that descendants of Sir Wm. Johnson are now residing on the Allegany Reservation.

⁵ Benj. and Wm. Felch, Edward Bomp, Thos. Dow, and Luther Thompson were among the first settlers. Sand. G. Sutton and Robert Steel, from N. H., settled in 1818, and are now the oldest residents in town. The first store was kept by Henry I. Eiker, in 1823, and the first inn by Prescott Williams, in 1826,—both at Yorkshire Corners. Isaac Williams erected the first grist and saw mill, in 1814, on Cattaraugus Creek.

⁶ There are now 3 churches in town; M. E., Bap., and Univ.

CAYUGA COUNTY.

This county was formed from Onondaga, March 8, 1799. Seneca was taken off in 1801, and a part of Tompkins in 1817. It is a long, narrow co., lying w. of the center of the State, and extending from Lake Ontario s. to near the head of Cayuga Lake. It is centrally distant 146 mi. from Albany, and contains 756 square mi.¹ It has a general northerly inclination, and is divided geographically into two nearly equal parts by a line extending eastward from the foot of Cayuga Lake. The s. half is level, or gently undulating, and contains numerous marshes. Some portions of its surface are covered with small, isolated drift-hills 50 to 75 ft. high. The surface of the s. half is rolling, and gradually rises until it attains an elevation of 500 to 800 ft. above the level lands of the s.

These highlands are divided into two general ridges, the first lying between Skaneateles and Owaseo Lakes, and the second between Owaseo and Cayuga Lakes. The summits of both ridges are rolling, and have an elevation of 1000 to 1200 ft. above tide. Their e. declivities are often precipitous, forming high, bold bluffs upon the shores of the lakes, but their w. declivities are more gradual, generally sloping gently down to the very edge of the waters. The s. part of the w. ridge is divided near its center by the valley of Salmon Creek, which is bordered by steep banks 50 to 200 ft. high. Among the most peculiar of the natural features of the co. are the three long, narrow lakes which extend from the level regions of the s. between the parallel ridges far into the highlands of the s. Skaneateles Lake, upon the n. line, is 840 ft. above tide, and is bordered by bluff shores within the limits of the co. Owaseo Lake, near the center, is 770 ft. above tide, and its shores are generally bold, and in some places precipitous. Cayuga Lake, on the western border, is 387 ft. above tide, and along nearly its whole extent in the co. the land slopes beautifully and evenly upward from its surface to the summits of the ridges. The water of these lakes is clear and transparent, and may be taken as the very type of purity. This lake region, with its beautifully rolling surface and rich and productive soil, with its green lawns apparently stretching upward from the very bosom of the water, and with its highly cultivated farms, presents one of the finest landscapes in the country. Seneca River flows eastward through near the center of the lowlands which form the s. half of the co. It receives Cayuga and Owaseo Outlets from the s., and numerous smaller streams from both the s. and s. A swampy region, known as the Montezuma Marshes, extends along the whole course of the river.² The streams that drain the central ridges are small creeks and brooks. Upon the level land in the s. part of the co. are a series of small, shallow lakes and ponds, the principal of which is Cross Lake.

The rocks in this co. generally lie in nearly horizontal layers, but in some places they are disrupted and broken. Their edges appear one above the other, forming the declivities of the hills that rise toward the s. The lowest formation is the Medina sandstone, which outcrops upon the shore of Lake Ontario and covers the s. half of Sterling. Above this successively appear the Oneida, conglomerate, and Clinton groups in the s. part of Sterling; the Lockport group in Victory; the red shale of the Onondaga salt group in Cato, Brutus, Conquest, and Mentz; the gypsum of the same group in Auburn, Aurelius, and Springport, and for a distance of 10 miles along Cayuga Lake; the waterlime and Oriskany sandstone in Owaseo, Auburn, Fleming, and Springport; and, successively above the Onondaga and corniferous limestone, the Marcellus and Hamilton shales, Tully limestone, Genesee slate, and the Portage and Ithaca groups, the last occupying the summits of the southern hills. Weak springs of brine are found in the Medina sandstone upon the borders of Lake Ontario, and also in the red shale of the salt group along the course of Seneca River. In the central part of the co., and along the shores of Cayuga Lake, are numerous quarries, which furnish a good quality of waterlime, quicklime, and gypsum. The red sandstone and the Onondaga and corniferous limestone are quarried extensively for building stone. Thin layers of corniferous limestone and of sandstone are extensively quarried along Cayuga Lake, and make an excellent quality of flagging.

The soil in the s. half of the co. is generally a fine quality of sandy or gravelly loam, inter-

¹ Exclusive of 150 sq. mi. in Lake Ontario.

² Several cut-offs have been made by the State to drain these

marshes, and large sums have been expended. A portion only, however, has yet been reclaimed.

mixed with clay, muck, and alluvium; and in the s. it is a gravelly and clay loam and very productive. The whole co. is well adapted to either grain raising or pasturage. Until within a few years wheat has been the staple production: but it has been nearly superseded by rye, oats, barley, and corn. Wool growing and dairying are also extensively pursued. The cultivation of fruit, for which the climate and soil are admirably adapted, is beginning to receive considerable attention. The manufactures of the co., mostly confined to Auburn, are extensive, though comparatively less than in 1810.¹

The county seat is located at the city of Auburn.² An elegant and substantial courthouse was built in 1807-09.³ It is located upon a commanding site in the s. w. part of the city, and contains rooms for the usual co. offices. A fireproof clerk's office is situated adjacent to the courthouse. A substantial stone jail was erected in 1833, in the rear of the courthouse.⁴ The county poorhouse is located upon a farm of 90 acres in Sennett, 3 mi. s. e. of Auburn. It is a poor, old, dilapidated building, containing about 30 rooms. The average number of inmates is about 100, supported at a weekly cost of 70 ets. each. A school is kept during a portion of the year.⁵ The Cayuga Orphan Asylum, located in the city of Auburn, was incorp. in April, 1852. It receives orphans and destitute children and has an average attendance of 30. The institution is well managed, and the children receive good care and instruction. The Erie Canal extends through Brutus, Mentz, and Montezuma. Cayuga Lake and Outlet are navigable, and form a connection with the canal at Montezuma. The direct branch of the N. Y. Central R. R. from Syracuse to Rochester extends through Brutus, Mentz, and Montezuma, and the Auburn branch through Sennett, Auburn, and Aurelius.⁶

Two daily, 7 weekly, and 3 monthly papers are published in the co.⁷

¹ The number of looms in the co. were 1,360, producing 340,870 yds. of cloth annually; there are 19 tanneries, 47 distilleries, 48 aseries, 11 carding machines, 11 cloth dressing-mills, 3 of mills, an air furnace, triphammer, several nail factories, 6 or 7 then were factories, and several hatters' shops. About 2,500 skins of silk and 60,000 bush. of salt are made annually. The inhabitants clothe themselves principally in the products of their own families, and were it not for the exorbitant number of their distilleries, I should add, are very temperate and industrious,—the character given them by correspondents.—*Sp. of ed's Gazetteer, ed. 1815.*

² When organized in 1799, Cayuga included Seneca co., the territory lying between the Cayuga and Seneca Lakes; and, as central to the thin population, the first courthouse was located at Aurora, on the e. shore of Cayuga Lake. It was built of poles and covered with brush. In 1805 a circuit court and court of Oyer and Terminer was held at this place by Daniel D. Tompkins, at which an Indian by the name of John was tried and convicted of the murder of Ezekiel Crane, jr., and sentenced to be hung. He urgently requested that he might be shot,—a privilege, of course, not granted by our laws. A log building at Cayuga Village was authorized to be used as a jail March 25, 1803. In 1804 an act was passed, authorizing John Tillotson, Augustus Chidsey, and John Grover, jr., commissioners to build a courthouse on the s. e. corner of Lot 45 of Scipio, (now Auburn.) This act was afterward repealed. On the 6th of March, 1805, Edward Savage, of Washington co., Jas. Burt, of Orange, and Jas. Hildreth, of Montgomery, were appointed commissioners to locate the site of a courthouse. The commissioners neglected to fix the site; and, April 6, 1808, John Glover, Stephen Case, and Noah Ormstead were appointed to superintend the finishing of the courthouse at Auburn.

³ The first co. officers were Seth Phelps, *First Judge*; William Stuart, *District Attorney*; Benjamin Hayward, *County Clerk*; Joseph Annin, *Sheriff*; Glen Cuyler, *Surrogate*.

⁴ This building is 45 by 65 feet, 2 stories high, with 2 double and 26 single cells, arranged in the center of the building, with a hall on three sides, open to the prisoners in daytime.

⁵ No means are provided for ventilating the rooms or for classifying the inmates. The insane are sometimes confined in dark cells not provided with means of warmth; and the whole establishment and its management are by no means creditable to the intelligence and humanity of the citizens of the co.

⁶ The Ontario, Auburn & N. Y. R. R., extending from Little Falls Bay s. to Ithaca, has been surveyed through the co. and partially graded; but work upon it has been suspended.

⁷ The *Levanna Gazette, or Onondaga Advertiser*, the first paper published in Cayuga co., was established July 20, 1798, at Levanna, in the town of Scipio, (then Onondaga co.) by R. Delano.

The *Western Luminary* was published at Watkins' Settlement, in Scipio, in 1799.

The *Aurora Gazette* was established in 1799 by H. & J. Pace, and continued until 1865, when it was removed to Auburn and changed to

The *Western Ecologist*. It was published as

The *Auburn Gazette* by Skinner and Crosby in 1816,

The *Cayuga Basin* was commenced at Union Springs in 1812 by R. T. Chamberlain. It was soon after removed to

Auburn, and continued by different persons until 1847, when it was united with the Cayuga Patriot.

The *Cayuga Patriot* was started at Auburn by Samuel R. Brown in 1814. Isaac S. Allen, Clydes E. Doubleday, and others, were afterward interested in its publication. In June, 1847, it was united with the Tocsin, the joint papers taking the name of

The *Cayuga New Era*. It was successively published by Merrill, Stone & Co., Stone, Hawes & Co., Finn & Hallett, and William L. Finn, and was discontinued in 1857.

The *Advocate of the People* was commenced at Auburn in Sept. 1836, by Henry C. Southwick.

The *Cayuga Republican* was commenced in 1819 by A. Buckinham, and was afterward published by Thomas M. Skinner. In 1833 it was united with the Free Press and issued as

The *Auburn Journal and Advertiser* by Oliphant & Skinner. Skinner subsequently withdrew, and the paper was continued by Oliphant. In 1849 it was issued as

The *Auburn Daily Advertiser*, and the same year published in the co., was established in connection with it. In the fall of the same year, Oliphant sold out to Henry Montgomery, by whom the papers were continued until 1850, when Knapp & Peck, the present publishers, became proprietors.

The *Auburn Free Press* was commenced by Richard Oliphant in 1824 and published by him until 1829. It was then sold to Henry Oliphant, and in 1833 it was united with the Cayuga Republican.

The *Gospel Messenger* (Prof. E.) was established at Auburn by Rev. Dr. Eudd in 1827. It was removed to Utica a few years after.

The *Diamond* was published in 1830.

The *Confidential* was published in 1830.

The *Cayuga Democrat* was published by Fred. Prince in 1833.

The *People's Friend* was published in 1836 by Oliphant & Skinner.

The *Western Banner* was published in 1836 by Francis S. Wiggins.

The *People's Library*, mo., was published in 1836 by F. S. Wiggins.

The *Primitive Christian* was published in 1836 by Silas E. Shepard.

The *Conference Record* was published in 1837 by Rev. J. S. Chamberlain.

The *Northern Christian Advocate* (M. E.) was commenced in April, 1841, by Rev. John E. Robie. It was edited by Rev. F. G. Hibbard and Rev. Wm. Hosmer until May, 1841, when it was purchased by the Meth. Genl. Conference and changed to

The *Northern Advocate*. It was edited successively by Rev. Nelson Rounds and Wm. Hosmer, and is now under the editorial charge of Rev. F. G. Hibbard.

The *Star of Temperance* was published in 1845 by L. H. Davey. Auburn's *Favorite* was published in 1849 by Newton Collins.

The *Cayuga Chief* was commenced at Auburn in January, 1849, by Thomas W. Brown, and continued until 1857.

The *Auburn Daily Bulletin* was published in 1849 by Stone, Hawes & Co.

The *Masonic Union*, mo., was published in 1850.

This co. formed a portion of the Military Tract, and included the original townships of Cato, Brutus, Aurelius, Scipio, Sempronius, and parts of Milton and Locke. Sterling was included in the lands granted as a compensation for portions of the original grants, which upon survey were found to belong to the Boston Ten Towns. Before the advent of the whites it formed the chief hunting grounds of the Cayuga Nation. The people of this nation were more migratory in their habits than those of the Onondaga and Seneca nations, and they had fewer towns and villages. The principal town or place of council of the tribe was upon the shore of Cayuga Lake, near the present village of Aurora. The first white settlers were soldiers, who had served during the Revolution and who drew lots upon the Military Tract, or those who had purchased soldiers' warrants. The first immigration was by the way of Oneida Lake and River, and from the s. by way of Cayuga Lake; but in 1796 a State road, extending from Whitestown to Geneva by way of Auburn, was cut through; and in 1800 the celebrated Cayuga Bridge¹ was built, the new route speedily becoming the great highway of Western emigration. The population steadily and rapidly increased from 1790, a great impulse being given to it by the completion of the Erie Canal in 1825. The first inhabitants were principally from New England and the eastern co. of New York.

AUBURN CITY—was formed as a town from Aurelius, March 28, 1823. It was incorp. as a village April 18, 1845, and as a city March 21, 1848. It lies upon Owaseo Outlet, near the center of the co. Its surface is rolling, with an inclination toward the N. Owaseo Outlet, flowing S. W. through near the center, descends 120 ft., and furnishes an abundance of water-power, which is mostly improved. Along its course are valuable quarries of waterlime, Oriskany sandstone, and Onondaga and corniferous limestone. The city is finely laid out upon both sides of the creek, most of the streets having a gentle inclination. It is situated in the midst of a rich farming country, and it has a large share of internal trade. Its manufactures are

extensive and important, consisting principally of woollen goods,² paper, agricultural implements, books, flour, and machinery. Besides the co. buildings, it contains 12 churches,³ 3 banks, and many other fine public and private buildings. Seven weekly, 2 daily, and 2 monthly papers are published in the city. Pop. 9,476.

The *Public Schools* are under a Board of Education, consisting of 4 members, elected annually. The schools, 5 in number, employ 23 teachers,—5 males and 18 females. In 1858 the number of children between the ages of 4 and 21 was 3091, of whom 2187, or 72 per cent., attended school during some portion of the year. The total expenses of the schools for 1858 were \$13,231.19. The number of volumes in the district libraries is 3986.

The Christian Ambassador (Univ.) was commenced in Jan. 1851, and is now edited by John M. Austin.

The Spiritual and Moral Instructor was published in 1851 by Perez S. Colburn & Co.

The Auburn American, d. and w., was established in Feb. 1856, by Wm. J. Moses. In 1859 the name of the daily was changed to

The Daily Union, Mosaic & Nail publishers.

The Journal of Specific Homoeopathy, mo., was started in March, 1855, and is pub. by F. Humphreys.

The Spiritual Clarion, commenced Nov. 16, 1856, is published weekly by Urnah Clark.

The Northern Independent was estab. in Aug. 1856, by a pub. com. of the M. E. Ch.; Rev. Wm. Hosmer, ed.

The Orphans' Friend, mo., commenced in Feb. 1857, is pub. by the managers of the Cayuga Orphan Asylum.

The Cayuga Farmer and Mechanic was commenced in Sept. 1856, by P. J. Becker. In Dec. 1857 its name was changed to

The Teachers' Educational Journal; it is still issued by its original proprietor.

The Auburn Democrat was established in Aug. 1857, by Stone and Hawes, by whom it is still published.

The Woodport Advertiser was published in 1827.

The North in Phoenix was published at Woodport in 1830 by Frederick Prince.

The Genesee Star was published in 1840 by Gehim Hime.

The Port Byron Herald was first published at Port Byron in Oct. 1844 by Frederick Prince.

The Port Byron Gazette was started in 1851 by Oliver T. Baird, and continued until 185-

The Cayuga Telegraph was published at Union Springs in 1850. **The Meridian Sun** was started in 1854 by Arthur White. It was afterward published as

The Meridian Advertiser by W. H. Thomas.

The Family Scrap Book, mo., was published at Victory Center in 1855-56.

¹ The Cayuga Bridge was finished Sept. 4, 1800, by the Manhattan Company. It was 1 mi. and 8 rods long, 22 ft. wide and 22 ft. between trestles. It was built in 18 months, and cost \$150,000. The Cayuga Bridge Company, consisting of John Harris, Thos. Morris, Will. Innes Mynderse, Charles Withmason, and Jos. Annin, was incorp. in 1797. The bridge was destroyed in 1808, but afterward rebuilt. For a great number of years the Cayuga bridge was considered one of the greatest public improvements in the State, and it was taken as the dividing line between the E. and W. The bridge was abandoned in 1877, and the lake is now crossed by a ferry.

² The Auburn Wooden Mills give employment to 175 hands and manufactures 250,000 yds. of cloth per annum. The Auburn Paper Mills employ 50 hands and manufacture \$80,000 worth of paper annually. The tool boxes and machine shops give employment to a large number of men, and turn out work to the amount of \$100,000 annually. The N. Y. C. R. R. repair shops employ 52 hands exclusively in repairing passenger cars. For a number of years books were very extensively manufactured; but of late much of this branch of business has been removed to other cities. Besides these, there are, in the city, a saw-lumber, hating factory, carpet factory, distillery, rolling mill, and 2 grist mills.

³ 2 Presb., 2 M. E., 2 R. C., Prot. E., M. Meth., Bap., Second Advent, Univ., and Disciples.

The *Auburn Academy* is a fine stone edifice on Academy St. It was first erected in 1811, but was burned in 1816, and the present building was soon after erected.

The *Auburn Female Seminary*, a private institution, is in the building erected for a city hall, at the junction of Market, Franklin, and North Sts.

The *Auburn Theological Seminary*, a Presb. institution, was established by the Synod of Genesee in 1819. It was incorp. in 1820 and opened in 1821. The building is located upon a commanding site, fronting Seminary St., in the s. e. part of the city.

The *Cayuga Orphan Asylum*, an institution for the care of orphan and destitute children, is supported by State and co. appropriations and private contributions.

The *Auburn State Prison* is situated on the s. bank of Owaseo Outlet, s. of the center of the city. The site, containing 10 acres, is surrounded by high walls, and within this enclosure are the prison proper¹ and the various workshops in which the convicts are employed. The main building, fronting upon State Street, is 3 stories high and 276 feet long, and is flanked by two wings 42 feet wide and 242 feet deep.

The *Asylum for Lunatic Convicts*, situated upon a lot of 10 acres, formerly the prison garden, in the rear of the prison, is a fine brick building, faced with cut stone. It contains 64 cells, and rooms for physicians, attendants, &c.²

Fort Hill is a beautiful rural cemetery, located upon the site of an ancient fortification and Indian village. It contains a monument to the memory of Logan, the celebrated Cayuga chief.³ The first settlement at Auburn was made in 1793, by Col. John Hardenburgh, from Ulster co.⁴ Gen. Wm. H. Seward resides in this city.

AURELIUS—was formed Jan. 27, 1789. Brutus, Cato, Owaseo, and "Jefferson" (now Mentz) were taken off March 30, 1802, Auburn and Fleming in 1823, a part of Springport in 1833, and a part of Throop in 1859. It lies upon Cayuga Lake, near the center of the w. border of the co. Its surface is undulating, with a slight inclination toward the s. and w. Owaseo Outlet flows through the s. e. corner; and upon its course are several fine mill privileges. Cayuga Brook, Crane Creek, and several other small streams take their rise in the town. The soil is mostly a heavy clay and gravelly loam. **Cayuga**, (p. v.) upon Cayuga Lake, 2 mi. s. of the outlet, was incorp. in 1858. It is an important station upon the Central R. R., and is connected with Ithaca by a daily line of steamers. It contains 2 churches and 400 inhabitants. **Posterville**, (p. v.) in the n. part, contains a church and 12 dwellings; and **Aurelius**, (p. v.) in the s. e. part, a church and 12 dwellings. **Clarksville**, on the e. line, is a manufacturing village, and forms a suburb of Auburn. It contains a paper mill,⁵ gristmill, hoe factory, woolen factory, and 300 inhabitants. The first settlement was made at Cayuga in 1788, by John Harris, from Harrisburgh, Penn.⁶ The first church was formed in 1804, by Rev. David Higgins.⁷

BRUTUS—was formed from Aurelius, March 30, 1802. Sennett was taken off in 1827. It lies on the e. border of the co., n. of the center. In the n. and w. its surface is level, with an

¹ The cells of the prison are built in a block 5 stories high, separated from the exterior walls by an open space and surrounded by galleries. Each cell is 7 feet long by 3½ wide and 4½ high, closed by an iron grate. Breakfast and dinner are eaten at narrow tables, so arranged that the convicts cannot exchange looks or signs. Supper is eaten in the cells. The workshops form a range of near 1000 feet, built against the outer wall and lighted from the roof and inner sides. Water-power is afforded by the Owaseo. These prison buildings were commenced in 1816 and completed in 1819, by the State, at a cost of \$300,000, exclusive of the labor of convicts upon them. The general control is vested in a Board of Inspectors; 54 officials, including a guard of 20 men, a chaplain, a physician, and teachers, are employed in the management and government of the establishment. The average number of convicts is about 40. Their earnings in 1857 were \$70,000, and the current expenses of the establishment about \$72,000.

² This building was erected by the State in 1858, at a cost of \$50,000.

³ This ancient fortification was evidently the work of a people who occupied the country prior to the advent of the Indians; the monuments left by this people, the remains of the language still existing, and the traditions of the Indians, all show that they belonged to the same general stock as the aborigines of Mexico. They are known as the "Mound Builders," and in history are generally called the "Allegians." The fort at this place was probably built prior to the discovery of America by Columbus, and was occupied by them for several hundred years; but they were finally driven out by the Cayugas. It was named by them *Oseo* or *Was Kongh*, and became the principal village of the nation until the advent of the whites. The celebrated Indian chief, Logan, was born here about the commencement of

the last century. He afterward emigrated to Penn., and finally to Ohio. He was always known as a peacemaker and friend to the whites until his wife and children were murdered by Col. Cresap, after which he took up the hatchet and became one of the most noted of the Indian warriors. His address to the Peace Commissioners at the close of the war has scarcely its parallel in history for true eloquence and pathos. This ancient work is particularly described in the *Smithsonian Contributions*, Vol. II, Art. VI, p. 55.

⁴ Among the other early settlers were Col. Brinkerhoff, Dr. Backeliet Burt, Wm. Bestwick, Barnabas Casswell, and Lyman Paine, who came about 1795. John Hardenburgh built the first gristmill, in 1794; and Wm. Bestwick kept the first inn, in 1796. The place was called "Hardenburgh Corners" until 1805, when its name was changed to Auburn.

⁵ The Auburn Paper Mill was incorp. here Feb. 17, 1848, with a capital of \$50,000. It gives employment to 40 hands, and manufactures paper to the amount of \$150,000 annually.

⁶ Mr. Harris established the first ferry across Cayuga Lake. Wm. Harris and John Richardson came in the same year. The first marriage was that of John Harris and Mary Richardson, in 1789; the first birth, that of John Harris, Jr., in 1790; and the first death, that of — Deputy, in 1797. Hugh Buckley taught the first school, in 1797; John Harris kept the first inn, in 1790, and the first store, in 1789. The celebrated Cayuga Bridge, 1 mi. 8 rods in length, was built in 1797, by Swardwood & Deiman, of New York City, and Joseph Annin and others, of Cayuga. It fell in 1804, but was rebuilt in 1812-13, and was abandoned in 1857. After it was built, the road across it was the great high-way of emigration until the canal was finished. The county seat was located here at the first organization of the co.

⁷ There are 4 churches in town; 2 Presb., and 2 M. E.

average elevation of not more than 10 feet above Seneca River, which forms its s. boundary. The portions immediately bordering upon the river are generally swampy. In the s. e. the surface is rolling and broken by isolated drift hills 50 to 75 feet above the general level. The principal streams are Bread Creek and Cold Spring Brook, both flowing into Seneca River. The former is a canal feeder, and along its banks are outcrops of limestone and plaster, which are quarried to some extent. The soil is a fine quality of sandy and gravelly loam intermixed with clay and alluvium. **Weedsport**¹ (p. v.) was incorp. April 26, 1831. It is situated upon the Erie Canal, and is a station on the N. Y. Central R. R. It contains a bank, insurance office, union school, 4 churches, a foundery, a large distillery, and several mills. Pop. 1,226. The first settlement was begun in 1800, by Wm. Stevens, from Mass., on Lot 76.² The first church (M. E.) was formed in 1816.³

CATO—was formed from Aurelius, March 30, 1802. Sterling was taken off in 1812, and Conquest, Ira, and Victory in 1821. A part of Ira was annexed in 1834. It lies upon the e. border of the co., n. of the center. Its surface is level in the s. and gently rolling in the n. The ridges extend n. and s., and their summits are about 50 feet above the valleys and 150 to 200 feet above Lake Ontario. Seneca River forms the s. boundary. Cross Lake, upon the e. border, is a shallow body of water about 5 mi. long, through which flows Seneca River. Otter Lake and Parkers Pond, in the n. part, discharge their waters through Otter Creek into Seneca River. The soil is a sandy and gravelly loam mixed with clay and disintegrated red shale. **Meridian**,⁴ (p. v.) in the n. part of the town, was incorp. Oct. 17, 1854. Pop. 360. **Cato**, (p. v.) on the line of Ira, in the n. w. corner, contains 3 churches and 53 dwellings. **Seneca River** is a p. o. The first settlement was begun in 1800, by Samson Lawrence, on Lot 32.⁵ The first church (Bap.) was formed Oct. 26, 1810; Rev. Daniel Palmer was the first pastor.⁶

CONQUEST⁷—was formed from Cato, March 16, 1821. It lies on the w. border of the co., n. of the center. The surface is gently rolling, the ridges extending n. and s. The s. part along the course of Seneca River is marshy, and a swamp about one-fourth of a mi. wide extends n. and s. through the town along the course of the small stream which flows through Mud Pond. Duck Pond, in the n. w., is about 1 mi. in diameter. Howlands Island, in Seneca River, contains 2,700 acres, one-third of which is swampy, and overflowed during high water. The soil is a sandy loam interspersed with clay and underlaid by red shale. **Conquest Center** (Conquest p. o.) contains 2 churches and 26 houses; **Pineville**, in the w. part, contains 15 houses. The first settlers were George Snyder, from Schoharie co., who located on Lot 37, and Israel Wolverton, from Tompkins co., on Lot 4, in 1800.⁸ The first church (Prot. Meth.) was formed at Conquest Center, in 1803; Rev. Joshua Beebe was the first settled preacher.⁹

FLEMING¹⁰—was formed from Aurelius, March 28, 1823. It lies w. of the foot of Owaseo Lake, a little s. of the center of the co. Its surface is rolling, with an inclination toward the n. and e. The banks of the lake slope upward for about three-fourths of a mi. The highest portions are 150 to 250 feet above the lake, and 800 to 1,000 feet above tide. Wheeler and Crane Creeks are the principal streams. The soil is principally a gravelly loam, with an occasional intermixture of clay and sand. **Fleming**, (p. v.) near the center, contains 2 churches and 25 dwellings.

¹ Named from Elisha and Edward Weed, first settlers at the village.

² Among the other early settlers were Caleb, Nathan, and Jonah Root, and — Powers, from Saratoga co., who located at and near Weedsport; John Hamilton, from Washington co., on Lot 64, in March, 1802; Edward Horton, Peter Douglass, and Samuel Moore, from N. J., on Lot 80; Adam H. Palmer, from Berkshire co., on Lot 97, in 1804; and — Van Dyck and Daniel Miller, from N. J., on Lot 76, in 1805. The first child born was Burnett Stevens, Nov. 13, 1801; the first marriage, that of Peter Douglass and Polly Hamilton, Jan. 12, 1804; and the first death, that of an infant child of Sunderland Sweet, in 1800. Harriet Phelps taught the first school, in 1806; Walter and Elisha Weed kept the first store; and Lewis Putnam built the first sawmill and gristmill, on Bread Creek.

³ The census reports 4 churches; Presb., Bap., M. E., and R. C.

⁴ Formerly "Cato Fair Owners."

⁵ Among the other early settlers were Solomon Knapp, on Lot 100, L. Shelton, on Lot 84, Jacob Labertaux, from Penn., on Lot 57, in May, 1803; Jesse Elwell and Abner Hollister, at Meridian, in 1805. The first child born was Alvira Stockwell, May 4, 1805; the first marriage, that of Andrew Stockwell and Sybil Root, June 4, 1804; and the first death, that of Stephen Olett, in 1805. Solomon Knapp kept the first inn at Cato, in 1803; and Jesse Elwell, the first at Meridian, in 1805. Daniel M. Bristol kept the first store, in 1806; and Samuel Woodford erected the first gristmill, on the outlet of Otter Lake, in 1811.

⁶ The census reports 4 churches; Presb., M. E., Bap., and Ref. Prot. D.

⁷ Name given to commemorate the conquest achieved by those who favored the division of the old town of Cato over those who opposed it.

⁸ Among the other early settlers were James Perkins, from Onondaga co., on Lot 3, Ephraim Witherrill, from Tompkins co., on Lot 4, Theophilus Emerson, on Lot 27, and Clement B. Emerson, on Lot 15, in 1802; Dyer Wilcox, from Saratoga co., on Lot 74, Wm. McCollin and John Crowell, from Newburgh, on Lot 76, in 1805; and William Crowell, on Lot 77, in 1807. The first child born was Amos Wolverton, in 1803; the first marriage, that of Gilbert Perkins and Betsy Snyder; and the first death, that of a traveler and stranger, at Mosquito Point. John Perkins taught the first school, at Conquest Center, in 1807; Ephraim Witherrill kept the first inn, in 1803; Jonathan Davis, the first store, at Conquest Center, in 1827; — Twitchell erected the first sawmill, in 1808, and Abram Cherry the first gristmill, in 1810. This mill was long known as the "Dipper Mill," from the fact that a store was at first kept in it. The first settlers joined in making a canoe which would hold 10 bushels of grain; and in this they earned the grists of the whole neighborhood to Springport, by the way of Seneca River, to be ground. The journey usually took 4 days. In 1813 John Perkins took a load of wheat to Albany, but was obliged to sell the wheat and one horse to defray the expenses of the journey. In 1804 Jas. Perkins built the first framed house, sawing out the whole lumber with a whipsaw. The building still stands (1882) a monument of persevering industry.

⁹ The census reports 3 churches; 2 Prot. Meth. and M. E.

¹⁰ Named from Gen. George Fleming, an old resident.

Owasco Lake is a p. o. The first settlements were made in 1790-91.¹ The first religious services were held by Elder Daniel Irish (Bap.) about 1794.²

GENOA—was formed as "*Milton*," Jan. 27, 1789; and its name was changed April 6, 1808. Locke was taken off in 1802. It is the s. w. corner town of the co., lying upon the e. bank of Cayuga Lake. The surface is a rolling region, gradually rising from the lake to a height of about 600 ft. and divided into ridges by the valleys of Big and Little Salmon Creek, which extend through near the center.³ The declivities that border upon the streams in some places are steep and 50 to 150 ft. high. The soil consists of a strip of clay along the banks of the lake, and a deep, rich, gravelly loam in the other parts of the town. **Genoa**, (p. v.), on Big Salmon Creek, contains 2 churches, 2 flouring mills, a tannery, and a furnace and machine shop. Pop. 300. **Northville** (Kings Ferry p. o.) is situated in the n. w. part of the town. Pop. 200. **Five Corners** (p. v.) contains 35 dwellings. **East Genoa** (p. o.) is a hamlet. The first settlements were made anterior to the organization of the co. Jabez Bradley was the first settler, at Northville. The census reports 6 churches in town.⁴

IRA—was formed from Cato, March 16, 1821, and a part was annexed to Cato in 1824. It lies upon the e. border of the co., n. of the center. Its surface is rolling, the summits of the ridges being 50 to 75 ft. above the valleys and 225 to 275 feet above Lake Ontario. The streams are small brooks and creeks. The soil is a sandy loam underlaid by red sandstone, and is very productive. **Ira Center**, (p. v.), the only village, contains 2 churches and 145 inhabitants. The first settlements were made by David, Eleazar, and Andrew Stockwell, 3 brothers from Whitehall, on Lot 58, Wm. Patterson, on Lot 32, and Henry Conrad, (a German,) on the same lot, all in 1800.⁵ The first church (Cong.) was formed at Ira Corners, July 7, 1807, by Rev. Francis Pomeroy; Rev. Silas Barnes was the first preacher.⁶

LEDYARD⁷—was formed from Scipio, Jan. 30, 1823. It lies upon the e. bank of Cayuga Lake, n. w. of the center of the co. Its surface inclines toward the w., its extreme e. border being elevated 600 to 600 ft. above the surface of the lake. The slopes of the hills are generally gradual, but are steep in a few places. Its streams are small, rapid brooks, the principal of which is Paines Creek, flowing through a narrow ravine in the s. part. The soil is a sandy and clayey loam, very fertile. **Aurora**, (p. v.) incorp. May 5, 1837, is beautifully located on the e. bank of Cayuga Lake. Its fine situation and the comparative mildness of its climate have made it a place of considerable resort; and it contains some of the finest residences to be found in the interior of the State. It is the seat of the Cayuga Academy.⁸ Pop. 459. **Talcott's Corners**, (Ledyard p. o.) near the s. e. corner, contains 2 churches and 12 dwellings. **Levana** (p. v.) is a steamboat landing, 2 mi. n. of Aurora. Pop. 106. Roswell Franklin, from Wyoming, settled at Aurora in 1789, and was the first settler in Cayuga co. Benj. Avery was the first settler at Talcott's Corners.⁹ Rev. Seth Williston (Presb.) conducted the first religious services; and Rev. H. Woodruff was the first settled minister.¹⁰

LOCKE—was formed from "*Milton*," (now Genoa,) Feb. 20, 1802. Summer Hill was taken off in 1831. It lies upon the high ridges which border upon Owasco Inlet, in the s. part of the co. The inlet flows through near the center in a deep, narrow valley bordered by steep hills rising 200 to 400 ft. above it. The summits of the hills spread out into a beautifully undulating

¹ Among the early settlers were Benj. Irish, Joseph Grover, Edward Wheeler, Ichabod and Abel Wilkinson, and James Harrington. The first child born was Amelius Wheeler, in 1791; and the first death, that of Mrs. West, in 1792. John Herring taught the first school, in 1794; Abel Wilkinson kept the first inn, in 1792; and Joseph Grover the first store, in 1797.

² There are 3 churches in town; Bap. Prot. D. Bap., and M. E.

³ The s. part of the town was settled by emigrants mostly from Penn. and N. J., and the n. part by emigrants from New England. In 1800 the town had a pop. of 3,253; in 1810 it rose to 5,125; in 1820, after 18 territory was reduced to its present limits, the pop. was 2,585; and in 1855, 2,552.

⁴ Two Presb., 2 M. E., Cong., and Univ.

⁵ Among the other early settlers were Daniel Parker, on Lot 69, John C. Barnes, and Rev. Silas Barnes, on Lot 70, and Zadeck Barns, on Lot 83, all from Mare-ling, and Edward Wood, from Bennett, on Lot 89, in 1802; Archibald and Chas. Green, on Lot 70, in 1803; Eli Madison and Abraham Willey, from Conn., on Lot 34, Henry Ferris and his son, Augustus, from Saratoga co., on Lot 51, in 1804; and Thos. Barnes, from Washington co., at Ira Corners, in 1805. Dr. Spaine, the first physician, taught the first school, in 1805; David Stockwell kept the first inn, in 1800; Samuel and Israel Phelps the first store, at Ira Corners, in 1813; and John Hooker erected the first gristmill, in 1818. The first child born was Polly, daughter of David Stockwell, in April, 1802; the first marriage was that of Eleazar Stockwell and Mar-

garet Noble, March 7, 1802; and the first death, that of the wife of Rev. Silas Barnes, in 1802.

⁶ The census reports 5 churches; 2 M. E., and 1 each Bap., Presb., and Disciples.

⁷ Named from Benjamin Ledyard, agent and clerk for the disposal of the lands belonging to the Military Tract. The trace of an ancient fortification is found within this town. It stood upon a hill between two ravines, and enclosed about 20 acres. — *Northwestern Contributions*, Vol. II, Part VI, p. 63.

⁸ The Academy building stands upon an eminence commanding a fine view of the bay and lake. The institution has a well selected library, competent teachers, and is in a prosperous condition. The Gospel and School Lot No. 26 of this town having been given to Union College, Lot 89 was taken for school purposes, and assigned to this academy.

⁹ Elisha Durkee, and Atwell and Edward Paine, settled at Aurora in 1790. The first settler, Mr. Franklin, was in the battle of Wyoming, at which his wife was killed and his youngest child taken prisoner by the Indians. He died at Aurora in 1791, under the weight of his misfortunes. Betsy Durkee (now Mrs. Sweetland) was the first child born in town. The first inn was kept by Joshua Patrick, at Aurora, in 1793, in a house still standing. Another inn kept the first store, and T. Wheeler erected the first mill, a little s. of Aurora.

¹⁰ The census reports 6 churches; 2 Friends, 2 M. E., Presb., and Prot. E.

region with a mean elevation of about 1,000 ft. above tide. The soil is a gravelly loam interspersed with clay. **Milan**, (Locke p. o.) situated on the s. branch of Owaseo Lake Inlet, contains 2 churches, 2 woolen factories, 2 gristmills, and several mechanics' shops. Pop. 180. **Centerville** contains 18 houses. The first settlement was made by Ezra Carpenter, Jas. Cook, Jas. Durell, and Solomon Love, in 1790.¹ The first church (M. E.) was formed in 1819.²

MENTZ—was formed from Aurelius, as "*Jefferson*," March 30, 1802. Its name was changed April 6, 1808. Montezuma and a portion of Throop were taken off in 1859. It lies upon Seneca River, s. w. of the center of the co. Its surface is generally flat, with a few low sand ridges near the s. border. A swampy region extends along Seneca River, Owaseo Outlet, flowing through the center, is the principal stream. Limestone, gypsum, and red shale are the underlying rocks. The soil is a clayey, sandy, and gravelly loam. **Port Byron**, (p. v.) incorp. March 2, 1847, is situated upon the Owaseo Outlet and Erie Canal, near the center of the town. The N. Y. C. R. R. station is 1 mi. n. of the village. It contains 3 churches, a woolen factory, cabinet ware manufactory, and a flouring mill with 10 run of stones. Pop. 1,669. **Centerport**, a canal village on the E. line, contains 22 houses. The first settlement was made in 1797.³ There are 3 churches in town; Bap., M. E., and Presb.

MONTEZUMA—was formed from Mentz, April 8, 1859. It lies in the s. w. angle formed by the great easterly bend in Seneca River, on the w. border of the co. Its surface is mostly low and flat. An extensive swamp, known as the Montezuma Marshes, extends along the river. The only considerable stream is Cayuga Brook. The soil is generally a clayey loam. Brine springs are found along Seneca River. **Montezuma** (p. v.) is located upon Seneca River, in the w. part of the town. The Seneca and Cayuga Canals here unite with the Erie Canal. Salt and some other articles are manufactured.⁴ Pop. 650. The first settlement was made in 1788.⁵ The first church (Bap.) was formed in 1803, by Rev. John Jeffries. There are 3 churches in town; 2 M. E. and Bap.

MORAVIA—was formed from Sempronius, March 20, 1833. It lies upon Owaseo Lake and Inlet, in the e. part of the co. The greater part of its surface is a rolling upland, broken by the deep and narrow valleys of Owaseo Inlet and its branches.⁶ These valleys are 300 to 400 ft. below the summits of the hills, and are bordered by steep and in many places nearly perpendicular sides. Upon the streams in their course through the ravines are several beautiful cascades, furnishing an abundance of water-power. Mill Brook, just below its junction with Trout Brook, flows over a precipice of 80 ft. Upon the e. tributary of the outlet, near the s. border, is a cascade known as Dry Falls, from the fact that in summer the stream ceases to flow. A little below this cascade is a circular recess in the face of the perpendicular precipice, 42 ft. deep, and surmounted by a limestone arch 55 ft. high and 125 ft. long. Upon this arch rises a lofty hill covered with primitive forest trees. A large spring of earlaretted hydrogen gas, highly inflammable, is situated upon the lowlands near the lake. The soil among the hills is a gravelly loam mixed with clay, and in the valleys it consists of a deep, rich loam formed of gravel and disintegrated limestone and slate. **Moravia** (p. v.) is situated on Mill Brook, in the valley 3 mi. s. e. of the head of Owaseo Lake. The rapids and cascades in the stream at this point furnish an abundance of water-power. The village is incorp., and contains 130 dwellings, the Moravia Institute, and several mills and other manufacturing establishments. **Mountville**,⁷ a small village 1 mi. n. of Moravia, contains 15 houses. The first settlement was made at Moravia Village, by John Stoyell, in 1791.⁸ The first church (Cong.) was formed March 12, 1806.⁹

¹ A daughter of Jas. Durell was the first child born; Aaron Kellogg kept the first store at Milan, James Cook, the first mill; Lyman Brown erected the first factory at Milan, in 1810, and Mr. Durell the first gristmill. The traces of an Indian burying ground, half a mi. w. of Milan, between 2 deep gulfs, covering about 2 acres, are still visible. The graves are ranged in rows E. and W.

² The census reports 3 churches; 2 M. E. and Bap.

³ Among the early settlers were Philip King, Feth Higley, from Saratoga co., on Lot 72, Josiah Partridge, from Mass., on Lot 73, in 1797; Charles Ames, Abijah and Elijah Buck, from Chenango co., on Lot 73, (now Port Byron,) in 1798; Dan'l Loveland, from Vt., on Lot 49, in 1799; Peter Ramsier and Moses Lent, from Owaseo, on Lot 62, in 1800; James Dixon and Joseph Hamilton, from Washington co., Caleb Hopkins, from N. J., and Ira Hopkins, from Washington co., on Lot 85, from 1800 to 1804.

⁴ Salt was first manufactured in Montezuma about 1798; but the business was abandoned about 1840, in consequence of the brine becoming too weak to successfully compete with the salt springs of Syracuse and Salina. Strong brine springs have

lately been discovered, and the manufacture of salt has been successfully resumed. These salt springs, like those of Onondaga, belong to the State.

⁵ Among the early settlers were Peter Clark, from New York City, Comfort Tyler, and Abram Morgan, at Montezuma, in 1788, who located there to manufacture salt.

⁶ The Owaseo Flats were in part cultivated by the Indians anterior to the settlement, and still bear traces of the ancient occupation.

⁷ Ex-President Fillmore read law at this place with Judge Wood.

⁸ Among the other early settlers were Winslow Perry, Angus Stoyell, and Jabez L. Bottom, in 1793; Gm-shom Morse, in 1794; and Cotton Skinner, in 1795. The first child born was Ruth Perry, in 1794; the first marriage, that of Jonathan Eldridge and Sally Perry, in 1795; and the first death, that of Cynthia Wright, in 1796. Levi Goodrich taught the first school, in 1797; Zedek Cady kept the first mill, in 1801; David Wright the first store, and John Stoyell built the first mill.

⁹ The census reports 3 churches in town; Cong., Prot. E., and M. E.

NILES—was formed from Sempronius, March 20, 1833. It lies between Owaseo and Skaneateles Lakes, s. e. of the center of the co. Its surface is principally a rolling and hilly upland, highest summits are 700 ft. above Owaseo Lake. The declivities are gradual toward Owaseo more abrupt toward Skaneateles Lake. Dutch Hollow Brook, flowing n. through near the river, is bordered by high, steep banks.¹ The soil is a gravelly and clayey loam. **Kelgsville**, (p. v.,) in the extreme s. part, contains 2 churches and 30 dwellings; **Newpe**, in the s. e. part, contains a church, gristmill, sawmill, and 12 dwellings; **Niles**, (p. v.,) in the n. part, **West Niles**, **Twelve Corners**, and **Nine Corners**, are hamlets. The first settlements were made in 1793.² There are 4 churches in town; 2 M. E., Bap., Univ.

OWASCO—was formed from Aurelius, March 30, 1802. It lies e. of the foot of Owaseo Lake, s. e. of the center of the co. Its surface is rolling and inclined to the n. w. From the e. it slopes gradually upward, and the highest summits attain an elevation of 500 ft. Owaseo Brook, flowing w. across the s. part, and Millers Brook, in the n. part, are the only streams. The soil is a clayey loam. **Owasco**, (p. v.,) in the s. e. corner, contains 3 churches and 45 dwellings. The first settlements were made in 1792.³ The first church was formed in 1798, by Rev. Abram Brokaw.⁴ Ex-Gov. Throop is a resident of this town.

SCIPIO—was formed March 5, 1794. Sempronius was taken off in 1799, a part of Marcellus (Onondaga co.) in 1804, Ledyard, Venice, and a part of Springport in 1823. It lies on the w. shore of Owaseo Lake, s. of the center of the co. Its surface is rolling, the highest summits being 500 ft. above the lake. A steep bluff, 20 to 50 ft. high, extends along the lake, and from the summit the surface slopes gradually upward for about one mi. The streams are mere brooks, the soil is a clayey loam. **Scipio Center** (Scipio p. o.) contains 2 churches and 80 inhabitants; **Scipioville**, (p. v.,) near the w. line, 80 inhabitants; **Sherwood**, (p. v.,) near the e. corner, 80 inhabitants. **The Square** is a p. o. in the n. w. part, and **Bolts Corners** a hamlet in the s. The first settlements were made in 1790.⁵ The first religious services were held by Elder David Irish, in 1794; and the first church (Bap.) was formed the same year.⁶

SEMPRONIUS—was formed March 9, 1799. A part was annexed to Marcellus (Onondaga co.) March 24, 1804, and Moravia and Niles March 20, 1833. It lies upon Skaneateles Lake, in the s. e. part of the co. From the valley of the lake and inlet the hills rise abruptly to a height of 800, to 1,000 feet, and from their summits the surface spreads out into a rolling and hilly upland. The highest points are about 1,700 ft. above tide. Mill Brook, flowing w., Bearcamp Brook, n., and Fall Brook, s., all have excavated deep valleys in the drift deposits and shales. The soil is a good quality of clayey, sandy and gravelly loam, mixed with disintegrated slate and limestone. **Dresserville**, (p. v.,) located on Mill Brook, in the s. part of the town, contains 30 dwellings; **Vansville**, (Sempronius p. o.,) 15; **Glen Haven** (p. o.) is a noted water cure establishment near the head of Skaneateles Lake. Its situation is extremely beautiful, and it is supplied with pure, soft spring water. The first settlement was made in 1794, by Ezekiel Sales,⁷ Jotham Bassett, and Seth Burgess. The first church (Bap.) was formed Feb. 29, 1798; Rev. John Lasure was the first preacher. The census reports 1 church (Bap.) in town.

SENNETT—was formed from Brutus, March 19, 1827; it was named from Judge Daniel Sennett, a pioneer settler. A portion of Throop was taken off in 1859. It lies upon the e. border of the co., n. of the center. Its surface is level or gently undulating, the ridges rising in long, gradual slopes 50 to 100 ft. above the valleys. The streams are all small brooks. The soil is a deep, fertile, clayey and sandy loam, and is under a high state of cultivation. **Sennett**, (p. v.,) station on the Auburn branch of the N. Y. Central R. R., contains 2 churches and 30 dwellings. The first settlement was made in 1794, by Ebenezer Healy, Jos. Atwell, Thos. Morley, and Thos.

¹ On the highest point of land, 3 mi. E. of Owaseo Lake, is a quarry of fine flagging stone.

² Among the early settlers were Garret Conover and his sons John and Aaron, Isaac Schoyer, James Brinkerhoff, and William Owen. The first child born was Sally Amerman, in 1798.

³ Among the early settlers were Samuel and Benj. De Puy, Jos. Cartwright, and Jacob and Reuben Brinkerhoff. Cornelius Landwehr kept the first inn, in 1800; James Burrows, the first tavern, in 1807; and David Boyer built the first grist-mill, in 1798.

⁴ There are 3 churches in town; M. E., Bap. Prot. D., and True Reformist.

⁵ Among the early settlers were Elisha Durkee, Henry Wat-

kins, Gilbert and Alanson Tracy, Sam'l Branch, Ebenezer Witter, and Gideon Allen. The first child born was Betsey Dunke, Dec. 5, 1790; and the first marriage, that of Wm. Allen and Betsey Watkins, June 25, 1793. Wm. Daniels taught the first school, in 1798, and Dr. Strong kept the first store, in 1808.

⁶ There are 4 churches in town; Bap., Presb., M. E., and Univ.

⁷ The first child born was Benj. Sales, in 1794; the first marriage, that of Sam'l Rice and Matilda Sumnerston; and the first death, that of Sam'l Rice. Cyrus Powers taught the first school, in 1800; John Husted kept the first inn and store, and Artemus Presser erected the first mill.

Morley, jr., from Conn., on Lot 21.¹ The first church (Bap.) was organized Sept. 12, 1799, by Rev. Manasseh French, who was the first preacher. There are now 2 churches in town; Presb. and Bap.

SPRINGPORT—was formed from Scipio and Aurelius, Jan. 30, 1823. It lies upon the E. shore of Cayuga Lake, s. w. of the center of the co. Its surface rises in gradual slopes from the water to the E. border, where it attains an elevation of 400 to 500 ft. Waterlime, plaster, and limestone used for flagging, are quarried along the shore of the lake and in the adjoining ravines. Two immense springs flow from the ground near the village, furnishing a valuable water-power.² The soil is a superior quality of sandy and gravelly loam, in some places mixed with clay. The lake is so deep that it rarely freezes, and the warmth of the water essentially moderates the intensity of the frosts of winter.³ **Union Springs** (p. v.) is beautifully situated upon Cayuga Lake, s. of the center of the w. border of the town. It contains several manufactories, a private academy, and many fine residences. Pop. 1,118. The first settlement was made in 1800, by Frederick Gearheart, Thos. Thompson, and Jas. Carr.⁴ The first church (Cong.) was formed by Rev. Joshua Lane, the first preacher.⁵

STERLING—named from William Alexander, Lord Sterling, of the Revolution—was formed from Cato, June 19, 1812. It lies upon Lake Ontario, in the extreme N. part of the co. Its surface is rolling and has a slight inclination toward the S. The summits of the ridges in the S. are 200 to 300 ft. above the lake; and Big Bluff, upon the lake shore, has about the same elevation. The streams are Little Sodus Creek and its branches, flowing into Little Sodus Bay, and Cortright Brook, flowing into Blind Sodus Bay.⁶ Little Sodus Bay is about 2 mi. long by 1 mi. wide, and is one of the best harbors upon the S. shore of the lake. An extensive swamp, covering several hundred acres, extends along the lake shore, E. of the bay, and another lies on the S. border of the town. The soil is a sandy and gravelly loam; some portions of the surface are very stony and hard of cultivation. Outcrops of Medina sandstone⁷ and Oneida conglomerate are quarried in this town for building stone. **Sterling Center** (Sterling p. o.) contains 10 dwellings; **Fairhaven**, (p. v.), on Little Sodus Bay, 40; **Martville**, (p. o.), near the S. E. corner, 25; and **Sterling Valley** 20. **North Sterling** (p. v.) is a hamlet. The first settler was Peter Dumas, who located upon Lot 19 in 1805.⁸ The first church (Asso. Ref. Presb.) was formed in 1818.⁹

SUMMER HILL—was formed from Locke, as "Plato," April 26, 1831; its name was changed March 16, 1832. It is the S. E. corner town of the co. Its surface is a rolling upland, 1000 to 1100 ft. above tide. Fall Brook, the principal stream, flows S. through the E. part. Its valley is 300 to 400 ft. below the summits of the hills, and forms the only considerable break in the general level of the surface. Summer Hill Lake is a small pond in the S. E. part, discharging its waters into Fall Brook. The soil is a clayey and gravelly loam, the clay predominating. **Summer Hill**, (p. v.) in the S. part of the town, contains 115 inhabitants. The first settle-

¹ In 1795, Judge Don't Soumet, Amos Bennett, and Jacob Rufus, and Don't Sheldon, from Conn., settled on Lot 29. In 1797 Jacob Hiebs, a Revolutionary soldier, who drew Lot 29, settled on it; Ben'l Miller, also a Revolutionary soldier, on Lot 17; and Jacob Remington and Hezekiah Freeman, from Vt., on Lots 21 and 19. The first child born was Sully Smith, in 1795; the first marriage, that of Nehemiah Smith and Mindeyell Morley, in 1794; and the first death, that of Thos. Morley, in 1765. Jesse Morley taught the first school, in 1793; Joseph Atwell kept the first inn, the same year; and Sheldon & Lathrop the first store.

² These springs are about 10 rods apart. From the larger flows a stream of sufficient size to furnish water-power for running a floating mill with 6 run of stones, a plaster mill, sawmill, and several other kinds of machinery. The stream from the smaller spring drives the machinery of a planing mill, sawmill, and tannery. From the springs the town and village both derive their water.

³ Fruit-growing, for which the climate and soil are admirably adapted, begins to attract attention. The vine is successfully cultivated; and a single vineyard of 19 acres, devoted to grapes, produces fine crops.

⁴ Amos Comely taught the first school, near Union Springs; Thomas Collins kept the first inn; Laban Haskins and Walter Low, the first store; Philip Winegar erected the first wooden factory.

⁵ The census reports 9 churches; 2 Friends, 2 M. E., and 1 each Cong., Presb., Bap., Christian, and R. C.

⁶ Since work commenced on the Ontario, Auburn & N. Y. R. R.

an effort has been made to change the name of this town to Ontario Bay.

⁷ This stone is much used for the underpinnings of houses and farm buildings. It has been observed that hogs are very fond of breaking the stone whenever they have access to it, and in consequence they team at the mouth, and can only be fattened with great difficulty.

⁸ Mr. Dumas was a Frenchman, who came to this country with La Fayette and served during the Revolution. For his services he received a lot in the Military Tract, and drew Lot 19, in Sterling. Capt. Andrew Ressumon settled the same year on Lot No. 1. He was killed on board of an American vessel, on Lake Ontario, during the War of 1812. Francis Deamplated near Martville, in 1809; Wm. Dumas, Nathan Whitcut, and John Peck, on Lot 11, in 1807; Jacob Wildsey, from Saratoga co., on Lot 14, in 1808; John Cooper, on Lot 12; John Duncanson, on Lot 44, Curtis Stoddard, on Lot 19; John McFarland and son, from Washington co., on Lot 27; John and Matthew DeLoe, from Washington co., at Martville, in 1810; Wm. Cooper, Jos. Runkell, and John Turner, from Long Island, in 1811; and G. V. Cooper, from Saratoga co., in 1812. The first child born was Isaac Hoppans, March 16, 1807; the first marriage, that of Matthew Hays and Charity Turner; and the first death, that of Ezra, son of Peter Dumas, July 21, 1806. The first school was taught by Roger Clark, in 1812; Wm. Cooper kept the first inn, in 1810; John Cooper erected the first sawmill, in 1810, and the first grist-mill, in 1815.

⁹ The census reports 6 churches; 2 M. E., and 1 each Asso. Ref., Presb., Bap., Ret. Prot. D., and Ref. Presb.

ment was made in 1797, by Hezekiah Mix, from Genoa, on Lot 37, near the village.¹ The first church (Bap.) was formed in 1807; Elder Whipple was the first pastor.²

THROOP³—was formed from Aurelius, Mentz, and Sennett, April 8, 1859. It is an interior town, lying a little s. w. of the center of the co. Its surface is generally level, broken in a few places by sand and gravel ridges 100 to 150 ft. high. Its principal streams are Owaseo Outlet and Cayuga Brook. The soil is a sandy and gravelly loam. **Throopsville**, (p. v.) on Owaseo Inlet, s. e. of the center, contains 3 churches, a grist and saw mill, and woolen factory. Pop. 160. The first settlement was made on Lot 2, in 1790, by Ezekiel Crane and his son Shadrach, from N. J.⁴ There are 3 churches in town; Bap., M. E., and Disciple.

VENICE—was formed from Scipio, Jan. 30, 1823. It is an interior town, lying s. of the center of the co. Its surface is a rolling upland, the highest summits being 300 to 400 ft. above Owaseo Lake. Salmon and Little Salmon Creeks flow s. in deep valleys dividing the surface into distinct ridges. Owaseo Lake borders upon the n. e. corner. The declivities bordering upon the lake and upon the w. bank of Salmon Creek are steep, but generally the hillsides are long, gradual slopes. The soil is a fine quality of clayey and gravelly loam. **Venice**, (p. v.) in the n. e. part of the town, contains 1 church and 20 dwellings; and **Poplar Ridge**, upon the highest summit in the n. w., contains a foundry and machine shop and 20 dwellings. **East Venice** (p. o.) and **Venice Center** (p. o.) are hamlets. The first settlement was made in 1800.⁵ The first church (Bap.) was formed at Stuarts Corners, in 1800, by Elder Irish, the first preacher.⁶ Upon the ridge e. of Salmon Creek, near the s. border of the town, are the remains of an ancient fortification. Upon the creek, near the center of the town, were extensive cleared and cultivated fields at the first advent of the whites. Near these fields was an Indian burial ground.

VICTORY—was formed from Cato, March 16, 1821. It lies upon the w. border of the co., n. w. of the center. Its surface is gently undulating, the highest points being scarcely 50 ft. above the general level. Little Sodus and Red Creeks are the principal streams. The underlying rocks are red shale and blue limestone, covered deep with drift. The soil is a gravelly and sandy loam. A swamp in the s. w. part covers several hundred acres. **Victory**, (p. v.) near the center of the town, contains 25 houses; and **Westbury**, (p. v.) on the line of Wayne co., 50. The settlement of the town was commenced in 1800, by John McNeal, from Montgomery co., and John and Samuel Martin, from Ireland, on Lot 65.⁷ The first church (M. E.) was formed in 1813, by Rev. Zenas Jones, the first preacher.⁸

¹ Among the early settlers were Nath'l Fillmore, (father ofillard Fillmore, Ex-Pres. U. S., who was born in this town,) Lavin Barber, Wm. Webster, Jos. Cone, Wm. Honeywell, Jas. Savage, Harvey Hough, and Josiah Walker. The first school was taught by Nath'l Fillmore, in 1804. The first child born was Millard Fillmore or Anson Cone; the first marriage, that of Ebenezer Crowl and Rosanna Mix, in 1803; and the first death, that of Amos Mix, killed by the falling of a tree in 1798. Jos. Cone kept the first inn, in 1803; Chas. Crane, the first store; and Ebenezer Bennett erected the first mill, in 1816.

² The census reports 3 churches; Bap., Cong., and M. E.

³ Named from Hon. Enos T. Throop, Ex-Gov. of the State.

⁴ Among the other early settlers were Isaac Barnum, Othniel Palmer, and his son, from Conn.; Israel Clapp, from Mass., on Lot 16; Jas. Leonard and Wm. Durell, from N. J., on Lots 2 and 3. Manonah Clark, from Oneida co., on Lot 4. Jonas Ward and his son Caleb, from N. J., on Lot 92, in 1796; Christopher and Rev. John Jeffries, from Saratoga Springs, on Lot 16. Ephraim Welch, from Dutchess co., on Lot 4, in 1799; Amos and David Jedner, on Lot 14, in 1801. The first marriage was that of Shadrach Crane and Hannah Palmer; and the first birth, that of Ezekiel Crane. Edward Carpenter taught the first school, in 1809; Israel Clapp kept the first inn, in 1800; Luther Harden

the first store, in 1804; and Prentice Palmer erected the first saw and grist mill, in 1798.

⁶ Among the early settlers were Henry Hewitt, Ezekiel Landon, Samuel Robinson, and Zadock Bateman, at Stewarts Corners, Samuel Childsey, and Amos Rathbun, at Poplar Ridge, Luke Taylor, and Thomas Carman, all of whom came in between 1790 and 1800. The first child born was Lemon Cole; and the first death, that of — Herrick, one of the pioneer settlers; he was killed by the fall of a tree. The first inn was kept by Samuel Robinson. The first mill was erected at Venice Village, in 1835.

⁷ The census reports 3 churches; 2 Friends and 1 Bap.

⁸ Patrick Murphy, from Ireland settled on Lot 54, in Feb. 1806; Matthias Vanderhuyden, from Albany co., on Lot 62, and Asahel Carter, from Vt., on Lot 66, in 1810; John Ramsey, and Wm. and Dan'l Griswold, from Herkimer co., on Lot 25, in 1811; Jacob W. and Martin De Forrest, from Washington co., Conrad Phoezine, from Newburgh, on Lot 43, Manasseh French, from Scipio, Judge C. Smith, from Saratoga co., on Lot 40, Philander Phinney, from Saratoga co., Silas Kellogg, from Brant, on Lot 39, and Ebenezer Bird, from Onondaga co., on Lot 29, all in 1812. Mrs. Jane Wood was the first child born in town, in 1804; and the first death, that of John McNeal, in 1800.

⁹ The census reports 5 churches; 2 M. E., Presb., Bap., and Christian.

*Montezuma was formed in 1859, and its statistics are embraced in the town of Mentz. †Throop was formed in 1859, and its statistics are included in Mentz, Sennett, and Aurelius.

CHAUTAUQUE COUNTY.

This county was formed from Genesee, March 11, 1808. It lies upon the shore of Lake Erie, and is the s. w. corner co. of the State. It is centrally distant 288 mi. from Albany, and contains 1,099 sq. mi. The surface is mostly a hilly and rolling upland. A bluff, with a mean elevation of 20 ft., extends along the lake; and from its summit the land spreads out into an undulating region, gradually rising for a distance of 3 or 4 mi. This comparatively level tract is bordered by the declivities of a hilly upland, which occupies the center and s. part of the co. The highest summits are 1,000 to 1,200 feet above Lake Erie and 1,800 to 2,000 ft. above tide. The uplands are broken by several deep valleys, the principal of which are those of Chautauque Lake and Connewango Creek. The sum-

mits of the hills, 4 to 6 mi. s. of the lake shore, form the watershed which divides the waters of Lake Erie from those of Alleghany River. The declivities bordering upon the valleys are in many places too steep for profitable cultivation.

Connewango Creek, flowing along the e. border and receiving Cassadaga Creek and Chautauque Outlet, is the largest stream in the co. The other principal streams are Cattaraugus, Silver, Walnut, Canada-way, Little Cattaraugus, and Twenty Mile Creeks, flowing into Lake Erie; French and Little Broken Straw Creeks, tributaries of Alleghany River; and Prondergast Creek, flowing into Chautauque Lake. Besides these and their tributaries are numerous smaller streams flowing directly into Lake Erie. Chautauque Lake is a beautiful sheet of water, 18 mi. long and 1 to 3 mi. wide, occupying a deep valley in the highland region about 10 mi. s. e. of Lake Erie.¹ It is 726 feet above Lake Erie and 1,291 ft. above tide. The hills that surround it are 600 to 800 ft. above its surface. Its outlet forms a branch of Connewango Creek, which latter stream is a tributary of Alleghany River. Several other small lakes are located among the highlands, the principal of which are Bear, Cassadaga, Mud, and Finleys Lakes, all 700 to 900 ft. above Lake Erie.

The rocks of this co. belong to the Portage and Chemung groups,—the former occupying the n. half of the co. and the latter the s. half. The summits of the highest hills in the s. are crowned with conglomerate, belonging to the Catskill group and affording the only good building stone in the s. part of the co. The sandstones of the Portage group are quarried to some extent in the n. part. Lime is obtained in limited quantities from limestone boulders and marl beds. One of the most peculiar geological features of the co. is the numerous springs of carburetted hydrogen gas found in various localities and especially along the shore of Lake Erie. It comes from the shales of the Portage group, and at various places is turned to profitable account.

The soil upon the uplands is principally clay mixed with disintegrated shale, generally known as *flat gravel*; and in the valleys it is a fine quality of sandy and gravelly loam mixed with alluvium. Along the lake shore is a strip of productive clay loam. The uplands are arable to their summits, but are generally much better adapted to pasturage than tillage. The various branches of agriculture form the leading pursuits of the people. Stock and wool growing, and dairying, are largely and successfully carried on. Spring grains and fruits are also largely produced.

Manufactures are few and unimportant and are chiefly confined to the local wants of the people. Commerce—an important item in the business and wealth of the co.—is chiefly concentrated at Dunkirk, which is at once an excellent harbor upon the lake and the w. terminus of the Erie R. R.

The county seat is located at Mayville, in the town of Chautauque, at the head of Chautauque Lake.² The courthouse is a fine brick edifice, erected in 1834, at a cost of \$11,000. The jail is a brick building, with stone cells, on the opposite side of the street from the courthouse. The clerk's office is a fireproof brick building contiguous to the courthouse.³

The poorhouse is located upon a farm of 160 acres, near De Wittville, 3½ mi. s. e. from Mayville.

¹ Near the middle this lake is contracted to the width of a few rods, giving it the appearance of two lakes connected by a narrow strait.

² This co. was united with Niagara, from the date of its organization in 1808 until 1811. The first court was held June 23, 1811. The commissioners to locate the co. buildings were Jonas

Williams, Isaac Sutherland, and Asa Ransom. The first co. officers were Zatin Cushman, *First Judge*; Matthew Prondergast, Philip Orton, Jonathan Thompson, and Wm. Alexander, *Associate Judges*; David Eason, *Sheriff*; and John E. Marshall, *Co. Clerk*.

³ In 1858 the supervisors authorized the erection of a new clerk's office at a cost of \$2,500.

The average number of inmates is 130, supported at a weekly cost of 44 cts. each. A school is taught 6 to 8 months in the year. The buildings are poor and dilapidated and are destitute of proper accommodations and means of ventilation.

The N. Y. & Erie R. R. extends through Hanover and Sheridan and terminates at Dunkirk. This road opens a direct communication with New York, and, taken in connection with the connecting railroads and vessels upon the lake, is one of the most important of the great thoroughfares between the Atlantic seaboard and the Valley of the Mississippi. The amount of freight carried over the road is immense: and the business connected with it gives employment to thousands of men. The Buffalo & Erie R. R. extends along the lake through Hanover, Sheridan, Pomfret, Portland, Westfield, and Ripley. This forms another link in the great chain of Western travel, and connects with the Erie R. R. at Dunkirk and with the N. Y. Central at Buffalo. The proposed Erie & New York City R. R. extends through the s. part of the co., connecting Erie, Penn., with the N. Y. & Erie R. R. at Great Valley.¹

Nine weekly newspapers are now published in the co.²

In 1782 a party of British and Indians, with a train of artillery and other munitions of war, spent the months of June and July around Chautauque Lake in constructing canoes and making other preparations to navigate Alleghany River in a contemplated attack upon "Fort Pitt," near

¹ The surveys of this R. R. have been made, and considerable work has been done in grading.

² The *Chautauque Gazette*, the first paper published in the co., was started at Fredonia in Jan. 1817, by Jas. Percival. It was afterward issued by Carpenter & Hull, and by Jas. Hull, until 1822, when it was suspended. In 1823 it was revived by Jas. Hull, and continued until 1826, when it was united with the *People's Gazette* and its name was changed to

The Fredonia Gazette. It was issued a short time by Hull & Snow, when it was removed to Dunkirk by Mr. Hull and changed to

The Dunkirk Gazette. In a few months it was removed to Westfield and united with *The Chautauque Phoenix*.

The People's Gazette was started at Forestville in 1824 by Wm. S. Snow. In 1826 it was removed to Fredonia and united with *The Chautauque Gazette*.

The Chautauque Eagle was commenced at Mayville in May, 1819, by Robt. J. Curtis, and was continued about 1 year.

The Fredonia Censor was commenced in 1821 by Henry C. Frisbee, who continued its publication for 17 years. In 1838 it passed into the hands of E. Winchester, and was published by him 2 years and by R. Cunningham 1 year. In 1841 it was bought by Wm. McKinstry, and it is now published by W. McKinstry & Co.

The Western Star was started at Westfield in June, 1826, by Harvey Newcomb, and was discontinued after 2 years. It was soon after revived, as

The Chautauque Phoenix, by Hull & Newcomb. In 1831 its name was changed to

The American Eagle, and it was issued by G. W. Newcomb. In 1838 it was changed to

The Westfield Courier, and was issued a short time by G. W. Bliss.

The Jamestown Journal was commenced in June, 1826, by Adolphus Fletcher, and was continued by him until 1846. It was then issued by John W. Fletcher, a son of the original proprietor, for 2 years, when it passed into the hands of F. W. Palmer, who continued at the head of the establishment until 1858, having had in the mean time associated with him as partners Francis P. Bailey, Ebenezer P. Upham, and C. D. Sackett. It is now issued by Sackett & Bishop.

The Chautauque Republican was started at Jamestown in 1828 by Morgan Bates, Richard K. Kellogg, Lewis C. Todd, Chas. McLean, Alfred Smith, and Wm. H. Cutler were successively interested in its publication until 1833, when it passed into the hands of S. S. C. Hamilton and its name was changed to

The Republican Erauer. It was soon after removed to Mayville, and in a few months was discontinued.

The Genius of Liberty was started at Jamestown in 1829 by Lewis C. Todd, and was continued about 2 years.

The Western Intelligencer was published at Forestville a short time in 1833.

The Mayville Sentinel was started in 1834 by Timothy Kilby; and the next year it passed into the hands of Benjan Brockway, who continued it 10 years. In 1845 it was sold to John F. Phelps, by whom it is still issued.

The Chautauque Whig was started at Dunkirk in Aug. 1834, by Thompson & Carpenter. About 1844 its name was changed to

The Dunkirk Beacon, and it was discontinued a short time afterward.

The Westfield Lyceum, started in 1835, was issued a short time by Shelton & Palmer.

The Western Democrat and Literary Inquirer was started at Fredonia in 1835 by Wm. Ferrinder. It was successively issued by Randall, Crosby & Co. and Arba K. Maynard,

and by the latter it was removed to Van Buren Harbor in 1837 and issued as

The Van Buren Times. It soon after passed into the hands of

W. H. Cutler, and was continued about 2 years.

The Western Farmer was started at Westfield in 1835 by Bliss &

Knights, and was continued about 2 years.

The Settler was issued a short time in 1840 from the Fredonia Censor office by E. Winchester.

The Westfield Advocate was commenced in May, 1841, and was discontinued in a few months.

The Westfield Messenger was started in Aug. 1841, by C. J. J. & T. Ingersoll. In 1851 it passed into the hands of Edgar

W. Demmon and was changed to

The Westfield Transcript. In 1836 Buck & Wilson became its proprietors, and continued it about 1 year.

The Panama Herald was started at Panama in Aug. 1846, by Dean & Hurlbut. Stewart & Pray afterward became proprietors, and continued it until 1848.

The Frontier Express was started in June, 1846, by Cutler, Cottle & Perham. In 1849 it was changed to

The Fredonia Express, and was published by J. P. Cobb & Co., and afterward by T. A. Oshorn & Co. In 1850 it was changed to

The Chautauque Union, and was published a short time by E. F. Foster.

The Liberty Star was started at Jamestown in 1847 by Harvey A. Smith. In 1849 it passed into the hands of Adolphus

Fletcher and was changed to

The Northern Citizen. In 1833 John W. Fletcher became proprietor; and in 1855 it was changed to

The Chautauque Democrat, under which name it is now issued by Adolphus Fletcher and Jas. Barker.

The Silver Creek Mail was started at Silver Creek in 1848 by

John C. Van Duzen. In 1852 it was changed to

The Home Register, and was published by Jas. Long. In 1854 Samuel Wilson became proprietor, and changed it to

The Silver Creek Gazette, and continued it until 1856, when it was discontinued. In Aug. of that year it was revived, as

The Lake Shore Mirror, by H. M. Morgan, by whom it is still published.

The Bestia, a temperance paper, was published at Mayville by Lloyd Mills a short time about 1845.

The Chautauque Journal was started at Dunkirk in May, 1850,

by W. L. Carpenter. In a short time its name was changed to

The Dunkirk Journal, and it is still issued by the original proprietor.

The Fredonia Advertiser was started July 4, 1851, by Tyler & Shepard. It is now published by Levi S. Pratt & J. C. Frisbee.

The Undercurrent was published at Jamestown a short time in 1851-52 by Harvey A. Smith.

The Jamestown Herald was started in Aug. 1852, by Dr. Asaph Rhodes. In 1853 Joseph B. Nessel became proprietor,

removed it to Ellington Center, and changed its name to

The Ellington Luminary. It was discontinued in 1856.

The Philomathean Exponent was issued at Ellington by the students of the academy in 1852.

The Westfield Republican was commenced April 25, 1855, by M. C. Rice & Co., by whom it is still continued.

The Botanic Medical Journal was published a short time at Fredonia.

The Pantheon was published at Fredonia a short time.

The Western Argus was started at Westfield in 1857 by John F. Young. In about 1 year it was removed to Dunkirk,

and changed to

The Dunkirk Press and Argus, and is now issued by Howard & Young.

Pittsburgh. Their plan was to build a dam across the outlet of the lake and descend the river upon the flood so created. The party finally returned without attempting the project.

The first settlement in the co. was made at the mouth of Cattaraugus Creek in 1797, by Amos Suttle.¹ Soon after making the first improvements, Suttle left, and returned in 1801, with Mr. Sidney and Capt. Roscerantz. At the time of the first exploration of the co. the only Indian settlement was on Connewango Creek, within the limits of the present town of Carroll. In 1802, Gen. Paine, agent for the State of Connecticut, opened a wagon road from Buffalo to Chautauque Creek, to enable emigrants to reach the Conn. Reserve lands in Ohio. This road was soon after finished to the Penn. line. In 1804 the town of Chautauque was formed, and embraced the entire territory now included within the limits of the co. In April of the succeeding year the first town meeting was held, at which John McMahan was elected supervisor, and John McMahan, David Eason, and Perry G. Ellsworth were appointed the first justices of the peace.² In 1806 the first mail route was established between Buffalo and Erie, Penn.³ The lands in the co. were included in the Holland Purchase. A tract of 60,000 acres in the s. e. part was sold to Levi Beardsley, James O. Morse, and Alvan Stewart. In 1835 the Holland Land Company sold their outstanding contracts and unsold lands to Trumbull Cary & Co., of Batavia; and the new proprietors imposed such conditions upon the extension of contracts that the settlers rose *en masse* and demolished the land office at Mayville and burned the records in the public highway.⁴ In 1838 the interests of the co. were transferred to Duer, Morrison, & Seward, and the troubles were satisfactorily settled.

ARKWRIGHT—was formed from Pomfret and Villenova, April 30, 1829. A part of Pomfret was annexed in 1830. It is an interior town, lying n. e. of the center of the co. Its surface is an elevated upland, broken and hilly in the s. w., and rolling in the n. e. The highest summit—near the center, said to be the highest land in the co.—is 1,000 to 1,200 ft. above Lake Erie. The principal streams are Canadaway and Walnut Creeks. Mud Lake, on the e. border, covers about 10 acres. The soil is a clay and gravelly loam. Upon Canadaway Creek, in the s. w. part, is a fine cascade with 22 ft. perpendicular fall. **Arkwright Summit** is a p. o. in the e. part of the town. **Arkwright** (p. o.) is a hamlet in the n. part. The first settlement was made in the n. w. corner, by Byron T. Orton, Benj. Perry, and Augustus Burnham, from the eastern part of the State, in 1807.⁵ The first religious meeting was held at the house of Aaron Wilcox, in 1810, by Rev. John Spencer. The first church (Bap.) was organized by Elder Thos. Grennel, in 1820.⁶

BUSTI⁷—was formed from Ellicott and Harmony, April 16, 1823. A part was annexed to Ellicott in 1845. It lies upon the s. border of the co., e. of the center. Its surface is hilly and broken. It is drained by several small streams flowing into Chautauque Lake, which lies along the n. border, and by others flowing e. into Connewango Creek. The soil is a clay and gravelly loam. **Busti Corners** (Busti p. o.) contains a church, gristmill, and sawmill. Pop. 201. The first settlement was made on Lot 61, in 1810, by John L. Frank, from Herkimer co.⁸ The first church (Cong.) was formed Aug. 30, 1819; Rev. Lemuel Smith was the first minister.⁹

¹ Eliad T. Foote, (now of New Haven, Conn.) for 20 years First Judge of Chautauque co., says that the first settlement in the co. was made in 1794, by several persons from Erie, Penn.; and among them were the Brothers Lowry. These persons had been induced to locate in Penn. by fraudulent representations, and were afterward obliged to leave their improvements and commence anew in the wilderness. They settled within the limits of Chautauque co., but the precise place is unknown.

² Previous to 1804 the whole of the present co. formed a part of the town of Batavia, in Genesee co. The elections were held at Batavia, nearly 100 mi. distant, to which place the electors were compelled to go if they voted. In 1812 the Board of Supervisors consisted of 2 members, representing the towns of Chautauque and Pomfret. The county seat had been located at Mayville, much against the wishes of the people of Pomfret; and, in consequence, the supervisor of Pomfret voted against the appropriation of \$1,500 to build the courthouse and jail. After repeated attempts to effect the object, the question was temporarily laid aside. When the accounts of the town officers of Pomfret were presented, the Chautauque member voted in the negative, and affairs came to a dead lock, but were finally settled by a compromise, which allowed both the appropriation and the election to go through.

³ The first mail was carried by a man named Metcalf, who went on foot and carried the mail matter in a handkerchief.

⁴ The company demanded compound interest on all sums due, and an increase of one-third upon all extensions of contracts.

⁵ Aaron Wilcox settled in 1809, Nathan Eaton in 1810, Uriah L. Johnson, Jonathan and Benj. Sprague, from Otsego co., near the center, in 1811, and Simon Clinton, from Otsego co., at the center, in 1813. The first child born was Horatio Nelson Johnson, May 11, 1811; the first marriage, that of Asahel Burnham and Luania Eaton, May 11, 1815; and the first death, that of Augustus Burnham, in 1813. The first school was taught by Lucy Dewey, near the center, in the summer of 1813. Simon Clinton kept the first inn, in 1817; and Benj. Orton built the first sawmill, in 1818, on the e. branch of Canadaway Creek.

⁶ The census reports 3 churches; 2 M. E. and Christian.

⁷ Named from Paul Busti, of the Holland Land Company.

⁸ Lawrence Frank settled on Lot 62 in 1810, Heman Bush and John Frank, from Herkimer co., and Theron Plumb, from Mass., on Lot 60, in 1811. The first marriage was that of Zebbrick Roof and Polly Parmiter, in 1813; and the first death, that of Lawrence Frank, in 1811. Eve Frank, a young lady, was carried off by the Indians in 1811, and was gone 3 years, when she returned home and was married. Soon after, her husband was taken by the Indians and detained about the same length of time. These incidents are noted upon a tombstone in the graveyard at Busti. The first school was taught by Olive Marsh, on Lot 61, in 1813. Capt. Heman Bush kept the first inn and store, and erected the first mill, on Stillwater Creek, in 1815.

⁹ The census reports 5 churches; Cong., Bap., M. E., Univ., and Christian.

CARROLL¹—was formed from Ellicott, March 25, 1825. Kiantone was taken off in 1853. It is the s. e. corner town in the co. Its surface is broken and hilly in the s. e. and e., and rolling in the s. and s. w. The highest summits are 900 ft. above Lake Erie. The principal stream is Connewango Creek, forming part of the w. boundary. The soil is a clay loam in the s. and e., and a gravelly loam in the s. and w. **Frewsburch**, (p. v.) in the s. w. part, contains 2 churches, a gristmill and sawmill. Pop. 400. **Fentonville** is a p. o. near the s. w. corner. Joseph Akins, from Rensselaer co., the first settler in town, located on Lot 29 in Jan. 1807.² There are 2 churches in town; Bap. and M. E.

CHARLOTTE—was formed from Gerry, April 18, 1829. It is an interior town, lying s. e. of the center of the co. The surface is moderately hilly and divided into several ridges by the valleys of the streams. North Hill and Lake Hill, the highest points, are about 1,000 feet above Lake Erie. It is drained by Mill Creek and several tributaries. The soil is chiefly a clay loam. **Charlotte Center** (p. v.) contains 2 churches, a good water-power with some manufactories, and 10 dwellings; **Sinclairville**,³ (Gerry p. o.) near the s. line, contains 4 churches, 2 gristmills, and 2 sawmills. Pop. 450. The first settlement was made near the center, in 1809, by Robt. W. Seaver and Wm. Dixey, from Oneida co.⁴ The first religious meeting (Presb.) was held at Sinclairville, in 1811; and the first church (M. E.) was formed in 1816. There are now 6 churches in town.⁵

CHAUTAUQUE—was formed from Batavia, (Genesee co.) April 11, 1804, and embraced all the territory now included within the limits of Chautauque co. Pomfret was taken off in 1808, Portland in 1813, Harmony in 1816, and Clymer, Ellery, and Stockton in 1821. It is an interior town, lying a little w. of the center of the co. The surface is elevated and moderately hilly, occupying the watershed between the waters of Chautauque Lake and those of Lake Erie. Chautauque Lake is on the e. border, and chiefly within the limits of the town. The soil is a clay loam of good quality. **Mayville**, (p. v.) pleasantly located near the head of Chautauque Lake, was incorp. April 30, 1839; it contains the co. buildings, 3 churches, the Mayville Academy, a newspaper office, and a flouring mill. Pop. 501. **De Wittville**, (p. v.) in the e. part, contains a church, the co. poorhouse, and 133 inhabitants; **Hartfield**, (p. v.) on the lake inlet, contains a church, gristmill, sawmill, and furnace. Pop. 123. **Magnolia** is a p. o. on the lake, near the s. line. The first settlement was made at Mayville, in 1804, by Dr. Alexander McIntyre.⁶ The first church (Bap.) was formed at Mayville, in 1820, by Elder Wilson.⁷

CHERRY CREEK—was formed from Ellington, May 4, 1829. It lies on the e. border of the co., a little n. of the center. The surface is hilly in the s. w., and rolling in the s. e. Along the s. border are several small swamps. It is drained by Connewango Creek and several tributaries, flowing s. The soil is clay and a gravelly loam. **Cherry Creek**, (p. v.) in the s. e. part, contains 3 churches, 2 sawmills, and a gristmill. Pop. 240. The first settlement was made on Lot 15, in 1812, by Joshua Bentley, from Rensselaer co.⁸ The first religious services were held at the house of Ward King, in 1817; the Rev. Mr. Hadley (Bap.) was the first preacher.⁹

CLYMER¹⁰—was formed from Chautauque, Feb. 9, 1821. Mina was taken off in 1824, and French Creek in 1829. It lies upon the s. border of the co., w. of the center. The surface is a hilly upland, broken by the valleys of Brocken Straw Creek and its tributaries. The soil is a gravelly loam. Considerable lumber is still manufactured. **Clymer**, (p. v.) near the s. w. corner, con-

¹ Named in honor of Charles Carroll, of Carrollton.

² Laban Case settled on Lot 31, Wm. Akins on Lot 21, in 1807; Jas. Akins on Lot 13, in 1815; James Hall on Lot 11, in 1810; and Wm. Sears on Lot 11, in 1811. The first child born was Hamilton Tyler, in 1810; the first marriage, that of Wm. Bowles and Jerusha Walton, in 1811; and the first death, that of Woodcock, killed by the fall of a tree in 1810. Stephen Rogers taught the first school, in 1813, on Lot 51. The first sawmill was built by John Fren and Thos. Russell, on Lot 14, in 1811, and the first gristmill by John Fren, on the same lot, in 1817. William Sears kept the first inn, on Lot 11, in 1814, and James Hall the first store, on the same lot, in 1824.

³ The village derives its name from its first settler, Maj. Sam'l Sinclair, who came in from Madison co. in 1810.

⁴ John Bicket, John Cleveland, Chas. Waterman, and Harvey O. Austin, from Eastern N. Y., settled in the w. part in 1809. The first school was taught at Sinclairville, in the winter of 1811-12, by Wm. Gilmore. Maj. Sinclair kept the first inn, in 1811, and Phamb, Edson & Winsor the first store, in 1817, at Sinclairville. Maj. Sinclair erected the first sawmill, in 1810, and the first gristmill, in 1811, on Mill Creek.

⁵ 2 M. E., 2 Univ., Cong., and Bap.

⁶ Jonathan Smith settled about the same time, near the w. shore of the lake, and Peter Barnhart, from Penn., on the e. shore; Martin Prelogast and Messrs. Griffith and Bemus, also on the e. shore, in 1806. Judge Peacock was also an early settler. John Scott kept the first inn, at Mayville, in 1808, and J. & M. Prelogast the first store, in 1811.

⁷ The census reports 7 churches; 2 Bap., 2 M. E., Cong., Prot. E., and F. W. Bap.

⁸ Jos. Kent settled on Lot 9, in 1815, and Willard Cheney on Lot 10, Wm. Weaver on Lot 16, Anson Hendrick on Lot 16, and Cueshill Brown on Lot 15, in 1816. Rouben Cheney taught the first school, in 1818; Geo. H. Frost kept the first inn, in 1823, and Seth Grover the first store, in 1831, at the village. Wm. Killoburn built the first sawmill, in 1824, on Cherry Creek, near the village. The first death was that of Lydia Page; she was buried in the woods near the village. Joshua Bentley lost a daughter, 2 years old, in 1817,—supposed to have been carried off by the Indians.

⁹ The census reports 3 churches; 2 Bap. and F. W. Bap.

¹⁰ Named in honor of Geo. Clymer, one of the signers of the Declaration of Independence.

ains 2 churches and 110 inhabitants. **Clymer Center** is a p. o. John Cleveland settled on Lot 58 in 1820.¹ The first religious meeting (Bap.) was held at the house of Mr. Cleveland, in 1820, by Elder Powers. The first church (Bap.) was formed in 1830.²

ELLERY³ was formed from Chautauque, Feb. 29, 1821. A part was annexed in 1850. It is the central town in the co. The surface is a hilly upland, the highest summits being about 400 ft. above the valleys and 1,000 ft. above Lake Erie. Chautauque Lake forms the s. w. boundary, and into it flow several small streams, which form the principal drainage. The soil is a clay loam upon the uplands, and a gravelly loam in the valleys. **Ellery Center** (p. v.) contains a church and 16 dwellings. **Ellery** is a p. o. near the shore of the lake. The first settlements were made on the lake by Wm. Bemus and Jeremiah Griffith, from Rensselaer co., in 1806; the former located at Bemus Point, and the latter farther s.⁴ The first church (Bap.) was formed in 1809, by Elder Asa Turner, the first minister.⁵

ELLICOTT⁶ was formed from Pomfret, June 1, 1812. A part of Busti was taken off in 1823, Carroll in 1825, and Poland in 1832. A part of Busti was annexed in 1845. It is an inferior town, lying s. e. of the center of the co. Its surface is a hilly upland, with a gentle inclination toward the s. w. The foot of Chautauque Lake extends into the s. w. corner; and the outlet flows e. through the s. part of the town, receiving Cassadaga Creek as a tributary. The soil is sandy and gravelly loam. **Jamestown**, (p. v.), located on the outlet of Chautauque Lake, in the s. part of the town, was incorp. March 6, 1827. It contains 7 churches, the Jamestown Academy, 2 newspaper offices, 2 banks, the office of the Farmers' Insurance Company, 2 woolen factories, 2 furnaces, 2 flouring mills, and various other manufacturing establishments, and an ample water-power. Pop. 1,625. **Fluvanna**, (p. v.), at the foot of the lake, near the w. line, contains a church and 14 dwellings. **Levant** is a p. o., on the e. border, at the junction of Cassadaga Creek with the lake outlet. **Dexterville** is a hamlet. The first settlement was made on the outlet of Chautauque Lake, in 1806, by Wm. Wilson.⁷ The first church (Cong.) was formed July 1, 1816, by Rev. John Spencer, a missionary preacher from Conn. There are 12 churches in town.⁸

ELLINGTON—was formed from Gerry, April 1, 1824. Cherry Creek was taken off in 1829. It lies upon the e. border of the co., a little s. of the center. Its surface is an undulating and hilly upland. Clear Creek flows through near the center, and, with its tributaries, forms the principal drainage. Connewango Creek flows through the n. e. corner. The soil is a sandy and gravelly loam. **Ellington**, (p. v.), near the center, contains 4 churches, the Ellington Academy, and 2 gristmills. Pop. 487. **Clear Creek** is a p. o. Jos. Bentley made the first settlement, on Lot 7, in 1814.⁹ The first religious services were held at the house of James Bates, in 1817, by Rev. Daniel Hadley. The F. W. Bap. denomination organized the first church.¹⁰

FRENCH CREEK—was formed from Clymer, April 23, 1829. It is the s. w. corner town of the co. The surface is hilly and broken by the deep valley of French Creek. The soil is chiefly heavy clay loam. **French Creek** is a p. o. in the n. part, and **Marvin** a p. o. in the s. Andy Nobles, from Oswego co., made the first settlement, on Lot 44, in 1812.¹¹ The first religious meeting was held on Lot 46, in 1818, by Elder Ashford; and the first church (Bap.) was formed in 1821. There is no church edifice in town.

¹ Wm. Rice, from Washington co., settled on Lot 59, in 1821. Jorace and Anson Starkweather, from Vt., on Lot 43, in 1822. The first birth was that of Patience Russell, in 1823; the first marriage, that of Walter Freeman and Rowena Brown, in 1823. Alvin Williams kept the first inn, in 1826, at the village. John Shaw the first store, in 1823; and Peter Jacquins built the first mill, in 1825.

² The census reports 5 churches; 2 M. E., Bap., Germ. Evang. Pr. and Ref. Prot. D.

³ Named in honor of Wm. Ellery, a signer of the Declaration of Independence.

⁴ Isaac Young, from Genesee co., settled on Lot 3, near the lake, in 1806. About the same time, or soon after, Dan'l Cheney, Abanum Weed, Abijah Bennett, John Putnam, and Nahum Aldrich settled in town. Clark Parker, from Washington co., located near the center, in 1810. The first school was taught by Dr. Cary, in the s. w. part, in 1808. Wm. Bemus kept the first inn, in 1811, erected the first sawmill, in 1808, and the first gristmill, in 1811, on Bemus Creek. David Bellamy kept the first store, at the center, in 1830.

⁵ The census reports 3 churches; Bap., M. E., and Univ.

⁶ Named from Joseph Ellicott, agent of the Holland Land Company.

⁷ Thomas R. Kennedy and Edward Works located upon the outlet, in 1807, and Wilson Ellicott, Jas. Culbertson, and Geo. V. Fenton, in 1808. Edward Works built the first sawmill, in

1808, and the first gristmill, in 1809,—this being the first improvement of the water-power of the Outlet. The first school was taught in the house of John Elover, in 1815, by Rev. Amasa West.

⁸ 2 M. E., Cong., Presb., Prot. E., Bap., F. W. Bap., Christian, Wes. Meth., Luth., Univ., and R. C.

⁹ Among the other early settlers were Jas. Bates, from Mass., Sam'l McConnell, from Cayuga co., and Joshua Bentley, jr., from Rensselaer co., in 1816; Simon Lawrence, from Vt., Abner Bates and Ward King, from Mass., in 1817. The first child born was Simon Lawrence, jr., in 1817; the first marriage, that of Rufus Hitchcock and Ranah Hadley, in 1817; and the first death, that of Mr. Hitchcock, who fell from a building and was killed six weeks after his marriage. Jas. Bates kept the first inn, at Ellington Village, in 1814, and Lewis Holbrook the first store, in 1821. Ward King built the first gristmill, near the village, in 1821.

¹⁰ The census reports 5 churches; Bap., Christian, Presb., M. E., and F. W. Bap.

¹¹ John Cleveland settled on Lot 31, in 1812; Roswell Coe on Lot 39, and Nath'l Thompson on Lot 9, in 1813; and Paul Colbourn, from Oneida co., on Lot 44, in 1814. The first death was that of a son of Nath'l Thompson, drowned in French Creek. The first school was taught by — Chitsey, in 1818. William Graves kept the first inn, and built the first gristmill, in 1822; and John Dodge opened the first store, in one end of the gristmill.

GERRY¹—was formed from Pomfret, June 1, 1812. Ellington was taken off in 1824, and Charlotte in 1829. It is an interior town, lying a little e. of the center of the co. The surface is a hilly upland, the highest summits, in the s. e. corner, being 900 ft. above Lake Erie. It is drained by Cassadaga Creek and its tributaries, Mill Creek, and several smaller streams. The soil is a clay loam upon the uplands, and a sandy loam in the valleys. There are several sulphur springs in town. Upon Lot 44, s. w. of the center of the town, a gas spring has been found; and the owner, James H. Mix, uses the gas for lighting his house. **Bucklins Corners**, (Vermont p. o.) in the s. part, contains 23 dwellings. The first settlement was made in 1811, by John Love, jr. and Stephen Jones, in the s. w. part.² The first religious meeting was held in the spring of 1818, by Elder Jonathan Wilson. The first religious association (M. E.) was formed in 1819, and drew the lot appropriated by the Holland Land Company for religious purposes. They erected a church a little w. from the center, the only one now in town.

HANOVER—was formed from Pomfret, June 1, 1812. Villenova was taken off in 1823, and a part of Sheridan in 1827. It lies upon Lake Erie, in the s. e. corner of the co. A part of Cattaraugus Indian Reservation lies in the s. e. part of the town. The surface along the lake is level or undulating, and in the center and s. it is hilly, with an inclination toward the n. Cattaraugus Creek forms a portion of the s. boundary. Silver Creek flows in a s. w. direction through the town into Lake Erie, receiving Walnut Creek at its mouth,³ and several other tributaries. The soil is clay and gravelly loam. **Silver Creek**, (p. v.) upon the lake shore, at the mouth of Silver Creek, was incorp. June 8, 1848; it contains 2 churches, a bank, a weekly newspaper office, 2 mills, 2 tanneries, and various other manufacturing establishments. Pop. 652. Lake vessels were formerly built at this place,⁴—the first by Ira Fairchild, in 1816. **Irving**, (p. v.) on Cattaraugus Creek, near its entrance into the lake, contains 2 churches, a gristmill, and 2 sawmills. Pop. 404. At the mouth of the creek is a harbor admitting of the entrance of vessels. **Smith Mills**, (p. v.) a little s. from the center, contains a flouring mill, a distillery, and 22 dwellings. **Forestville**, (p. v.) in the s. w. part, was incorp. April 4, 1849. It contains 2 churches, 2 gristmills, and 2 sawmills. Pop. 540. It is a station on the N. Y. & Erie R. R. **Nashville**, (p. v.) in the s. e. part, contains 2 churches and 26 dwellings. **Hanover** is a hamlet. Amos Cottle settled at the mouth of Cattaraugus Creek in 1797.⁵ The first religious meetings (Bap.) were held by Rev. Joy Handy, in 1811; and the first church (M. E.) was organized in 1816, at Forestville.⁶

HARMONY—was taken from Chautauque, Feb. 14, 1816. A part of Busti was taken off in 1823. It lies upon the s. border of the co., a little w. of the center. The surface is a moderately hilly upland, the highest summits being about 900 ft. above Lake Erie. Chautauque Lake forms the s. e. boundary. It is drained by Goose Creek and several smaller streams, flowing n. into the lake, and by Little Brocken Straw Creek, flowing s. to Penn. The soil is clay, yellow and gravelly loam. Quarries of a fine quality of sandstone for building purposes are found in several localities. **Ashville**, (Harmony p. o.) on Goose Creek, near Chautauque Lake, contains 3 churches, a gristmill and sawmill. Pop. 247. **Panama**, (p. v.) upon Little Brocken Straw Creek, near the center, contains 4 churches and 500 inhabitants. **Bloekville** (p. v.) contains 20 dwellings. **Stedman** is a p. o. in the n. part of the town. The first settlement was made on Lot 43, in 1806, by Reuben Slayton, from Otsego co.⁷ The first religious meeting (Bap.) was held in a schoolhouse at Bloekville, by Rev. Simon Bowers.⁸

¹ Named from Elbridge Gerry, a signer of the Declaration of Independence.

² Jesse Dexter, David Cobb, and Hugh B. Patterson were among the early settlers. The town settled slowly until after the close of the war in 1815, when the settlements progressed rapidly. The first death was that of Alva Eaton, who was killed by the fall of a tree in the spring of 1818. Jas. Bucklin kept the first inn, in 1820, and Howard B. Blodget the first store, in 1826, at Bucklins Corners. John Hines and Wm. Newton erected the first sawmill, on Cassadaga Creek, in the s. w. part, in 1819, and the first gristmill, in 1822.

³ Named from a gigantic walnut tree that grew near its mouth. This tree was 9 ft. in diameter and 27 ft. in circumference. It was cut into sections and sold as curiosities.

⁴ The steamboat W. F. B. Taylor was built here in 1836.

⁵ Among the first settlers were Wm. Sidney and Capt. Rosecrantz, in 1801; Sylvanus Maybee, Benj. Kinyon, and Amos Avery, at the mouth of Cattaraugus Creek, Nathan Cass, from Boston, Jedial More and Jonas Green, at Forestville, in 1805; Abel Cleveland and David Dickerson, in 1802; John E. Howard, in 1806; and Artemus R. Clothier, in 1809.—all at Silver Creek. The first child born was Caroline Sidney, in 1804; the first marriage, that of

Richard Smith and Sally Mack, in 1807; and the first death, that of Wm. Sidney, in Jan. 1807. John Mack kept the first inn, in 1807, at the mouth of Cattaraugus Creek, and Parker Brownell the first store, in 1811. Abel Cleveland and David Brownell built the first sawmill, in 1804, and the first gristmill, in 1800, at Silver Creek. In 1805 Mr. Dickerson erected a sawmill at Silver Creek, to which he attached a mortar and pestle, for the purpose of pounding corn for feed. — Moore erected a gristmill at Forestville about the same period.

⁶ There are 8 churches in town: 4 M. E., 3 Bap., and Presb.

⁷ Daniel B. Carpenter, from Washington co., settled on Lot 64, in 1800; Jonathan Cheney and Wm. Mattison on Lot 52, in 1811; and Jas. Carpenter on Lot 56, in 1816. The first child born was Thos. Slayton, in Nov. 1807; the first marriage, that of Reuben Slayton and Chrissie Slayton, in 1808; and the first death, that of Thomas Slayton, Nov. 23, 1807. Eben Pratt taught the first school, in 1817; Jas. McCullen kept the first inn, in 1816, on Lot 43; and Tubert & Kellogg the first store, on the same lot, in 1818. Reuben Slayton built the first sawmill, on Lot 43, in 1818.

⁸ The census reports 9 churches; 5 M. E., 3 Bap., and Presb.

KIANTONE—was formed from Carroll, Nov. 16, 1853. It lies upon the s. border of the co., e. of the center. The surface is undulating in the e., and hilly in the w. The highest summits are about 100 ft. above Chautauque Lake. Connewango Creek forms the greater part of the e. boundary. Kiantone and Stillwater Creeks are the other principal streams. The soil is a clay loam intermixed with gravel. **Kiantone** (p. v.) contains about 20 dwellings. The first settlement was made on Lot 1, in 1807, by Robt. Russel.¹ The first religious meeting was held at the house of Joseph Akins, in 1814, by Rev. Mr. Smith; and the first church (Cong.) was formed in 1815. There are 3 churches in town; Cong., M. E., and Univ.

MINA—was taken from Clymer, March 23, 1824. Sherman was taken off in 1832. It is the central town upon the w. border of the co. Its surface is rolling and hilly. The principal streams are French and several smaller creeks, flowing s. and w. Findleys Lake is a fine sheet of water in the s. w. part. The soil is a clay and gravelly loam. **Mina Corners**, (Mina p. o.) a little e. of the center, contains 15 dwellings; and **Findleys Lake**, (p. v.) near the outlet of the lake, 20 dwellings. **Friends** is a p. o. in the s. w. part. The first settlement was made on Lot 52, in 1816, by Alex. Finley, from Penn., originally from Ireland.² The first religious services (Ref. Prot. D.) were held in the barn of Benj. Hazen, by Rev. Mr. Bradley, in 1826. The first and only church (Ref. Prot. D.) was formed in 1853, and the church edifice was erected in 1857.

POLAND—was formed from Ellicott, April 9, 1832. It lies on the e. border of the co., s. of the center. Its surface is a hilly upland, divided into several distinct ridges. The principal streams are Connewango and Cassadaga Creeks, which form a junction near the s. line. The soil is a clay and sandy loam. Considerable lumber is still manufactured. **Falconer**,³ (p. v.) on Connewango Creek, contains a church, gristmill, sawmill, and 23 dwellings. **Poland Center** is a p. o. The first settlement was made at Falconer, on the Connewango, in 1805, by Dr. Thos. R. Kennedy, from Meadville, Penn.⁴ A church (Union)—the only one in town—is located at Falconer.

POMFRET—was formed from Chautauque, March 11, 1808. Ellicott, Gerry, and Hanover were taken off in 1812, a part of Sheridan in 1827, and parts of Arkwright in 1829 and '30. It lies upon Lake Erie, a little e. of the center of the co. A strip of comparatively level land extends along the lake, and the remaining part of the surface is a rolling upland, the higher summits being 700 to 800 ft. above the lake. It is principally drained by Canadaway Creek and several smaller streams flowing into the lake. Several small branches of Cassadaga Creek take their rise in the s. part. The soil is a clay and gravelly loam. Quarries of excellent building stone are found along the lake shore. **Dunkirk**,⁵ (p. v.) on Lake Erie, was incorp. May 15, 1837. It is a commercial port upon the lake, and the w. terminus of the N. Y. & Erie R. R. It has a fine harbor, and commodious wharves and warehouses for the accommodation of the large amount of commerce that centers here during the season of navigation.⁶ The r. r. company have also extensive warehouses, work and repair shops, and accommodations for an immense freighting business. The port is the most important one on the lake between Buffalo and Cleveland; and regular lines of steam propellers run in connection with the r. r. The village contains a bank, 4 churches, 2 newspaper offices, a union school, several machine shops and furnaces, and a brewery and distillery. Pop. 4,754. **Fredonia**, (p. v.) upon Canadaway Creek,⁷ 3 mi. s. of Dunkirk, was incorp. May 2, 1829. It contains 4 churches, the Fredonia Academy, 2 banks, 2 weekly newspapers, 3 flouring mills, 2 furnaces, and various other manufacturing establishments. The celebrated "Fredonia Garden Seeds" are raised and put up at this place.⁸ Pop. 2,004.

¹ James Hall settled on Lot 28, in 1810. The first school was taught by Stephen Rogers, in 1814. Jas. Hall kept the first store, on Lot 28, and Wm. Sears the first inn, on Lot 11. Robert Russel built the first sawmill, on Kiantone Creek.

² Aaron Whitney, from Dumfries, Canada, settled on Lot 59, Zana Beckford on Lot 28, and Roger Bashall on Lot 50, in 1821; James Ottaway, from Kent co., England, on Lot 14, in 1823. The first birth was that of a daughter of Nathaniel Throop, in 1823; the first marriage, that of Isaac Steadman and Nancy Wilcox, in April, 1826; and the first death, that of the mother of Nathaniel Throop, in 1825. The first school was taught by Eliza More, near Finleys Mills, in 1826. Cullin Barnes kept the first inn, on Lot 29, in 1827, and Horace Brockway the first store, in 1824, on Lot 52. Alex. Finley built the first mill, in 1821, on the outlet of Finleys Lake.

³ Formerly known as "Kennedyville."

⁴ Edward Shillito settled about the same time at the mills on the Connewango; Amasa Ives, Isaac Young, — Owens, — Miles, Jos. and Daniel Wheeler, Nicholas Dolloff, and Joshua

Woodard were also early settlers. Dr. T. R. Keundy erected the first sawmill, in 1805, and the first gristmill, in 1806, on the Connewango. The first lumber rafted down the Allegheny was made at Dr. Kennedy's mill.

⁵ Formerly called "Chadwick's Bay," from the first settler.

⁶ At this port were received, in 1857, 242,957 bbls. flour, 28,322 bbls. wh.-key, 20,153 bbls. beef, pork, and bacon, 93,448 bush. wheat, 11,465,2 bush. corn, 2,152,800 lbs. wool, 1,208,400 lbs. butter, 9,236 head of cattle, 10,782 sheep, and 10,865 hogs.

⁷ Upon the banks of the creek—just below the bridge, in the village—is a spring of carbonated hydrogen gas, yielding about 10,000 cubic ft. of gas every 24 hours. This gas is collected in a gasometer and distributed in pipes, affording sufficient light for about one-half of the village. About one mi. e. of the village the gas oozes from the shale rocks on the banks of the creek over the space of an acre. The amount of gas escaping here is supposed to be much greater than at the spring in the village, and a company has been formed to collect it for use.

⁸ Over 600 acres of land are devoted to this business.

Laona, (p. v.), on Saw Creek, near the e. border, contains 2 churches, a paper mill, saw and grist mill, and 406 inhabitants. **Brigham**, in the s. part, is a p. o. **Shumla** is a hamlet, near the s. e. corner. David Eason and Thomas McClintock, from Penn., settled at Fredonia, in 1804.¹ The first church (Bap.) was organized Oct. 20, 1808, at the house of Judge Cushing.²

PORTLAND—was formed from Chautauque, April 9, 1813. Ripley was taken off in 1817, and a part of Westfield in 1829. It lies upon Lake Erie, a little w. of the center of the co. Its surface is level along the lake shore, but broken and hilly in the center and w. Its streams are small creeks and brooks flowing into Lake Erie. The soil is a clay and gravelly loam. **Centerville**, (Portland p. o.) near the center, contains 2 churches and 233 inhabitants; **Salem**, (Brookton p. o.) in the n. e. part, contains 2 churches and 258 inhabitants. The first settlement was made a little w. of the center, by Capt. Jas. Dunn, in 1805.³ The first religious meeting was held at the house of Capt. Dunn, in 1810, by Rev. John Spencer, who afterward organized the first church (Cong.) in 1817.⁴

RIPLEY⁵—was formed from Portland, March 1, 1817. A part of Westfield was taken off in 1829. It lies upon Lake Erie, in the n. w. corner of the co. Its surface is level along the lake shore, and broken and hilly in the s. e. The highest summits are 800 ft. above the lake. It is drained by Twenty Mile Creek and its tributaries and a large number of small streams flowing into the lake. The soil is a clay and gravelly loam. Along the lake shore are several valuable stone quarries. **Quincy**, (Ripley p. o.) about 1 mi. e. of the lake, contains 2 churches and 289 inhabitants. **State Line** is a station on the B. & E. R. R. Josiah Farnsworth, from the e. part of the State, settled at Quincy in 1804. The first religious services (Bap.) were held at the house of Nathan Wisner, by Rev. Samuel Wisner, in 1806; the first church (Presb.) was formed in 1820.⁶

SHERIDAN—was formed from Pomfret and Hanover, April 16, 1827. It lies upon the shore of Lake Erie, e. of the center of the co. The surface is level in the n. w., and hilly in the s. e., with a gradual inclination toward the lake. A nearly perpendicular bluff, 50 to 200 ft. high, extends along the lake shore. It is drained by Scotts Creek, and several smaller streams, flowing into Lake Erie. The soil is a clay loam, mixed in some parts with gravel. **Sheridan Center** (p. v.) contains 2 churches and 20 dwellings. The first settlements were made on Lot 17, at the center, by Francis Webber, from Mass., in 1804.⁷ The first religious meeting (Presb.) was held at the house of Orsamus Holmes, by Rev. John Spencer, in 1807; and the first church (Presb.) was organized by Mr. Spencer, in 1816.⁸

SHERMAN⁹—was formed from Mina, April 17, 1832. It is an interior town, lying s. w. of the center of the co. The surface is rolling and hilly, broken by the deep ravines of the streams. It is drained by French Creek and its tributaries. The soil is clay and sandy loam. Considerable lumber is manufactured in the town. **Sherman**, (p. v.), in the n., contains 4 churches, a grist-mill, sawmill, and several manufacturing establishments. Pop. 401. **Center Sherman** is a p. o. **Pleasant Valley** and **Waits Corners** are hamlets. In 1824,¹⁰ Alanson Weed set-

¹ Low Minegar, Benj. Barrett, Zattu Cushing, — Barnes, Cole, and — Geer settled, in 1804 and '05, at and near Fredonia. Timothy Goulding settled 1 mi. w. of the harbor, in 1808. Solomon Chadwick located at Dunkirk in 1809, and — Gaylord, Daniel Pier, and Luther Goulding soon after. Samuel Perry brought the first vessel into the harbor, in 1810. The first death was that of a daughter of Oliver Woodcock, 12 years of age, killed by the fall of a tree in 1808. The first school was taught by Samuel Perry, at Fredonia, in the winter of 1808-09. Thos. McClintock kept the first inn, in 1809, and E. Risley the first store, in 1808, at Fredonia. Baker, Berry & Co. built the first sawmill and gristmill, in 1807, on Canalway Creek.

² The census reports 11 churches; 3 Bap., 2 Prot. E., 2 Presb., 2 M. E., Christian, and R. C.

³ In 1806, Nathan, Elisha, and Nath'l Fay settled on Lot 25, Peter Kane on Lot 38, John Price on Lot 54, David Eason on Lot 37, and Benj. Hutchins in the same vicinity. The first birth was that of George W. Dunn, Jan. 18, 1807; the first marriage, that of Absalom Harris and Polly Kane, in 1810; and the first death, that of Mrs. Nathan Fay, in 1807. The first school was taught by Anna Eaton, on the premises of Capt. Dunn, in the summer of 1810. The first inn was kept near Centerville, by Capt. Dunn, in 1809, and the first store by Thos. Chump, in 1817, in the w. part of the town. Moses Sage and Wm. Dunham built the first sawmills, near the lake shore. The first gristmill was built at Salem.

⁴ The census reports 6 churches; 2 Bap., 2 M. E., Prot. Meth., and Cong.

⁵ Named in honor of Gen. Eleazar W. Ripley. Among the other early settlers were Perry G. Ellsworth, on Lot 12, near Quincy, Samuel Truesdell, near the Penn. line, Alexander Cochrane, on

Lot 10, and Wm. Alexander, all of whom came in 1804; Silas Baird settled on Lot 6, and Ira Loomis in town, in 1806; Chas. Forsyth in 1808. The first school was taught by Ann Biddle, a little w. of Quincy, in 1810. The first inn was kept near the State line, by Sam'l Truesdell, in 1805.

⁶ The census reports 5 churches; 2 Presb., M. E., Bap., and Unit.

⁷ Jerrard Griswold, John Walker, Orsamus and Alanson Holmes, and Urah Lee, from Eastern New York, settled near the center in 1804-05; Wm. Griswold, from Conn., on Lot 25, in 1805; and Rev. John Spencer, from Conn., at the center, in 1807. The first birth was that of Jos. Elliott, son of Alanson Holmes, in the spring of 1805; the first marriage, that of Benj. Farrows and Betsey Stebbins, in 1807-08; and the first death, that of Alanson Holmes, in the fall of 1805. The first school was taught by Wm. Griswold, in the winter of 1808-09, at his own house. Orsamus Holmes kept the first inn, w. of the center, in 1805; and Elisha Gray the first store, the same year. Haven Bingham built the first gristmill, in 1807, on Buchanan Creek.

⁸ The census reports 3 churches; Presb., Bap., and Wes. Meth.

⁹ Named in honor of Roger Sherman, one of the signers of the Declaration of Independence.

¹⁰ In the same year, Harvey W. Goff settled on Lot 30, Lester R. Dewey on Lot 31, Otis Skinner on Lot 32, and Hiram N. Gleason on Lot 24. The first child born was Amasa Deenas, in 1824; the first marriage, that of Lester R. Dewey and Lanny Patterson, in 1825; and the first death, that of — Arnold, in 1826. Otis Skinner taught the first school, in his own house, in 1828. Josiah Keeler kept the first store and inn, on Lot 27, in 1827. Alanson Weed erected the first mill, on Lot 39, in 1825.

bled on Lot 31. The first religious meeting (Bap.) was held at the house of Jonathan Reynolds, by Elder Spencer; and the first church (Cong.) was formed in 1826.¹

STOCKTON²—was formed from Chautauque, Feb. 9, 1821. A part of Ellery was annexed in 1850. It is an interior town, lying a little n. of the center of the co. Its surface is a rolling and hilly upland. Cassadaga and Bear Lakes, two small bodies of water near the n. border, give rise to Cassadaga and Bear Creeks. These streams unite in the s. part of the town. The soil upon the upland is a clay loam, and in the valleys a sandy loam. **Delanti**, (Stockton p. o.) near the center, contains 3 churches, a grist and saw-mill, and 180 inhabitants. **Cassadaga**, (p. v.) upon Cassadaga Lake, in the n. e. corner, contains a church, a sawmill, and 151 inhabitants. **South Stockton**, in the s. e. part, and **Oregon**, in the s., are p. offices. The first settlement was made in the s. part of the town, in 1810, by Shadraek Seofield, David Waterbury, and Henry Walker, from Saratoga co.³ The first church (Bap.) was organized in the s. part, in 1815.⁴

VILLENOVA—was taken from Hanover, Jan. 24, 1823. A part of Arkwright was taken off in 1829. It lies upon the e. border of the co., n. of the center. Its surface is rolling in the s. e., and broken and hilly in the center and n. The highest summit is 900 ft. above Lake Erie. Two small lakes—one on the n. and the other on the w. border—form the sources of the two branches of Connewango Creek, which unite in the s. e. corner. The soil is a clay and gravelly loam. **Omar**, (Hamlet p. o.) a little s. w. of the center, contains 2 churches, a grist and saw mill, and 181 inhabitants. **Villanova** is a p. o. at Connewango Forks, in the s. e. part. The first settlement was made in 1810, on Lot 3, by Daniel Whipple, from Herkimer co., originally from Mass.⁵ The first religious meeting was held by Rev. Mr. Dunham; and the first church (M. E.) was formed in 1812. There are 3 churches in town; M. E., Wes. Meth., and F. W. Bap.

WESTFIELD—was formed from Portland and Ripley, March 19, 1829. It lies upon Lake Erie, w. of the center of the co. The surface is level or rolling along the lake, and hilly in the center and s. It is drained by Chautauque and Little Chautauque Creeks and several smaller streams flowing into the lake. The soil is a clay and gravelly loam. **Westfield**,⁶ (p. v.) upon Chautauque Creek, about 2 mi. from the lake, was incorp. April 19, 1833. It contains 4 churches, 2 banks, a weekly newspaper, the Westfield Academy, an agricultural implement factory, a hardware factory, woolen factory, cotton mill, and 3 flouring mills. Pop. 1,433. **Barcelona**, (p. v.) a part of entry upon the lake, contains 169 inhabitants. **Volusia** is a p. o. in the s. part of the town. The first settlement was made in 1801, by Edward McHenry, from Penn.⁷ The first church (Presb.) was organized in 1807, by Rev. John Linsley.⁸

¹ The census reports 5 churches; Cong., Bap., F. W. Bap., M. E., and Univ.

² Named in honor of Richard Stockton, a signer of the Declaration of Independence.

³ The first child born was Wm. Walker, Aug. 25, 1811. Abigail Durfy taught the first school, in the s. part, in the summer of 1815. The first inn was kept by Ichabod Fisher, at Cassadaga, in 1811, and the first store by James Haywood, at Delanti, in 1817. Hines, Lazell & Nelson built the first gristmill, at Delanti, on Bear Creek, in 1819.

⁴ The census reports 6 churches; 3 Bap., Cong., Christian, and Univ.

⁵ Among the other early settlers were Daniel Wright, from Herkimer co., on Lot 19, Villeroy Balcomb, John Kent, and Eli Arnold. The first child born was Electa Whipple, May 5, 1812; the first marriage, that of Jas. Maffit and Mary Dighton; and the first death, that of John Arnold, in 1811. Mrs. Battles taught the first school, in her own house, near Wrights Corners, in 1815. Norris & Grover kept the first store, and Villeroy Balcomb the first inn, at Wrights Corners, in 1820. John Kent

erected the first sawmill, in 1815, on the Connewango, below the Forks; and a gristmill was attached in 1818.

⁶ The business of this place was ruined by the finishing of the N. Y. & Erie R. R. to Dunkirk. A lighthouse here is lighted by gas obtained from a gas spring, on the bank of the creek, about a mile distant.

⁷ Among the other early settlers were Arthur Bell and James Montgomery, from Penn., who located a little w. of Westfield Village, Abraham Fredrick, from Penna., on Lot 71, and Dan'l Kin-kaid, on Lot 14, all in 1802; and Gen. John and Jas. McMahan, on the present site of the village, in 1803. The first child born was John McHenry, in 1802; the first marriage, that of James Montgomery and Sarah Taylor, June 30, 1805; and the first death, that of Edward McHenry, drowned by the upsetting of a small boat on Lake Erie, in 1803. John McMahan erected the first sawmill and gristmill, in 1804, on and near the mouth of Chautauque Creek. Edward McHenry kept the first inn, in 1802, and Jas. Atkins the first store, in 1808, at Westfield Village. The first school was taught by Wm. Murray, in 1803.

⁸ The census reports 7 churches; 2 M. E., Presb., Prot. E., Wes. Meth., Bap., and Univ.

CHEMUNG COUNTY.

THIS county was formed from Tioga, March 29, 1836.¹ A portion of Schuyler was taken off in 1854. It lies upon the s. border of the State, is centrally distant 158 mi. from Albany, and contains 406 sq. mi. Its surface is principally a hilly upland broken by the deep ravines of the streams. The highest points are 400 to 600 ft. above the valleys and 1300 to 1500 ft. above tide. The ridges extend in a general n. and s. direction, and have steep declivities and broad and rolling summits. A deep valley, extending s. from Seneca Lake, divides the highlands into two general systems, and forms an easy communication between the Susquehanna Valley and the central portions of the State. Chemung River flows s. e. through the s. part of the co. and cuts the ridges diagonally. Wide alluvial flats,

bordered by steep hillsides, extend along nearly its whole course. Catharine Creek flows n. through the central valley and discharges its waters into Seneca Lake. The other principal streams, all tributaries of the Chemung, are Post, Sing Sing,² Newtown, Goldsmith, Wynkoops,³ and Cayuta Creeks from the n., and Hendy and Seely Creeks from the s. The valleys of these streams are generally narrow, and are bordered by steep hills. The valleys of the smaller streams are mere ravines and gulleys.

The principal rocks in the co. belong to the shales and sandstones of the Chemung group. In the n. part the rocks of the Portage group are exposed in the ravines. The sandstone is quarried in several places, and furnishes a good quality of stone for building and flagging. Bog iron ore and marl are found to a limited extent. The soil is a gravelly and sandy loam, intermixed in some places with clay. The valleys are covered with a deep, rich alluvium. The highlands are best adapted to pasturage. The people are principally engaged in agriculture. Until within a few years, lumbering has formed a leading pursuit;⁴ but since the disappearance of the fine forests this business has been mostly superseded by stock and wool growing and dairying. Since the completion of the railroads and canals, commerce and manufactures have received considerable attention, although they are still subordinate to the agricultural interests of the co.

The county seat is located at Elmira, upon Chemung River.⁵ The courthouse and jail are located near the center of the village, e. of the canal. The jail is poorly arranged, and in construction it meets neither the requirements of humanity nor the law. The average number of inmates is 12, kept at a cost of \$2.50 per week each. The poorhouse is located upon a farm of 180 acres in the town of Horseheads, on the line of Erin. The average number of inmates is 70, supported at a cost of \$.80 each per week. The farm yields a revenue of \$1000.⁶ The Chemung Canal extends s. from Seneca Lake through the central valley to Chemung River at Elmira, forming a direct connection with the great chain of internal water navigation of the State. A navigable feeder from Corning, Steuben co., forms a junction with the canal on the summit level at Horseheads Village. Junction Canal extends several mi. along the Chemung, affording navigation at points where the river is obstructed by rapids and narrows. The New York & Erie R. R. extends along Chemung River through Chemung, Southport, Elmira, and Big Flats. The Chemung R. R. extends n. from Elmira through Horseheads and Veteran. The Williamsport & Elmira R. R. extends s. from Elmira through Southport into Penn., forming a direct line to Philadelphia.

One daily and 2 weekly newspapers are published in this co.⁷

¹ Name derived from the principal river, signifies "Big horn," or "Horn in the water." It is called by the Delaware Conongue, a word of the same signification. These names were applied to the stream in consequence of numbers of immense deer's horns having from time to time been discovered in the water. In his "Views of Elmira," Solomon Southwick says that the Indian name of the Chemung was Con-e-wa-wa, signifying "a head on a pole."

² Named from John Sing Sing, a friendly Indian.

³ Named from Wm. Wynkoop, an early settler.

⁴ For many years 10,000,000 ft. of pine lumber were floated down the Chemung and Susquehanna from Elmira annually.

⁵ Upon the erection of Tioga co. Elmira, then "Newtown," was made half-shire; and upon the erection of Chemung co. in 1836 it was designated as the county seat, and the old co. buildings were taken for the use of the new co. The first co. officers were

Joseph L. Darling, *First Judge*; Andrew K. Gregg, *District Attorney*; Isaac Baldwin, *County Clerk*; Albert A. Beckwith, *Sheriff*; and Lyman Covill, *Sheriff*.

⁶ The poorhouse is entirely inadequate for the comfort or health of the inmates. Many insane persons are confined, without proper care or medical attendance. No school is kept, but at proper age the children are bound out.

⁷ *The Telegraph*, the first paper published in the co., was established at "Newtown" (now Elmira,) by Prindle & Murphy at an early period. In 1816 it was issued as *The Yulette* by Prindle & Murphy, and subsequently by Wm. Murphy.

The Investigator was commenced at Elmira, in 1820, by Job Smith. In 1822 its name was changed to

The Tioga Register, and in 1828 to **The Elmira Gazette**, and its publication was continued

In 1779, Gen. Sullivan and his army entered the co. from the s. by the way of Chemung River. Below "Newtown Point" (now Elmira) he encamped and threw up a breastwork, which was afterward called Fort Sullivan. At this point he first encountered the Indians and Tories in force, and on the 29th of Aug. a battle ensued. The Indians were commanded by Braut, and the Tories were led by Cols. Butler and Johnson. After an obstinate engagement of two hours, the enemy gave way at all points and fled, and no more resistance was offered to the advance of the American army. The first settlements were made from 1787 to 1790, by immigrants from Penn., who had accompanied Sullivan in his expedition. They located principally in the valley of the Chemung, at Elmira, Southport, and Big Flats. Soon after, settlements were made at Catlin and Veteran, by immigrants from Conn.; at Erin, by Dutch and Scotch from N. J. and Del.; and at Chemung, by immigrants from Lancaster co., Penn.¹ The portion of the co. lying s. of the Chemung River was included in a royal grant made previous to 1775. The remaining parts of the co. were included in the Watkins and Flint purchase.

BALDWIN²—was formed from Chemung, April 7, 1856. It lies s. e. of the center of the co., and a narrow strip extends to the e. border. Its surface is a hilly upland, broken by the deep valleys of Baldwin and Wynkoop's Creeks. The soil upon the hills is a clayey and shaly loam underlaid by hardpan, and in the valleys a gravelly loam. **Hammond's Corners** (North Chemung p. o.) contains a church, tannery, and 18 houses. Henry Sice made the first settlement, a little n. of the village, in 1813, and Warren and Charles Grainger settled at the village in 1814.³ The only church in town (Union) was formed in 1852, by Dr. Murdock, the first preacher.

BIG FLATS—was formed from Elmira, April 16, 1822. It lies upon the w. border of the co., s. of the center. Its surface consists of a broken upland in the n. and s., separated by a wide interval or flat, which extends n. e. from the Chemung through the center and gives name to the town. Chemung River receives several small tributaries from the n., the principal of which is Sing Sing Creek. The soil is a slaty loam upon the hills, and a productive gravelly loam in the valleys. Tobacco is raised in considerable quantities upon the flats.⁴ **Big Flats**, (p. v.), situated in the valley near the w. border of the town, is a station upon the N. Y. & Erie R. R. Pop. 180. The first settlement was made by Christian Miner, from Penn., in 1787.⁵ The first church (Bap.) was formed in 1807. Rev. Roswell Goff was the first preacher.⁶

CATLIN—was formed from Catharine, Schuyler co., April 16, 1823. It is the n. w. corner town of the co. The surface is a hilly upland, the highest summits being 200 to 400 feet above the valleys. The principal streams are Post and Sing Sing Creeks and Hubbards Run. The soil is chiefly a gravelly loam, and is best adapted to grazing. There is no village or church in town.

by Mr. Smith until 1851. It was successively issued by Brinton Paine, Cyrus Pratt, Pratt & Beard-ley, Mason & Rhodes, Geo. W. Mason, and Wm. G. Mason, until 1857, when it passed into the hands of S. C. Taber, by whom it is still published.

The Elmira Republican was commenced in 1820, and in 1828 it was changed to

The Elmira Whig, and published by James Durham. In 1829 it was changed again to

The Elmira Republican, and issued by C. Morgan. It was soon after called

The Elmira Republican and Canal Advertiser. In 1831 it passed into the hands of John Dully, and its name was changed back to

The Elmira Republican. It was successively issued by Birdsall & Huntley, Ransom & Birdsall, Polly & Carter, Polly & Cook, Polly & Huntley, S. B. & G. C. Fairman, G. C. Fairman, Fairman & Baldwin, Baldwin & Dumas, and — Calhoun, until 1857, when it was discontinued.

The Elmira Daily Republican was issued a short time in 1846. *The Daily Republican* was issued from the Republican office from the fall of 1851 to 1855.

The Elmira Advertiser was commenced in 1853 by Fairman Brothers. In 1856 F. A. De Voe became interested in the publication, and the paper is still issued, by Fairman & De Voe.

The Elmira Daily Advertiser was commenced simultaneously with the weekly, and is still issued, by the same publishers.

The Elmira Daily Democrat was issued a short time in 1851 by J. Taylor & S. C. Taber.

The Chemung Patriot was published in 1837 at Horseheads by J. T. Braut.

The Philosopher was commenced at Horseheads, April 7, 1855, by Sam'l C. Taber, and was continued until 1857, when it was merged in *The Elmira Gazette*.

The Daily Press was commenced in 1859, by Dumas, Van Gelder & Paine, its present publishers.

The Temperance Gem (m. j.) was published at Elmira about 1850.

¹ Louis Philippe, the Duke de Nemours, and the Duke de Berri, visited Elmira in 1797, having traveled on foot to that place from Cananahoga, a distance of 70 mi. They went down the river to Harrisburgh upon an ark.

² Named from Baldwin Creek, which received its name from Isaac, Walter, and Thomas Baldwin, brothers, who settled at an early period at the mouth of the creek. It was formerly called Batters Creek. They were attached to Gen. Sullivan's expedition against the Indians in 1778-79, and Walter was wounded at the battle of Newtown.

³ The first child born was Simon Hammond, and the first death was that of Thos. Wheeler, killed by the fall of a tree. The first school was taught by Polly Blodwin, a little n. of the village. D. R. Harris kept the first inn, and Miles Covel the first store, n. of the village.

⁴ In 1850, Sanford Elmore, from Conn., commenced the cultivation of tobacco in this town, and it has since become a staple product. In 1858 nearly 1000 acres were devoted to it, and 200 tons of the Conn. seed had been produced.

⁵ Caleb Gardner and Henry Starck, from Penn., settled on the river below Miner in the same or the next year. Geo. Gardner settled at the village in 1788, Clark Wiman on the river in 1789, and John Winters, Jesse and Joel Rowley, and Geo. Gardner, jr., all from Penn., in 1790. The first birth was that of Christian Miner, jr., in 1791; the first marriage, that of Wm. Applegate and Catharine Miner; and the first death, that of T. Dolson. Cornelius McGinnis taught the first school, near the village; John Day kept the first store, and Capt. Geo. Gardner the first inn at the village. The first gristmill was erected by Robt. Miller, e. of the village.

⁶ The census reports 4 churches; Bap., F. W. Bap., Presb., and M. E.

Catlin Center and **Post Creek** are p. offices. The first settlers were John Martin, from Tompkins co., and Aaron Davenport, from N. J., who located in the s. w. corner of the town.¹

CHEMUNG—was formed Feb. 28, 1789. Elmira was taken off in 1792, Erin in 1822, and Baldwin in 1856. It is the s. e. corner town of the co. Its surface is a hilly upland broken by deep and narrow valleys. Chemung River flows s. e. through the s. part. Wynkoops Creek flows s. through near the center, in a deep valley bordered by steep hillsides. The soil on the uplands is a gravelly loam, and in the valleys gravel mixed with alluvium. Broomcorn and tobacco are largely cultivated. **Breckville**, (Chemung p. o.), on Chemung River, contains a church and 57 dwellings. It is a station on the N. Y. & Erie R. R. **Chemung Center** and **Baldwin** are p. offices. The first settlement was made at Breckville, in 1788, by Elijah Breck, Capt. Daniel McDowell, and William Wynkoop,—the first two from Penn.² The first church (Bap.) was formed in 1790, by Rev. Roswell Goff.³

ELMIRA—was formed from Chemung, as "*Newtown*," April 10, 1792, and its name was changed April 6, 1808. Catharine, Schuyler co., was taken off in 1798, Big Flats and Southport in 1822, and Harscheads in 1854. It is situated s. of the center of the co. Ranges of hills occupy the e. and w. borders, and a wide valley extends through the center. The declivities of the hills are generally steep, and their summits are 400 to 600 ft. above the valleys. The principal streams are Chemung River, forming the s. boundary, and Newtown and Goldsmiths Creeks. The soil upon the uplands is a gravelly loam, and in the valleys a productive, sandy loam. **Elmira** (p. v.) is situated upon the Chemung, near the center of the s. border of the town. Upon an eminence $2\frac{1}{2}$ mi. e. of Elmira Village is the remains of an ancient fortification. It is protected on one side by the river, and on the other by a deep ravine. An embankment 200 feet long, 14 feet wide, and $3\frac{1}{2}$ feet high still extends along the rear of the fortification, and upon it large trees grew when the whites first occupied the country. It was incorp. as "*Newtown*" March 3, 1815, and its name was changed April 21, 1828. The people are largely engaged in manufacturing⁴ and in commercial pursuits,⁵ for which the location of the place is admirably adapted. Besides the co. buildings, the village contains 3 banks, 1 daily and 2 weekly newspaper offices, 8 churches, and a large number of fine and commodious commercial buildings. It is also the seat of the Elmira Female College,⁶ the Elmira Seminary,⁷ the Elmira Academy,⁸ and a large water-cure establishment.⁹ The public schools are graded and are in a flourishing condition. Pop. 8,308, of which 7,173 are within the limits of the town, and 1,135 in the town of Southport. The first settlement was made by Col. John Hendy and Christian Loop, who located on the present site of the village in 1788.¹⁰ Col. Hendy

¹ Among the other early settlers were N. Swick, Homer Tupper, Edward Beebe, Jacob Bucher, Alanson Owen, John Woolsey, and J. M. Barker, who located in the s. part. Jacob Bucher kept the first inn on Post Creek, and ———— Ostrander erected the first saw and gristmills on the same stream. Reuben Beebe died in the town in 1854, at the age of 195. His widow, Hannah Beebe, was living, 1858, at the age of 195. Mr. Beebe served as a soldier in the Revolutionary army.

² The first marriage was that of Guy Maxwell and Nellie Wynkoop, and the first death, that of Wm. Bosworth. The first inn was kept by Wm. Wynkoop, on Wynkoops Creek, and the first store by Elijah Breck, at Breckville. Epinetus Owen erected the first gristmill, on Wynkoops Creek. Wm. Wynkoop was from Ulster co., and settled at the mouth of the creek bearing his name. Samuel Wallace, the first school teacher, was killed by the Indians.

³ The census reports 4 churches; 2 Union, Bap., and Cong.

⁴ The principal of the manufacturing establishments are as follows:—The Elmira Woolen Manufactory, employing 64 hands, and turning out 230,000 yds. of cloth annually; the Phoenix Furnace Iron Works gives employment to 40 men; the Elmira Ax Factory to 25 men; and a barrel manufactory to 50 men. Besides these, there are several flouring mills, a planing mill, and other establishments.

⁵ An immense lumber trade is still carried on by means of the Chemung River and Canal. The W. & E. R. R. opens a direct communication with the coal mines of Penn., and a large coal-trade is rapidly springing up. The village is also the center of an extensive trade.

⁶ This institution was chartered in 1855, with all the powers and privileges granted to the other colleges in the State. It extends to woman, opportunities for the highest culture. It is beautifully situated upon an eminence a little s. w. of the village. The building is 230 feet long, with an octagonal center 70 feet in diameter and 4 stories high, flanked by 2 wings, each 80 feet by 50 feet, and 3 stories high, all erected at a cost of \$80,000. The catalogue of 1858 reports 188 pupils in attendance.

⁷ The Elmira Seminary for young ladies, a private institution, has been in successful operation for 11 years, under the management of Miss C. Thurston. The catalogue of 1857 reports 205 pupils.

⁸ The Elmira Academy, once incorp., is now a private institution. It has an endowment of \$10,000. New buildings for the school are in process of erection. In 1858, 262 pupils were reported.

⁹ The Elmira Water-Cure is situated on the hill 1 mi. e. of the village, commanding an extensive view of the valley and surrounding country. It contains accommodations for 110 patients.

¹⁰ Among the early settlers were John Konkle, James Cameron, Wm. Seely, Nathaniel Seely, John Muller, Caleb Baker, ———— Marks, Thomas Hendy, and John J. AcMody. Cornelius Low kept the first inn, in 1791, at *Newtown Point*, and Cyrus Hallenbeck the first store, at about the same time and place. The first gristmill was built by Wm. Dunn and Brinton Parns, at the village in 1791, and the first sawmill, wool carding and cloth dressing mill by Gen. Matthew Carpenter, on the site of the present woolen factory. The following account of the first birth in town was given in the N. Y. Commercial Advertiser:—"One Saturday afternoon, about 4 o'clock, in the summer of 1788, while Col. John Hendy was working on his log house, a man and woman, both on horseback, emerged from the Indian pathway and crossed the Newtown Creek to his land. The man rode before, with a basket on each side of his horse, and a child in each basket, while the woman brought up the rear, having on her nag the goods and chattels of the family; for they were man and wife. The husband rode up to Col. H., inquiring with much anxiety if there was a doctor to be found in the vicinity. 'What is the matter?' said the veteran. 'My wife has got hurt by the stumbling of her horse, and wants a doctor as soon as possible,' was the reply. 'That is very unfortunate,' said the Col., 'for there is no doctor in this wilderness.' He had no shelter nor resting place to offer them, save the ground, the pine trees, and the canopy of heaven. They rode on a few rods, and stopped—for they were obliged to stop—under the best shelter they could find. On Sunday morning Col. Hendy met the man in the woods, near the spot where they had crossed before, and, inquiring how his wife was, was answered, 'She is as well as could be expected.' The Col. did not think again of the traveler till Monday, when he sent his son to look after them. The boy returned with the intelligence that they were getting ready to start. 'But how is the woman, my boy?' said he. 'The

was the pioneer in the valley of the Chemung, and one of the most prominent of the early settlers. The first preacher (Presb.) was Rev. Nathan Culver.¹

ERIN—was formed from Chemung, March 29, 1822. A part of Van Etten was taken off in 1854. It extends from near the center of the co. to the n. border. Its surface is a hilly upland broken by the deep and narrow valleys of the streams. The principal streams are Wynkoops, Bakers, Baldwins, and Newtown Creeks. Upon Bakers Creek, in the s. part of the town, is a fine sulphur spring. The soil is a medium quality of gravelly loam, and is best adapted to grazing. Considerable lumber is still manufactured, little more than one-third of the surface being under improvement. **Erin, South Erin, and State Road** are p. offices. The first settlement was made in 1817, by Robert Park and John Bonfield.² There are 2 churches in town; Presb. and M. E.

HORSEHEADS³—was formed from Elmira, Feb. 17, 1854. It is an interior town, lying near the center of the co. The surface is rolling and level in the w. and hilly in the e. The summit level of the Chemung Canal at Horseheads Village is 443 ft. above Seneca Lake, and the summits of the hills are 200 to 400 feet higher. Its principal streams are Newtown Creek and its branches. The soil is generally a good quality of gravelly loam. Considerable attention is paid to raising tobacco, and, in 1857, 1000 acres were devoted to this crop. **Horseheads** (p. v.) was incorp. May 15, 1837, as "*Fairport*," and its name was changed April 18, 1845. It contains 2 steam flouring mills, a plaster mill, a gang sawmill, and 3 churches. Pop. 1000. The Chemung navigable feeder from Corning intersects the canal at this place. **Breesport** (p. v.) contains 2 churches and 18 dwellings. The first settlement was made at Horseheads in 1788, by Nathan Huntington.⁴ The first church (Presb.) was formed by Rev. Daniel Thatcher; the first settled minister was Rev. Ethan Pratt.⁵

SOUTHPORT—was formed from Elmira, April 16, 1822. It is the s. w. corner town of the co. Its surface is mostly a hilly upland broken by the deep valleys of the streams. Chemung River, forming most of the n. boundary, is bordered by wide, fertile alluvial flats. Seely Creek, the principal stream, receives as tributaries South, Bird, and Mud Lick Creeks; Hendy Creek flows along the n. border. The soil upon the hills is a slaty loam, and in the valleys a fine quality of gravelly loam. **Wellsburgh**, (p. v.) on the Chemung, in the s. e. corner of the town, contains 2 churches and several mills and manufacturing establishments. It is a station on the N. Y. & E. R. R. Pop. 365. **Southport** (p. v.) contains 2 churches, 2 mills, a woolen factory, and 44 houses. **Webbs Mills** (p. o.) is a hamlet, and **Seely Creek** is a p. o. The 3d ward of **Elmira**, containing a pop. of 1135, is on the s. bank of the Chemung in this town. The first settlement at Wellsburgh was made by Green Bentley in 1788 and Abner and Henry Wells in 1789. Abraham Miller located at Southport in 1789.⁶ The first church (Bap.) was formed at Wellsburgh, in 1790; Rev. Roswell Goff was the first preacher.⁷ On an eminence known as Fort Hill, near the Chemung, in the w. part, are the remains of an ancient fortification, supposed to have been French.

VAN ETTEN—named from James B. Van Etten—was formed from Erin and Cayuta, April 17, 1854. It is the n. e. corner town of the co. Its surface is a hilly upland. Cayuta Creek flows

woman, eh? oh, the woman has got a baby; and I guess she wants another basket to put it in." The child whose birth is told above was Clark Winans, jr. The place was surveyed, in 1788, by Jas. Clinton, Gen. John Hathorn, and John Cantine Conis; and the first lands were sold at 18 pence per acre. In 1790, a council with the Indians was held under a tree on Lake St., just e. of the present site of the courthouse. About 1200 Indians were present. Nathaniel Seely, the first patentee, of Elmira Village, sold to Moses De Witt, who sold to — White; and in 1794 White sold to Guy Maxwell and Saml. Hopburn.

¹ The census reports 8 churches; 2 M. E., Bap., Cong., Presb., Af. M. E., Prot. E., and R. C.

² Among the other early settlers were Jesse L. White, Isaac Shoemaker, Alexander and John McKay, Thomas Baker, Wm. and Robert Stewart, John and James Hallenbeck, B. Sperry, Thomas Van Houton, Philip Thomas, J. Boyr, Robert McDowell and his son Barnum, and Andrew Austin, Joseph, Daniel, and Samuel Vaughn. The first death was that of Mrs. Thomas Baker. The first school was kept on Newtown Creek, and the first sawmill was erected at the same place by J. and J. McMillen.

³ This name was derived from the following incident. While Gen. Sullivan's army was encamped at this place, some 30 or 40 worn-out horses were shot. The Indians afterward gathered the heads and arranged them on the sides of the path, and the locality became known as the Horseheads.

⁴ John Brees (from N. J.) settled at the same place in 1789, and Jonathan S. Concklin, Nathaniel Huntington, Asa Guilder-sleve, and a family named Gilbert, in 1791. Soon after, a company from Orange co., among whom were James, Ebenezer, and John Sayre, purchased a tract of 1400 acres, covering the site of the village, and settled on it. The first child born was Susanna Concklin, in 1792; the first marriage, that of Wm. Dunn and Mary Sayre; and the first death, that of Susanna Concklin. Amelia Parkhurst taught the first school at the village. Vincent Concklin kept the first inn, in 1822, and Westlick & Dunn the first store. The first gristmill was erected by Lewis Brees, e. of the village.

⁵ The census reports 5 churches; 2 M. E., 2 Bap., and 1 Presb.

⁶ Col. Abraham Miller was from Penn. He served with distinction as a captain in the army of the Revolution, and was appointed *First Judge* of Tioga co. by Gov. Geo. Clinton, in 1791. The first birth was that of Eunice Kelsey, and the first death, that of Stephen Kent. The first school was taught by Caleb Baker; the first inn was kept by Wm. Baldwin, and the first store by Wm. and Henry Wells, on the river at Wellsburgh. The first sawmill was erected by Col. Abraham Miller, on a branch of Seely Creek; the first gristmills were erected by David Griswold and Solomon Bowler, and the first factory by Charles Evans, at Southport.

⁷ The census reports 5 churches; 2 Bap., 2 M. E., and Presb.

s. e. through near the center, and receives as tributaries Jackson and Langfords Creeks from the n. and Baker Creek from the s. The soil on the hills is a clay loam, and in the valleys a gravelly loam. **Van Ettenville** (p. v.) contains 3 churches and 20 dwellings; **Cayuta** is a p. o. The first settlements¹ were made along the valley of Cayuta Creek in 1795, by Alexander and Benjamin Ennis, Peter, Jacob, Emanuel, and Isaac Swartwood, from N. J. The first church (Bap.) was formed by Rev. Ebenezer Jayne, the first settled preacher.²

VETERAN—was formed from Catharine, April 16, 1823. It lies on the n. line of the co., w. of the center. The surface is principally a hilly upland. Catharine Creek flows n. along the w. border, affording an abundance of waterpower.³ The other streams are Newtown and Beardsley Creeks. The soil is a clay and gravelly loam of good quality. **Millport** (p. v.) contains 2 churches, flouring and saw mills, and various manufacturing establishments. Pop. 706. **Sullivanville**, (p. v.) in the s. part of the town, contains a church and 155 inhabitants. **Veteran and Pine Valley** are p. offices. The first settlements were made at about the commencement of the century,—in the n. part of the town by immigrants from Conn., and in the s. part by immigrants from Penn.⁴ The first church (M. E.) was formed in 1817.⁵

* Formed since 1855.

¹ James Van Etten, John and David Hill, Isaac and Levi Decker, Sam'l James, Daniel, and Joshua Westbrook, John Lattimore, — Johnson, and — Cramer, all from Delaware River, settled on the Cayuta Flats, at and near Van Ettenville, from 1795 to 1800. Harmon White, (from Litchfield, Conn.) David Jayne and Gabriel Ogden, (from N. J.), settled, in 1802, on a branch of Cayuta Creek. Most of these persons served as soldiers during the Revolution. James Van Etten and Isaac Decker were wounded by musket balls, which they carried to their graves. Flunders & Skatts kept the first store, at Van Ettenville; Isaac Swartwood erected the first gristmill, in 1803; Jacob Swartwood opened the first inn, in 1801. His old sign (still hanging) reads as follows:—

"You jolly toppers, as you pass by,
Call in and drink: for I know you are dry!
And if you have but half a crown,
You are welcome to my jug, sit down!"

Entertainment
by
J. SWARTWOOD,³

² The census reports 3 churches; Bap., F. W. Bap., and M. E.

³ In the summer of 1857 a sudden and destructive flood occurred upon this stream, which swept away every dam on it, and every lock on the canal from Horseheads to Seneca Lake. The whole valley was flooded; and at Millport and other places the people were obliged to flee for their lives.

⁴ Among the early settlers were E. Mallary and son, Eli and David Banks, and families named Mecker, Baldwin, and Parsons, from Conn.; Theodore Valteau, D. Shaffer, N. Botsford, and B. Lockesby, from Penn. Daniel Parsons kept the first inn, on the middle road, and E. Craudell the first store, at Millport. The first sawmill was erected by G. Bennett, on Catharine Creek, below Millport.

⁵ The census reports 3 churches; 2 M. E. and Presb.

CHENANGO COUNTY.

This county was formed from Herkimer and Tioga, March 15, 1798. Sangerfield (Oneida co.) was taken off in 1804, and Madison co. in 1806. It is an interior co., lying s. e. of the center of the State; is centrally distant 94 mi. from Albany, and contains 898 sq. mi. Its surface is a hilly upland, broken by the deep ravines of the streams. The highlands consist of two principal ridges, extending n. and s.—the first lying between Unadilla and Chenango Rivers, and the second between the Chenango and Otselic. These ridges are subdivided by numerous parallel and lateral valleys, and their declivities are often too steep for profitable cultivation. The summits are broad and rolling, and of nearly uniform elevation throughout the co.: and the highest points are 600 to 800 feet above the principal valleys.

Susquehanna River flows s. w. through the s. e. corner, receiving from the n. the Unadilla, which forms the greater part of the e. boundary of the co. The principal branches of the Unadilla and Susquehanna are Beaver Creek, Shawler, Great, Kent, and Kelsey Brooks. Chenango River flows in a generally southerly direction from the n. border of the co. to near the center, and thence s. w. to the s. w. corner. It receives from the e. Handsome Eddy, Padgets, and Pages Brooks, and from the w. Canasawacta, Fly-Meadow, Ludlow, and Genegantslet Creeks, and Pleasant, Fly, Cold, and Mill Brooks. Otselic River flows s. w. through the n. w. corner, receiving from the e. Middletown Brook and Brackel Creek, and from the w. Manns, Buck, and Ashbel Brooks and Mud Creek. In basins among the hills, far above the valleys, are numerous small ponds. The valleys of the Susquehanna and Chenango are among the finest in the State. They consist generally of a fertile and highly cultivated interval of an average width of about 1 mi., usually bordered by steep and finely wooded hillsides. All the valleys of the co. seem to have been formed by the action of great currents of water, which have plowed deep furrows in the gently rolling region which probably once formed the general face of the country.

The lowest rocks in the co., appearing upon the n. border, belong to the Hamilton group. Successively above these toward the s. appear the Tully limestone, Genesee slate, the Portage, Chemung, and Catskill groups. The sandstone of the Portage group furnishes a good material for building and flagging. Several quarries have been opened along the Chenango Valley between Greene and Oxford. A quarry of the same stone a little below Oxford furnishes grindstones and whetstones. The rock which crowns the summits of the s. hills is the red sandstone of the Chemung group. The soils are almost entirely derived from the disintegration of the rocks. In a few localities is found a very limited amount of drift. Upon the hills the soil is principally a shaly loam, and in the valleys a fine quality of productive alluvium.

The co. is almost exclusively agricultural. Dairying is the leading pursuit, and is gradually gaining upon all the other branches of agriculture. Stock and wool growing are carried on to some extent. Grain is produced, though not in sufficient quantities for the wants of the people. Hops are cultivated to some extent along the river valleys.

The co. seat is located at Norwich.¹ The courthouse is a fine stone building, situated near the center of the village, fronting the public park.² It is built in the Grecian style of architecture, with a colonnade in front, supported by Corinthian columns. The jail is a stone building, contiguous to the courthouse. The clerk's office is a fireproof brick building, upon the courthouse lot. The poorhouse is situated upon a farm of 170 acres in Preston, 6 mi. w. of the courthouse. The average number of inmates is 90, supported at a weekly cost of 56 cts. each. The farm yields a revenue of \$800. The house is poor and dilapidated, and the accommodations for the inmates are extremely poor. A school is taught 6 months in the year.

¹ The co. at first had half-shires, the courts being held alternately at Hamilton (now in Madison county) and Oxford. From the organization of Madison co. in 1806, until 1809, the courts were held alternately at Oxford and North Norwich. By act of March 6, 1807, the co. seat was located at Norwich. The new courthouse was built and first occupied in 1809. The first courthouse was a wooden building, erected at a cost of \$6,500. The present courthouse was built in 1837, at a cost of \$16,000,

under the direction of Wm. Randall, Wm. Knowlton, and Erasmus Lathrop, commissioners. The present jail was erected in 1830, at a cost of \$2,000. It is a two story building, containing 10 cells and a house for the jailer.

² The first co. officers were Isaac Foot, *First Judge*; Jobb Enos, and Joshua Leland, *Judges*; Oliver Norton and Elisha Payne, *Assistant Justices*; Uri Tracy, *Sheriff*; Sidney S. Bresse, *Clerk*; and John L. Mercereau, *Sarrogate*.

The Chenango Canal extends along Chenango River through the co. It crosses the river below Arville, below Sherburne, and below Greene, upon wood aqueducts, supported by stone piers. The Albany & Susquehanna R. R., now in process of construction, extends along the Susquehanna through Bainbridge.

Five weekly newspapers are now published in the co.¹

This co. included 11 of the "Twenty Towns" or "Governor's Purchase," the "Gore" lying between them and the Military Tract, the Harper Patent of 16,000 acres, Vermont Sufferers' Tract of 40,960 acres,² Livingston Tract of 16,000 acres, the French Tract of nearly the same extent, a portion of the Chenango Triangle Tract, and several smaller tracts. The territory included within the Twenty Townships was ceded to the State by the Indians, in a treaty held with Gov. George Clinton, at Fort Schuyler, Sept. 22, 1788.³ This tract is sometimes called "Clinton's Purchase," and sometimes "The Governor's Purchase."

The early settlers were principally from Vt., Conn., and the eastern part of the State. The settlers in the n. part of the co. came in by way of Rome, and those in the central and s. parts by way of Chenango and Susquehanna Rivers. Many of the early settlers almost perished from want of food, at times, during the first few years. A colony of French settled at Greene in 1792, but,

¹ *The Western Oracle*, the first paper published in the co., was commenced by A. Romeyn, previous to 1804, at Sherburne Four Corners. It was discontinued in 1808 or '09.

² *The Oliver Branch* was started at Sherburne in May, 1806, by Minney & Fairchild. In 1808 John F. Fairchild became sole proprietor. — Miller, Lot Clark, and John B. Johnson were successively interested in its publication. In 1812 or '13 Johnson changed its name to

³ *The Volunteer*. In 1816 the press was purchased by John F. Hubbard, who commenced

⁴ *The Norwich Journal*. In 1844 it passed into the hands of La Fayette Leal and J. H. Sinclair, who merged it with *The Oxford Republican* in 1847 and changed the name to

⁵ *The Chenango Union*. Harvey Hubbard purchased Leal's interest Oct. 20, 1847, and the paper is now published by Hubbard & Sinclair.

⁶ *The Chenango Patriot* was commenced at Oxford in 1807 by John B. Johnson, and its publication continued for 3 or 4 yrs. *The President* was published at Oxford in 1808 by Theophilus Eaton.

⁷ *The Republican Messenger* was commenced at Sherburne in 1810 by Petit & Prevail.

⁸ *The Oxford Gazette* was started in 1814 by Channey Morgan, who published it some years, when it was sold to Geo. Hunt, and afterward to Hunt & Noyes. Mr. Morgan again became proprietor in 1826, and after a few years the paper was discontinued.

⁹ *The Republican Agriculturalist* was commenced Dec. 10, 1818, by Thurlow Wood. It soon passed into the hands of ——— Curteis, who continued it for a short time, when it was discontinued.

¹⁰ *The People's Advocate* was commenced at Norwich in 1824 by H. F. W. Brainard. It passed into the hands of Wm. G. Flyer, and was discontinued in a short time.

¹¹ *The Chenango Republican* was commenced at Oxford in 1826 by Benj. Cory. In 1828 it was purchased by Mack & Chapman. March 3, 1831, Wm. E. Chapman and P. T. Flegler commenced a new series, and soon after changed its name to

¹² *The Oxford Republican*. In 1838 Mr. Chapman became sole proprietor. It was successively published by J. Taylor Brant, Lechj. Welch, jr., R. A. Leal, C. E. Chamberlin, and La Fayette Leal. In 1847 it was merged with *The Oxford Journal* and published as *The Chenango Union*.

¹³ *The Anti Masonic Telegraph* was commenced at Norwich in Nov. 1829, by E. P. Pellet. In 1831 B. T. Cook became associated in its publication. Its name was subsequently changed to

¹⁴ *The Chenango Telegraph*. In 1840, on the death of E. P. Pellet, it passed into the hands of his brother, Nelson Pellet, and upon his death, in 1851, it was conducted for the estate by L. Max Leal and E. P. Fisher. In Sept. 1855, it was purchased by Rice & Martin, by whom it is now published.

¹⁵ *The Chenango Patriot* was commenced at Greene in 1830 by Nathan Bandull. It afterward passed into the hands of Joseph M. Farr, who changed its name to

¹⁶ *The Chenango Democrat*, and in a short time it was discontinued. *The New Berlin Herald* was commenced in 1831 by Samuel L. Hatch. In 1834 it was published by Bandull & Hatch. It soon after passed into the hands of Isaac C. Sheldon; and afterward into the hands of Hiram Ostrander, who changed its name to

¹⁷ *The New Berlin Sentinel*. It was discontinued about 1840. *The Chenango Whig* was published at Oxford a short time in 1855.

¹⁸ *The Miniature*, a small no., was issued from the same office. *The Sherburne* ——— was commenced in 1836 by J. Worden Marble. In 1839 it was removed to Binghamton.

¹⁹ *The Oxford Times* was commenced in 1836 by a joint stock company. It was for some time conducted by H. H. Cook. In 1841 it passed into the hands of E. H. Purdy and C. D. Brigham. In 1844 it was published by Waldo M. Potter; in 1845, by Potter & Galpin; and in 1848 J. B. Galpin became sole proprietor, and still continues its publication.

²⁰ *The Bainbridge Eagle* was commenced in 1843 by J. H. Hunt, jr. In 1846 its name was changed to

²¹ *The Bainbridge Freeman*; and in 1849 it was merged in *The Chenango Free Democrat*, commenced at Norwich Jan. 1, 1849, by Alfred G. Lawyer; and J. D. Lawyer soon after became associated in its publication. It was then early removed to Cobleskill, Schoharie co.

²² *The New Berlin Gazette* was commenced in 1849 by Jos. K. Fox and M. E. Dunham, and was published about 1 year.

²³ *The Chenango News* was commenced in 1850 by A. T. Boynton, J. M. Haight soon after became associated in its publication, and subsequently became sole proprietor. He removed the press to Norwich, and, in connection with A. P. Nixon, commenced the publication of

²⁴ *The Temperance Advocate* in 1855, and published it 1 year, when it was discontinued.

²⁵ *The Saturday Visitor* was commenced in 1852 by Joseph K. Fox. Its name was soon after changed to

²⁶ *The Social Visitor*, after which it was published about 5 years. *The Spirit of the Age* was commenced at Berlin in 1852 by J. K. Fox, J. D. Lawyer, editor. It was continued but a short time.

²⁷ *The Oxford Transcript* was commenced in 1853 by G. N. Carhart, and was published about 6 months.

²⁸ *The Sherburne Transcript* was commenced in 1855 by James M. Scurritt, and was published about 2 years.

²⁹ *The Chenango American* was commenced at Greene, Sept. 20, 1855, by Denison & Fisher, its present publishers.

³⁰ *The Daily Reporter* was commenced at Norwich in 1857 by J. H. Smith. In 1858 it was purchased, by Rice & Martin, and was soon after discontinued.

³¹ *The Literary Independent* was commenced at Norwich in the fall of 1858 by a company of young gentlemen connected with the academy. It was published about 4 months.

³² *The New Berlin Pioneer* was commenced Feb. 19, 1859, by Squires & Fox, its present publishers.

³³ This tract was granted to relieve those persons who had purchased lands of the State of N. Y. within the present limits of Vt. Those lands were claimed by both N. H. and N. Y., and, after an angry and protracted controversy, extending through several years, New York surrendered her claim to Vermont.

³⁴ These towns were designated originally by their numbers only, and are now in the counties of Madison, Chenango, and Oneida, as follows:—

Nos.	Present Towns.	Nos.	Present Towns.
1	Nelson, Madison co.	11	Plymouth, Chenango co.
2	Faton, "	12	Pharsada, "
3	Madison, "	13	McDonough, "
4	Hamilton, "	14	Preston, "
5	Lelanon, "	15	Norwich, "
6	Georgetown, "	16	New Berlin, "
7	Otselic, Chenango co.	17	Columbus, "
8	Smyrna, "	18	Brookfield, "
9	Sherburne, "	19	Sangerfield and } Bridgewater, } Oneida co.
10	Norwich and } New Berlin, }	20	

from defect in title, most of them left. The greater part of the later immigration was also from New England. In consequence of the gradual change which has been going on for the last 20 years in the business of the co., and the substitution of dairying for all other branches of farming, the population of the co. has gradually decreased, and is now no greater than it was 40 years ago.

AFTON—was formed from Bainbridge, Nov. 18, 1857. It is the s. e. corner town of the co. Its surface consists principally of a rolling upland, separated into two nearly equal parts by the broad valley of the Susquehanna. The summits of the hills are 300 to 500 feet above the valleys, and their declivities are generally gradual slopes. The Susquehanna flows s. w. through near the center, in a broad and beautiful valley. It receives from the n. Kelseys and Harpers Brooks, Round Pond, one mi. n. e. of the village, covers an area of about 40 acres. It is 25 feet above the surface of the river, and without any visible outlet. The soil upon the hills is a shaly loam, and in the valleys a clayey loam and alluvium. **Afton**, (p. v.) upon the Susquehanna, near the center of the town, contains 4 churches and 270 inhabitants. **Ayreshire**, (p. o.) upon Kelsey Brook, in the n. part, is a hamlet. The first settlement was made upon the Susquehanna, below Afton, in 1786, by immigrants from Conn. and Vt.¹ There are 5 churches in town.²

BAINBRIDGE—was formed as part of Tioga co., by the name of "*Jericho*," Feb. 16, 1791. Its name was changed April 15, 1814. Parts of Norwich and Oxford were taken off in 1793, of Greene in 1798 and '99, and Afton in 1857. It lies upon the e. border of the co., s. of the center. Its surface is a rolling upland, divided into two parts by the Susquehanna, which flows s. w. through the center. The valley of the river is about one mi. wide, and is bordered by moderately steep hillsides. The highest summits are 400 to 600 feet above the valleys. The soil upon the hills is a gravelly and shaly loam, and in the valleys a clay loam and alluvium. **Bainbridge**, (p. v.) upon the Susquehanna, was incorp. April 21, 1829. It contains 3 churches and 350 inhabitants. **Bennettsville**, (p. v.) upon Bennetts Creek, in the s. e. part, contains 2 churches, a gristmill, sawmill, and about 20 houses. **West Bainbridge** is a p. o. in the n. w. corner, and **East Bainbridge** is a hamlet in the n. e. corner. The lands in this town were first claimed by Robert Harper under a grant from the Indians; but the title was repudiated by the State, and a portion of the lands was granted to settlers from Vt. who had suffered from failure of title to lands in that State granted to them by N. Y. The first settlements were made in 1785, by immigrants from Vt. and Conn.³ The first church (Presb.) was formed about 1790, by Rev. William Stone.⁴

COLUMBUS—was formed from Brookfield, (Madison co.) Feb. 11, 1805. A part of Norwich was annexed in 1807. It is the n. e. corner town in the co., and occupies a portion of the high ridge between Unadilla and Chenango Rivers. The highest summits are 400 to 600 feet above the valleys. Unadilla River forms its e. boundary, receiving as tributaries Beaver Creek, Shawler Brook, and several other small streams. The soil is a gravelly and shaly loam.⁵ **Columbus Center**, (Columbus p. o.) upon a branch of Shawler Brook, contains 3 churches, a tannery, and 25 houses. The first settlement was made upon Lot 44, in 1791, by Col. Converse.⁶ The first religious meeting was the funeral of Mrs. Dorcas Howard, conducted by Elder Campbell, (Bap.) in 1797.⁷

COVENTRY—was formed from Greene, Feb. 7, 1806. Parts of Oxford and Greene were annexed in 1813. It is situated centrally on the s. line of the co. The highest elevations, midway between the Susquehanna and Chenango Rivers, are about 800 feet above the valleys. The hills are arable to their summits, and their slopes are generally long and gradual. Harpers and Kelseys Creeks, flowing into the Susquehanna, are the principal streams. The soil is a gravelly and sandy

¹ Among the early settlers were Seth Stone, Nath'l Benton, Isaac Miner, and Japhet Bush and sons, from Conn., and Hezekiah Stowell and sons, Orlando Bridgman and sons, and Ebenezer Church and sons, from Vt. The three last named families were "Agricultural Settlers." The first child born was Wm. Bush, in 1786; and the first death was that of — Polly, Nath'l Church taught the first school, in 1799; Asa Stowell kept the first inn, in 1788; Peter Betts the first store, in 1806; and David Casper and Isaac Miner built the first sawmill, on Kelseys Brook.

² Two M. E., Cong., Bap., and Univ.

³ Among the early settlers were Wm. Guthrie, Abraham Fuller, Reuben Kirby, and Gould Bacon, from Conn.; Stephen and John Stiles, Deaith Kelsey, Chas. Bush, Eben and Jos. Landers, and Jas. Graham. Sam'l Bixby settled on Lot 75, in 1788, and Maj. Henry Evans on Lot 80, in 1789. The first birth was that of K. Landers, daughter of Jos. Landers, in March, 1791; the first marriage, that of Charles Bush and Jean Harrington, in 1794; and the first death, that of Mrs. Reuben Kirby, in 1792. Wilam Guthrie kept the first inn, in 1793, on Lot 85. Phineas

and Reuben Bennett created a gristmill on Bennetts Creek, in 1789.

⁴ There are 7 churches in town: 2 M. E., 2 Bap., F. W. Bap., Presb., and Prot. E.

⁵ The people are almost solely engaged in dairying. For 50 years the population has been continually decreasing and the dairies increasing.

⁶ Among the other early settlers were Henry, Daniel, and Jos. Williams, from R. I., who located upon Lot 99, in 1792; Thos. Howard, from R. I., on Lot 89; Israel Greenleaf, from N. H., on Lot 92; Gilbert Strong, on Lot 61, and Josiah Rathbone, on Lot 54, in 1794. The first child born was Sally Williams, (the first marriage, that of Joseph Moulery and Hannah Brown, in 1794; and the first death, that of Mrs. Dorcas Howard, in 1797. Nicholas Duce taught the first school; Col. Converse kept the first inn, in 1796; Amos C. Palmer, the first store, in 1797; and Job Van built the first sawmill, in 1794, and the first gristmill, in 1795.

⁷ The census reports 5 churches in town; Bap., F. W. Bap., Cong., M. E., and Union.

loam, with occasional spots of a red, slaty loam, better adapted to grazing than tillage. **Coventry**, (p. v.) a little s. w. of the center, contains 2 churches and 40 dwellings; and **Coventryville**, (p. v.) 2 mi. E. of Coventry, a church, mill, and 25 dwellings. **Church Hollow** is a p. o. on the s. line. The first settlement was made near the center, by Simon Jones, in 1785.¹ The first church (Cong.) was formed Nov. 19, 1807. Rev. David Harmon was the first preacher.²

GERMAN³—was formed from De Ruyter, (Madison co.) March 21, 1806. Otselic was taken off in 1817, Lincklaen in 1823, and a part of Pitcher in 1827. It is located centrally upon the w. line of the co. The surface is hilly, and watered by several brooks, forming what is called Five Streams, which flow through the town in a s. direction. The soil is a sandy and gravelly loam, well adapted to grazing. **Livermores Corners**, (German p. o.,) near the w. line, is a hamlet; and **East German** is a p. o. The first settlement was made in 1795, by Benjamin Cleveland, from Oneida co.⁴ The first church (Presb.) was formed at an early period, and a M. E. association was formed in 1815, at the house of Walter Oyshlenbank.⁵

GREENE⁶—was formed from Union (Broome co.) and "*Jericho*," (now Bainbridge,) March 15, 1798. A part of "*Jericho*" was annexed in 1799. Coventry was taken off in 1806, and Smithville in 1808. A part of Barker (Broome co.) was taken off in 1840, and a part of Coventry in 1843. It is the s. w. corner town of the co. Its surface is a rolling and hilly upland. The hills rise 500 to 700 feet above the river, and are broken by the ravines of the streams. Chenango River flows s. w. through the center of the town, in a broad valley about 1 mile in width. The Chenango Canal passes through the valley. Genegantslet Creek flows s. through the w. part in a wide valley, and joins the Chenango a few miles below the village of Greene. Pages Brook flows through the s. e. corner; and several small streams are tributary to the Chenango. The soil is a gravelly and shaly loam on the hills, and alluvium in the valleys. **Greene**, (p. v.) near the center, was incorp. April 12, 1842. It contains 4 churches, a flouring mill, furnace, and 811 inhabitants. **East Greene** (p. v.) contains a church and 158 inhabitants. **Genegantslet** (p. v.) contains 1 church and 12 houses. **Chenango Forks** (p. v.) is partly in this town. S. Ketchum settled in 1792.⁷ The first church (Bap.) was organized in 1795,⁸ by Elder Nath. Kellogg,

¹ — Goodell and — Clark settled near Mr. Jones in 1780, and Benj. Jones at the same place in 1788. Ozias Yale and Wm. Starks located a little s. of Coventry in 1792, Elijah Warren on Lot 2, in 1804, and Moses Allis, Roger Egerton, and Z. Hutchinson soon after. The first birth was that of Wm. son of Moses Allis, in 1794; the first marriage, that of Simeon Parker and Polly Sprague; and the first death, that of a son of Roger Egerton, in 1796. Sherman Page taught the first school; Benj. Jones kept the first inn, in 1788, and Jotham Parker the first store, in 1799. The first gristmill was erected by Capt. Parker, in 1793, and the first carding and cloth dressing mill by A. and Wm. H. Rogers, about the same time.

² The census reports 3 churches: 2 Cong., 2 M. E., and Bap.

³ Named from Gen. Obadiah German, the original owner of the township. It was first named "*Rebels Township*."

⁴ Abraham Livermore settled at Livermores Corners, in 1796, with his wife and children, Abraham, jr., Becka, Daniel, Polly, Abel, Cyrus, Hepsy, Sally, and Martin Livermore. From their isolated position in the wild woods—remote from any settlement—the Cleveland and Livermore families suffered great privations and hardships during the first years of their settlement. In June, 1796, Mr. Cleveland set out for "*Fort Stanwix*" for provisions, his family being entirely destitute. He intended to return in 3 or 4 days, but was detained for some time. On the fourth day of his absence, his wife and children, who had eaten nothing for 3 days except a few roots found in the woods, set out for their nearest neighbors, in Cincinnati, on Otsego River, 4 mi. distant. When about a mile from home, they encountered a bear, and were frightened back. The next morning the mother was too weak to walk, and the two oldest children again set out for Mr. Raymond's, on the Otsego. Upon learning the suffering condition of the family, Mrs. Raymond made them a pudding of bran—the only food she had in the house. This and a bottle of milk kept the family from starvation until relief came. At another time, when the family were reduced to the last extremity, two un milked cows came to their house one night, and went away in the morning, furnishing them with milk for several days. It was never known where the cows came from or where they went to. Other families in the vicinity suffered in a similar manner. The first birth was that of Polly Cleveland, in 1796; the first marriage, that of Jonathan Head and Hepsy Livermore; and the first death, that of — Hartshorn. Abraham Livermore kept the first inn; Jonathan Chandler kept the first store, and erected the first mill and factory, on the E. branch of Otsego River.

⁵ The census reports 3 churches: Presb., M. E., and F. W. Bap.

⁶ Named in honor of Gen. Nathl. Greene. That part of the original township of Greene lying E. of Chenango River was included in a purchase made by the State from the Oneida and Tus-

carora Indians in 1785. These lands were subsequently sold by the State to individual patentees.

⁷ Mr. Ketchum located within the bounds of the present village of Greene. In the fall of 1792 a settlement was made by a company of French refugees. One of their number, Chas. Felix De Bologne, had preceded the main body, and made a purchase of 15,000 acres lying on the E. side of Chenango River. The first party that came consisted of M. Bologne, M. Shamont, M. Le Foyre, M. Bravo, M. Du Vermet, and M. Oble. A portion of them had families; and several young ladies were among the party. In Otsego co. Simon Barne joined the party, and subsequently M. Dutremont, with his family, settled with them. Before the dispersion of the colony they were joined by Jos. Juland, who was the only French emigrant that became a permanent resident. M. Bologne, on his way to Philadelphia in the spring of 1795, was drowned while fording a creek much swollen by the floods. The untimely death of the leader of this adventurous band proved fatal to the future success of the settlement. The failure of the company to pay the balance of the purchase money due on the tract caused the title to revert to the original patentees. After all the hardships and privations they had endured, the failure to secure a title to their land proved a signal for dispersion. The majority of them left in the year 1796. In 1794, Talleyrand, the celebrated French diplomatist, visited his fellow-countrymen in Greene. Among the early permanent settlers were Nathl. Kellogg, Zopher Betts, Benjamin Loomis, Cornelius Hill, and David Trounau, who located at East Greene in 1793. The first road that was cut through the town was called "*The Chenango Road*." It runs from the present village of Bainbridge to the mouth of Page Creek, on the Chenango,—a distance of about 25 mi. The first settlers upon this road within the then limits of the town, commencing at the w. w. were Nathan Bennett, Joshua Root, Eleazer Skinner, Thomas Elliott, Jobb Elliott, Roswell Fitch, Aden Elliott, Philo Clements, Capt. Mandeville, Simon and Benj. Jones, Hardin Bennett, Record Wilber, and Deacon Richards, who came in from 1792 to 95. The settlers who located in the s. part w. of the river, were Jas. and Herman Taylor, Elisha and Noah Gilbert, Stephen Palmer, and Jos. and Cornish Messenger, as early as 1796. The first birth was that of Johnston Rundall, son of Jos. Rundall,—for which honor the mother subsequently received a deed of 50 acres of land from the Herby Estate. — Cartwright taught the first school, in 1794; Conrad Sharp kept the first inn, in 1794; Elisha Smith the first store, in 1801. Conrad Sharp built the first sawmill, in 1795, and Abraham Storm and Henry Verse the first gristmill, in 1794.

⁸ The census reports 9 churches: 5 Bap., 2 M. E., Presb., and Prot. E.

and was the first church of that denomination in the co. Elder Kellogg continued its pastorate about 30 years.

GUILFORD—was formed from Oxford, April 3, 1813, as "*Eastern*." Its name was changed March 21, 1817. It lies on the e. border of the co., s. of the center. The surface is hilly and broken, consisting of the elevated lands between Chenango and Unadilla Rivers, the hills rising 200 to 700 feet above the valleys. It is drained by the Unadilla, which forms the entire e. boundary, Guilford Pond Creek,¹ and several other smaller streams. The soil is a gravelly and shaly loam, occasionally intermixed with clay. **Guilford**, (p.v.) located in the valley of Guilford Pond Creek, contains 3 churches, an iron foundry and machine shop, and several mills; pop. 263. **Guilford Center** (p.v.) contains 2 churches and 20 dwellings. **East Guilford**, (p.v.) in the s.e. corner of the town, contains a church, a mill, and 15 dwellings. **Mount Upton**, (p.v.) upon the w. bank of the Unadilla, contains 4 churches, several mills, and other manufacturing establishments; pop. 190. **Rockdale**, (p.v.) on the river, 4 miles below Mount Upton, contains 2 churches, a grist and saw mill, and 25 dwellings. The first settlement was made in 1787, by Ezekiel Wheeler, a little s. of Mount Upton, on the farm now occupied by his grandson, Silas Wheeler, 2d.² The first church (Bap.) was formed by Elder Orange Spencer, in 1803.³

LINCKLAEN⁴—was formed from German, April 12, 1823. Parts of Pitcher were taken off in 1827 and '33. It is the n. w. corner town of the co. Its surface is a hilly, broken upland, divided into ridges by narrow ravines extending n. and s. The declivities of the hills are usually steep, and the summits are 400 to 600 feet above the valleys. Mud Creek, a branch of the Otsego, flows s. through the w. part of the town. Ashbel Creek and several other small streams take their rise in the s. and e. parts. The soil is a shaly and clayey loam. **Lincklaen**, (p.v.) on Mud Creek, contains a church and 15 dwellings. **Burdick Settlement**, in the n. part, contains a church and 12 dwellings. **North Lincklaen** is a p.o. in the n.e. part. The first settlements were made about 1796. The first religious services were held by Rev. Seth Williston, in 1798. The census reports 4 churches in town.⁵

MACDONOUGH⁶—was formed from Preston, April 17, 1816. It is an interior town, lying w. of the center of the co. The surface is hilly, and in some places broken by deep ravines and sharp ridges extending n. and s. It is drained s. by Bowmans and Genegantslet Creeks and several other streams. Genegantslet Lake lies near the w. border. The soil is a clay loam, better adapted to grazing than tillage. **Macdonough**, (p.v.) on Genegantslet Creek, contains 2 churches, several mills, and 168 inhabitants. **East Macdonough** (p.v.) contains 2 churches and 14 dwellings. The first settlements were made in 1795, by Nathaniel Locke, Loring and Emory Willard, Henry Ludlow, and others.⁷ The first religious association (M. E.) was formed in 1798. The first church edifice (F. W. Bap.) was erected in 1831; Elder Steer was the first pastor.⁸

NEW BERLIN—was formed from Norwich, April 3, 1807, changed to "*Lancaster*" May 9, 1821, and original name restored March 22, 1822. A part of Sherburne was taken off in 1852. It lies upon the e. border of the co., n. of the center. Its surface is a rolling and hilly upland, the ridges extending n. and s. Unadilla River forms its e. boundary; and Great Brook flows s.

¹ This stream has a fall of 140 feet in passing through Guilford Village, affording a fine and very valuable water-power.
² Joshua McGroom and his brother (Frenchman) settled at the mouth of Guilford Creek, and erected the first mill in town, in 1781. James Phelps and ——— Button settled near Rockdale in 1790; Robert MeLeod, on Lot 1, in 1791; Danl. Savage, John Nash, and Nelson Robbins, from Ballston Spa, in 1792, at and near the old Four Corners; and Isaac Fuller, from Guilford Co., N. C., and John Seagr, from Haverstraw, on Lot 2; Gordon and Wyatt Chamberlin, at Mount Upton; Wm. and Nathaniel Heyes,—all in 1793. Major Richardson and his sons, Joseph and Seth, Asa Haven, father of Hon. Solomon G. Haven, of Buffalo, Danl. T. Dickinson, father of Hon. Danl. S. Dickinson, of Banghampton, Caleb Burdick, Suml. Smith, and Paris Windsor were also among the pioneer settlers of the town. The first child born was Giles Savage, Sept. 18, 1792; the first marriage, that of ——— Powell and the widow of Isaac Fuller, in 1793; and the first death, that of Isaac Fuller, in 1793. Ezekiel Wheeler kept the first inn, in 1790; and Sullivan Reynolds kept the first store and erected the first mill on the Unadilla, in 1790. The first school was taught by Nathan Bennett, in 1794.

³ The census reports 12 churches; 5 M. E., 2 Bap., 2 Cong., Presb., Prot. E., and Union.

⁴ Named from John Lincklaen, former proprietor of the township and several adjacent tracts. Among the early settlers were

Gordon Wells, Abel Fairchild, Elsha Cutler, Joseph Puffer, ——— Backus, Nathaniel Gray, Wolcott Bennett, Joseph Deering, Jesse Cutler, Aaron Post, John Wilson, Elsha Clark, Christopher Shupman, and ——— Walters. The first child born was Matilda Wells, about 1800; and the first death, that of a child of Christopher Shupman. Wm. Fly taught the first school; Elister Cutler kept the first inn; Fourfold Brothers, the first store; Cutler & Shupman built the first sawmill, and J. Puffer the first gristmill.

⁵ Bap., Seventh Day Bap., Cong., and M. E.

⁶ Named in honor of Commodore Macdonough.

⁷ Edward Colburn, Benj. Ketchum, Benj. Keyser, Ephraim Fish, John Anderson, Nebemiah Durbin, Jacob and Samuel Moore, Joseph and Emson Cook, Wm. Wood, Wm. Scott, Danl. Wainwright, Adam Oshtienbank, and M. Turner. The first town was 1795 to 1808. The first marriage was that of Sylvanus Moore and wife; and the first death, that of Mr. E. Col. Ketchum. The first school was taught by Capt. John A. Burke. Sylvanus Moore kept the first inn, in 1793, and Henry Ludlow the first store, in 1802. Capt. Wilcox erected the first gristmill, in 1802; John Nevins, the first paper mill, in 1818. S. T. Macdonough Village. Henry Ludlow built the first sawmill, on the outlet of Genegantslet Lake, in 1795.

⁸ The census reports 4 churches; Bap., M. E., Presb., and Union.

through near the center. Mathewson Pond is near the w. border. The soil is a shaly loam, occasionally intermixed with clay. **New Berlin.** (p. v.) upon the Unadilla, in the s. e. part of the town, was incorp. April 17, 1816. It contains 4 churches, the New Berlin Academy, a newspaper office, paper mill, cotton factory, ropewalk, and several minor manufactories. Pop. 740. **South New Berlin,** (p. v.) upon the Unadilla, in the s. e. part, contains 2 churches and 285 inhabitants. A portion of the village is in Otsego co. **Holmesville,** in the extreme s. e. corner, contains 2 tanneries and about 20 houses. **New Berlin Center** is a p. o. **Amber Settlement** is a hamlet in the s. part. Daniel Scribner settled upon the Unadilla in 1790.¹ The census reports 8 churches.² Hon. Henry Bennett, who has been elected to Congress five successive terms from this district, resides at New Berlin Village.

NORTH NORWICH—was formed from Norwich, April 7, 1849. It is an interior town, lying s. e. of the center of the co. Its surface consists of the valley of Chenango River and the high rolling uplands which rise upon either side. The summits of the hills are 200 to 600 feet above the valley. It is drained by Chenango River, Cold and Fly Brooks, and several other small streams. The soil is a gravelly and slaty loam, in some places mixed with clay. **North Norwich.** (p. v.) upon the Chenango, contains 2 churches, several mills, and about 150 inhabitants. It is an important village upon the Chenango Canal. **Kings Settlement** is a p. o. in the e. part; and **Plasterville,** a hamlet in the s. w. Jos. Lothrop and A. Mead located on Lot 1, in 1794.³ The first church (Bap.) was formed in 1796; Elder Eleany Holmes was the first preacher.⁴

NORWICH—was formed from Union (Broome co.) and "Jericho," (now Bainbridge,) Jan. 9, 1793. Pharsalia, Plymouth, and Preston were taken off in 1806, New Berlin, and a part of Columbus, in 1807, and North Norwich in 1849. A part of Preston was annexed in 1808, and a part taken off in 1820. It is the central town upon the e. border of the co. Its surface consists of two high, rolling ridges, separated by the valley of the Chenango. The highest summits are about 500 ft. above the valleys. Chenango River flows s. through the w. part. It receives the Canasawacta and several other streams as tributaries. Unadilla River forms the e. boundary. The soil upon the uplands is a shaly and gravelly loam, and in the valleys a gravelly loam and alluvium. **Norwich,** (p. v.) upon Chenango River, in the n. part, was incorp. April 16, 1816. It contains the co. buildings, 4 churches, the Norwich Academy, 2 banks, 2 newspaper offices, 2 piano forte factories, 3 carriage factories, 2 tanneries, 2 blast furnaces, a hammer factory, planing mill, sash and door factory, and plaster mill. Pop. 2,430. **White Store.** (p. o.) on the Unadilla, contains a church, gristmill, and 10 houses. The first settlement was made in 1788, by Avery Power.⁵ The first religious services were held by Rev. Manasseh French, in 1793 or '94.⁶

OTSELIC—was formed from German, March 28, 1817. It lies on the n. border of the co., w. of the center. Its surface is hilly, consisting of high ridges 500 to 800 ft. above the valley of Otselic Creek, which are broken by the ravines of the streams. Otselic Creek is the principal stream, and flows s. w. through the center of the town. Several small streams are tributaries of the Otselic. The soil on the hills is a shaly loam, and in the valleys alluvium. **Otselic,** (p. v.) in the n. part, contains 100 inhabitants; **South Otselic,** (p. v.) in the s. w. corner, 1 church and 225 inhabitants. The first settlement was commenced about 1800, by Ebenezer Hill.⁸ The first preacher was Stephen C. Nicholas. There are 2 churches in town; Bap. and F. W. Bap.

OXFORD—was formed from Union (Broome co.) and "Jericho," (now Bainbridge,) Jan. 10,

¹ Among the other early settlers who came about the same time were Nathl. and Joseph Medbery, who located upon Great Brook; Saml. Anderson, Silas Burlingame, Jeremy Goodrich, Levi Blakelee, Charles Knapp, and Joseph Moss, who located upon the present site of the village. The first child born was Louisa Bancroft, in 1797; and the first marriage, that of Paul Williams and Phila Packer, in 1794. Josiah Burlingame taught the first school; Dand. Scribner kept the first inn; Levi Blakelee the first store; and Job Vail built the first mill.

² 2 Bap., 2 Cong., 2 M. E., F. W. Bap., and Prot. E.
³ Among the other early settlers were Judge Jod. Thompson, Jeremiah and Abner Purdy, and Benj. Ferris, from Dutchess co., in 1795; and Jesse Knudell, Jacob Grow, Gen. Obadiah German, Ebenezer Hartwell, and James Purdy, in 1796—all of whom settled at the village and along the valley of the Chenango. The first child born was Amos Mead, jr., Sept. 12, 1794; the first marriage, that of Ebenezer Hartwell and Rachel Mead, in 1795; and the first death, that of Mrs. Abner Purdy, in 1795. Thomas Brooks taught the first school; Amos Mead kept the first inn, in 1801, and Gen. Obadiah German the first store. Benj. Hartwell built the first gristmill, in 1803.

⁴ The census reports 4 churches; 2 M. E., Bap., and Univ.

⁵ Among the other early settlers were David Fairchild, Silas

Cole, Wm. Smiley, Nicholas Pickett, Maj. Thomas Brooks, Israel Charles, and Matthew Graves, Josiah Brown, John Wait, Wm. Ranford and sons Hascall and Wm. jr., John Harris, Manasseh French, Job Enos, Josiah Brown, Elisha Smith, Routen, Wm., and Stephen Steer, Stephen Collins, James Gilmore, Moses Snow, John Kendall, John McNitt, and David and John Shattuck. The first child born was Lucy Power; the first male child, Marcus Cole; the first marriage in the town and co. was that of Hascall Ranford and Harriet Graves, July 12, 1792. Benj. Edmunds kept the first inn; Jonathan Johnson was the first physician; and Elisha Smith built the first saw and grist mill.

⁶ The census reports 5 churches in town; Bap., M. E., Cong., Prot. E., and Univ.

⁷ An Indian name, signifying Plum Creek.

⁸ Among the early settlers were Reuben Buckingham, David Steadman, Wm. Fish, Jonah Wolcott, Wm. Cross, Wm. Hurlbut, and Wm. Smith, in the n. part; Elias Benjamin, Abel Warner and his sons Oliver, Abner, and Euell, jr., Beaudin Parra, Lewis Cook, Ebenezer Thompson, John and James Warner, Abraham Fairchild, and Wm. Greene, in the s. part. Hannah Warner taught the first school. Ebenezer Hill kept the first inn, in 1810, and built the first gristmill, in 1820. Geo. Coles kept the first store, in 1812. Jas. Rush built the first sawmill.

1793. Guilford was taken off in 1813, and a part of Coventry in 1813. It is an interior town, lying a little s. of the center of the co. Its surface is divided into two parts by the valley of the Chenango. The hills bordering upon the river are 500 to 800 feet above the valleys. Chenango River flows s. w. through the w. part in a valley having an average width of about 1 mi. It receives Eddy Brook from the e., and Fly-Meadow, Mill, and Ludlow Brooks from the w. The soil is a shaly loam upon the hills, and a gravelly loam and alluvium in the valleys. **Oxford**, (p. v.) upon the Chenango, in the n. part of the town, incorporated April 6, 1806, contains 6 churches, the Oxford Academy,¹ a hoe factory, sash and blind factory, carriage shop, grist and saw mill, and plaster mill. Pop. 1,218. **South Oxford** is a p. o. in the s. w. corner; and **Chesterville** a p. o. near the s. line. The first settlements were made in 1790, by Benjamin Hovey,² The first preacher was Rev. Uri Tracy, (Presb.) in 1792.³

PHARSALIA—was formed from Norwich, as "*Stonington*," April 7, 1806. Its name was changed April 6, 1808. It is an interior town, lying n. w. of the center of the co. Its surface is a rolling and hilly upland, occupying a portion of the watershed between Chenango and Otsego Rivers. The latter flows through the extreme n. w. corner. Canasawaeta, Genegantslet, and Brackel Creeks take their rise near the center. The soil is a shaly loam. **Pharsalia**, (p. v.) in the w. part, contains 12 houses; **East Pharsalia**, (p. v.) in the s. l church, 2 gristmills, a sawmill, and 15 houses. **North Pharsalia** is a p. o. The first settlement was commenced in 1797, by John Randall, on Lot 48.⁴ John Peck was the first settled minister. There are three churches in town; Bap., F. W. Bap., and Presb.

PITCHER⁵—was formed from German and Lincklaen, Feb. 13, 1827. A part of Lincklaen was annexed in 1833. It lies upon the w. border of the co., n. of the center. Its surface consists principally of two high ridges 500 to 800 ft. above the valleys. Otsego River flows s. e. through the center. Brackel Creek flows s. e. through the s. part. The ravines of the streams are narrow and are bordered by steep hillsides. The soil is a shaly and gravelly loam. **Pitcher**, (p. v.) upon the Otsego, s. w. of the center, contains 3 churches, a woolen factory, and 25 dwellings. **North Pitcher**, (p. v.) upon the Otsego, n. e. of the center, contains 2 churches, 2 sawmills, a hame factory, fork factory, and about 20 dwellings. **Pitcher Springs** (p. o.) is a hamlet n. of the center.⁶ **South Pitcher** is a p. o. John Wilson and — Schuyler settled in 1794 or '95.⁷ The first religious services were held by Rev. Seth Williston, in 1797.⁸

PLYMOUTH—was formed from Norwich, April 7, 1806. It is an interior town, lying n. of the center of the co. Its surface is a hilly upland, broken by deep ravines. Canasawaeta Creek, and its e. and w. branches, flow s. e. through deep and narrow valleys and form a junction near the center of the town. Southwest of the center are 2 small ponds, covering an area of 100 to 150 acres each. The soil is a gravelly and clayey loam. **Plymouth**,⁹ (p. v.) n. of the center, contains 2 churches and 150 inhabitants; **South Plymouth**, (p. o.) in the s. e., a gristmill and 10 houses. The first settlement was commenced about 1794, by some French families.¹⁰ The first church (M. E.) was organized about 1806; and the Rev. — White was the first preacher.¹¹

PRESTON—was formed from Norwich, April 2, 1806. Machbough was taken off in 1816. A part of Norwich was taken off in 1808, and a part of the same town was annexed in 1820.

¹ This institution for many years bore the highest reputation of any academy w. of the Hudson. Many distinguished citizens of the central portions of the State received their academic education at this place.

² Among the other early settlers were Elijah Blackman, Eben Enes, John Bartle and 6 sons, Peter Burget, John Church, Theodore Burr, Benj. Loomis, Samuel Farham, Chas. Hays, and John Holmes. The first child born was Ellis Loomis, in May, 1792; the first marriage was that of Peter Bartle and Tabitha Loomis, in May, 1795; the first death was that of a child of Peter Burget, and the first death of an adult, that of Andrew Loomis, in 1795. Mrs. Philip Bartle taught the first school, in 1796. Philip Bartle built the first schoolhouse, individually, on "*Panther Hill*," in 1793; John Bartle kept the first inn, on Bowman's Creek; Samuel Farham kept the first store, and Peter Burget built the first mill, on Mill Brook.

³ The census reports 7 churches in town; Bap., F. W. Bap., M. E., Presb., Prot. E., E. C., and Univ.

⁴ Among the other early settlers were Joseph Brud, on Lot 49, Sanford Morgan, on Lot 36, John Weaver, on Lot 28, Daniel Demson, on Lot 79, Ledovick Weaver, on Lot 32, Joshua Weaver and David Davis, on Lot 69—all from Conn. The first birth was that of Benson R. Weaver; the first marriage, that of Jobish Brown and Ketura Brown; and the first death, that of Mrs. Schenck Lewis. Anna Wait taught the first school. The first tavern and store were kept by Sanford Morgan, on Lot 36; the first mill was built by Asa Weaver, on Lot 27, on Canasawaeta Creek.

⁵ Named for Nathaniel Pitcher, Lieutenant Governor of the State.

⁶ Pitcher Springs, formerly quite a watered place, was named from the sulphur springs located there. It is now almost deserted.

⁷ Among the other early settlers were Phenoze Wakely, Benj. Fairchild, Jonathan Chandler, George Taylor, Elias Bedell, John's Hinman, Abijah Blanes, Simon Post, — Millard, and Leob. Leont. The first child born was a son of Silas Blanes, N. Y., 1796; and the first marriage, that of John Wilson and P. J. Hinman, May 16, 1799. Phenoze Wakely taught the first school, Deij. Fairchild kept the first inn, Ruben R. the first store, and John Lincklaen built the first mill.

⁸ The census reports 6 churches in town; 2 C. G., 2 M. E., Bap., and 1 Univ.

⁹ Formerly called "*Plymouth*."

¹⁰ Among the early settlers were John Rayner, in 1699, D. J. De v., (Frenchman), James Dunford, Nathan Wales, John M., in 1754, Wm. Munn, Silas Holmes, Daniel Prentiss, Jos. Post, John Bennett, and R. D. Delavae. The first child was that of — Blowers; Elizabeth Bowsh died at the same time. — Clarke Brook taught the first school, in 1800 or '01, Charles Brook kept the first inn, and John Rayner the first store. N. J. and Prentiss built the first mill, and John Deip the first woolen factory, at an early day.

¹¹ There are 4 churches in town; M. E., Bap., F. W. Bap., and Cong.

It is the central town of the co. Its surface is a high, rolling upland, divided into two distinct ridges. The summits of the hills are 200 to 800 feet above the Chenango Valley at Norwich. The principal streams are Fly-Meadow Creek and Mill Brook, flowing s. into the Chenango. The soil is a gravelly and slaty loam,—in many places stony and hard to cultivate. It is generally well adapted to grazing. **Preston Corners**, (Preston p. o.,) in the s. part, contains 2 churches and 105 inhabitants. The first settlement was made on Fly-Meadow Creek, in 1787, by James Glover, who erected the first gristmill, in 1788-89.¹ The first church (Bap.) was formed in 1806, by Elder Haskall, the first preacher.²

SHERBURNE—was formed from Paris, (Oneida co.,) March 5, 1795. Smyrna was taken off in 1808, and a part of New Berlin was annexed in 1852. It lies on the n. border of the co., e. of the center. The highest summits are 200 to 500 feet above the valleys of the streams. Chenango River enters the co. from Madison and flows in a s. e. direction through the town, receiving Handsome and Mad Brooks and several other tributaries. The soil is chiefly a gravelly and slaty loam, but some portions of the valley lands are a sandy loam. The Chenango Canal passes through the valley parallel to the river. On the bottom lands of the river hops are extensively grown. **Sherburne**, (p. v.,) on the Chenango, s. of the center, was incorp. April 16, 1830. It contains 6 churches, the Sherburne Academy, and several manufactories. Pop. about 1200. **Earlville**, (p. v.,) on the line of Madison co., contains 441 inhabitants, of whom 208 are in this town. Joseph Guthrie settled in the valley of the Chenango, near Sherburne Village, in 1792. Major Brooks, one of the "Chaises men," is supposed to have been there a year or two earlier.³ The first religious services were held by a number of families from New England, who purchased the s. w. quarter of the 9th township, (Sherburne,) and settled on it in March, 1793.⁴

SMITHVILLE—was formed from Greene, April 1, 1808. It lies on the w. line of the co., s. of the center. The surface consists of high ranges of hills, with narrow valleys extending n. and s. It is drained s. by Genegantslet and Ludlow Creeks and their tributaries, and several other streams flowing into the Chenango. The soil is a gravelly and clay loam in the valleys, and a clay and slaty loam on the hills. **Smithville Flats**, (p. v.,) on Genegantslet Creek, in the s. w. corner, contains 4 churches, 3 sawmills, a gristmill, and 315 inhabitants. **East Smithville**, on Ludlow Creek, near the e. line, contains 2 churches and 18 dwellings. The first settlement was made in the valley of the Genegantslet, in 1797, by Robert Lytle, from Ireland.⁵ The first church (Bap.) was formed in 1805, by Elder Gray, the first preacher.⁶

SMYRNA—was taken from Sherburne, March 25, 1808, as "*Stafford*." Its name was changed April 6 of the same year. It is the central town upon the n. border of the co. Its surface is a broken and hilly upland, the highest summits being 500 to 800 feet above the valleys. The principal stream is Pleasant Brook, flowing s. e. through near the center. Cold Brook and several other small streams flow through portions of the town. These streams mostly flow through narrow valleys bordered by hillsides, a considerable portion of which are too steep for cultivation. The soil is a gravelly and shaly loam. **Smyrna**, (p. v.,) upon Pleasant Brook, near the e. line, was incorp. April 20, 1829. It contains 3 churches, a gristmill, a tannery, and 320 inhabitants. The first settlement was made by Joseph Porter, in 1792.⁷ The first religious society (Friends) was formed at an early period.⁸

¹ David Fairchild and his sons John and Amos settled at Preston Corners in 1795; Randall Billings and ——— Chamberlain from Conn., at Preston Center, in 1796; Jonas Marsh, from Mass., Col. Gordon, and Dudley Hewitt, in 1799. Among the other early settlers were Sam'l and Clark Lewis, Rev. Hazard Burdick, David Eccleston, Jos. Marsh, ——— Champlain, Wm. Parker, Alaudem Avery, and Wm. Woodworth. The first child born was Emory Billings, July 16, 1796; the first marriage, that of Capt. Lyon and Widow Crandall, in 1798; and the first death, that of an infant child of Geo. Cray. The first school was taught by Wm. Mc Alpine, who surveyed the Livingston Patent in 1798 and subsequently the Morris Tract. Jonas Marsh kept the first inn in 1800; Jos. Glover kept the first store and erected the first mill. The census reports 5 churches; Bap., F. W. Bap., Seventh Day Bap., Presb., and Univ.

² A company from New England, consisting of Nath'l Gray, Joel Hatch, Abraham James, and Newcomb Raymond, Joseph John, and Leazar Lathrop, Cornelius Clark, and Joel Northrop, with their families, settled in 1793. The deed of their purchase is dated in June of that year.

³ Among the first week after their arrival they erected a log meeting-house, and on the succeeding Sabbath met in it, after the example of the Pilgrim Fathers, to make public and united acknowledgments for the protection and guidance of an over-

ruling Power while on a perilous and tedious journey through the wilderness to their new homes. The census reports 9 churches; 2 Bap., 2 M. E., F. W. Bap., Cong., Prot. E., Univ., and Unit.

⁴ Jos. Agud and Eppaphes Sheldon, from Litchfield, Conn., bought out the log house and improvement of Mr. Lytle in Feb. 1798, moved in their families, and became the sole residents of the town. They were joined in 1798-99 by Edward Loomis, who settled on Ludlow Creek, Simon Neal, Robt. Williams, Asa straight, Dan'l Phillips, Capt. Samuel A. Speel, John Young, and John Palmer. The first child born was Jane Loomis, May 2, 1800; the first marriage, that of Jason Smith and Hannah Keapangh, in 1807; and the first death, that of a son of George Shaddock, in 1799. Capt. John Palmer kept the first inn and store and erected the first distillery. Timothy Scoville built the first sawmill, in 1805, and Nicholas Powell the first gristmill, in 1809.

⁵ The census reports 4 churches; 2 M. E., Bap., and Univ.

⁶ Among the other early settlers were Jos. Collins, Jos. Filings, Joshua Talcott, Daniel Willour, and John Parker. The first gristmill and clothing works were erected by Collins & Billings, in 1795.

⁸ The census reports 5 churches in town; Bap., F. W. Bap., Cong., M. E., and Friends.

¹ Formed since 1855.

CLINTON COUNTY.

This county was formed from Washington, March 7, 1788.¹ Essex was taken off in 1799. St. Lawrence was provisionally annexed in 1801, and taken off in 1802; and Franklin was taken off in 1808. It lies upon Lake Champlain, and is the s. e. corner co. in the State. It is centrally distant 143 mi. from Albany, and contains 1,092 sq. mi. The surface is generally hilly and broken, and in some parts mountainous. The Au Sable Range enters the s. w. corner from Essex co. and extends in spurs and broken ranges through more than one-half of the w. part of the co. The highest peaks along the w. border are 3,000 to 4,000 feet above tide. These mountains have the same general characteristics as those further s.

They are wild and broken, and their declivities and summits are so covered with ragged ledges of rocks that they can produce but a scanty crop of timber and are almost inaccessible. The uplands decline toward the n.; and along the n. line of the co. is a wide tract nearly level. Along the lake shore the surface is level or moderately uneven; and from this tract it rises gradually but unevenly to the summits of the ridges in the interior. A large share of the central and w. portions of the co. is covered by the original forests, and is too rough to ever admit of profitable cultivation. The mountainous region in the s. w., comprising about one-third of the co., is underlaid by gneiss, granite, and other primary rocks. A belt of Potsdam sandstone extends in a great curve around the primary region and occupies more than one-half of the remaining part of the co. On the n. it extends nearly to Canada, but toward the s. it gradually diminishes, and on the s. line it is but a few miles wide. Surrounding this, and lying next above it, is a narrow belt of calciferous sand rock, outcropping on the surface, along the lake shore, between Au Sable and Salmon Rivers. The limestones next appear, occupying the n. e. corner of the co. and outcropping along the lake from Salmon River to Rouses Point. Tertiary clay is found in a few places along the lake; and drift deposits are abundant in the n. and e. parts. Peat bogs are numerous in the n. e. part. The primitive region is exceedingly rich in minerals. Magnetic iron ore is found in inexhaustible quantities, and of a quality equal to the best in the world.²

Au Sable River forms most of the s. boundary. North of this are Little Sable, Salmon, Saranac, Little Chazy, and Great Chazy or Champlain Rivers, all flowing into Lake Champlain. English River flows n. into Canada. Upon all these streams are numerous falls, furnishing an immense amount of water-power. In the western wilderness are numerous small lakes, the principal of which are Chateaugay and Chazy Lakes, and Sampson, Taylor, and Slush Ponds. The soil along the lake is clayey, and in the interior and w. a sandy loam, best adapted to pasturage.

The people are principally engaged in stock raising, dairying, lumbering,³ mining, and in the manufacture of iron⁴ and starch. A large business is carried on in peltries, the wilderness still furnishing numerous valuable fur-bearing animals.⁵ Fish are abundant in the mountain streams and lakes, although the salmon, once so abundant, have now nearly disappeared.⁶ The Northern (Ogdensburg) R. R. extends w. from Rouses Point, on Lake Champlain, through Champlain, Mooers, Altona, Ellenburgh, and Clinton. The Plattsburgh & Montreal R. R. extends n. through Plattsburgh, Beekmantown, Chazy, and Mooers.

The co. seat is located at the village of Plattsburgh, on Lake Champlain.⁷ The courthouse is a

¹ Named from Gen. Clinton, then Governor. When organized, it embraced all the land on both sides of Lake Champlain, as claimed by the State of New York. The claim e. of the lake was abandoned upon the recognition of Vermont as an independent State, in 1791.

² Clinton and Essex are the two most important mining co. in the State. The veins of iron, in extent and richness, surpass those of any other part of the world. One was first discovered in the "Winter" ore bed, in Au Sable, by Geo. Shaffer, in 1800, although travelers had previously frequently noticed the immense quantities of iron sand upon the lake shore. The principal veins now opened are the Arnold, Rutgers, Finch, Winter, Indian, Cook, Battie, Mac, Jackson, and McIntyre Mines, in Au Sable; the Palmer and Rutgers Mines, in Black Brook; and the Skinner and Averill Mines, in Danmore. Veins of greater or less richness are found in all the towns underlaid by the primary rocks.

³ Au Sable and Saranac Rivers flow through valuable lumber

districts, and upon them are numerous sawmills. Immense quantities of logs are annually floated down these streams and worked up at the mills below. Several important plank roads have been constructed in the wilderness for the special accommodation of the lumber and iron business.

⁴ The iron manufactured is principally in the form of blooms.

⁵ Hunting is pursued as a business to some extent; and during the summer large numbers of amateur hunters from the cities flock to the wilderness for recreation and amusement.

⁶ So abundant were salmon that 30 years ago 100 bbls. were annually taken in the co.; and from its importance to the early settlers this fish was taken as a device for the first cod.

⁷ The first court was held Oct. 28, 1788. A blockhouse erected at the time of the alarm occasioned by the defeat of St. Clair by the Indians was used for the first jail. A courthouse and jail of wood was erected in 1802-03, and burned in 1814 by the invading British army. A new one erected soon after was burned in 1836, and the present one was erected on its site. The first

substantial brick building, with a stone basement, fronting the public square and river. The jail, a stone building in rear of the courthouse, affords no accommodations for the classification of prisoners, and is destitute of means of ventilation. The clerk's office is a fireproof brick building on an adjacent lot. The poorhouse is located in Beekmantown, 4 mi. N. of Plattsburgh. It has an average of 65 inmates, supported at a weekly cost of \$1.00 each. The farm—90 acres—yields a revenue of \$800.¹

Four weekly newspapers are published in the co.²

The first white man that ever visited this co. was Samuel Champlain, in 1609, under the auspices of the French. From that time until the final surrender of Canada in 1760, the French claimed and held this region of country, and the lands were mostly occupied by parties holding title under French grants.³

At the close of the war in 1760, settlement rapidly spread down the lake shore. By the terms of the treaty between England and France, the French settlers were to be secured in their rights; but the Government of New York made conflicting grants, which gave rise to controversies and quarrels and seriously retarded the progress of settlement. A few families were scattered along the shore previous to the Revolution; but the expedition of Burgoyne in 1777 broke up every settlement in the co. An important naval engagement took place Sept. 11, 1776, in the strait between Valcour Island and the w. shore, between the British and American forces, without any decisive results. The conflict was renewed on the 13th, and the American vessels were nearly all run ashore on the Vt. side and burned.⁴

Settlements were made at all the principal places bordering upon the lake within 10 years after the close of the Revolution. Point Au Fer was occupied by the British until 1796, when, in common with several other posts along the N. frontier, it was surrendered to the Americans.⁵ During the same year the St. Regis Indians ceded their claims to the State. The embargo of 1808 was openly violated, and many severe encounters took place between the revenue officers and organized bands of smugglers.⁶ Several attempts were made by lawless bands to seize the collectors and revenue officers, but without success. During the last war with Great Britain this co. was the seat of important military transactions, and along its frontiers and upon the adjacent waters of the lake many skirmishes and engagements took place.⁷

co. officers were Chas. Platt, *First Judge*; Josiah Throop and Chas. Hay, *Judges*; Robt. Cochran, Peter Sully, Wm. McAuley, and Pliny Moore, *Assistant Justices*; Theodorus Platt, *Sheriff*; Benj. Moores, *Sheriff*; and Melancthon Lloyd Woolsey, *Clerk*.

¹ The Senate Committee of 1857 report that "this house is a very poor one, indifferently kept, and a disgrace to the co." The rooms were filthy and not at all ventilated; and the water supplied to the establishment is furnished from springs into which drains from the barnyard and privies empty. No school is taught, and the children are not admitted to the public schools. The Supervisors have authorized a loan of \$4,000 for rebuilding this establishment.

² *The American Monitor* was established at Plattsburgh in 1807 by W. Nichols and Sam'l Lowell, and continued a short time.

The Plattsburgh Republican was begun in July, 1811, by — Reynolds. In 1813 Azariah C. Flagg became publisher, and continued it until 1826. It was subsequently under the charge of H. C. Miller and Wm. Lamb. In Aug. 1833, it passed into the hands of Robt G. Stone, by whom it is still continued.

The Northern Herald was begun April 10, 1813, by Fred. C. Powell. In 1815 it was changed to

The Plattsburgh Herald, and soon after it was discontinued.

The Northern Intelligencer was begun at Plattsburgh in May, 1821, by Fred. R. Allen. In 1822 it was united with

The Aurora Borealis, which was established in 1828, the combined papers taking the name of the

Plattsburgh Aurora. It was continued but a short time.

The Democratic Press was published at Plattsburgh in 1834 by J. K. Averill.

The Whig was started at Plattsburgh in 1835 by G. W. Platt. In 1838 it was changed to the

Clinton County Whig. After several changes of ownership, in Oct. 1855, it was changed to

The Plattsburgh Express, published by Albert G. Corver, and is still continued by him.

The Beacon Guide was published a short time at Beekmantown in 1837 by Rev. Mr. Bailey.

The Free Democrat was published in 1848 by Oliver Hart.

The Northern Laurel, mo., was begun in 1849 by Dr. Horace Nelson. It was soon changed to

The Laurel, and was continued till 1856.

The Champlain Beacon was commenced in 1850 by Ketchum & Averill. In 1852 it was sold to D. Turner, of Keeseville, who changed it to

The Rouses Point Advertiser, under which name it is still published.

The Colgate Gazette was published in 1851 by Arthur C. Nelson. *The American Sentinel* was started Jan. 10, 1855, by Warren Dow. It was soon changed to

The Plattsburgh Sentinel, and is still published.

³ The Governor General and Intendant, on the 10th, 11th, and 12th days of April, 1733, granted 7 seigniories within the present limits of Champlain and Chazy, each 3 leagues in depth and fronting upon Lake Champlain. The first, granted to Urbain Jacques Pean, Sieur de Livandiere, captain in the marine, extended from Chazy River 21 leagues northward; the second was granted to Sieur Migeon de la Gaudiniere, also a captain in the marine, and the third to Sieur de St. Arment, jr., an officer in the marine; each grant being 2 leagues in front. These grants were assigned, however, in fee and seignior, with the right of superior, mean, and inferior jurisdiction, *haute, moyenne, et basse justice*, with the right of hunting, fishing, and Indian trade, subject to the performance of fealty and homage at the Castle of St. Louis, in Quebec, agreeable to the custom of Fees followed in Canada. They were conditioned to the preservation by tenants of the oak-timber fit for the royal navy, the reservation of mines and highways to the crown, and the use of the beaches to fishermen unless actually occupied by the seignior. The patentees might grant concessions to tenants, subject to the customary *casuel, rachat*, and dues, for each arpent of land or front by 40 arpents in depth. If used for military purposes, materials for the erection of fortifications and mowed for the use of 20 arpents were to be given without charge, and the grant was to be submitted for the royal approbation within one year. The grantees having failed to make improvements on the tenth of May, 1741, all these grants were declared to have reverted to his majesty's domain. On the 1st of Nov. 1752, a seignior of 22 leagues in front by 3 in depth, and including Chazy River, was granted to the Sieur Belon, commander in the Superior Council of Quebec, under conditions like those of Gallant.—*Titles and Desc. relating to the Seigniorial Tenure*.

⁴ This engagement was one of the most gallant fought during the war, and although resulting disastrously, it reflected no dishonor on the American arms. The American force, commanded by Benedict Arnold, consisted of 1 sloop, 2 schooners, 4 galleys, and 5 gond-les, with 84 guns and 141 swivels, and 1,000 British force, commanded by Capt. Thomas Pringle, of 1 sloop, 2 schooners, 1 cutter, 1 gondola, 29 transports, and 28 long boats,

with 89 guns and 627 men. The American loss was 80 to 90, and the British about the same. The Americans saved themselves by running their vessels aground and swimming ashore.

⁵ Judge Pliny Moore, who settled in Champlain in 1758, was visited on the 1st of every month by a British corporal and 100 of men, from Point Au Fer, 4 months him that he claim and for the State would not be recognized, but no attention was paid to these repeated warnings.—*Edwards' Hist. Lote Champlain*, p. 142.

⁶ In 1808 two Government officers were killed in attempting to seize a smuggling vessel called the Black Snake.

⁷ The following is a brief chronological list of the most important events of the war connected with this co.

In the summer of 1814, Sir Geo. Provost, Gov. of Canada, made extensive preparations for an invasion of the country along Lake Champlain. Toward the last of Aug. a land force of 14,000 men assembled on the frontier and commenced their march, supported by a formidable fleet under Commodore Downie. Gen. Maccomb, who commanded the Americans, had a force of less than 3,000; but, as the invading army drew nigh, he was continually re-inforced by volunteers and militia.¹ The American fleet, under the command of Commodore MacDonough, took position in Cumberland Bay, awaiting the attack of the British. On Sunday morning, Sept. 11, a simultaneous attack was made by the British land and naval forces, and a bloody and desperate battle ensued. At the end of 2 hours Commodore Downie's flag struck, and nearly the whole British fleet fell into the hands of the Americans.² The cannonade was continued upon the shore until night, when the British slowly and sullenly retreated and in a few days returned to Canada.³ These engagements were justly considered among the most brilliant that occurred during the war,

1812, Sept. 1.—Gen. Bloomfield, with 8,000 troops, prepared to attack Canada.

" Sept. 16.—Troops consisting of 3,000 regulars and 2,000 militia, under Gen. Dearborn, encamped within a half mile of the Canada line.

" Sept. 20.—Guardhouse at La Cole surprised; but, as plans of attack were frustrated, the troops retired to Plattsburgh for winter quarters.

1813, Feb.—Two brigades marched to Sacket's Harbor, leaving the N. side of the lake entirely unprotected till Sept.

" June 2.—Naval engagement near Ash Island, Canada, between an American force, under Lieut. Sidney Smith, and several British gunboats, resulting in the loss of the American sloop Growler and Eagle and 112 men. The vessels were subsequently re-captured.

" July 31.—A British force of 1,400 men, under Col. Murray, made a descent upon Plattsburgh and destroyed a large amount of public and private property.

" Sept. 19.—A body of 3,000 American troops, under Gen. Hampton, concentrated at Cumberland Head and started on an expedition against Canada.

" Sept. 21.—After remaining one day in Canada, the Gen. changed his plan, and, ostensibly on his way to Montreal, he marched to Chateaugay, and there remained nine 20 days.

" Oct. 1.—A small party of American militia surprised a pocket guard at Ogdontown, Canada.

" Oct. 11.—Col. Isaac Clark, with 110 men, crossed the lake from Champlain, attacked a party of British at Missisquoi Bay, killed 9, wounded 14, and took 101 prisoners.

" Nov.—A party of Vt. militia crossed the lake and placed themselves under General Hampton. The Gov. of Vt. ordered them to return; but they refused to obey.

" Dec. 1.—A British naval force, consisting of 6 armed galleys, under Capt. Pring, entered the Lake and burned an empty store-house near Rouses Point. In the report of Sir George Prevost, this building was converted into a large magazine of stores at Plattsburgh.

1814, Jan. 18.—A detachment of infantry from Plattsburgh arrived upon the frontier, soon followed by another body of troops, under Gen. Wilkinson.

" March 30.—Under the direction of Gen. Wilkinson, Maj. Forsyth attacked a gristmill at La Cole, but was repulsed with a loss of 104 in killed and wounded. The British loss was 56.

" May 9.—A British naval force, consisting of 5 sloops and 13 row-galleys, under Capt. Pring, were repulsed in an attack upon Otter Creek, in Vt. On their retreat they entered Raquet River, but were attacked by a body of militia, and nearly all the men in the rear galley were killed or wounded.

" June 24.—Lieut. Col. Forsyth, with 70 riflemen, entered Canada, and was attacked by a British force of 200 men. He effected his retreat with little loss, but a few days after was killed in another skirmish.

" Aug. 29.—Gen. Izard, with the greater part of the American force, left Champlain, leaving the immense amount of military stores at Plattsburgh in charge of Gen. Maccomb, at the head of 3,400 men, 1,400 of whom were sick.

" Aug. 30.—Gen. Brisbane, with the advance guard of the British army, took possession of Champlain.

" Sept. 3.—Sir Geo. Prevost, Gov. of Canada, at the head of 11,000 men, advanced 8. from Champlain, arriving within 8 m. of Plattsburgh on the evening of the 5th.

" Sept. 6.—Skirmish at Chivers Hill, and the first attack on Plattsburgh, in which the British lost 200 men and the Americans 45.

1814, Sept. 11.—Naval engagement in Cumberland Bay, resulting in the complete victory of the Americans; and an attack upon the American landworks, which was repulsed. The British army retreated during the following night.

" Sept. 24.—Last division of the British army retired to Canada.

1 Gov. Chittenden of Vt. issued a proclamation calling upon the militia to rally and repel the invasion; and large numbers promptly responded to the call and repaired to the camp. The call upon Washington and Warren Cos. was answered by 250 more men than had ever mustered at an inspection or review.

² The comparative strength and loss of the two parties on the lake were as follows:—

The action lasted 2½ hours. The British galleys lowered their colors; but, not being pursued, they escaped, as did also a store-ship which lay near the point of Cumberland Head during the engagement. The loss upon the enemy's galleys was not ascertained, but was large; and the total British loss was one-fifth of their whole number. In their retreat the British left behind them a vast quantity of provisions, tents, camp equipment, and ammunition, together with their sick and wounded. The British and American officers were buried separately near the center of the village cemetery; and the sailors and marines of both fleets side by side in one common grave, on Crab Island. Some time after, the sister-in-law of Com. Geo. Downie placed a tablet over his grave; and on the anniversary of the battle, in 1843, the citizens of Plattsburgh and the Clinton Co. Military Association erected plain marble monuments at the unmarked graves of Lieut. G. W. Runk, Lieut. Peter Gaudin, Lieut. John Stansbury, Sailing Master Rogers Carter, Midshipman J. M. Baldwin, and Pilot Joseph Barrow of the American navy; and Col. Wilmington, Ensign J. Chapman, Lieut. R. King-Lary, Boatswain Chas. Jackson, Capt. Purchase, Capt. Alex. Anderson, (marines,) Acting Capt. Wm. Paul, and Midshipman V. M. Gunn, of the British army and navy.

³ Sir Geo. Prevost, in his official report, says, "This unlooked for event deprived me of the cooperation of the fleet, without which the further prosecution of the service was become impracticable. I did not hesitate to arrest the course of the troops advancing to the attack, because the most complete success would have been unavailing, and the possession of the enemy's works offered no advantage to compensate for the loss we must have sustained in acquiring possession of them."

and they served to partially obliterate the disgrace that attached to most of the movement that were planned and executed along the N. frontier. The immense sums of money expended within the co. during the war greatly stimulated its industry; and although Plattsburgh was twice in the hands of the enemy and partly burned, still business prospered. At the close of the war the excitement subsided, and a commercial re-action followed that entirely prostrated business. Upon the completion of the Champlain Canal in 1823, business again revived; and a new impulse has again been given to it by the railroads and plank roads since constructed. In 1838-40 the co. shared the intense excitement attending the "Patriot Wars," and several encounters between the insurgents and the military authorities took place in the neighboring parts of Canada.

The lands in this co. were mostly granted in comparatively small patents. The w. portion embraces 4 townships of the Old Military Tract. A tract of 231,540 acres in the s. e. and central parts of the co. was included in the lands granted by the Legislature of New York to the refugees from Canada and Nova Scotia at the close of the Revolution.¹ These lands were divided into 80 and 120 acre lots, except 5,000 acres, which was divided into 15 equal parts, which were granted to the officers and privates among these refugees. Considerable land lying along the lake was granted in small tracts to English officers who served during the French War. Among the principal remaining patents were Platt's, Livingston's, Beekman's, Duerville, Dean's, and Graves.

ALTONA—was formed from Chazy, Dec. 2, 1857. It is an interior town, lying N. of the center of the co. Its surface is a rolling upland, with a slight inclination toward the N. E. The w. half is underlaid by Potsdam sandstone, and hundreds of acres are covered with the naked rock. Great Chazy River is the principal stream. The soil is light and sandy, and a large share of it is unfit for cultivation. A few settlements are scattered through the town, and the people are mostly engaged in lumbering. There is no village or p. o. in town. **Chazy**, in the N. part, is a station on the N. R. R. **Ellenburgh Depot** lies on the w. line. The first settler was Simeon Wood, who located in town in 1800.² The town embraces parts of the Refuge Tract and Duerville Patent. The first church (French Bap.) was formed Jan. 1, 1856.

AUSABLE³—was formed from Peru, March 29, 1839. It is the s. e. corner town in the co. Its surface is nearly level in the E., rolling in the center, and hilly in the W. The highest summits are 500 to 600 ft. above the lake. Au Sable River forms the s. boundary, and the Little Au Sable flows N. E. through the W. part. The soil is generally a light, sandy loam, moderately fertile in the E. and center and nearly unfit for cultivation in the W. Upon the Au Sable where it breaks through the Potsdam sandstone is a beautiful cascade known as Birmingham Falls.⁴ Iron ore of an excellent quality is found in abundance.⁵ **Keeseville**,⁶ (p. v.) upon the Au Sable, 5 mi. from the lake, contains 7 churches, the Keeseville Academy, 2 extensive rolling mills, 3 nail factories, a machine shop, an ax and edge tool factory, a cupola furnace, an axletree factory, a horseshoe factory, a planing mill, 2 gristmills, and a nail keg factory.⁷ Pop. 2,569,—of whom 1,999 are in Au Sable and 570 are in Essex co. **Clintonville**, (p. v.) upon the Au Sable, in the W. part of the town, was incorp. April 11, 1825. It contains 2 churches and an extensive iron manufactory.⁸ Pop. 855. **New Sweden**, (p. v.) upon the Au Sable, in the s. w. corner of the town, contains 2 forges and 150 inhabitants. **Birmingham Falls**, at the head of the rapids upon the Au

¹ The act making this grant bears date of May 11, 1782. The names of Canadian refugees were reported by Brig. Gen. Moses Hazen and Col. Jeremiah Livingston, and those of the Nova Scotia refugees by Col. James Livingston. The small lots were laid out in narrow strips fronting upon the lake, and the remainder in the rear. These lands were distributed among 252 persons, who drew the lots by ballot. The greater part of the tract was not occupied in the time specified by the act, and reverted to the State.

² Among the early settlers were Lyman Clothier, Tiphinet Haswell, Daniel and Robert Baker, Thos. Cudworth, Simon Goodspeed, and Daniel Robinson. The first birth was that of Matilda K. Wood, May 30, 1802. Sarah Stockwell taught the first school, in 1804; and Lyman Clothier kept the first inn.

³ Pronounced Au Saw'dle, a French name signifying river of sand. The name is said to have been derived from a sandy bar at the mouth of the river.

⁴ This cascade is located about 2 mi. below Keeseville. From the face of the cliff the river has worn back a rugged and irregular chaimed in the solid sandstone for a distance of nearly 2 mi. and to the depth of 100 to 130 feet. The rocks that border it are perpendicular, and in some places overhanging, so that the water can scarcely be seen from the banks above. At several points this ravine is compressed to a width of less than 50 feet. The river plunges into the chasm in a perpendicular descent of 70 feet, and struggles through the tortuous channel, forming, whirling, and eddying over its rocky bed.

⁵ The Arnold ore bed, 2½ mi. N. W. of Clintonville, was first opened in 1801. The shaft is 350 feet deep, and the ore is raised by steam. For many years the average annual yield has been 1,000 tons; and for 5 years before 1850 it was 1,500 tons. There are 5 veins, with a total width of 25 feet, yielding ores of different qualities. This mine has supplied the forges of Jay, Wilmington, and Chesterfield, in Essex co., and of Peru, Au Sable, and Black Brook, in Clinton co. Other ore beds are found, of which the Finch vein, a continuation of the Arnold, is the only one now worked. It has supplied the forge in Jay. The ore from this bed is a peroxide, and may be worked without washing or other separation.

⁶ Named from Blish and Oliver Keese, sons of J. J. Keese, one of the original proprietors. The two parts of the village are connected by 3 bridges, one of stone, one of wood, and one an iron suspension bridge. The stone bridge is a single arch of 110 feet.

⁷ About 3,500 tons of nails and 1,500 tons of machine iron and 70,000 nail kegs are manufactured here annually. The first rolling mill in the State was established here, in 1816.

⁸ The Peru Iron Co. was incorp. Nov. 11, 1857, with a capital of \$200,000. The iron works built by the corporation subsequently passed into the hands of Thomas S. Duns and are now owned by him and his sons. In one building are 20 iron fires, and the blooms made are entirely worked up into netch cut iron, of which 7,500 tons are produced annually.

Sable, contains 20 houses. **The Union** is a hamlet, on the line of Peru, and contains two Quaker meetinghouses. Edward Everett located upon the site of The Union in 1786.¹ The first religious society (Friends) was organized in 1799.²

BECKMANTOWN³—was formed from Plattsburgh, Feb. 25, 1820. Dannemora was taken off in 1854. It lies upon Lake Champlain, near the center of the e. border of the co. The surface is level in the e. and moderately hilly in the w. Its streams are small creeks and brooks. St. Armands Bay extends into the s. e. corner. Point au Roche and Rams Head are capes upon the lake. The soil is a clay loam in the center and e., and a light sand in the w. A spring emitting sulphuretted hydrogen and carbonic acid gases is found in town. **Beckmantown** (p. o.) and **East Beckmantown** (p. o.) are hamlets. The first settlers were Maj. Benj. Mooers and 7 associates, who located at Point au Roche Aug. 10, 1783.⁴ The British passed through the town in 1814, and on the 6th of Sept. a slight skirmish took place, in which several were killed.⁵ The census reports 4 churches; 3 M. E. and 1 Presb.

BLACK BROOK⁶—was formed from Peru, March 29, 1839. It is the s. w. corner town in the co. Its surface is a rocky and mountainous upland, the highest summits being 1,500 to 2,500 ft. above the lake. Among the mountains are several nearly level table lands 200 to 300 ft. above the general level. Ledges, crags, and boulders cover a large share of the surface. The forest trees are thinly scattered, and nearly the whole town is too rough and poor for cultivation. Saranae River flows across the n. w. corner, and the Au Sable forms a portion of the s. boundary. Great Black Brook and Little Black Brook, tributaries of the Au Sable, drain the central parts of the town. In the mountainous region are several small lakes or ponds, the principal of which are Mud, Sampson, Taylors, Slush, and Military Ponds. The soil is cold, wet, and unproductive. Extensive beds of iron ore are scattered through the town.⁷ The people are principally engaged in the manufacture of iron⁸ and charcoal, and in lumbering.⁹ **Au Sable Forks**, (p. v.) on the Au Sable, in the s. e. part of the town, is mostly on the s. bank of the river, in Essex co. **Black Brook**, (p. v.) near the s. border, contains extensive iron works, several sawmills, and about 85 houses. **Clayburgh**, on the Saranae, in the n. part, lies partly in the town of Saranae. It contains iron works and 30 houses.¹⁰ **Union Falls** (p. o.) and **Garlick Falls**, (p. o.) both on the Saranae, are hamlets and lumber stations. The first settler was Zephaniah Palmer, who located at Au Sable Forks about 1825.¹¹ The census reports one church (R. C.)

CHAMPLAIN—was formed March 7, 1788. Chateaugay (Franklin co.) was taken off in 1799, and Mooers and Chazy in 1804. It lies upon Lake Champlain, in the n. e. corner of the co. Its surface is generally level, with a gentle slope toward the lake. The crest of a swell of land between Champlain Village and Rouses Point is about 200 feet above the lake. Great Chazy or Champlain River flows in a tortuous course through the town and discharges its waters into

¹ Among the other early settlers were John Keese and his sons Richard, John, Oliver, Stephen, and William, Caleb, Green and his sons Henry, Reuben, John, and James, Peter Hallock, Paul, Jackson, Gilbert and Gerrit Thew, John Haff, Elsha Arnold, and John Stanton, about 1795. The first child born was in the family of John Stanton, about 1795. The mother of this child was a servant girl in the family. The wife, not being exactly reconciled to the circumstance, insisted upon being immediately taken to her friends in Dutchess co. It being winter, the husband took her upon a hand sled and drew her upon the lake to "Stanesborough," thence to Fort Edward, and down the Hudson to her father's, after which he returned to Au Sable, having been five weeks in performing the journey. Upon his return he married the mother of the child, and lived with her many years. The first school was taught in 1791, by ——— Thompson; the first inn was kept by Joel Buck, in 1800; and the first forge was erected by Geo. Griswood, in 1812.

² The census reports 8 churches in town; 2 Cong., 2 M. E., 2 Friends, Presb., and R. C.

³ Named from Wm. Beckman, to whom, with 29 others, the town was granted March 27, 1769. It embraced 22,475 acres.

⁴ Mooers was appointed to survey the Refuge Tract. After several years he removed to Cumberland Head, and afterward to Plattsburgh. Thos. Trendwell, Ezekiel Hubbard, Henry Denning, Jonathan Scribner, Abner Pomeroy, Simon Newcomb, jr., Capt. John Jersey, and Joseph Main settled near Beckmantown Corners; Philip Roberts, Henry Barnes, Ephraim and Amos Mooers, and John Denning were also among the early settlers. The first birth was that of Silas Pomeroy; the first marriage, that of Eli Howe and Miss Hubbard, in 1794; and the first death, that of a child of Simon Newcomb.

⁵ Among the killed were Lieut. Col. Willington and Ensign Chapman, of the enemy, and several of the American militia.—*Palmer's Hist. Lake Champlain*, p. 62.

⁶ Named from its principal stream. The town comprises por-

tions of the Old Military Tract and of Livingston's Patent. The military lands were finally conveyed to Benj. Birdsall and his associates by act of Feb. 4, 1793, to satisfy claims growing out of the suppression of the lease of all of the Indian lands in the State for 999 years.—*Edin. Laws*, XVI, Sess., p. 24. *Cook's Hist. Ontar.*, vol. 1, p. 268.

⁷ The *Palmer Mine*, 2 mi. N. of Au Sable Forks, was discovered by Z. Palmer in 1825. It is situated on a hill 400 to 500 feet above the river. The ore is raised by steam, and the yield is 16,000 to 20,000 tons per year. The *Myers Mine*, at Clayburgh, has been worked since 1846. It yields annually 1,500 tons of ore, principally used in the manufacture of wire, tracks, and small nails. The *Troutlois Mine* was discovered in 1845, and about 10,000 tons of ore have been raised. The iron made from it is soft and tough, and is principally used in the manufacture of boiler plates, horse nails, and car axles.

⁸ The Sable Iron Company have extensive works at Au Sable Forks and at Black Brook, and they manufacture 2,600 tons of blooms, 900 tons of merchant iron, 50,000 to 55,000 logs of nails, and 1,600,000 bush. of charcoal per annum. 2,500 tons of blooms are manufactured at their establishment at Black Brook alone. The Co. was incorporated, in Sept. 1834, and the stock is now owned by J. & J. Rogers.

⁹ There are 8 to 10 large sawmills in town.

¹⁰ The products of the Myers Mine are principally manufactured at this place. A water-power near the mine is improved, and a forge of 5 fires is in active operation. A steam forge and steam hammer for the manufacture of r. r. axles was in operation here about 4 years.

¹¹ Several plank roads have been built in this town to facilitate the iron and lumber business. — Curtis kept the first inn, near the center, in 1828. Halsey Rogers and John McInturs located in town in 1830. The Sable Iron Co. erected the first forge the same year.

Kings Bay. It is navigable to near Champlain Village. Corbeau Creek, its tributary, is the other principal stream. Point au Fer and Stony Point are two capes projecting into the lake. The soil is a clay or clayey loam. Peat is found in numerous localities. **Champlain**, (p. v.) upon the Chazy, near the n. line of the town, contains the Champlain Academy, 3 churches, 2 founderies, a linen factory, planing mill, and carriage factory.¹ Pop. 1,473. **Perrys Mills**, (p. o.) is a lumber station upon the Chazy, in the s. w. corner of the town. **Rouses Point**,² (p. v.) upon the lake, in the s. e. corner of the town, contains 3 churches, a brewery, newspaper office, and extensive depôts and repair shops belonging to the Northern R. R. Co. It is divided into the Upper and Lower Villages, the latter being about twice as large as the former. Pop. 1,769. **Coopersville**,³ or **Corbeau**, is a village upon Chazy River, opposite the mouth of Corbeau Creek. It contains 1 church and 40 houses. The first settlers were Canadian and Nova Scotia refugees, who located in town soon after the Revolution. The first English settler was Pliny Moore, who came in to reside in 1789.⁴ The census reports 4 churches in town.⁵

CHAZY⁶—was formed from Champlain, March 20, 1804. Altona was taken off in 1857. It lies upon Lake Champlain, s. of the center of the co. Its surface is rolling and has a gentle inclination toward the e. The principal stream is the Little Chazy, flowing s. e. through near the center. Corbeau Creek flows through the s. border. Potsdam sandstone underlies the w. part, and Chazy and Trenton limestone the e. Tertiary clay extends along the lake shore. The soil is clayey and productive in the central and e. parts, but sandy in the w. **Chazy**, (p. v.) upon Little Chazy River, contains 2 churches and a saw and grist mill. Pop. 326. **West Chazy**, (p. v.) upon Little Chazy River, in the s. w. part of the town, contains 2 churches, a saw and grist mill, and starch factory. Pop. 280. It is a station on the P. & M. R. R. **Sciota** (p. v.) is a station on the P. & M. R. R., in the s. w. corner of the town. **Chazy Landing** is a hamlet on the lake shore. **Ingraham** is a p. o. in the s. e. corner. The first settler was John La Trombois,⁷ who came in town in 1763. After the Revolution the first settlers were refugees from Canada and Nova Scotia. Of these, Lieutenant Murdoch McPherson was the first one that could speak English.⁸ The census reports 5 churches in town.⁹

CLINTON—was formed from Ellenburgh, May 14, 1845. It is the s. w. corner town in the co. Its surface is generally level, with a gentle inclination toward the s. w. The highest points along its s. border are about 1,050 feet above Lake Champlain. A portion of the surface is undulating. It is nearly all underlaid by Potsdam sandstone, which here is remarkably white. The streams are small brooks. More than three-fourths of the town is yet a wilderness. The soil is a light, sandy loam, capable of supporting but a thin growth of forest trees. A large part of the land is owned by capitalists and speculators. **Cherubusco**, (p. o.) the summit station upon the O. R. R., **The Frontiers**, (Frontier p. o.) and **Wrightsville**, upon the w. border, are hamlets. This town lies within No. 6 of the Old Military Tract. The first settlers located upon the Old Military Road and near The Frontiers.¹⁰ A M. E. church has lately been organized.

DANVEMORA¹¹—was formed from Beekmantown, Dec. 14, 1854. It is the central town upon the w. border of the co. Its surface is mostly a wild, mountainous upland, covered with a sandy soil and light growth of forest trees. Chazy Lake, near the center, 3½ miles long by 1½

¹ Called Point au Fer (Fire Point) upon a map bearing date of 1748. During the Revolution, the *Mona*, a vessel of war, anchored off this point, and barracks were built upon the land for the winter quarters of the marines. The place was occupied by the British until 1795. It was reserved by the State in 1787 for military purposes, but was not used.

² This place contains a fine water power, and a large amount of manufacturing is carried on. The greater part of the lumber brought down by the Ogdenburgh R. R. is shipped here.

³ Named from Gen. Perry, former proprietor.

⁴ Named from Jacques Rouse, a Canadian, who settled here in 1783. This village has grown to importance since the completion of the r. r. The passenger and freight depôts are both among the largest r. r. structures in the State. A bridge a mile long here crosses the lake. A floating draw 1,200 feet, opened and shut by steam, admits the passage of vessels. About one mi. s. of the village, upon the banks of the lake, Fort Montgomery is situated. This fort commands the entrance to the lake. It was begun soon after the War of 1812; but in 1818 it was found to be within the limits of Canada, and the work was abandoned. It became known as "*Fort Blomberg*," but by the Webster Treaty of 1842 it was ceded again to the U. S. Work upon it has been resumed; and it is estimated that the completed work will cost \$900,000, of which sum \$275,000 has already been expended.

⁵ Named from Ebenezer Cooper, who erected mills there.

⁶ Moore came in to survey the tract granted to Smith, Graves,

and others, in 1785. He erected the first saw and grist mills, in 1789. Among the other early settlers were Uthman Rogers, Wm. Beaumont, Chas. L. Sully, Samuel Ashman, Joseph C. Dim, Silas Hubbard, Elias D'wey, Charles Bellow, David Savage, and Benj. Tyler.

⁷ M. E. Prot. E. Presb., and R. C. Since 1857, a church, have been organized at Rouses Point; R. C., M. E., and Prot. A.

⁸ Pronounced Shazee. It included the patent granted to Elkannah Dean and 29 others, July 11, 1799.

⁹ He was accompanied by two men, named Gonde and Swartz. He was driven off in 1776, but returned after the war, and died there in 1810.—*Baker's Hist. Lake Champlain*, p. 80.

¹⁰ Among the early settlers were Levi Hazen, Septa Elin, r. r., John Bronson, Elisha Bains, n. George Root, and John Douglas. Miss M. Bingham taught the first school, in 1802.

¹¹ 2 M. E., Bap., Cong., and Wes. Meth.

¹² Among the severely settlers were John Howard, Calvin Johnson, C. A. Smith, Ebenezer Gates, George Peters, and Stephen Martin, mostly from Vt. The first child born was Rhoda S. Howard, Feb. 7, 1814; the first marriage, that of Caroline Austin and Fanny Hall, in 1822; and the first death, that of a child of William Hunter, in 1820. Mary Flanders taught the first school, in 1821; Benjamin Roberts kept the first store, 1814; D. Bachus the first store, in 1833; and John M. Gray opened the first sawmill.

¹³ Named by Gen. Skinner, from a celebrated iron locality in Sweden.

wide, discharges its waters e. into Chazy River. Upper Chateaugay Lake, on the w. border, 5 mi. long by 1½ broad, discharges its waters w. into Chateaugay River. The few settlements in town are confined to the s. e. corner. **Bannemora** (p. v.) is a small village grown up around the Clinton Prison. This prison was located here in 1845, for the purpose of employing convicts in the mining and manufacture of iron, so that their labor would not come so directly in competition with the other mechanical trades.¹ The first permanent settler was Thomas Hooker, who came to reside in 1838. The census reports 1 religious society (Presb.) in town.

ELLENBURGH²—was formed from Mooers, April 17, 1830. Clinton was taken off in 1845. It lies upon the w. border of the co., x. of the center. Its surface is an upland, mountainous in the s. and rolling in the n., with an inclination toward the n. e. English River flows e. across the n. border. The soil is generally sandy; but in many places the sand is covered with a rich vegetable mold. The settlements are principally confined to the valley. Potatoes are raised in large quantities. Lumbering is extensively carried on. **Ellenburgh** (p. v.) contains 3 churches, a sawmill, tannery, and 125 inhabitants. **Ellenburgh Center** (p. v.) contains a church, saw and grist mill, 2 starch factories, a machine shop, and 15 dwellings. **Ellenburgh Depot** is a hamlet on the line of Altona. James Blanchett came to this town in 1796, but left soon after. The first permanent settler was Abner Pomeroy, from Vt., about 1800.³ There are 4 churches in town.⁴

MOOERS⁵—was formed from Champlain, March 20, 1804. Ellenburgh was taken off in 1830. Its surface is generally level, with a gentle inclination to the n. e. The principal streams are Great Chazy and English Rivers. The surface is entirely underlain by Potsdam sandstone, and is covered with a light, sandy soil. Along the x. border are several small swamps. Upon the Canada line, in the n. w. corner, is a remarkable chasm in the rocks, called The Gulf.⁶ **Center-ville**, (Mooers Forks p. o.) upon the Chazy, contains 2 churches, a sawmill, stove factory, and 30 houses. It is a station on the N. R. R. **Mooers**, (p. v.) upon the Chazy, in the e. part, contains 2 churches and 40 houses. It is near the junction of the O. and P. & M. R. R's. **Angell-ville**, upon Corbeau Creek, in the s. e. corner, is a hamlet. The first settler was Joshua C. Bosworth, who located in town in 1796.⁷ The first preacher was Rev. Andrew Blackman, in 1800; and the first settled minister was Rev. Martin Powell, in 1807.⁸

PERU⁹—was formed from Plattsburgh and Willsborough, (Essex co.,) Dec. 28, 1792. A part was annexed to Willsborough in 1799, and Au Sable and Black Brook were taken off in 1839. It lies upon the lake, s. of the center of the co. The surface in the center and e. is rolling and slightly inclined toward the lake, and in the w. broken and mountainous. The Au Sable flows across the s. e. corner, and along its course are extensive swamps. Little Sable drains the greater part of the remaining portions of the town. The principal body of water is Military Pond, on the w. line. A strip of land 2 mi. wide, extending along the lake, has a soil composed of clay and clay loam. West of this is a plain 4 mi. wide, covered with sand and interspersed with swamps. In the w. the soil is a light, sandy loam. **Peru**, (p. v.) on the Little Sable, near the center of the town, contains 2 churches, a gristmill, starch factory, and tannery. Pop. 504. **Laphams Mills**, 2 mi. below Peru, contains a large flouring mill, a plaster mill, forge, and 15 dwellings; **Peasleville**, on Salmon River, in the n. w. corner, a forge and 25 dwellings. **Port Jackson**, (Valcour p. o.) on the lake, opposite Valcour Island, is a hamlet containing a church. **Peru**

¹ The prison was erected under the superintendence of Ransom Cook, under an act passed May 1, 1844. The prison grounds, comprising 25 acres, are located upon the slope of a hill, and are surrounded by pickets 20 feet high. The main buildings, constructed of dressed stone, are in the form of a T, and are respectively 164 by 56 feet, and 160 by 40 feet. The cells are constructed in a block, 3 stories high in the center of the building, a wide corridor extending completely around between them and the outer walls. The main buildings have slate roofs and are completely fire proof. Within the grounds are a steam forge, with 10 fires, a rolling mill, foundry, steam separator capable of washing 600 tons of ore per month, 7 coal kilns, a steam sawmill, machine shop, and the ruins of a blast furnace, burned June 26, 1856. A large share of the labor of constructing these works has been done by convicts. The prison works were first supplied with ore from the Skinner Mine, owned by the State; but more recently from the Averill Mine. A new mine has lately been discovered upon the State grounds. Besides the manufacture of iron, stove making, coopering, and shoemaking are carried on. The total earnings in 4 years, ending in 1857, were \$12,637.56; and the total expenses, \$212,001.22.

² Named in compliment to Ellen, daughter of John R. Murray, of N. Y., the principal proprietor of Township No. 5 of the Military Tract.

³ Among the early settlers were Aaron Broadwell and Lewis

Bansom, in 1822; and Benjamin Hine, W. Jennings, jr., Joseph Sney, Pardon Baily, Joseph Lawrence, and Samuel Hazleton, soon after. The first child born was Lloyd Rogers Hine. He was named after Lloyd Rogers, and received a farm of 50 acres for the name. The first marriage was that of Smith DeLaurier and Phoebe Eastabrook. John R. Murray built the first saw and grist mill.

⁴ M. E., Prot. E., Presb., and Union. The Union Church was built by J. R. Murray.

⁵ Named from Maj. Gen. Benj. Mooers, an early settler and prominent citizen of the co.

⁶ This gulf is 16 rods wide and 200 feet deep. At its bottom is a pond of water said to be 150 feet deep. The walls are of sandstone, and perpendicular. No existing agencies could have produced the chasm.—*N. F. Geol.*, 2d *Dist.*, p. 309.

⁷ Among the early settlers were Ichabod Bosworth, Gen. and Daniel Perry, Andrew Blackman and sons, Daniel Southwick, John Joseph, and Samuel Churchhill, John Sheldon, and Robert Tripp. The first child born was Wm. Hallenbeck, in 1801; the first marriage, that of David Anderson and Rhoda Perry, Dec. 5, 1805; and the first death of an adult, that of Mrs. J. C. Bosworth, Sept. 26, 1802.

⁸ The census reports 4 churches in town; Cong., M. E., Prot. E., and Presb.

⁹ Name applied from its mountainous character

w. region is too rough for cultivation. **Saranac**, (p. v.) upon Saranac River, contains a church, sawmill, forge, and 50 houses. **Redford**, (p. v.) on the Saranac, near the s. border, contains 3 churches, several sawmills, and 60 houses.¹ **Russia**, 2 mi. above Saranac, contains 2 forges and 20 houses. The first settlement was begun in 1802, by Russell Case and Ezekiel Pearce.² The first preacher was Rev. Lambert Hopper, in 1805.³

SCHUYLER FALLS⁴—was formed from Plattsburgh, April 4, 1848. It is an interior town, lying a little s. e. of the center of the co. Its surface is rolling in the e. and hilly in the w., with an inclination toward the e. The Saranac forms its n. boundary, and Salmon River flows along its s. border. The soil is a light, sandy loam. **Schuyler Falls**, (p. v.) on Salmon River, near the s. line of the town, contains a church, gristmill, starch factory, and 50 dwellings. **Morrisonville**, (p. v.) on the Saranac, lies partly in Plattsburgh. It contains 3 churches, a gristmill, sawmill, starch factory, foundery, machine shop, and 35 houses. **Norrisville**, upon Salmon River, 3 mi. w. of Schuyler Falls, contains a starch factory, 2 forges, and 15 dwellings. The first settler was Ezra Turner, who located upon Salmon River in 1797.⁵ The census reports 2 M. E. churches in town.⁶

¹ Formed since 1855.

¹ In 1813, John S. Foster, agent of a company, came to this place and erected a saw and grist mill, and during the next season, a large manufactory of crown glass. The manufacture of glass was carried on with varying success until 1852, when it was finally abandoned. Mr. Foster went to Jefferson co. in 1812, and there commenced the manufacture of glass, (see page —) Goshen Cook, Elias W. Corning, and Matthew Lane, of Troy, were proprietors of the establishment.

² Among the early settlers were Sylvanus Smith, Wright Spaulding, Lyman Mandy, Nathl Lyon, John Gregory and son, Ezra, Lewis Ferris and sons, Isaiah and John Lambert, John M. Hopper and John Chamberlain. Sumner Stone, first agent for Township No. 4 of the Old Military Tract, with another man, attempting to go to Malone, was caught in a snow storm, and his companion frozen to death, Oct. 5, 1802. He was himself

so injured that he died in 3 weeks. John D. Fiske, the second agent, was killed by a falling tree, June 21, 1805. The first birth was that of Isaac Smith, May 3, 1804; the first marriage, that of Gaudus Hopper and Sophia Case, in 1810; and the first death of a settler, that of John D. Fiske, June 8, 1805. Royal Spaulding taught the first s. school, in 1805; and Isaiah Ferris built the first saw and grist mill, in 1806.

³ There are 4 churches in town; 2 M. E., Presb., and R. C.

⁴ Named after the proprietor of the present village site.

⁵ Among the early settlers were Daniel and Rowwell Jones, John P. Roberts, David Hare, Daniel Hillson, Henry Purdy, Jonathan Wickham, and Jas. Brand, all of whom located upon Salmon River.

⁶ 2 churches (Bapt. and Union) at Morrisonville are located N. of the river, in Plattsburgh.

COLUMBIA COUNTY.

This county was formed from Albany, April 1, 1786.¹ It lies upon the E. bank of the Hudson, between Rensselaer and Dutchess cos., and extends E. to the Massachusetts line. It contains an area of 688 sq. mi., and is centrally distant 29 mi. from Albany. The Taghkanick Mts. extend along the E. border, and the adjoining parts of the co. are broken by numerous irregular ranges of hills which constitute the outlying spurs of those mountains. The W. part of the co. consists of an undulating plateau terminating in bluffs on the Hudson River. The principal streams are Roeliff Jansens Kill² and Claverack and Kinderhook Creeks. Upon these streams and their tributaries are numerous valuable mill sites. In the E. and N. parts of the co. are several picturesque lakes, the principal of which are Kinderhook, Copake, and Charlotte Lakes, and Whittings, Robinsons, Snyder, and Rhoda Ponds. The prevailing rocks are the Hudson River shales. The slate rocks in this co. crop out toward the W., usually at an angle of 45°, but sometimes almost vertically. Limestone crops out in different parts of the co. Brown hematitic iron ore is found in numerous localities in the E. part of Aneram and Copake.³ Lead has been mined in Aneram,⁴ and manganese, peat, and marl are found in different localities. In New Lebanon are the celebrated thermal springs; in Stockport are other mineral springs, and in Chatham is a small sulphur spring.

The various branches of agriculture form the leading industrial pursuits of the people. Hay, (of which large quantities are pressed and sent to market,) rye, oats, corn, potatoes, and buckwheat, are the staple productions. Stock raising and dairying receive considerable attention. The manufacture of paper, cotton fabrics, vegetable extracts, and iron, is largely carried on.⁵ A greater quantity of paper is made in this co. than in any other in the State, and the co. also takes precedence of all others in the amount of finetures and extracts prepared from medicinal plants.

The city of Hudson is the county seat.⁶ The courthouse and jail is a fine building, fronting on Washington Square. It has a marble front, with an Ionic portico, and contains the court and jury rooms, and the co. clerk's, sheriff's, and district attorney's offices.⁷ The poorhouse is a spacious brick building located upon a farm of 200 acres in Ghent.⁸

The most important works of internal improvement are the Hudson River R. R., extending through the W. part of the co., the Albany & West Stockbridge R. R., through the N. part, the Hudson & Boston R. R., terminating at Hudson, and the New York & Harlem R. R., terminating at Chatham Four Corners. Four newspapers are published in the co.⁹

¹ By this act the N. boundary was defined as the N. line of "Kinderhook District," and the S. boundary as the S. line of "Kings District." The latter line was more accurately defined, April 1, 1799.

² Named from Roeliff Jansen, Overseer of the Orphan Chamber (an office similar to that of surrogate) under the Dutch Government. The Indian name was "Suck-henack."—*Doc. Hist.*, III, 612.

³ Large quantities of ore have been taken from these localities. It is obtained near the surface, and its depth is not known.

⁴ This ore is found near the junction of the slate and limestone strata, and occurs in strings and bunches.—*Geol. Rep.*, 1838, p. 59.

⁵ There are 15 paper mills and 8 cotton factories in the co. The first paper mill was erected at Stuyvesant Falls, in 1802, by Geo. Chittenden; and the first cotton factory, in 1813, by Nath'l Wilde.

⁶ The co. seat was formerly located at Claverack. The first meeting of the board of supervisors was held at the house of Gabriel Esselsteyne, in Claverack. An appropriation of £2000 was made for a courthouse, and Wm. B. Whiting, Abraham J. Van Alstyne, John Livingston, Henry I. Van Rensselaer, Matthew Scott, Seth Jenkins, and Wm. H. Ludlow were appointed commissioners to superintend its erection. In 1788, an additional appropriation of £1200 was made, and in 1798 another of £400. The first co. officers were Peter Van Ness, *First Judge*; Peter Sylvester, Peter R. Livingston, Henry I. Van Rensselaer, and Wm. B. Whiting, *Judges*; Killian K. Van Rensselaer, *Serrogate*; Lawrence Hogeboom, *Sheriff*; Robert Van Rensselaer, *Clerk*; and Walter Vrooman Wemple, *Treasurer*. By the act of Feb. 25, 1805, the co. seat was removed to Hudson on condition that the city appropriate for the use of the co. the city hall, a

lot of land, (upon which to erect co. buildings,) and the sum of \$2000. A committee, consisting of Wm. Wilson, Jacob Ford, Thos. Jenkins, Benj. Birdsall, and Nathaniel Green, was appointed to superintend repairs and the erection of a jail.

⁷ The courthouse was erected in 1855, at a cost of \$3500.

⁸ This building was erected in 1857, at a cost of \$22,000, and, together with the surrounding buildings, has accommodations for 500 persons. The farm is mostly worked by the inmates of the institution.

⁹ *The Hudson Gazette*, the first paper published in the co., was established April 7, 1785, by Asabel Stoddard and Chas. R. Webster. Webster soon after withdrew, and the paper was continued by Stoddard until 1805-04.

The Bee was removed from N. W. London, Conn., to Hudson, Aug. 17, 1802, and was published by Chas. Holt until 1810. It then passed into the hands of Saml. W. Clark, and afterward into those of John W. Dutcher. It was changed, about 1820, to

The Columbia Centinel, and two years afterward it was united with the *Columbia Republican*.

The Balance and Columbia Repository was started in 1802, by Ezra Sampson, George Chittenden, and Harry Crosswell. It was removed to Albany in 1808, and discontinued in 1811.

The Wasp was edited a short time by "Robt. Rusticvat," in the early part of the present century.

The Hudson Newspaper and Balance Advertiser was commenced in Oct. 1806, by Harry Crosswell.

The Republican Fountain, established in Dec. 1806, was published about 1 year, by Sylvester Roberts.

The Northern Whig was begun in 1808, by W. B. Stebbins. Wm. L. Stone became the publisher in 2 or 3 years,

The first settlements were made in the s. part of the co., under the Dutch Government. The e. border was settled chiefly by squatters from New England. Livingston Manor was patented July 22, 1686, and first settled by tenants about the beginning of the last century. The most important settlement was made by German Palatinates, in 1710, upon a tract of 6000 acres—now constituting the principal part of Germantown—which had been sold back to the Government by Robert Livingston. The territory of Mass., under its charter, extended westward to the Pacific Ocean, and grants were made by that colony.² Conflicting claims gave rise to bitter contentions and riotous outbreaks. Arrests made under Mass. warrants led to riots and bloodshed.³ Combinations were formed to dispossess the proprietor of the Livingston Manor, which resulted in tumults and murders.⁴ These difficulties continued until after the Revolution. During the Revolutionary War, and for several years after, this section of the country was much infested by robbers, and acts of violence were of frequent occurrence.⁵ The anti-rent movement of 1840-50 extended to the Livingston Manor, the John J. Van Rensselaer Tract, and other districts held by leasehold. In Dec. 1844, the Governor ordered out 7 companies of militia to assist the sheriff of this co. in the discharge of his duties. Most of the leases which had then been issued were for 1, 2, or 3 lives; but the anti-rent difficulties have led to the policy of conveying the title in fee as rapidly as circumstances will admit.⁶

ANCRAM—was formed from Livingston, March 19, 1803,⁷ as "*Gallatin*." Its name was changed March 25, 1814, and Gallatin was taken off in 1830. It is the s. e. corner town of the co.

Richard L. Cross in 1816, and W. R. Stebbins in 1821. It was discontinued in 1824.

The Columbia Magazine was published at Hudson at an early date, by Rev. John Chester.

The Spirit of the Furor and Hudson Remarker was published in 1817, by a literary association.

The Columbia Republican was started in Aug. 1818, by Solomon Willbur. In 1820 it passed into the hands of Amrose L. and Allen Jordan, and is now published by Wm. Bryan. For a year or two, about 1835-36, it was issued as

The Columbia Republican and Hudson City Advertiser.

The Hudson Gazette was established in 1824, by Peleg G. Sartrevent, and is now published by Williams & Brother.

The Messenger of Peace was started in 1824, at Hudson, by Richard Curriue, and continued 1 year.

The Rural Repository, semi-mo., was commenced, June 12, 1824, by Wm. B. Stoddard, and continued until 1851.

Columbia and Greene Co. Encey was started at Hudson, in 1831, by Edwin G. Linsley, and continued 2 years.

The Unionist, semi-mo., was published at Hudson, in 1833, by G. F. Stone.

The Magnolia, semi-mo., was published at Hudson, in 1834, by P. D. Curriue.

The Hudson Phil was published by J. R. S. Van Vliet, during the campaign of 1840.

The Columbia Washingtonian was started at Hudson in 1842, by J. R. S. Van Vliet. The paper changed hands several times, and was changed to

The Daily Evening Star, Dec. 28, 1847, by Alex. N. Webb. It is now published as

The Hudson Star, 4a. and w.

The Columbia Democrat was commenced at Chatham Four Corners, in 1847, by _____

The Temperance Palladium was published at Hudson in 1851, by J. W. Dutcher.

The Hudson Daily News was published in 1855, by Richard Van Antwerp.

The Kinderhook Sentinel was established at Kinderhook in June, 1825, by Peter Van Schaack, and in Jan. 1832, was changed to

Columbia's Sentinel. In 1834 it passed into the hands of John V. A. Hess, but about 18 months afterward it reverted to Van Schaack. It has since been changed to the

Rough Notes, and since 1854 it has been published at Kinderhook, by P. H. Vleck.

The Patriot Weekly Times was published in 1853, by H. N. Hopkins.

The Equal Rights Advocate was started at Chatham Four Corners, by an anti-rent association. In 1848 it was removed to Hudson and changed to

The Democratic Freeman. It was discontinued in 1855-56.

The Columbia Co. Journal was published at Chatham Four Corners in 1850, by Philip H. Ostrander.

The Journal of Materia Medica was commenced at New Lebanon in 1857; H. A. Tilden, pub., Joseph Bates, M. D., ed.

¹ The patent of this manor conferred upon Robert Livingston, the patentee, feudal privileges, and imposed an annual quitrent of 25 shillings. The manor contained 170,240 acres, and included nearly all the present towns of Clermont, Germantown, Livingston, Gallatin, Taghkanick, Ancram, and Copake. It consisted of 23 purchases: the Livingston purchase, obtained of

the Mohogan Indians in July, 1683, and the Taghkanick purchase, obtained Aug. 10, 1685. They were confirmed by Gov. Dongan, the former, Nov. 4, 1684, and the latter, Aug. 12, 1685.

In 1701 there were but 4 or 5 houses on the manor. From and after 1710 the manor was represented by a member in General Assembly. Before his death—which took place in 1728—Robert Livingston bequeathed to his son Robert that part of the manor now included in the town of Clermont, and the residue to his eldest son, Philip. The latter was succeeded by Robert Livingston, Jr.; and in 1792 the land e. of the post road was divided between Walter, Robert C. John, and Henry Livingston, the devisees of Robert Livingston, Jr., according to the provisions of his will.—*Sutherland's Deduction of the Title of the Manor of Livingston: Doc. Hist. III, Colonial Hist.*

In the patent and upon the maps of the manor, several places are designated by their Indian names, viz.—

Ahaswagahlick, a hill in s. w. corner, on Mass. line. *Ara-wanok*, a flat or rock in N. part of North East, (Dutchess co.) *Kochwawegick*, a place w. of a certain mountain. *Kickoa*, or *Kickpa*, one of 3 plains near Roellif Jansens Creek. *Momanosick*, hill in w. part, on or near Mass. line. *Mawawagwasick*, stone heaps on N. line, "where Indians have laid several heaps of stones together, by an ancient custom amongst them." *Mohas-lakook*, a "cripple bush" on s. line of patent. *Marihachak*, a flat on both sides of a creek where it joins R. Jansens Creek. *Menmissickdanock*, a piece of land N. of Roellif Jansens Creek. *Nawawagwasick*, on N. line of manor, (Sauthier's map.) *Nichowawachkano*, creek tributary to Twastawakak. *Nichankoko*, one of 3 plains near Roellif Jansens Creek. *Pittlook*, patented to K. Van Rensselaer, s. of Kinderhook. *Quisickook*, a small creek N. of Roellif Jansens Creek. *Sawakohampha*, or *Sawakohamaba*, a place opposite Saugerties, Ulster co. *Sachko*, on N. line of the town of North East. *Sauhbenak*, Roellif Jansens Kil. *Swaankook*, a creek. *Tawastawakak*, or *Twastawakak*, a creek. *Wuchawakaisick*, a small stream opposite Catskill Creek. *Wahanasick*, near Roellif Jansens Creek, (Sauthier's map.) *Wichyachtokook*, a place. *Wichyachtokook*, s. w. corner of Mass.

² With the view of settling their claims upon the Hudson, the Boston Government, in March, 1672, sent John Paine to New York to solicit permission to pass and re-pass by water. The application was received with cold civility, and the subject referred home for the decision of his Majesty. Gov. Lovelace improved the occasion to remind the Mass. people of the distrust with which they had received the commissioners sent over in 1664, and intimated that their application under other circumstances might have been differently received.—*General Entries*, IV, 177, 178. See, *Office*.

³ *Doc. Hist.* III, 754.

⁴ In 1791 the sheriff of the co. was murdered by an armed mob while in the discharge of his official duty.

⁵ A party of rangers was organized to suppress these; and under the act of May 11, 1780, £1500 was raised to defray the expenses thus incurred.

⁶ *Assen. Doc.* 156; 1846, p. 2.

⁷ This town was included in the Livingston Manor. The line bordering upon Taghkanick was altered March 25, 1814. A narrow triangular tract of about 1000 acres, in the extreme e. part of the town, known as "*Boston Corner*," formerly belonged to the town of Mt. Washington, Berkshire co., Mass. The Taghkanick Mts. extend along the e. border of the tract, and form an almost impassable barrier between this and the remaining parts of that town. This entirely isolated from the

The surface is broken and hilly. In the e. part the hills range in a n. and s. direction, but elsewhere they are irregular. Roeliff Jansens Kil¹ crosses the town in a s. w. direction. A narrow intervalle, bordered by steep, irregular hills, extends along its course. The soil is a gravelly loam intermixed with clay. Iron ore has been obtained at different places from the hills upon the e. border of the town,² and lead ore is mined at Hot Ground.³ **Ancram**,⁴ (p. v.) situated on Roeliff Jansens Kil, in the w. part of the town, contains 2 churches, a paper mill, a sawmill, and about 30 houses. **Hot Ground** (Ancram Leadmines p. o.) and **Boston Corner**, (p. o.) a station on the Harlem R. R., are hamlets. The town was first settled by the Dutch, in the neighborhood of Ancram Village. There are 3 churches in town.⁵

AUSTERLITZ—was formed from Canaan, Chatham, and Hillsdale, March 28, 1818. It lies on the e. border of the co., n. of the center. The e. and central parts are broken by irregular ranges of hills, and the w. part is undulating. The principal streams are Green River in the e. and Punsit Creek in the w. The soil is a gravelly loam intermixed in some parts with slate and clay. The hills are mostly arable to their summits. **Spencertown**, (p. v.) on Punsit Creek, in the w. part of the town, contains 2 churches, an academy,⁶ and 2 gristmills. Pop. 225. **Austerlitz**, (p. v.) in the valley of Green River, contains 2 churches and 150 inhabitants. **Upper Green River** is a hamlet in the s. e. part of the town. The first settlements were made about 1745 to 1750, by squatters from Conn.⁷ Disputes concerning the ownership of lands thus appropriated arose; and on the 31st of May, 1757, the settlers appointed a committee to adjust the difficulties. About 1774, Nathaniel Culyver and Jas. Savage were sent to England to secure a grant of these lands to the settlers; but, owing to the trouble existing between the mother country and the colonies, they were unsuccessful. The land titles were finally settled by the act of March 22, 1791. The first church (Cong.) was organized in 1750, and Rev. Jesse Clark was the first pastor.⁸

CANAAN—was formed as "*Kings District*," March 24, 1772, and its name was changed March 7, 1788. A part of Chatham was taken off in 1795, and New Lebanon and a part of Austerlitz in 1818. It is situated on the e. border of the co., between Austerlitz and New Lebanon. A range of mountains or hills separates it from Massachusetts. The surface is broken and hilly. Whittings Pond, in the e. part of the town, is about 2 mi. in circumference. Its outlet is tributary to Kinderhook Creek and affords several valuable mill sites. The soil is a gravelly or slaty loam and clay. The hills are mostly arable to their summits. Near the center of the town is a slate quarry.⁹ **Canaan Four Corners**, (p. v.) a station on the A. & W. S. R. R., contains 1 church and 32 dwellings; **Flat Brook**, (p. v.) a station on the same r. r., contains 1 church and 15 dwellings. **Canaan** (p. o.) and **Canaan Center** (p. o.) are hamlets. **Queechy**, on the outlet of Whittings Pond, contains 1 church, 2 paper mills, a sawmill, a gristmill, and 21 dwellings; and **Red Rock**,¹⁰ in the s. w. corner of the town, contains 3 churches, a sawmill, a gristmill, and 30 dwellings. Two families of Shakers, consisting of about 75 persons, reside in the n. e. part of the town. They are chiefly engaged in farming, and their estate consists of over 1400 acres. They raise garden seeds to a limited extent, and manufacture brooms, mop sticks, and other similar articles. The settlement of the town was commenced about 1756.¹¹ At a meeting of the citizens of "*Kings District*," (June 24, 1776,) held for the purpose of choosing delegates to the Provincial

sent of civil authority, it became the resort of fugitives from justice, prize fighters, and others of like character, who had defied to the laws and practiced their unlawful acts with impunity. In Dec. 1848, the inhabitants petitioned to be annexed to N. Y. The State of Mass. consented in May, 1853. The cession was accepted by New York, July 21 of the same year, confirmed by Congress, Jan. 3, 1855, and the Corner was annexed to this town, April 13, 1857.—*N. Y. Assen. Docs.*, 54 & 184, 1849.

¹ Called "Ancram Creek" in this town.

² These mines have been worked many years. Considerable quantities of ore are obtained on the land of A. McArthur and sent to Millerstown (Dutchess co.) on the Harlem R. R. An ore bed, of this, owned by the Empire Co., is connected with the r. r. by a track $\frac{1}{2}$ mi. long.

³ This mine was discovered on land leased by the keeper of the Livingston Manor. Robt. R. Livingston purchased the lease, and sold it to a N. Y. Co., by whom the mine was worked until within a few years. A shaft has been sunk 100 feet, and galleries opened in different directions. The mine is on land now owned by H. McIntyre.

⁴ This place was formerly celebrated for its iron works. These were erected as early as 1756. The ore was obtained from Salisbury, Conn., and from mines in the e. part of this town, and pig and bar iron of a superior quality was made.

⁵ Evang. Luth., M. E., and Presb.

⁶ The Spencertown Academy was established mainly through the exertions of Rev. Dr. T. Woodbridge.

⁷ Among the early settlers were John Dean, John Williams, Seth and Truman Powell, Jas. Sexton, Ephraim Kuller, and families by the names of Osborne, Lawrence, Spencer, and Whitmore.

⁸ The census reports 4 churches in town; Christian, Cong., M. E., and Presb.

⁹ This quarry is on the land of L. D. Ford. The slates are of a dark blue color, and plates of any required size or thickness may be obtained.

¹⁰ So named from a large rock by the road-side, pointed red, and surmounted by a wooden column about 10 feet high, bearing the date "Jan. 1825."

¹¹ Among the early settlers were families named Donalys, Warner, Whiting, Alsworth, Baldwin, and Hawley. The first mill was built by Wm. B. Whiting, about 1775. This mill stored with grain belonging to the government, was burnt by Tories during the war. In the first book of records is a memorandum, without date or signature, stating that "the town records were kept on loose paper previous to 1772, but not probably but a few years. The deed from the Indians of 6 mi. sq. was executed in 1758. The compensation was £250, that being paid for the 6 mi. sq." The record is continuous since May 5, 1772.

Congress, it was voted to recommend to that body the passage of a declaration of independence.¹ There are 7 churches in town.²

CHATHAM—was formed from Canaan and Kinderhook, March 17, 1795, and parts of Anserlitz and Ghent were taken off in 1818. It lies near the center of the n. border of the co. The surface is moderately hilly, the ranges generally extending n. and s. The principal stream is Kinderhook Creek, upon which are numerous mill sites. The soil in the valleys is a gravelly loam intermixed with clay, and upon the hills it is slaty. The valleys are broad and fertile, and the hills arable to their summits. Near New Concord is a sulphur spring. **Chatham Four Corners** (p. v.) is situated partly in this town and partly in Ghent. It is an important station on the A. & W. S. R. R. and the H & B. R. R., and is the terminus of the Harlem R. R. The depôts of these roads are in Ghent. The village contains 3 churches, a machine shop, and 3 foundries. Pop. 697. **East Chatham**, (p. v.) a station on the A. & W. S. R. R., near the line of Canaan, contains 2 churches, a gristmill, sawmill, and candle factory. Pop. 245. **New Concord** contains 1 church and 109 inhabitants; **Chatham**, (p. v.) 1 church, a furnace and plow factory, gristmill, and sawmill, and a pop. of 214; **Rayville** a Friends meeting house and 13 houses; **Chatham Center**, (p. v.) 1 church and 127 inhabitants; **Malden Bridge**, (p. v.) 1 church, a paper mill, sawmill, and tannery, and a pop. of 193; and **Riders Mills**, a gristmill, sawmill, and 12 houses. **North Chatham**, (p. v.) contains 2 churches, a sawmill, gristmill, and plaster mill. Pop. 179. The settlement of this town commenced about 1725. The settlers were from Kinderhook, but originally from Holland. A company from Connecticut settled at New Concord in 1758.³ The census reports 11 churches in town.⁴

CLAVERACK⁵ (Claw've-rack)—was formed as a district, March 24, 1772. Hillsdale was taken off in 1782, and Hudson in 1785. It was recognized as a town, March 7, 1788. A part of Ghent was taken off in 1818. It lies near the center of the co. The surface in the w. part is undulating, and in the e. hilly. Claverack Creek, upon the w. border of the town, and its tributaries, are the principal streams. The soil is a rich loam in the w., and a gravelly loam intermixed with slate in the e. **Claverack**, (p. v.) in the w. part of the town, a station on the H. & B. R. R., contains 2 churches and the Claverack Academy and Hudson River Institute;⁶ pop. 496; **Mellenville**, (p. v.) a station on the H. & B. R. R., contains 2 churches, a gristmill, and 30 dwellings; and **Philmont**, (p. v.) a station on the Harlem R. R., contains several manufacturing establishments⁷ and 35 dwellings. **South Bend Mills**, **Martindale Depot**, (p. o.) and **Humphreysville** (p. o.) are hamlets. **Smoky Hollow** (p. v.) contains several manufactories⁸ and 25 dwellings, and **Churchtown** (p. v.) 1 church and 14 dwellings. The Ref. Prot. D. church, Claverack, was organized in 1716, and the present edifice was erected in 1765. There are 6 churches in town.⁹

CLERMONT—was formed from the Livingston Manor, March 12, 1787.¹⁰ It lies upon the Hudson, in the s. w. corner of the co. The surface is undulating. Roeliff Jansens Kil forms the e. boundary. The soil is a fertile loam, and in some places sandy. **Clermont**, (p. v.), near the e. part of the town, has a pop. of 155. The first settlement was made at an early day by Germans, who occupied the lands as tenants. A school was established, in 1791, by a special act of the legislature, before any general school system had been adopted in the State.¹¹ Robert R. Livingston, a prominent statesman of the Revolution and the first chancellor of the State, was a resident of this town. A German Lutheran church, about 3 mi. w. of the village of Clermont, is the only church in town.

COPAKE—was formed from Taghkanick, March 26, 1824. It lies on the e. border of the co., between Hillsdale and Ancram. Its surface is broken by ranges of hills separated by broad

¹ William B. Whiting, Asa Waterman, Philip Frisbee, Martin Beede, Elisha Pratt, Capt. Baldwin, Daniel Buck, Elijah Bostwick, Gideon King, Jarvis Mudge, Saml. Johnson, Saml. Gillett, L. A. Herrick, Joseph Wood, John Woodworth, and Saml. Bailly were a committee to prepare a memorial making such recommendation to Congress.

² 2 Bap., 2 M. E., Christian, Cong., and Presb.

³ Among these were John Beede, and others named Cady, Hurlburt, Palmer, and Davis. A little w. of Chatham Center was a stone house, used as a defense against the Indians during the Revolution. A man named Vosburgh, who lived near this house, was killed and scalped; but his family escaped.

⁴ 6 M. E., 2 Bap., Christian, Cong., and Ref. Prot. D.

⁵ This town formerly extended to the Hudson, and the bluffs on the bank were named the "Klauvers," (clovers,) whence "Claver-reach," or "Claverack."—*Benson's Memoir*, p. 44.

⁶ This institution is located upon a beautiful eminence in the N. part of the village, and commands an extensive view of the surrounding country and of the distant Catskills. It is one of the most flourishing institutions in the State. It has accommodations for 500 to 600 pupils.

⁷ Three paper mills, a carpet factory, woolen factory, sash and blind factory, furnace and machine shop.

⁸ Among these are a woolen factory, cradle factory, gristmill, and sawmill.

⁹ 2 Ref. Prot. D., Bap., Evang. Luth., M. E., and Prot. E.

¹⁰ By an act of legislature passed March 2, 1858, a triangular tract, now constituting the N. part of Germantown, was taken off from Clermont.

¹¹ An academy was incorp. April 26, 1834, and received under the regents Feb. 26, 1837, but it was never successfully organized.

and fertile valleys. A high and nearly unbroken range extends along the e. border. In the town are several small lakes, the principal of which are Copake Lake in the w., and Robinsons, Snyder, and Rhoda Ponds in the s. The soil is a gravelly and clayey loam. Near Copake Station are several iron mines.¹ **Copake Station**, (Copake Iron Works p. o.) on the Harlem R. R., contains 1 church, a blast furnace, and 26 houses; **Copake Flats** (Copake p. o.) contains 1 church and 20 houses; and **Baines Station**, (North Copake p. o.) a station on the Harlem R. R., 15 houses. The settlement of this town commenced about the middle of the last century.² A Ref. Prot. D. church was the first church organized, and Rev. Jeremiah Ronney was the first pastor.³

GALLATIN⁴—was formed from Ancram, March 27, 1830. It lies near the center of the s. border of the co. The surface is broken by several ranges of hills, which extend in a n. and s. direction. The highest point is Mattashuk Hill, s. of Lake Charlotte. Roeliff Jansens Kil is the principal stream: its banks are steep and in some places rocky. Charlotte Lake, in the n. part of the town, is a fine sheet of water, surrounded by gentle slopes cultivated to the water's edge. The soil is a slaty and gravelly loam, and moderately fertile. **Gallatinville**, (p. v.) on Roeliff Jansens Kil, contains a gristmill and 11 houses; **Weaver Hollow**, **Jacksons Corners**, (on the line of and p. o. in Dutchess co.,) and **Union Corners**, (partly in Livingston,) are hamlets. The town was settled at a very early day by emigrants from Holland and Germany.⁵ A Ref. Prot. D. church was organized in 1748, and the Rev. Mr. Freymoot was the first pastor.⁶

GHEENT⁷—was formed from Chatham, Claverack, and Kinderhook, April 3, 1818; and a part of Stockport was taken off in 1833. It is an interior town, n. of the center of the co. Its surface is hilly in the e. and undulating in the w. The town is watered by several small streams tributary to Kinderhook and Claverack Creeks. The soil is mostly a gravelly loam, but in some parts it is clayey. **Ghent**,⁸ (p. v.) in the e. part of the town, is a station on the H. & B. and Harlem R. Rs. It contains 2 churches and 18 houses. **West Ghent** (p. v.) contains 1 church and 16 houses. **Pulvers Station** is on the H. & B. R. R. The first settlement was made about 1735, by emigrants from Holland and Germany.⁹ There are 4 churches in town.¹⁰

GREENPORT—was formed from Hudson City, May 13, 1837. It lies upon the Hudson, near the center of the w. border of the co. Its surface is broken and hilly. Beacrofts Mt., in the e. part of the town, is nearly precipitous upon its w. side. Merino Point,¹¹ near the Hudson, has an elevation of 250 feet above the river. Claverack Creek forms the e. boundary of the town, and a small tributary of this stream and Kahseway Creek are the principal watercourses. The interval of the latter is broad and fertile. The soil is clayey along the river and a sandy and gravelly loam in the interior. Limestone is extensively quarried on the e. side of Beacrofts Mt. **Oak Hill** (p. o.) is a station on the Hudson R. R. R. in the s. w. part of the town. A steam ferry connects this place with Catskill Point on the opposite side of the Hudson. Settlement commenced in this town about the middle of the last century.¹² There is but one church (Ref. Prot. D.) in town.

GERMANTOWN¹³—was formed as a district April 1, 1775, and recognized as a town March 7, 1788. A part of Clermont was annexed, March 2, 1858.¹⁴ It lies upon the Hudson, in the s. part of the co. The surface is undulating. Roeliff Jansens Kil forms the n. boundary. The soil is a rich, fertile loam, sandy in a few places. **Germantown** (p. v.) contains 1 church and 19 houses, and **East Camp** 17 houses. The first settlement was made in 1710, by German Palatinates, under the patronage of Queen Anne. The first arrival was in 1710; and on the 1st of May, 1711, there were 1178 settlers in town, and the four villages "*Hunterstown*," "*Queensbury*," "*Annsberg*," and "*Haysburgle*" had sprung into existence.¹⁵ A school was estab-

¹ The ores obtained from these mines are hematites. A new ore bed, that promises an abundant supply of an excellent quality, has recently been opened to the depth of 13 feet.

² Families by the names of Snyder, Briese, and Lampman were among the early settlers.

³ The census reports 3 churches; M. E. Presb., and Prot. E.

⁴ Named in honor of Hon. Albert Gallatin.

⁵ The Knickerbockers and the Snyders were among the first settlers. An Englishman, named Ross, was one of the first settlers in the neighborhood of Gallatinville.

⁶ There are 2 churches in town; Ref. Prot. D. and M. E.

⁷ Named from Ghent, in Holland.

⁸ The Indian name of this locality was "*Seom-pa-muck*."

⁹ Among the first settlers were John, Cornelius, Andrew, and Lawrence Sharp, and Abraham Hogeborn, who located near Ghent Village. A man named Cox had settled near the same place a short time before.

¹⁰ 2 Ref. Prot. D., Evang., Meth., and Friends.

¹¹ This point was formerly called "*Rorabuck*." Its present

name was derived from the fact that a large sheep farm was established here many years ago.

¹² Jacob Johannes Van Hoosen and Ericric Plaise settled in the town as early as 1763.

¹³ Named "*East Camp*" and "*German Camp*" in some early records.

¹⁴ That part annexed was almost isolated from the rest of Clermont, and lay n. of this town.

¹⁵ A tract of 6000 acres, forming the present town of Germantown, was purchased, on the 9th of Sept. 1710, of Robt. Livingston by Gov. Hunter, for the use of these people. It was designed to employ them in raising hemp and making tar, pitch, and rosin for the royal navy, and they were furnished with provisions and tools. The management of their affairs was intrusted to a board of commissioners, consisting of Robt. Livingston, Richard Sacket, John Cast, Godfrey Walsen, Andrew Bagger, and Herman Schureman. John Peter Kneskem was appointed "master" in Hunterstown, John Conrad Wesser in Queensbury, Hartman Windecker in Annsberg, and John Chris-

lished in 1711. The Ref. Prot. D. church was formed in 1728, and Johannes Van Driesen was the first pastor.¹

HILLSDALE—was formed from Claverack, as a district, March 26, 1782, recognized as a town March 7, 1788, and a part of Austerlitz was taken off in 1818. The surface is broken by ranges of high hills extending in a n. and s. direction and separated by narrow valleys. Green River crosses the n. e. corner; and several small streams, which form the headwaters of Recliff Jansens and Claverack Creeks, take their rise in the town. The soil is a gravelly loam and clay. **Hillsdale**, (p. v.) a station on the Harlem R. R., in the s. part of the town, contains 2 churches and has a pop. of 225; **Harlemville** (p. v.) contains 1 church and 225 inhabitants, and **Green River** (p. v.) 1 church and about 12 houses. The town was settled at a very early day,—the s. part by immigrants from Mass. and the n. by Dutch settlers.² The first church (Bap.) was organized June 23, 1787, and Rev. Stephen Gano, D. D., was the first pastor. There are 6 churches in town.³

HUDSON CITY—was formed from Claverack, and incorp. as a city, April 22, 1785.⁴ A part of Stockport was taken off in 1833, and Greenport in 1837. It lies upon the e. bank of the Hudson, at the head of ship navigation, near the center of the w. border of the co. The surface is a rolling upland. A slate bluff rises abruptly from the river to the height of 60 ft., and from its summit a beautifully rolling ridge extends eastward and slopes gradually upward for a distance of one and a half mi., terminating in Prospect Hill, a high, rounded eminence 300 ft. above the surrounding lands and 500 ft. above the river. This ridge is from 6 to 50 rods in width, and is bounded on the n. and s. by gradual and uniform slopes. North and South Bays (two shallow

bodies of water) extend about 1000 ft. inland from the river, converting the w. extremity of the ridge into a promontory.⁵ A public square, containing an area of about an acre and a half, has been laid out upon the summit of the bluff overlooking the river, and furnishing one of the most beautiful public promenades in the country. From the summit of Prospect Hill an extensive view is obtained of the windings of the Hudson, with the distant Catskills on one side, and the Green Hills of Mass. on the other.

In the river, opposite the city, is an extensive mud flat, through which a canal has been cut for the Hudson and Athens Ferry. This canal has recently been abandoned.

This city is the western terminus of the Hudson & Boston R. R., and an important station on the Hudson R. R. R. The manufactures are extensive, consisting principally of iron and clothing.⁶ A considerable amount of commerce is carried on by means of the Hudson.⁷

The *City Hall* is a brick building, situated on Warren St. near the center of the city. The lower story is used for mercantile purposes.

The *Public Schools* are in a flourishing condition. In 1857 the city was divided into 4 districts, and gave employment to 21 teachers,—5 males and 16 females. The number of children between the ages of 4 and 21 was 2562, of which 1095 (or 42½ per cent.) were in attendance some portion of the year. The total expenses of the schools for that year was \$448 38; total receipts, the same; number of volumes in district libraries, 700. A Lancasterian School Society was incorp. April 15, 1817, and it maintained a school many years.⁸

The *Hudson Academy* building, a plain, 3 story brick edifice near Prospect Hill, was erected in 1805.

tion Tucks in Haysburgh. The enterprise was unsuccessful, and many of the settlers removed to the Mohawk and Schoharie Valleys. In the summer of 1711 a company of 25 men from "Huntersdon" volunteered in the expedition against Canada. In 1725 the tract was granted by letters patent to the inhabitants of "East Camp," to be divided equally in fee after reserving 40 acres for church and school purposes.

¹ The census reports 3 churches in town; Evang. Luth. M. E., and Ref. Prot. D.

² Among the early Dutch settlers were families named Showerman, Blackman, Kinyon, Fegers, Evans, and Shurts. — Foster was one of the first settlers near Hillsdale Village. The State surrendered its claims to the lands actually occupied, March 12, 1793.

³ M. E., Bap., Christian, and Presb.

⁴ The express object of this incorporation was to facilitate commercial operations. The charter included all the territory n. of Limestone Manor and w. of Claverack Creek, extending 189 feet into the Hudson.

⁵ Warren St., the principal street of the city, extends along the crest of this ridge from the foot of Prospect Hill to the promenade grounds on the bluff. Few streets in any city have a finer location than this.

⁶ The Hudson Iron Co. have a double blast furnace, driven by an engine of 300 horse power; 80 to 90 men are employed, and 40 to 50 tons of pig iron turned out per day. At the Columbia Iron Works about 40 men are employed, and 20 to 25 tons of pig iron made daily. The ore used in these furnaces is obtained from Weston, Mass., and from Dutchess, Orange, and Essex cos., Clark's Clothing Manufactory employs about 400 hands. In 1858, sales were made to the amount of \$130,000, mostly for the Southern market. Beside these, there are in the city 2 machine shops, 2 iron foundries, a stove foundry, gunshop, cutlery manufactory, bookbindery, flouming mill, brewery, and brickyard.

⁷ An immense quantity of pressed hay, annually sent to the New York market, forms the principal export of the co.

⁸ By act of May 11, 1835, this society was allowed to raise \$400 annually.

The *Hudson Female Academy* was organized in 1851, and occupies a substantial stone building formerly used as a private lunatic asylum.

The *Orphan Asylum* was established in Oct. 1843, and is in charge of a board of lady managers. Forty to 60 children are provided for. It is supported by private donations, assisted by an annual stipend of \$1000 from the co.

The city contains 11 private schools, 2 public libraries, 3 banks, and 3 newspaper offices. Pop. 6,720.

A lunatic asylum was established here in 1832, but it was given up upon the opening of the State Asylum at Utica.¹ The first religious organization (a society of Friends) was formed in 1784, and a meeting house was built in 1785. There are now 11 churches in the city.²

Hudson was formerly known as "*Claverack Landing*."³ The foundation of its future prosperity as a city was laid by Seth and Thos. Jenkins and their associates, in 1783.⁴ It grew with great rapidity, and soon became the center of a very extensive commercial business. In 1775 it became a port of entry,⁵ and at an early period its commerce extended to the West Indies and Europe,⁶ Shad and herring, from the river and coast fisheries, ship timber, and country produce were exported, and numbers of ships were employed in the whale fisheries. The embargo, and the war which followed, destroyed this trade. The whaling business was afterward resumed, and for some time prosecuted with success; but it has since been entirely abandoned. A daily line of steamers plies between this city and Albany, and the day line between Albany and New York touches here.

KINDERHOOK⁷—was formed as a district, March 22, 1772, and re-organized as a town March 7, 1788. A part of Chatham was taken off in 1795, a part of Ghent in 1818, and Stuyvesant in 1823. It occupies the central part of the s. border of the co. The surface is level or undulating. Kinderhook Lake, in the s.e. part, is about 4 mi. in circumference. The principal streams are Kinderhook Creek and the outlet of Kinderhook Lake. The soil is a fertile, sandy, and gravelly loam. **Kinderhook**, (p.v.) situated on the creek of the same name, was incorp. April 18, 1838. It contains 4 churches, the Kinderhook Academy, a newspaper office, 2 banks, and several manufacturing establishments.⁸ Pop. 1078. **Lindenwald**, the residence of Ex Pres. Martin Van Buren, is about 2 mi. s. of this village. **Valatie**,⁹ (val'atie, p.v.) situated at the junction of Kinderhook Creek and the outlet of Kinderhook Lake, was incorp. June 30, 1856. It contains 4 churches, 5 cotton factories,¹⁰ and several other manufactories.¹¹ **Silverville**, (p.v.) on the outlet of Kinderhook Lake, is a station on the A. & W. S. R. R. It contains a wadding factory, batting factory, gristmill, and 21 houses. Settlements commenced under the Dutch Government.¹² The rights of certain settlers were confirmed by the act of March 12, 1793. A controversy concerning the patent of John Hendrick De Bruyn, granted in 1686, was settled by commissioners June 8, 1812. A Ref. Prot. D. church was organized in 1712. Rev. Johannes Lydius, of Albany, conducted the first religious services, and Rev. J. Van Driessen was the first settled pastor. There are 8 churches in town.¹³

LIVINGSTON—was granted as a manor,¹⁴ July 22, 1686, formed as a district, March 24, 1772, and organized as a town, March 7, 1788. Clermont was taken off in 1787, and Moram and Taghkanick in 1803. It is situated in the s.w. part of the co., bordering on the Hudson. The surface is generally undulating. Claverack Creek crosses the s. e. corner, Kleina Kil¹⁵ flows through near the center, and Roeliff Jansens Kil forms the s. w. boundary. In most of its course

¹ Established by Dr. S. White. It was continued 64 years, and during that time 237 patients were admitted.

² Bapt. M. E. Presb., Prot. E., Ref. Prot. D., R. C. Univ., Wes. Meth. Af. Meth., and 2 Friends meeting houses.

³ In 1783, Peter Hageboom, Peter Van Hoesen, Caspar Huyck, John Van Allen, and John, Jacob, Jonathan, and Leonard Hendricks lived at this place. Van Allen kept a store, and Cornel Hook kept a canoe ferry to Loonenburgh.

⁴ Seth and Thomas Jenkins, and 28 others, that year formed themselves into an association for commercial purposes, and selected "*Claverack Landing*" as the seat of their operations. A city plan was at once surveyed, docks were built, and shipbuilding commenced. The following year the Hudson, a ship of 300 tons, was launched by Jenkins & Gelston. Cotton Gelston opened a store the same year, and in 1785 Thomas Jenkins and Josiah Albert built a ropewalk, 600 feet long. Josiah Bernard built a wind-gristmill on Prospect Hill, in 1787; and Thos. and Seth Jenkins and Stephen Paddock, a hemp ducking factory, in 1789.

⁵ Henry Malcolm, the first collector, was appointed June 12, 1795.

⁶ It is said that at one time a greater amount of shipping was owned at this port than at New York.

⁷ A Dutch name, signifying "Childrens Point." There are several versions of the origin of this name: one is, that it was

given by Hudson from the number of Indian children's aggregated to see his vessel at a point above Stuyvesant Landing, and another, that it was derived from the number of children belonging to a family residing at the foot of an Indian trail, which the village of Kinderhook now is.

⁸ A steam cotton factory, gristmill, sawmill, 2 hat factories, and a candle factory.

⁹ A Dutch word, signifying "Little Falls." There is a fall here of about 15 feet, and hence the name.

¹⁰ There are about 400 looms in these factories, and 1,000 persons employed; warp and weaving are made at one of them.

¹¹ A paper mill, furnace, machine shop, plaster mill, and sawmill. Pop. estimate last about 1500.

¹² A record belonging to the Ref. Prot. D. church, 1772, and signed by Johannes Van Driessen, v. t. t. names 17 families then residing in it, was: Van Driessen, 20; Van Allen, Van Alsteyn, Van Allen, Van S. (Seth), Van Buren, Van Der Pool, Cuylen, Hugk, Ysburg, S. (Stephen), Kluis, (Gardiner), Van Valenburgh, Van S. (S. W.), Van Hoesen, Malen.

¹³ M. E. Bapt., Evang. Luth., Prot. D., Prot. E., Ref. Prot. D., and R. C.

¹⁴ The manor, of which this town is a part, was granted to Robert Livingston.

¹⁵ Little Creek.

this last stream flows through a broad and fertile valley, but near the Hudson its banks are steep and rocky. The soil is a fertile, sandy loam. **Johnstown**, (Livingston p.o.) situated near the center of the town, contains 1 church, a parochial school, and 28 houses. **Glencoe Mills**, (p.v.) on Claverack Creek, contains a free chapel, 2 sawmills, and 16 houses. **Bakers Mills**, (p.o.) on Roeliff Jansens Kil, contains a woolen factory, 2 paper mills, a gristmill, and 10 dwellings. **Elizaville**, (p.o.) **Blue Store**, and **Lindithgo** are hamlets. Settlement commenced soon after the patent was granted.¹ There are 4 churches in town.²

NEW LEBANON—was formed from Canaan, April 21, 1818. It is the N.E. corner town of the co. The surface consists of steep hills separated by broad, irregular valleys. The Taghikanick Mts., upon the E., separate this town from Mass. The Wyomanock or Lebanon Creek is the principal stream. The soil is a gravelly and slaty loam intermixed with clay. The valleys are generally narrow and the hills arable to their summits. **Lebanon Springs**, (New Lebanon Springs p.o.) in the E. part of the town, is celebrated for its thermal springs.³ It contains 2 churches, 4 hotels, a female seminary, and a gristmill. Pop. 278. **Tildens** (New Lebanon p.o.) contains 1 church, a barometer and thermometer manufactory, a laboratory for the preparation of medicinal extracts,⁴ and 35 houses. **New Lebanon Center** (p.v.) contains a gristmill, sawmill, tannery, and 22 houses; **Moffatts Store**, (p.v.) 1 church and 23 houses; and **New Britain**, (p.o.) 1 church and 6 houses. In the E. part of the town, about 2 mi. S. of Lebanon Springs, is a large Shaker community.⁵ The first settlement was made about 1760, by immigrants mostly from Mass. and Conn.⁶ There are 8 churches in town.⁷

STOCKPORT—was formed from Hudson, Ghent, and Stuyvesant, April 30, 1833. It lies upon the Hudson, N. of the center of the co. The surface consists of a high table land, rising from the river in bluffs and descending with a moderate slope toward the E. Kinderhook and Claverack Creeks unite near the center of the town. The valleys of these streams are narrow and their banks often steep and rocky. Near Stottsville are 4 mineral springs, known as the Columbia Springs.⁸ **Stockport**, (p.v.) situated at the junction of Kinderhook and Claverack Creeks, contains 3 churches, several manufactories,⁹ and 44 dwellings. **Chittendens Falls** contains 1 church, 2 paper mills, and 14 dwellings, and **Stottsville** 2 woolen factories and 21 dwellings. **Columbiaville**¹⁰ (Stockport station on the Hudson R. R. R.) is situated on the Hudson. This town was settled at an early period by the Dutch. There are 4 churches in town.¹¹

STUYVESANT¹²—was formed from Kinderhook, April 21, 1823, and a part of Stockport was taken off in 1833. It is the N.W. corner town of the co., is situated on the bank of the Hudson, and includes the adjacent islands E. of the middle of the river. The surface is generally level, except along the river bank, where it is broken by ravines and low hills. Kinderhook Creek crosses the S. part of the town. The soil is generally clayey, but in some places it is a light, sandy loam. **Stuyvesant Falls**, (p.v.) on Kinderhook Creek, contains 1 church, several manufactories,¹³ and 35 houses. **Stuyvesant Landing**, (Stuyvesant p.o.) on the Hudson, contains 1 church, a flouring mill, a foundry, 2 coal yards, a lumber yard, and 34 houses. It is a steamboat

¹ On Beatty's map of 1714, the manorhouse and mill are located within this town, near the Hudson, and the residences of families named Wirbeck, Claus, and Brusie near Claverack Creek.

² 2 Ref. Prot. D., Evang. Luth., M. E.
³ The spring is 10 feet in diameter and 4 feet deep, and discharges 16 barrels of water per minute. The water is wholly tasteless, and has a temperature of 75° at all seasons. According to an analysis made by Dr. Menck, 1 pint of water contains 1.25 grs. solid matter, as follows:—0.25 grs. chloride of calcium, 0.44 grs. chloride of sodium, 0.19 grs. carbonate of lime, and 0.37 grs. sulphate of lime. Bubbles of gas constantly rise from the bottom of the spring, giving it the appearance of boiling. This gas is composed of 894 parts nitrogen and 106 parts oxygen, and is given out in the proportion of 5 cubic inches from a pint of the water. So great is the volume of water discharged that it not only supplies several baths, but 2 or 3 mills are kept running by it both summer and winter.—*L. C. Beck's Report*, 1848, p. 48, and *Geology 1st Dist.*, p. 195. The medicinal properties of these waters were first brought to the notice of the public by Jas. Hiltbeck. There are several similar springs of less volume in the vicinity.

⁴ Tilden & Co. have under cultivation 40 acres of medicinal plants,—chiefly dandelion, hyoscyamus, lettuce, belladonna, stramonium, yellow dock, burdock, poppies, digitalis, aconite, horseradish, wormwood, and valerian. They also use large quantities of cinchona, gathered from the surrounding country, as well as imported medicinal herbs and roots. Sixty persons are employed in the preparation of their extracts.

⁵ There are 500 to 600 persons in this community. They own

about 2000 acres of land in this State, besides a considerable tract in Mass. They have a large meeting house, a laboratory furnished with steam power, a gristmill, 4 sawmills, 2 machine shops, 8 dwellings, and several other buildings. They are principally engaged in farming, and in preparing extracts, roots, herbs, botanic medicines, and garden seeds. They also manufacture brooms, sieves, and fancy baskets. About 200,000 lbs. of medicinal articles and garden seeds are put up annually. The neatness of their grounds and premises is proverbial.

⁶ Among the first settlers were families named Gilbert, Cornell, King, Skinner, Mudge, Garasay, Jones, Wadhams, Sanford, and Patchin. An inn was kept at Lebanon Springs for several years before the close of the Revolutionary War. The house is still standing, and is supposed to be nearly a century old.

⁷ 3 M. E., Bap., Christian, Presb., R. C., and a Shaker meeting house.

⁸ The waters of these springs have never been analyzed. A hotel and bathing houses have recently been erected near them, and they are now much frequented.

⁹ 2 cotton factories, a mattress factory, machine shop, and sash and blind factory.

¹⁰ Columbiaville was incorp. Feb. 21, 1812, but the act of incorporation was repealed April 20, 1833. It was formerly a manufacturing place of considerable importance. In 1813 it had a cotton factory of 1500 spindles, 2 paper mills, 4 cording mills, 2 fulling mills, together with grist, saw, and plaster mills.

¹¹ M. E., Presb., Prot. E., and Univ.

¹² Named in honor of Gov. Peter Stuyvesant.

¹³ 3 cotton factories, a woolen factory, a gristmill, sawmill, machine shop, and an agricultural implement factory.

landing¹ and a station on the Hudson R. R. R. **Coxsackie Station**, on the Hudson R. R. R., has half a dozen houses. At this place is a ferry to Coxsackie, (Greene co.,) on the opposite side of the river. The first settlement was made by the Dutch about the period of the English conquest. There are 3 churches in town.³

TAGHKANICK⁴—was formed from Livingston as "Granger," March 19, 1803. Its name was changed March 25, 1814, and Copake was taken off in 1824. It is an interior town, lying S. of the center of the co. The surface is hilly. Taghkanick Creek is the principal stream. Its banks are low and rocky, and upon it are numerous mill sites. The soil is a gravelly and slaty loam. The hills are generally arable to their summits, although some are wooded and rocky. **West Taghkanick** (p.v.) contains 1 church, a gristmill, and 14 houses. **Taghkanick** (p.o.) and **New Forge** are hamlets. The first settlements were made by German and Dutch settlers, among whom were families named Brises, Shurts, and Shoefelts. A tract of about 600 acres, called Taghkanick, included in this town, was purchased by Robert Livingston in 1685. The first church (M. E.) was organized in 1843. There are now 2 churches in town; Evang. Luth., and M. E.

¹ 2 propellers, owned by parties here, ply on the Hudson and run from this place.

² Among the early settlers were families by the names of Van Alstyne, Van Allen, Van Ness, Van Slyke, Van Dyke, Van Valkenburgh, Vosburgh, and Schermerhorn.

³ Evang. Luth., Ref. Prot. D. and M. E.

⁴ Pronounced Tuh-kon-ick, and supposed to signify "Water Enough." Upon this side of Mt. Tom, in Copake, was formerly a spring, which was a favorite resort of the Indians; and hence the name "Taghkanick" for the locality.

CORTLAND COUNTY.

THIS county was formed from Onondaga, April 8, 1808, and embraces the original townships of Virgil, Cincinnatus, Homer, Solon, and the south half of Tully and Fabius¹ in the s. e. corner of the Military Tract. It was named in honor of Pierre Van Cortlandt, first Lieut. Gov. of the State of N. Y.² It lies near the center of the State, upon the northern spurs of the Alleghany Mts., and just s. of the watershed between the Susquehanna and Lake Ontario. It contains an area of 485 square miles, and is centrally distant 120 miles from Albany. Its surface is hilly and occasionally broken, consisting mostly of arable ridges with narrowish valleys between them. The highlands are divided into three general ridges extending through the county in a

northerly and southerly direction. The first of these occupies the extreme eastern edge of the county, and is bounded on the w. by the valley of the Otselic River; the second lies between the Otselic and Tioughnioga Rivers; and the third embraces all the highlands lying w. of the Tioughnioga. These highlands are all divided laterally by the valleys of small streams, and in some places they are but little more than a collection of sharp ridges separated by narrow ravines. The northern portion of the county spreads out into a high plateau, broken by hills. This level has an average elevation of 1,100 to 1,200 feet above tide, and the ridges rise from 200 to 500 feet higher. A broad plain, into which nearly all the valleys of the tributaries of the Tioughnioga converge, occupies the center of the western part of the county; and here the county seat is located. South of this the valleys contract until they become ravines. The highest points in the county are Mount Toppin, in Preble, the Truxton Hills, and the Owego Hills, in Virgil and Harford, which attain an elevation of 1,600 to 2,100 feet above tide.

The drainage is nearly all through the Tioughnioga River, which flows through near the center of the county. In its upper course, it consists of two principal branches, the eastern entering the town of Cuyler from Madison county, and the western taking its rise in the small lakes in the northern part of Preble and the southern part of Onondaga county. The principal branches of the Tioughnioga are the Otselic,—which flows through a deep valley in the eastern part of the county from Chenango county,—Trout, Chenango, and Labrador Creeks, and Cold and Factory Brooks. The Skaneateles Outlet drains the northwestern, the branches of Fall Creek the extreme western, and Owego Creek the southwestern, parts of the county. The only considerable bodies of water in the county are the Skaneateles Lake, which borders upon the n. w. corner, and several small lakes in the northern part of the Tioughnioga Valley.

The Hamilton group of rocks—consisting of calcareous shale, with limestone and slate inter-mixed—enters the northern portions of the county; and successively above this, toward the south, appear the Genesee slate, and the Portage and Chemung groups. Quarries of sandstone and limestone, affording excellent building material, are worked in Scott, Homer, Cortlandville, and several other parts of the county. A little s. e. of Cortlandville are several small lakes, containing deposits of marl, from which an excellent quality of lime is manufactured. The soil upon the hills is principally a sandy or gravelly loam; and that of the valleys is of the same character, with a large mixture of disintegrated slate, shale, and limestone.

From its considerable elevation above tide, the climate of this co. is colder than the lower regions n. and w. The winters are longer, and snow falls to a greater depth. The people are almost exclusively engaged in the different branches of agriculture. Spring grains are largely produced in the valleys, but the whole county is better adapted to pasturage than tillage. Dairying and stock raising are extensively pursued. The production of wool also receives considerable attention. The more hardy fruits generally flourish, but are liable to injury from early and late frosts.

¹ The following lots in these towns were set apart for the support of the gospel and schools:—In Tully, 69, 76, 81; Fabius, 55, 58; Homer, 4, 34, 79, 85, 93, 98; Solon, 22, 25, 30, 41, 64, 98; Virgil, 20, 26, 51, 86, 91, 99; Cincinnatus, 1, 15, 37, 49, 53, 62. The territory of the "Boston Ten Towns," lying immediately south of this, was found to overlap or extend over a portion of this tract, and to embrace nearly all of the two southern tiers of lots

in Virgil, and 4 lots in the s. w. corner of Cincinnatus. Two additional townships (Junius, Cayuga co. and Galen, Wayne co.) were set apart by the Land Commissioners, July 31, 1790, to supply the deficiency thus occasioned in the Military Tract.

² Gen. Van Cortlandt was an extensive owner of lands upon the Military Tract in this and adjoining counties.

Manufactures are of limited extent. The completion of the Syracuse, Binghamton, and New York R. R. through this county has given an additional impulse to every branch of business, and has greatly enhanced the value of the farms by furnishing an easy and direct avenue to market.

Cortland Village, the county seat, is situated upon the Tioughnioga, near the center of the town of Cortlandville. The county clerk's office and the court house are finely situated in the center of the village.² The jail is located in the basement of the court house, the floors of the cells being 4 or 5 feet below the surface of the ground. The average number of prisoners is 2. The poor house is situated upon a farm of 118 acres, 3 mi. e. of Cortland Village. The average number of inmates is about 50. The farm yields a revenue of \$600.

There are four papers published in the county.³

Few events of general interest have occurred in this county. Settlement began in Homer in 1791, in Virgil and Cortlandville in 1794, and in several other towns before the commencement of the present century. Being remote from the great routes of travel, its settlement advanced but slowly for many years, and the fertile but more distant valley of the Genesee had been mostly taken up by immigrants before civilization spread over the hills and along the valleys of Cortland county. The fear of Indian massacre then had not entirely subsided, and at times occasioned distress almost as real as if hostilities actually existed. The wild beasts often claimed a share of the little flocks and herds of the pioneers; and long, weary forest roads to distant mills and markets, for many years, proved a heavy burden to the early settlers in this and many other sections of the State not favored with navigable streams.

CINCINNATUS—was formed from Solon, April 3, 1804. It embraced the township of Cincinnati, or No. 25 of the military tract, a name applied by the Land Commissioners upon its first survey. The present town is one-fourth of its original size,—having been reduced by the erection of Freetown, Willett, and Marathon, in 1818. It lies upon the eastern border of the county, s. of the center. Its surface consists of the narrow valley of the Otselic River and of the high ridges which rise upon each side. Deep ravines, forming the valleys of small tributaries to the river, extend laterally far into the highlands, dividing nearly the whole surface of the town into steep ridges of hills. The soil is generally a gravelly loam, and best adapted to grazing. **Cincinnati** (p. v.) contains about 290 inhabitants, and **Lower Cincinnati** 150. The former contains 3 churches⁴ and an academy.⁵ The first settlers were Ezra and Thos. Rockwell, from Lenox, Mass., who located upon lot 19; and Dr. John McWhorter, from Salem, N. Y., on lot 29, in 1795.⁶ The first church (Presb.) was formed by a union of the people of Cincinnati, Solon, Taylor, and Pitcher, Chenango co.

¹ This road is built along the Tioughnioga Valley, connecting with the N. Y. C. R. R. at Syracuse, and with the N. Y. & E. R. R. at Binghamton. It has stations at Preble, Little York, Homer, Cortlandville, Blolgets Mills, State Bridge, and Marathon.

² The county courts were first directed to be held at the schoolhouse on lot 45, in Homer. By an act of April 5, 1810, Joseph L. Richardson, of Auburn, Nathan Smith, of Heikmer, and Nathaniel Locke, of Chenango, were appointed commissioners to select the site for a court house, and \$2000 was appropriated for the erection of the building. The first county officers were John Keep, *First Judge*; Wm. Malloy, *Sheriff*; and John McWhorter, *Sarrogate*.

³ *The Cortland Courier* was established at Homer in 1810 by Jas. & Saml. Percival. In 1812 H. R. Bender & B. Washburne became the proprietors, and changed its name to *The Farmers Journal*. They sold it to Jesso Seal in 1813, by whom it was issued as

The Cortland Repository, and continued until 1825. Then Milton A. Kinney became proprietor, and changed its title to

The Cortland Observer. It passed into the hands of S. S. Bradford in 1833, and in 1836 into those of — Holmes, by whom its title was changed to

The Homer Eagle. In 1837 it was united with the *Cortland Republican*, and issued by R. A. Kelias

The Republican and Eagle, and continued until 1852. C. B. Gould then became proprietor, and changed it to *The Cortland County Whig*. In 1856 it was sold to J. R. Dixon, and by him it is now published as

The Cortland County Republican.

The Protestant Sentinel was started at Homer in 1821 by John Maxson, and continued until 1833.

The Cortland Republican was commenced in 1815, at Cortland Village, by James Percival, and was continued by him, by Osborn & Campbell, and by the Campbell Bros., until 1821.

The Western Courier was founded at Homer in 1821 by Roberts & Hull, and was soon after removed to Cortland Village. In 1824 it appeared as

The Cortland Journal, and in 1822 as

The Cortland Advertiser. It was published successively by C. W. Gill, H. S. Randall, and David Edinbold, and in 1845 it was styled

The Cortland Democrat. Seth Haight & H. G. Crouch have been interested in its management; and it is now published by A. P. Cole, as

The Cortland Gazette, which name it received in 1857. *The Cortland Chronicle* was started in 1828 by Rod & Osborn.

It was sold to R. A. Keel in 1832, and by him called

The Anti-Masonic Republican. In 1833 it was styled

The Cortland Republican, and in 1837 it was united with

The Homer Eagle.

The Liberty Herald, semi-monthly, was published at Cortland Village in 1844 and '45 by F. F. Graham.

The True American and Religious Examiner was started in 1845, at Cortland Village, by C. B. Gould. The following year it passed into the hands of S. B. Ward, was issued by him as

The True American, and continued until 1848.

The Republican Banner was started in 1848 by E. D. Van Slyck & P. H. Bateson.

The South Cortland Luminary was published in 1840, at south Cortland, by M. Reynolds.

The Morning Star was published at McGrawville in 1840, and

The Central Reformer in 1858.

⁴ Cong., Bapt., Meth.

⁵ Cincinnati Academy was chartered by the legislature, April 21, 1837.

⁶ Mr. Crittenden, from Barrington, Massachusetts, was the first settler of Willett in 1792, and to the present day is called this town in 1797. The first child born was Sally Rockwell, the first marriage that of Dr. McWhorter to Katy Young, and the first death that of Daniel Harrison, all in 1796. Mrs. H. B. B. the first school, in 1797; Col. John Kingsley, the first mill, in 1814.

CORTLANDVILLE—was formed from Homer, April 11, 1829, and embraces the southern half of the original township of Homer, and a small portion of the n. e. corner of Virgil. The name was applied to the town from its being the county seat of Cortland county. It is situated at the junction of the eastern and western branches of the Tioughnioga River, and extends from the central portion of the county to the extreme western border. The surface of much of the town is level; but the eastern and southern parts are hilly. From an eminence just w. of Cortland Village can be seen 7 distinct valleys, separated by ranges of hills radiating in different directions. The ridges are 200 to 400 feet above the valleys; and the southern part of the town is a broken upland region, the hills being arable to their summits. The tributaries of the Tioughnioga in this town are Trout Brook from the e. and Dry and Otter Brooks from the w. A small part of the western portion of the town is drained by streams flowing westward into Cayuga Lake. In the s. w. part of the town are three small ponds, fed by springs, and furnishing an almost unlimited supply of marl, from which an excellent quality of lime is manufactured.¹ The soil is generally a sandy or gravelly loam. **Cortland Village**² (p.v.) is finely situated upon the Tioughnioga, near the center of the town. It contains an academy,³ 5 churches, 3 hotels, and a population of 1,576. **McGrawville** (p.v.) is situated upon Trout Brook, 4½ mi. e. of Cortland Village. It contains 3 churches and several manufacturing establishments, and is the seat of the N.Y. Central College.⁴ Pop. 558. **South Cortland**, (p.v.) in the s. w. part of the town, contains 161 inhabitants. **Blodgets Mills** is a p.o. The first settlers of this town were Jonathan Hubbard and Col. Moses Hopkins,—the former upon the lot where Cortland Village now stands, and the latter upon lot 94.⁵ The census reports 9 churches in town.⁶

FREETOWN—was formed from Cincinnatus, April 21, 1818, and embraces the n. w. quarter of that township. Lot 20 of Virgil was annexed in 1850. It is situated upon the ridge between the Otselic and Tioughnioga Rivers, s. e. of the center of the county. It is high and hilly, and its surface is much broken by the narrow ravines of the watercourses which flow n. and s. A considerable part of the more hilly portions is yet covered with the original forests. Its soil is a sandy and gravelly loam, and is best adapted to pasturage. **Freetown Corners** (p.v.) has 2 churches and about 100 inhabitants. Robert Smith, a soldier of the Revolution, drew lot 2, and, accompanied by his son-in-law, Ensign Rice, took possession of it in 1795.⁷ The first church (Bap.) was organized in 1810, by Elder Caleb Shepard, of Lisle, who was the first preacher.⁸

HARFORD—was formed from Virgil,⁹ May 2, 1845, and it embraces the s. w. quarter of that township. It is the s. w. corner town in the county. Its surface consists of a high, broken upland, 500 to 700 feet above the valleys and 1500 to 1700 feet above tide. The Owego Hills, in the southern part, are the most elevated portions. The declivities are usually steep, and often rocky, and the summits are crowned with forests. One half of the town is yet a wilderness. The streams are mere brooks. The soil is a moderately productive sandy and gravelly loam, best adapted to pasturage. **Harford** (p.v.) contains 30 houses, and **South Harford** 20. The first settler was Dorastus De Wolf, in 1803.¹⁰ Religious meetings were held as early as 1804; but the first church (Bap.) was not organized till 1815.¹¹

HOMER—was formed March 5, 1794. Solon was taken off in 1798, Virgil in 1804, and Cortlandville in 1829. It lies upon the w. border of the county, n. of the center. Its surface

¹ Crandalls Pond covers an area of 15 acres; Swains, 6, and Chattertons, 4. The marl is generally of an ash color when first taken out, but the vegetable matter which it contains whitens upon exposure to the air. When partially dried, it is moulded into the form of bricks, and these are thoroughly dried and burned. The greatest known thickness of these deposits of marl is about 20 feet.—*Geol. Third Dist.*, p. 291.

² The Cortlandville Academy, incorp. Jan. 13, 1843.

³ This institution was incorp. in 1850. It was originally started as a manual labor school, and is open to all, without distinction of color or sex.

⁴ In 1795, Thos. Wilcox, from Whitestown, located upon lot 94; Reuben Bond, from New Haven, Jas. and John Morse, and Joseph Lee, upon lot 75. In 1796-97, Aaron Knapp located near Cortland Village. — Hotels kept upon lot 75, and Saml. Inglis and son on lot 75. In 1800, Wilnot Sperry (from Woodbridge, Conn.) settled on lot 73; and a few settlers came yearly until 1810, when the growth became more rapid. The first school-house stood on the present site of the Eagle Hotel. The first inn was kept by Saml. Inglis, in 1810.

⁵ 2 M. E., 2 M. E., 2 Presb., Christian, Ref. Presb., and Unit.

⁶ About 10 years after, Smith and Rice sold their improvements to Saml. G. Hathaway and Saml. Jennings; and about the same time Caleb Shepard and David H. Munro, from Wash-

ington co., settled on lot 22. In 1806, Remembrance Curtiss settled on lot 12; and Curtis and Chas. Richardson, from Saratoga co., on lot 32. Henry Gariner, Wm. Tutbill, Jacob Hicks, Gideon Chipin, Simon Doty, John Backus, and Anos Eaton, were among the other early settlers. The first marriage was that of Robert Smith, jr., with Amity Smith. The first school teacher was Don A. Robertson. The first store was kept by Peter McVean, at "The Corners." The first permanent merchant was Walton Sweetland, still a resident of the town.

⁷ The census reports 3 churches; 1 Bap., 2 M. E.

⁸ The p.o. of "Worthington" was established in this part of Virgil in 1825 or '26. Its name was changed to Harford about 10 years after. From this the town derives its name.

⁹ Among the other first settlers were Thos. Nichols, in 1804, John Green, in 1805, Eben Burgess, — Barns, Gordon Burlingame, Nathan Heaton, Theodore E. Hart, and Lewis Moore. Theodore E. Hart kept the first store, in 1824. The first birth was that of Dr. Chas. Buns; the first marriage, that of Obed Graves and Abner Munroe; and the first death, that of Dorastus De Wolf. Betsey Carver taught the first school, in 1809; Lewis Moore kept the first inn; and Nathan Heaton built the first grist mill, in 1814.

¹¹ The census reports 3 churches; Christian, Cong., and Union.

is quite uneven, consisting of the valleys of the two branches of the Tioughnioga River and the ridges which border upon them. The valley of the western branch is over a mile wide, and elevated 1,096 feet above tide. The eastern valley is narrower. A ridge of hills, 200 to 500 feet above the river, separates the two valleys; and a similar ridge occupies the s. e. corner of the town. The western part is a hilly upland, 1500 to 1600 feet above tide. The principal branches of the Tioughnioga are Cold and Factory Brooks, from the w. The valleys of these streams open northward into corresponding valleys, through which flow streams emptying into Otisco and Skaneateles Lakes. The soil upon the river intervals is a deep, rich alluvial and dark loam, well adapted to tillage; among the hills, it is a sandy or gravelly loam, better for pasturage. **Homer**¹ (p. v.) is finely situated on the Tioughnioga, 3 mi. s. of Cortland Village. It contains 6 churches, a printing office, and several manufacturing establishments, including the only cotton factory in the county. It is the seat of Cortland Academy,² an old and very flourishing institution. Pop. 1925. **East Homer** (p. v.) contains 25 houses, and **Little York** (p. v.) 15. Spencer Boche and his brother-in-law, Amos Todd, were the first settlers of this town, and of Cortland county, in 1791.³ The first religious meetings were held in 1793, when there were but 6 families in town; and all attended. The first church (Cong.) was founded in 1801, chiefly through the influence of Mrs. Hobart, wife of Lieut. Hobart.⁴

LAPEER—was formed from Virgil, May 2, 1845, and embraces the s. e. quarter of that township. It lies upon the high ridges w. of the Tioughnioga River, on the s. border of the county, w. of the center. The declivities of the hills bordering upon the river are precipitous. "Luce Hill," in the north western part of the town, is the highest point, and is 1,600 to 1,700 feet above tide. The streams are all small brooks. Upon Fall Creek, near the s. border of the town, is a wild and beautiful cascade, 71 feet high, known as Hunts Falls. The soil is a sandy and gravelly loam. Nearly one half of the town is still unsettled. **Hunts Corners** contains 10 houses. **Lapeer** (p. o.) is near the center of the town. There is no church edifice in town.⁵ The first settler was Phineas Grant, a colored man.⁶

MARATHON—was formed from Cincinnati, April 21, 1818, as "Harrison," embracing the s. w. quarter of the military township. Its name was changed in 1827. It lies upon the southern border of the county, e. of the center. Its surface is rugged and hilly, the ridges rising 500 to 700 feet above the valleys. The Tioughnioga flows through its western part, in a deep, narrow valley with precipitous sides. Hunt Creek in the s. w. and Merrill Creek in the e. part of the town also flow through deep and narrow valleys. The arable land lies principally along these valleys, the uplands being broken and only fit for pasturage. The soil is a sandy and gravelly loam. **Marathon**⁷ (p. v.) contains 3 churches, the oldest of which is the Presb. organized Feb. 11, 1814.⁸ Pop. 500. **Texas Valley** is a p. o. in the s. e. corner. Dr. Japheth Hunt, a surgeon of the army, who served in both the French and Revolutionary Wars, settled on Lot 93, in 1794.⁹

¹ Incorpor. May 11, 1835.

² Incorpor. February 2, 1819. This institution, from its commencement, has uniformly borne a high reputation. Samuel B. Woodworth, LL.D., present Secretary of the Regents of the University, was at the head of this institution for nearly 22 years. At a jubilee celebration, held July 7 and 8, 1846, it was stated that 1000 students had been connected with the academy. The whole number up to 1859 was over 8,000.

³ They came in the fall, and erected a temporary dwelling, a little s. of Homer Village, near the bridge, and returned in the winter for their goods, leaving Mrs. Boche the sole occupant of the house, and the only representative of civilization within a circuit of 20 miles. They were prevented from returning for 6 weeks by the deep snows; and during the whole of that period the lone woman remained in anxious doubt as to the fate of her husband and brother. Mr. Todd located on lot 42, "West Hill." Among the other early settlers were John Howe, John Miller, Jas. Matthews, Jas. Moore, Silas and Paul Miller, (from Birmingham) in 1792; Darius Kinney, (from Brimfield, Mass.) in 1793; Rodrick Owen, (from Lebanon, N. Y.), Jonathan Hubbard, and Moses Hopkins, in 1794; Thos. Wiley, (from Whites-town), Zedekiah Keene, and John Stone, (from Brimfield), John Keep, Solomon and John Hubbard, and Asa White, in 1795. The first male child born was Homer Moore, and the first female Betsey House; the first death, that of Mrs. Gould Alford. The first marriage was that of Zade Strong and Wm. Russell, who were obliged to go through the forests to Ludlowville, Hopkins co., on horseback, to have the ceremony performed. The first school-house was built a little s. of Homer Village in 1798. The first teacher was Joshua Ballard. Enos Stinson kept the first inn, and A. M. Coats the first store. The first permanent and successful merchant was Jedediah Barber. John Keep, Solomon Hubbard, and Asa White built the first grist mill in 1798, on the

present site of that of Cogswell & Wilcox. The old mill for some time was used as church, public hall, and ball room.

⁴ The first sermon was preached by Rev. Mr. Hall (d. of N. J.). He was assisting at a raising; and, when it became known that a minister was present, a sermon was clamorously called for and was delivered on the spot. The census reports 6 churches in town: Cong. Bapt. M. E., Prot. L., and Unit. of Hobart, and M. E. at East Homer.

⁵ Free Bap., Meth., and Christian denominations hold meetings in school-houses. The Free W. Bap. Society was formed by Lake Lake in 1820.

⁶ Among the other first settlers were Peter Gray, (on lot 50), Robt. K. Wheeler, and Thomas Kingsley, who came to 1802; Seth Jennings and Timothy Roberts, in 1805; Zach. Ames, John R. Smith, Uriel Sessions, Simon Luce, Avery Hartshorn, and H. J. Richards. The first marriage was that of Simon Luce and Rebecca Ayres, Oct. 9, 1805; and the first death, that of Simon Luce, in 1808. Ebenezer Luce taught the first school, in 1814, and Harvey Jennings built the first mill, in 1815.

⁷ About one mile s. of the village, on the e. bank of the river, is the site of an old Indian village and burned as such. Tradition says that this was once the seat of a powerful tribe of Indians.

⁸ The census reports 4 churches: 2 Presb. Bap., and M. E.

⁹ Among the other pioneer settlers were John Hunt in 1796; Abram Brink, (first innkeeper,) Ranabas Wood and S. n., and Zachariah Spikes, in 1802. The first child born is S. M. Hunt a grandson of the first settler; the first marriage that of N. J. J. Brink and Polly Alford; and the first death that of the first settler, in March, 1808, aged 97 years. Wm. Cowley taught the first school, in 1803; John Hunt built the first saw mill, and Wood & Waldo, James Burgess, and David Munroe were the early merchants. The first successful mercantile firm was that of Peck, Archer & Dickson, now of New York City.

PREBLE—named in honor of Commodore Edward Preble, was formed from Tully upon the organization of Cortland co., April 8, 1808, and embraced the southern half of the latter town. Scott was taken off in 1815. It lies upon the northern border of the county, w. of the center. Its surface consists of the valley of the western branch of the Tioughnioga River, which is here nearly 2 miles wide, and the ridges which rise on the e. and w. Mount Toppin, s. w. of the village, is 1,700 feet above tide; Truxton Hills are the highest land in the county. The declivities of the hills are steep, and some of their summits sharp ridges. North of Mount Toppin a valley extends northward and opens into the valley of the Otisco Inlet. In the northern part of the town are several beautiful little lakes; and upon the southern borders are others of a similar character, known as the Little York Lakes. The soil is a fine quality of gravelly loam. **Preble Corners** (Preble p. o.) contains 200 inhabitants, and **Baltimore** 75. The first settlers were James and Robert Cravath, John Gillett, and Elijah Mason, who came in 1798.¹ The first church (Cong.) was formed through the efforts of Revs. Theodore Hinsdale and Joel Hall, missionaries from Conn.² Rev. Matt. Harrison was the first pastor.

SCOTT—was formed from Preble, April 14, 1815, and named in honor of Gen. Winfield Scott. It is the s. w. corner town of the county. Its surface is mostly upland, broken by two deep and narrow valleys which extend n. and s. through the town. The declivities of the hills are very steep, and in many places precipitous. Cold Brook flows through the eastern valley, and Factory Brook and Skaneateles Inlet through the western. Skaneateles Lake borders upon the s. w. corner. The soil is a sandy and gravelly loam, and is best adapted to grazing. **Scott Center** (Scott p. o.) contains about 300 inhabitants. **Scott Corners** (East Scott p. o.) is a hamlet. Peleg and Solomon Babcock and Asa Howard (from Mass.) and George Dennison (from Vt.) located on lot 82 in 1799.³ The first church was a Seventh Day Baptist, organized in 1820, Wm. B. Maxson first pastor.⁴

SOLOH—was formed from Homer, March 9, 1798, and embraced the townships of Solon and Cincinnati. A portion was annexed to Truxton, April 4, 1811. Cincinnati was taken off in 1804, and Taylor in 1849. It is an interior town, lying near the center of the county. The surface is mostly upland, broken by numerous narrow valleys of small brooks and creeks. The hills on the eastern border are 1400 to 1500 feet above tide. Many of the highest summits are too rough for cultivation, and are crowned with forests. Trout Brook flows in a westerly direction through near the center, forming a narrow but fertile valley. The soil is a gravelly loam, well adapted to grazing. **Solon** (p. v.) contains about 100 inhabitants. The first settlers were Johnson Bingham and Eddy Wildman, from Canterbury, Conn., who located, the former on lot 62, and the latter on lot 51, in 1796.⁵ The first church was formed in 1804, Rev. Josiah Butler the first preacher.⁶

TAYLOR—was formed from Solon, Dec. 5, 1849, and named in honor of Gen. Zachary Taylor. It lies near the center of the eastern border of the county. Its surface is mostly upland and is very broken and hilly. The declivities are generally precipitous, rising 600 to 800 feet above the valleys. Mount Rhoderick, lying partly in this town and partly in Solon, is the highest point. The streams are mere brooks, generally flowing in a southerly direction and discharging their waters into the Otselic. Solon Pond is a small sheet of water near the center of the town. The soil is a sandy and gravelly loam. **Taylorville**, (Taylor p. o.), or "Bangall," contains 25 houses, and **Union Valley** (p. v.) 20.⁷ The first settlers were Zerah Beebe, a Revolutionary soldier, Latus Beebe, his son, and John Tinker, his son-in-law, from Waterbury, Conn., in 1794.⁸

¹ Among the other first settlers were Amos Skeel, Seth and Samuel Trowbridge, Richard Fisherson, Samuel Criss, Jabez B. Phelps, Ed. Cummings, and Francis Albert, and Garret Van Boesen. The first child born was Nancy Gill; the first marriage, that of Amos Ball and Sally Mason; and the first death, that of John Patterson, a Revolutionary patriot, in 1797. Ruth Thompson taught the first school, in 1801; Davis & Taylor kept the first store, and Moses Nash the second; Samuel Trowbridge kept the first inn.

² The census reports 2 churches; 1 Presb., 1 M. E.

³ Among the other first settlers were Cornish Messenger and Daniel Jake-way, (from De Ruyter.) Maxon Babcock, (from Mass.) Gershon Richardson, Jared and John Babcock, Elisha Sidons, Henry and Jesse Burdick, Timothy Brown, and Nathl. Morgan. The first child born was Harriet Babcock; the first marriage, that of Solomon Babcock and Amy Morgan, and the first death, that of an infant daughter of Peleg Babcock. Amy Morgan taught the first school, in 1804; James Babcock kept the first inn, and Nathan Babcock the first store.

⁴ Besides this, there are in town 3 societies; Bap., M. E., and Presb.

⁵ Among the other first settlers were Benj. Beebe, Lewis Beebe, (first innkeeper,) Daniel Porter, Zerah Tinker, Jas. H. Wheeler, Elisha Johnson, Saml. G. Hathaway, Stephen N. Peck, and Noah Greeley, (first mill owner.) The first child born was a daughter of Johnson Bingham; the first marriage, that of Robt. Smith and Amy Smith, and the first death, a daughter of Johnson Bingham. Roxana Beebe and Lydia Stewart taught the first school, in 1804; and E. Tabbs kept the first store.

⁶ The census reports 2 churches; 1 Bap. and 1 M. E.

⁷ The census reports 5 churches; Bap., Cong., Wes. Meth., 2 M. E.

⁸ The first child born was Kezia Beebe; the first marriage, that of Asaph Butler and Lury Beebe; and the first death, that of Zerah Beebe, in 1800. — Beers taught the first school, in 1810; Orlando Beebe kept the first inn, Hurlbut A. Gilbert the first store, and Ezra and Theo. Rockwell built the first saw mill, in 1816.

TRUXTON¹—named in honor of Commodore Thomas Truxton, was formed in 1808, April 8, 1808, and embraced the s. half of the latter town. The s. 4 tiers of lots of 80 acres annexed April 4, 1811. Cuyler was taken off in 1858. It is the s. e. corner town of the co. The surface consists of a broken upland divided into ridges, which have a general northerly and southerly direction. The east branch of the Tioughnioga River flows in a s. w. direction through the center of the town, cutting the ranges of hills diagonally. The Truxton Hills are the highest in the co. North of the river, nearly the whole surface is divided into sharp ridges with steep declivities, their summits being technically termed "hog backs." Muncey Hill, in the s. e. part, the highest land in town, is a wild, broken region, poorly adapted to cultivation. On the s. border is a small lake known as Labrador Pond, noted for its wild and picturesque scenery. Upon a small brook, which flows into the outlet of this pond from the n., is a beautiful cascade, called Tinkers Falls. The soil is generally a sandy and gravelly loam. In amount of dairy products this town is one of the first in the State. **Truxton** (p. v.) contains 257 inhabitants, and **Cuyler** (p. v.) 112. **Keeney Settlement** is a hamlet on the s. line. There are in town a woolen, a sash and blind, and butter tub factory, and an extensive carriage shop. The first settlers were Saml. Benedict, Chris. Whitney, and Jonas Stiles, in 1795, who located on Lots 12, 93, and 2, respectively.² The first church (Bap.) was formed in 1806, under Eld. Rufus Freeman.³

VERGIL—was formed from Homer, April 3, 1801. Harford and Lapeer were taken off in 1845. A small portion of its e. part has been annexed to Cortlandville and Free-town. It lies upon the w. border of the county, s. of the center. Its surface is a broken and hilly upland. The Owego Hills, in the s. w. part, are about 600 feet above the valleys and 1600 to 1700 feet above tide. The valleys are narrow, bordered by the steep declivities of the hills. Virgil Creek, flowing n., and Gridley Creek, flowing w., are the principal streams. The soil is a sandy and gravelly loam, and is best adapted to grazing. **Virgil** (p. v.) contains 206 inhabitants, and **East Virgil** (p. v.) about 60. **State Bridge** (Messegerville p. o.) is a r. r. station. **Franks Corners** is a hamlet in the s. w. part. The first settler was Joseph Chaplin, in 1792.⁴ The first religious meeting was held in 1802; and the first church (Cong.) was formed, Feb. 5, 1805, by Rev. Seth Williston.⁵

WILLETT—was formed from Cinncinatus, April 21, 1818, and was named in honor of Col. Marinus Willett, of Revolutionary memory. It lies in the s. e. corner of the county. Its surface consists of the narrow valley of the Otsele River and of the high ridges which rise on either side. The uplands are broken by the narrow ravines through which the small streams flow. Nearly one-third of the town is yet unsettled, the surface being too rough for profitable cultivation. In the s. w. part of the town is a small lake, known as Bloody Pond,—its sanguinary name having been bestowed in consequence of the vagaries of *delirium tremens*. The soil is a sandy and gravelly

¹ In Nov. 1838, this town was divided into 2 newly equal parts by a line extending n. and s.; and the e. half now forms the town of CUYLER.

² Among the other first settlers were Robt. Knight, (from Monmouth, N. J.) Hugh Stewart, (from Colerain, Mass.), John Jeffrey and Enos Phelps, (from N. J.) Billy Truxbridge and Dr. John Miller, (from Dutchess co.). The last named was the first physician, and is still living, (1858), aged 82. The first child born was a son of Samuel Benedict; and the first death was a child in the same family. A. W. Baker taught the first school, in 1799; Bowen Brewster kept the first inn, in 1801, and Stephen Hedges the first store.

³ The census returns 4 churches: 2 M. E. Bap., Presb.

⁴ Mr. Chaplin was engaged to open a road from Oxford to Cayuga Lake, which he commenced in 1792 and finished in two years. This road was 60 mi. in length, and it became the thoroughfare for emigrants. Mr. Chaplin brought in his family from Oxford in the winter of 1794-95. Among the other first settlers were John M. Frank, John Geo. John E. Row, James Wright, Jas. Knapp, Jas. and John Green, Joseph Bailey, and Enos Bouton. The first flock of sheep, brought in by Mr. Frank, were all destroyed by the wild animals. Mr. Row and Capt. Knapp killed 15 wolves in one year. The first child born was a son of Joseph Chaplin; the first marriage was that of Rufus Whitney, of Dryden, and Susan Ghentry, in 1800; and the first death was that of a stranger, named Charles Hoffman, who was found dead in the woods in April, 1798. Chas. Joyce was the first teacher; Peter Vanderlynd and Nathl. Knapp built the first grist mill, in 1800; Daniel Edward built the first saw mill in 1801, and Danl. Sheldon kept the first store, in 1807. As early as 1828, in a series of articles in the "Cortland Observer" Nathaniel Bouton, a farmer in this town, strongly advocated the construction of a n. r. through the southern tier of counties. From the proceedings of a "Festive Gathering" of the early settlers and inhabitants of the town of Virgil we make the following extracts:—"The patents issued to the purchasers of the military lots contained the whole mile square; yet the State reserved to itself the right to retain 100 acres in the s. e. corner of each lot and give an equal amount of land in Ohio. This reserved lot was

known as 'The States Hundred.' By giving notice that he wished to retain his land together, and paying \$500 for the same, the patentee could obtain the whole lot. In default of the payment, the State retained 50 acres of the *M. S. P. Co.* called the 'Survey of Fifty Acres.'" As an illustration of the hardships to which the pioneers of this town and co. were subjected, we extract the following:—"In the spring of 1797, John L. Row came on from Ulster co. and made a beginning on his lot. The same occupied till recently by himself and family. In dealing with Mr. Frank, he cleared a spot, put up the ends of a log house, split plank and laid a floor, pecked bark for a door, and agreed with a man in Homer to put it on. He also cut and cured some of the wild grass growing in the swamp, for hay, and returned. Preparations were then made for putting up a house, which was done in the winter following. He and his wife, one in a sleigh, with a young cow following them. When they came to the river, opposite Mr. Chaplin's, they found the water so high, and the canoe that had been used in crossing, carried away. Mr. Chaplin's hog trough, was procured, and Mrs. Row was safely carried over in it. She then stood up on the bank to assist the crossing of what remained. The hogs, being unskilled swimmers, with the sleigh, the cow following, and coming to the edge, carried away with the current, but, after a hard struggle, were being fastened to the sleigh, as no accommodations could be procured, and they ate out the flag bottoms of the canoe, to allay the keen demands of appetite. The snow was 20 or 30 feet deep, with no track, and the whole day was consumed in coming from the river to their new home. When they arrived, they were surprised to find their horse without a shoe, consequently the snow as deep as out of it. But their perseverance would have been disheartened. But when it was to be lost. The snow was cleared away from a part of the floor, a fire built against the logs, some timbers driven up, so the beams, for a row over, the horses fed in a stable, with some of their coarse hay below them, and thus they endured several successive nights were pass."⁵

⁵ The census reports 3 churches: Bap., F. W. Bap., Cong., M. E. Union.

loom. **Dyersville** (Willet p. o.) contains 20 houses. The first settler was Ebenezer Crittenden, from Barrington, Mass., in 1793.¹ The first church (M. E.) was formed in 1816. There is also a Cong. church in town.

CUYLER—was formed from Truxton, Nov. 18, 1858. The statistics of this town are embraced in the town of Truxton, page 255.

Acres of Land, Valuation, Population, Dwellings, Families, Freeholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Cortland County.

¹ Mr. Crittenden embarked, with his wife, child, and goods, upon a rude boat, at Chenango Forks, and with a paddle and setting pole worked his way up the rapid current of the Troughmoga and Oriskany Rivers to his place of settlement. For 9 years he was the sole inhabitant of the town. Among the other first settlers were Jabez Johnson, (from Vt.), Benj. Wilson, (from Westchester co.), John Fisher, Thos. Gayley,

Thos. Leach, Phineas Sargent, and John Covert. The first birth was that of a child of Ebr Crittenden. The wives of Solomon Smith, Dan, Robert, and Edward Nelson all died in 1812; and these were the first deaths in town. The first school was taught in 1814. Benj. Wilson kept the first inn and built the first mill, and John E. Dyer kept the first store.

² Formed since 1856.

DELAWARE COUNTY.

This county was formed from Ulster and Otsego, March 10, 1797.¹ It lies upon the headwaters of Delaware River, from which it derives its name. It contains an area of 1,580 sq. mi., and is centrally distant 70 mi. from Albany. Its surface is a hilly and mountainous upland, divided into 3 general ridges by the valleys of the 2 principal branches of Delaware River. This upland region is a connecting link between the Blue Ridge upon the s. and the Catskill and Helderbergh Mts. on the n. In the s. part of the co. these ridges form a mountainous region, with lofty, rocky peaks and precipitous declivities broken by wild and narrow ravines. In the n. the highlands are less wild and precipitous, and the whole region assumes the character of a rugged, hilly upland.² The main or w.

branch of the Delaware³ River takes its rise in Utsyauthia Lake,⁴ a small sheet of water upon the n. e. line of the co. It flows 60 mi. in a s. w. direction to the w. border of the co., thence turns abruptly to the s. and forms the s. e. boundary of Tompkins and Hancock. In its course in the co. it descends about 1000 feet. Pepachton River,⁵ the e. branch of the Delaware, rises in Roxbury and flows 60 mi. s. w., uniting with the Delaware at Hancock. The Susquehanna forms a portion of the n. boundary of the co. Charlotte River and Outcut Creek are tributaries of the Susquehanna. The other streams are creeks and brooks, principally tributaries to the 2 branches of the Delaware. The valleys of these streams are usually narrow, and bordered by steep hills which often rise into mountains. The rocks of the co. mostly belong to the old red sandstones of the Catskill division.

The mineral wealth of the co. is limited to stone useful for building and flagging, of which large quantities of a fine quality are found. Vague traditions of silver and lead mines have here, as in other counties, haunted the brains of dreaming adventurers. A brine spring is reported 4 mi. s. w. of Delhi Village, and 1384 feet above tide, another 3½ mi. from Colchester, and several chalybeate springs in various parts of the co.; but none of them are important.⁶ The soil is generally of a dark reddish color, composed of the disintegrated sandstone and shale. In the valleys are occasionally narrow strips of fertile alluvium. Dairying is at present the leading occupation of the people. The numerous fresh springs of water issuing from its hillsides,⁷ the fresh herbage, and bracing mountain air, seem peculiarly adapted to this business.⁸ Lumber was formerly rafted in large quantities to Philadelphia; but, although still extensively exported by r. r., the quantity is diminishing.⁹ Since the completion of the r. r., tanneries have sprung up in favored localities, and will continue until the supply of bark is exhausted. The other manufactures are chiefly limited to the local wants of the inhabitants. The immense amount of water power in the co. will greatly facilitate the establishment of manufactories whenever the exigencies of the co. may demand them.

¹ The w. branch of the Delaware was formerly the boundary line between Otsego and Ulster cos. The line between this co. and Lanesme was run according to the treaty of Fort Stanwix of Nov. 3, 1763, and was known for a long period as the "*Line of 1763*."

² The following is a list of elevations above tide, principally derived from the State Road Survey in 1825, and various r. r. surveys of more recent date:—

Delaware River, s. border (estimated).....	530 feet.
Junction of the two branches of Delaware.....	922 "
Hancock Station.....	943 "
Delaware River at Fife's Eddy.....	950 "
Delaware Station.....	953 "
Deposit (State Road Survey).....	1004 "
Sidney Village.....	1019 "
Mouth of Beaver Kill.....	1018 "
Franklin Village.....	1240 "
Arkville, near Margaretville.....	1345 "
Courthouse Square.....	1453 "
West Meredith (John Stittson).....	1726 "
Porch Pond.....	1765 "
Standard Village (Newburgh & Syracuse R. R. Survey).....	1765 "

Fish Lake, near Delhi.....	1779 feet.
Elk Creek Summit (3 or 4 mi. from Delhi).....	1874 "
Warner Pass (3 mi. w. of Stamford Village).....	1887 "
Head of Delaware, Stamford.....	1888 "
Dayport Centre.....	1898 "
Lowest summit between Outcut Creek and Delhi.....	2104 "
Mt. Pisgah, Andes (estimated).....	3400 "

³ Otherwise called the "Mohawk Branch of the Delaware" and by the Indians "*Cochingog*" or "*Cochingap*."

⁴ This lake is often mentioned in early documents. In a colonial times it was at one of the angles of Albany co.

⁵ Sometimes written Popachon, Popotunk. In the Government returns the p. n. named from the river is written Pe-pachton.

⁶ *Kiel's Mineralogy N. Y.* p. 160.

⁷ The first count held in the co. adopted as its seal the device of a "stream of water issuing from a high mountain."

⁸ In amount of butter this co. ranks second only to St. Lawrence.

⁹ In number of sawmills this co. is now surpassed by none but Steuben and Oneida.

The co. seat is located at Delhi.¹ The present courthouse was erected in 1820.² The co. clerk's office and jail³ are in separate buildings, adjacent to the courthouse. The poorhouse is an old, two story wood building, situated upon a farm of 175 acres about 2 mi. s. of Delhi Village. The average number of inmates is 65, supported at a cost of \$1.00 per week each. The farm yields an income of \$250. The N. Y. & Erie R. R. extends along the Delaware, and the Albany & Susquehanna R. R. through the n. w. corner. Soon after the completion of the N. Y. & E. R. R., in 1849, plank roads were built, extending from several of the stations into the interior of the co.⁴

The co. has 7 weekly newspapers.⁵

The great Hardenburgh Patent,⁶ embracing that part of the co. s. and e. of the w. branch of the Delaware, was granted April 10, 1708, to Johannes Hardenburgh, of Kingston, Ulster co., and associates, who had previously purchased the lands of the Indians. A tract of 250,000 acres, between the w. branch of the Delaware and a line a mi. e. from the Susquehanna, was bought from the Indians at "Johnson Hall," Montgomery co., June 14, 1768, by John Harper, Sen., and Gen. Wm., Joseph, and Alex. Harper and others. On the s. e. side it extended from Utsyauthia Lake down the Delaware to the mouth of a small stream called Camskuttty. Within this tract 5 townships, with full privileges of townships, were created by patent in 1770; but in none of them was an organization ever effected under this authority.⁷

Most of the lands in this co. were settled upon leases;⁸ and this region shared largely in the excitement and mob violence which distinguished the anti-rent movement. Combinations to resist the execution of civil processes were formed in 1844, and open resistance began to be made in March, 1845, by armed bands in the disguise of Indians, and led by "chiefs" named after the Indian fashion. They were pledged to secrecy and mutual aid; and whenever the sheriff or his deputies appeared, to levy upon property for rent, they assembled in overpowering numbers and prevented the execution of the writs. An act was passed, Jan. 25, 1845, forbidding persons from

¹ The courthouse was located by the judges, justices, and supervisors; and the sum of \$1200 was granted April 4, 1798, for the erection of the co. buildings, on a lot given by Levi Baxter and George Fish. Under an act of March 25, 1806, the sheriff's mileage was reckoned from the courthouse; and under an act of June 18, 1812, a tavern was allowed to be kept in the courthouse. The courthouse and jail was burned April 17, 1820, and a prisoner confined for some trifling offence perished in the flames. An act passed April 11, 1820, authorized a loan of \$8000 for rebuilding, and the present edifice was erected in the summer of that year. About a dozen prisoners, on "the limits" at the time the jail was burned, were released upon bail; and it happened that while the co. was without a jail there was no occasion for its use; but within a few hours after a prison room was so far completed as to hold a prisoner, it was needed and occupied.

² Supervisors' meetings and courts were held at the house of Gideon Frisbie until the courthouse was completed. The first co. officers were Joshua H. Brett, *First Judge*; Patrick Lamb, Wm. Horton, and Gabriel North, *Judges*; Isaac Hardenburgh and Alex. Leal, *Justices*; Ebenezer Foote, *Clerk*; Elias Butler, *Sheriff*; and Anthony Marvin, *Sargeant*.

³ The jail is of wood, warmed by furnaces. It contains 4 rooms, and generally has 1 or 2 inmates.

⁴ During the first 10 years of this century several turnpikes were built through this co., and these tended greatly to promote settlement, by opening routes to market.

⁵ **The Delaware Gazette** was established at Delhi, Nov. 18, 1819, by John Jas. Lappan. In 1833 it was sold to A. M. Paine, by whom it is now published.

The Delaware Republican was started at Delhi, July 4, 1822, by Elijah J. Roberts, and was continued about 2 years.

The Delaware Journal was started at Delhi in 1824, by Geo. Mayvane, and was continued 1 year. It was revived by Boune & McDonald, but was again discontinued.

The Delaware Express was started at Delhi, in Jan. 1839, by Norwood Bowne, the present publisher.

Voice of the People, an anti-rent paper established at Delhi in 1845, and continued about 4 years.

The Deposit Courier was started in March, 1849, by C. E. Wright, and was continued till May, 1853. From the same office, in Sept., 1853, *Sylvester D. Hulse* issued.

The Deposit Union Democrat, and still continues to publish it.

The Bloomville Mirror was begun May 28, 1851, by S. B. Champion. The first number contained but 101 words, and till July no price was fixed. The "office," located in the corner of a mill, consisted of 10 lbs. of type without a press; and the paper was "printed" by striking with a mallet on a block laid over the type. It has grown into respectable size, and has an unusually large patronage for a country newspaper. It is now printed on a power press.

The Hobart Free Press was started Jan. 1855, by E. B. Fenn.

The Weekly Visitor was commenced April 14, 1855, at Franklin, by Geo. W. Reynolds. It has been changed to

The Franklin Visitor, and is still published.

The Walton Journal, commenced in 1856 by E. P. Berry, was continued 2 years.

The Village Record was established at Hobart in 1856, by G. W. Allright.

The Walton Blade was commenced in 1856 by E. P. Berry, but was soon after discontinued.

⁶ Most of the Hardenburgh Patent was surveyed by Ebenezer Wooster, in 1749; and in that year the proprietors released to each other certain lots, bounded by monuments on the Delaware and Papakunk Rivers. After the Revolution it was found that the monuments were lost, and an act, passed March 29, 1790, appointed Charles Tappan and Jas. Cockburn commissioners to make a survey of certain lines, to be properly marked by stone heaps every 2 mi. along the division lines. The tract was divided into great tracts, numbered from 1 to 42. Of these 35 to 42 lay between the branches of the Delaware, and parts of 2 to 8 of the E. branch.

⁷ These towns were as follows:

Names of Townships.	Date of Patent.	Acres.	Patentees.
Bellington.	May 24, 1770,	27,000	John Lake and associates.
Franklin.	Feb. 26, 1770,	50,000	Thomas Wharton and Reese Mersmith.
Goldsborough.	June 15, 1770,	6,000	Edward Tudor, Bernard Ratzer, and John Clark.
Strasburgh.	Dec. 3, 1770,	57,000	John Butler and associates.
Whitelborough.	March 10, 1770,	58,000	Henry White and associates.

The quitrents of these lands were fixed at 2 shillings sixpence per 100 acres, payable annually on the Feast of the Annunciation of B. V. M. There was generally in the patent 1 name to each 1000 acres of the grant, although the *bona fide* owners were usually few in numbers.

⁸ A select committee of the Assembly, in 1846, reported the following tracts under lease in this co.: *Kortright Patent*, 20,000 acres, mostly leased in fee, at sixpence sterling per acre. It was offered for sale at \$2 per acre. *Delobres Tract* (Hardenburgh Patent), 64,000 acres, mostly leased in fee between 1790 and 1807, at 1 shilling per acre after the first 7 years. Farms from 100 to 200 acres. *Morgan Lewis Estate*, 20,000 acres, about 15,000 under perpetual lease, at 20 bush. of wheat per 100 acres, about 15 years; for the first 5 of the 15 years it was rent, too, 5 years for one-half rent, and 5 for three-quarters. *G. and S. Trapnack*, 3 tracts, originally 50,000 acres, of which less than 20,000 were under lease. *R. R. Livingston and Mrs. Montgomery*, 20,000 acres, under perpetual lease, on a rent of 20 bush. of wheat per 100 acres. *Geo. Armstrong*, 8,000 acres, under lease for 3 lives, at 20 bush. of wheat per 100 acres. *Hunter's and Overing's* large tracts in this co., Sullivan, and Greene, in fee, with a rent of 12½ to 15 or 18 cents per acre.

appearing disguised and armed, under a penalty of imprisonment in the co. jail for a term not exceeding 6 months. Persons thus armed and disguised might be prosecuted under the fictitious names they assumed, if their real names could not be discovered; and such persons assembling in public houses or other places to the number of three or more might, upon conviction, be imprisoned 1 year in the co. jail. If convicted upon an indictment for a conspiracy or riot or other misdemeanor, in which offense they were armed with deadly weapons, they were further liable to a fine not exceeding \$250, with or without a year's imprisonment. To men inflamed by passion and intent upon the resistance to law in one form, its violation in other points was a matter of slight account; and the statute against the wearing of disguise was openly disregarded in the sections where the anti-rent spirit prevailed. An arrest under the above act was made in Roxbury, in Feb., and "Big Thunder," (Daniel W. Squires,) the culprit, was lodged in jail. The excitement which this arrest occasioned was so intense that the sheriff deemed it prudent to place a strong guard over the jail; and the decision with which the affair was conducted occasioned a temporary calm. On the 7th of Aug. 1845, Osman N. Steele, deputy sheriff, an active, fearless, and faithful officer, was shot in the town of Andes while in the performance of his duty, and died in a few hours.¹ The Governor immediately issued a proclamation declaring the co. to be in a state of insurrection, and placing it under martial law. A battalion of 300 militia, one-half of whom were mounted, were called out and placed at the disposal of the local officers.² They continued in service several months. The mounted men were actively employed the first 2 or 3 months in small detachments, aiding the civil authorities in making arrests, and in patrolling day and night such districts as the exigency of the service required. The residue was employed in guarding the jail, and as foot patrols in the vicinity of Delhi on the occasion. On two occasions detachments of troops attended the sheriff to State prison with prisoners.³

ANDES⁴—was formed from Middletown, April 13, 1819. It lies on the s. r. border of the co., e. of the center. Its surface is a broken and hilly upland, intersected by the deep, narrow ravines of the e. branch of the Delaware and its branches. The hills are high, rocky, and irregular, and are bordered by steep declivities.⁵ The Delaware flows s. w. through near the center of the town. Trempers Kil, Little Bush Kil, and Shaw Brook are the other principal streams. The valleys of these streams are all narrow and tortuous and are bordered by rocky hillsides. A considerable portion of the town is still covered with forests. The soil is a clayey and shaly loam underlain by hardpan upon the hills, and a gravelly loam of good quality in the valleys. **Andes**, (p. v.) on Trempers Kil, in the s. part of the town, contains an academy,⁶ 3 churches, a flouring mill, and 2 tanneries. Pop. 350. **Cabin Hill**, (p. o.) in the s. w., is a hamlet. **Shavertown** and **Trempers Kil** are p. offices. Permanent settlement commenced in 1784. A few farms were taken up prior to the Revolution, but were abandoned. The w. part of the town began to be settled in 1794-96.⁷ During the anti-rent excitement this town was the scene of much violence, and Deputy Sheriff Steele was murdered here by a mob, Aug. 7, 1845. Rev. Mr. House, of Colchester, held the first religious meetings, in 1797.⁸

BOVINA⁹—was formed from Delhi, Stamford, and Middletown, Feb. 25, 1820. It is an interior town, lying directly e. of the center of the co. Its surface is a hilly upland, broken by the deep valleys of small streams. The highest summits are 1500 to 2500 ft. above tide. The streams are Little Delaware River, flowing w. through the center of the town, Bush Creek, the outlet of Teunis Lake, and Coulter, Maynard, Mountain, and Grants Brooks. The valleys of these streams

¹ For full particulars see *Governor's Message* in 1846, and *Gosh's Hist. Del. Co.*, Chap. xii. About 90 persons were indicted for the murder, of whom one-third were arrested. Two (O'Connor and Van Steenburgh) were convicted and sentenced to be executed, but their punishment was commuted to State prison for life by Gov. Wright, and they were fully pardoned by Gov. Young. The co. remained under martial law from Aug. 18 to Dec. 22, 1845. The murder of Steele led to the speedy abandonment of secret organizations and Indian costumes.

² A company of volunteers under Benj. T. Cook, and another under John R. Baldwin, were formed, and organized into a battalion under Thomas Marvin as major. A company of light infantry from Unadilla, under Capt. Bolles, was also called out, and reported themselves to Maj. Marvin.

³ Adjutant General's Report; *Trans. Doc.*, 6, 1846. The whole expense of this service was \$23 683 20, which was charged to the co., but has never been repaid. Considerable tracts of land have since been conveyed in fee; and of others, the rent is now paid as formerly, and if in arrears, suits are instituted without difficulty.

⁴ Named from the mountainous character of its surface.

⁵ "Mt. Pisgah" is the highest point between the two branches of the Delaware. By a p. r. survey from Oneonta by way of Elk Creek, Delhi and Fish Lake, the Fish Lake summit is ascertained to be 1640 ft. above tide. By another route, up the Little Delaware and Coulter's Brook, the highest point on the line was about the same height. Mt. Pisgah measured 1500 ft. above tide, or about 3400 feet above tide.

⁶ Erected by Henry Down in 1847. It is not in use.

⁷ Among the first settlers were James Phoenix, — (died), Peter Burgher, Joseph Eskins, Silas Barish, P. Washburn, L. Sears, Jacob, Adam, and Philip Shaver, and Philip Barnhart. The first birth was that of Philip, son of Adam Shaver, Oct. 6, 1780; the first marriage, that of Henry Myers and Catherine Shaver, June 17, 1789; and the first death, that of Wm. Adams, Wm. Washburn, Laught the first school, in 1792, and J. W. and Sams kept the first store, Russel Campbell, the first mill, and Robt. More built the first mill on Trempers Kil in 1797.

⁸ The census reports show that, in 1792, there were 14 families, O. S. Rap, Gove, M. E. Puck, and Timon.

⁹ Name applied by Gen. Erasmus Root, from the Latin, in allusion to its fitness for grazing.

are narrow and are bordered by steep, rocky hillsides. Tenais¹ and Landons Lakes are small bodies of water near the s. border. The surface is stony, and the soil is generally a clay loam, admirably adapted to grazing. **Brushland**,² (p. v.) on the Little Delaware, contains a tannery, gristmill, and clothing works. Pop. 183. **Bovina**,³ (p. v.) at the junction of Maynard and Mountain Brooks, contains about a dozen houses. **Mountain Brook** is a hamlet. The first settlement was begun in 1792, by Elisha B. Maynard, and during the succeeding 3 years many families from Conn. and Scotland located in the valleys.⁴ Rev. James Richie conducted the first religious services, in 1795. The first church (Asso. Presb.) was formed in 1809. The census reports 3 churches; M. E., Asso. Presb., and Ref. Presb.

COLCHESTER⁵—was formed from Middletown, April 10, 1792. A part was annexed to Walton in 1799; Hancock was taken off in 1806, and a part of Walton was annexed in 1827. It occupies a central position upon the s. e. border of the co. Its surface is a mountainous upland, broken by the narrow valleys of the streams. The e. branch of the Delaware flows westward through the s. part of the town, dividing the highlands into two distinct parts. From the s. it receives West Trout, Downs, and Coles Brooks, and from the s. Clearwater and several smaller brooks. Beaver Kil flows through the s. w. corner, receiving Spring Brook as a tributary. The valleys of these streams are all narrow, and many hundred feet below the summits of the hills which rise on either side. The soil is a reddish clay, and is often very stony. A considerable share of the surface is still covered with forests. Lumbering is extensively pursued. **Downsville**,⁶ (p. v.) on the Delaware, at the mouth of Downs Creek, contains 3 churches. Pop. 206. **Pepacton** and **Colchester** are p. offices. The first settlement was begun in May, 1774.⁷ The first religious services (Bap.) were conducted by Elder Haynes, and the first church (Bap.) was formed in 1803. There are now 2 churches in town; M. E. and Presb.

DAVENPORT⁸—was formed from Kortright and Maryland, (Otsego co.,) March 31, 1817. It lies along the s. border of the co., e. of the center. Its surface is a broken upland, divided into two ridges by the valley of Charlotte River, which extends e. and w. through the center of the town. These ridges are subdivided by the narrow, lateral valleys of tributaries of Charlotte River. The soil is a chocolate colored clay loam mixed with slate. **Fergusonville**,⁹ (p. v.) on Charlotte River, on the e. border of the town, contains an academy,¹⁰ a church, and several manufacturing establishments. Pop. 125. **Davenport**, (p. v.) 3 mi. below, contains a population of 95. **Davenport Center** (p. v.) contains a cradle and rake factory and 5 sawmills. Pop. 125. **West Davenport**¹¹ (p. v.) contains a woolen factory, 3 sawmills, and 90 inhabitants. The first settlers were Daniel Farnsworth and — Pross, who located upon the present site of Davenport Center in 1786.¹² At that time an Indian trail, of sufficient width to admit the passage of wagons, extended along Charlotte River. Elder Mudge (M. E.) conducted the first religious services, and commenced regular preaching in 1813.¹³

DELLI¹⁴—was formed from Middletown, Kortright, and Walton, March 23, 1798. A part of Bovina was taken off in 1820, and a part of Handen in 1825. A part was annexed to Walton in

¹ The lake lies at the foot of Mt. Pisgah, and its shores are mudily and covered with bushes and coarse grass. It was named from a friendly Indian who saved the early settlers of Middletown from massacre by giving them a timely warning. His hut was near the lake, and he remained several years after the war. Tradition attributes to this region rich lead mines known only to Indians.

² Named from Alex. Brush, first settler and proprietor.

³ Locally known as "Bull End."

⁴ Francis Caulter, Levi and Jacob Mabie, Jas. Kidzie, Andrew Chisholm, Jas. Eay, and Thos. Liddle were early settlers along the Little Delaware. The first birth was that of Elisha B., son of Elisha B. Maynard, Aug. 25, 1793; the first marriage, that of James Russell and Nancy Richie, in 1802; and the first death, that of Aaron, son of Abraham Nichols. Abel Adams taught the first school, in 1810; James Wetmore kept the first inn, at the "Hulk"; James McClure the first store, at Bushland; Stephen Palmer built the first mill, in 1796, for Gov. Lewis; and John Jerome the first factory, in 1808.

⁵ Name applied by Joseph Roe, from Colchester, Conn.

⁶ Named from Abel Downs, who erected there extensive tanneries and mills.

⁷ Timothy Russell, Thos. and John Gregory, (from Westchester co.,) Frederick Miller, (still living, 1859, aged 100 years,) Jas. and S. Shaver, Silas Bowler, Peter, Harry, and Selchmah Avery, Jacob Bramhart, Daniel and Wm. Parish, and Wm. Rose, began settlement before the war, but were driven off by the Indians and Tories. Before leaving they buried their iron implements, to preserve them. After the war several of the families returned, and were joined by Wm. Horton, Abraham Sprague, Thos. Cal-

broth, Nathan Elwood, Nathan Fuller, Joseph Gee, Caleb and Henry Sutton, Jas. Miller, and Dennis Javed, and John Batt. The first birth was that of Catherine, a daughter of Wm. Roe, Dec. 24, 1784; and the first death, that of Thomas Gregory. Adam J. Doll opened the first store, and built the first bridge across the river at the place now known as Brooks Bridge. Wm. Rose built a sawmill in 1790. On the farm of Wm. Early, near the mouth of Coles Brook is the site of an Indian village, with many of the apple trees planted by the natives still standing.

⁸ Named from John Davenport, an early settler and first supervisor.

⁹ Named from Messrs. Ferguson, who were largely engaged in business here.

¹⁰ Erected by the Fergusons about 1848.

¹¹ Called Adonipough range, or Adis-qua-trangle, by the Indians.

¹² Among the other first settlers were Humphrey Deane, Geo. Webster, Daniel Ourshead, — Van Alkenburgh, Harmon Moore, and Elisha Orr. Dr. Dan'l Fuller came in 1790, and was the first physician. The first marriages were those of Harmon Moore and Mary Orr, and Richard Moore and M. Banks, in 1794; the two marriages taking place on the same time; the first birth was that of a child of Harmon Moore, who died in infancy; this was the first death. The first death of an adult was that of Mrs. Harmon Moore, in 1796. Wm. Hannah Dodge taught the first school; Dan'l Prentice built the first grist and saw mill, in 1792-94, and it is believed he kept the first inn. Ezra Dene kept the first store, in 1800.

¹³ The census reports 5 churches; 3 M. E., F. W. Bap., and Presb.

¹⁴ Named through the influence of Judge Ebenezer Foote. The name of "Mephibosh" was suggested by several prominent citizens.

1812. It occupies a nearly central position in the co. Its surface is a hilly upland, broken by the deep valleys of the streams. The w. branch of the Delaware flows s. w. through the center of the town, receiving from the s. w. Platners, Peeks, Steels, and Elk Creeks, and from the s. Little Delaware River. The valleys are generally narrow and bordered by steep hills. The soil is a clay loam, and the surface is very stony in places. **Delhi**, (p. v.) the county seat, is finely situated on the s. bank of the w. branch of the Delaware. It was incorp. March 16, 1821. Besides the co. buildings, it contains the Delhi Academy,¹ 4 churches, a bank, 2 printing offices, a woolen factory, an iron foundry, a gristmill, and a sawmill. Pop. 319. The first settlement was commenced by Abel and John Kidder, in 1785.² The first religious meetings were conducted by Elder Kidder Beck, in 1786. The first church (Cong.) was formed in 1798.³

FRANKLIN⁴—was formed from Harpersfield, April 10, 1792. Walton was taken off in 1797, and a part was restored in 1801. A part of Meroloth was taken off in 1809, Sidney in 1801, and a part of Otego, (Otsego co.,) as "*Hautsville*," in 1822. It lies upon the s. border of the co., w. of the center. Its surface is a hilly upland, broken by deep and narrow valleys. The principal streams are Ouleout⁵ Creek, flowing w. through the s. part of the town, and its two tributaries from the s., Croton Creek and Handsome Brook. The soil upon the hills is a shaly loam underlaid by hardpan, and in the valleys a gravelly loam and alluvium. **Franklin**, (p. v.) on the Ouleout, in the s. w. part of the town, contains the Delaware Literary Institute,⁶ printing office, and 3 churches. Pop. 400. **Croton** (p. v.) is situated upon Croton Creek, near the line of Meroloth. Pop. 200. **North Franklin** is a p. o. Sluman Wattles, afterward judge, was the first white settler who built his cabin in the valley of the Ouleout. He came in 1785, and was accompanied by his brothers John and Roger and his sisters Sarah and Caroline. The town was surveyed under Judge Wattles, who acquired one of the 4 shares.⁷ The first church (Bap.) was formed at the house of Gad Merrick by Elder Hamilton, in 1798.⁸

HAMDEN—was formed from Walton and Delhi as "*Hamplden*," April 4, 1825. Its name was corrected March 17, 1826. It is the central town of the co. Its surface is a mountainous upland, divided into two parts by the valley of the w. branch of the Delaware. The s. part is covered by lofty peaks and ridges scarcely susceptible of cultivation. Bagleys Brook, a tributary of the Delaware, and Clove Brook, in the s. e. part, are the other principal streams. The soil is generally a brownish clay loam underlaid by hardpan. **Hamden**, (p. v.) upon the Delaware, near the center, contains mills, a woolen and satinet factory, and 2 churches. Pop. 191. **Lansingville**, 1½ mi. above, on the s. side of the river, contains 2 churches and 116 inhabitants. **North Hamden** is a p. o. The first settlers were Daniel Harrower and Benjamin McCall, who came in some time previous to 1795.⁹ The census reports 4 churches in town.¹⁰

HANCOCK¹¹—was formed from Colechester, March 28, 1806. It lies upon Delaware River, in the s. w. corner of the co. Its surface is a mountainous upland, ending in high and nearly precipitous bluffs upon the Delaware, and divided into two parts by the e. branch of the Delaware, which flows w. through the s. part. Beaver Kil flows into the e. branch in the e. part of the town. Sands and Hawks Creeks and Bieds and Baxters Brooks are tributaries of the e. branch of the Delaware, from the n. ; and Big Trout, Basket Pond, Giers, Sand Pond, Lords, and H. Inos Pond

¹ The first academic building was erected in 1829, on the public square, near the courthouse. In 1836-37 a new site was purchased, containing 2 acres, upon the w. bank of Stock Brook, and a new edifice, with two spacious boarding halls, was erected. The site is commanding, and affords a fine view of the village. The institution has been endowed by monies derived from the sale of educated birds in the co. to the value of \$3113. Its total property amounts to \$28,820.

² Among the first settlers were Judge Gideon Frisbee, Thos. Farrington, Bartholomew Yandee, Joseph Dulin, Gen. Fisher, John Emery, and Levi Baxter; — Preston, and Gideon Rathbone and his sons John, David, and Gideon, jr. The first birth was that of Hildah, daughter of Gideon Frisbee, June 14, 1787; the first marriage, that of Philip Frisbee and Jerusha Harmon, in 1791; and the first death of an adult, that of Dr. Philip Frisbee, in 1797. Thos. Averill taught the first school. The first mills were built in 1788.

³ The census reports 8 churches; 2 Christian, 2 Presb., and 1 each Prot. E., Bapt., M. E., and Asso. Presb.

⁴ The township of Franklin, embracing 30,000 acres, was patented Feb. 29, 1770, with the usual powers of a township, and a grant of two and sixpence for every 100 acres annually. The patentees were Thos. Wharton, Ross Meroloth, and 28 others. It was named from Temple Franklin, a natural son of Dr. Benj. Franklin.

⁵ In the great Indian purchase of 250,000 acres, Jun. 14, 1788, this stream is named An Ivon-let.

⁶ The buildings consist of one large stone building containing recitation rooms, &c., and two large boarding-halls. The total property of the institution is valued at \$200,000.

⁷ Among the early settlers were Nathl Ellis, Jr., Jos. F. Bell, Alex. Smith, Daniel and Chamoxy, sons of Lewis Parker, of the Avron Chamberlain, Moses Clark, Asa Turner, Gad Merrick, Hugh Thompson, Fildin McCall, — Casp. Turner, and Daniel Clarke, Sol. Green, John Dewey and sons, M. J. F. G. — — — — — Mix, — — — Sharp, and — — — Fitch. The first child, 1790, was Edzorton; the first marriage was that of John Bartlett and Caroline Wattles; and the first death, that of Mrs. Asa Clark Smith, in 1795. Shumir Bartlett taught the first school, and Asa Turner kept the first annual store.

⁸ The census reports 8 churches; 3 M. E., 2 Esp., 2 Cong., and 1 Union.

⁹ Among the first settlers were Joseph Bell, Henry V. Walton, gener. Jas. Mason, Reuben Wash, Henry Pillsbury, Richard J. John Howard, Saml Robinson, Wm. Corn. Thos. J. B. — — — — — Grimes, Jos. Howard kept the first store, in 1775. Asa Turner and Sweeney built the first grist-mill in 1775. Gen. Ellis built a saw-mill, the first merchant near the Walton line.

¹⁰ Asso. Presb., Christian Cong., and Prot.

¹¹ Named in honor of John Hancock, 11th President of Continental Congress.

Brooks, are tributaries of the Delaware. These streams all flow through narrow ravines bordered by steep, rocky hills nearly perpendicular. The valley at the junction of the two branches is 922 feet above tide, and at the mouth of Beaver Kil it is 1018 ft. above tide. The summits are 1000 to 1500 ft. above the valleys. A large portion of the surface is still covered with forests. The soil upon the uplands is a hard clayey loam, scarcely susceptible of cultivation. Lumber, leather, shingles, and staves are largely manufactured. **Hancock**,¹ (p. v.) at the junction of the two branches of the Delaware, is an important trading and r. r. station. Pop. 502. **Stockport Station** and **Lordsville** are r. r. stations and p. offices. **East Branch**, (p. v.) at the mouth of Beaver Kil, contains 2 churches and 20 houses; and **Harvard**, (p. v.), 3 mi. above E. Branch, 15 houses; **Partridge Island**, on the E. branch, at the mouth of Riels Brook, and **Cadosia Valley**, (p. o.) on Hawks Brook, 3 mi. above Hancock, are hamlets. Before the Revolution two families settled in town; but they soon after left and never returned. The first permanent settlement was made soon after the close of the war by families from Dutchess co.² In 1784, Canope, a friendly Indian, was treacherously killed in this town by Ben Haines.³ The first religious meetings (M. E.) were conducted by Rev. Titus Williams.⁴

HARBERSFIELD⁵—was formed March 7, 1788. Franklin was taken off in 1792, Kortright in 1793, and a part of Stamford in 1834. It is the n. e. corner town of the co. Its surface is a rolling upland, constituting a portion of the high plateau region stretching westward from the Catskill Mts. The principal streams are head branches of the w. branch of the Delaware, in the s.; of Middle Brook, in the center; and of Charlotte River, in the n. The valleys are usually narrow, and bordered by gradually sloping hills arable to their summits. The soil is a shaly and stony loam of good quality. The quality of the soil, and the great abundance of pure soft water which issues from the hillsides, render this co. one of the finest grazing regions in the State. **Harpersfield**, (p. v.), near the E. line, contains 20 houses. **North Harpersfield** (p. o.) is a hamlet. **Fergusonville** (p. v.) lies on the line of Davenport, **North Kortright** (p. v.) on the line of Kortright, and **Stamford** (p. v.) on the line of Stamford. This town formed part of a large purchase made from the Indians by the Harpers in 1768.⁶ In 1771, Col. John Harper and David Hendry surveyed this town, and a small settlement was made soon after. One of the first settlers was Samuel Claxton, a tory. Several murders were committed by tories and Indians during the war, and the settlement was abandoned. In 1781, Col. John, Capt. Wm., Col. Alex., and Joseph Harper returned, and began the first permanent settlement.⁷ Rev. John Lindsley conducted the first religious services, at an early period. There are now two churches in town, Bap. and Presb.

KORTRIGHT⁸—was formed from Harpersfield, March 12, 1793. A part of Delhi was taken off in 1798, a part of Meredith in 1800, a part of Davenport in 1817, and a part of Stamford in 1834. It is an interior town, lying n. e. of the center of the co. Its surface is a hilly upland, broken by narrow valleys and ravines. The mean elevation of the town is 1700 ft. above tide, and the highest summits attain an elevation of 2400 ft. The streams are the w. branch of the Delaware, forming its s. boundary, and its tributaries, and several small tributaries of Charlotte River, draining the n. half of the town. The hills are steep, but are generally susceptible of cultivation. The soil is a dark, shaly loam, well adapted to pasturage. **Bloctown** (p. v.) is in the s. w. part of the town. Pop. 184. **Kortright Center** (Kortright p. o.) contains a church and 25 houses. **North Kortright** (p. o.) and **South Kortright** (p. o.) are farming neighborhoods. Set-

¹ Formerly "Shohatkin," or "Chohatkin," said to signify the name of streams. A plank road extends from this place to Walton, a distance of 2½ mi.

² Among the first settlers were Dr. Elnathan Gregory and his son Samuel, John Barber, Daniel Butler, Henry Rod, Timothy Rice, Chris. Bull, Dennis Hill, — Gilbert, — Leonard, from New England, who settled on Reeds Flat, John Hill, John and Richard Bullbone, Flor. Wheeler, Wm. Jos., John, and Sam'l Mollory, (near Partridge Island) Josiah Parker, Geo. Hawks, and ——— (near Hancock Village). The first birth was that of Elsie, son of Dan'l Bonker, May 11, 1792; the first marriage, that of Abm. Sprague and Polly Parish, in 1791; and the first death, that of Lieut. Day. John Gregory taught the first school *Annals of the Del. Co.*, p. 184.

³ The census reports 6 churches; 3 M. E., and 1 each Bap., Cong., and E. C.

⁴ Named in honor of Col. John Harper, a proprietor and pioneer settler. The family consisted of John and his wife Abigail, and nine children,—Wm., James, Mary, John, Joseph, Abigail, E. Abigail, and two others. The brothers were ardent patriots of the Revolution and active defenders of liberty. Their names are intimately associated with our State history.

⁵ On the 24 of April, 1780, a party of 11 persons, under Capt. Alex. Harper, was sent from Schomarie to Harpersfield for the purpose of making maple sugar and watching the disaffected in that quarter. On his return, Capt. H. was taken prisoner by a party of tories and E. Indians. Of the party taken off, 3 were killed and the rest taken prisoners. The representation made by Capt. Harper concerning the strength of the Schomarie settlement saved it from destruction at that time.

⁶ Rowell Hotchkiss, and Levi and Jedediah Gaylord, settled with the Harpers near the center of the town. Josiah Soley, Matthew Lindsley, Sam'l and John Knapp, ——— Hamilton, ——— Washburn, Isaac Thore, Stephen Judd, Sam'l, Lind and John Wilcox, Richard and John Bristol, Abijah Bird, Byron McVayne, David and John McCullough, Isaac Fatlan, Wm. Lamb, Caleb Gibbs, and Wm. McFarland were among the early settlers. Rebecca Harper, born Jan. 8, 1783, was the first birth after the war. Rev. John Lindsley is believed to have taught the first school. A gristmill, erected about 1775 by G. Harper, was burned by the enemy, and was rebuilt soon after the war.

⁸ Named from Lawrence Kortright, the patentee.

tlements commenced before the Revolution, but were broken up by the war. The first permanent settlers after the war were from Conn., Dutchess co., N. Y., and Scotland. The first settlement (Presb.) was formed in 1789; Rev. Wm. McAuley settled in town in Sept. 1794, and was pastor past a June 6, 1795. He filled that office until the time of his death, March 21, 1837, at the age of 56 years.³

MASONVILLE⁴—was formed from Sidney, April 1, 1811. Its surface is a hilly upland, divided into 2 ridges by the valley of Bennetts Creek, which extends e. and w. through the center of the town. These ridges are subdivided by numerous lateral ravines, through which flow many small brooks. The highest summits are 600 to 1000 feet above the valleys and 1800 to 2000 feet above tide. The surface is stony, and the soil a shaly loam, difficult of cultivation except in the valleys. **Masonville** (p. v.) is situated on Bennetts Creek, in the w. part of the town. Population, 100. The first settlement was commenced in 1795, on "Cochran's Gap,"⁵ upon the w. border of the town, by immigrants from Mass.⁶ In 1797, the State Road from Cherry Valley to Jericho was laid out through the town. The first religious services were conducted by Rev. Joel Chapin, in 1797. The first church (Bap.) was formed Dec. 7, 1820. There are now 2 churches in town: Presb. and M. E.

MEREDITH⁷—was formed from Franklin and Kortright, March 14, 1800. It is an interior town, lying s. e. of the center of the co. Its surface is a hilly upland, less broken than most of the towns in the co. The s. and e. parts of the town are occupied by the high ridges forming the watershed between Susquehanna and Delaware Rivers. The streams are small brooks and creeks. The soil is a reddish clay and shaly loam. **Outcrot** (p. v.) contains 25 houses. **Meredith Square** (Mereditth p. o.) contains 2 churches and 20 houses. **West Meredith** (p. v.) is a hamlet. These last two places are on the old Catskill Turnpike. Settlement was begun in 1787, by Joseph Bramhall, whose family were sole inhabitants till 1797. Elder Nathan Stillson (Bap.) held the first meetings. He was not a regular preacher, but a zealous promoter of education and religion.⁸

MIDDLETOWN—was formed from Rochester and Woodstock, (Ulster co.) March 3, 1789. Cobchester was taken off in 1792, a part of Delhi in 1798, Andes in 1819, and a part of B. Minn. in 1820. It is the s. e. corner town of the co. Its surface is a mountainous upland, bisected by the deep, narrow valley of the e. branch of the Delaware. The principal streams are Delaware River, Platte Kil, Batavia Kil, Red Kil, Bush Kil, and Mill Creek. The valleys of these streams are bordered by steep, rocky hill-sides often rising into mountains. The soil is a shaly and gravelly loam. **Margaretville**,⁹ (p. v.) on the s. bank of the Delaware, near the center of the town, contains 40 houses. **Griffins Corners**,¹⁰ (p. v.) on the Bush Kil, in the s. e. part, contains 40 houses. **Clovesville**, (p. o.), **Solitude**, and **Arkville** are hamlets on the Bush Kil, below Griffins Corners. **Dry Brook Settlement** is a hamlet on the s. branch of the Bush Kil. **Talcottsville**,¹¹ (p. o.) on the Delaware, near the e. border of the town, is a hamlet of a dozen houses. **Spruceville** is a little settlement between Habousville and Margaretville. **New Kingston**¹² (p. o.) is a hamlet upon the Platte Kil, in the s. part of the town. **Charks Factory**,¹³ (p. o.) is a little settlement on the Platte Kil, near its mouth. **Lamberville** (p. v.)

¹ And 2 of these early settlers were Alex. Mills, agent for the proprietor, Alex. Leal, Daniel McGilvray, and Houghton Clark. The town survey was surveyed by Wm. Cockburn in 1779, and the first improvement began soon after.

² By an advertisement dated June 1785, it appears that a fourth survey of this town was made. The proprietor ordered the farms more or less improved, and of ten to 15 years, and systems of crops to be put on, gradually after a survey. The first school was run by Rev. John Blackley, in 1795. Thos. McAuley, brother of the minister, and afterward Prof. in Union College, taught here in 1797, and John Keeler was the next teacher. A Mr. Alexander built a mill before the war, and the iron works did then have a very good run. The first birth was that of Daniel McGilvray; the next marriage, that of Michael Soxsmith and Mary Ann Piggott, and the first death, that of a son of Isaac Randolph. By an act of April 6, 1810, tithes were established in the village of "H. Minn." in this town, for the sale of live stock, agricultural produce, and industrial manufactures. It was to be supported by a tax of 1 cent on all sales.

³ Local newspapers (p. 6) churches: 3 Assn. Ref. Presb., 2 M. E., and 1 B. P. Ch.

⁴ Named in honor of the Rev. John M. Mason, of N. Y., principal owner of the Evans Patent in this town.

⁵ A narrow, strip of land between Evans Patent and the "Lane of Prop. 18."

⁶ Among the early settlers were Wm. and Aden Wait, Dud. Seranton, Lewis Goddard, Justin Nash, Pers. Moody, and son Moses, Asa, Tracy, and Ebenezer Mason. The first birth was that of Sally, daughter of Daniel Wait, Aug. 10, 1797, and the first death was that of Wm. Wait, the same summer. Dr. Eli Lin-

coln taught the first school, 1806. Wm. C. Phillips, of the "Lane of Prop. 18," and Fitch W. Phelps, the first preacher, 1808. 1819, 1820, 1821, and 1822.

⁷ Named in honor of Samuel Meredith, of New York, who was a part of the Indian Treaty of 1784. See "Annals of the State of New York," 1784, p. 107. Being a New Englander, he was called "Cochran's Gap," in honor of the first settler, John Cochran.

⁸ Among the early settlers were John C. Phillips, of New York, and James Phillips, of Vermont, who were the first to settle in Meredith. Rev. John Keeler, of the "Lane of Prop. 18," was the first to settle in Meredith, and the first to settle in the "Lane of Prop. 18." The first marriage, that of Michael Soxsmith and Mary Ann Piggott, was celebrated in Meredith, in 1797. The first death, that of a son of Isaac Randolph, was in Meredith, in 1797.

⁹ The original name of this town was "Margaretville."

¹⁰ The original name of this town was "Griffins Corners."

¹¹ The original name of this town was "Talcottsville."

¹² The original name of this town was "New Kingston."

¹³ The original name of this town was "Charks Factory."

is a lumber station at the mouth of Mill Creek, in the w. part of the town. A vague tradition exists of an early settlement of this town by French traders, but no positive proof. In 1762-63 a party from Hadley, Ulster co., commenced a settlement, which increased rapidly and in a few years spread over the Delaware bottom lands.¹ The settlers were driven out in 1778,² but returned soon after the war. The first church (Ref. Prot. D.) was formed in 1794. There are 3 churches in town: 2 M. E. and 1 Asso. Ref. Presb.

ROXBURY³—was formed from Stamford, March 23, 1799. It occupies the extreme e. portion of the co. Its surface is a mountainous upland, forming a portion of the great plateau extending w. from the Catskill Mts. The declivities of the hills are steep and rocky and are mostly unfit for cultivation. The highest points on the s. and w. borders of the town are estimated to be 2800 feet above tide. The principal streams are the e. branch of the Delaware, flowing s. w. through the center of the town, Bear Kil in the e., Batavia Kil and Red Kil in the s., and numerous smaller creeks. The soil is a reddish clay loam. **Roxbury** (p. v.) lies on the Delaware, near the center of the town. Pop. 232. **Moresville**,⁴ (p. o.) near the n. e. border, **Strattons Fall**,⁵ (p. o.) in the s., **Little Falls**, upon the e. border, and **Batavia Kil** are hamlets. The first settlement was made by John More, a Scotchman, on the site of Moresville, in 1786.⁶ The first religious meetings were conducted by Rev. H. Myres.⁷

SIDNEY⁸—was formed from Franklin, April 7, 1801. Masonville was taken off in 1811. It lies upon Susquehanna River, in the s. w. corner of the co. Its surface is a hilly upland, ending in high bluffs upon the valley of the river. The highest summits are 800 to 1200 ft. above the valley. Ouleout and Carrs Creeks⁹ flow w. through the town and empty into the Susquehanna. The valleys of these streams are deep and narrow, and are bordered by steep, rocky hills. The soil in the valleys is a fine fertile alluvium, and upon the hills a dark, shaly loam. **Sidney**, (p. v.) on the s. bank of the Susquehanna opposite Unadilla, contains 2 churches and 25 houses, **Sidney Center**, (p. v.) on Carrs Creek, 1 church and 20 houses, and **Sidney Plains**, (p. v.) upon the Susquehanna, in the s. w. corner of the town, 2 churches and about 20 houses. In May, 1772, Rev. Wm. Johnston, with an Indian guide, explored this region of country, and finally selected the present site of Sidney Plains as a place of settlement.¹⁰ Early in 1773 he moved in with his family, being the first settler in the Susquehanna Valley within the limits of the State. Several others soon followed. Just before the war, Gen. Herkimer held an interview with Brandt at this place; and the menacing attitude assumed by the Indians led Johnston and others who sympathized with the Continental cause to leave their new home for a less exposed situation. A few inhabitants remained during the war, and many returned immediately after its close.¹¹ By an act of April 6, 1790, £800 was granted for the construction of a road from "Olehoult" Creek to Catskill on the Hudson.¹² The census reports 5 churches; 2 M. E., 2 Cong., and 1 Bap.

STAMFORD¹³—was formed April 10, 1792. Roxbury was taken off in 1799, and a part of Bovina in 1820. A part was annexed from Harpersfield and Kortright, April 22, 1834. It lies n. of Roxbury, on the n. e. border of the co. Its surface is a mountainous upland. Mt. Prospect, e. of Stamford Village, is estimated to be 1500 ft. higher than the valleys. From its summit Albany City is visible in a clear day. The streams are the w. branch of the Delaware, forming a portion of its n. boundary, and Town and Rose Brooks. The soil is principally a reddish clay

¹ The first settlers were Harmanus and Peter Dimond, Johannes Van Waggoner, and ———— Hendricks, who located near the old Indian village. Among those who came soon after were families named Kille, Gable, Buzinger, Myler, Hinebaugh, Green, and Bleun.

² Most of the settlers became forlorn, and in 1779 the Governor was empowered to cause the removal or destruction of grain in the back settlements of Ulster co., to prevent it from being set free to the enemy. Soon after the war, the settlers of "The katoughland" came before the Legislature for redress; but no act was passed in their favor.—*Legislative Papers, St. Lib.*

³ Named from Roxbury, Conn., from which place many of the early settlers came.

⁴ Named from the first settler.

⁵ Named from an early settler. Strattons Brook falls about 40 feet at this place, furnishing a good water power.

⁶ John More, Israel Humm, Abm. Gould, Gen. Spicers, Josiah Patchen, N. hemiah Hayes, David Spicers, (most of them from Fairfield, Conn.) settled along the valley near the present village of Roxbury, in 1789.—*Smith's Hist. Del. Co.*, 197-98-99. The first child born was Charlotte, daughter of Nathl. Tillyou, in March, 1792; and the first male child born was John Gould, in Oct. of the same year. David Smith taught the first school, in the winter of 1794-5; Isaac Hunt, though owned the first store, John More kept the first inn, and John Person built the first gristmill.

⁷ The census reports 8 churches; 3 M. E., 2 O. S. Bap., 2 Ref. Prot. D., and 1 Christian.

⁸ Named from Sir Sidney Smith, the British Admiral. The name was first applied by John Mandeville, an English schoolmaster, then living on Sidney Plains.

⁹ Named in memory of John Carr, a tory, who built a sawmill upon this stream in an early period.

¹⁰ At this place was the site of an old Indian fort. Three acres of ground were enclosed by mounds of earth, surrounded by a ditch. From early times the place has been called "The Fort Grounds."

¹¹ The first gristmill w. of Harpersfield was built, in 1778, by Abm. Fuller, on the Ouleout, near Wattles Ferry. An inn was opened at the ferry in 1783, by Nathaniel Wattles. The first rail was sent down to Harrisburgh in 1795, by Capt. David Mc Masters. In 1787 a great scarcity of provisions occasioned much distress in this valley, and the settlers were saved from starvation by a boat load of flour from Northumberland, Penn., got to them through the exertions of Gen. Daniel Bates.

¹² The contract for building this road was awarded to Nathaniel Wattles and Medad Hunt; but, proving ruinous, the parties were relieved, in 1794, by a further grant of £120.

¹³ Originally named "New Stamford," from Stamford in Conn. It is situated on Great Lot No. 42 of Harleburg's Patent.

and shaly loam. **Stamford**, (p. v.), upon the Delaware, in the s. e. part of the town, on the line of Harpersfield, contains a seminary,¹ 2 churches, and 2 wooden factories. Pop. 187. **Eschburt** (p. v.) is situated on the Delaware, 4 mi. below Stamford. Pop. 391. The first settlement was made in 1773, by Dr. Stewart and John and Alex. More, from Scotland.² The first church (St. Peters Prot. E.) was formed at Hobart, Dec. 8, 1799. Rev. Philander Chase, afterward Bishop of Ohio and Ill., the first pastor, was installed Aug. 1799.³

TOMPKINS⁴—was formed from Walton, Feb. 28, 1806, as "*Pinefield*," and its name was changed March 11, 1808. It is the central town on the w. border of the co. Delaware River flows westward through near the center of the town to the w. border, where it turns s. and forms a portion of the w. boundary. The portion of the town s. of the river is composed of broken and rocky mountain masses too steep and rough for cultivation. The s. part is broken and hilly and but partially cultivated. The soil is a clay, slate, and gravelly loam. **Deposit**⁵ (p. v.) is situated on Delaware River, at the mouth of Oquaga Creek, on the line of Sanford, Broome co. It was incorporated April 5, 1811.⁶ It is the center of a large lumber business, and is an important trading station and wood depôt upon the N. Y. & Erie R. R. It contains a seminary,⁷ printing office, sawmill, a large tannery, and 4 churches. Pop. 1249,—of which 593 are in Tompkins and 656 are in Sanford, Broome co.; the depôt and r. r. buildings are in the latter town. **Cannonville**⁸ (p. v.) at the mouth of Trout Brook, on the Delaware, 7 mi. above Deposit, contains a sawmill, flouring mill, a large tannery, and 2 churches. Pop. 325. **Hales Eddy**,⁹ (p. o.) on the Delaware, 5 mi. below Deposit, **Barbourville**, (p. o.), on Cold Spring Brook, near the s. border, and **Trout Creek**, (p. o.) in the s. e., are hamlets. **Dickinsons Station** is near the s. line. The first settler was Squire Whittaker, from Wyoming,¹⁰ Penn., who came in 1787; John Hulso,¹¹ from Neversink, (Sullivan co.,) came in April, 1789, and Philip Pine and Conrad Ediet in 1791.¹² The first religious meetings were held at the house of John Hulso, by Rev. Hugh Compton, in 1791.¹³

WALTON¹⁴—was formed from Franklin, March 17, 1797. A part of Delhi is taken off in 1798, Tompkins in 1806, a part of Hamden in 1825, and a part of Colchester April 14, 1827. A part of Colchester was set off Feb. 1, 1799, a part of Franklin March 13, 1801, and a part of Delhi was annexed June 17, 1812. It is an interior town, lying w. of the center of the co. The deep valley of the Delaware divides the town into two nearly equal parts. The s. half is a broad, rocky, mountainous region with abrupt declivities and a surface too rough for cultivation; the n. half is broken and hilly, but generally well adapted to pasturage. The principal streams are East, West, and Hydes Brooks. The soil is a shaly loam upon the hills and a fertile alluvium in the valley. Tanning and lumbering are extensively carried on. **Walton**, (p. v.) upon the s. bank of the Delaware, near the center of the town, contains the Walton Academy¹⁵ and 3 churches. Pop. 430. **New Road** is a p. office in the extreme s. part. **West Brook** is a p. office. Dr. Platt Townsend,¹⁶ of Dutchess co., purchased a tract of 5,000 acres in this town in 1781. He surveyed it the same year, and in 1785 he located upon the present site of Walton Village. He was accompanied by 5 families, of 20 persons, mostly from Long Island. A large number of immigrants

¹ The Stamford Collegiate Institute was established here in 1851.

² Jas. Stewart, Wm. Frazer and son Simon, from Scotland, came in 1775. During the war most of the settlers left, but returned in March, 1785. In 1789, a company consisting of 20 heads of families and 2 single men (principally from Fairfield co., Conn.) came into Delaware co. to examine the country and select locations. Several of them located in this town, and others soon followed. Dea. John Grant taught the first school, in the winter of 1788-89. Lieut. Dunc. kept the first inn and store, and — Calden built the first mill, near Bloomville, before 1789. Andrew Beers, the alumina maker, resided in this town.

³ The census reports 6 churches; 2 M. E., 2 Assc. Ref. P., Prot. E., and Union.

⁴ Named from David D. Tompkins, soon afterward elected Governor.

⁵ Named from having formerly been an important station, or place of "deposit," for lumber preparatory to rafting in "the spring freshets." It was called by the Indians "*Cobeco*," (Owl's Nest,) a name corrupted by the English into "Cookhouse," by which it is still designated by the old inhabitants.

⁶ The original corporate limits of the village were entirely within the town of Tompkins. A part of Sanford, Broome co., was annexed in 1872. The charter was amended in 1858.

⁷ Laurel Bank Seminary was opened Dec. 14, 1853. It is a fine building, situated s. of the river, on a commanding site overlooking the village and valley. It has accommodations for 200

boarding students. The recent death of the pastor had caused a temporary suspension of the school.

⁸ In 1786 Jesse Dickinson, of Philadelphia, purchased of an extensive tract of land in this vicinity, and made preparations for the building of a city, to be called "*Delaware*." He built a gristmill upon Trout Creek, and a house, which he called the "*City Hall*." The town meeting was held in this building for several years. Dickinson returned to Philadelphia from the w. branch of the Delaware. Upon his return Benjamin Cannon purchased the property, and from him the village derived its name.

⁹ Named from the H. de family, who were early settlers.

¹⁰ Mr. W. was one of the survivors of the massacre at Wyoming; and his sons John and Benjamin then dwelt in the vicinity. Accidents of that event and the subsequent operations of the British had Brandt was at Cherry Valley at the time of the massacre, and, of course, was not a participant in its atrocity.

¹¹ The place where he settled is now a farm owned by his grandson, Martal R. Hulso.

¹² Mr. Hulso was a soldier of the Revolution. The first child was that of Polly Hulso, in 1789 or 1790, and the first settlement of Dorcas, wife of Oliver Hule, about 1791.

¹³ The census reports 7 churches. 3 Cong., 2 M. E., and 2 Prot. E.

¹⁴ Named from Wm. Walton, a French Canadian settler in this vicinity. Walton's Port of 2900 acres was sold to the State in 1792.

¹⁵ The academy building was one of Francis' school, and it contains a good library and is one of the best in the county.

¹⁶ Dr. Townsend received 1700 acres of land in 1781, and paid \$250 per acre for the remainder, receiving 1000 acres in 1782.

from New Canaan, Conn., came in within a few years.¹ The first church (Cong.) was formed in 1793.²

¹ Among the early settlers were Gabriel and Robert North, Isaac and Wm., sons of Platt Townsend, Wm. Fatman, Joshua Pine and sons, Daniel and Joshua Michael Goodrich. — Beers. — Cabb, Thaddeus Hoyt, Chas. W. Stockton, Matthew Buedel, John Ellis, Alan Mead, Linda Fitch, Don't Wood, Nathan Kell, J. C. C. Bush, Ephim Waring, Sam'l Handorf jr., Seth Berry, David and Sellick St. John, and Seymour Fitch. The proprietor offered a lot of land to the first male child born in town who should be named Wm. Walton; and the prize was within reach of a son of Mrs. Robert North, the first woman who came

into town, but she had set her heart upon the name of Samuel, and a lot of land could not induce her to change her mind. The first marriage was that of Jonathan Olmsted and Sundry Goodrich — Lewis Seymour and Julia Raymond kept the first store, in 1791; M. Goodrich built the first saw and grist mill, and Gabriel North the first framed house. — *Hist. of Walton*, in Nos. 6 to 22, Vol. II, of "The Walton Journal." Hon. Joel T. Headley, late Sec'y of State, was a native of this town. ² The census reports 4 churches: 2 Cong. and 1 each M. E. and Prot. E.

DUTCHESS COUNTY.

This county was formed Nov. 1, 1683.¹ It was provisionally annexed to Ulster co., and was first represented separately in the General Assembly in 1713. Livingston Manor was taken off, and annexed to Albany co., in 1717; and Putnam co. was taken off in 1812. It lies on the n. bank of the Hudson, about midway between New York and Albany, is centrally distant 60 mi. from Albany, and contains 810 sq. mi. Its surface is principally a rolling and hilly upland broken by the deep valleys of the streams. The Taghkanick Mts., extending along the n. border of the co., are 300 to 500 ft. above the valleys and 1900 to 4200 ft. above tide. Their declivities are generally steep, and in some places rocky. A wide valley skirts the w. foot of this range, bounded on the w. by the

Matteawan or Fishkill Mts., a high, broad range which extends n. and s. and occupies the whole central part of the co. A spur from this range extends eastward along the s. border to the Hudson, forming the s. extremity of The Highlands. This range has an average elevation of about 1000 ft. above tide, the highest peaks along the s. border attaining an elevation of 1500 to 1700 ft.² In the s. part of the co. the declivities of these mountains are steep and in many places rocky, but toward the n. they become more gradual, and the country assumes a rolling character, broken by rounded hills. West of this range the surface is a rolling upland, occasionally broken by deep ravines and isolated hills, and terminating upon the Hudson River Valley in a series of bluffs 100 to 180 ft. high. The greater part of the streams that drain the co. are tributaries of the Hudson. They mostly flow in a s. w. direction, and have worn deep valleys through the bluffs that border upon the river. The principal of these streams, commencing upon the n., are the Sawkill, Landmans, Crum Elbow, Fall, Wappingers, and Fishkill Creeks. Sprout Creek is a considerable branch of the Fishkill. The wide valley extending n. and s. through the co., separating the Taghkanick Mts. from The Highlands farther w., is drained by several streams. Ten Mile River flows s. in this valley through Amenia to near the s. line of Dover, where it turns e. and discharges its waters into the Housatonic River, in Conn. It receives Swamp River from the s. Croton River takes its rise in the s. part of the valley. Roeliff Jansens Kil flows through a small portion of the extreme n. part of the co. Among the highlands in the central and e. parts are numerous beautiful little lakes, noted for the purity of their waters and the beauty of the scenery immediately about them. The principal rock formation in the co. is the Hudson River slate, which crops out upon the hills and along the courses of the streams. The rock has been quarried at Red Hook for flagging, and in various places for roofing slate.³

A low ridge of metamorphic limestone extends longitudinally through near the center of the valley, which lies at the base of the Taghkanick Mts. and along its course are numerous quarries, from which is obtained a fair quality of marble.⁴ Hematite iron ore is found in almost inexhaustible quantities along the n. and s. parts of the co. and it has been extensively mined in several places.⁵ Thin veins of galena have also been found, but none have been worked since the Revolution.⁶ Mineral springs are found in several parts of the co., but none of them have acquired notoriety.⁷ Marl and peat beds are scattered over the whole co. The soil is generally a

¹ The act by which this co. was formed defines its original boundaries as follows:—The Dutchess co. to be from the bounds of the co. of Westchester, on the s. side of the Highlands, along the r. side as far as Roeliff Jansens Creek, and e. into the woods 20 miles.²

² Old Beacon, 2 mi. E. of Matteawan Village, is 1470 ft. above tide; and New Beacon or Grand Sachem, a 1 mi. s. of the same place, is 1600 ft. above tide.

³ A company, styled the "N. Y. Slate Co.," was incorp. March 23, 1810, to continue 15 years; and another, styled the "Dutchess Co. Slate Co.," June 8, 1812, to continue 21 years. The operations of the latter co. were to be confined to N. Y. coast.

⁴ This marble is of the variety called dolomite, and yields upon analysis about 70 per cent. of carbonate of magnesia; but the proportion is not uniform. The principal workings have been in Dover, where a portion of the marble is pure white fine grained, and capable of receiving a good but not a high polish. Clouded varieties are found in Amenia and Northeast.—*Geol., 1st Dist.*, p. 98.

⁵ This ore is generally compact, but in some places it is fibrous. Its cavities are lined with a glossy black surface, and often contain stibnite and botryoidal concretions of the ore.

⁶ Considerable excavations were made in Northeast in colonial times—it is said as early as 1740—by a company of Germans, who sent the ore to Bristol, Eng. The mines were to be opened during the Revolution, and a few tons of ore were obtained. Traces of lead ore have been also observed in Klumbuck and Amenia.—*Geol., 1st Dist.*, pp. 16, 17. Among the other useful minerals that have been observed in the co. are, graphite, formerly worked to some extent in the Fishkill Mts., oxyl of manganese, and the sulphurates of copper and iron, &c. Besides these are found calcite, asbestos, gibsbsite, garnet, staurolite, epidote, felspar, and tourmaline.

⁷ Full mineralogical and analytical description of the water from the bottom of a lake in Northeast, and from a locality 1/2 of a mi. from Ameniaville on the road to Port Bloomsie. A sulphur spring is situated 1 1/2 mi. S. W. of Ameniaville.—*Geol. Mineralogy*, N. Y., p. 160.

fine quality of sandy and gravelly loam. Upon the hills in some places it is composed of disintegrated slate, and upon the Hudson River intervals it is a deep, rich alluvium. Agriculture is the leading pursuit, and few cos. in the State offer greater attractions to the farmer. The richness and variety of its soil, and its proximity to the New York market, insure a rich return for all agricultural labor. Farming is of a mixed character, all branches being successfully pursued. Sending milk to New York and the raising of improved breeds of cattle have become important branches of business.¹

A considerable amount of manufacturing is carried on in the co., the principal establishments being located at Poughkeepsie and Fishkill, and a large amount of commerce is carried on by means of the Hudson.

The county seat is located at the city of Poughkeepsie. The colonial courthouse and jail was burned in 1785, and a new one was built soon after. This was burned in 1808.² The present building was erected in 1809,³ and contains the courtroom, jail,⁴ clerk's office, and all the usual co. offices except that of surrogate, which is in a small building adjacent. The co. poorhouse is situated on a farm of 107 acres in the town of Poughkeepsie, 1 mi. E. of the courthouse. The average number of inmates is 220, supported at a weekly cost of 95 cents each. The farm yields a revenue of \$1631.⁵ The Hudson River R. R. extends along the E. bank of the Hudson, through Fishkill, Poughkeepsie, Hyde Park, Rhinebeck, and Redhook; and the New York & Harlem R. R. extends along the E. border of the co., through Pawling, Dover, Amenia, and North East. In summer, regular lines of steamers ply between Poughkeepsie, New York, and Albany.

One daily and seven weekly papers are now published in the co.⁶

¹ In cultivated area Dutchess co. is excelled only by Jefferson, Oneida, Otsego, and St. Lawrence cos.; and in cash value of farms by Monroe and Westchester only. Over 2,000,000 gallons of milk are sent annually to the N. Y. market.

² A courthouse and jail were first ordered to be built July 21, 1715; but they do not appear to have been completed until 30 years afterward. In 1719, an act authorized the conversion of a jury room into a jail and 4 years after money was raised to complete the arrangement. The act of April 11, 1785, appropriated the sum of £1000 to reconstruct the buildings, which had been destroyed by fire, and Cornelius Humphrey, Peter Tappen, and Gilbert Livingston were appointed a building committee. A further tax of £2000 was ordered in 1786, and of £1300 in 1787. In the mean time, prisoners were sent to the Ulster co. jail. By act of March 19, 1778, the sheriff's mileage was to be reckoned from the house of Myndert Velle, in Beekman's Precinct.

³ The act for the reconstruction of these buildings was passed March 24, 1809, and \$12,000 was raised for that purpose. Jas. Talmadge, John B. Van Wyck, and John Van Benthuysen were appointed building commissioners. The next year, \$13,000 additional was raised, and the building was completed soon after. It is a stone edifice, 30 by 100 ft. The first deed on record was entered Dec. 26, 1718, conveying property from Henry Van De Bogart to Capt. Barent Van Kleeck, and others.

⁴ The condition of the jail was represented by the Senate Committee of 1856 as extremely unfit for its purpose and unbecomingly to its inmates.

⁵ The buildings are large, and can accommodate 350 inmates. The sexes are kept separate, and an asylum is provided for lunatics. A school is taught during the whole year, and religious worship is regularly conducted.

⁶ The *New York Journal*, first established in the city of New York by John B. H. in 1731, was removed to Poughkeepsie in 1776, in consequence of the British occupation. In 1778 it became the first State paper under the new Government; and on the 11th of April, 1785, its name was changed to

The Poughkeepsie Journal, published by Nicholas Power. In 1786 its name was changed to

The Country Journal and Poughkeepsie Advertiser; and in 1789 to

The Country Journal and Dutchess and Ulster Family Register. In 1808 it was sold to Paraclete Potter, who changed it to

The Poughkeepsie Journal and Constitutional Republican. In 1812 it was changed to

The Poughkeepsie Journal, and in 1834 Jackson & Schram became the proprietors. In 1841 it was united with *The Eagle*, and was issued as

The Journal and Poughkeepsie Eagle. In 1850 the name was changed to

The Poughkeepsie Eagle, under which title it is still published by Platt & Schram.

The New York Packet and American Advertiser, published by Saml. London, was removed from New York when the British took possession of the city, and was first issued at Fishkill Oct. 1, 1776. It was removed to New York again after the close of the war.

The American Freeman and Dutchess County Advertiser was commenced in Aug. 1793, by John Woods, and was continued a short time.

The Barometer, commenced in May, 1802, by Isaac Mitchell, was changed to

The Political Barometer in 1806, and was published by Thomas Nelson. Its name was changed to

The Northern Politician, and it was soon after discontinued. *The Freeman* was published at Poughkeepsie in 1806-07.

The Republican Herald was started in Nov. 1811, by Derick B. Stockhorn and Thos. Brownjohn. It was continued until 1825 under the charge of Johnston Verplank & Wm. Orr.

The Dutchess Observer was first started May 10, 1815, by Chas. P. Barnum & Richard Nelson. Nicholas Jaycocks, Nathan Myers, jr., and Orrin Osborne were successively interested in the publication until 1826, when the paper was united with *The Telegraph*, and issued as

The Poughkeepsie Telegraph and Observer. It was successively under the charge of Chas. P. Barnum, Elbert B. Killey, Aaron Low, and Benson J. Lossing. In 1841 it was changed to

The Telegraph, and was published by Killey & Lossing. Albert S. Pease & E. K. Olmsted were afterward interested in its publication; and in 1852 it was united with *The Democrat*, and was issued as

The Poughkeepsie Telegraph and Dutchess Democrat, now published by Osborn & Killey.

The Republican Telegraph was first issued May 5, 1824, by Wm. Sands & Isaac Platt. In 1826 it was united with

The Observer.

The Dutchess Intelligencer was first issued April 30, 1828, by Chas. F. Ames & Fred. T. Parsons. It was afterward published by Platt & Parsons and Isaac Platt until 1833, when it was united with

The Republican, and was issued as

The Intelligencer and Republican, published by Platt & Ranney. In 1831 the name was changed to

The Poughkeepsie Eagle; and in 1841 it was united with *The Journal*.

The Dut best True American was published at Poughkeepsie in 1828, by Peter K. Allen.

The Dutchess Inquirer was started in Aug. 1829, by Pet. K. Allen. In 1830 it was changed to

The Anti Mason. It was under the charge of John M. Vothake and Stephen Butler until 1831, when it was discontinued. It was soon after revived by Ephraim Fay, and was issued a short time as *The Independent*.

The Dutchess Republican was started in Aug. 1831, by Thos. S. Ranney. In April, 1833, it was united with *The Intelligencer*.

The Poughkeepsie Cavalier was published by Killey & Lossing in 1836.

The Branch was issued a short time in 1836 by Jos. H. Jackson.

The Youth's Guide (sent mo.) was issued in 1837 by Isaac Harrington, jr.

The Thomasonian (medical) was issued at Poughkeepsie in 1840 by Thos. Lapham.

The Free Press was started at Fishkill in 1841 by Fred. W. Bitter. In 1842 it was removed to Poughkeepsie; its name was changed to

The Dutchess Free Press, and was continued until 1844.

The Temperance Telegraph was started at Poughkeepsie in 1843 by G. R. Lyman, and was continued 2 or 3 years.

principal streams are Ten Mile River, Wassaic Creek, and West Brook, and their branches. A large range of metamorphic limestone extends n. and s. through near the center of the valley.¹ Iron ore has been extensively mined in the highlands w. of the valley.² The soil is a clayey and sandy loam. **Ameniaville**, (Amenia p. o.) n. of the center of the town, contains the Amenia Seminary,³ 3 churches, and 30 houses. It is a station upon the Harlem R. R. **The City**, (City p. o.) in the n. w. corner, contains a church and 17 houses; **Wassaic**, (p. v.) a R. R. station, a furnace, sash and blind factory, and 18 houses; **Amenia Union**, (p. v.) upon the Conn. line, 2 churches, a woolen factory, and 30 houses;⁴ and **South Amenia** (p. v.) a church and 14 houses. **Leedsville** (p. o.) is a hamlet near the e. border. **Sharon Station**, on the line of Northeast, is a p. o. Richard Sackett purchased large tracts of the Indians in this town and in Sharon, Conn., and settled in 1711; he failed of getting his title recognized by the crown, and died in poverty in 1748 or '49.⁵ During the Revolution a furnace and foundery for the manufacture of steel for the use of the army was established about 1 mi. s. of Wassaic. The site, known as "The Steel Works," is still covered by coal dust and cinders. There are 7 churches in town.⁶

BECKMAN—was formed as a town, March 7, 1788.⁷ A part of "Freedom" (now La Grange) was taken off in 1821, and a part of Union Vale in 1827. It lies in the s. e. part of the co.,—one corner extending to the s. border. Its surface is a hilly and broken upland. Pleasant Hill, on the n. border, is the highest summit. Limestone and slate crop out on the summits and declivities of nearly all the hills. The streams are small creeks and brooks tributaries of the Fishkill, and are bordered by wide, fertile intervals. Silver Lake is a fine body of water near the w. line.⁸ Iron ore is found s. of this lake.⁹ The soil is a productive, gravelly loam. **Green Haven**, (p. v.) near the w. border, contains 1 church and 18 dwellings; **Beekmanville**, (Beekman p. o.) near the center, 1 church and 12 dwellings; **Poughquag** (p. v.) 2 churches and 15 dwellings; and **Beekman Furnace**, on the n. line, an iron manufactory and 10 houses.¹⁰ The first settlements are supposed to have been made about 1710; but the early records are lost. A. Delong located in 1716, and kept an inn at an early day. Rt. Rev. Alonzo Potter, Bishop of Penn., and his brother, Rt. Rev. Horatio Potter, Provisional Bishop of the Diocese of N. Y., were natives of this town. There are 4 churches in town.¹¹

CLINTON¹²—was formed from "Charlotte" and Rhinebeck Precincts, March 13, 1786. Hyde Park and Pleasant Valley were taken off in 1821. It is an interior town, lying n. w. of the center of the co. Its surface is a rolling upland considerably broken by hills in the n. and w. Shultz Mts., on the n. border, and Sippe Barraek, in the w., are the highest points.¹³ Salt Point Creek, the principal stream, flows s. through near the center. Crum Elbow Creek forms a portion of the w. boundary. Several small lakes, the principal of which is Long Pond, lie in the n. part. The soil in the n. is a sandy loam, and in the center and s. it is a productive, slaty loam. **Clinton Hollow**, (p. v.) near the center, contains 25 houses, **Clinton Corners** (p. v.) 25 houses, **Schultzville** (p. o.) a gristmill and 10 houses, and **Pleasant Plains** (p. o.) a church and 8 houses. **Bulls Head**, **Clinton Point**, and **Hibernia** are p. offices. Derrick Van Vleet located in town about 1755. There are 3 churches in town; Friends, Presb., and Prot. E.

DOVER—was formed from Pawling, Feb. 20, 1807. It lies on the e. border of the co., s. of the center. The e. and w. borders are occupied by hills and mts., and the center by a deep, wide valley. The valley is about 400 feet above tide, and the summits of the hills are 300 to 500 feet higher. Ten Mile River flows s. from the n. line to near the s. boundary, thence turns e. and discharges its waters into the Housatonic. It receives from the s. Swamp River, a stream that is

¹ This limestone is of a bluish color, hard and brittle; and where it crops out it is considerably disintegrated, covering the ground in the immediate vicinity with a white sand.

² An ore bed $\frac{1}{2}$ mi. w. of Ameniaville has been extensively worked for 25 or 30 years, and the supply of ore seems inexhaustible. Another ore bed has been opened 2 mi. n. w. of Wassaic, and another near the n. line of the town.

³ This institution has been under the charge of the M. E. denomination.

⁴ 1 Church, the woolen factory, and about half of the buildings are in Conn.

⁵ Mr. Sackett was connected with the Livingstons in the settlement of the Palatinates at "German Camp," (now Germantown, Columbia co.) Urie Winegar and his son, Capt. Garrett, were the next families. They removed from "German Camp" in 1721 and settled on the oblong tract. The father died in 1751, and 192 years. — Delamater settled soon after the Winegars, n. w. of Amenia Union. Henry Nasse, Stephen Hopkins, Joel Gillett, Hez. King, Abm. and Joshua Painé, J. Howe,

and Elisha Kinney settled previous to 1743. After this time the town rapidly filled up with settlers, mostly from New England. The first mill is supposed to have been built by John Delamater, at Leedsville, and the first inn to have been kept by Michael Hopkins, near the center of the town.

⁶ 3 Presb., 2 M. E., and 1 each Bap. and Prot. E.

⁷ The town embraced the land granted to Col. Henry Beekman. Beekman Precinct was formed Dec. 16, 1757, and Pawling's Precinct was set off in 1768.

⁸ The Indian name for this lake is A-po-quag-ne, signifying round lake.

⁹ Ore from this bed is extensively mined and taken to Poughkeepsie and Fishkill Furnaces.

¹⁰ The furnace at this place is supplied with ore from Unionvale; 700 tons of iron are annually produced.

¹¹ Bap., M. E., Prot. E., and Union.

¹² Named from Gen. Clinton, first Governor.

¹³ A slate quarry was formerly worked at the n. extremity of the Shultz Mts.; but it is now abandoned.

bordered by swamps upon the greater part of its course. The limestone ridge extends N. and S. through the center of the principal valley. Along its course several marble quarries have been opened.¹ Iron ore is found in abundance.² The soil is a fine quality of sandy, gravelly, and loamy loam. The small streams flowing from the w. hills have worn deep ravines, and in several places form beautiful cascades. The most noted of these is known as "Dover Stone Church."³ **Dover Plains**, (Dover p. o.), a r. r. station, in the n. part of the town, contains 3 churches, a grist mill, and plaster mill. Pop. 375. **South Dover**, (p. v.), on Ten Mile River, contains 2 churches, a grist and saw mill, and 30 houses. **Chestnut Ridge** (p. o.) and **Wing Station** (p. o.) are hamlets. The first settlements are said to have been made by the Dutch from the river towns. Among the early settlers are found the names of Knickerbocker, Osterhout, Dutcher, and Van Duzen. The first settlers upon the Oblong tract were from Conn. The first church (Ref. Prot. D.) is said to have been formed about 1770.⁴

EAST FISHKILL—was formed from Fishkill, Nov. 29, 1849. It is the center town upon the s. border of the co. Its surface is mountainous in the s. and e. and hilly in the n. and w. The highest points of the Fishkill Mts., in the s., are 1000 to 1200 ft. above tide.⁵ The principal streams are the Fishkill and its tributaries, Wortel Kil and Spout Creek. Black Pond is a small sheet of water near the s. line. The intervalles along the streams are generally wide, and bordered by steep hillsides in the s. and more gradual slopes in the n. The soil is a gravelly loam. Raising cattle for the New York market is one of the leading pursuits. **East Fishkill**, (p. v.), near the center, contains a grist and saw mill and 15 houses; **Johnsville**, (p. v.), near the w. border, 1 church and 14 houses; **Stormville**, (p. v.), in the e. part, 20 houses; **Fishkill Plains**, (p. v.) in the n. w., 1 church and 15 houses; and **Shenandoah Corners**, in the s., a church and 15 houses. **Pecksville**, **Hopewell**, (Adriance p. o.) and **Fishkill Furnace**⁶ are hamlets. The first settlers were Genet, Geo. and Isaac Storm, about the year 1730; Cornelius Wiltsie and Isaac Adriance came in about 1740. There are 4 churches in town.⁷

FISHKILL—was formed as a town, March 7, 1788. A part of "Freedom" (now La Grange) was taken off in 1821, and East Fishkill in 1849. A part of Philipstown (Putnam co.) was annexed March 14, 1806. It lies upon the Hudson, in the s. w. corner of the co. Its surface is mountainous in the s. and hilly in the n. The Fishkill Mts., extending along the s. border, are high, rocky, and precipitous. Old Beacon and Grand Sachem, in the s. e. corner, the highest summits, are respectively 1471 and 1685 ft. above tide. A break in these mountains, in the e. part, opening toward the s., is known as the Wicopee Pass.⁸ The Fishkill flows s. w. through near the center of the town, skirting the foot of the mountains and separating them from the hilly region in the n. w. Wappingers Creek forms the w. boundary. A high rolling ridge lies between these two streams, and the highest point is Mt. Hope, 1000 ft. above tide, near the e. border.⁹ Spout Creek, a tributary of the Fishkill, forms a portion of the e. boundary. A series of bluffs, 150 to 200 ft. high, extends along the river, broken by the valleys of the streams. The soil is a clay and gravelly loam. **Fishkill Landing**, (p. v.), on the Hudson, opposite Newburgh, contains a newspaper office, 2 machine shops, and 4 churches. Pop. 1100. It is a r. r. station and steamboat landing, and is connected with Newburgh by a steam ferry. **Matteawan**, (p. v.) on Fishkill Creek, 2 mi. above the landing, is an important manufacturing village. It was formerly the seat of extensive cotton mills; but these have mostly been converted to other purposes.¹⁰ It contains 1

¹ The principal quarries are between Dover Plains and South Dover.

² White's ore bed, 3 mi. s. w. of South Dover, has been extensively worked, and the ore produced is of good quality. The Dover Iron Works formerly did an extensive business; they closed about 2 years since. White's Furnace, halfway between South Dover and Dover Plains, is making 5 to 6 tons of iron per day.

³ This ravine is about a $\frac{1}{2}$ mi. w. of Dover Plains. It is 20 to 25 feet wide at the bottom and 1 to 3 feet at the top, and the rocks that border it are 40 to 50 feet high. It extends into the hill 20 to 40 feet, and at its farther extremity the stream flows from the mountain above in a succession of rapids. The name was given in consequence of its resemblance to the Gothic arch. In another ravine, about $\frac{1}{2}$ mi. s. of Stone Church, are the "Wells." A small stream here flows down from the mountain in a succession of rapids 3 to 12 feet in height; and at the foot of each fall smooth, rounded holes, called the Wells, have been worn in the rocks to the depth of 3 to 8 feet. The holes occupy the whole width of the bottom of the ravine, and the rocks on each side are shelving and slippery, rendering a near approach difficult and dangerous. These two localities are frequently visited by the lovers of nature during the summer season.

⁴ This is now a Union church. A Friends meeting house was built here about the same time.

⁵ The highest point on the s. border is locally known as "Beacon," or "Long Hill," and the highest on the e. border is "Looking Rock."

⁶ A furnace at this place manufactures pig iron from the ore. It employs 40 hands, and makes about 100 tons of pig iron annually. The ore is obtained from the mine near Sly's, at the Beckmann. A mine on the r. line, after being worked 20 years, was exhausted.

⁷ 2 Bap. M. E., and Ref. Prot. D. The last named has an membership of 2300.

⁸ This pass was carefully guarded during the Revolution to prevent the British from forming the American works at West Point. A considerable American force was stationed at this point, extremely during the campaign of 1777.

⁹ Mt. Hope is 1 mi. s. of May's Corners. A beautiful and extensive view is obtained from its summit. A beacon here has been erected here by the Coast Survey, to serve as a point in the triangulation of the Hudson River Valley.

¹⁰ Among the most important of these are the following:—
¹ The Seamless Clothing Manufacturing Co., (Incorporated with a capital of \$300,000.) It gives employment to 1000 hands, and turns out annually worth of goods to the amount of \$1,000,000.
² The Matteson Machine Works, (Incorporated with a capital of \$100,000.) It gives employment to 200 hands, and turns out annually goods to the amount of \$500,000. It is a large file factory employs 70 hands, and manufactures goods to the

churches. Pop. 1476. **Wappingers Falls**, (p.v.) at the head of navigation on Wappingers Creek, $1\frac{1}{2}$ mi. from the Hudson, lies partly in Poughkeepsie. It is largely engaged in manufacturing.¹ Wappingers Creek here falls 75 feet, furnishing an excellent water power. The village contains 4 churches. Pop. 1819, of which 1139 are in this town. **Hughsonville**, (p.v.) $1\frac{1}{2}$ mi. s. of Wappingers Falls, contains a church and a steam saw and grist mill. Pop. 245. **New Hackensack**, (p.v.) in the n. part, contains 1 church and 15 dwellings; **Fishkill**, (p.v.) near the center, contains the Fishkill Seminary, the Fishkill Collegiate Institute, 2 private schools, a newspaper office, a bank, savings' bank, 3 churches, and 130 dwellings. **Glenham**, (p.v.) $2\frac{1}{2}$ mi. below Fishkill, contains a woolen factory,² 3 churches, and 75 dwellings. **Carthage Landing**, (p.v.) on the Hudson, 5 mi. above Fishkill Landing, contains 1 church and 30 dwellings. **Myers Corners**, **Swartoutville**, and **Brinkerhoffville** are hamlets. The first settlement is supposed to have been made before 1699. The earliest records, dated in 1697,³ are papers relating to lands. The town lies within the tract granted to Francis Rumbout and others, Oct. 17, 1685.⁴ In colonial times it formed a part of the Rumbout and Fishkill precincts. The first constitutional convention held a session in this town in the fall of 1776. There are 22 churches in town.⁵

HYDE PARK⁶—was formed from Clinton, Jan. 26, 1821. It lies upon the Hudson, a little n. of the w. border of the co. Its surface is principally a rolling and moderately hilly upland, terminating on the Hudson in a bluff 180 ft. high. Hog and Lloyds Hills, in the n. part, each about 500 ft. above the river, are the highest points in town. The principal streams are Crum Elbow Creek, and Fall Kil, tributaries of the Hudson. The soil is a sandy and gravelly loam underlaid by slate. **Hyde Park**, (p.v.) finely situated upon an eminence half a mi. e. of the river, contains 4 churches, a gristmill, and 692 inhabitants. **Staatsburgh** (p.o.) is a r. r. station and hamlet in the s. part of the town; **Union Corners** and **Hyde Park Landing** are hamlets. Numerous elegant residences, occupying splendid sites, have been erected along the banks of the river. The first settler is supposed to have been Jacobus Staughtenburgh, the owner of one of the nine "water lots;" he came to the town about 1720. Gov. Morgan Lewis formerly resided upon the place now occupied by Hon. J. K. Paulding. The census reports 7 churches in town.⁷

LA GRANGE⁸—was formed from Beekman and Fishkill, as "*Freedom*," Feb. 9, 1821. Its name was changed in 1828. A part of Union Vale was taken off in 1827. It is an interior town, lying s. w. of the center of the co. Its surface is a rolling and moderately hilly upland. Sprout Creek, the principal stream, flows s. through near the center. Wappingers Creek forms the w. boundary. The valleys of these creeks are broad and very fertile. The soil is a gravelly loam. **La Grangeville**, (p.v.) in the s. e. part, contains 2 gristmills and 14 houses; and **Freedom Plains**, (p.v.) near the center, a church and 14 houses. **Sprout Creek** (p.o.) is a hamlet in the s. part. **Manchester Bridge**, (p.o.) on the w. line, is mostly in Poughkeepsie. **Arthursburgh** (p.o.) is a hamlet in the s. corner. The first religious society (Friends) was formed before 1800. There are 2 churches in town; Friends and Presb.

MILAN⁹—was formed from Northeast, March 16, 1818. It lies on the n. border of the co., w. of the center. Its surface is a hilly upland broken by the deep valleys of the streams. The declivities are generally gradual slopes, and the hills are arable to their summits. Roeliff Jansens Kil crosses the n. e. corner. The other streams are small and are bordered by fertile intervals. The soil is a clayey, gravelly, and slaty loam. **Jacksons Corners**, (p.v.) on Roeliff Jansens

amount of 145,000 annually. Wicopes, $\frac{1}{2}$ mi. below Mattewan, was the seat of the Wicopes Color Mills, since changed to the New York Rubber Co., engaged in the manufacture of rubber toys. This co. has a capital of \$125,000, employs 125 men, and turns out \$100,000 to \$150,000 worth of goods per year.

¹ The Dutchess Printing Co., incorp. with a capital of \$500,000, employs 500 hands, and produces \$750,000 worth of prints per annum. The Franklin Type-Manuf'g Co., incorp. with a capital of \$150,000, employs 200 hands, and turns out \$100,000 worth of printing of the per annum. There are, besides, a foundry, comb factory, and numerous machine shops. A large cotton factory was burnt here a few years since, and has not been rebuilt.

² The Glenham Woolen Co., incorp. with a capital of 275,000, employs 175 hands, and turns out \$275,000 worth of goods annually. It was first started in 1811.

³ The first mill was erected at the mouth of Fishkill, some time before 1709. A ferry to Newburgh was authorized in 1743.

⁴ The house now occupied by Hon. Isaac Teller and his sisters at Mattewan, one of the first built in town—belonged to Roger Brett, a son-in-law of Rumbout. It was built about 1710. The house is one story, 87 by 36 ft., the sides and roof covered with cedar shingles. It was often filled with officers and soldiers

in the Revolution, and salt was stored in its cellar for the army.

⁵ The first church (Ref. Prot. D.) was formed at Fishkill Village early in the last century; but the precise date cannot be ascertained. The earliest church records bear date of Sept. 30, 1727. Rev. Dr. De Witt supposed that the church was formed as early as 1716. The present edifice was built in 1786, in the place of one built in 1731. The old church was used for barracks by the American army during the Revolution. A parsonage lot held in common by this church and the one at "Hogwell" and Hackensack, was sold Feb. 17, 1806. The present churches are as follows:—Presb., M. E., Ref. Prot. D., and M. Meth. at Fishkill Landing; Presb., Prot. E., Prot. Meth., and R. C. at Mattewan; M. E., Ref. Prot. D., and Prot. E. at Glenham; M. E., Ref. Prot. D., and Prot. E. at Fishkill; M. E., Prot. E., and Ep. at Wappingers Falls; Presb. at Brinkerhoffville; M. E. at Carthage Landing; Presb. at Hughsonville; and Ref. Prot. D. at New Hackensack.

⁶ Named by Dr. John Bard from Hyde Park, London.

⁷ Prot. E., M. E., Ep., Presb., Ref. Prot. D., R. C., and Friends.

⁸ Named from La Fayette's residence in France.

⁹ This town is included in the tract known as the "Little Nine Partners."

V I E W F R O M W E S T P O I N T

1883

Kil, in the N. E. corner, contains 1 church and 25 houses; **Rock City**¹ (p.v.) a grist and saw mill and 20 houses; **Milanville** (Milan p.o.) 12 houses; and **La Fayetteville** (p.v.) 46 houses. **Shookville** and **Thornville** are hamlets. The first settlements were principally made by tenants under the original proprietors, about 1760,² and a large share of the land is still held by leasehold tenure. The first church (M. E.) was formed about 1790. The census reports 4 churches.

NORTHEAST⁴—was formed as a town, March 7, 1788. Milan was taken off in 1818, and Pine Plains in 1823. It is the N. E. corner town of the co. A tongue of land $1\frac{1}{2}$ mi. wide, upon the E. border, extends 4 mi. N. of the remaining part of the town. The surface is a hilly and broken upland. The Taghkanick Mts., extending along the E. border, are rocky and broken, and are 1000 to 1200 ft. above tide. The highest point in the valley W. of the mountains, forming the summit level of the N. Y. & H. R. R., is 771 feet above tide. Ten Mile River, the principal stream, flows S. through nearly the whole length of the town. Chekoniko Creek flows N. through the W. part. Indian Pond, on the E. line, Round Pond, on the S. line, and Ruds Pond are the principal bodies of water. The valleys have generally a gravelly and clayey soil, but the hills in many places are rocky and fit only for pasturage. An extensive bed of iron ore has been opened 1 mi. N. E. of Millerton, near the Conn. line.⁵ **Northeast Center** (p.v.) contains 2 churches and 20 houses; **Millerton**, (Northeast Station p.o.,⁶) a R. R. station, 1 church and 27 houses; and **Spencers Corners** (Northeast p.o.) a church and 12 houses. **Coleman Station** is in the S. part. **Federal Store** and **Oblong** are p. offices. The pioneer settlers were mostly from Conn., and located here from 1725 to 1730.⁷ The first religious services were held by Moravian missionaries, at an Indian mission house at the N. end of Indian Lake.⁸ There are 4 churches in town.⁹

PAWLING¹⁰—was formed as a town, March 7, 1788. Dover was taken off in 1807. It is the S. E. corner town in the co. A high range of hills extends along the E. border, and another occupies the W. part. A fine, broad valley occupies the central portions and separates the two highland regions.¹¹ Swamp and Croton Rivers take their rise in the valley, the former flowing N., and the latter S. Whaleys and Little Ponds—the sources of the Fishkill—lie near the W. border, and Oblong Pond lies in the N. E. part. The ridge of limestone from which marble is quarried extends into the N. part from Dover. The soil is a slaty and gravelly loam. Large quantities of milk are daily sent to the New York market. **Pawling**, (p.v.), a station on the H. & N. Y. R. R., contains a bank, 2 churches, and 25 houses. **Campbellville**, (p.v.), in the S. part, contains 11 houses. **Quaker Hill** (p.o.) and **Farmers Hill** (p.o.) are hamlets. Settlements are supposed to have commenced at Quaker Hill between 1720 and 1730, by Friends from N. J., who organized the first religious society soon after their arrival.¹² There are 3 churches in town: M. E., Bap., and Friends.

PINE PLAINS¹³—was formed from Northeast, March 26, 1823. It lies on the N. border of the co., E. of the center. The surface is a hilly upland, the ridges being separated by broad valleys. The highest summit is Stissing Mt., in the W. part, 400 to 500 feet above the valleys. Its declivities are steep, and it is crowned with a mass of naked rock. Roeliff Jansens Kil crosses the N. W. corner, and the Shekomoko or Cheeconico flows N. through near the center. Thompsons, Stissing, and Mud Ponds lie at the E. foot of Stissing Mt., and Buttermilk Pond and several smaller ones are in the S. part. The soil is generally a productive, gravelly loam. Marl is found in several

¹ Named from the rock which crops out in the adjacent hills and along the streams.

² In 1759, Johannes Rowe bought of Robert Livingston 911 acres a little N. of La Fayetteville, and located upon it. Among the other early settlers we find the names of Clark, Stewart, Simons, and Herrick, a part of whom were from Conn.

³ 2 M. E., and 1 each Christian and Union.

⁴ Named from its geographical position in the co. Northeast Precinct was formed from the North Precinct, Dec. 16, 1749, and embraced the Little or Upper Nine Partners Tract. The North Precinct was extended after the Oblong Tract to the Conn. line, Dec. 17, 1743.

⁵ The Bakin ore bed was opened in 1846 by the proprietor, who erected a furnace in the vicinity and ran it until 1856. The mine is at the foot of the Taghkanick Mt., where it makes a bend into Conn., and about $1\frac{1}{2}$ mi. above the Salisbury (Conn.) mines. From 8000 to 10,000 tons of ore are taken out annually, and are mostly sent by R. R. to Hudson. Benedict's furnace, 1 mi. S. W. of Millerton, makes 5 tons of pig iron daily, principally from Salisbury ore. A cupola furnace has also been erected here, and the manufacture of car wheels commenced. A slate company was incorp. in this town in 1812.

⁶ Large quantities of milk are daily sent to the N. Y. market.

⁷ Baltus Lott and Adam Showeman first settled in the S. part of the town. Benjamin Knell, Elder Bakin, and ——— Spencer were also early settlers.

⁸ The remains of this old mission house are still visible on the farm of Douglas Clark.

⁹ 2 M. E., Bap., and Cong.

¹⁰ Pawling Precinct was formed from Beckman Precinct, Dec. 31, 1798.

¹¹ Mt. Tom, a prominent peak $\frac{1}{2}$ mi. W. of Pawling Station, is about 300 feet above the valley.

¹² The Friends meeting house on Quaker Hill was used as a hospital during the Revolution, and a considerable number of soldiers were buried in the vicinity. A body of 100 men were stationed here for some time; and Gen. Washington spent a short time here in 1778.

¹³ This town formed a portion of the "Little Nine Partners" tract. Many of the farms are still owned by the heirs of the original proprietors, and are leased to the occupants. All efforts to convert the leasehold tenure into a freehold have proved unsuccessful.

localities.¹ **Pine Plains**, (p.v.) near the center of the town, contains a bank and 3 churches. Pop. 382. **Hammerstown** contains an extensive scythe factory and a dozen houses.² **Pulvers Corner** (p.o.) and **Mount Ross** are hamlets. The first settlements were probably made about 1740.³ A Moravian mission was established among the Indians at Shekomeko, 2 mi. s. of Pine Plains, in Sept. 1740.⁴ There are 5 churches in town.⁵

PLEASANT VALLEY—was formed from Clinton, Jan. 26, 1821. It is an interior town, lying w. of the center of the co. Its surface is a rolling and hilly upland. Barnes and Dennis Hills, in the s. w., are the highest points. Wappingers Creek flows s. w. through near the center; Sprout Creek takes its rise in a pond in the s. w. part. Slate crops out along the hills, and a vein of marble has lately been discovered. The soil is a clayey and gravelly loam. **Pleasant Valley**, (p.v.) in the s. w. part, was incorp. April 15, 1814; it contains a cotton factory⁶ and 4 churches. Pop. 500.⁷ **Salt Point**, (p.v.) on Wappingers Creek, contains a grist and plaster mill and 17 houses. **Washington Hollow**, (p.v.) on the line of Washington, contains a church, cotton factory,⁸ and 16 houses. **Crum Elbow** is a p.o. The first church (Presb.) was formed in 1765; Rev. Wheeler Case, the first pastor, was installed Nov. 12 of the same year. There are 5 churches in town.⁹

POUGHKEEPSIE¹⁰—was formed as a town March 7, 1788. The city of Poughkeepsie was taken off March 28, 1854. It lies upon the Hudson, s. of the center of the co. Its surface is mostly a rolling upland. Wappingers Creek, forming the e. boundary, and Fall Kil, flowing s. through Poughkeepsie City, each furnish a considerable amount of water power. The soil is clayey in the w. and a sandy and gravelly loam in the remaining parts. **New Hamburg**, (p.v.) on the Hudson, in the extreme s. angle, contains 2 churches. It is a r. r. station, and is connected by a ferry with Marlborough, Orange co. Pop. 339. **Channingville**, opposite Wappingers Falls, contains a gristmill, 2 churches, and 50 houses. **Manchester**, (Manchester Bridge p.o.) on the line of La Grange, contains about a dozen houses.¹¹ **Rochdale**, in the s. e. corner, contains 2 cotton factories and 15 houses. **Locust Glen** is a p.o. The first settlements were made by the Dutch, about 1700.¹² There are 4 churches in town; 2 M. E., Presb., and R. C.

POUGHKEEPSIE CITY—was formed from Poughkeepsie, and incorp. as a village March 27, 1799, and as a city March 28, 1854. It is situated upon the Hudson, a little s. of the center of the w. border of the co. The ground gradually rises from the river to a table land, 150 to 200 ft. high, upon which most of the city is built, and about 1 mi. back into a hill 500 ft. high.¹³ Fall Kil, a small stream, flows in a tortuous channel through the city, affording a limited amount of water power. The city is finely laid out on the bluff overlooking the Hudson; and, besides the co. buildings, it contains 4 banks, 1 savings' bank, 18 churches, and many other fine public and private buildings. Its location gives to the city commercial advantages which are fully improved. During the summer daily lines of steamers run to New York and to

¹ Upon draining Hog Pond, 1 1/2 mi. s. e. of Pine Plains Village, a very deep bed of marl, covering 6 or 8 acres, was found. Marl is also found in Buttermill Pond.

² Harris's Scythe Factory gives employment to 50 hands, and turns out about 2000 dozen scythes per annum.

³ In 1740, John Rau, a German, lived on a hill s. r. from Shekomeko. John Tice Smith, Jas. Graham, C. W. Rantz, Ebr. Dibble, and — Snyder were also early settlers.

⁴ This mission was commenced in Sept. 1740, by Henry Rauch, and on the 23d of Feb. 1742, the first 3 Indian converts were baptized. Before the end of the year, 26 more were converted, and a place of worship was erected. This little community had not become fully settled before its quiet was disturbed by the introduction of an armed force under the orders of the sheriff, at the instigation of intolerant and bigoted neighbors; and, although neither arms nor anything else were found that could be construed into hostile designs against the Government, the missionaries were seized and brought before the Governor and Council at New York, under charge of being in the interests of the French and of endeavoring to seduce the Indians from their alliance with the English. Upon refusing to take the oath of allegiance, they were reimprisoned and discharged. Their enemies, well knowing their conscientious scruples in regard to oaths, in 1744 obtained the passage of an act "for securing his majesty's government in New York," by which an oath of allegiance was made obligatory. Rather than do violence to their consciences, the missionaries removed to Bethlehem, Penn.

followed by several of their Indian converts. The mission was visited by Count Zinzendorf and Bishop David Nitschman soon after its location in this town. During the last 2 years, 62 native converts were baptized and admitted to the church. Gottlieb Buetner, one of the missionaries, died in Feb. 1745, at this place.—*Hickoworth's Hist. Morav. Missions*, 20; *Doc. Hist. N. Y.*, III, 1014; *Driver's Shekomeko*, p. 29.

⁵ Rap, M. E., Presb., Prot. E., and Friends.

⁶ This factory was built in 1815, by John Gibbons. It contains 80 looms, and gives employment to 75 hands.

⁷ The charter of this village is a dead letter, as no election has taken place in 10 years. The village records are lost.

⁸ This factory gives employment to about 40 hands.

⁹ 2 M. E., Friends, Prot. E., and Presb.

¹⁰ Poughkeepsie Precinct was formed Dec. 16, 1737. In early documents the name is spelled in a variety of ways, as "Poupa" and "Poupa." The original name is said to have been Ape-keep-suk, signifying "pleasant harbor."

¹¹ A cotton factory was formerly in operation here. In 1849 it was changed to a paper mill, which was run until 1857.

¹² Near the s. e. line of the city is a house built before the Revolution and formerly owned by Philip Livingston. It still bears the marks of balls fired by the British. The dwelling of Gov. Geo. Clinton, still standing, 6 mi. below the city, is now owned by Philip S. Van Kenschler. Prof. S. F. B. Morse, the inventor of the electric telegraph, resides 2 mi. s. of the city.

¹³ About 1 mi. s. of this hill is another of about the same ele-

Albany, and a considerable trade is carried on by barges and boats. The daily line of steamers between New York and Albany touches here. A steam ferry connects the city with New Paltz Landing. The manufactures are extensive and various. They consist chiefly of pig iron, carriages, carpets, pins, chairs, drugs, files, sewing silk, and ale.¹

The *City Hall* is a plain brick building, situated on Main St., a little w. of the courthouse.

The *Public Schools* are under the charge of a board of education, consisting of 12 members, of whom 3 are elected annually. The schools are 6 in number, and employ 23 teachers,— 3 males and 20 females. In 1857 the number of children between 4 and 21 was 4329, of whom 1900 (or 44 per cent.) were in attendance at school during some portion of the year. The total expenses of the schools were \$8144 13. The number of volumes in the district libraries was 4684.

The *Dutchess Co. Academy* occupies a large 3 story brick building on Hamilton St.²

The *Poughkeepsie Female Seminary*, situated on Cannon St., was founded by a stock co., at a cost of \$15,000.

The *Poughkeepsie Collegiate School* is situated on a hill $\frac{3}{4}$ of a mi. n. of the city. A lot of 80 acres is connected with the institution, and the building and grounds are valued at \$75,000.³

The *Abnison Square Female Institute* is a private institution, corner of Mansion and Catharine Sts. It has 9 teachers and 80 pupils.

The *Poughkeepsie Female Collegiate Institute*, a private institution, is situated at the corner of Mill and Catharine Sts. It occupies a 3 story brick building, and has an average of 4 teachers and 100 pupils.

The *Cottage Hill Seminary*, a private institution for young ladies, is located on a beautiful site upon Garden St. It is under the charge of a principal, assisted by 12 teachers and lecturers. A library of 2000 volumes is connected with it, and the number of pupils is limited to 50.

The *Law School*, incorp. in 1851, and first located at Ballston Spa, was removed to this city in 1853, and its sessions are still held here. A *Young Men's Association* has been established, for the purpose of furnishing winter lectures.

The *Poughkeepsie Lyceum of Literature, Science, and Art* was incorp. April 6, 1858.

The *Poughkeepsie Orphan Asylum and Home of the Friendless*, having for its object the care of orphans and destitute children, was organized June 21, 1817. Besides these, there is a *Rural Cemetery Association*,⁴ a well organized *Fire Department*, and an *Aqueduct Association*. Population of the city, 12,763.⁵

The first settlement was begun in 1690 and 1700. Baltus Van Kleeck built the first house within the present limits of the city, in 1702, on land now owned by Matthew Vassar, near the Cong. Church.⁶ The first church (Ref. Prot. D.) was formed about 1700. Rev. Cornelius Van Schie was installed pastor of this church and the one at Fishkill in 1727.⁷

The *Van Kleeck House*, a substantial stone building, was used for purposes of defence, and just under the eaves the walls were pierced with loop-holes for musketry. This building was afterward the meeting place of the inhabitants to consult upon the public welfare when the Boston Port Bill and kindred measures awakened a spirit of resistance through the country. There the Committee of Correspondence of Dutchess held their meetings; and there the pledge to sustain the Continental Congress and the Provincial Assembly was signed by the inhabitants of Poughkeepsie in June and July, 1775.

vation. Many beautiful and costly dwellings are built upon these fertile lands about the city, affording a fine view of the city and valley. The eye here has an uninterrupted range of view over 2500 sq. mi. of country.

¹ The Poughkeepsie Iron Works were established in 1848, with a capital of \$200,000; 75 hands are employed, and 100,000 to 11,000 tons of pig iron are manufactured per annum. The ores used are the hematite from Fishkill, and the magnetic ore from Essex Co. The Poughkeepsie Carriage Manufactory, with a capital of \$25,000, employs 60 hands, and turns out 200,000 to 300,000 worth of carriages per annum, which are chiefly sold in the Southern markets. Bellows Carpet Factory, with a capital of \$60,000, employs 60 to 70 hands, and produces 60,000 to 65,000 yds. of carpeting per year. A pin factory, in the same building, employs 15 hands. The Poughkeepsie Chain Manufactory employs 300 hands, and produces \$50,000 worth of chains per year, which are mostly sent to South America. An establishment for the preparation of dye-stuffs and druggs employs 50 hands, and manufactures \$200,000 worth of goods annually. A file factory, started in 1856, employs 12 men, and a sewing silk factory, started in 1858, employs 15 to 20 hands. M. Vassar & Co's. Bowery and Matt Works, commenced in 1791, has a capital of \$150,000, employs 50 men, and manufactures 30,000 lbs. of ale per year.

² This building was erected in 1826, at a cost of \$14,000.

³ The building of this institution is of wood, modeled after the Parthenon. It was organized under the charge of Chas. Bartlett, S. P. Tallmage, and — Cunningham.

⁴ The Poughkeepsie Rural Cemetery consists of 14 acres, situated in the town of Poughkeepsie, a short distance S. W. of the city, between the High and Empire, and the Hudson and West Point roads.

⁵ The population of the town of Poughkeepsie, including the city, recently organized, at different periods has been as follows:—

1790.....	2,529	1811.....	5,674
1800.....	3,246	1820.....	7,722
1810.....	4,560	1830.....	11,757
1820.....	5,726	1840.....	15,174
1830.....	7,222	1850.....	18,763
1840.....	11,757		

⁶ Among the early settlers were Dutch families, viz. De Bont, De Barent, Van Benschoten, Van De Borch, Van Winkle, De Graaf, De Roy, Parmeter, Meuse, &c. &c. and the first Cong. Church, at Swanton, near Hoguon, and having stone for the walls, was first stood in 1684. It was built of stone, and was provided with loop-holes for the use of musketry. During the Revolution the colonial legislature held several sessions there.

⁷ In 1758, the country was broken up into 12 parishes, and the parishes districts of this church, and held its services in the town of the former of the parishes which were then in existence, viz. the Church of Amsterdam and its immediate vicinity. The latter wished to send for a minister from the town of Newburgh, and the church in America, and it was determined to build a church in the city. A M. E. Ch. of P. D. 2 P. of G. Ch. of St. John's, 12 Bap., and Cong. Presb. Univ. Gen. Bapt. M. Meth. Friends, R. C. and Jewish.

As soon as the alarm occasioned by the invasion of Sir Henry Clinton (in 1777) had subsided, Gov. Clinton called a meeting of the Legislature at Poughkeepsie. It assembled at the Van Kleeck House early in Jan. 1778. Various acts to complete the organization of the State Government were passed; provisions were made for strengthening the civil and military powers of the State; and it was during that session that the State gave its assent to the Articles of Confederation, the organic law of the Federal Union until our present Constitution was formed and adopted.

The State Convention to consider the Federal Constitution assembled at the Van Kleeck House on June 17, 1788. There were 57 delegates present, and Gov. George Clinton was chosen President of the Convention. In that assembly were some of the most distinguished men of the Revolution, and the debates were of the most interesting character. In no State in the Union was hostility to the Federal Constitution more extensive and violent than in the State of New York. Forty-six of the 57 delegates, including the governor, were Anti-Federalists, or opposed to the Constitution. The principal advocates of the instrument were John Jay, Alexander Hamilton, and Robert Livingston. Mr. Hamilton had been a leading member of the National Convention that framed the Constitution, and also one of the principal writers of *The Federalist*. He felt the responsibility of his situation, and the Convention readily acknowledged the value of his judgment. He was perfectly familiar with every topic included in the wide range which the debates embraced, and he was nobly sustained by his colleagues Jay and Livingston. The hostile feelings of many of the Anti-Federalists gradually yielded, and on the 26th of July the final question of ratification was carried in the affirmative by a majority of 3 votes.

Huddleston, the famous spy, who was captured upon Wild Boar Hill, near Yonkers, Westchester co., was tried, condemned, and hung in Poughkeepsie in April, 1780. The place of his execution was upon a verge of the plain on which the town stands known as Forbuses Hill. He was accompanied to the scaffold by the co. officers and a small guard of militia enrolled for the purpose.¹

REDHOOK²—was formed from Rhinebeck, June 2, 1812. It lies upon the Hudson, in the s. w. corner of the co. Its surface is a rolling upland, terminating on the Hudson in a series of bluffs 100 to 150 ft. high. The e. part is hilly. Prospect Hill is a prominent peak a little s. of Upper Redhook Village. The streams are the Saw Kil and White Clay Kil. The valleys of the streams are broad and their banks low. Long Pond, in the e. part, forms the source of the Saw Kil. The soil along the river is a clay loam, and in the remaining parts a sandy, gravelly, or slaty loam. **Redhook**, (p. v.) near the center, contains a cigar and tobacco manufactory, a female orphan asylum,³ and 3 churches. Pop. 625. **Tivoli**,⁴ (p. v.) in the s. w. part, is a steamboat landing and a r. r. station. A large forwarding business is carried on here. It is adjacent to **Myersville**, the two places forming a continuous village. They contain 5 churches and about 600 inhabitants. **Barrytown** (p. v.) is a r. r. station, 6 mi. below Tivoli. It contains 1 church, and is a place of considerable trade. Pop. 250. **Upper Redhook**, (p. v.) in the s. e. part, contains 1 church and 175 inhabitants. **Cedar Hill**, on the Saw Kil, contains 1 church, a carpet yarn manufactory, a flouring mill,⁵ and 175 inhabitants. The first settlements were made between 1713 and 1727, by the Dutch. There are 11 churches in town.⁶ Along the river are numerous elegant country seats. The old residence of Gen. John Armstrong is now owned by his son-in-law, William B. Astor. The former estate of Gen. Montgomery is now occupied by Mrs. Edward Livingston.⁷

RHINEBECK⁸—was formed as a town, March 7, 1788. Redhook was taken off in 1812. It lies upon the Hudson, s. w. of the center of the co. Its surface is a rolling and moderately hilly upland, terminating on the river in bluffs 100 to 150 ft. high. Landmans Creek, the principal stream, flows s. w. through near the center. Rhinebeck Kil is its tributary. Lake Sepasco is a small body of water in the n. e. corner. The soil is principally a fine quality of sandy loam.

¹ *Lossing's Field Book*, Vol. I, pp. 383, 384.

² By the Dutch called Roock Hoek. Tradition ascribes the name of the town to a marsh near Tivoli, covered with ripe cranberries when first seen.

³ Supported entirely by Mrs. William B. Astor.

⁴ Pronounced Tiv'ole. A ferry connects this place with Saugerties, Ulster co.

⁵ Erected in 1856, at a cost of \$30,000.

⁶ 4 Prot. E., 3 M. E., Luth., Bap., Union, and Independent; the last is the Sylvanian Chapel at Barrytown, owned by Robert Donelson.

⁷ Among the early settlers were families named Haeners, Shufeldt, Zippertle, Hagerdorn, Wiederwax, Trauvs, Staats, Mellhan, Bernar, Weldorf, Near, Prosius, and others, mostly from

Germany. They first settled near Barrytown and Tivoli. The first marriage on record is that of Adam Stadler and Maria Schoeft, July 31, 1746. The first baptism on the church record is that of Catharine Woldorf, April 23, 1734.

⁸ Rhinebeck Precinct, as formed Dec. 16, 1737, included the lands purchased of the widow Paulding and her children by Dr. Sam'l Staats; all the land granted to Adrian, Roosa, and Cotte; land patented by Col. Henry Beckman, June 5, 1703; and the land granted to Col. Peter Schuyler, called the Magdalen Island Purchase. The name is derived from the first settlers, who were from near the Rhine, in Germany, and Beckman, an original proprietor.

Rhinebeck, (p. v.) near the center of the town, was incorp. April 23, 1831. It contains a bank, paper mill, 2 newspaper offices, a private academy,¹ and 5 churches. Pop. 1051. **Rhinebeck Station**, (p. v.) on the Hudson, contains a paper mill and 18 houses. A steam ferry connects the place with Rondout, Ulster co. **Monterey**,² near the s. border, contains a church and 10 houses. The first settlement was made some time before 1700, but the precise date cannot be determined. The first family that came in was that of Wm. Beekman, the original proprietor.³ His homestead (known as the Beekman House, built on a high point above Rhinebeck Station) is still standing.⁴ The first religious services are said to have been held in this house. The first church (Ref. Prot. D.) was formed May 23, 1724, at the present village of Monterey.⁵ The Lutheran church at Monterey was formed in 1730.⁶ There are 6 churches in town.⁷

STANFORD⁸—was formed from Washington, March 12, 1793. It is an interior town, lying n. e. of the center of the co. Its surface is a broken and hilly upland. The hills are generally rounded, and admit of cultivation to their summits. Slate crops out in numerous places along their declivities, and bowlders and water-worn pebbles are thickly strewn over a considerable portion of the surface. The highest point is Carpenter Hill, in the s. e. corner. Wappingers Creek, flowing s. w. through near the center, is the principal stream. Hanns Lake,⁹ in the s. e., and Upton's Pond, in the s. w., are the principal bodies of water. The soil is a good quality of gravelly and slaty loam. A considerable quantity of milk is sent daily to New York by the Harlem R. R. **Stanfordville**, (p. v.) near the center of the town, contains a gristmill, carriage axle factory, paper mill, 3 churches, and 35 dwellings. **Bangall**, (p. v.) on Wappingers Creek, contains 2 gristmills, 2 sawmills, a foundry, 2 churches, and 30 dwellings. **Attlebury**, (p. o.) **Stissingville**, and **Old Attlebury**¹⁰ are hamlets. Smith Thompson, U. S. Circuit Judge, was a native and resident of this town. There are 5 churches in town.¹¹

UNION VALE¹²—was formed from Beekman and "Freedom," (now La Grange,) March 1, 1827. It is an interior town, lying s. e. of the center of the co. Its surface is a hilly and broken upland divided into two parts by a broad valley which extends s. and s. through the center. Slate crops out upon the summits and the declivities of the hills. The Clove Kil, a tributary of Fishkill Creek, flows s. w. through near the center. The soil is a gravelly and slaty loam. An iron mine near Clove p. o. supplies the Beekman Furnace, 2 mi. farther s. **Verbank**, (p. v.) in the s. w. corner, contains 2 gristmills, a paper mill, church, and a dozen dwellings. **Oswego Village**, (p. o.) near the w. border, contains a church and 10 dwellings. **Clove**, (p. o.) near the center, contains 2 churches and about a dozen dwellings. **Crouse Store**, in the s. part, **Mansfield**, in the s. e. corner, and **Pleasant Ridge**, in the s. e. corner, are p. offices. Henriicus Beekman, the patentee, conveyed 1,000 acres to his son Henry in 1716, and settlement is supposed to have commenced soon after. There are 4 churches in town.¹³

WASHINGTON¹⁴—was formed March 7, 1788. Stanford was taken off in 1793. It is an interior town, lying near the center of the co. The surface is a rolling and hilly upland. Slate crops out on the hills, and water-worn pebbles are thickly strewn over a small portion of the surface. The principal elevations are Muckle Hill, near the center, Molly Mt., in the s. w. corner, Plymouth Hill, in the s. e. corner, and Canoe Hill, near the s. line. The streams are small creeks and brooks. Round and Shaw Ponds, in the s. part, form the sources of Wappingers Creek. A large quantity of milk is sent from the e. part to N. Y. by the Harlem R. R. The raising of blooded stock receives considerable attention.¹⁵ **Harts Village**, (p. v.) near the center, contains 2 gristmills, 2 sawmills, a spoke factory, and 28 dwellings.¹⁶ **Mabbettsville**,¹⁷ (p. o.) 2 mi. n. of Harts

¹ The Rhinebeck Academy was formerly incorp., but is now a private institution. It employs 2 teachers, and has an average of 100 pupils.

² Named by Geo. Pink, who was appointed first postmaster in 1849. The p. o. has since been discontinued.

³ Wm. Beekman came from Germany with his son, Henricus, in May, 1647; and with them came a number of poor families, who afterward settled in this town. Among the first families were those named Sippley, Kapp, Pink, Schmidt, Sheptown, Beckman, and Elseffer.

⁴ This house was built of stone, and was used as a fortress in early times. The brick used in the chimneys were brought from Holland. It is now owned by A. J. Hernance, Esq.

⁵ About 1800 this church divided, by mutual consent of the members; one branch located at Rhinebeck and the other at Redhook. The first baptism on record is that of John Schmidt, April 5, 1730.

⁶ Fred. Henry Quitman—father of Gen. Quitman of the Mexican War—was for several years pastor of this church. He was born in the Duchy of Cleves, Westphalia, in 1760, and died in 1822.

⁷ Ref. Prot. D., Luth., Prot. E., M. E., and Bap. at Rhinebeck, and Luth. at Monterey.

⁸ This town was included in the Great Nine Partners Tract.

⁹ Formerly Thompson's Pond.

¹⁰ An immense spring of pure cold water near this place has considerable local notoriety.

¹¹ Orthodox Friends, Hicksite Friends, Christian, Bap., and M. E.

¹² This town constitutes a portion of the Beekman Purchase.

¹³ 2 M. E., Friends, and Christian.

¹⁴ This town is mostly comprised within the Great Nine Partners Tract.

¹⁵ Saml. Thom., of Thornhedge, 1 mi. w. of Fair Green, is extensively engaged in raising the short horn Dutch cow. His herd of 70 head, valued at \$70,000, is the most valuable one in America.

¹⁶ A mill was built at this place about 1760, and is supposed to have been the first in town.

¹⁷ Named from Jas. Mabbett, a former proprietor.

Village, contains 12 dwellings, **Lithgow**, (p.o.) near the E. line, 2 churches and 10 dwellings, **Mechanic**, (Washington p.o.) 2 mi. s. of Harts Village, a boarding school,¹ 2 churches, and 15 dwellings, and **Little Rest**, (p.v.) in the s. e. part, 2 gristmills and 15 dwellings. **Four Corners** is a hamlet. **Washington Hollow** (p.v.) is on the line of Pleasant Valley. There are 4 churches in town.²

¹The Nine Partners Boarding School was founded at this place in 1796, by the Friends' Yearly Meeting. A farm of 100 acres is attached to it, and it has a cash endowment of \$10,000.

²An orthodox and a Hicksite Friends at Mechanic, and a M. E. and Prot. E. at Lithgow.

drift, consisting of clay and gravel. The soil of the valleys is generally a gravelly loam and alluvium.

The principal pursuits in the n. are grain raising, and in the s. stock and wool growing and dairying. The hilly regions are much better adapted to pasturage than tillage. The people of Buffalo and Tonawanda are mostly engaged in commerce and manufactures.¹

Buffalo is the county seat.² The courthouse, situated on the corner of Clinton and Ellicott Sts., is a substantial brick building, containing the court and jury rooms, the office of the co. clerk, and most of the other co. offices.³ The jail is a small stone building on the same lot. The Erie Co. Penitentiary is located on Fifth St., in Buffalo. The buildings are 5 in number,—the male and female prisons, the workhouse, the warehouse, and the superintendent's dwelling. Prisoners are received from Allegany, Chautauque, Cattaraugus, Wyoming, Genesee, Orleans, and Niagara cos. The average number in confinement is 130.⁴ The Erie Co. Poorhouse is located on a farm of 153 acres in the n. e. part of Buffalo. There are 2 buildings,—one designed for use as the poorhouse proper, and the other for the accommodation of the insane. The average number of inmates is 300, supported at a weekly cost of \$1.00 each.⁵

The principal works of internal improvement are the Erie Canal, the Rochester & Buffalo, and the Lockport, Niagara Falls and Buffalo branches of the New York Central Rail Road, the Buffalo, New York & Erie, and the Buffalo & Erie Rail Roads,⁶ all terminating in the city of Buffalo, and the Canandaigua & Niagara Falls branch of the N. Y. C. R. R., extending through Newstead, Clarence, Amherst, and Tonawanda. A railroad from Buffalo to Pittsburgh is now in process of construction. A pier, lighthouse, and breakwater have been built at the mouth of Buffalo Creek.⁷

With the exception of the Indian Reservation and the Mile Strip, along Niagara River, this co. was all included within the Holland Purchase.⁸ The Indian lands, containing 130 sq. mi. and lying upon both sides of Buffalo Creek, at its mouth, were purchased in parcels, at different times; and the whole territory is now thickly settled. The first settlements were made at Buffalo, about 1794-95, and in other places within a few years after. The generous outlays made by the Holland Company in the construction of roads, bridges, mills, &c. led to a rapid occupation of all the best lands in the co.⁹ On the morning of the 30th of Dec., 1813, a British force of about 1,000 men crossed over from Canada and captured Black Rock and Buffalo. The American forces then stationed at these places were superior to the British in point of numbers; but the officers were not qualified for command, and a large share of the militia fled upon the commencement of the action. The village of Buffalo was burned in retaliation of the wanton destruction of Newark, in Canada, by the Americans under Gen. George McClure, (then of Steuben co.,) a short time before.¹⁰ The finishing of the Erie Canal and of the N. Y. Central R. R. tended greatly to develop the resources of the co., and to convert Buffalo, its chief city, into the greatest commercial place on the upper lakes.

The first newspaper in the co. was established in 1811.¹¹

¹ See pages 285.

² By the act of March 11, 1808, erecting the co. of Niagara, Buffalo was named the co. seat, on condition that the Holland Land Company deed to the county not less than half an acre of land for a site for the public buildings, and erect thereon a courthouse and jail. The company complied with these conditions, and erected, in 1810, a wooden courthouse and a stone jail. In the mean time the courts were held at the house of Joseph Landon. The courthouse was burned by the British in 1813. Soon after the close of the war, a new one was erected on Washington St., fronting La Fayette Park. The first officers of Erie co. were Saml. Wilkinson, *First Judge*; John G. Camp, *Sheriff*; James L. Barton, *Co. Clerk*; and Roswell Chapin, *Sarcrographer*.

³ The present courthouse was built in 1850, at a cost of \$18,000. The commissioners under whose supervision it was erected were Albert H. Tracy, Ralph Plumb, and Timothy A. Hopkins.

⁴ The penitentiary lot contains 5 acres, and is enclosed by a stone wall 14 ft. in height. The male prison is built of stone, and the other buildings of brick. Four-fifths of all the convicts are of foreign birth. They are maintained at an average weekly expense of 65 cts., and are employed principally in the manufacture of harness bindings, upon contract,—the males at 20 cts. per day, and the females at 15.

⁵ The poorhouse was built in 1852, under the supervision of Silas Kingsley, at a cost of \$20,000. It consists of an octagonal center, 75 ft. in diameter, with 2 wings, each 80 ft. long by 40 ft. wide; the whole 3 stories high and built of stone. Of the inmates in 1857, 71 were females and 11 idiots.

⁶ The main lines of the N. Y. Central and the Buffalo, N. Y. & Erie R. Roads extend through A. Alden, Lancaster, and Chicksawaga; the Lockport & N. E. branch of the N. Y. Central, through Tonawanda; and the B. & State Line R. R., through

West Seneca, Hamburg, Evans, and Brant. The Buffalo & Brantford (Canada) R. R. terminates opposite Buffalo.

⁷ See page 284.

⁸ See page 321.

⁹ A large share of the later settlers of the co. have been Germans; and this class of people now constitute about one-fifth of the entire population of the co. The population of several of the towns in the immediate vicinity of Buffalo is almost exclusively German.

¹⁰ The loss at Buffalo was reported at 66 frame, 1 stone, and 2 brick houses, 16 stores and offices, 35 barns, and 15 shops, valued together at \$190,000; at Black Rock, 16 frame and 11 log houses, 8 barns, and 5 out-houses, valued at \$19,000; and at other places 26 frame and 67 log houses, 5 stores, 29 barns, 308 shops, &c., worth \$141,000. Total, 334 buildings, worth \$350,000, not including the buildings of the Messrs. Porter.—*Albany Argus*, April 22, 1814.

¹¹ *The Buffalo Gazette*, the first paper in the county, was commenced Oct. 3, 1811, by S. H. & H. A. Salisbury. It was removed to Harris Hill in 1813, and back to Buffalo in the spring of 1814. In April, 1819, H. A. Salisbury became sole proprietor, and changed the name to

The Niagara Patriot. On the erection of Erie co. in 1820 it was changed to

The Buffalo Patriot. It was successively under the editorial charge of Wm. A. Carpenter, Harvey Newcomb, and Guy H. Salisbury.

The Daily Commercial Advertiser was issued from the same office, Jan. 1, 1835. Soon after, Dr. T. M. Foote and B. A. Manchester became associated in the management of the two papers; and in Aug. 1838, the *Amos* standard was merged in them, and A. M. Clapp, its publisher, became one of the proprietors of the joint con-

ALDEN—was formed from Clarence, March 27, 1823, and a part of Marilla was added in 1853. It lies upon the e. border of the co., s. e. of the center. Its surface in the w. is about 140

feet. In May, 1839, they were united with the Buffalo Journal, and the weekly was published as **The Patriot and Journal**, and the daily as **The Commercial Advertiser and Journal**, by E. K. Jewett & Co. The following year the daily appeared as **The Buffalo Commercial Advertiser**, and under these titles the papers are still published, under the editorial charge of Dr. S. B. Hunt. Since 1866 a semi-weekly Commercial Advertiser has been issued. *The Niagara Journal* was established in July, 1816, by David M. Day; and in 1820 its name was changed to *The Buffalo Journal*. In 1834 it passed into the hands of E. J. Roberts, and in 1835 it was suspended. *The Buffalo Whig* was established in 1834 by D. M. Day; and in 1835 it was united with the Buffalo Journal, and appeared as *The Buffalo Whig and Journal*, Jan. 1, 1838, M. Colwell and Dr. H. R. Stagg were associated with Day, and in Feb. they issued *The Buffalo Daily Journal*. In 1838 the establishment passed into the hands of E. K. Jewett, by whom the papers were united the following year with the Buffalo Patriot and the Commercial Advertiser. *The Gospel Advocate* (Unit.) was begun in 1822 by Rev. Thomas Gross. In 1823 Simon Fenton, and in 1826 Revs. L. S. Everett, Theophilus Fisk, and M. Tuttle, became proprietors. In 1828 it was removed to Auburn. *The Black Rock Beacon* was published by L. G. Hoffman from 1822 to 1824. *The Buffalo Enquirer* was issued in 1824 by J. A. Lazelle and Simon Francis, and continued about 5 years. *The Blue Rock Gazette* was begun in 1824 by Barton Ferguson, who disposed of it to S. H. Salisbury in 1825. In 1827 it was removed to Buffalo, and its name changed to *The Buffalo and Blue Rock Gazette*. It was discontinued in 1828. *The Black Rock Advocate* was begun in Feb. 1826, and was published 1 year by Dan E. Adams. *The Western Advertiser*, after an existence of 3 months, was merged in the Buffalo Patriot in the spring of 1828. *The Buffalo Republican* was commenced in April 1828, by W. P. M. Wood. It was successively under the charge of S. H. Salisbury & W. S. Snow, S. H. Salisbury, R. L. Hall, Chas. Faxon & Jas. Stryker, and Chas. Faxon. In 1835 the Buffalo Bulletin was merged in the Republican, and the Daily Star was bought by Faxon and continued under its old name. Horatio Gates and W. L. Chandler were successively editors. In Dec. 1838 the office was burned and the papers were suspended; but the weekly was resumed by Quantis Graves in 1839. Jan. 1, 1842, Henry Burwell, then proprietor, changed its name to *The Democratic Economist*; and in Oct. following Joseph Stringman succeeded, and changed it to *The Mercantile Courier and Democratic Economist*. In Feb. 1843, it appeared as *The Buffalo Courier and Economist*; and in March as *The Buffalo Courier*. July 1, 1846, it was united with *The Pilot*, and *The Courier and Pilot*, d., tri-w., and w., was published by Stringman, Manchester & Brayman. In Dec. it was changed to **The Buffalo Courier**, its present title. It has passed successively through the hands of Robt. D. Foy & Co., Seaver & Foy, Wm. A. Seaver, Seaver & Smith, and to J. H. Sanfill, its present publisher. *The Buffalo Bulletin* was issued in 1839, and was published by Horace Steel 4 years, by James Faxon 1 year, and was united with *The Republican* in 1833. *The Daily Star* was commenced in 1834 by Jas. Faxon, and in 1835 it was united with *The Republican*. *The National Pilot* was started in Feb. 1845, by Manchester & Brayman, and was united with *The Courier* in July, 1846. *The Western*, semi-mo., was published in 1828 by Rev. J. B. Hyde. *The Buffalo Herald*, (Presb.) edited by Rev. Randolph Stone in 1831, only reached its second number. *The Gospel Banner* was begun in 1832 by Benj. Clark, and continued 2 years. *The Philadelphia*, mo., was started in 1832 by Nathaniel Potter, jr., and continued 1 year. *The Freeman*, mo., (Unit.) was published in 1833. *The Literary Enquirer*, semi-mo., commenced Jan. 1, 1833, was published 2 years by Wm. Verrinder. *The Transcriber*, d. and w., commenced in Aug. 1833, by Henry Faxon, was continued only 6 months. *The Young Man's Temperance Herald* was started in 1835 by A. P. Grosvenor & E. B. French, and continued 1 year. *The Daily Enquirer*, *The Daily Whig*, and *The Lion King* were campaign papers issued in 1835. *The Buffalo Spectator* (Presb.) was started in 1836 by J. & W. Butler, and continued 2 years. *The Bethel Magazine*, mo., was commenced by the Bethel Society in 1836. It was afterward changed to

The Bethel Plover, and in 1846 united with the Spectator of New York. *The Buffalobaron* w. at first and d. afterward, was published about a year, and in 1837 it was merged in the Patriot. *The Mercury*. The paper was continued in 1837, by J. A. Nichols, and E. Simpson successively. *Der Weltweiser* was started in 1837, by J. A. Nichols, and published successively by him, by S. B. Hunt, by G. W. Hays, and by Brink & Pindell. In Dec. 1839 it was united with *The Buffalo Democrat*, and took the name of *The Buffalo Democrat and Weltweiser*, d. and w., by which title it is now published, under the editorship of H. A. Co. *The Buffalo Democrat* (German) was started in 1839, by G. W. Hays; and in 1840 it was united with *The Western Courier*. *The Sun*, d. and w., was issued in the winter of 1839, and published 1 year, by Abraham Bushmore and E. H. Eastbrook successively. *The Moon*, a penny daily, was issued during the summer of 1839. *Inst. Gazette and Herald of Health*, mo., was commenced in 1839 by C. C. Bristol. The next year it appeared as *Bristol's Gazette*, and was discontinued in 1842. *The Friend of Youth*, mo., was started in 1839 by Rev. A. T. Hopkins, and was published 1 year. *The Buffalo Sentinel*, d. and w., was published during the summer of 1839 by Thomas Newell. *The Morning Patriot*, d., was started in 1840 by London, Touchet & Shafter. Its name was changed to *The Morning Times*, by J. S. Walker, and it was discontinued soon after. *Der Volks Schatz* was published by E. H. Singer during the summer of 1840. *The Patriot*, d. and w., was published 6 weeks in 1840 by C. D. Ferris. *The Buffalo Garland* was published in 1840 by Geo. W. Runyay. *Honest Industry* was published in 1840 by Dr. Lami Lee. *The Volk Freund* (German) was published in 1840 by Adolphus Meyer. *The Western Presbyterian* was issued in March, 1841, by Rev. J. C. Lord, and continued 1 year. *The Western Literary Messenger*, semi-mo., was started in July, 1841, by J. S. Chalkbourne, C. D. Ferris, Jesse Clement, Chas. Faxon, and E. K. Jewett, at different times, were interested in its publication. From 1842 it was published weekly until 1857, when it was discontinued. *Brown Co's. Leg. in Buffalo* was published a few weeks in 1841 by N. H. Bamister. *The Sullivan Patriot*, semi-mo., was published during the winter of 1841-42 by T. J. Son-Jerland. *The Buffalo American* was started in 1842 by T. Foster & C. T. Butler, and continued 1 year. *The Old School Abolitionist and The Daily Republic* were published from 1842 to '43 by Charles Faxon. *The Temperance Standard* was published in 1842 by H. H. Salisbury & A. M. Clapp. *The School Teacher* was published about 3 months in 1842 by A. W. Wilson. *Present Telegraph* was published in 1842 by W. Press. *The Buffalo Gazette*, d. and w., was started in 1843 by H. A. Salisbury, B. A. Manchester & J. D. Byrman, and continued 5 years. *The Freeburgher* (German) was started Jan. 1843, by Alexander Krause & Adolphus Meyer, and continued 2 years. **The Telegraph**, d., and w., (German) was started in Nov. 1843, by H. B. Miller. Louis Taylor, Alexander Hillman, and C. Esselton have successively had the editorial charge. It is now published by P. H. Bender, and edited by C. Esselton. **The Buffalo Medical Journal and Monthly Review of Medical and Surgical Science** was started in June, 1843, by Dr. Austin Flint. In 1855 Dr. S. B. Hunt became associated in its management, and in 1860 its sole proprietor. In 1861 it passed into the hands of Dr. Austin Flint, its present proprietor. *The Western Cataract* was started in 1844 by L. P. Jones, J. S. Tubbs, W. B. Williams, and Chas. H. Bullard, were successively editors. In Jan. 1847 it was discontinued. *The Western Temperance Standard*, and was discontinued the following year. *The Impletus* was started in 1844 by E. W. Spaulding, and continued 6 months. *The Morning Paper* was started Jan. 11, 1845, by A. M. Clapp & Co. In 1856 the Daily Democrat was united with *The Express*, and it appeared as **The Buffalo Morning Express and Daily Democracy**, by which name it is now published, a weekly and tri-weekly edition are also issued. *The Democracy*, d. and w., was started in May, 1844, by G. W. Haskins. The Rough Notes was merged in the Democracy soon after; and in Aug. 1845, the Democracy was united with *The Express*. *The Rough A. S. d.*, was started in March, 1852, by Geo. Ross

in the E. gently undulating. It is watered by the head waters of Cayuga and Eleven Mile Creeks. The soil is a deep, fertile, sandy, gravelly, and clayey loam. **Alden**, (p. v.) a station on the B. & N. Y. R. R., contains 2 churches and has a pop. of 285; **Alden Center** (p. v.) contains 1 church and 20 houses; and **Mill Grove**, (p. v.) in the S. W. corner, 18 houses. **Alden** (Crittenden p. o.) and **Wende** are stations on the N. Y. C. R. R. Settlement was commenced in the spring of 1810, by Moses Fenno.¹ Rev. John Spencer conducted the first religious services, in 1811. The first church (Presb.) was organized in 1813-14. There are now 6 churches in town.²

AMHERST³—was formed from Buffalo, April 10, 1818; and Chictowaga was taken off in 1821. It lies upon the N. border of the co., between Clarence and Tonawanda. Its surface is level. Eleven Mile and Ransoms Creeks flow across the town in a N. E. direction; and Tonawanda Creek forms its S. boundary. The soil is a sandy and clayey loam. Upon the land of John Foglesonger, in the S. part of the town, is a very copious sulphur spring. A gristmill with 3 run of stone has been built on the stream formed by it. A ledge of limestone extends across the S. part of the town, from which limestone is quarried in various places. Beneath this ledge is a layer of hydraulic limestone, which is extensively quarried at Williamsville and burned for waterlime. **Williamsville**,⁴ (p. v.) incorp. in 1850, is situated on Eleven Mile Creek, in the S. part of the town. It contains 4 churches, an academy,⁵ and several manufactories.⁶ Pop.

In 1854 Rann & Cowan became proprietors, and the same year it was united with The Democrat.

The Western Evangelist (May) was started in June, 1846, by Rev. E. S. Everett, and continued 1 year.

The Andoverian (Univ.), started the same year, was removed to Andover in 1847.

The Journal of Commerce, &c., was started in 1847 by John W. Jones, and continued 6 months.

The Republic, &c., and was started by Livingston, Albro & Co., Jan. 29, 1847. Quarts Graves, Maynard & Welsh, C. A. Kellogg, and C. C. Bristol were successively interested in its management. In 1857 The Buffalo Daily Times was united with The Republic, and it was issued as

The Buffalo Republic and Times, &c., (p. v.), and was, Guy, II, Subsidiary is the present proprietor. A campaign paper was published in connection with this paper in 1856.

The Buffalo Daily Times was started in Aug. 1857, by the Times Association; and the next year it was united with The Republic.

Der Freie Republikant was published in 1848.

The Wood Grower and Magazine of Agriculture and Horticulture, &c., was started in 1849 by T. C. Peters, and continued until 1852.

The Daily Queen City, a penny paper, was started in 1850 by G. J. Ryan. The title was changed in 1852 to

The Buffalo Evening Post, under which name it is now published.

The Buffalo Christian Advocate was started in Jan. 1850, by John E. Bohue. In 1857 it was changed to

The Advocate, under which name it is now published.

Common Sense was published in 1850 by D. P. Stile.

Die Aurora, w. and semi-w., was started in 1850 by Christian Weckmann, its present publisher.

Das Kirchliche Informatorium, semi-mo., was started in July, 1851, by Conrad Bar; and in 1854 T. Andr. A. Grabau, its present editor, assumed its charge.

The Sunday Bulletin was started in 1851 by Wm. F. Rodgers, and continued 2 months.

The Youth's Casket, mo., was started in 1851 by Beadle & Vanderzee. It is now published by Holt, Adams.

The American Miller was published in 1851 by Wm. C. Hughes. *The Ecumenical Christian* was published in 1841 by Geo. Stanbro & Co.

The American Girl and Catholic Citizen was brought from Boston, Mass., to Buffalo in June, 1852, and continued until May, 1853, when it was removed to New York.

De Hout path and Duitseker Huisgenoot was started in 1852 by Conrad Bar, and continued 1 year.

Sunday Light was started in 1852 by Brunck, Held & Co., and continued 1 year.

The Sunday Visitor was started in 1852 by Reed & Moore, and continued 1 year.

The United States Mail, mo., was published in 1852 by Jewett, Thomas & Co.

The Buffalo Daily Ledger was published a few months in 1852 by T. Richardson.

The P. P. Rambler was published in 1852 by Charles Faxon.

The Sunday Herald was published about 3 months in 1853 by Geo. W. Weeks.

The School and House Friend, semi-mo., (German) was started in March, 1853, by Conrad Bar, and continued 1 year.

The Laborer and Garbner was published in 1853 by D. S. Manly & Co.

The Buffalo Catholic Sentinel was started in June, 1853, by Michael Hagan, its present publisher.

Illustrated Grand School, semi-mo., was published in 1854 by Rev. C. Duchman.

The Atlantis, mo., (German) brought from Cleveland, Ohio, to Buffalo in 1856, is edited by C. Esselban.

The American Rights was published from Sept. 1854, to July, 1855, by Geo. Reese & Co.

The Age of Progress, conducted by Stephen Albro, was commenced in 1854 and discontinued in 1858.

The Zetschrift was published about 4 months in 1854 by Conrad Bar.

Zeichen der Zeit, mo., was started in June, 1855, by — Dresler. In 1858 T. Gottlieb Ade became its editor.

The Home has been published since Jan. 1856, by E. F. Beadle.

The Buffalo Allgemeines Zeitung, w. and semi-w., was started in May, 1856, by Frederick Keencke, the present publisher.

The Buffalo Patriot, &c., (German), was published during the campaign of 1856 by Voigt & Jung.

Das Historische Zeitblatt und Literarischer Anzeiger, mo., was started in May, 1857, by Conrad Bar, its present publisher.

The Home Monthly was started Jan. 1, 1859, under the editorial charge of Mrs. H. E. G. Arey and Mrs. — Gildersleve.

The Inventor's Advertiser was published at Buffalo by Thos. P. How.

The Aurora Democrat was established at West Aurora in Oct. 1855, by Dehos E. Hill, publisher, and continued about 1 year.

The Aurora Standard was started at East Aurora Aug. 1, 1855, by A. M. Clapp. In 1858 it was removed to Buffalo and merged in the Buffalo Commercial Advertiser.

The Springville Episcop was commenced in May, 1854, by Edwin Hough, and continued until the fall of 1848.

The Springville Herald was established in May, 1850, by E. D. Welster; and in Dec. 1856, it passed into the hands of J. B. Saxe, its present publisher.

The American Citizen was started at Springville in Feb. 1856, by Lucius C. Sanders, and continued nearly a year.

The Tonawanda Commercial was started at Tonawanda in 1846 by Sylvester Hoyt, and continued about a year.

The Niagara River Pilot was commenced at Tonawanda in 1853 by Packard & Foxlonger. In Aug. 1856, it passed into the hands of S. O. Hayward, by whom, in Nov. 1857, it was changed to

The Niagara Frontier, under which name it is still published.

The Mental Elevator was published a short time in the Seneca language.

¹ Among the first settlers were Joseph Freeman, John Eastabrook, Wm. Snow, and Annah Hubbard, who came in 1810; Saml. Slade, James Crocker, Saml. Huntington, and Jonas Steckeney, who came in 1811; and Wm. Dayton, who came in 1812. The first birth was that of a daughter of Arnold Hubbard; and the first death, that of Polly Gansky, in 1812. John Rogers built the first sawmill, in 1813 or '14, and the first gristmill, in 1817. Amos Bliss kept the first inn, and Seth Eastabrook the first store, both in 1816. The first school was taught by Melstahl Eastabrook, in 1815.

² Bap., Presb., Evang. Luth., M. E., and 2 R. C.

³ Named in honor of Lord Amherst, commander of the English forces in America in 1759-60.

⁴ Named from Jonas Williams, one of the early settlers.

⁵ The Williamsville Classical Institute. The whole number of students for the year 1857 was 222.

⁶ A gristmill, a sawmill, a tannery, a furnace, a broom factory, a chair factory, and a waterlime mill, the last producing 3,000 to 6,000 blbs. of hydraulic cement per year.

1,166. **Egbertsville, Getzville, East Amherst, and Westwood** first settlement was made in 1804, by Timothy S. Hopkins and Elias Kinsman, in the town of Egbertsville, Mass.¹ There are 9 churches in town.²

AURORA—was formed from Batavia, as "*West Hill*," April 11, 1804. Its name was changed April 15, 1818. Clarence was taken off in 1808, Buffalo in 1810, Concord, Hamburg, and Getzville in 1812, Holland and Wales in 1818, and a part of Emma in 1857. It occupies an elevated position in the co. Its surface is rolling in the S. and hilly in the S. E. The declivities and ridges are generally gradual slopes, and their summits are 150 to 200 feet above the valleys. The principal streams are Cazenove Creek and its branches. The soil is generally a gravelly loam, clays and clayey among the hills. **Willink**, (p. v.) incorp. Dec. 29, 1819, is situated on the S. branch of Cazenove Creek, in the S. part of the town. It contains 2 churches and a woolen manufactory, has a pop. of 395. **East Aurora**, (p. v.) about 1 mi. N. of Willink, contains 2 churches, an academy,³ and several manufacturing establishments. Pop. 500. **West Falls**, (p. v.) on the W. bank of Cazenove Creek, in the S. part of the town, contains 1 church, 2 sawmills, 2 gristmills, and about 30 houses; and **Griffins Mills**, (p. v.) on the same stream, near the center of the town, contains 1 church, a sawmill, a gristmill, and 25 houses. The first settlement was made in the fall of 1803, by Jabez Warren, Henry Godfrey, and Nathl Emerson.⁴ The evidences of former Indian occupation were plainly visible upon the advent of the whites. The first church in town was organized with 16 members, in 1810, by Elder Irish. There are 7 churches in town.⁵ Ex-Pres. Millard Fillmore and Hon. N. K. Hall, Judge of Supreme Court and Ex-P. M. Coe, were for some years residents of East Aurora.

BOSTON—was formed from Eden, April 5, 1817. It is an interior town, lying S. of the center of the co. Its surface is a hilly upland, broken by the valley of the S. branch of Cazenove Mile Creek, which flows S. W. through near the center of the town. The valley of this stream is about three-fourths of a mile wide. In this valley the soil is a fine, fertile loam, and upon the hills it is a gravelly and clayey loam. **Boston**, (p. v.) on the S. branch of Cazenove Mile Creek, contains 3 churches, 2 gristmills, 2 sawmills, a tannery, a cordwain factory, and 40 houses; **Boston Center**, (Patchin p. o.) on the same stream, contains 2 churches, a sawmill, and 20 houses; and **North Boston**, (p. v.) 1 church, a gristmill, a sawmill, and 20 houses. The first settlement was made by Didimus Kinney, in 1803.⁶ The first religious services were conducted by Rev. John Spencer, in 1810. There are 7 churches in town.⁷

BRANDT⁸—was formed from Collins and Evans, March 25, 1839. It lies up in the shore of Lake Erie, in the S. W. corner of the co. The surface is generally level, with a gentle inclination toward the lake. Cattaraugus Creek forms a part of the S. boundary. The other principal streams are Big Sister, Delaware, and Muddy Creeks. The soil is generally a gravelly loam intermixed with clay. **Brandt** (p. v.) contains 20 houses. **Hill Branch** (Landau p. o.) is the **Saw Mill Station** on the B. & E. R. R., and contains 30 houses. The first settlement was made in 1817, by Moses Tucker.⁹ The first religious services were conducted by B. G. Ohlstedt, in 1820. A union church is the only one in town.

¹ Among the early settlers were Wm. Maltbury, James Williams, James Harmon, Harriet Kelsey, Nathl. Child, H. Kins, A. Armstrong, and Jas. Harris. The first sawmill was built in 1804, by Thomas and the first gristmill, by Wm. Maltbury, in 1808. Elias Kinsman kept the first inn, in 1806, and John Esters & Co. the first store, in 1812.
² Bapt. Disciples, M. E., and G. M. Chh. at Willonsville, and 2 Evang. Luth., Free, Methodist, and G. O., in other parts of the town.
³ The Aurora Manual Labor Seminary was chartered Oct. 18, 1832, and in 1838 its name was changed to the Aurora Academy. The manual labor department was long since abandoned.
⁴ These were followed by Joel and John Adams, Labor Falls, and Humphry Smith, in 1804 and Wm. Warren, Troy, Tracy, Christopher Stone, and Luther Hubbard in 1806. The first birth was that of Orra Warren, in Dec. 1804; and the first death, that of a daughter of Humphry Smith, in 1806. Phineas Stone built the first sawmill, in 1806, and the first gristmill, in 1807. John Wm. Warren kept the first inn, in 1809, and Adams & Hass, the first store, in 1808. The first school was taught by May Eddy, in 1805.
⁵ Two hills, in the S. part of the town, were fortified by circular breastworks, in many places 6 to 8 ft. high. Human bones, of almost giant size, have been dug up near the fortifications; and pieces of pottery and iron axes have been found in the vicinity.—*Life of Rev. Abner Wright*. In 1809 an ancient copper pipe, 12 by 16 inches, covered with letters or hieroglyphics, was plowed up upon the land of Ephraim Woodruff, in Aurora, the first of the kind, with its valve open, and containing a quantity of water. It is now in the possession of H. T. Coe, 1818.
⁶ 2 Fresh, Pop. 662. M. E. Chh., 1819.
⁷ Oliver and H. Stone, in 1806, and John Adams, in 1808, and Richard and Samuel Smith, in 1818. The first birth, that of a daughter of Humphry Smith, in 1806. The first death, that of a son of Richard and Esther Young, in 1807. The first store, that of Joel B. Beck, in 1807. The first sawmill, that of Phineas Stone, in 1806. The first gristmill, that of John Wm. Warren, in 1807. The first inn, that of Adams & Hass, in 1809. The first school, that of May Eddy, in 1805.
⁸ Bapt. Free, W. L. P. p., Evang. Luth., F. M. E., M. E., Meth., Presb., and G. O.
⁹ Nathaniel and Joseph Brant, the M. E. Chh. The first Indian name was "*Brandt*," and the first settlement was made by party born in the State of New York, in 1817. The first store, that of Moses Tucker, in 1817. The first sawmill, that of John Wm. Warren, in 1807. The first gristmill, that of John Wm. Warren, in 1807. The first inn, that of Adams & Hass, in 1809. The first school, that of May Eddy, in 1805.
¹⁰ Joel and John Adams, in 1804, and Wm. Warren, in 1807. The first birth, that of a daughter of Humphry Smith, in 1806. The first death, that of a son of Richard and Esther Young, in 1807. The first store, that of Joel B. Beck, in 1807. The first sawmill, that of Phineas Stone, in 1806. The first gristmill, that of John Wm. Warren, in 1807. The first inn, that of Adams & Hass, in 1809. The first school, that of May Eddy, in 1805.
¹¹ Two hills, in the S. part of the town, were fortified by circular breastworks, in many places 6 to 8 ft. high. Human bones, of almost giant size, have been dug up near the fortifications; and pieces of pottery and iron axes have been found in the vicinity.—*Life of Rev. Abner Wright*. In 1809 an ancient copper pipe, 12 by 16 inches, covered with letters or hieroglyphics, was plowed up upon the land of Ephraim Woodruff,

BUFFALO CITY—was formed as a town from Clarence, Feb. 8, 1810.¹ Amherst was taken off in 1818, and Tonawanda in 1836. Buffalo Village was incorp. April 2, 1813, re-organized in 1815, and again in 1822, and incorp. as a city April 20, 1832, with its limits enlarged by the addition of that part of the Mile Strip Reservation²s, of York and North Sts. By the provisions of a new charter, granted April 13, 1853, the then town of "*Black Rock*" was included within the city limits. The city lies at the e. extremity of Lake Erie, extending nearly 10 mi. along the lake shore and the upper part of Niagara River, and occupies an area of about 40 sq. mi. The principal streams are Big Buffalo and Senecaquady³ Creeks,—the former emptying into Lake Erie

and the latter into Niagara River. The principal business part of the city is on the lake shore around the harbor. The land in this locality is low, and was once considered "an irreclaimable morass; but it is now densely covered with substantial warehouses and large stores, intermingled with factories, foundries, mechanics' shops, and dwellings."⁴

The site rises gradually, and attains in one or two places an elevation of about 100 ft.; but the greater portion of the area occupies an extended plain of an average height of 50 ft. above the lake. On the "*Buffalo Plains*," and along the river at North Buffalo, are extensive quarries of limestone, furnishing an excellent building material.⁵ The city is regularly laid out, and the streets are broad and straight. The flagging and paving are done in the most substantial manner, and are kept in excellent repair.⁶ The main part of the city is supplied with wholesome water from Niagara River by the Buffalo Water Works Company. The reservoir, situated on Niagara between Connecticut and Vermont Sts., is 88 ft. higher than the river, and has a capacity of 13,500,000 gallons. The water is elevated by two force pumps, each of a capacity of 235 gallons, and is distributed through 31 mi. of pipe.⁷ Lower Black Rock is supplied by the Jubilee Water Works with water obtained from the Jubilee Springs. It is conducted through wooden pipes, of which there are more than two miles laid.⁸ There are 5 post-offices in the city,—Buffalo, North Buffalo, Buffalo Plains, Red Jacket, and Black Rock.

The harbor of Buffalo is formed by Big Buffalo Creek, along which for more than a mile is a continuous line of wharves. A pier extends from the s. side of the harbor 1500 ft. into the lake, forming an effectual barrier against the encroaching sands, which everywhere on the lake have a tendency to accumulate on the w. side of piers. At its extremity is a lighthouse.⁹ The Erie Canal enters the city along Niagara River, from which it is separated by a seawall, and extends southward to near the mouth of Buffalo Creek, and thence eastward to Hamburg St. The Erie Basin, just s. of the mouth of Buffalo Creek, protected lakeward by a breakwater, and the Ohio Basin, about one and one-fourth mi. from the mouth of the creek, containing an area of 10 acres, are both connected with the harbor and canal and are sufficiently deep to float the largest lake vessels.¹⁰ A ship canal more than a mi. in length extends along the w. side of Big Buffalo Creek parallel to the shore of the lake. This canal, the basins, the Erie Canal, and the harbor are all connected by numerous slips. Six railroads terminate in the city; and another—the Buffalo & Pittsburgh—is in process of construction.¹¹

¹ The city of Buffalo was taken off in 1832, and Tonawanda in 1836. The village of "*Black Rock*," in this town, was incorp. April 24, 1837, and receives its name from the color of the rock which outcrops at the ferry landing. The remaining part of the town was organized as Black Rock, Feb. 14, 1839; and in 1843 it was annexed to the city. ² See p. 280.

³ Named from an Indian of that name, and pronounced Skajocquadra.

⁴ *Buffalo City Directory*, 1858.

⁵ The pier, the breakwater, the arsenal, St. Joseph's Cathedral, and many of the most substantial buildings in the city, are in part or wholly built of this stone.

⁶ There are 251 mi. of located streets within the city limits, 37½ mi. of paved streets, 265,000 line or feet of stone sidewalks, and 148 mi. of plank walks. There are 1,960 street lamps in the city, lighted by gas furnished by the Buffalo Gas Light Company. The present cost of the street improvements is estimated at \$2,000,000; and the aggregate of taxes for local improvements in 1857 was \$2,6913.

⁷ The Buffalo Water Works Company was incorp. March 15, 1849. The original cost of the works was \$1,000,000; and \$65,000 of the earnings have been expended in extending the works. Connected with them are 320 street hydrants, and 20 underground reservoirs, having an aggregate capacity of 467,850 gal.

⁸ The Jubilee Water Works Company was organized in 1827, with a capital of \$20,000. At one time the company had 16 mi.

of wooden pipe laid, fully supplying Black Rock and a part of Buffalo; but, while the increase of population created a greater demand for water, the supply from the springs diminished, and in 1845 the citizens of Lower Black Rock purchased the works and confined the supply to their own village.

⁹ The lighthouse is built entirely of stone and iron. It is 44 ft. high, 26 ft. in diameter at its base, and 12 ft. at the top. The molehead upon which it stands is 169 ft. in diameter and has a depth of 15 ft. below the surface of the water. The pier and lighthouse were completed in 1833. It is furnished with a first class dioptric Fresnel apparatus.

¹⁰ These basins were constructed by the State as parts of the great system of internal navigation; but their sites were furnished by the city. The Erie Basin cost \$300,000, and the Ohio Basin \$60,000. They were commenced in 1818 and finished in 1828. Vessels driven by storms and tiding to gain an entrance to the harbor find a capacious and sheltered retreat in the harbor of Black Rock,—formed by a mole from Bird Island to Squaw Island, a distance of 20½ yards. This, with the islands, forms a harbor 4,565 yards long and from 88 to 220 yards wide, with an area of 136 acres. Besides affording an exceedingly convenient harbor, with an average depth of 15 feet, this work secures a water-power of about 4½ ft. A ship lock is constructed at its foot, and it is on the line of the Erie Canal.

¹¹ Besides these, 5 plank roads, a macadamized road, and a turnpike terminate in the city.

Buffalo is the second commercial city of the State, and the largest and most important of the great lakes.¹ Its situation at the foot of navigation upon Lake Erie and at the western extremity of the Erie Canal makes it the principal port for the transshipment of the products of the great agricultural region of the Upper Mississippi Valley, and gives to it the command of the greater part of the commerce of the lakes.² The number of entries at this port during the year 1857 was 19,147, with an aggregate of 1,618,072 tons; and the number of clearances was 3,564, with an aggregate of 1,603,134 tons.³ The exportation and importation by canal is also immense,⁴ and it is estimated

¹ It is often called "The Queen City," and "The Queen City of the Lakes."

² The amount of grain received in 1857 was 15,444,778 bush., and of flour 925,411 bbls., of which 15,338,950 bush. of grain and 843,957 bbls. of flour were received by lake. The same year there were received by lake 20,539 head of cattle, 73,174 hogs, and 44,972 sheep. The following table shows the imports, by lake, of flour and grain for a series of years—

Year.	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
1850	424,178	504,000	2,044,555	28,640	4876	1,600

1857	840,063	3,324,179	5,713,641	1,234,760	57,841	48,330

The annual average receipts of flour during the first five years was about 500,000 bbls.; during the next five it was 820,000, during the next five, 1,474,000; and during the next five, 960,000. The whole amount of grain received in 1847 was 9,668,187 bush., and in 1857 20,788,475 bush.—the greatest amount in any one year. This was a greater amount than was received that year in any other port in the world. The following table shows the receipts of leading articles during three seasons:—

	1855.	1856.	1857.
Ashes, casks.....	4,245	3,255	2,975
Beef, bbls.....	97,804	33,320	59,911
Broom Corn, bbls.....	9,225	7,536	5,086
Barley, bush.....	62,534	46,227	37,844
Butter, lbs.....	1,988,920	1,241,600	923,000
Baron, lbs.....	10,708,290	9,220,672	3,612,519
Cattle, No.....	14,049	25,283	20,799
Cranberries, bbls.....	255	491	91
Coal, tons.....	59,878	53,512	57,247
Copper Ore, lbs.....	500,000	1,870,488	2,587,600

³ The following tables show the receipts and shipments of leading articles for the year 1857.—The total value of these shipments that year was \$16,556,749, and the bills of the same received at the collector's office amounted to \$3,097,274.

1869	1,833,693	20,920	25,835	22,662	1,320	123,500	28,621	19,066	7,778	4,778	1,151	37,434
1870	1,833,693	20,920	25,835	22,662	1,320	123,500	28,621	19,066	7,778	4,778	1,151	37,434

The total value of the importations of these three years was \$9,185,348,707,451; in 1856, \$39,429,571; and in 1857, \$18,916,822.

⁴ Following is an exhibit of the number of entries and clearances, their tonnage and crews, for six successive years:—

Year.	No.	Tonnage.	M.
1852	9,411	3,092,247	127,400
1853	8,298	3,232,978	128,112
1854	8,912	3,099,254	123,828
1855	9,211	3,169,215	131,374
1856	8,128	3,038,687	119,000
1857	7,581	3,221,816	121,180

that the value of merchandise and property transported by R. R. is greater than the entire amount of the lake commerce of this port.¹ About one-fourth of the shipping of the lake is owned by the citizens of Buffalo.² Shipbuilding is extensively carried on.³ The manufactures of the city are extensive and various.⁴

The principal public buildings are the Custom House, Fort Porter, the State Arsenal, and the city markets. The *Custom House*, on the corner of Seneca and Washington Sts., is a handsome and well built structure, containing, beside the custom house office, accommodations for the post-office and the U. S. courts. It was constructed, at a cost of \$140,000, from designs furnished by the U. S. Treasury Department.⁵ *Fort Porter*, built in 1842-48, is a fortification on the bank of Niagara River at the point where it emerges from Lake Erie. The *State Arsenal*, erected in 1858, is a massive stone building fronting on Batavia St.⁶ There are four large markets, conveniently located in different parts of the city.⁷

The *Public Schools* of the city have long enjoyed a deservedly high reputation. They are carefully nurtured through the operations of an enlightened public sentiment, and are so excellent in all their departments that scarcely any other elementary schools are supported or needed. They are thoroughly graded, consisting of three general departments. The third department is an advanced school for the whole city; and in it a complete academic course, excepting the classics, is taught. There were, in 1857, 32 school districts, employing 189 teachers,—24 males and 165 females. The number of children, between 4 and 21 years of age, was 28,000, of whom 15,503, or a small fraction more than 55½ per cent., were in attendance some portion of the year.⁸

The *Buffalo Female Academy*, a flourishing institution, situated on Delaware Avenue, was opened for students in July, 1852.⁹

¹ The amount of live stock received by R. R. in 1857 was 78,404 head of cattle, 232,375 hogs, and 72,496 sheep.

² The amount of shipping owned in Buffalo, as shown by the custom house books, is as follows:—

Vessels.	No.	Tonnage.
Steamers.....	10	9,067
Propellers.....	50	30,186
Tugs.....	20	2,629
Barks.....	7	3,357
Brigs.....	21	3,584
Schooners.....	129	35,460
Sloops.....	5	473
Total.....	242	88,136

³ The following table shows the shipping launched in 1857:—

Vessels.	Tonnage.	Value.
4 Steamers.....	4,086	\$552,000
10 Propellers.....	5,070	349,000
13 Tugs.....	1,145	125,500
21 Schooners.....	7,555	253,400
1 Dredge.....		
25 Canal Boats.....		

In connection with one of the shipyards of the city is a dry dock of sufficient capacity to admit a steamer of over 2,500 tons; also a marine railway; and near by is a large derrick for hoisting boilers and heavy machinery.

⁴ The following is a list of the manufacturing establishments in operation in 1857:—

Agricultural Works.....	5	Earthenware Manufactories.....	2
AXA Edge Tool M'factory.....	3	Fence-iron.....	3

Shoe Manufactories.....	3	Whip.....	1
Silk.....	1		

The value of the articles manufactured in 1857 was about \$10,000,000, of which the leading products are estimated as follows:—ships and boats \$1,500,000; leather, \$1,500,000; flour, \$1,000,000; shoes and other castings, \$600,000; machines, \$600,000; distilled spirits, \$400,000; piano fortes, \$300,000; boots and shoes, \$100,000.

For most of the statistics of the commerce and manufactures of Buffalo we are indebted to the *Annual Statement of the Trade and Commerce of Buffalo for 1857*, issued from the office of the *Commercial Advertiser*.

⁵ The custom house building was commenced in 1855 and completed in 1858. It is 33 stories high, exclusive of basement, and has a front of 110 ft. on Seneca St. and 60 ft. on Washington St., with a total elevation of 70 ft. above the sidewalk. Its exterior is of light gray sand-stone, obtained from Cleveland, Ohio; and the whole is in proof throughout the floors being of small, segmental brick arches, turned from wrought iron beams, resting on tubular girders. The girders rest upon the walls, and are supported in the middle by cast iron columns reaching to the foundation of the building.

⁶ The arsenal is 145 ft. long by 65 ft. wide. Its front, 50 ft. wide, projecting 16 ft. from the main building, is flanked by octagonal towers 60 ft. high. The walls are 4 ft. high; and at each corner is a heavy, square turret. The cost of the building was \$550,000.

⁷ Elk Street Market is 50 ft. wide by 375 ft. long, having a veranda 24 ft. wide extending the whole length of each side. The Court Street Market consists of a main building, 51 ft. sq., with 4 wings, one on each side. The N. and S. wings are each 91½ ft. long by 36 wide, and the E. and W. wings are each 11 ft. long by 30½ wide.—The Union St. and Washington St. Markets are each 395 ft. long by 39 ft. wide, with a veranda 24 ft. wide extending the whole length of each side.

⁸ The total expenses of the schools for 1857 were \$16,019.86, and the total receipts the same; number of volumes in district libraries, 821.

⁹ This institution owes its existence in a great measure to the liberality of Jabez Goodell, who contributed over \$100,000 toward its establishment. The academy occupies one of the most eligible and beautiful sites in the city. There are two academic buildings, Goodell Hall and Evergreen Cottage,—the former occupied for school purposes, and the latter as a dwelling, by the family of the principal.

The *Buffalo Medical College*, on the corner of Main and Virginia Sts., was organized in 1843, under the charter of the *University of Buffalo*. A course of instruction is given each winter, and the students are admitted to the hospital of the Sisters of Charity, and to the dispensary during the hours of the medical and surgical officers.

The *Buffalo Mercantile College*, on the corner of Main and State Sts., was established Oct. 10, 1854. Its object is to impart a theoretical and practical knowledge of the mercantile business.

The *Buffalo Commercial College*, on Main St., is an institution of the same name operated by Mercantile College.

The *Buffalo Law Library Association*, incorp. April 2, 1833,—equal \$1,000, in shares of \$100 each,—was formed for the purpose of securing the benefits of a professional library beyond the reach of private means.

The *Young Men's Association* was established in the winter of 1845—equal incorp. by March, 1846. It has a library of about 10,000 volumes, and a reading room, which is well supplied with papers from most of the principal cities of the Union. During the winter months lectures are maintained by the association.

The *Germans Young Men's Association* was organized in 1841 and chartered in 1846. The library contains about 2000 volumes, mostly German works.

The *Young Men's Christian Union* was established in May, 1872, and incorp. March, 1876. It has for its object the moral and intellectual improvement of young men. Its library and reading rooms are in Kremlin Hall, at the junction of Niagara and Erie Sts.

The *Young Men's Catholic Association* and the *Buffalo Catholic Institute* are societies similar to the preceding.

The *Buffalo Medical Association* was formed in 1845 and incorp. in 1856. Its objects are purely scientific and professional, and its membership is confined to the medical profession of the county.

The *Musicians Association*, organized Jan. 1858, has for its object the improvement and cultivation of vocal and instrumental music.

The *Deutsche Liedertafel* and the *Deutscher Sängerbund* are German societies of a similar character.

The *Buffalo Orphan Asylum*, located on Virginia St., was organized in 1837 and incorp. April 24, 1837. The site was donated by Louis S. Le Courteux, and the present building was erected in 1850. The average number of inmates is about 80.

The *Buffalo Female Orphan Asylum*, on the corner of Batavia and Erie Sts., was established in 1848, under the care of the Sisters of Charity of St. Joseph. The present number of children is 98.

The *Buffalo Hospital of the Sisters of Charity*, on Virginia St., was incorp. July 5, 1848. The building contains 20 wards, and the average number of patients is 150.

The *Buffalo General Hospital* was incorp. Nov. 21, 1855, and went into operation in 1858. It was founded by individual donations, amounting to \$20,000, and a State appropriation of \$10,000.

The *Lying-In Hospital*, on Edward St., is under the charge of the Sisters of Charity.

The *Buffalo City Dispensary*, a society of physicians, was organized to afford gratuitous medical services to the destitute.

The *Association for the Relief of the Poor* dis-burses among the needy each winter sums ranging from \$1,500 to \$8,000.

The *Firemen's Benevolent Association* was incorp. March 23, 1847, and has for its object the accumulation of a fund for the relief of indigent and disabled firemen and their families.

The *Buffalo Physicians' Charitable Fund Association* was organized in 1858, to provide means for the assistance and relief of the widows and orphans of medical men.

A M. E. church was founded in Buffalo, in 1809, by the Rev. Jas. Mowbray; but it had no permanent organization. The oldest church now in the city—1st Presb.—was organized Feb. 2, 1812, by the Rev. Theodosius Osgood. The next established were a Pres. E. Baptist M. E. and C. M. There are now 57 churches in the city. Most of the church edifices are large and beautiful; and many of them are of a high order of architectural beauty. — *St. John's C. M. E. Church*, B. C. G. S.

¹This structure is built of high-stained brick two-story brick structure, 150 ft long and 120 ft wide. The wing ends of the general plan is irregular, but that is compensated in itself, and has 4 weeks' supply of accommodation for 100 patients. — 2. 14th C. M. E. Church, 17th St. E. 3. M. E. Church, 4th St. E. 4. Evangelical Church, 2d St. Presb. Church, 3d St. A. S. Church, 5th St. Presb. Church, 6th St. Unit. Church, 7th St. B. C. Church, 8th St. Unit. Church, 9th St. B. C. the largest and most costly in the city.¹ *St. Paul's*² and *St. John's*, (Prot. E.) and the North and Central Presb. churches, are elegant and substantial structures.

The earliest notice of the site of the city of Buffalo is found in the travels of Baron La Hontan, who visited this locality in 1687.³ No white settlers located here until after the American Revolution. A village of the Seneca Indians lay on Buffalo Creek, about 3 mi. from its mouth. In March, 1791, Col. Thos. Proctor, U. S. Commissioner, visited "*Buffalo Creek*,"—as this village was then called,—on an embassy to the Indians. The locality around the mouth of the creek was then called "*Lake Erie*," and Cornelius Winney, an Indian trader, resided there.⁴ The place was visited in 1795 by La Rochefoucault Liancourt, a French nobleman, who says that "at the post on Lake Erie there was a small collection of four or five houses."⁵ Buffalo was laid out by the agent of the Holland Land Company in 1801, and was called by them "*New Amsterdam*."⁶ Settlement was commenced at Black Rock in 1807.⁷ In 1808 "*New Amsterdam*" was made the county seat of Niagara co.; and its name was then changed to Buffalo. In 1812 it became a military post. In Dec. 1813, a party of British and Indians crossed over from Canada, defeated the American forces, and fired the villages of Black Rock and Buffalo. Only two dwelling houses were left standing.⁸ The rebuilding of the village was not commenced until 1815. Buffalo had from the first a formidable rival in Black Rock. While the mouth of Buffalo Creek was obstructed by a bar, Black Rock possessed an excellent harbor and monopolized the infant commerce of the lake. The "*Walk-in-the-Water*," the first steamboat on Lake Erie, was built at Black Rock in 1818. The construction of Buffalo harbor was commenced in 1820, by the citizens;⁹ and in 1827 the General Government assumed its completion and built the present pier and lighthouse. The Erie Canal was finished in 1825; and from that time to the present Buffalo has increased in wealth and population with the characteristic rapidity of the cities of the West.¹⁰

CHIECTAWAUGA¹¹—was formed from Amherst, March 22, 1839; and a part of West Seneca was taken off in 1851. It is an interior town, lying n. of the center of the co. The surface is level. The principal streams are Eleven Mile, Cayuga, and Slate Bottom Creeks. The soil is a heavy, tough clay. **Chieftawauga** and **Four Mile Creek** are p. offices. The first settlement was made by Apollon Hitchcock, in 1808.¹² There is but 1 church (R. C.) in town.

CLARENCE—was formed from "*Willink*," (now Aurora,) March 11, 1808. Buffalo was taken off in 1810, Alden in 1823, and Lancaster in 1833. It lies upon the n. border of the co., e. of the center. Its surface is level. A limestone terrace about 50 feet high, with a wall-like front facing the n., extends e. and w. through the center of the town. The streams are Tonawanda Creek, on the n. border, and Ransoms Creek, flowing n. w. through near the center of the town. The soil in the n. part is clayey, and in the s. a sandy and gravelly loam underlain by

¹ The cathedral is 226 ft. long, 86 ft. wide in the body, and 120 at the transept. The ceiling is 75 ft. high, the roof outside 90 feet, and the spire, when finished, will be 229 ft. high. The windows are all of beautiful stained glass, the larger ones in figures representing sacred scenes and characters. The tripartite window above the altar represents the birth, crucifixion, and ascension of Christ. This window was executed in Munich, at a cost of \$5,000.

² This church was erected at a cost of about \$100,000. It has a chime of 10 bells, which cost \$15,000.

³ La Hontan recommended to the French Government the erection of a fort at this place.

⁴ Winney's house—undoubtedly the first erected in Buffalo—stood near where the Washington St. Canal Bridge now is.

⁵ Besides Winney, Johnston, the British Indian interpreter, Martin Middouch and his family, and his son in law, Lachlan Lane, resided here at that time; and in 1796 Asa Ransom, Jesse Skinner, and "*Black Joe*," were also here. Skinner kept an inn, and Winney and "*Black Joe*" an Indian store.

⁶ The principal streets were named from members of the Holland Land Company. Main St. was called "*Holland*," *Avon*," Niagara St. "*Schenckopouck's Avenue*," Genesee St. "*East Avenue*," Kay St. "*Villchop's Avenue*," and Church St. "*Stadrich's Avenue*." In 1826 these names were changed by the trustees of the village. The business of the Holland Land Company was transacted here for a short time previous to the opening of their office at "*Ransoms Green*," now Clarence Hollow, in 1801.

⁷ The surveyor general was directed (April 11, 1804) to lay out the land about Black Rock—being a part of the Mile 21-p. into lots and report to the legislature. This was accordingly done; and in his report the surveyor general stated his belief that this was the best, if not the only, place at this end of the lake where a harbor of proper size could be constructed. From the earliest period the U. S. had designated this vicinity as the site of a fortification. The report closed with the following words:—"It will be observed that

streets are laid where it will either be impracticable or useless to open them soon. It may, notwithstanding, be useful now to contemplate, in the plans of towns, what will be necessary arrangements a century hence. Such plans on record, while for the present they can be productive of no harm, may prevent those alterations from order that might hereafter be a cause of much inconvenience; and, without being governed by extravagant calculations, no doubt can be entertained that the future importance of this place will justify extensive views in the projection of its arrangements." The village, like Lewiston, Oswego, Sabina, and Fort Covington, was patented in small parcels.

⁸ See p. 280. In 1825, Congress made an appropriation of \$20,000 to compensate the individuals for the losses incurred by this disaster.

⁹ The sum of \$1,861 25 was raised by subscription, and a loan of \$12,000 was obtained from the State. A pier, extending 80 rods into the lake, was built, and a lighthouse erected upon the land. The *Superior*—the second steamboat launched upon Lake Erie—was built at Buffalo in 1822.

¹⁰ The population at different periods has been as follows:—

1810.....	1,308	1830.....	8,668	1845.....	29,773
1814.....	1,060	1835.....	19,715	1850.....	42,261
1820.....	2,095	1840.....	18,213	1855.....	74,214
1825.....	5,441				

The population of Black Rock (now about 12,000) is included in the returns of 1845 only.

¹¹ This name was given at the suggestion of Alex. Hitchcock. It is a corruption of the Seneca word "*Tik-downah-ghb*," signifying "the place of the crab-apple tree," the Indian name of this locality.

¹² Among the early settlers were Sam'l Lasure, Roswell Jindson, Abraham Hatch, and Maj. Noble. The first birth was that of a child of Roswell Hatch, in 1810; and the first death, that of Franklin Hitchcock, in 1818. The first mill was built by Sam'l Lasure, in 1819; and the first inn was kept by Jesse Munson, in 1815.

BUFFALO HARBOR

lime-stone. **Clarence Hollow**, (Clarence p. o.) near the s. e. corner of the town, contains 2 churches, the Clarence Academy,¹ and a pop. of 400; **Clarence Center** (p. v.) contains 2 churches and about 40 houses. **Harris Hill** (p. o.) and **North Clarence** (p. o.) are hamlets. The first settlement was made at Clarence Hollow in 1799, by Asa Ransom. The census reports 7 churches in town.³

COLDEN⁴—was formed from Holland, April 2, 1827. It is an interior town, lying s. of the center of the co. The surface is an elevated upland, rolling in the e. and hilly in the w. The w. branch of Cazenove Creek flows through the w. part of the town and is bordered by steep declivities 150 to 200 ft. high. The soil is a gravelly loam intermixed with clay. **Colden**, (p. v.) on Cazenove Creek, contains a sawmill, a gristmill, and 34 houses; **Glenwood**, (p. v.) on the same stream, contains 1 church, 3 sawmills, 2 lath mills, a tannery, and 50 houses. The first settlement was made in 1810, by Richard Buffum.⁵ The Presbyterian at Glenwood is the only church in town.

COLLINS—was formed from Concord, March 16, 1821. A part of Branch was taken off in 1839, and North Collins in 1852. It lies on the s. border of the co. w. of the center. The surface is a rolling upland, sloping gradually to the w. and descending abruptly to Cattaraugus Creek upon the s. The summits of the ridges are 150 to 300 ft. above the valleys. Cattaraugus Creek forms the s. boundary of the town; and the other streams are Clear Creek and its tributaries. The channels of these streams are narrow and deep. The soil is a clayey loam on the uplands and a gravelly loam along the streams. **Collins Center** (p. v.) contains 1 church and 34 houses. **Angola** is a p. o. near the s. w. corner of the town. **Gowanda** lies partly in this town.⁶ The first settlement was made in 1806, by Jacob Taylor.⁷ There are 5 churches in town.⁸

CONCORD—was formed from "Willink," (now Aurora,) March 20, 1812; and Collins and Sardinia were taken off in 1821. A part of Sardinia was annexed in 1822. It lies upon the s. border of the co. The surface is a rolling upland, with steep declivities bordering upon Cattaraugus Creek. Townsend Hill, the highest point, is nearly 1500 ft. above tide. The principal streams are Cattaraugus Creek, upon the s. boundary of the town, and its tributaries. Several small brooks, forming the head waters of Eighteen Mile and Cazenove Creeks, take their rise in this town. The soil in the s. part is a gravelly loam, and in the n. a clayey loam underlaid by sandpan. **Springville**, (p. v.) incorp. April 11, 1831, is situated in the s. part of the town, and contains 5 churches, the Springville Academy, a newspaper office, and several manufacturing establishments.⁹ Pop. 953. **Mortons Corners**, (p. v.) in the s. w. part, contains 1 church, 2 sawmills, a gristmill, and 20 houses. **Woodwards Hollow** (p. o.) is a hamlet. The first settlement was made in 1808, by Christopher Stone.¹⁰ The first church was organized Nov. 2, 1816, by Rev. John Spencer. There are 7 churches in town.¹¹

EAST HAMBURGHI—was formed from Hamburg, as "Elliot," Oct. 15, 1850. A part of West Seneca, as "Seneca," was taken off in 1851. Its name was changed Feb. 20, 1852. It is an interior town, lying near the center of the co. The surface is a broken upland. Chestnut Ridge, the highest land in the town, has an elevation of about 500 ft. above Lake Erie. The declivities of the hills are generally gradual slopes, broken by narrow ravines formed by the streams. Smokes Creek and its branches are the most considerable streams. The soil is a loam, gravelly in the n. and clayey in the s. **East Hamburg**, (p. v.) n. of the center of the town,

¹ Established as the Clarence Classical School in 1811, by J. H. Colby and R. Blinn-Ruesell.

² Asa Ransome was a man of considerable influence with the Indians. They gave him the name of "*Owashtawantow, quawitche*," signifying "maker of silver," or "banker of silver money." Gen. Timothy Hopkins settled in the town in 1797. Asa Chapman, Timothy James, Wm. Updegraff, Christopher Sadler, Levi Felton, Abraham Shepe, John Humes, and John Gardner, in 1801; Andrew Burnett, Geo. Shurman, Bera Ensign, and Jacob Shepe, in 1803; and Daniel Bailey in 1804. The first birth was that of Harry B. Ransom, in 1804; and the first death, that of ———— Kyles, in 1804. Asa Ransom opened the first public house, in 1804, built the first sawmill, in 1806, and the first gristmill, in 1806; Ous R. Hopkins kept the first store, in 1811. The first school was taught by Rebecca Hamlin, in 1806.

³ Methodists, Bap., Seventh Day Bap., Presb., and Union.

⁴ Named from Cadwallader D. Colden, then in the State Senate.

⁵ This Pope, Josiah Brown, and L. Owen settled in the town in 1810, and Jesse Southwick, Richard Sweet, Nathl Bowen, and Silas Lewis in 1811. The first birth was that of a child of Thos. Pope, in 1811; the first marriage, that of Jas. Sweet and Charlotte Buffum, in 1810; and the first death, that of Nathaniel Bowen, in 1812. Richard Buffum built the first mill, in 1810.

The first school was taught by Mary Eddy, in the winter of 1814.

⁷ Joshua Palmerton, Stephen P. Ows, Thomas M. Jones, Stephen Ephraim settled in the town in 1810, and Stephen W. Whit and Sylvanus Bates in 1811. The first farm was that of a son of Aaron Lindsley, in 1810, the first house, that of Stephen Peterson and Sarah Palmerton, in 1811, and the first mill, that of ———— Straught, in 1812. Jacob Taylor kept the first mill, in 1812; John Hantz kept the first store, in 1811; and Nathan King the first inn, in 1815. The first school was taught by John King, in 1815.

⁸ Christians, Friends, F. W. Bap., P. Bap., and Unitn.

⁹ A woolen factory, 2 planing mills, a tannery, a shop, a saw mill, 2 gristmills, a tannery, a stone quarry, and a saw and machine shop.

¹⁰ John Albion and John Russell settled in the town the same year, Sam'l Cochrane in 1809, and Richard O. Smith, John Alva Plumb, and David Stoddy in 1810. The first birth was that of Lucius Stone, in 1809, the first marriage, that of Jas. Russell and Anna Buchanan, in 1810, and the first death, that of Mrs. John Albion, in 1808. Anna Richardson was the first school, in 1811.

¹¹ Bap., F. W. Bap., M. E., Presb., F. C., Unitn. and Unity.

contains 2 churches, 2 sawmills, and 40 houses. **Ellicott** (p. o.) is a hamlet. The first settlement was made in 1803, by David Eddy, from Rutland, Vt.¹ There are 3 churches in town; Friends, M. E., and Union.

EDEN—was formed from "Willink," (now Aurora,) March 20, 1812. Boston was taken off in 1817, and Evans in 1821. It is an interior town, lying s. w. of the center of the co. Its surface is hilly and broken in the e. and level in the w. A ridge about 500 ft. above the lake extends along the e. border. The principal streams are Eighteen Mile Creek and its branches. The soil is a gravelly loam intermixed with clay. **Eden**, (p. v.), situated near the center of the town, contains 3 churches, a sawmill, a stove and shingle mill, a tannery, and 63 houses; **Eden Valley**, (p. v.), on Eighteen Mile Creek, contains a gristmill, a sawmill, and 20 houses. **Clarksburgh** (p. o.) and **East Eden** (p. o.) are hamlets. The first settlement was made in 1808, by Benj., Joseph, and Samuel Tubbs.² The first religious services were conducted by Rev. Wm. Hill, in 1812. There are 8 churches in town.³

ELMA—was formed from Lancaster and Aurora, Dec. 4, 1857. It is an interior town, lying n. e. of the center of the co. Its surface is gently rolling, the summits of the ridges being 50 to 100 ft. above the valleys. Big Buffalo and Cazenove Creeks flow through the town. The soil is a clayey loam in the s. and a gravelly loam in the s. **Spring Brook**, (p. v.), on Cazenove Creek, contains 2 churches and several manufactories.⁴ Pop. 300. **Elma**⁵ (p. v.) has several manufacturing establishments⁶ and 34 houses; and **Upper Ebenezer** 27 houses. The first settlement was made in 1827, by Taber Earle.⁷ There are 2 churches in town; Presb. and R. C.

EVANS⁸—was formed from Eden, March 23, 1821. A part of Hamburgh was annexed in 1826, and a part of Brandt was taken off in 1839. It lies upon the lake shore, in the s. part of the co. The land rises from the lake in a bluff 20 to 40 ft. high; and the highest part of the town, near the e. border, is 160 ft. above the lake. The streams are Big and Little Sister Creeks. The soil is a sandy and gravelly loam intermixed with clay. **Evans**, (p. v.), situated on Big Sister Creek, contains 3 churches, a gristmill, a sawmill, a tannery, and about 45 houses; **Angola**, (p. v.) on the same stream, is a station on the Erie R. R., and contains a gristmill, a sawmill, and about 45 houses; **North Evans**, (p. v.) on Eighteen Mile Creek, in the s. e. part of the town, contains 3 churches, a gristmill, a sawmill, a tannery, and about 40 houses; **East Evans**, (p. v.) in the n. part of the town, and **Pontiac**, (p. v.) on Big Sister Creek, in the s. e. part, contain about 20 houses each. The first settlement was made in 1804, by Joel Harvey.⁹ There are 7 churches in town.¹⁰

GRAND ISLAND—was formed from Tonawanda as a town, Oct. 19, 1852. It is the s. w. corner town in the co., and comprises Grand, Buckhorn, and Beaver Islands, in Niagara River. Its surface is nearly level, and a considerable portion of it is still covered with forests. The soil of the upper part is clayey, and of the lower part sandy. The people are principally engaged in grain raising and lumbering. **Grand Island** is a p. o. on the e. shore. There is no village on the island, although it is thickly settled along the shores. The first settlers were squatters, who located soon after the War of 1812 and before it was decided to which Government the island belonged.¹¹ In 1820, Mordecai M. Noah, of New York, conceived the project of forming a

¹ Ezekiel Cook and Zenas Smith settled in the town in 1803, and Amos Colvyn and Ezekiel and Daniel Smith in 1804. The first marriage was that of Almon C. Laire and Lydia Sprague, in 1805; the first birth, that of a son of Daniel Smith, in 1805; and the first death, that of the same child, in 1805. Danl Smith built the first mill, in 1807; John Green kept the first inn, in 1807, and David Eddy the first store, in 1809. The first school was taught by Anna Eddy, in 1807.

² Among the first settlers were John Marsh, Silas Este, and Colvyn Thompson, who came in 1809, and Daniel and Edward Webster, in 1810. The first birth was that of Hannah Tubbs, in 1809; the first marriage, that of David Dean and Anna Hill, in 1810; and the first death, that of Jas. Welch, in 1812. Elsha Welch built the first sawmill, in 1811, and the first gristmill, in 1812. Wm. Hill kept the first inn, in 1811, and Ellmore & Johnson the first store, in 1820. The first school was taught by Rowena Peck, in 1812.

³ R. C. Prot. D., Ep., Evang. Luth., M. E., Presb., and R. C.

⁴ 2 sawmills, a shingle and turning mill, 2 gristmills, and a tannery.

⁵ Named from a very large elm tree near Elma Village.

⁶ 1 gristmill, 2 planing mills, and a chair factory.

⁷ Timothy Treat, Isaac Williams, Willard and Jas. Fairbanks, and Amos Adams settled in the town in 1829, and Zania A. Hunt-trot, Abraham Taber, and Jacob Pettengill in 1831. The first birth was that of H. Scott Fairbanks, in 1831; the first marriage, that of Gould Brown and Louisa Adams, in 1832; and the first death, that of the wife of Isaac Williams, in 1830. The first mill was built by — Eastbrook, in 1824; and the

first inn was kept by Taber Earle, in 1820. Emily Faine taught the first school, in 1831.

⁸ Named from David E. Evans, agent of the Holland Land Company.

⁹ — Fisk and — Worder settled in the town in 1808, Aaron Salisbury and Aaron Cash in 1809, and Andrew Tyler and Elijah Gates in 1810. The first birth was that of a daughter of David Cash, in Jan. 1811; the first marriage, that of Whiting Cash and Persis Taylor, June 28, 1814; and the first death, that of Jonathan Cash, in 1811. Henry Tuttle built the first mill, in 1817; Joel Harvey kept the first inn, in 1800; and John Harris the first store, in 1815. The first school was taught by — Hubbard, in 1811.

During the War of 1812 a party of British sailors and mariners landed near Sturgeon Point, in the night, and commenced plundering the inhabitants. Judge Aaron Salisbury, then a young man, seized his musket and started off alone to get a shot at them. When he arrived they were retreating to their boats, and an exchange of shots produced no damage on either side. They started for the mouth of Eighteen Mile Creek, and he on foot endeavored to get there before them; but they had landed when he arrived. He immediately commenced firing; and they, not knowing how large a force was opposing them, retreated to their boats and speedily left. Here one man frightened away 100 and saved the inhabitants from plunder.

¹⁰ 3 Bap., 3 Cong., 3 M. E., and R. C.

¹¹ The treaty of peace fixed the boundary between the two countries along the principal branch of Niagara River. A dispute in regard to which was the principal branch was settled in

contains 1 church and has a pop. of 196. **Town Line, Winspear, and Looneyville** are p. offices. The first settlement was made in 1803, by Jas. and Asa Woodward.¹ The first religious services were conducted by Rev. John Spencer, at the house of Benj. Clark, in 1809. There are 8 churches in town.²

MARILLA³—was formed from Alden and Wales, Dec. 2, 1853. It is situated near the center of the e. border of the co. The surface is rolling. Big Buffalo Creek crosses the s. w. corner; but the principal part of the town is drained by the head waters of Little Buffalo Creek. The soil in the n. e. and s. w. is a sandy and gravelly loam; but elsewhere it consists of clay and muck. **Marilla**, (p. v.), situated near the center of the town, contains 3 churches, 2 sawmills, a shingle mill, and 235 inhabitants. The first settlement was made by Jerry and Joseph Carpenter, in 1829.⁴ There are 3 churches in town; Disciples, M. E., and R. C.

NEWSTEAD—was formed from Batavia, (Genesee co.), as "*Erie*," April 11, 1804; its name was changed April 18, 1831. It is the s. e. corner town of the co. A limestone terrace extends through near the center of the town. North of this the surface is level, in many places marshy; and the soil is a clayey loam intermixed with marl and sand. To the s. the surface is level, or gently undulating, and the soil a sandy and clayey loam underlaid by limestone. The town is watered by several small streams, the principal of which is Murder Creek.⁵ A layer of hydraulic limestone crops out along the terrace, and waterlime is extensively manufactured from it. **Akron**,⁶ (p. v.) incorp. Oct. 1850, is a station on the Canandaigua & N. F. branch of the N. Y. C. R. R., near the center of the town. It contains 4 churches and several manufacturing establishments.⁷ Pop. 462. **Falkirk**, 1 mi. e. of Akron, is a hamlet. The first settlement was made in the early part of the present century.⁸ The first religious society (M. E.) was organized in 1807, with 12 members, at the house of Charles Knight, by Rev. Peter Van Nest and Amos Jenks. There are 4 churches in town.⁹

NORTH COLLINS—was formed from Collins, Nov. 24, 1852, as "*Shirley*;" its name was changed June 24, 1853. It is an interior town, lying in the s. w. part of the co. Its surface is rolling, the summits of the ridges being 200 to 300 ft. above the valleys. The town is watered by the head branches of Eighteen Mile, Clear, and Big Sister Creeks. The streams generally flow through deep ravines bordered by steep declivities. The soil is a gravelly loam. **North Collins**, (Collins p. o.) in the n. w. part of the town, contains 2 churches and 34 houses. **Shirley**, (p. v.) and **Langford**, (p. o.) in the n. e. part, **New Oregon**, (p. o.) in the e. part, and **Marshfield**, (p. o.) in the s., are hamlets. The first settlers were Stephen Sisson, Abram Tucker, and Enos Southwick, from Warren co., who moved into the town in 1810.¹⁰ There are 8 churches in town.¹¹

SARDINIA—was formed from Concord, March 16, 1821. A part of Concord was taken off in 1822. It is the s. e. corner town of the co. The surface in the e. part is gently rolling, and in the w. hilly. Shepherd Hill, s. w. of the center, is 1,040 ft. above Lake Erie. Cattaraugus Creek forms the s. boundary. In the e. part the soil is a gravelly loam, and in the w. it is clay underlaid by hardpan. **Sardinia**, (p. v.) in the s. e. part, contains 2 churches, a woolen factory, a gristmill, a tannery, and 40 houses. **Protection** is a p. o. The first settlement was made by George Richmond, from Vt.¹² The first religious services were conducted by the Rev. John Spencer, in Feb. 1815. There are 2 churches in town; Bap. and M. E.

¹ Among the early settlers were Alanson Eggleston and David Hamlin, who came in 1804, Joel Parmater, in 1805, Warren Hamlin, in 1806, Wm. Blackman, Peter Pratt, — Kerney, and Elisha Cox, in 1807, and Elias Bissell, Parson Peckham, and Benj. Clark, in 1808. The first birth was that of a pair of twins, children of Zophar Beach, and the first death, that of a child of Wm. Blackman, both in 1808. — Robinson built the first sawmill, in 1808; Abaz Luce opened the first store, in 1809, and Jos. Carpenter the first inn, in 1812. The first school was taught by Fredevo Johnson, in 1810.

² 2 Evang. Luth., 2 M. E., Disciples, Ger. Meth., Presb., and R. C.

³ Named from Mrs. Mailla Rogers, of Alden.

⁴ Eric Wilder, Cyrus Finney, and Rodman Day settled in the town in 1821. The first birth was that of Sarah Finney, in Oct. 1821. Jesse Barton built the first sawmill, in 1828, and the first gristmill, in 1832. Miles Carpenter kept the first store, in 1818, and the first inn, in 1830. The first school was taught by Sophia Day, in 1823.

⁵ Called by the Indians "*Soo-nu-gut*," noise or roar of distant water. The creek was named from the fact that about the time of the first settlement a white man was murdered upon it, within the present village limits of Akron, by an Indian who was conducting him to Canada.

⁶ Named from Akron, Ohio, and the latter from a Greek word signifying "summit."

⁷ 2 gristmills, 2 sawmills, 1 waterlime mill, 1 furnace and machine shop, 1 planing mill, 1 stove and shingle mill, and a tannery.

⁸ Among the early settlers were Otis Ingalls, David Cully, Peter Van de Venter, Sam'l Miles, John Erton, Charles Jarny, Aaron Beard, Robt. Dunham, Tobias Cole, and Sam'l Silas, John, and Thomas Hill. Peter Van de Venter kept the first inn, in 1802, and Archibald Clark the first store, in 1803. The first school was taught by — Keith, in 1807.

⁹ Bap., Presb., M. E., and R. C.

¹⁰ The first birth was that of Geo. Tucker, in Aug. 1810; the first marriage, that of Levi Woodward and Hannah Southwick, in 1812; and the first deaths, those of two girls, twin daughters of Stephen Sisson. Stephen Stencil built the first mill, in 1818; Stephen Tucker kept the first inn, and Chester Rose the first store, both in 1813. The first school was taught by Phebe Southwick, in the summer of 1813.

¹¹ 2 Friends, 2 M. E., 2 R. C., Bap., and Cong.

¹² Among the early settlers were Ezra Nott, Henry Godfrey, and Josiah Sumner. Elisha Rice and Giles Briggs settled in the town in 1810. The first birth was that of Ray Briggs, in

TONAWANDA—was formed from Buffalo, April 16, 1836; and Grand Island was taken off in 1852. It lies in the s. w. part of the co., at the angle formed by the junction of Tonawanda Creek and Niagara River. Its surface is generally level. Eleven Mile Creek crosses the s. part of the town. The soil along Niagara River is clayey; in the interior it is sandy. **Tonawanda**, (p. v.) incorp. Dec. 3, 1853, is situated on the Erie Canal, at the confluence of Niagara River and Tonawanda Creek. It has a good harbor,¹ and is an important station on the B. & N. F. R. R. It is the western terminus of the C. & N. F. branch of the N. Y. C. R. R. It contains 5 churches, a newspaper office, a bank, an elevator,² and several manufacturing establishments.³ Pop. 1,257.⁴ The first settlement was made in 1805.⁵ There are 8 churches in town.⁶

WALES—was formed from Aurora, April 15, 1818; and a part of Marilla was taken off in 1853. It is situated near the center of the e. border of the co. Its surface is broken and hilly and inclined toward the s. The principal stream is Big Buffalo Creek. The soil in the s. is a gravelly loam, and in the n. clay underlaid by hardpan. **Wales Center**, (p. v.) on Big Buffalo Creek, in the s. part of the town, contains 2 churches, a gristmill, a sawmill, and 40 dwellings; **Wales**, (p. v.) on the same stream, contains 1 church, a gristmill, a sawmill, and 30 dwellings; and **South Wales** (p. v.) contains a gristmill, a sawmill, and 25 dwellings. The first settlement was made in 1805, by Oliver Pettengill.⁷ There are 3 churches in town; 2 M. E. and a Free Will Bap.

WEST SENECA—was formed, as "*Seneca*," from Chiektowaga, Hamburg and East Hamburg, and Lancaster, Oct. 16, 1851; its name was changed March 25, 1852. It is situated on the shore of Lake Erie, near the center of the w. border of the co. Its surface is gently undulating in the e. and level in the w. The streams are Big Buffalo, Cazenove, and Smoke⁸ Creeks. The soil is generally a sandy loam. The town is mainly settled by a society of German religionists, generally known as Ebenezers, but who style themselves the "Community of True Inspiration."⁹ **Middle Ebenezer**, on Buffalo Creek, contains a church, calico printing factory, woolen factory, sawmill, oil mill, and 67 houses; **Lower Ebenezer**, on Cazenove Creek, contains a church, sawmill, gristmill, tannery, and 59 houses; and **New Ebenezer** contains a large manufactory of cotton and woolen goods, an extensive dyeing works, and 9 dwellings. **Reserve**, **West Seneca Center**, and **West Seneca** are p. offices. The first settlement was made by Reuben Sackett, in 1826.¹⁰ There are 4 churches in town.¹¹

1811; and the first death, that of a son of Henry Godfrey, in 1814. Sumner Warren built the first mill, in 1811; Geo. Richmond kept the first inn, in 1811; and Clark & Co. the first store, in 1816. The first school was taught by Mehudi Abbey, in 1814.

¹ Large quantities of lumber are received at this port from Canada and the Western states. The quantity re-shipped by canal in 1857 was, of timber, 844,011 cubic feet; of sawed stuff, 4,815,441 ft.; and of wood, 16,007 cords.

² This elevator has a storage capacity of 250,000 bush., and facilities for elevating 2000 bush. per hour.

³ 3 sawmills, 3 shingle mills, a planing mill, and a furnace and machine shop.

⁴ This is the pop. of that part of the village in Erie co. A part of the village is across the creek, in Niagara co.; and the pop. of this is not known.

⁵ Alex. Logan, John King, and John Hersey settled in the town in 1805; Emanuel Winter, Jos. Haywood, Oliver Standard, John Cunningham, Josiah Guthrie, Ebenezer Coon, Thos. Honnan, and Joseph Hersey, in 1807; Henry Anguish, in 1808; and Frederick Burk, in 1809. Henry Anguish kept the first inn, in 1811, and Judge Wilkinson the first store, in 1825. The first mill was built by — Osborne, in 1819.

⁶ Disiples, Evang. Luth., M. E., R. C., and Wes. Meth. at Tonawanda Village, and Evang. Luth., M. E., and R. C. in other parts of the town.

⁷ Ethan and Wm. Allen and Jacob Turner settled in the town in 1806, and Chas. and Alex. McKay, Ebenezer Holmes, and Wm. Hoyt in 1807. The first birth was that of Wm. Pettengill, in June, 1805. Isaac and Eli Hall built the first mill, in 1811; Isaac Hall kept the first inn, in 1810; and Oseamus Warren the first store, in 1824. The first school was taught by Jas. Wood, in 1811. In 1813 an Indian hatchet was found imbedded in a tree at Wales Center, and in 1825 John Allen related the fol-

lowing circumstance concerning it. About the time of the first settlement of Buffalo an Indian came to that place, and exhibited the skin of a white child, and boasted that he had murdered and skinned the child for the purpose of making a tobacco pipe. Truman Allen, (brother of the narrator), hearing the boast, became so enraged that he followed the Indian to Wales, and shot him. He buried the body and ribs in the sand, and stuck the tomahawk into a tree, where it was afterward found as above stated.

⁸ Named from an Indian who resided near its mouth and who was an inveterate smoker.

⁹ This community purchased 7922 acres belonging to the Buffalo Indian Reservation in 1844, and commenced their settlements the same year. They are largely engaged in agriculture and manufactures; and the town has obtained so excellent a reputation that they had a ready market at Buffalo and elsewhere. They have a community of property, reside in villages, and several families usually occupy the same house. They are governed by a board of trustees; and their business is done through an agent, who appears to have almost unlimited control of matters. They are honest, industrious, and frugal, and in the contented and peaceful tenor of their lives they present a model which might well be copied by some of the restless and ambitious Yankee race.

¹⁰ Among the other early settlers were Artemus W. Beck, John G. Wells, Isaac Little, and Geo. Heppner, who settled in 1828. The first child born was a daughter of Joel Beck, in Aug. 1825; and the first death, that of Peter Beck, in 1844. Geo. E. Eldakin taught the first school, in 1829. Reuben Sackett kept the first inn, in 1829; the Ebenezer Society, the first store, in 1835; and Ballou & Tabell built the first mill, in 1837.

¹¹ 2 Lutheran and 2 Community of True Inspiration.

* Formed since 1856.

ESSEX COUNTY.

This county was formed from Clinton, March 1, 1777. A narrow corner was taken off in the erection of Franklin co. in 1781. It lies upon Lake Champlain, in the s. e. part of the State, and is geographically distant 100 miles from Albany, and contains 1,200 square miles. It is by far the most broken and mountainous county in the State. With the exception of a narrow strip of level land along the shore of Lake Champlain, nearly the whole consists of an Alpine character. High, rocky peaks, and immense mountain masses, abounding in wild, broken crags and stupendous precipices, and separated by narrow ravines and deep gorges, form the general characteristics of the landscape. With the exception of the Black Mountain, of North Carolina, and the White Mountain group, of New Hampshire, the mountains of this co. attain a higher elevation than any others belonging to the great Appalachian system; and, taking into consideration their great number of lofty peaks, they surpass in magnitude all other groups in the Mississippi. The mountains seem thrown together without regard to order or system; and from this fact, and the frequent misapplication of names, much confusion has arisen in attempting to describe them.

The 5 mountain ranges s. of the Mohawk valley extend through portions of this co., and terminate upon the shores of Lake Champlain. They all have a general s. e. and s. w. direction, rising successively higher toward the s., until they culminate in the most northerly range. The axes of these ranges are nearly parallel, and are respectively about 8 mi. apart. They are not always distinct and continuous, but in some places their lateral spurs interlock, and in others their continuity is broken by the intervention of valleys and brief intervals of lowland. They are not regularly serrated, but appear to consist of groups of sharp pointed peaks connected by immense ridges. The principal mountain masses appear to extend in a due s. and s. direction, and are thus placed obliquely in the range of which they form a part. Single mountains are often sufficiently large to occupy the whole intervening space between the ranges, thus destroying the continuity of the valleys and reducing them to narrow, isolated ravines. This arrangement of mountains, in regard to the ridges, affords the key to the peculiar plan of the construction of this whole mountain system.

The most southerly of the 5 ranges barely enters the extreme s. e. corner of the co. It is known as the Palmertown or Luzerne Mts. It has also sometimes been called the Black Mountain Range and the Tongue Mts. It constitutes the highlands which rise upon both sides of Lake George and upon the narrow peninsula between the Lake George Outlet and Lake Champlain. Mt. De fiance, the extremity of the ridge, has an elevation of about 750 feet above the lake. The second range, known as the Kayaderosseas, extends through the s. e. part of Schroon and the center of Crown Point, ending in the high cliff which overlooks Bulwaga Bay, and is elevated about 1,150 feet above the surface of the lake. Along the course of this range, in Schroon, is a cluster of mountain peaks, the highest of which, Mt. Pharaoh, is 3,500 to 4,000 feet above tide. The third range occupies the w. and s. parts of Schroon, and extends through the s. part of Moriah and the center of Westport, ending in the high promontory of Split Rock, in the s. part of Essex.¹ Bald Mountain, in Westport, one of the most noted peaks of this range, attains an elevation of 2,065 feet above tide. This range takes the name of the Schroon Mts. from the principal lake which lies at its foot.

The fourth range extends through the central parts of Minerva and N. Hudson, the s. e. corner of Keene and Lewis, the s. w. part of Elizabethtown, and the center of Willsborough, ending in the high bluffs which border upon Perou Bay. It might with propriety be called the Bepier Range, from the principal river which flows at its base. Dix Peak, in N. Hudson, the highest mountain in this range, attains an elevation of 5,200 feet above tide, and next to Mt. Mansfield is the

¹The name of Split Rock was applied to this promontory in consequence of about 1/2 acre of the extreme point being detached from the mainland by a chasm 10 feet wide, extending downward to near the water's edge. It was once supposed that this mass was split off from the mainland by some great convulsion of nature, and writers have gravely asserted that the foot sounding have been cut in the rock, and that the fissure was filled with water, which at this point, and in consequence of the wind blowing upon by the elements, the water is continually overflowing above the lake is about 10 feet.

highest point in the co. Nipple Top has an elevation of 4,900 feet. Raven Hill, in Elizabethtown, and Mt. Discovery, in Lewis, each attain an elevation of over 2,000 feet. The fifth range extends through Newcomb, Keene, Jay, Lewis, and Chesterfield, ending in the rocky promontory of Trembleau Point. It has sometimes been called the Clinton Range, but it is more widely known as the Adirondack Range.¹ Mt. Marcy, the highest peak of this range, and the highest land in the State, has an elevation of 5,467 feet above tide. Mounts McMartin, McIntyre, and Sanda-nona, belonging to this range, are each upward of 5000 feet high. A spur of this range extends northward on the borders of Jay and Chesterfield, in a high, unbroken ridge, with a mean elevation of about 2,000 feet above tide.

North of the Adirondack Range the mountains are not disposed in regular ranges, but are scattered in groups over a large space of country. These groups, however, lie in a line parallel to the other ranges, and for convenience of description they might be considered under the head of the "Au Sable Range." Mt. Seward, the highest peak, 5,100 feet above tide, is situated just beyond the limits of the co. Whiteface, in Wilmington, has an elevation of 4,855 feet.

The rocks of Essex co. are primary, consisting of granite, gneiss, and hypersthene. The mountains generally are composed of huge masses of naked rocks, more or less disintegrated by the action of the elements. Nearly the whole mountain region is composed of this primitive rock. Along the base of the mountains, on the e., appear the Trenton limestone and Utica slate; while upon the immediate borders of the lake are found the clayey masses of the tertiary formation. In the primary rocks, among the mountains, are immense beds of rich magnetic iron ore, some of which have been extensively worked, though generally in a very rude and primitive manner. The iron produced from this ore has been subjected to the most severe tests, and has been pronounced equal to the best which is produced in the world.

The s. w. portion of the co. is drained by the Hudson and its principal branch, the Schroon River. These streams take their rise upon the highest peaks of the Adirondack and Schroon Ranges, and flow through the winding valleys that lie at their base. Upon the e. Putnam's Creek drains the region between the Luzerne and Kayaderosseras Ranges; Mill Brook, between the Kayaderosseras and Schroon; and the Boquet River, between the Schroon and Boquet Ranges. The Au Sable, flowing along the s. base of the Adirondack Range, drains the s. portion of the co. The valleys of these streams are generally narrow, and are bounded by steep banks, which are not unfrequently huge masses of precipitous or overhanging rocks.

Lakes Champlain and George lie partly in this co., and more than 100 small lakes lie wholly within its limits. The greater part of these are comprised in three groups, lying near the base of the principal mountain peaks. The first of these groups surrounds Mt. Marcy; the second, Mt. Pisaraah; and the third, Whiteface. Many others are found scattered along the whole course of the mountain ranges. These lakes are generally long and narrow; and Prof. Emmons says "that, instead of occupying shallow basins scooped out of the softer materials,—as earth and the ordinary slates and shales,—they lie in chasms formed by uplifts and fractures in the primary rock." Many of these lakes have precipitous banks, presenting a great variety of wild and picturesque scenery. The soil along Lake Champlain consists of a stiff, hard clay, alternating with a dark loam and gravel, and, in the narrow valleys, of disintegrated rocks. Upon the mountains the soil is thin and light, many of the peaks being masses of naked rocks, destitute of both soil and vegetation. The declivities of the hills are generally wooded, but not very heavily. Three-fourths of the entire surface of the co. is too rough and broken for cultivation.

Farming, iron mining, and the manufacture of iron from the ore, constitute the leading pursuits; and the immense mineral wealth of this section must for centuries continue to afford an object of profitable investment. In the infancy of the settlement, and until the supply became exhausted, the manufacture and exportation of lumber and staves to the Quebec market formed the leading, and, in some neighborhoods, almost the sole, objects of industry. Rafts of great size were formed in the coves and sheltered points along the lake shore, and were wafted by sails and oars to the Richlieu River, and down that stream and the St. Lawrence to Quebec, where they were transferred to ships for the British market. The completion of the Champlain Canal gave a new impulse to lumbering; but the timber suitable for exportation is now nearly exhausted, except on the extreme w. borders of the co. The logs of this latter region are floated down the Saranac,

¹ The name Adirondack is strictly applied only to the group of elevated peaks of which Mt. Marcy is the center, but by common usage it is now made to comprehend the whole system of mountains s. of the Mohawk.

² Pron. bo-kwet. Probably from the French "Boquet," a trough. It is also said to have been named from Henry Boquet, an English officer; but the name appears on French maps previous to his residence in the country.

Racket, Hudson, and other streams, to some convenient place for sawing, and the lumbering, within the last few years, have greatly increased in the woody sections of the State, and about a dozen of them are located in this co. The iron manufacturing business of this county was commenced at Willsborough Falls in 1801,² and now forms one of the leading occupations of the people. Iron ore is exported from this co. in large quantities to Pittsburgh and other localities, to be mixed with other ores.³ The manufacture of sash and blinds, nuts, pulleys, and other articles of pine and cedar, starch, paper, and black lead, receives considerable attention. Ship-building, to some extent, has been carried on in Essex and Willborough.

The county seat is located at Elizabethtown,⁴ situated upon the Boquet, about 8 mi. w. of the lake. It contains the courthouse, jail, and county clerk's office.⁵ These buildings are plain and substantial. The poorhouse is located upon a farm of 100 acres, in Essex, 10 $\frac{1}{2}$ mi. S. E. of Elizabethtown. The average number of inmates is 70, supported at a cost of 62 cts. per week each. The farm yields a revenue of about \$1,200.⁶

There are 2 papers now published in the county.⁷

In 1609, Samuel Champlain, with two attendants, accompanied a party of Canadian Indians on an expedition against the Five Nations. On the 4th of July his party entered the lake which now bears his name, and on the 30th they met their enemies. A sanguinary battle ensued, the fate of which was decided by the firearms of the whites, then for the first time used within the limits of the State. This act of unprovoked hostility on the part of Champlain laid the foundation for the long and bloody wars between the Five Nations and the French, and rendered the former the willing and steadfast friends and allies of the English. The whole region bordering upon the lake was claimed, by constructive title, by both France and England; and during the wars that ensued it became the great battle ground for supremacy, and the principal highway for war parties in their mutual incursions upon the defenseless frontier settlements. Fort Frederick was erected by the French at Crown Point in 1731. This measure was met by renunciation, but no open resistance, on the part of the English. Previous to the erection of the fort, French settlements had commenced in various places along both shores of the lake. These settlements had made considerable progress,

¹ \$5000 was appropriated in 1853, and \$5000 in 1854, for improving the log navigation of the Au Sable River. A highhouse has been erected at Split Rock by the General Government. The proposed Sackett Harbor and Saratoga R. R. has been surveyed across the S. corner of the co., and another route has been projected from Plattsburgh to Whitehall; but there is little prospect of either of these lines being so finished.

² In that year George Throop and Levi Higby, in connection with Charles Kane, of Schenectady, began the manufacture of anchors at Willsborough Falls. For the first 10 years the ore was obtained in part from Canada, but principally from Vermont. A bed at Esbin Harbor was the only one then known within the co. Mill and steamboat iron were afterward made, and the foundry was finally converted into a forge. Early in the present century W. D. Ross erected a rolling mill on the Boquet, for making nail plates for the factory at Fair Haven, Vt. About 1809, Archibald McIntyre and his associates erected works on a branch of the Au Sable, in the present town of N. Elba, designated as the "Elba Iron Works," which were at first supplied from the vicinity, and afterward from the Arnold mine in Clinton co. The forge was abandoned in 1814, after several years of prosperous business. The iron interest rapidly extended after the completion of the Champlain Canal, and several large manufactories were erected in the valley of the Au Sable and the surrounding region. The forges, rolling mills, and nail factories of this section are among the most extensive of the kind in the country. Bar, pig, and bloom iron of superior quality are produced in large quantities. Within a few years, anthracite coal has nearly superseded the use of charcoal in the furnaces along the lake shore. These establishments afford a home market for a large part of the agricultural products of the co. Most of the abridgments and facts are condensed from *Watson's Ag. Survey of Essex Co.*, 1852, p. 814.

³ The principal ores in this co. are magnetic, and they are separated from the stone by water and by magnetic machines. Hundreds of tons of iron sand are collected upon the shores of Lake Champlain, and sold to the N. Y. stationers.

⁴ David Watson and John Savage, of Wash. co., were appointed commissioners to locate a site for the co. buildings, which were to be erected under the care of 3 commissioners appointed by the supervisors. The first co. officers were Daniel Ross, *First Judge*; Stephen Caylor, *Clerk*; Thos. Stowers, *Sheriff*; and Wm. Gililand, *Sergeant*.

⁵ When the co. was formed, the new blockhouse in Essex, then Willsborough, was used as a courthouse and jail. By an act passed April 7, 1807, Elizabethtown was selected as the co. seat, and to this place the courts and clerk's office were transferred upon the completion of the proper buildings, in 1811.

⁶ This establishment is old, and in some respects its execution, but it is so keen as extremely well adapted to this respect is one of the best in the State.

⁷ *The Boquet*, the first paper in the co., was started at Elizabethtown, about 1810, by Luther M. Allen. *The Essex Patriot* was published at the same place in 1817-18, by E. and O. Person.

The Essex County Times was started at Keeseville, by Wm. Livingston, and in 1843 sold to— "Managers of the Times," and continued about 15 months. It was published by "The Boquet" press brought from Skaneateles, and discontinued.

Another paper was commenced at Elizabethtown in 1819, by D. Truitt, and removed to Keeseville in 1824, and continued 14 months.

The Elizabethtown Post was established by R. W. Ayer, at Keeseville in 1831, and was subsequently and finally merged in the Northern Standard, of Keeseville.

The Keeseville Herald was commenced in 1824, by J. H. Allen, and soon after passed into the hands of A. H. Allen, by whom it was continued, with a few interruptions, until 1841.

The Keeseville Argus, edited by Abner H. Timmons, was begun about 1831, and continued until its discontinuance in 1841.

The Essex County Republican was commenced at Keeseville in 1840, and is now published by J. H. Timmons.

The Au Sable River Gazette was started at Keeseville, in 1817, by D. Truitt, and continued during a short period.

The Old Settler, was commenced at Keeseville, by J. H. Allen in 1841, and was afterward continued by J. H. Allen, until 1849.

The Northern Gazette was started at Keeseville in 1814, and continued several years.

The Northern Standard was established at Keeseville in 1841, by A. W. Loring, and is now published by A. W. Lansing & Son.

The Essex County Republican was started at Essex, in 1822, by J. K. Ayer, and was continued by him, until 1841, by Watson & Person, until 1841.

The Republican was started in 1841, at Essex, by Cox, M. Bailey, and continued 1 year.

The Westport Patriot and Essex County Advertiser was commenced in 1846, at Westport, by D. Truitt.

The Essex County Patriot was issued at Essex, about 1847, by A. H. Allen. It was changed to *The Westport Patriot*, and continued 1 year 7 months. *The Essex County Times* was published at Westport in 1841.

and thriving villages had sprung up, before they were finally broken up by invading armies. Still more extended schemes of settlement were planned, and extensive grants of land were made upon the same condition as the French grants in Canada.¹ Soon after their first occupation, the French caused a survey of the lake and its shores to be made by Sieur Anger, surveyor to the King; and the work seems to have been carefully done. In 1755 the French advanced 12 mi. nearer to the English settlements, and commenced the fortification of Ticonderoga upon a point that entirely commanded the passage of the lake. The fort was named by them "*Carillon*;"² but it is now generally known by the Indian name of Ticonderoga. Upon it vast sums of money were afterward expended by both the French and English, and it became the most formidable fortress in America. The French here made a stand against the advances of the English; and when at length it was found to be no longer tenable, Crown Point and all the posts along the lake were at once abandoned.

The repeated incursions of the French and Indians into the English settlements, and the continual advancements of the French military posts, at length aroused the attention of the English Government and led to the conviction that the very existence of the frontier settlements depended upon the complete overthrow of the French power in America. One of the great expeditions of 1755 was directed against Crown Point. The English troops, under the command of Gen. Lyman, built Fort Lyman—afterward Fort Edward—on the Hudson, and, under Sir Wm. Johnson, who assumed the command, advanced to the head of Lake George. Here, learning that the French were fortifying Ticonderoga and that they had received large reinforcements, Sir William chose a commanding position and fortified his camp. In the mean time, Baron Dieskau, the French commander, at the head of a superior force, endeavored to cut off his communication with Fort Lyman. A body of provincial troops, under Col. Williams,³ of Mass., and of Indians, under the famous Mohawk chief Hendrick, thrown out as an advance guard by Sir Wm., fell into an ambush, and the whole party were cut to pieces, and the two leaders killed. The French immediately attacked the English camp, but were repulsed with great loss, and the retreating fugitives were mostly killed or taken prisoners by a party of fresh English troops from Fort Lyman. Sir Wm. did not follow up his success, but spent the remainder of the season in constructing Fort Wm. Henry on the site of his camp, leaving the French to strengthen their works at Crown Point and Ticonderoga without molestation. No general expedition was projected during 1756, and the only active warfare was carried on by adventurous parties of rangers.⁴

From this time to the close of the war, and again during the Revolution, this eo. was the theater of important military events. We have space only for a brief chronological recapitulation of the principal ones as they occurred. The partisan warfare, with varying success, continued through the winter and spring of 1756-57. In July, Montcalm, Gov. of Canada, assembled 9,000 men at Ticonderoga, and marched to the head of Lake George, for the purpose of reducing Fort Wm. Henry; which object he accomplished Aug. 3.⁵ In the summer of 1758 an expedition was fitted out against Ticonderoga, and was intrusted to the command of Gen. Abercrombie. On the 6th of July he crossed Lake George with 17,000 men; and on the 6th the advanced guard of his army was surprised by the French, and many killed, among whom was Lord Howe,⁶ second in command. On the 8th the English army endeavored to take the fort by storm, but were repulsed with a loss of 2,000 men. In 1759, Gen. Amherst, at the head of 12,000 men, proceeded to invest Ticonderoga. The French troops having been mostly withdrawn for the defense of Quebec, the whole fortress was dismantled, and abandoned on the 30th of July. Crown Point was soon after abandoned, and the whole region came into the undisputed possession of the

¹ A seignior, extending 3 leagues along the Lake shore and 2 leagues back, was granted, June 13, 1757, to Sieur Louis Joseph Robert, the King's storerooper at Montreal. Its northern boundary was to be half a league below the "*Beaupre*" (Beauport) River, and its southern 2½ leagues above. This territory embraced the present town of Essex and a large part of Willshorough. Another seignior, extending 6 leagues along the lake and 3 back, was granted, Nov. 13, 1758, to Michael Chartier de Lotbiniere. It was called "*St. Anne's*," and embraced the present towns of Ticonderoga, Crown Point, and Schuon. Settlements which commenced upon this grant were broken up by the English armies. Most of the seignior was granted to officers and soldiers of the English army, in accordance to his majesty's proclamation of Oct. 7, 1763. After the cession of Canada, the French proprietor presented his claims to the English Government, with no other effect than to create a considerable temporary alarm among the English settlers.

² See page 304.

³ On his way to the frontiers, Col. Williams stopped at Albany,

and made his will, leaving a sum of money to found a free school in Western Mass. This legacy founded and gave the name to Williams College. In 1851 the alumni of the college erected a monument to his memory on the spot where he was killed.

⁴ The most enterprising of these rangers were Maj. Israel Putnam and Robert Rogers. The party commanded by the latter officer consisted of old hunters, accustomed to all kinds of hardships and privations. Among his officers was John Stark, afterward Gen. Stark of the Revolution. These parties hung upon the outskirts of the French forts, took off their sentinels, burned their villages, killed their cattle, destroyed their herds, and annoyed them in every possible manner.

⁵ See page 608; *Lossing's Field Book of the Revolution*; *Bancroft's Hist. U. S.*

⁶ Brother of Sir William Howe and Admiral Howe, English commanders during the Revolution. Lord Howe was a brave and enterprising officer, greatly beloved by the army, and his loss was deeply deplored.

English. The works at Ticonderoga and Crown Point were enlarged and fortified at an expense of \$10,000,000.¹

By the provisions of the Treaty of Paris, signed Feb. 10, 1763, in consequence of which the British possessions in North America to the English, the latter government was to relinquish all its titles to land previously granted by the former. The proclamation of the King of Great Britain authorized the granting of the lands upon Lake Champlain to soldiers and sailors who served in the war. These incompatible acts led to much confusion. Overlapping titles and titles unavoidably followed; and the matter was not finally settled until after the Revolution. In the mean time, the controversy had the tendency to retard settlement, by causing delay in the titles by which the land could be held and conveyed.

Settlement was commenced upon the Boquet in 1755, under the auspices of Wm. G. a wealthy merchant of N. Y.² Through his agency, and that of other capitalists, several lake shore between the mouth of the Boquet and Crown Point were settled, mills and farms, and schools established. Mr. G. held a justice's commission, and for many years exercised judicial authority.³ The settlers whom he induced to locate upon his estate were mostly English.

After the cession of Canada the great fortresses on the lake were allowed to fall into a state of decay, and were held by only small bodies of troops. Upon the receipt of the news of the commencement of hostilities at Lexington, a small body of troops, known as "Green Mountain Boys," under Col. Ethan Allen, surprised and took both Ticonderoga and Crown Point in May, 1775. During the summer and autumn of the same year the expedition, under Schuyler and Montgomery, against Canada, passed down the lake, and returned the next spring unsuccessful. During the summer of 1776, naval forces were organized upon the lake by both the British and Americans, the latter under the command of Benedict Arnold. In an engagement that ensued, the Americans were defeated, and their remaining vessels were obliged to take refuge under the guns of Fort Ticonderoga. Crown Point was dismantled, and the stores removed; and soon after it was taken possession of by the British. Mr. Gilliland and the colonists ardently embraced the American cause, and materially aided Montgomery's army in its advance on Canada, by furnishing provisions, and, on its return, by affording relief to the sick and wounded.⁴ Mr. G.'s estate was wasted by both friends and foes, and finally the whole settlement was broken up by Burgoyne.⁵

Burgoyne landed on the banks of the Boquet, June 21, 1777, and spent several days in conference with the Indian tribes; and on the 27th the invading army advanced to Crown Point. On the 30th they invested Ticonderoga; and on the night of July 4 they took possession of "*Sage Loaf Hill*," (now Mt. Defiance,) and erected upon it a battery of heavy guns, completely commanding the fort. On the night of the 5th the Americans hastily embarked their stores and munitions of war upon bateaux, and sent them up to Skenesborough under convoy, and the main body of the army escaped into Vt.⁶ Both parties were quickly pursued, and the tide of war slowly and silently rolled southward, beyond the limits of the co.

In Sept. Gen. Lincoln, at the head of a body of militia stationed at Manchester, Vt., made an attack upon these works, took Mts. Hope and Defiance, released 100 American prisoners, took 200 of the enemy, and captured an armed sloop, several gun boats, and more than 200 bateaux. The fort was not taken. After the surrender of Burgoyne the place was dismantled, and the garrison retreated down the lake. The rear division of their boats, with 50 men and a large quantity of

¹ The fort and field works at Ticonderoga spread over an area of several miles, and the fortress at Crown Point embraced seven acres. The ruins of these works now visible still attest their extent and magnitude.

² Mr. Gilliland at first designed to lay the foundation of a vast baronial estate; and hence he sold no land, but leased it on the most favorable terms.

³ A convention of the settlers was held March 17, 1775, (St. Patrick's Day,) and a local independent government was adopted. The management of affairs was intrusted to a moderator, two supts. of roads and bridges, three assessors of damages, and a town clerk. Just before the Revolution, a scheme was devised to form a separate colonial government, embracing all the territory north of Mass. and between the Connecticut and St. Lawrence Rivers. Philip Skene, the founder of "*Skene's Inhabitants*," (now Whitehall,) is believed to have been the leading spirit of this movement, and his appointment as gov. of the forts of Ticonderoga and Crown Point in June, 1775, seems to give color to this belief. See *Journals of Congress*, Jan. 8, 1775; *Walt Whit's*, by *Sturges*, *Tr. by*, Nov. 1852, p. 64.

⁴ The capture of the stores and of the animals brought upon the lake, was of more importance to the Americans, as it supplied them with every kind of necessaries during the remainder of war.

⁵ Gen. Carlton offered a reward of \$500 for the delivery of Gilliland in Canada. Sheriff White, of Tryon co., and a party

of Tories and Indians, who attempted to capture him, were the only lives captured and sent to the Schuylkill.

⁶ Mr. G. assisted Arnold in the preparation of the plan, to the extent of his ability; and, in return for his services, Arnold, by an arbitrary stroke of a pen, gave him the farms, mills, and stores, and many valuable pieces of property, as a memorial to Congress in 1777, for his services. It is a faithful and prophetic but unfulfilled prophecy, that he should not in time, but it did not yet come true. He died in 1799, bursting with pride, and in a state of insensibility, and never ought to have been a strong man, or a man of any consequence, enough to obtain from you, the assistance of a man of your temerity, if such a case, indeed, ever occurred. He was a man, to you, he is a man, who has done you a great deal of good; and many people thank you for it, and you are a generous man, in a peculiar manner, for you have given them the means of living, and more money by the way, than they could have had, if they had not your assistance. You have given them the means of living, and more money by the way, than they could have had, if they had not your assistance.

⁷ A heavy chain 1000 feet long, and 10 inches diameter, was cast across the lake by the Americans, and the British were prevented from passing it. The chain was cast by the Americans, and was used in this expedition. The chain was cast by the Americans, and was used in this expedition. The chain was cast by the Americans, and was used in this expedition.

military stores, were captured by a party of "Green Mountain Boys" under Capt. Ebenezer Allen. In 1780, Gen. Haldeman, with a party of British soldiers, advanced to Ticonderoga and occupied it for some time. Maj. Carleton here made a diversion in favor of Sir John Johnson, by an attack upon Forts Anne and George. In 1781 the British fleet several times entered the lake, but retired without accomplishing any thing.¹ In 1784, Gilliland returned to his ruined settlement and endeavored to retrieve his waning fortunes. Relinquishing his ideas of manorial greatness, he offered his lands for sale; but adverse lawsuits and treacherous friends soon dissipated the remnant of his wealth and brought his existence to a miserable close.² The progress of settlement at first was not very rapid. In 1795 there were in Clinton co.—then embracing Essex—but 624 legal voters. From that time forward, however, settlement progressed with great rapidity, and several public roads were opened to facilitate it.³ Soon after the war an arsenal was erected at Elizabethtown. During the patriot excitement it was robbed; and since, it has been sold.

CHESTERFIELD—was formed from Willsborough, Feb. 20, 1802. It lies in the s. e. corner of the co., upon the shore of Lake Champlain. Its surface is broken and mountainous. The Jay Mountains, a northern spur of the Adirondack Range, extend northward through the w. part. This range is a continuous, high, rocky ridge, without a single pass, forming an almost impassable barrier between Chesterfield and Jay. The main Adirondack Range extends through the center of the town from s. w. to s. e., ending at Trembleau Point, a high, rocky bluff 1200 to 1500 feet above the surface of the lake. Bosworth Mountain and Poke-a-Moonshine, each attaining an elevation of about 3000 feet, are the two principal peaks within the limits of the town. The s. e. part is hilly. The s. e. part is a rolling table land, with a light, sandy, and unproductive soil. There are several lakes in the interior, the principal of which are Augar and Butternut Ponds. Not more than one half of the surface is susceptible of cultivation. The principal valuable minerals that have been found are iron, graphite, and a beautiful light brown marble. Schuyler Island, in the lake, belongs to this town. The Au Sable River, upon the s. border, affords a large amount of hydraulic power, and some very attractive scenery. The falls at Birmingham have a descent of 90 feet, including the rapids above the main fall.⁴ **Keeseville** (p. v.) is situated on both sides of the Au Sable River, its northern part being in Clinton co.⁵ It is the seat of extensive iron works and other important manufactures. The iron from the ore is made into nails, horseshoes, merchant iron, edge tools, and machinery. The village has a bank, an academy, and 5 churches. Pop. according to last census, 2569, of which 1370 were in Chesterfield. **Port Kent**,⁶ (p. v.) on Lake Champlain, contains 25 houses; **Port Douglas** 5; **Port Kendall** 6; and **Birmingham Falls** 6. Matthew Adgate and sons came into town about 1792.⁷ The first church was Cong.; and the first preacher was Rev. Cyrus Comstock.⁸

CROWN POINT—was formed March 23, 1786, and named from the old French fortress⁹ situated on the lake. Elizabethtown was taken off in 1798, Schroon and Ticonderoga in 1801, and Moriah in 1808. It lies upon the shore of Lake Champlain, s. e. of the center of the co. A strip of nearly level land, about 4 mi. wide, extends along the lake shore. The central part of the town is broken, the hills gradually rising into the Kayaderosseras Mts. in the w. Putnam's Creek, the principal stream, takes its rise in the ponds and lakes among the mountains, and upon its course are numerous falls, furnishing an abundance of water power. The soil upon the lake shore is a deep, rich, clayey loam; and in the interior it is of a light, sandy nature. Abundance

¹ For a long time there was a great mystery connected with these movements, which was afterward explained by the publication of the negotiations which took place between the Gov. of Canada and the "Vt. Council of Safety."

² For some time he was confined in N. Y. for debt; but, regarding his freedom, he returned to the scene of his former enterprise. Here meeting with new disappointments and troubles, and becoming partially deranged by his misfortunes, he wandered into the wilderness and perished of cold and exposure.

³ Among these public roads were one from Willsborough Falls to Peru, another, known as the "90th State Road," from Sandy Hill, along the Schenon Valley, to Canada Line; and another across the s. w. corner of the county from Canton to Chester. In 1790, Platt Rogers established a ferry across the lake, at East Harbor. He also built several roads, and a bridge over the brook at Willsborough Falls. For constructing these and other public works Rogers and his associates received a grant of 75,000 acres of unappropriated land.

⁴ See page 255.

⁵ The first settler of Keeseville was Robert Hoyle, who built

the first bridge and sawmill and kept the first store, in 1802. It was first called "*Long Point*." About 1812 the property came into the hands of Richard and Oliver Keese and John W. Anderson, who erected a wooden factory and iron works in 1813. The name was first changed to "*Anderson's Falls*," and afterwards to Keeseville. See Clinton co. town of Au Sable.

⁶ Both Port Kent and Keeseville are centers of extensive and important iron districts.

⁷ Alva Bosworth, Elisha Briggs, Edward Palmer, Levi Cooley, Dr. Clark, John and Berj Macomber, John Page, and ——— Norton, were among the first settlers. The first child born was Thos. Bangman, and the first death that of Abel Dandy.

⁸ The census reports 5 churches; F. W. Bap., M. E., Presb., Prot. E., and B. C.

⁹ The pond which contains the ruins of this fortress is supposed to have been an important commercial mart previous to the French War; but now it contains only a single farm house.

of rich iron ore is found; and in connection with it are beds of lava, quartz, Graphite and black clouded marble are also found in great abundance. One of these is a mineral spring, containing sulphates of lime and magnesia. The iron is carried on to a great extent; there are also establishments for the manufacture of iron, saw-pails; sash and blinds, and woolen goods. **Crown Point**, (p. v.) in the n. part of the Co., Creek, contains 2 churches and about 60 houses. **Hammonds Corners**, (p. v.) 500 and **Irondale** (late "P. of B. H.") 20. The French made the first settlement at a village on the point. The country around Fort St. Frederick, upon the point, seems to have been one of the chief of the villages, the remains of which are still visible.¹ All these settlements were obliterated by the French War of 1755-60. During the peace which followed, settlements were again made, but in 1777 were again destroyed.² Religious services were early held in the chapel of the Fort, and were continued during its military occupation.³

ELIZABETHTOWN—was formed from Crown Point, Feb. 12, 1798, and was named in compliment to Elizabeth, wife of Wm. Gilliland. Parts of Meriah and Kew, were taken off it, 1808, and Westport in 1815. A part of Jay and Lewis were annexed Jan. 31, 1844, and a part of Lewis, Nov. 11, 1854. It is an interior town, lying a little s. of the center of the co. The Boquet Mts. occupy the n. w. and the Schron Range the s. e. corner of the town. Raven Hill, an off-shoot from the former range, in the s. e. corner, is 2,100 feet above the level of the Ocean; of the Valley," the highest peak of the latter range, has an elevation of 2,500 (or 3,000) feet. A perpendicular precipice of 700 feet lies on the northern declivity of this mountain. The Boquet River flows in a s. e. direction through near the center of the town. Its valley, one-fourth of a mile to a mile in width, comprises the greater part of the arable land. Not more than one-fourth of the surface is susceptible of cultivation. Extensive beds of iron ore are found in various parts of the town. In the s. e. part, a hill, 200 feet high, covering 40 acres, is supposed to be nearly a solid mass of iron, except a slight covering of drift. An extensive bed of kaolin, or porcelain clay, is also found in town. The manufacture of iron is one of the leading pursuits; there are several forges in town. The soil is a sandy or gravelly loam. **Elizabethtown** (p. v.) is pleasantly situated upon the Boquet River, near the foot of several high peaks. It is the co. seat, and a place of considerable trade. Pop. about 500. **Kew Russia** (p. v.) contains about 100 inhabitants. Among the first settlers were Jonah Hancock, Sampson Smith, Herman and Joel Finney, Wareham Barber, Nathan Lewis, Hez. and Ira Phelps, Wm. Kellogg, and Gardner Simonds, who came in about 1792. The first school was taught by Dr. Kinneale. The first church (Bap.) was organized in 1796 or '97.⁴

ESSEX—was formed from Willsborough, April 3, 1805. It lies upon the shore of Lake Champlain, s. of the center of the co. The surface is rolling in the n. and mountainous in the w. Boquet Mt., in the n. w. part, has an elevation of about 1,000 feet above the lake. Split Rock, the extremity of the Schron Mountain Range in the s. e. corner of the town, has already been described.⁵ The Black River limestone crops out in this town, and is used both for building purposes and for the manufacture of lime. The Boquet River flows northerly through near the center of the town. Upon it are several falls, affording abundance of water power. The soil is a clayey loam upon the lake, and a light sandy loam among the mountains. Manufactures, consisting of wrought iron, nails, spikes, lumber, and woolen goods, are carried on. **Essex** (p. v.) has a population of about 700. **Whallopsburgh** (p. v.) 250, and **Boquet** 200. The town was first settled by Wm. Gilliland, in 1765.⁶ Wm. McAnley, a relative and son-in-law of Mr. G., located upon the site of the present village of Essex.⁷ This settlement was begun during the Revolution.⁸ The first church (Prot. L.) was organized in 1805.⁹

¹ The Scotch traveler Kalm mentions the existence of this early settlement, and the "Journal of Major Rogers" speaks of villages, well tilled farms, herds of cattle, and fields of grain. Chamney Point, upon the eastern shore of the lake, derives its name from the remains of early habitations found there by the present race of settlers.

² Among the first settlers after the Revolution were George Trimble, James Morrow, Aaron Townsend, Dennis Mowbray, Andrew Hardy, Saml. East, and Elisha Rhodes. The first mill was a wind mill, a short distance s. of the fort. James Morrow erected the first mill and kept the first inn and store after the Revolution. Washington visited Crown Point in 1784.

³ Brog, Webster was the first preacher after the Revolution. The first church (Cong.) was organized in 1804. The census reports 4 churches; 2 Cong., M. E. Union.

⁴ Elizabethtown was named "Flowers Valley" by the first settlers, and is now locally known as "The Valley."

⁵ The census reports 3 churches; Bap., Cong., M. E.

⁶ See page 295.

⁷ A blackhouse was built on the site of the present village, in the sequence of the above, in 1770. It was destroyed by the British in 1779, upon the capture of the fort. The site is now occupied by a cornfield, and the ruins of the blackhouse are still to be seen. The buildings at the village of the same name were destroyed by the British in 1777.

⁸ See page 295, 1-3.

⁹ Among the first settlers of Essex were John and Elizabeth (first merchant and mill owner), James and Elizabeth (first miller), Stafford, bond, Murray, Henry and John (first blacksmith), and first physician, David Appleton, and the first school teacher, John Payne, and James Eldridge. The first church was organized in Essex Town. The first mill (water) was built in 1777, by James Morrow.

¹⁰ In Oct. 1777, in this town, the "Black Regiment" of the Continental Army was organized. It was composed of the "M. E. Boys," under Capt. Ebenezer Allen, and the "M. E. Boys," under military stores were captured.

¹¹ The census reports 6 churches; M. E., Wes. M., and 2 Bap., 2 Presb.

JAY¹—was formed from Willsborough, Jan. 16, 1798. A part of Keene was taken off, in 1808, of Wilmington (as "*Dansville*") in 1821, and a part of Elizabethtown in 1844. Parts of Peru (Clinton co.) and Chautaugy (Franklin co.) were annexed, March 22, 1822. It lies upon the s. border of the co., w. of the center. The Au Sable Mts., extending through the w. part, gradually decline toward the s. Mts. Hamlin, Clark, and Bassitt, each 2000 feet above tide, are the highest peaks; the Jay Mts., a s. spur of the Adirondacks, lie along the e. border. The extreme s. angle of the town is occupied by some of the most lofty and rocky peaks of the Adirondacks. The e. branch of the Au Sable flows through near the center of the town. Veins of black lead have been found, but not worked. Iron ore is found in abundance. The soil is a light, sandy and gravelly loam. A mineral spring, near Upper Jay, contains iron and sulphur. The manufacture of bar iron, nails, and bloom iron is extensively carried on. **Au Sable Forks**, (p.v.) an iron manufacturing village, contains 70 houses; **Jay** (p.v.) 50, and **Upper Jay** (p.v.) 20. Nathaniel Mallory was the first settler, about 1796.² The first church (Bap.) was formed in 1797; the first preacher was Solomon Brown.³

KEENE—was formed from Elizabethtown and Jay, March 19, 1808. North Elba was taken off in 1849. It extends from the center of the co. toward the s. and w. The Adirondack Mts. extend through the center of the town and occupy nearly its entire surface, leaving little or no arable land. The principal peaks are Mt. Marey, 5467 feet above tide; Long Pond Mt., 3000 feet; and Pitch Off,⁴ 2500 feet. The Au Sable, flowing s., forms the principal drainage. The valley is so narrow that there is scarcely room for a road between the mountain and stream; and freshets often occur that sweep every thing before them.⁵ Lake Colden, in the s. w. part, is 2,851 ft. above tide. Iron is found in numerous veins along the course of the river, and is manufactured to some extent. **Keene** (p.v.) contains about 30 houses. The first settlement was made about 1797.⁶ The M. E. church was organized in 1800, and the Cong. in 1815.

LEWIS—was formed from Willsborough, April 3, 1805, and named in honor of Morgan Lewis, then Governor of the State. Parts of Elizabethtown were taken off in 1844 and 1854. The Adirondack Mts. occupy the s. w. and the Boquet Mts. the s. e. part of the town. The latter range is not a continuous ridge through this town, but consists of several isolated peaks, the principal of which is Mt. Discovery, 2000 feet above tide. The remaining parts of the town consist of steep rocky hills and narrow valleys, and not more than one-third of the surface is susceptible of cultivation. Numerous beds of iron ore are found; but none have been extensively worked. The soil is a sandy and gravelly loam. In the s. w. part is a mineral spring of some repute. **Lewis** (p.v.) contains 130 inhabitants. Wm. Hinckley made the first purchase of land and the first settlement, in 1796.⁷ The first church (Cong.) was formed in 1804; and the first preacher was Rev. Mr. Burbank.⁸

MENEVERVA—was formed from Schroon, March 7, 1817; a part of Newcomb was taken off in 1828. It is the s. e. corner town of the co. Its surface is a high, broken upland, bordered by mountain ranges. The Boquet Range traverses the s. w. border, and the Schroon Range the s. e. The intermediate portion is hilly, with a mean elevation of 1200 to 1500 feet above tide. Nearly the whole town is still covered with forests, the settlements being confined to the s. e. corner. The soil is cold and hard, and only moderately productive. On Orrin West's farm is a cave of considerable extent. Lumbering is the leading pursuit. **Olmsteadville**⁹ (p.v.) contains 20 houses; **Minerva** is a p.o. The first settlers were Ebenezer West, and his sons Nathan, Ebenezer and John, in 1804.¹⁰ The first church (Bap.) was formed in 1810, by Elder Fort.¹¹

MORIAH—was formed from Crown Point and Elizabethtown, Feb. 12, 1808. A part of

¹ Named from John Jay, then Governor of New York.

² Among the other first settlers were J. W. Southwood, Joseph S. Pratt, John Burnett, Robert Otis, Ezekiel Lockwood, Nathl. Ray, John B. Way, and Joseph Fowler. Wm. Mallory built the first mill.

³ The census reports 6 churches; Bap., Cong., and 4 M. E.

⁴ A perpendicular cliff on the north side of this mountain, 3000 to 3500 feet high, gives to it its singular name.

⁵ A most destructive flood occurred from excessive rains, Sept. 29, 1836, and the damage which this occasioned was increased by the breaking away of the State dam across the s. branch of the Au Sable, in this town. The testimony relating to this accident, forming a vol. of 308 pages, was printed by order of the Canal Board, in 1838.

⁶ Among the first settlers were Bad, Payne, Timothy Pangburn, Ches. Roberts, Zaleski Hurd, Eli Hall, Thos. Taylor, Gen. Reynolds, and David Graves. The first child born was Betsey Payne, the first marriage, that of Thos. Dart and Cynthia Griswold, and the first death, that of Eli Bostwick. Asa A. Andrus taught the first school, and Zaleski Hurd kept the first inn.

⁷ Among the other early settlers were Dea. Putnam, Samuel Bishop, Charles, and, and Noah Lee, Edmund H. Holcomb, Hooker, and Timothy Woodruff, Ziba Westcott, and Ziba Dugg. The first child born was Oliver Holcomb; the first marriage, that of Timothy Woodruff and Eunice Newell; and the first death of an adult, that of Mrs. John Smith. Levi Fossum taught the first school.

⁸ The census reports 1 M. E. church. A M. E. church was formed in 1808.

⁹ There is an extensive tannery at Olmsteadville, which makes the village.

¹⁰ Among the other first settlers were Wm. Hill, James mill owner, Thos. Leonard, Richard Miller, Abner Talmon, James Cox, Philo Hawley, and A. P. and Asa Morse. The first settlements were chiefly made along the line of the Canton and Chester Road. The first child born was Francis West, the first marriage, that of Richard Miller and ——— West; and the first death, that of Elizabeth West.

¹¹ The census reports 3 churches; Bap., M. E., R. C.

Newcomb was taken off in 1828, North Hudson in 1848, and a part of Westport was taken off April 9, 1849. It lies upon the shore of Lake Champlain, s. of the center of the co. A narrow strip of level land extends along the shore of the lake, from which the surface gradually rises to a height of about 500 feet, where it spreads out into a hilly plateau, rising gradually into mountains to the w. border. About one-half of the surface is susceptible of cultivation. The soil upon the level is a clayey loam, and in the hilly regions a light, sandy loam. This town is very rich in minerals. Fourteen veins of iron ore have been opened, producing iron of a very superior quality; the supply seems to be inexhaustible. Black lead, and a beautiful variety of *crystallographic* serpentine, have been found. The manufacture of iron forms one of the leading pursuits. **MORIAH** (pop. 1,000) is a Moriah Academy and a pop. of 275, and **PORT HENRY** (pop. 5,000) contains a pop. of 500. The first settlers after the Revolution were Wm. McKenzie, Abel Butler, James McKim, Leber Chapman, G. H. and John Havens, and Joseph Curtis.³ The first church formed was a Cong.⁴

NEWCOMB—was formed from Minerva and Moriah, March 15, 1828. It lies near the center of the w. border of the co. The Adirondack Range extends through the center of the town and occupies more than one-half of its entire surface. The principal peaks are Mt. Goodwin, Moore, Sandanona, and Henderson, each 3,000 to 5,000 feet above tide. The northern part of the surface is a broken upland, with a hard, sour, unproductive soil. Among the peaks on the mountains are numerous small lakes. The Preston Ponds, Lakes Henderson, Hart, and the pond, Harris, Dalia, Moose, and Ridge Pond, are within the limits of the town; and Lake O'Brien and the Chain Lakes are on the line of Hamilton co. The Adirondack iron beds, near Lakes Sanford and Henderson, are among the most extensive in the world. One of them has been opened upon the surface for a mile in length, 700 feet in width, and has been penetrated to the depth of 40 feet without any signs of diminution in quantity or quality of ore. It forms a barrier across the river, the water literally falling over an iron dam. This ore yields 75 per cent. of pure metal, is easily worked, and makes an admirable quality of iron. For the manufacture of steel it surpasses all other ores in America, and equals those of the most celebrated mines of Sweden and Russia. The mountainous character of this town, and its remoteness from the great routes of public improvement, have prevented the development of its immense mineral resources. There is very little tillable land in the town. **ADIRONDACK** has about 15 houses. The first settlement was commenced in 1816, by Joseph Chandler.⁵ A M. E. church was formed in 1843, and a Wes. Meth. in 1855.

NORTHE ELBA—was formed from Keene, Dec. 13, 1849. It lies upon the w. border of the co., s. of the center. The Adirondack Range occupies the s. part, and a branch of the Au Sable traverses the s. e. part. At the foot of Whiteface Mt. lies Lake Placid, a beautiful sheet of water, $\frac{1}{2}$ mi. long by $\frac{1}{2}$ broad, and nearly divided in the center by 3 islands. The noted Adirondack Indian Pass, partly in this town and partly in N. Elba, is a deep gorge between Mts. McIntyre and Wallace. The bottom of the pass is 2,800 feet above tide, and the mountains on each side are 1,000 to 1,500 feet higher. Wallace, forming the w. border of the pass, is bounded by a perpendicular precipice a mile in length and 800 to 1,000 feet in height. Mts. McIntyre, McMartin, and Sugar Loaf are each over 3,000 ft. high. Bennets, Conners, and Round Ponds are in the immediate vicinity. Avalanche Lake, on the n. line, is 2,901 ft. above tide. The central portion of the town is a hilly upland, and the s. w. part a rolling table land, known as "the Plains." The Au Sable and Saranac Rivers form the principal drainage. The soil is a thin, sandy and gravelly loam. The people are principally engaged in lumbering. **NORTH ELBA** and **SARANAC LAKE** are p. offices. Settlement was commenced about 1800, by Elijah Bennett.⁶ The first church (Cong.) was formed in 1824; and the first preacher was the Rev. Cyrus Constock.

³In 1852, 265,000 tons of ore were exported from Moriah to Penn. A. V. M., and E. M. The quantity contracted for exportation from this town, in 1853, amounted to 307,000 tons, of which 100,000 went to Penn., 100,000 to Mass., 50,000 to A. V., 100,000 Ohio, 100 to N. J., and 1000 to Mex.—*Tr. N. E. S. Jy. Sem.*, 1852, p. 827.

⁴The site and water power of Port Henry were granted to Ben. Peter in 1766. It is supposed that he erected a mill soon after, which was destroyed during the Revolution. After the war, he returned, and, in connection with Robt. Lewis of Albany, rebuilt the mill, which has remained up to a recent date. Some of the first farms in the co. were erected here in 1824, by Mr. James Dorr.⁵ It was a wild West country, and was used for the raising of furs of mink, and the raising of hollyhock, and agricultural implements. Several extensive authorities on fur-bearing have been put in operation.

⁵The first child born was Alex. McKenzie in 1783; the first marriage, that of John Ferris and Deborah Wilcox; and the

first death, that of John Asbury, both within 2000 ft. of Mt. Collins. In 1810, the first school was opened, and a Cong. church granted to Robert Lewis, April 18, 1814, by the State.

⁶The census reports of this town, Pop. M. E. 1855, 1860, 1870, and 1880.

⁷James Chandler, of this town, and Wm. Butler, of Keene, to reside in 1818. Among the other settlers were John C. Bissell, Abner Bissell, David Poirer, George Wallcut, and John Pomeroy. The first child born was Sarah Pomeroy, in 1810. It is thought that Abner Bissell and Robert Butler were the first deaths, that of Elizabeth Butler, in 1810, and that of John C. Bissell, in 1811.

⁸Among the other early settlers were Lemuel and John M. Hall, Nathan Bissell, and John C. Bissell, and John C. Bissell, James Pomeroy, and David M. Arthur. It is thought that the first child born was Sarah Pomeroy, in 1810, and that of Abner Butler, who died in 1810, and that of John C. Bissell, in 1811.

NORTH HUDSON¹—was formed from Moriah, April 12, 1848. It is an interior town, lying a little s. of the center of the co. The Boquet Mts. occupy the central and w. portions, the principal peaks of which are Dix Peak, 5200, and Nipple Top, 4900 feet high. The Schroon Mts. traverse the e. border of the town. There are numerous small lakes in town, the principal of which are Bull Pout, Mud, Boreas, and Clear Ponds. The soil is a light, sandy loam, and not more than one-eighth of the surface is arable. The Moriah iron district extends into the r. part, and the manufacture of iron forms a leading pursuit. **North Hudson** (p. v.) contains 15 houses; and **Dead Water Iron Works** (p. o.) 10. The first settler was Benj. Pond.² The first church (M. E.) was formed in 1838.

ST. ARMAND—was formed from Wilmington, April 23, 1844. It derived its name from the old French name of the Saranae River. It is the s. w. corner town of the co. Its surface is rolling and is inclined toward the s. w. The ridges extend in a s. e. and s. w. direction, and are 200 to 300 feet above the valleys. The average height of the town is 1500 to 1800 feet above tide. The Saranae, flowing in a s. e. direction, forms the principal drainage. Moose Creek, a tributary, flows through Moose Pond, a small lake covering an area of about 200 acres. The soil is a sandy and gravelly loam. The people are chiefly engaged in lumbering. **Bloomingdale**, (p. v.) in the s. w. corner, the only village, contains about a dozen houses. Settlements are of recent date. Among the first settlers were Daniel Crouch, Thos. and Antrim Peck, Geo. Lawrie, of recent date. Among the first settlers were Daniel Crouch, Thos. and Antrim Peck, Geo. Lawrie, Wm. Stranahan, Aaron Brimhall, and Ellis and Milton Goodspeed.³ The first church (Bap.) was formed in 1852.

SCHROON⁴—was formed from Crown Point, March 20, 1804. Minerva was taken off in 1817, and a part was reannexed to Crown Point, Feb. 26, 1840. It lies near the center of the s. e. border of the co. The w. and s. w. portions are occupied by the Schroon Range, and the s. e. portion by the Kayaderoseras Range. Mt. Pharaoh, the highest peak of the latter range, is 3000 to 3500 feet above tide. There are great numbers of other elevated mountain peaks, that have never been named. Not more than one-fourth of the town is susceptible of cultivation; and the greater part of the arable land is in the narrow valley of Schroon River. Schroon Lake is a fine body of water, 10 mi. long. Near the foot of Mt. Pharaoh lies a cluster of small lakes, the principal of which is Pharaoh Lake. Paradox Lake⁵ is near the center. The soil is a thin, sandy loam. Iron is found in various parts, and black lead has also been found. **Schroon Lake** (p. v.) contains 192 inhabitants. **Schroon River** is a p. o. Settlement was commenced in 1797, by Samuel Scribner, Thos. Leland, Moses Pettee, Benj. Bowker, and Simeon Rawson, all from New England.⁶ The first church (Bap.) was organized in 1830.⁷ Jehial Fox was the first preacher.

TICONDEROGA⁸—was formed from Crown Point, March 20, 1804. It lies upon the shore of Lake Champlain, and is the s. e. corner town of the co. The portion between Lakes George and Champlain is the extremity of a mountain ridge ending in Mt. Defiance, 750 feet above the surface of the lake. North of this a strip of level land, about 4 mi. wide, extends along the lake shore, from which the surface gradually rises into the mountainous region which forms its w. border. About three-fourths of the town is susceptible of cultivation. The outlet of Lake George, the principal stream, in the course of a mile and a half descends 150 feet; and as the water never freezes, and its quantity does not materially change during the year, it furnishes one of the most valuable water-powers in the State. The soil is a stiff clay upon the lake, a clayey loam in the center, and a sandy loam in the w. part. The manufacture of lumber,⁹ leather,⁹ and black lead¹⁰ is extensively carried on. **Ticonderoga**, (p. v.) or **Lower Falls**, contains 325 inhabitants. **Upper Falls** is a village of 40 houses, and **Ti Street** of 30. Settlements were begun in this town by the French, soon after the commencement of the fortress in 1755; but they were soon

¹ Named from its location upon the upper branches of the Hudson.

² Among the first settlers were Randall Farr, first innkeeper; Wm. Pond, Samuel Norton, Wm. Everett, Benj. Cummings, Euseb W. Sibley, Wm. Meloy, Timothy Chellis, Hezekiah Keppel, and Tens Walker. The first death was that of Mrs. Hallway, Jan. 17, 1804, the first school.

³ The first child born was Silas Crouch; the first marriage, that of Adrian Storm and Lovina Rough; and the first death, that of — Goodspeed.

⁴ This name is said to be a corruption of "Scharon," and to have been applied in honor of the Duchess of Scharon, favorite of Louis XIV. Some say Scharon is derived from an Adirondack word, signifying a child or daughter of the mountain.

⁵ The surface of this lake is so near the level of the Schroon River, which forms its outlet, that in seasons of flood the water flows into instead of out of it; hence its not inappropriate name.

⁶ Among the other early settlers were George Moore, Elijah Barfield, James Livingston, Geo. Whitney, Cornelius Travers, Abel Tapp, and John Bowker. The first child born was John T. Leland; the first marriage, that of John Scribner and Seleny Leland; and the first death, that of Mrs. Benj. Bowker. Clark Rawson taught the first school.

⁷ The census reports 4 churches; Bap., M. E., Presb., Episc.

⁸ The Indian name "Ticonderoga," or "Chouderoga," signifying "Brewing Water," and the French name "Cardon," signifying a "Chine of Bulls," were both suggested by the noise of the rapids upon the outlet of Lake George.

⁹ In 1852, 600,000 pieces of lumber were shipped from this point.

¹⁰ Above 30 tons of black lead are manufactured per year; and the vein of graphite seems inexhaustible.

broken up. During the French War many skirmishes¹ and one general engagement² took place in the town. The subsequent history of the fortress belongs to the general history of the country. Permanent settlement commenced immediately after the Revolution.³ The first church was St. Pauls, Prot. E.; and the first preacher, Rev. Mr. Harwood.⁵

WESTPORT—was formed from Elizabethtown, March 24, 1815. It lies upon the shore of Lake Champlain, near the center of the e. border of the co. The Schroon Mts. extend s. e. and s. w. through the town, occupying nearly all of the w. half. A wide valley extends w. from Northwest Bay, breaking the continuity of this range and completely separating the highlands at Split Rock from the southern continuation of the chain. The Boquet and its branches drain the s. part, and numerous small streams flowing into the lake drain the remainder. About one-half of the surface is susceptible of cultivation. The soil is clayey along the lake shore and sandy among the mountains. Iron, leather, and lumber are largely manufactured. **Westport**, (p. v.) formerly "*Northwest Bay*," contains the Essex Academy and 456 inhabitants. **Wadhams Mills** (p. v.) contains 25 houses. A small settlement was begun, and a mill built in the s. part of the town, before the Revolution. After that period, settlement was commenced by Charles Hatch, (first store and inn keeper,) Joseph Stacy, and Nathan Hammond.⁶ The first church (M. E.) was formed in 1800, and the first preacher was Rev. Cyrus Comstock.⁷

WILLSBOROUGH—was formed from Crown Point, March 7, 1788, and named from Wm. Gilliland. A part of Peru was taken off in 1792, Jay in 1798, Chesterfield in 1802, and Essex and Lewis in 1805. A part of Peru was reannexed to this town upon the formation of Essex co. in 1799. It lies upon the shore of Lake Champlain, s. of the center of the co. The surface is rolling and in parts hilly. A range of highlands and isolated hills marks the course of the Boquet Mts., ending in the cliffs which overlook Perou Bay. The Boquet River flows through the s. e. corner. East of the river the soil is clayey, and w. a sandy loam. The falls upon the Boquet furnish an excellent water power. Iron is found in places; and the Black River limestone crops out, from which both quicklime and waterlime are obtained. Leather, lumber, and iron are largely manufactured. **Willsborough Falls** (Willsborough p. o.) contains 300 inhabitants. Settlement was commenced by Wm. Gilliland, a merchant of New York, in 1765.⁸ Mr. G., in 1764, purchased a tract of 2000 acres, intending to convert it into a manor. He succeeded in laying the foundation of quite a flourishing settlement, which was broken up during the Revolution. In 1784, Mr. G. returned, and commenced selling his land to settlers. Joseph Sheldon and Abraham Aiken, from Dutchess co., became the first purchasers, and located in 1784.⁹ The first church (Cong.) was organized before 1800.¹⁰

WILMINGTON—was formed from Jay, March 27, 1821, as "*Dansville*." Its name was changed March 22, 1822, and St. Armand was taken off in 1844. It lies upon the s. border of the co., w. of the center. A branch of the Au Sable Mts. occupies the s. w. border of the town, and another branch of the same range lies between the Au Sable Forks in the e. part. The highest peaks, 2500 to 3000 feet high, lie in the s. part, and from them the surface declines toward the s. Wilmington Notch, in the s. w. corner, is a place worthy of note.¹¹ Copperas Pond, near the foot of Whiteface, covers about 100 acres.¹² Beds of iron ore are numerous. The soil is a sandy and

¹ Bales of rangers from the vicinity of Fort Wm. Henry often carried their petty warfare up to the very walls of the fortress. Among the partisan officers distinguished in this warfare were Maj. Robert Rogers, and Maj. Israel Putnam. The former named officer conducted no less than 25 parties to the invasion of this region. In 1758, at the head of a party of 180 men, he was attacked by a large party of French and Indians at short distance w. of the fort, and defeated, with the loss of 125 men. The remnant of the party escaped, but suffered greatly at hand before reaching a place of safety.

² See p. 298.

³ When the fortress of Ticonderoga was surprised by Allen, in 1757, its garrison consisted of 18 men, commanded by Capt. DuRoi. The military stores captured consisted of 120 iron cannon, 30 swivels, 2 10 inch mortars, 1 howitzer, 1 colubine, 10 boxes of musket balls, 3 cart loads of flints, 30 new carriages, a large quantity of shells, a warehouse full of materials for boat building, 300 stand of small arms, 10 casks of powder, 2 brass cannon, 20 bbls. of flour, 18 bbls. of pork, and a large quantity of other provisions.

⁴ Among the first settlers were Charles Hay, Isaac Kellogg, (first merchant,) Wm. Harbert, Wm. Wilson, (first millkeeper,) Nathl. Charles, Noah, and Manoth Miller, John Kirby, John and Robt. Hemannd, J. Josiah Ferris, Francis Arthur, Peter Deal, Elisha Holden, G. Fisher Shattuck, and Samuel Cook.

⁵ There are 3 other churches; Bap., M. E., and R. C.

⁶ Among the other first settlers were John Halsted, Jesse Brayman, John Stoughton, John and Boston E. DeL. Van A. Felt, Joseph Fisher, Adam Stancher, Joseph Stearns, and Jacob Southwell. The first death was that of Mr. West in 1781.

⁷ The census reports 23 churches, M. E., Cong. and Bap.

⁸ See pages 299, 301.

⁹ Among the first settlers were Aaron Fox, J. H. Jonathan Lynde, Martin Pope, Melchor and John Holtnecks, John and Wm. Marchesse, Hooper E. w. St. Philip Taylor, David B. G. S., Peter Payne, and Daniel Giddins. The first who located here [by — Scott, in 1787. The first death was that of J. S. Hyer, in 1788, Jonathan Lynde and St. Philip Taylor left the settlement, John Holtnecks the first store, and Paul Rosebault the first mill.

¹⁰ The census reports 3 churches; Cong., M. E., and Bap.

¹¹ Here the Au Sable is compressed to a height of 100 feet, and breaks through the mountain barrier. Whiteface rises 200 feet perpendicularly, upon one side, to a height of 2000 feet, and another mountain, upon the opposite side, but a little less in height. In the midst of its rapid and turbulent course, through this passage, the stream leaps down a perpendicular piece of 100 feet.

¹² Its waters are strongly impregnated with sulphate of iron, hence its name. Copperas is also found in the rocks in the vicinity, formed by the decomposition of iron pyrites; at some future time it will probably be manufactured for commercial purposes.

gravelly loam, and is moderately fertile. Whiteface,¹ belonging to the Adirondack Range, has an elevation of 4,855 feet above tide. **Wilmington** (p. v.) contains 20 houses. Settlement was commenced, near the close of the last century, by Thaddeus and Leonard Owen, and Paul Thayer.² The first church (M. E.) was formed in 1799.³

¹ Whiteface derives its name from a hard-bill, which has laid bare the rocks upon its s.e. slope, giving it a whitish gray appearance. This mountain is nearly isolated, and from its summit is obtained one of the finest and most extensive views in North N. Y.

² Among the other early settlers were Cyrus Wilson, Isaac Peck, Reuben and Daniel Hamblin, Dan. Ray, John Blanchard, Z. Gray, and Nathl. Warner. The first marriage was that of Dan. Hamblin and Keziah Ray; and the first death, that of John Blanchard. Esther Kellogg taught the first school; Reuben Sanford kept the first inn, Elias Wilson the first store, and Leonard Owen built the first mill.

³ The census reports 2 churches; Cong. M. E.

FRANKLIN COUNTY.

This county was formed from Clinton, March 11, 1808, and named in honor of Benjamin Franklin. A small portion was annexed to Essex co. March 22, 1822. It contains an area of 1,718 sq. mi., and is centrally distant 139 mi. from Albany. It lies upon the northern frontier, between St. Lawrence and Clinton counties. Its surface is mostly level in the n., undulating and hilly in the center, and broken and mountainous in the s. The Au Sable Mts. occupy the s. e. portions; Mt. Sevard, 5,100 feet above tide, is the highest peak. There are several other elevated peaks; but their heights have never been ascertained by actual measurement. The plateau of the central and the valleys of the s. part of the co. have an elevation of about 1,600 feet above tide.

The n. w. corner, including the townships of Bombay, Fort Covington, Westville, and portions of Constable and Moira, is underlaid by calciferous sandstone. The soil upon this rock is generally a heavy clay. Next s. of this region is a belt about 8 mi. wide, extending n. e. and s. w., underlaid by Potsdam sandstone. A strip next to the calciferous sandstone, about 4 mi. wide, has a sandy soil, and the remainder a fine fertile loam, mixed with clay. The underlying rock in the central and s. portions of the co. is gneiss; and the soil is of a light, sandy nature, nearly unfit for cultivation. Upon approaching the mountainous region toward the s. the soil becomes more and more sterile, and large tracts are valuable only for their timber and iron ore. Bog iron ore is found in considerable quantities along the line of junction of the calciferous and Potsdam sandstones, and in times past it has been quite extensively used in the manufacture of bar iron.

The co. is mostly drained by tributaries of the St. Lawrence, the principal of which are the Chateaugay, Salmon, Little Salmon, Deer, St. Regis, and Racket Rivers. The Saranac River flows through the s. e. corner. In the southern wilderness are immense numbers of lakes, some of which are several miles in extent. Their general elevation is about 1,600 feet above tide, and they are so located that slight improvements only are needed to connect them, and to form a communication between the head waters of streams flowing in opposite directions. In the n. part the people are engaged in the various branches of agriculture, the soil yielding a good return in spring grain, and in potatoes. The whole region, however, is best adapted to pasturage, and dairying forms the leading pursuit. In the central and s. parts the people are mostly engaged in lumbering. The manufacture of starch has become an important business within the last few years.¹

The principal work of internal improvement in the co. is the Ogdensburgh R. R., (formerly Northern R. R.) extending through Moira, Bangor, Malone, Burke, and Chateaugay. This road was completed in 1850, and has been of immense value to the co., though a total loss to the stockholders. Steamboats from the St. Lawrence land regularly at Fort Covington, and occasionally at Hogsburgh, during the summer. The Salmon River has been improved for log navigation, and a portion of the Au Sable improvement is within the limits of the co.

The co. seat is located in Malone Village.² A courthouse and jail, in one building, was erected on the w. bank of Salmon River in 1811-13, and a new stone jail in 1852.³ The co. poor-house is located upon a farm of 110 acres, 2 mi. s. w. of the village. It was built in 1826, at a cost of \$1,200 and has since been burnt and rebuilt. There are two newspapers in the co., both published at Malone.⁴

¹ Within 10 years, 40 factories for the manufacture of starch from potatoes have been erected in the co. When potatoes are less than 20 cts. per bushel, the business is considered profitable; but since the completion of the r. r. they have at times been worth much more to transport to the city markets.

² The first co. officers were Ebenezer Brownson, *First Judge*; Wm. Bailey, Joshua Nichols, and Asa Wheeler, *Judges*; Jas. S. Allen, *Clerk*; John Wood, *Sheriff*; Joshua Nichols, *Surrogate*; and Ezekiel Payne and Oliver Brewster, *Coverers*.

³ Before the court house was completed, courts were held in the academy.

⁴ The *Franklin Telegraph* was the first paper published in the co. It was first issued at Malone, in 1821, by Francis Burnap, and in 1829 it was removed to Potsdam.

The *Northern Spectator* was published at Malone from 1830 to 1835, successively by John G. Clayton, Geo. F. Allen, and F. P. Allen.

The *Palladium* was begun in March, 1835, at Malone, by F. P. Allen. It is now published as

The Frontier Palladium, by F. T. Heath and J. K. Seaver.

The *Franklin Republican* was begun in 1827, at Fort Covington, by J. K. Ayer, and continued under several owners till 1833.

The *Franklin Gazette* was begun in 1827, at Fort Covington, by F. D. Embers. In 1847 it was removed to Malone, where it is still published by the originator.

The *Salmon River Messenger* was begun in 1869, at Fort Covington.

A tract 10 mi. by 40, on the E. side of this co., formed a part of the old Military Tract;¹ a portion in the N. W. corner, of 24,000 acres, was reserved by the St. Regis Indians,² and the remainder of the co. was included in Great Tract No. 1, of the Macomb Purchase.³ Wm. Constable, agent and part owner of the last mentioned tract, and the executors of his estate, sold the northern part, and actively assisted in promoting settlement.⁴

The earliest settlement in the co. was made at St. Regis, by a colony of Indians from Caughnawaga, on Lake St. Louis,⁵ and from Oswegatchie, under Father Anthony Gordon, a Jesuit, about 1760. They are now known as the St. Regis Indians, and number about 1,000, of whom 420 reside in this co., and the remainder on the N. side of the national boundary, which passes through the village.⁶ During the Revolution a portion of the Indians joined the Americans; and Louis Cook, one of their number, received a colonel's commission from Gen. Washington. In the war of 1812 a part of the tribe joined the British and a part the Americans; and they are thus historically divided into British and American parties.⁷ This tribe is gradually increasing in numbers, although, from their filthy habits, they are frequent sufferers from virulent epidemic diseases. They are mostly Catholics,—a Catholic mission being supported among them. A few profess to be Methodists.⁸ Two schools are sustained by the State, though they are thinly attended, and apparently of little benefit. The first white settlements were made in Chateaugay in 1796, and in other towns in the two northern ranges in 1800-02, by emigrants from Vermont. At the commencement of the war of 1812 the population of the co. numbered about 2,500. In 1813-14 it became the seat of important military events, in the abortive attempt to invade Canada. Upon the withdrawal of the troops from French Mills in Feb. 1814, the co. was overrun by the enemy, who visited Chateaugay, Malone, and Hopkinton, and seized a considerable amount of military stores.⁹ In 1832, the cholera appeared at St. Regis, spreading a panic throughout the whole region. Since the completion of the R. R., systematic efforts have been successfully made to bring into market the valuable timber in the central and southern parts of the co.

BANGOR¹⁰—was formed from Dickinson, June 15, 1812. Brandon was taken off in 1828. It is an interior town, lying N. W. of the center of the co. Its surface is gently undulating, with a general northerly inclination. The principal streams are the Little Salmon and Deer Rivers. The underlying rock is Potsdam sandstone, appearing only in the valleys of the streams. The soil is sandy in the N. and a clay and loam in the S. **South Bangor**, (Bangor p. o.,) **North Bangor**, (p. o.,) and **West Bangor**, (p. o.,) are small villages. The first settlement was made in 1806, and the town was rapidly settled along the Central Road and St.

ton, by Jas. Fisk. During the year it passed into the hands of J. S. Sargent, and was published as *The Messenger* for a few months.

The Jeffersonian was begun in 1853, at Malone, by J. R. Flanders, and was issued about 2 years.

¹ Embracing the present towns of Chateaugay, Burke, Ellmont, and Franklin, Township 7 was patented to Jas. Caldwell, No. 8, to Col. McGregor, Nos. 9 and 10, to different parties in later times.—*Hugh's Hist. of St. Lawrence and Franklin Cos.*

² From 1816 to 1825 the Indians ceded 10,000 acres of this reservation to the State. The remainder of the lands are held in common, and are managed by trustees elected annually.

³ Among those who became directly proprietors under this title were John McVeikar, Hezekiah B. Pierpont, executor of Wm. Constable's Wm. S. Smith, Abijah Hammond, Richard Harrison, Theodosius Fowler, Jonathan Dayton, Robert Gilchrist, and James D. Le Ray.

⁴ These townships were named and numbered as follows by the original proprietors:—

1. Malone,	10. Williamsville,	19. Chateaugay,
2. Cornudas,	11. Westley,	20. Margate,
3. Constable,	12. Ewer's Ravine,	21. Barnetstown,
4. Mota,	13. Dayton,	22. Loughagh,
5. Bangor,	14. Emus,	23. Killarney,
6. Malone,	15. Fowler,	24. Barrymore,
7. Amosdown,	16. Johnsonmanor,	25. Mt. Morris,
8. St. Patrick,	17. Gilchrist,	26. Croyhill,
9. Shelah,	18. Bichinton,	27. Tipperary,

⁵ An expansion of the St. Lawrence above the Lacine Rapids, in Canada.

⁶ This line was surveyed after the treaty of 1795, and intended to be run on the 45th degree of N. latitude; but a new survey in 1818 showed that the line was run too far N. By the treaty of 1842, the old line was restored, and permanent monuments were placed at the crossing of roads, and navigable streams, and at intervals of one mile through the forests.

⁷ This distinction is hereditary from mother to son, and the annuities of each government are bestowed accordingly, without reference to the locality on either side of the line.

⁸ The Black River Conference has supported a mission at Hogan's-borough since 1847.

⁹ There is good reason to believe that some of the inhabitants were traitors to their country, and supplied the enemy with cattle and provisions and kept them informed in regard to public movements. Extensive frauds were perpetrated upon the National Treasury, soon after the war, in the way of claims for alleged damages and losses in Wilkinson's campaign; but the plot was detected, and some of the guilty ones were lodged in the State prison. A most remarkable scheme to defraud the State and non-resident landholders was devised about 1818, and continued until effectually ended by law in 1822. This consisted in the voting of excessive bounties for the destruction of wolves and other noxious animals, to be paid by the towns and co. As the law then existed, the State allowed as much bounty as the co.; and the result of the scheme was to throw almost the entire burden of the tax upon non-residents and landholders; but, to render the home-laborer endurable, large sums were remitted by the claimants toward paying the *residents' taxes*. The bounties amounted on grown wolves to \$30 per head, and led to shameless frauds, and the issue of great numbers of certificates upon the heads of dogs and other animals, and upon the same head several times over. In one instance a deer's head was passed for that of a wolf. These certificates were bought by co. officers, and passed the co. audit. A commission was appointed by law to visit the locality and search into the fraud; and, although no convictions were obtained, a large sum was saved to the State. The commissioners stated that they found these certificates, to some extent, the "currency of the co." The total number of bounties issued and sums allowed, in 1820-21-22, were as follows:—Wolves, 929, \$31,685; panthers, 26, \$1075; foxes, 587, \$18,525; bears, 93, \$243; besides small sums for minor animals, amounting, in all, to \$55,521.50, or nearly \$12.25 to every man, woman, and child in the co. Those who had been concerned in this affair quickly sunk into merited obscurity, and have since remained objects of public contempt.

¹⁰ This town embraces township No. 5 of Great Tract No. 11, of the Macomb Purchase.

Lawrence Turnpike.¹ Religious meetings were first held by Alexander Proudfit, in 1808. A Cong. society was formed at N. Bangor at a very early period.²

BELLMONT³—was formed from Chateaugay, March 25, 1833. Franklin was taken off in 1836. It occupies a wild, rocky region on the e. border of the co., s. of the center, and has a general inclination toward the s. The Owls Head is a prominent elevation upon its w. border. Its streams are Chateaugay, Trout, and Little Trout Rivers, and the e. branch of Salmon River. Among the hills are several beautiful lakes, the principal of which are Lower Chateaugay and Ragged Lakes, and Ingraham and Round Ponds. A considerable portion of the town is unfit for agricultural purposes, and valuable only for its timber. The settlements are chiefly confined to the vicinity of an e. and w. road extending through the s. part.⁴ **Chateaugay Lake** is a p. o. in the s. e. part. There is a Presb. society in town, formed from the church at Malone.

BOMBAY⁵—was formed from Fort Covington, March 30, 1833. It lies in the s. w. corner of the co., and one corner borders upon the St. Lawrence. The surface is generally level, and the soil is sandy in the s. and a deep, fertile, clayey loam in the s. The principal streams are the Racket, St. Regis, and Little Salmon Rivers, and Pike Creek. The St. Regis is navigable to Hogansburgh, at which place is a good water power.⁶ **Hogansburgh**⁷ (p. o.) lies at the head of navigation on the St. Regis River, 2 mi. from its mouth. Pop. 250. **St. Regis** is an Indian village, in the Indian Reservation,⁸ lying mostly in Canada. Pop. in this co. 200. **Bombay Corners** (Bombay p. o.) and **South Bombay** are hamlets. The first improvement was made in 1811, by Michael Hogan, who had acquired the title to Township No. 1 of Macomb's Purchase.⁹ In 1818, Hogansburgh was laid out as a village and considerable improvements were made. In the same year a road was laid out across the Indian Reservation to Fort Covington. The title to the township passed from Hogan to Robert Oliver, of Baltimore. In 1822, settlers began to arrive quite rapidly, and in two or three years most of the land not covered by the Reservation was taken up. There are 3 churches in town: 2 M. E. and R. C. A Prot. E. church was also commenced some years since, but is not yet finished.

BRANDON¹⁰—was formed from Bangor, Jan. 23, 1828. It lies w. of the center of the co., and embraces a territory 6 to 8 mi. wide and 47 mi. long, extending to the s. border of the co. The s. part is moderately hilly, and has a general inclination toward the s.; the s. part is broken and mountainous, and mostly unfit for cultivation. The principal streams are the Little Salmon, Deer, E. Branch of the St. Regis, and Racket Rivers, all flowing across the town in a s. w. direction. A great number of lakes and ponds lie among the mountains in the central and southern parts. The waters of the Saranac Lake and Stony Creek Pond are separated only by a narrow strip of land, forming the only portage for canoes between Lake Champlain and the Racket River. The soil is generally light and sandy and poorly adapted to cultivation. Along the river courses and borders of the lakes the soil may be cultivated at some future period. The settlements are confined to the extreme s. border. Within the past few years the lumber trade has received considerable attention here, and large numbers of pine logs have been floated down the Racket River. The first settlement was made in 1820.¹¹ There is no village, p. o., or church in town.

BURKE¹²—was formed from Chateaugay, April 26, 1841. It lies on the s. border of the co., e. of the center. Its surface is undulating and has a general inclination toward the s. It is watered by Trout and Little Trout Rivers. A swamp extends along the s. border. The soil is clay, sand, and loam. **Burke** (p. o.) is a hamlet on Little Trout River. **Burke Hollow**, (Andrusville p. o.) is a small village on the O. R. R. **North Burke** is a p. o. The first

¹ Among the first settlers were: Benj. Seeley, Joseph Plumb, Jehiel and James Barnum, Chester Fuller, Robert Wilson, Joel Griffin, G. Dickinson, H. Conger, J. Bowen, and L. Sylvester. At this time Daniel McCormack owned the N. half of the town, Wm. Cooper the s. e. quarter, and Asahel Baker the s. w. quarter. Samuel Bussell taught the first school, in 1808.

² Two buildings, erected by the town in 1834-35, are used for religious meetings. A Christian church was formed in 1818.

³ Named in honor of Wm. Bell, an early proprietor. It includes township 8, and parts of 7 and 9, of the old Military Tract.

⁴ Recently settlement has commenced upon No. 6, in the s. part.

⁵ Named by Hogan, whose wife had resided at Bombay, in India. It embraces "Macomb," or No. 1 of Great Tract No. 1, of Macomb's Purchase, and the St. Regis Indian Reservation.

⁶ A controversy in regard to title has prevented the full improvement of this power.

⁷ Formerly "Good's Mills." It was the residence of the late Rev. Eleazar Willsons, the reputed Bourbon Louis XVI.

⁸ The lands of this reservation are partly leased to whites; but the cultivation of all is extremely slender and unimproved.

⁹ Previous to the settlement, most of the valuable timber had been stolen by parties from Canada.

¹⁰ Named from Brandon, Vt., from which place the first settlers emigrated. It embraces the townships of "St. Patrick," "Westford," "Ems," "Gilechrist," "Margate," "Killarney," and "Cove Hill," or Nos. 8, 11, 14, 17, 20, 23, and 26, of Great Tract No. 1.

¹¹ Josiah Hastings, Aaron Conger, Wilson Spooner, Luther Taylor, and John Thomas, settled in town in 1820; and Andrew and Henry Stevens, Levi Conger, G. W. Taylor, Clark Adams, Daniel K. Davis, Jonathan H. Fair, and Orrin Wellington, in 1821.

¹² Named in honor of Edmund Burke, the British statesman.

settlement was made in 1790-98, by Jehial Barnum, Noah Lee, and others. There are 3 churches in town.¹

CHATEAUGAY²—was formed from Champlain, March 15, 1799. "*Harrison*" (now Malone) was taken off in 1805, Belmont in 1833, and Burke in 1844. A part was annexed to Jay, (Essex co.) in 1822. The surface is rolling, with a northerly inclination. The principal streams are the Chateaugay River and its branches. The river has worn a deep channel through the drift deposits and Potsdam sandstone, forming a wild and peculiar feature in the landscape.³ Half a mi. e. of the village of Chateaugay is an intermittent spring, rising from the sand, sometimes flowing in sufficient quantities to carry a mill, and at others perfectly dry. It has no regular periods of intermission, sometimes flowing steadily one or two years, and again only a few weeks. Bubbles of nitrogen gas are emitted with the water. There is a constant gas spring 1 mi. s. e. of this. The soil is a clayey loam interspersed with clay. **Chateaugay** (p. v.) lies on the plain, a little e. of the deep, narrow valley of the Chateaugay River.⁴ Pop. 360. The first settlement was commenced in 1796, at the village, and was the first in the co.⁵ Within the next five years many families came in from Vermont. In 1812 a blockhouse was built for protection against invasions by the enemy. In the fall of 1813, Gen. Hampton was encamped here for several weeks, with a force designed to co-operate with Gen. Wilkinson in the invasion of Canada; but late in Nov., he returned to Plattsburgh without accomplishing his object. In the spring of 1814 the enemy invaded the place, pressed teams, and took away a considerable amount of provisions left by the American army. There are 4 churches in town.⁶

CONSTABLE⁷—was formed from "*Harrison*," (now Malone,) March 13, 1807. Fort Covington was taken off in 1817, and Westville in 1829. The surface is rolling, with a northerly inclination. The streams are Trout River and its tributary Little Trout River. The soil is principally a light, sandy loam. A strip of sand lies along the s. border, and of swamp along the s. **Constable** (W. Constable p. o.) is a small village upon Trout River. **Trout River** (p. o.) is a hamlet near the s. line, and **East Constable** is a p. o. The first settlement was commenced near the s. line, in 1800.⁸ The first church (Presb., organized as Cong.) was formed in 1817.⁹

DICKINSON¹⁰—was formed from "*Harrison*," (now Malone,) April 4, 1808. Bangor was taken off in 1812, and Moira in 1828. It lies on the w. border of the co., and is 47 mi. in length. The n. part is rolling and hilly, and has a soil of sandy loam of good quality; the central and s. parts are mostly sterile and rocky mountain regions. It is watered by the same streams as Brandon, and among the hills are great numbers of small lakes. **Dickinson** (p. o.) is on the St. Lawrence Turnpike. **East Dickinson** and **Dickinson Center** are p. offices. **Thomasville** is a small settlement on Deer River, founded by John Thomas in 1839. The principal settlements are in the s. part.¹¹ There are in town 2 churches; M. E. and P. W. Bap.

DUANE¹²—was formed from Malone, Jan. 21, 1828. Harriestown was taken off in 1811. Brighton was taken off in 1858. It is an interior town, lying s. e. of the center of the co. Its surface is broken and mountainous, and the soil is light and sandy. Much the greater part of the town is unfit for cultivation. The principal streams are the Deer River and the e. branch of St. Regis River. Magnetic iron ore has been found in considerable quantities. There is no village in town. **Duane** is a p. o. Jas. Duane, of Schenectady, son-in-law of Wm. Constable, acquired by marriage the title to this town, and began settlement here in 1823-24. A forge was built in 1828, and a high furnace in 1838, both of which were run a few years and supplied with ore found

¹ Bap., Presb., and M. E.

² Pronounced "Shat-ay"; probably of French origin.

³ About a mile above the village this ravine is 200 feet deep, and in it is a waterfall of 60 feet.

⁴ On the 20th of June, 1896, a destructive tornado passed over the village, more or less injuring every building in it. In the course of 6 mi. 185 buildings were destroyed, and 5000 or more of their foundations; and several lives were lost.

⁵ The first crosses this valley on an embankment 160 feet above the river, and 800 feet long.

⁶ The first settlers were Benj. Roberts, Saml. and Nathan Bosman, Levi Trumbull, J. Lee, and Kimeale Chamberlain, Ethan A. Roberts, and Jared Munson. Nathan Bosman in his youth ran a boat, Treadenberg, and acted as guide to Ethan Allen when he surprised that place in May, 1775. He died in this town in 1896. David Waller built the first grist mill in the co. on Middle River, 1 1/2 mi. s. e. of the village. In 1803-04 a forge was built, by Wm. Babcock, 3 mi. above the village, and ran a short time, being supplied with log ore.

⁷ Bap., M. E., Presb., and R. C.

⁸ Named from Wm. Constable, agent and part proprietor. It embraces the e. part of township No. 3 of Great Tract No. 1.

⁹ Among the first settlers were John, Haggood, (1800) Chris. Austin, (1800), Wm. Cooper, Solomon Cook, Eli Titus, Saul Clark, and James Welch. A. Mead taught the first school in the summer of 1806. Dr. Solomon Wymen was the first physician. The first sawmill was built by James Welch, in 1806, and the first grist mill, soon after the war, by Joseph Colburn.

¹⁰ There are in town 3 churches; Presb., Bap., and M. E.

¹¹ This town embraces the townships of "Amstotsville," "Williamsville," "Dayton," "Johnsmanor," "Cheltenham," "Lion's-branch," and Mount Morris, (for Nos. 7, 10, 13, 16, 19, 22, and 25, of Great Tract No. 1.)

¹² Among the first settlers were William Thomas, Jonathan and Jesse D. Rice, and Reuben Cady.

¹³ Named from James Duane, proprietor and first settler. It embraces the townships of "Ewerestaville," "Fowler," and "Brighton," (for Nos. 12, 15, and 18 of Great Tract No. 1.)

in the town.¹ After making about 600 tons of iron, the works were abandoned, with the loss of the entire capital invested in them. There is but one church (M. E.) in town.

FORT COVINGTON²—was formed from Constable, Feb. 28, 1817. Bonday was taken off in 1833. It lies on the n. border of the co., w. of the center. Its surface is level, or gently undulating. Salmon River, the principal stream, is navigable to Fort Covington Village. The soil in the n. is a rich, clayey loam, and in the s. a light, sandy loam. **Fort Covington** (p. v.) is situated in the n. w. part of the town, upon Salmon River. Pop. 894. The first settlements were made by French families, about 1796, around "*French Mills*." Settlers from Vt. began to arrive about 1800.³ Much of the timber near Salmon River was stolen before this, and sold in the Montreal market. Soon after the battle of Crysler's Field the American army passed up Salmon River and took up winter quarters at "*French Mills*."⁴ In Feb. the place was evacuated,⁵ and immediately taken possession of by the enemy.⁶ The Fort Covington Academy, incorp. April 24, 1831, has been changed to a district school. The census reports 4 churches.⁸

FRANKLIN⁹—was formed from Bellmont, May 20, 1836. It lies on the n. border of the co., s. of the center. Its surface is broken and mountainous, and it has an elevation of 1200 to 2000 feet above tide. The principal streams are the Saranae, which flows across the s. e. corner, and the head branches of the Salmon River. Among the mountains are numerous ponds and lakes. The soil is sandy, and scarcely fit for agricultural purposes, except along the streams. Iron ore abounds, and has been worked to some extent. The settlements are mostly confined to the s. e. corner, and the people are chiefly engaged in lumbering. The old Port Kent and Hopkinton Road passes diagonally through the town, and a plank road extends from Franklin Falls to Keeseville. **Franklin Falls**¹⁰ (p. v.) contains 12 houses, and **Vermontville** 20. **Alder Brook** and **Nerrillsville** are p. offices. The first settlement was made at Franklin Falls, in 1827, at which time a forge and sawmill were erected.¹¹ In town are 5 large gang sawmills, and several small manufactories of buckskin leather, mittens and gloves. There are 2 churches in town.—M. E. and R. C.

HARRISTSTOWN¹²—was formed from Duane, March 19, 1841. It is the s. e. corner town of the co. Its surface is very rocky and mountainous, and its soil a light, sandy loam, generally unfit for cultivation. Mt. Seward lies along the s. border.¹³ It is the least populous and wealthy town in the co. It is principally drained by the Saranae. Among the mountains are a great number of small lakes, the principal of which are the Lower Saranae, Big Clear, and St. Regis. There are no villages or churches in town. **Saranae Lake**, on the line of Essex co., is a p. o. The first settlers located on the North West Bay Road, about 1812.¹⁴

MALONE¹⁵—was formed from Chateaugay, March 2, 1805, as "*Harrison*." The name was changed to "*Essexville*," April 8, 1808, and to Malone, June 10, 1812. Constable was taken off in 1807, Dickinson in 1808, and Duane in 1828. It is an interior town, lying n. of the geo-

¹ By an act of May 20, 1841, a company was chartered by the name of the Franklin Native Steel Manufacturing Co., but it was never organized. The making of steel directly from the ore in this region has proved to be practically a failure. A few years since, silver was said to be discovered; but it has never been successfully worked.

² Named from Brig. Gen. Leonard Covington, who was mortally wounded at Crysler's Field and buried here. It embraces the w. part of the town-ship of "Conanahas," or No. 2 of Great Tract No. 1, and a part of the original St. Regis Reservation, since ceded to the State.

³ Formerly called "*French Mills*." It is situated on a mile square reserved by the Indians in 1793. This tract was leased by the Indians to Wm. Gray, in 1793, and assigned to Jas. Roberts, of Montreal, in 1798. These Indian leases occasioned much difficulty concerning title, which was finally settled by commissioners after the purchase of the n. part of the reservation, in 1816-18.—*Hugh's Hist. of St. Leger and Front. Co's.*

⁴ Mills were built at a very early period, and were swept away by a flood in 1804.

⁵ There is a fearful mortality occurred among the troops, on account of exposure to the rigors of a northern winter in tents and light board shanties. The medicines and hospital stores had been lost or destroyed on the passage down the St. Lawrence, nor could fresh supplies be obtained nearer than Albany. The surrounding country was mostly a wilderness; and the army of Gen. H. under the full provisions had exhausted the resources of the inhabitants, and, consequently, provisions were of a bad quality and were procured with difficulty.

⁶ As an appropriate retaliation to an unwise enterprise, the retreating army destroyed the boats on the river, sunk 60 tons of biscuit, and destroyed all the public property too heavy for

transportation. The enemy soon completed the work of destruction.

⁷ A few years after the war, an extensive series of frauds upon a government was perpetrated at this place. They consisted of fictitious claims for damages, in which the documents were forged, and the parties, witnesses, and magistrates were bribed.

⁸ Assoc. Ref. Presb. (Scott's) Wes. M. Bapt. and R. C. (St. Mary's.)

⁹ This town includes No. 10, and a part of No. 9, of the 44 Military Tract.

¹⁰ Formerly called "*McCleathans Falls*," from the proprietor. On the 20th of May, 1852, the entire village, consisting of 23 houses, store, tavern, extensive lumber mills, and a large amount of lumber, was destroyed by running fires. Loss, \$20,000.

¹¹ Among the first settlers were Wm. McCleathan, Jas. Mallory, Horace Gould, John Griffin, John Wood, Richmond and I. Davis Spaulding, Simon French, and John Hough. The first birth was that of Sanford Hough; and the first death of an adult, that of Mrs. H. Wood. McCleathan kept the first inn and store and built the first mill and factory.

¹² Named from Harriet, daughter of Wm. Constable and wife of Jas. Duane. It embraces the townships of "Harristown," "Barrimore," and "Tipperary," of Nos. 21, 23, and 27 of Great Tract No. 1.

¹³ Mt. Seward, named from Wm. H. Seward, was called "by the Indians "*Ontonagonahob*," the latter.

¹⁴ Among the first settlers were Isaac Benson, John French, C. Flinders, Phylis Miller, Wm. Kelley, and Nicholas White.

¹⁵ Named "*Harrison*," from Richard Harrison, proprietor.—*Transfer* from Ezra L. Harmon, in 1807, to Malone and Malone from a family related to Harrison. It embraces the townships of "Malone" and "Shelburne," of Nos. 6 and 9 of Great Tract No. 1.

graphical center of the co. and s. of the center of population. Its surface is level in the n. and broken and hilly in the s. The principal stream is the Salmon River, which flows northerly through the town in a deep valley worn by its waters, and nearly its whole course in town is a succession of rapids and cascades. Along the n. border are extensive pine plains. The soil in the n., where not covered by light drift deposits, is fertile and well improved, but in the s. it is sandy and unproductive. An iron ore, from which a paint resembling sienna is manufactured, has been discovered in the s. part. Potsdam sandstone, of an excellent quality for building, has been extensively quarried near the village. **Malone**,¹ (p.v.) is the co. seat, and the only incorp. village in the co., is pleasantly situated on Salmon River. Pop. 1993. It is the seat of the Franklin Academy,² and is the most important intermediate station upon the Ogdensburgh R. R.³ The village is supplied with spring water by an incorp. company.⁴ **Titusville** (p.o.) is a small village at the Great Falls, on Salmon River in the s. part of the town.⁵ The first settlements were made near Malone Village, about the beginning of the present century, by emigrants from Vt.⁶ An arsenal was built at the village in 1812, and sold in 1850.⁷ In 1813-14 the place was visited and plundered by the British. The first church (Cong.) was formed in 1806-07, by Ebenezer Hibbard and Amos Pettengill. Rev. Ashbel Parmelee was the first pastor, and the first settled minister in the co.⁸

MOIRA⁹—was formed from Dickinson, April 15, 1828. It lies on the w. border of the co., n. of the center. The surface is generally level, with a slight inclination toward the n. The principal streams are Little Salmon River and Lawrence Brook. The soil is a sandy loam, generally fertile. **Moira Corners** (Moira p.o.) is a small village near the center. **Brush Mills**,¹⁰ (p.v.) on Little Salmon River, is an important wooding station on the r. r. This town fell to the share of Gilchrist and Fowler, upon apportionment, and was first settled by Appleton Foote, as agent, in 1803.¹¹ Luther Bradish,¹² Robert Watts, and Peter Kean afterward became the owners respectively of the n., middle, and s. thirds of the town. There are 3 churches in town.¹³

WESTVILLE¹⁴—was formed from Constable, April 25, 1829. It lies near the center of the n. border of the co. The surface is nearly level, with a slight inclination toward the n. It is drained by Salmon River, upon which are several falls, affording a good supply of water power. The soil is a fertile, clayey loam. Bog iron ore, found on the s. border, has been used to some extent in forges in the town. A sulphur spring, of some local notoriety, lies near the center of the n. border. **Westville** (W. Constable p.o.) is a small village on Salmon River. This town was held by the Constable family; and for many years Wm. Bailey, of Chateaugay, and Albon Mann, were agents. In 1822 the unsold portions were sold to Edward Ellice, of London. The first settlements commenced about 1800, by emigrants from Vt.¹⁵ There are 4 churches in town.¹⁶

¹ Incorp. 1853.

² The academy building is finely located in the w. part of the village.

³ The machine and repair shops of the r. r., located here, are on a magnificent scale, and are fitted up in a superior style. The repairs of the Potsdam and Watertown R. R. rolling stock are also done here.

⁴ The Malone Water Works Co., incorp. March 23, 1857. Capital, \$15,000.

⁵ Henry B. Titus commenced improvements in this part of the town, by building mills and a scythe factory, in 1831. After several years' suspension, improvements and settlements have been renewed under James H. Titus, of N. Y.

⁶ Among the first settlers were Enos, Nathan and John Wood, Nowell Conger, Luther Winslow, Jehiel Berry, Noah Moody, Roswell Wilcox, and David and Lyman Sperry. The first child born was Malone, daughter of L. Winslow. The first sawmill was built in 1804, by N. and J. Wood.

⁷ The proceeds of this sale were applied to the improvement of the arsenal ground and parade ground; and a further sum of \$500 was appropriated for the same purpose in 1858.

⁸ The census reports 6 churches; Cong., Prot. E., Union, M. E.,

Bapt., and R. C. In Nov. 1857, Rev. Bernard McCabe, Catholic priest, was accidentally burned to death.

⁹ Named from the Earl of Moira. Embraces "Moira," or No. 4 of Great Tract No. 1. The name was applied to the township long before the incorporation of the town.

¹⁰ Named from Henry N. Brush, an extensive proprietor of lands in this vicinity and resident of the village.

¹¹ Among the first settlers were Benj. Seeley, Jonathan Lawrence, Joseph Plumb, and David Bates. Schools were established in 1807.

¹² Mr. Bradish resided here for several years. He represented the co. in the Assembly in 1828-29-30-31-32-33, and was a resident here when elected Lieut. Gov. in 1838.

¹³ Cong., R. C., and Union, (the last belonging to the M. E. and Christian denominations.)

¹⁴ Named from the village, so called from its location in the old town of Constable.

¹⁵ Among the first settlers were Amos Welch, — Haskins, Elisha Sabins, Saml. Fletcher, John Reed, Alex. McMillen, Silas Cushman, John Livingston, Jas. and Thos. Wright, and Mrie and Albon Mann. The first sawmill was built by Amos Welch. The first school was taught by Samuel Russell, in 1806.

¹⁶ Presb., M. E., Univ. and Union.

BRIGHTON—was formed from Duane, Nov. —, 1858. It embraces Township 18 and the s. half of Township 15 of Great Township No. 1 of Macomb's Purchase. The settlements are chiefly in the e. part. The inhabitants are mostly engaged in lumbering. There is no village or p. o. in town. (This town was formed after the remainder of the letter-press of this co. was stereotyped; and hence it is inserted in this place.)

FULTON COUNTY.

This county was formed from Montgomery, April 18, 1838.¹ It lies *n.* of the Mohawk, *e.* of the center of the State. It is centrally distant 45 miles from Albany, and contains 544 sq. mi. Its surface is a rolling and hilly upland, rising into a mountainous region on the *n.* border. The highland region is divided into three general ridges, extending *s. e.* and *s. w.* The most eastern of these ridges, occupying the *s. e.* corner, consists of rounded drift hills of moderate elevation, bounded by gradual slopes, the highest summits being about 400 ft. above the Mohawk. The second ridge extends through near the center of the co. and occupies a wide space along the *n.* border. The declivities in the *n.* are usually steep and rocky; and the highest summits are 800 to 1,000 ft. above the Mohawk. The

third ridge, similar in character to the second, extends through the *w.* part of the co. Its highest summits are 1,200 ft. above the Mohawk.

Sacondaga² River flows *s. e.* through the *s. e.* corner of the co. It receives from the *w.* Mayfield Creek, which has for its tributaries Fondas Creek and Cranberry Creek. The Chuctenunda flows through the *s. e.* corner. The Cayadutta flows *s. w.* through near the center, its valley separating the central from the eastern ranges of hills. Garoga Creek flows *s.*, a little *w.* of the center, its valley separating the western and central ranges of hills. Stony Creek, a tributary of the Sacondaga, flows *n. e.* in the northerly continuation of the Garoga Valley, and breaks through the central ranges of hills. East Canada Creek forms the greater part of the *w.* boundary, receiving as tributaries North, Fish, and Little Sprite Creeks. The other streams are branches of the foregoing or of the Mohawk. They are mostly rapid streams, frequently interrupted by falls, and affording an ample supply of water-power.

Among the hills in the *n.* part of the co. are many of the small lakes forming a characteristic feature of the wilderness region of Northern N. Y. Along the Sacondaga, near the mouth of Mayfield Creek, and occupying portions of Northampton, Broadalbin, and Mayfield, is an extensive swamp or lake, said to contain an area of 13,000 acres.³

The greater part of the surface of the co. is covered with drift deposits. The southern part of the central and *w.* ridges are principally composed of calciferous sand rock; and farther *n.* Potsdam sandstone and gneiss appear and cover a considerable portion of the surface. Black River limestone, Trenton limestone, and Utica slate are also found in different localities. Quarries of gneiss and of birdseye limestone have been opened in Johnstown and Mayfield. An excellent building stone is found in all the *n.* part of the co.

The soil in the *s.* part and along the valleys is mostly a gravelly and clayey loam, derived from the drift deposits. It is well adapted to pasturage, and in the most favorable localities produces good crops of grain. A large portion of the *n.* part is too rough and broken for profitable cultivation,⁴ the manufactures consist principally of leather, lumber, and buckskin gloves and mittens.⁵

The co. seat is located at Johnstown.⁶ The courthouse is a brick building in the *n.* part of the village, erected in 1772, by Sir Wm. Johnson, for the courthouse of "*Troy*" co.⁷ The jail, a stone building, situated in the *s. e.* part of the village, contains the usual jail accommodations, and the residence of the jailer. The clerk's office is a fireproof brick building, in the vicinity of the courthouse. The poorhouse is situated upon a farm of 94 acres at West Bush, 6 mi. *n.* of the

¹ A dissatisfaction arising from the removal of the county seat of Montgomery co. from Johnstown to Fondas was the immediate cause of the division of that co.

² This name is said to signify "*Drowned Lands*," from the great inrush which lies along its course.

³ This lake was apparently a lake at no remote period. It is now covered with a small growth of *cyperus* around its border, and a wet prairie in the center, where hundreds of tons of coarse grass of poor quality are cut annually.

⁴ The mountainous portion in the *n.* part of this co. forms the *s. e.* extremity of the Great Northern wilderness of N. Y. The settlements are very sparse and are confined to the narrow valleys of the streams. The hills are covered with a light growth of forest trees, and when once cleared, the soil is too light and thin to produce any thing else.

⁵ Moose-buckskin gloves and mittens are manufactured in this

co. than in all other parts of the U. S. The center of the manufacture is at Glensville, though it is largely carried out to Johnstown and other villages. Work is given out to families through a large section of county, forming the most productive branch of labor in the co.

⁶ The first officers of "*Troy*" co. were Guy Johnson, *First Judge*; John Butler and Peter Congie, *Judges*; and Sir John Johnson, *Kt.*, Daniel Cains, John Wells, and Jellis Fondas, *Justices of the Peace*. The first co. court was organized Sept. 8, 1772. Upon the organization of Fulton co., the first co. officers were Donald McIntyre, *First Judge*; John W. Cady, *Dist. Attorney*; T. A. St. Andrew, *Clerk*; David J. McMartin, *Sheriff*; and Archibald McFarland, *Sacraple*.

⁷ The Johnson family retained a lien upon the building until annulled by the forfeiture of their estates.

courthouse. The average number of inmates is 50, supported at an average cost of \$1.25 per week each. The children attend the public school. The farm yields a revenue of \$200.

Four weekly newspapers are now published in the co.¹

The history of this co. is intimately connected with that of Sir William Johnson and his family. At the age of 21, Johnson came to America as agent of his uncle, Sir Peter Warren, and located in the Mohawk Valley. He soon became identified with the interests of that section of the colony, and a zealous promoter of its prosperity. He was appointed Indian Agent, learned the language of the natives, adopted with facility their habits when it suited his interests, and gradually acquired an ascendancy over these people which his official relations served to strengthen. His successful management in the expedition to Lake George in 1755 gave him a high position in the esteem of the home Government, and secured him, as an especial favor, the grant of a large tract of land x. of the Mohawk, as a direct gift from the king. He was also honored with knighthood. His first residence was fixed at what is still known as Fort Johnson, on the Mohawk, in the town of Amsterdam; but about 1761 he removed to a new mansion, near the village of Johnstown, still standing, and known as Johnson Hall. At this time he possessed an estate that had few rivals in extent and value in the country; his tenants were numerous and attached to his interests, and the prospects of future greatness to his family were most flattering. On the approach of the Revolution he is supposed to have been liberally inclined; but his duty to the Government, whose offices he held, forbade him from favoring the cause of the colonies, while his attachment to his neighbors and the inhabitants of the colony rendered the thought of any measures tending to their ruin extremely painful to his feelings. It was apparent that a struggle between the mother country and the colonies must ensue; but, with the prescience that foreshadowed the significant purpose of his mind, he intimated to his friends that he should never live to see it, and he besought the British Government to appoint his son to his office,—that of Indian Agent. He died suddenly at Johnson Hall, on the afternoon of June 24, 1774, at the age of nearly sixty years.²

- ¹ *The Johnstown Gazette* was published in 1796.
The Montgomery Advertiser was published at Johnstown in 1796 by Jacob Doxtader. It soon passed into the hands of Jas. Smith, and subsequently into the hands of Alvin Romeyn and ——— Clark. It was afterward continued several years by David Holden.
The Montgomery Republican was commenced at Johnstown in Aug. 1806, by Wm. Child. His brother, Asa Child, soon after became editor. In 1823 Wm. Holland became owner, and published it 2 years. Peter Mix continued it until 1834, when the office was burned. The paper was revived by him; and in Nov. 1836, the office was again burned, and the publication of the paper was discontinued.
The Montgomery Intelligencer was commenced in 1807, and discontinued in 1807.
The Montgomery Mentor was commenced at Johnstown in 1808 by Robbins & Andrews. It soon passed into the hands of Russell Prentice, who sold it in 1824 to Dunham and Daniel McDonnell. In 1825 they removed it to Fonda, thence to Camburgh, and finally to Schenharie.
The Johnstown Herald was removed from Amsterdam in 1824 by Philip Reynolds. It had been published there as the "Mohawk Herald." In 1837 it was removed to Fonda and published as the "Fonda Herald."
The Montgomery Freeman was published at Johnstown by Yates & Co.
The Southern Banner was commenced at Union Mills, Broad-albion, by John Clark. It was removed in a few months to Johnstown and published as
The Northern Banner and Montgomery Democrat. In 1837 its name was changed to
The Montgomery Republican. It was soon afterward sold to Wm. S. Hawley, who changed its name in 1838 to
The Fulton County Democrat. In 18— it passed into the hands of A. T. Norton; and in 1842 it was purchased by Walter N. Clark, its present publisher.
The Christian Palladium, semi-mo. was published in 1836 by Joseph Badger. It was removed to Albany in 1846 or '47.
The Fulton County Republican was commenced at Johnstown in 1838 by Darius Wells. In 1840 Alexander F. Wells became proprietor; and in 1842 he sold it to George Henry, its present publisher.
The Garland, semi-mo. was published at Union Mills by Wm. Clark. It was afterward issued a short time at Johnstown.
The Liberty Journal was published at Kingsboro' in 1843 by S. R. Sweet.
The Johnstown American was commenced in Jan. 1856, by N. J. Johnson. In Feb. 1857, it was sold to J. D. Houghtaling. In April 1858, its name was changed to
The Johnstown Independent, under which title it is now published.

The Gloversville Standard was commenced in Sept. 1850, by W. H. Case, and is still published.
² It has been the general belief that Sir William ended his own life; and there is not much doubt, but that he hung himself in his garden. His gardener, who bound him and took him down, returned, in his old age, facts which confirm this belief, and his will—dated Jan. 27, 1774—indicates that the near approach of death was a familiar thought, as his burial was an event for which he gave the most minute directions. In this instrument—after commending his soul to God, who gave it—he directed his body to be buried in the place he had selected by the side of his wife, Catharine. He directs mourning for his house-keeper, Mary Brant, and her children, and for young Brant and William, half-bred Mohawks, and for his servants and slaves. "The sachems of both Mohawk villages are to be invited to his funeral, and to receive each a black strand blanket, crape, and gloves, which they were to receive and wear as mourning next after his funeral. The bearers are to have white seals, crape, and gloves; and the whole cost of the funeral is not to exceed £200. The funeral debt is to be first paid by Sir John, out of his 3 per cent, consolidated annuities, within 6 months. He bequeathed £1 to Peter, £200 each, and to the other children of Mary Brant £7 in number; £100 each,—the interest to be expended on their education. To young Brant alias *Kinghsagane*, and William, alias *Tegawagane*, two Mohawk boys, £100 York currency each; to Sir John, his son, on behalf of the rest of his money; and to Daniel Claus and Gay Johnson, his sons-in-law, each one-half of the remainder. He then gave his library and plate, slaves, stock, and personal estate, to certain portions, excepted to Sir John, and his landed estate is divided between his children and hands, specifically naming to each the lots they are to receive, and especially enjoining upon his children never to sell or alienate any portion of the Royal Grant, as he had received it as a free gift from the king. The bequest of his lands were Sir John and Col. Guy Johnson, Daniel Claus, each of the children of Mary Brant, and her brothers, Joseph and William, Mary McGrath, John and Warren John, on, his brothers, and Deaso, Sterling, Blunket, and Fitzmains, brothers-in-law, and John Deaso, his nephew. To Robert Adams, Joseph Chew, and Wm. Byrne, old friends, and Patrick Duly, a servant, he gave the free use for life of certain lands. And he provided for the better division of his estate in kind, Sir John died without issue. He appointed as his executors, his son, two sons-in-law, two brothers, and Daniel Campbell, of Schenectady, John Butler, Jellis Fonda, Capt. Jas. Stevenson, of Albany, Dr. John Deaso, Henry Frey, and Jos. Chew. The guardians of the children of Mary Brant were John Butler, Jellis Fonda, John Deaso, James Stevenson, Henry Frey, and Joseph Chew. Each executor and guardian was to receive a ring, as a memento from their once sincere friend. Sir William was buried in a vault under the Episcopal church in Johnstown. About 1793 the vault was filled up; and Nov. 26, 1836, the church, with its bell and organ, (the presents of Sir William,) were burned. The spot of his burial is just outside of the present church edifice.

The active interest in the royal cause taken by Sir John Johnson and all whom he could influence, is well known. He fortified Johnson Hall late in 1775, armed the Scotch Highlanders on the Kingsborough Patent, and spread discontent among the Indian tribes under his control. His conduct could not be tolerated; and in Jan. 1776, Gen. Schuyler was sent with an army of 700 militia to disarm the tenants and to secure a strict neutrality on the part of Sir John and his friends. After several days' negotiation, a feigned acquiescence was received, and on the 19th the Scotch surrendered their arms, and Sir John gave his word of honor to abstain from further hostile measures. His intrigues continued notwithstanding; and in May, 1776, a patriot force, under Col. Dayton, was sent to apprehend him. Upon their approach, he left his family papers, money, and plate to be buried by a faithful slave, and, attended by large numbers of his dependents, he fled through the woods northward to Canada.¹ In May, 1780, Sir John made his appearance with 500 troops from the Northern wilderness, to recover his buried treasure and take vengeance upon his old neighbors. The settlements were surprised, and the Mohawk Valley, from Tribes Hill upward to The Noses, was ravaged. Many houses were burned, 11 persons were slain, and several others were left as dead but finally recovered. An ineffectual rally was made for pursuit; but the invaders returned without molestation. In the fall of the same year, Sir John, with 800 men, invaded the Schoharie and Mohawk Valleys with fire and sword, while an army advanced by way of Lake Champlain to create a diversion on the northern frontier. In returning, he was pursued by a body of troops under Gen. Robert Van Rensselaer, and would have been overtaken and captured had not the cowardice or treachery of that officer prevented.² The battle of Stone Arabia was fought upon this occasion. In Aug. 1781, Major Ross and Walter N. Butler, with a band of Tories and savages, appeared by way of Sacondaga with 607 men,³ and encamped a little s. of Johnson Hall. Col. Willett moved from Fort Plain on the 22d, with 300 men, to attack the enemy, and, upon approaching, detached 100 men, under Col. Harper, to make a circuit and attack the rear of the camp. A short distance above the Hall, Willett's forces met those of Ross, and the former retreated; but at the village they rallied, and were joined by 200 militia. The enemy were finally driven from the ground, with a loss of 17, while the Americans lost 13. Ross retreated all night, and was followed. At West Canada Creek the infamous Butler was killed.⁴

The estates of the Johnsons were forfeited, and a race of New Englanders succeeded the Scotch Highlanders in this co. No further event of especial interest has since disturbed the even current of events.

BEECKER CREEK⁵—was formed from Johnstown, April 4, 1831. A part was re-annexed to that town in 1841, and a part of Caroga was taken off in 1812. It is the central town upon the s. border of the co. Its surface is a hilly and mountainous upland, the highest summits upon the s. border being 2,000 ft. above tide. The streams are head branches of West Stony⁶ and Garoga Creeks. In the valleys are several small lakes, the principal of which are Chases Lake, in the s., and Woodworth Lake, on the s. border. The soil is thin and light, and the surface is very stony. Lumbering and tanning⁷ are the leading pursuits. **Beecker**, (p. v.), near the s. border, contains a church, a sawmill, a large tannery, and 20 dwellings. The first settlements were commenced about 1800.⁸ The census reports 3 churches: M. E., Germ. Meth., and R. C.

BROADALBIN⁹—was formed from "*Caughnawaga*," (now Broadalbin, Johnstown, and Mayfield,) March 12, 1793. Northampton was taken off in 1799, and a part of Perth in 1842. It is the central town on the n. border of the co. Its surface is rolling and mostly susceptible of cultivation. Chautauqua Creek flows through the s. e. corner, Fondas Creek flows w. through near the center; Frenchmans Creek through the s. part; and Mayfield Creek through the s. w. corner. The soil is mostly of the drift formation, inclining to sand. The s. part extends into the great Sacondaga Vale, which is annually overflowed, and in which the soil is alluvial. **Fondas Bush**, (Broadalbin p. o.) on Fondas Creek, near the w. line, was incorp. April 17, 1815, as

¹ This slave was sold among the confiscated property of Sir John. The purchaser, Col. Vallett Ayler, could not induce him to betray the secrets of his master. He was subsequently recovered by Sir John, and accompanied him to Canada. The papers buried with the money and plate were afterward found to be ruined, but the coin and plate were recovered and taken to Canada.

² See page 414.

³ Of these 475 were British and Tories and 139 were Indians.

⁴ See page 414.

⁵ Named for Rutgers Beecker, of Albany, a patentee. The town includes portions of Chace's, Glen's, Beecker's, Lansing's, and Mayfield's Patents.

⁶ Named Des-kon-ta on Southier's map, pub. in 1779.

⁷ There are 3 large tanneries in town.

⁸ Among the early settlers were James Morse, Wm. Reed, Ephraim Landley, James Landon, Samuel Shaffer, Wm. Egbin, Frederick Mills, — Goodsell, and Geo. Hamilton,—all from New England. The first death was that of — Goodwell, about 1806. Wm. Chase, the patentee, built a gristmill on the s. branch of Stony Creek, in 1804-05.

⁹ Named from a place in Scotland, by James McIntyre, one of the early settlers. This town comprises parts of Sacondaga, Kayakeroceras, and Stone's Patents.

"*Ransomville*." It contains 3 churches, 3 buckskin dressing mills, a saw and grist mill, and 3 mitten factories. Pop. 671. **Mills Corners**, (p. o.) in the E. part, is a hamlet. **Union Mills** (p. o.) contains a sawmill, paper mill, a peg factory, and 10 houses. **North Broadballin**, (p. o.) in the N. E. part, contains a church, saw and grist mill, and 10 houses. The first settlement was commenced before the Revolution.¹ The census reports 5 churches in town.²

CAROGA³—was formed from Stratford, Bleecker, and Johnstown, April 11, 1842. It lies on the N. border of the co., W. of the center. Its surface is rolling in the S. and broken in the N. by small, sharp mountains. A large hill lies W. of Garoga Creek; and a swell of land rises about 200 ft. between the principal branches. Numerous clusters of lakes lie in the center and N. part of the town, the principal of which are E. and W. Fish Lakes, Garoga Lake, the Stink Lakes, Bellows, Prairie, Green, and Pine Lakes. Garoga Creek flows S. from Garoga Lake. A small portion of the area only is susceptible of cultivation. Lumbering is the principal business. **Rev. Lewis Mills** (p. v.) contains a church, (Ref. Prot. D.) a large tannery, and 30 houses. The first settlement commenced about 1790.⁴

EPHRAIM⁵—was formed from Palatine, (Montgomery co.,) March 27, 1827. A part was re-annexed to that town on the division of the co. in 1838. It lies on the S. border of the co., W. of the center. Its surface is mostly a hilly upland, 400 to 1,500 ft. above the Mohawk. Garoga Creek flows S. W. through the town, in a deep valley, the hills on either side rising about 800 feet above the creek. The soil is sandy, and in the S. E. a clayey loam. **Ephraim**, (p. v.) in the S. part, contains a church, gristmill, a large tannery, and 359 inhabitants. **Garoga**, (p. v.) in the N. part, contains a saw and grist mill and 12 houses. **Rockwood**, (p. v.) in the N. E. corner, contains 2 churches, 2 sawmills, a gristmill, 2 tanneries, a buckskin dressing mill, and 196 inhabitants. **Lassellsville**, (p. v.) in the W. part, contains 2 churches and 20 houses. The first settlement commenced under the auspices of Sir Wm. Johnson, in 1765.⁶ The census reports 6 churches in town.⁶

JOHNSTOWN⁷—was formed from "*Caughnawaga*," (now Broadballin, Johnstown, and Mayfield,) March 12, 1793. Lake Pleasant was taken off in 1812, Bleecker in 1831, Mohawk in 1837, and a part of Caroga in 1842. A part of Bleecker was re-annexed in 1841. It lies on the S. border of the co., near the center. A series of hills occupy the N. part. A high ridge extends through the W.; and the remaining parts of the town are rolling. Cayadutta Creek flows S. W. through the E. part; Garoga Creek flows through the S. W. corner; and Garoga Creek through the W. part. The soil is a clayey and sandy loam. The manufacture of buckskin gloves and mittens forms an important item in the business of the town. **Johnstown** (p. v.) was incorp. April 1, 1808. It is situated on the Cayadutta, S. E. of the center; and it contains the co. buildings, 7 churches, the Johnstown Academy,⁸ 3 printing offices, a bank, 2 gristmills, a sawmill, planing mill, and gas works. Pop. 1,661. **Gloversville**, (p. v.) on the Cayadutta, 4 mi. S. of Johnstown, is noted for its manufacture of gloves and mittens.⁹ It was incorp. in April, 1853, and contains 3 churches, the Gloversville Union Seminary, a printing office, a bank, a paper box factory, machine shop, and gristmill. Pop. 1,965. **Kingsborough**, (p. v.) in the E. part, contains a church, an academy, 10 mitten factories, and 300 inhabitants. **Sammonsville**, (p. v.) in the S. W., contains a paper mill, gristmill, and 15 houses. **West Bush**, (p. o.) in the N. part, **Kecks Center**, (p. o.) in the W. part, and **McDwens Corners** are hamlets. The first

¹ Henry Stoner, Joseph Scott, Benj. Deline, Philip H-bmer, Andrew Bowman, Herman Schabauer, John Putnam, Joseph Desilver, John Homan, Elias Gady, settled near Fondus Bush before the Revolution.—*Swann's Trappers of N. Y.*, p. 21. James M. Ingers, Alexander Murray, Alexander Oliver, Daniel McIntyre, and Nathan Brookway, from Scotland, Peter Demarest and Derrick Bantz, from N. J., Abram Manchester, Reuben Burr, and Enoch Cromwell, from New Eng., settled soon after the Revolution.—*Ibid.*—*Komey* held the first religious services, after the war, in 1798-94.

² Presb., M. E., Bp., Christian, and Union.

³ Named from the principal stream. Custom has applied the name "Caroga" to the latter, and "Caugh" to the town.

⁴ David, Robert, and Solomon Jeffers settled in 1758; Samuel Gaze, Reuben Beckman, Wm. Jefferson, Abram Carley, Anthony Stowart, Nathan A. Welcke, Isaac Beckham, Ephraim Gardner, Ira Bantz, John M. G. J. McLellan, Titus Foster, Lenox Lewis, and Daniel Gott, were also early settlers. The first marriage was that of Francis Vandercok and Lucy Jeffers, in 1800. The first death was that of Mrs. Amy Mead, in 1804.

⁵ Frederick Gotman, Jacob Lumpe, and Jacob Schell settled near the village. Nehemiah Bechtel, Jacob Fry, Henry Herring, Philip Kreitzer, Wm. Cool, — Deutzer, Johannes Winkle,

Wm. Smith, Henry Hart, Zachariah Trapp, John Casdemon, Peter Schmitt, and Jacob Ephe, from Germany, came in from Schodack, mostly before the Revolution. The first German school was taught by — Mead, and the first English school by — McLean. A gristmill was built by Sir Wm. Johnson soon after the first settlement. It was afterward burned by the Tories. Johannes Winkle built the first mill after the Revolution.

⁶ 2 M. E., 2 Union, Bp., and Ref. Prot. D.

⁷ Named from Sir William Johnson. The town embraces the Kingsborough Patent, granted June 23, 1763, a part of Stone Arabia, Butler's, and the Saratoga Patents.

⁸ This Seminary was built in 1798-99, by Wm. Van Vleet, Sr. Wm. Johnson's part, a portion of the Kingsborough Patent for the benefit of a free school. This reservation was reported by the courts of forfeiture, and trustees were appointed to take charge of the trust. The proceeds were appropriated to the use of this academy.

⁹ There are in this town over 100 establishments for the manufacture of gloves and mittens, and 10 mills for dressing the skins. This business was first commenced by Ezekiel Case, in 1803, and has grown from a small beginning, until now it is said that over \$500,000 capital is invested in it.

settlement was commenced under the auspices of Sir Wm. Johnson, in 1760. He removed to "Johnson Hall," about $\frac{3}{4}$ of a mi. n. w. of Johnson Village, in 1761 or '62. There were then about a dozen houses in the village, and 100 tenants on farms adjacent. The lands were leased by him with the evident intention of establishing a baronial estate for his family.¹ The census reports 11 churches in town.²

MAYFIELD³—was formed from "*Caughnawaga*," (now Broadalbin, Johnstown, and Mayfield,) March 12, 1793. Wells was taken off in 1805, and another portion of Mayfield was annexed to that town in 1812. A part was annexed to Perth in 1842. It lies on the n. border of the co., e. of the center, and extends nearly to the s. line. Its surface in the n. part is broken by mountains rising 1,500 to 2,000 ft. above tide. These elevations are of primary formation, with rounded summits, the higher peaks having steep declivities. The central and s. parts are rolling and generally susceptible of cultivation. Stony Creek flows through the n. w. corner; Mayfield Creek through near the center; Fondas Creek⁴ through the s. e. part; and Cranberry Creek in the e. part. The soil is sandy and gravelly, in some places strewn with boulders. The valleys are alluvial, with some clayey loam. **Mayfield** (p. v.) contains 2 churches, a saw and grist mill, and 600 inhabitants. **Vails Mills**, (p. v.) in the s. e. part, contains a sawmill, a gristmill, a tannery, and 20 houses. **Jackson Summit** is a p. o. The first settlement was commenced about 1760 or '61, under Sir Wm. Johnson, on the old road from Tribes Hill to the Sacondaga, and was then called "*Philadelphus Bush*."⁵ There are 2 churches in town: M. E. and Presb.

NORTHAMPTON⁶—was formed from Broadalbin, Feb. 1, 1799. It is the n. e. corner town of the co. Its surface is hilly in the n., the hills rising about 1,000 ft. above the valley. In the s. part the Sacondaga⁷ Vlaie occupies several thousand acres, which cannot easily be drained. Sacondaga River flows s. e. through the center of the town, in a valley $\frac{1}{2}$ to 1 $\frac{1}{2}$ mi. wide. Mayfield Creek flows e. near the s. border. The soil in the valley is a rich alluvium, and on the upland a sandy loam. In places it is stony and rocky. Shell marl abounds in the bed of the Vlaie. **Northville**, (p. v.) in the n. part, contains 3 churches, 4 mitten factories, and 450 inhabitants. **Northampton**,⁸ (p. v.) in the s. e. corner, contains 2 churches, a large tannery, and 210 inhabitants; and **Osborns Bridge** (p. o.) a church and 10 houses. **Cranberry Creek** is a p. o. The first settlement commenced under Sir Wm. Johnson, about 1770.⁹ The census reports 5 churches in town.¹⁰

OPPENHEIM—was formed from Palatine, (Montgomery co.) March 18, 1808. St. Johnsville (Montgomery co.) was taken off in 1838. It is the s. w. corner town of the co. Its surface is a hilly upland, inclining gradually to the s. w. In the n. e. part the hills rise 1,200 to 1,500 ft. above the Mohawk. East Canada Creek flows s. along the w. border. Fish Creek flows through the n. w. corner. Little Sprite, Crum, Zimmerman, and Fox Creeks all flow s. w. The soil in the s. w. is clay, in the s. e. a clayey loam, and in the center and n. a light, sandy and gravelly loam. Boulders are scattered over the surface in profusion; and primary rock appears in the s. Limestone has been extensively quarried in the s. w. part, for the Erie Canal and for private use. **Oppenheim**, (p. v.) near the center, contains a church, a sawmill, and 59 inhabitants. **Brockets Bridge**, (p. o.) in the w. part, on the line of Herkimer co., **Lottville**, (p. o.) in the

¹ Among the tenants were Dr. Wm. Adams; Gilbert Tice, inn-keeper; Peter Young, miller; William Phillips, wagon maker; Jas. Davis, hatter; Peter Vest, tanner; Adrian Van Sickle, Maj. John Little, and Zephaniah Luchter. The first school was taught by ——— Balwath, and the second by G. B. Throop. The tenants were imbued with the political sentiments of the Johnson family, and shared its fortunes. The estates were confiscated during the Revolution; and many from New England settled there after the war.

² The first clergyman, according to the records, was Rev. ——— Mosley, in 1770. The churches are 2 M. E., 2 Presb., Bap., Cong., Evan. Luth., Asso. Presb., Prot. E., Ref. Prot. D., and R. C.

³ Named from the Mayfield Patent, granted June 27, 1770. The town comprises parts of this and Cleecker, Kingsborough, Sacondaga, Kayaderosseras, Glen, Dan'l Claus's, and Norman McLeod's Patents.

⁴ Called by the Indians Ken-neat-too.

⁵ Nathaniel Conners, Michael Corman, two families of Walters, Peter Whitman, ——— Schutt, ——— Circum, Michael Haynes, George Cough, Simon Christie, and John Anderson, settled before the Revolution. William and Robert Jackson, David Knapp, Alvin McDougal, Peter and John McKinley, Duncan Anderson, Isaac Bonas, Captain and Major Van Buren, Douw and Jellis Fonda, Samuel Lefferts, William Van

David and Luke Woodworth, and Jamb. Partlett were also early settlers. The first birth was that of Mary Cough, in 1766. Christian Furburback taught a German school in 1771. Mills were built for Sir Wm. Johnson in 1773.

⁶ Named from the patent granted to Jacob Mase, John R. Bleecker, and others, Oct. 17, 1741.

⁷ Local pronunciation, Sock-a-daw-gar.

⁸ Locally known as "Fishhouse."

⁹ Godfrey Shew was the first settler; John Eikler, Lent and Nicholas Lewis, Robert Martin, Zolobon Alger, families of Ketchum and Chadwick, Aschel Parker, John Trumbull, John Roosevelt, Alexander St. John, and John Fay, were among the other early settlers. Soon after the Revolution, Zadee Sherwood and Samuel Olmsted settled at Northville. They were followed by Thos. Fisher, Daniel and Timothy Besseque, John McNeil, Calvin Young, Adam Olmsted, Cornelius Richardson, Elnah Coleman, Sylvanus Sweet, Robert Palmer, John Randall, Eli Sprague, Green Wells, Cornelius Harvey, Felix Porter, and John Denison,—mostly from New England. The first birth was that of Godfrey Shew, about 2 years before the Revolution; the first marriage was that of Alexander St. John and Martha Scribner, about 1798; and the first recorded death, that of Gideon Olmsted.

¹⁰ 2 Presb., 2 M. E., and Bap.

... and **Crum Creek**, (p. o.) in the s. part, are hamlets. The first settlement was commenced by Germans, before the Revolution.¹ Rev. Jacob Frisband held the first religious services, about 1800.²

PERTH³—was formed from Amsterdam, (Montgomery co.,) April 18, 1831. Parts of Mayfield and Broadballin were annexed Feb. 17, 1842. It is the s. e. corner town of the co. Its surface is gently rolling. Chuctemunda Creek flows through the extreme e. part of the town. The soil is mostly a clay loam. Limestone crops out in several places; but the prevailing rock is slate. **West Galway**, (p. v.) in the s. e. corner, on the line of Saratoga co., contains a church and 20 houses. **Perth**, (p. o.) in the s. part, contains a church and 8 houses. **West Perth** (p. o.) is a hamlet. The first settlement commenced on the road from Tribes Hill to Sacondaga, about 1760.⁴ The census reports 2 churches in town: Presb. and Asso. Ref. Presb.

STRATFORD⁵—was formed from Palatine, (Montgomery co.,) April 10, 1805. A part of Caroga was taken off in 1842. It is the s. w. corner town of the co. Its surface is a high, rolling, and hilly upland, 800 to 1,200 ft. above the Mohawk, and in the extreme x. 1,800 to 2,000 ft. above tide, with a general inclination to the s. w. East Canada Creek flows through the s. w. corner and forms a part of the w. boundary. North, Ayers, and Fish Creeks are the principal streams. In the s. part are several small lakes, the principal of which are Dexter, Spertacle, North Pleasant, and Ayers Lakes. The soil in the s. w. and in the valley of East Canada Creek is a clayey loam; and in other parts it is light, sandy, and gravelly. **Nicholsville**, (Stratford p. o.,) on the w. border, partly in Herkimer co., at the junction of Ayers and East Canada creeks, contains 2 churches, 4 sawmills, a gristmill and tannery, and 32 houses. **Whitesburgh** (p. o.) is a hamlet, in the s. w. corner. The first settlement was commenced by Samuel Bennett, in 1800.⁶

¹ Rudolph Youker was the first settler; John Shaver, Jacob Youner, Moses Johnson, Daniel Dickman, Wm. Altberger, Henry Bunkler, Frederick Blandner, and Simon Saylor settled in the s. part; Benjamin Berry, Peter Clave, Jacob Leube, James Johnson, Wm. Bean, Richard Hewitt, and Daniel Gable, from New England, settled in the central part, and Jacob Gable, William Altberger kept the first mill; Andrew Zabriskie the first store; and John Beard-ley built the first mill. Mr. B. was the pioneer millwright in Central New-York, and took an active part in the first improvements of this class.

² The reared churches in town; 2 Univ., M. R. and Ref. Prof. D.

³ Named from Perth, in Scotland, by Archibald McFarlane. This town contains parts of the Kayaderosores and Sacondaga Patents.

⁴ Charles Mereness, Richard Bowen, Marcus Rees, — Davis, Michael Swobe, and Francis Frey settled before 1770.

Lawrence E. Van Allen, Henry Van Valkenburgh, Ja Ber-let, Conrad and Francis Wanne, David Swann, James and Wm. Robb, and Peter Aeschler, settled soon after the Revolution, on one tier of lots of Lot 4 Low's Patent, and a part of the Joseph Field Patent, granted to Henry Glen and others, April 12, 1771.

⁵ John Wells, Amos Kinney, Eli Winslow, Nathan Gunn, Ebenezer, Levi, and Samuel Biss, Abel Kubler, and David Shofarkey, settled on the Johnstown road, and Stephen and John Woods, Amos C. Chappell, and Abner M. Shaw on other parts of the town. The first birth of the town of Lansing Wells, in 1802; the first marriage, that of Susan Field and P. B. Kinney; and the first death, that of Jesse Wilson, killed by the fall of a tree, Dec. 25, 1802, of 63. S. B. m. kept the first gristmill and the first saw-mill on the patentees, built the first gristmill, on Fish Creek, in 1819; and Daniel Cross built the first tannery, in 1812.

GENESEE COUNTY.

THIS county was formed from Ontario, March 30, 1802. It originally comprised all that part of the State lying w. of Genesee River, and a line extending due s. from the point of junction of the Genesee and Canaseraga Creek to the s. line of the State. Allegany was taken off in 1806, Cattaraugus, Chautauque, and Niagara in 1808, parts of Livingston and Monroe in 1821, Orleans in 1824, and Wyoming in 1841. A part of Covington was annexed to Livingston co. in 1823, and Shelby was added to Orleans in 1825. It is one of the western cos. in the State, separated by Orleans from Lake Ontario and by Erie from Niagara River. It is centrally distant 229 mi. from Albany, and contains 507 sq. mi. The surface is mostly level or gently undulating. The s. border is occupied by

ranges of hills which extend n. from Wyoming co. and attain an elevation of 200 to 300 feet above the valleys and about 1000 feet above tide. A limestone terrace, bordered in many places by nearly perpendicular ledges, extends e. and w. through the co., n. of the center. At each extremity in the co. this terrace ranges in height from 50 to 100 feet, but it declines toward the center to a height of 20 to 40 feet. Tonawanda Creek¹ enters Alexander from the s., and flows in a n.e. direction to the village of Batavia, thence turns and flows in a general n. w. direction to the w. border of the co. Its course is very tortuous, and its current generally sluggish.² Its principal tributaries are Little Tonawanda and Bowens Creeks. Oak Orchard Creek takes its rise near the center of the co. and pursues a winding course to the n.e. corner of Elba, thence turns w. and flows through the great Tonawanda Swamp, which occupies the n. part of Elba, Oakfield, and Alabama. Black Creek³ flows n. through near the center of Bethany, Stafford, and Byron, thence easterly through Bergen into Monroe co. Its tributaries are Bigelow and Spring Creeks. Oatka Creek flows across the s.e. corner of the co., and Murder⁴ and Eleven Mile⁵ Creeks across the s. w. corner. Tonawanda, Black, and Oatka Creeks form a series of fine cascades in their passage down the limestone terrace near the center of the co. The lowest rocks in the co. belong to the Onondaga salt group, extending along the n. border. Gypsum is quarried in Le Roy, Stafford, and Byron. This is succeeded by the hydraulic, Onondaga, and corniferous limestones, which form the limestone terrace extending through the co. Lime and building stone are extensively obtained from the outcrop of these rocks.

Succeeding the limestone in order are the Marcellus and Hamilton shales, occupying the whole s. part of the co. The surface generally is covered thick with drift deposits, and the underlying rocks only appear in the ravines of the streams. Nearly all the swamps contain thick deposits of muck and marl, furnishing in abundance the elements of future fertility to the soil.⁶ Many of the springs and streams are constantly depositing lime in the form of marl. Along the n. border are numerous wells yielding water strongly impregnated with sulphuric acid, and known as "Sour Springs." The soil is generally a very deep and fertile sandy or gravelly loam intermixed with clay and mostly underlaid by clay or limestone. This co. embraces a portion of the "Genesee Country," which from the first settlement has been famed for its fertility. The people are almost exclusively engaged in agriculture. For many years wheat formed the staple product; but of late the ravages of the midge have led to the more general raising of the coarser grains, and have turned the attention of farmers to the cultivation of fruit, wool growing, cattle raising, and dairying.

The co. seat is located at the village of Batavia.⁶ The courthouse is a fine stone edifice, 3 stories high, containing the co. clerk's office and the other co. offices.⁷ The jail is a new brick building, a few rods w. of the courthouse.⁸ The poorhouse is situated on a farm of 133 acres in Bethany, near

¹ Signifying "swift running water," from the rapid current for 10 mi. below Batavia.

² Between Attica (Wyoming co.) and Batavia this stream flows between two parallel roads about 1 mi. apart. The distance by the highway is 11 mi., and by the stream 43 mi.

³ Indian name "Chick-o-wagon."

⁴ So named because the body of a man supposed to have been murdered was found in it by Joseph Peters, Esq., of Durin.

⁵ So named from crossing the old Buffalo Road 11 mi. from Buffalo.

⁶ By the act of organization, the Holland Land Co. were re-

quired to donate 1 acre of land for co. purposes and erect the necessary co. buildings. Joseph Ellicott, agent of the company, complied with the requirement of the law, and erected the buildings in 1802. The first officers of the co. were Joseph Ellicott, *First Judge*; Daniel D. Brown, *District Attorney*; James W. Stevens, *Co. Clerk*; Richard M. Stoddard, *Sheriff*; Jeremiah R. Munson, *Surrogate*.

⁷ The new courthouse was erected in 1841-42, at a cost of \$17,000.

⁸ The new jail was erected in 1851. The average number of inmates is 3.

the s. line, and 9 mi. s. e. of Batavia. The average number of inmates is 90, supported at a weekly cost of \$ 72 each, in addition to the income of the farm, which is about \$1600. A school is maintained 7 months in the year, and at suitable age the children are bound out. The general management is creditable to the co., and is far better than that of a large majority of similar establishments in the State.¹

The N. Y. Central R. R. extends in a s. w. direction through Bergen, Byron, Stafford, Batavia, Pembroke, and the s. w. corner of Darien. A branch of this road extends s. from Batavia through Alexander to Attica. The Canandaigua and Niagara Falls Branch extends w. through Le Roy, Stafford, Batavia, and Pembroke, crossing the main line at Batavia. The Buffalo, New York & E. R. R. extends through Le Roy, Stafford, Batavia, and Alexander.² Several plank roads have been built in the co.; but most of them have been abandoned. An important canal feeder extends from Tonawanda Creek through the s. w. corner of Alabama. There are 5 newspapers published in the co.³

This co., embraced within its original limits all that portion of the State included in the purchase of Robert Morris, Phelps and Gorham, the original purchasers of the whole of Western N. Y., failed to meet the obligations to the State of Mass., and a large share of their tract reverted, and was purchased by Samuel Ogden for Robert Morris, May 12, 1791.⁴ Morris sold the w. portion of the tract, constituting about seven-eighths of the whole, to the Holland Land Company, July 20, 1793,⁵ reserving to himself a strip of an average width of 12 mi., lying between the Phelps and Gorham and the Holland Purchases, and known as the Morris Reserve.⁶ The Holland Land Company, an association of capitalists in Holland, made this purchase through agents who were citizens

¹ The parsonage is a brick edifice, with a stone wing for the accommodation of the insane.

² A few years since, a route for a R. R. was surveyed from Batavia to the mouth of Oak Orchard Creek, on Lake Ontario.

³ The *Geneee Intelligencer* was commenced in the spring of 1857, at Batavia, by Elias Williams, and was the first paper published w. of Genesee River. It was suspended in Oct. of the same year. In the spring of 1818 Benj. Blodgett and Samuel Peck commenced

The Cranescoop, and continued it until 1811.

The Republican Advocate was commenced in 1811, by Benj. Blodgett and David C. Miller. It soon passed into the hands of Mr. Miller, and was published by him until 1825. It was then successively in the hands of Charles Suttell, Chas. W. Miller, Edwin Honch, Andrew W. Young, Lewis & Brown, C. C. Allen, Waite & Cooley, and Daniel D. Waite. In 1834 it was merged in the Genesee Co. Advertiser, and was issued by Kimberly & Goodrich as the

Republican Advocate and Genesee Co. Advertiser. In 1855 Mr. Goodrich withdrew, and the name was changed to

The Republican Advocate, and was continued by J. H. Kimberly until 1877, when the office passed to D. D. Waite, one of its former proprietors, by whom the paper is still published.

The Daily Advocate was commenced in May, 1859, by D. D. Waite.

The Spirit of the Times was commenced at Batavia, Feb. 3, 1819, by Orion Follett. In May, 1825, it was sold to his brother, Frederick Follett, who continued the publication until Aug. 1836. It was successively published by Nelson D. Wood, Fred. Follett, Lucas Seaver, Wm. Sawyer & Son, and Charles Hurley, until 1856.

The People's Press was commenced at Batavia in 1825, by an association, Benj. Blodgett, editor. It was afterward issued by Martin, Adams & Thorp, Adams & Thorp, and Adams & McClary, and was subsequently merged in the Spirit of the Times, and for some years was published as

The Spirit of the Times and The People's Press.

The Morgan Investigator was published at the office of the Republican Advocate during the Morgan excitement in 1827, and continued about a year.

The Morgan Intelligencer, instigated by the same excitement, was published for about the same period from the office of the People's Press.

The Farmer and Mechanic Journal was commenced at Alexander, Nov. 4, 1827, by Peter Lawrence. In June, 1840, it was moved to Batavia and issued as

The Batavia Times and Farmers and Mechanics Journal, by Frederick Follett and Peter Lawrence. Soon after, Fred. Follett became the sole proprietor, and published it until Sept. 1847, when it was sold to Lucas Seaver and was merged in the Spirit of the Times.

The Temperance Herald, now, was issued from the office of the Spirit of the Times, by Lucas Seaver, for one year from March, 1842.

The Le Roy Gazette was commenced in 1826, by J. O. Balch. It was successively issued by Starr & Hodelkin, Henry D. Ward, Richard Hollister, Rufus Robertson, F.

Goodrich, Seth M. Gates, Martin O. Coe, and Cyrus Thompson, until 1849, when it passed into the hands of C. B. Thompson, its present publisher.

The Genesee Republican and Herald of Reform was commenced at Le Roy in 1829, and was published for 1 or 2 years by Freeman & Son,—Orastes A. Freeman, editor.

The Genesee Courier was commenced at Le Roy in the spring of 1844, by Edw. Bliss, and was published about a year. Mr. B. resuscitated it in 1853, and published it a short time.

The Genesee Herald was commenced at Le Roy in 1854, by Wm. C. Grinnond.

In Jan. 1857, it was removed to Batavia, where it is now published by A. J. McWam.

The Genesee Daily Herald was issued from the same office in 1855, and is still published.

The Le Roy Democrat was commenced in Dec. 1852, by Henry Tuck. In May, 1853, it was removed to Batavia, and its name changed to

The Batavia Democrat. In Dec. 1856, it passed into the hands of J. H. Bergen, by whom it was changed to

The Genesee Weekly Democrat, still published.

The Genesee Whig was commenced at Batavia in 1826, by Kimberly & Torrl, and was published by them until 1854, when it was merged in the Republican Advocate.

The Le Roy Advertiser was discontinued April 15, by Moses B. Furtz. It was discontinued in July, 1858.

⁴ The E. line of the Morris Purchase commenced upon the Penn. line, 44 78-100 mi. w. of the present location, and ran due S. to an elm tree at the forks of the Genesee River and Cane-sageen Creek, thence northerly along that river to a point 2 mi. N. of the Canawana Village, thence due W. 12 mi., thence S. 24 E. to Lake Ontario.

⁵ The line forming the division between the Holland Purchase and the Morris Reserve commenced upon the Penn. line, 12 mi. w. of the W. line of the Phelps and Gorham Purchase, and from thence ran due S. to near the center of Stafford town square, thence due W. 2,475 7/8 mi., and thence due S. to Lake Ontario. This line is known as the Transit Line, from its being run by a transit instrument, then first used in surveys. The object was made in this line to prevent the Holland lands from overlapping the Conn. Tract. The names of the members of the Holland company were Willem Willink, Jan Willink, Nicholas Van Stophorst, Jacob Van Stophorst, Nicholas Hilliard, Peter Van Eeghen, Christian Van Eeghen, Jan Theo. C. Hendrick V. E. Ienhouven, Christina Coster, (widow), Jan Stoditski, and Rutz & J. Schmuelbetnick.

⁶ This Reserve was sold out in seven large tracts to different purchasers. A tract containing 87,000 acres, lying immediately w. of Phelps and Gorham's "67 Tract," was sold to Le Roy Bayard and M. Evers, and is known as the Triangular Tract. The Connecticut Tract lies immediately w. of the Triangle, and contains 100,000 acres. It was purchased by the State & Gen. and Sir Wm. Pittney and was divided into two tracts. The Crane Tract, containing 50,000 acres, joins the Conn. Tract on the s., and immediately E. is the 40,000 Acre Tract. South of these are successively the Ogden Tract, of 50,000 acres, the Cottinger Tract, of 50,000 acres, the Stratford Tract, of 100,000 acres, and the Church Tract, of 100,000 acres. A small tract joining the 40,000 Acre Tract on the s. is known as Morris's Honorary Creditors' Tract.

of this country, as at that time aliens could not hold real estate. Immediately after the passing of title, measures were taken to extinguish the Indian titles and to survey the tract. A council of the Senecas was held at "Big Tree," now Geneseo, in Sept. 1797, at which time the Indians ceded most of their lands to the whites.¹

The general office of the Holland Land Co. was located at Philadelphia. Theophilus Cazenove, the first general agent, took charge of all the business relating to the company from the first purchase of the lands until 1799. He was succeeded by Paul Busti, who took the chief management of affairs until 1824,—a period of 25 years. His successor was John J. Vander Kemp, who continued to manage the affairs of the company until their final settlement. In July, 1797, Joseph Ellicott was engaged as principal surveyor of the Holland Land Co.² In 1798, Mr. Ellicott and his assistants ran the E. line of the territory—since known as the Transit Line—from Penn. to Lake Ontario, forming the basis for the future surveys and divisions of the territory. The surveys were continued until the whole territory was divided into ranges and townships. The former numbered from E. to W. and the latter from S. to N.

In 1798 the first State roads were laid out from Conewagas, on Genesee River, to the mouth of Buffalo Creek, and to Lewiston, on Niagara River. A few settlers located in various places in 1798-99, but the settlements did not progress with great rapidity until after the opening of the Land Office in Oct. 1800. The first place of business opened was the "Transit Store House," located on the present site of Stafford Village, in 1798, to furnish supplies to the surveyors engaged in running the Transit Line. The land office was first established at "Pine Grove," the residence of Asa Ransom, on the present site of Clarence Hollow, Erie co. Upon the organization of Genesee co., in 1802, the office was transferred to Batavia, where it continued until the final closing up of the affairs of the company. In 1821, Mr. Ellicott resigned his agency, and was succeeded by Jacob S. Otto, who held the office until his death, in 1827. His successor was David E. Evans, who continued in charge of affairs until 1837, when the business of the company was closed.³ In 1811, Ebenezer Mix entered the service of the company as clerk, and for 27 years he had control of the entire sales and subdivisions of lands,—a post for which his mathematical abilities, a tenacious memory, and habits of order admirably qualified him. In 1835 the Holland Company sold all their remaining lands and all their interests to a new company, principally of Batavians, and a new order of things was established. Difficulties at once arose between the new company and the settlers in various parts of the purchase; and, finally, mobs collected to destroy the land offices.⁴ The opening of this new region to settlement, under the auspices of a liberal and wealthy company, instituted a new order of things in the general history of the co., and was of incalculable benefit to the settlers. Mills were erected, costly roads opened, and every thing done to facilitate settlement and to remove difficulties in the path of settlers. The lands were sold at fair prices and on the most liberal terms. The affairs of the company, both at their general and local offices, were conducted by gentlemen of liberal culture, enlarged views, and humane hearts. In consequence of the richness of the lands and the liberal terms offered by the company, the whole region rapidly filled up with an industrious, intelligent, and enterprising population. Many of the early settlers afterward occupied high official positions and became known throughout the State for their ability and integrity.

¹ The tracts reserved by the Indians were the Cannawagus Reservation, of 2 sq. mi., on the Genesee, W. of Avon; Little Bards and Big Tree Reservation, of 4 sq. mi., on the Genesee, opposite Genesee; Squakio Hill Reservation, of 2 sq. mi., on the Genesee, N. of Mt. Morris; Garden Reservation, of 28 sq. mi., on both sides of the Genesee, in Castle and Mt. Morris; the Canadua Reservation, of 16 sq. mi., on both sides of the Genesee, in Allegany co.; the Old Spring Reservation, of 1 sq. mi., on the line between Cattaraugus and Allegany; the Allegany Reservation, of 42 sq. mi., on both sides of the Allegany River, extending N. from the Penn. line; the Cattaraugus Reservation, of 42 sq. mi., on both sides of the mouth of Cattaraugus Creek; the Buffalo Reservation, of 130 sq. mi., on both sides of Buffalo Creek; the Tonawanda Reservation, of 70 sq. mi., on both sides of Tonawanda Creek, mostly in Genesee co.; and the Tuscarora Reservation, of 1 sq. mi., 3 mi. E. of Lewiston, Niagara co. The titles to all these reservations, except the Tonawanda, Buffalo, Cattaraugus, Tuscarora, and Allegany, have since been extinguished.

² Mr. Ellicott took entire charge of the surveys of these lands, and completed them in 10 or 12 years. In 1800 he received the appointment of local agent, and for a period of more than 20 years he had almost exclusive control of the company's local business. Under his management an immense tract of wilderness was converted into one of the finest agricultural regions in the world. From his first advent into Western N. Y., he took a high position as an enterprising citizen, independent of his connection with the land office. He conducted the large and complicated business committed to his charge with marked

ability, and he left a name highly honored throughout the extensive domain over which he exerted so commanding an influence.

³ In 1850 an act was passed directing the original field notes and maps to be deposited in the secretary's office for preservation and as legal proofs. In closing the affairs of the company, it was found necessary to obtain evidence of the death of certain original proprietors; and an act, passed May 13, 1846, directed the appointment of a special commissioner to visit Europe, Julius Rhoades was intrusted with this duty.

⁴ One of the principal causes of disturbance was a rumor that the new company intended to exact a certain sum for the renewal or extension of every contract. This rule became very obnoxious; the extra payment received the name of the "Genesee Tax," and opposition to it was extensively resolved upon. The office at Mayville, Chautauque co., was broken open Feb. 6, 1836, and the books and papers were seized and burned in the public highway. On the 15th of May, a report reached Batavia that 700 armed men were on their way to burn the land office at that place. Mr. Evans, the agent, at once fortified the office, and collected a force of 50 men, well armed, to protect it. The militia were also called out. The mob soon came into town; but, learning the preparations made to give them a warm reception, and well knowing the resolute character of Mr. Evans, they concluded that "discretion was the better part of valor," and went away without offering any violence. Between 50 and 60 of the ringleaders were arrested; but the difficulties were afterward amicably adjusted, and the prosecutions were dropped.

ALABAMA¹—was formed from Shelby (Orleans co.) and Pembroke, as "*Gerrysville*,"² April 17, 1826. Its name was changed April 21, 1828. A part of Wales was annexed in 1832. It is the N. W. corner town of the co. The surface is level or gently undulating. The s. and w. portions are covered by marshes, forming a part of the Tonawanda Swamp. Oak Orchard Creek flows across the s. e. corner, and Tonawanda Creek across the s. w. corner. A limestone terrace, 50 to 75 ft. high, extends across the s. part of the town. Tonawanda Creek flows down this declivity in a perpendicular cascade known as Tonawanda Falls, furnishing a fine water power. Near the center of the s. part of the town, a few rods from the banks of Oak Orchard Creek, are the "Oak Orchard Acid Springs."³ The soil is a gravelly and sandy loam with a clay sub-soil. **Alabama Center** (Alabama p. o.) contains 2 churches and several mills. Pop. 166. **Wheatville** (p. v.) lies in the s. e. part of the town. Pop. 93. **Smithville** (South Alabama p. o.) lies near the e. line. Pop. 147. The first settlement was made in 1806, by James Walsworth.⁴ The first church (F. W. Bap.) was formed in the e. part of the town, in 1824, by Elder Samuel Whitcomb, the first preacher.⁵ The Tonawanda Indian Reservation occupies a section of land 2 mi. wide, lying on Tonawanda Creek and comprising about one-fourth of the area of the town.

ALEXANDER⁶—was formed from Batavia, June 8, 1812. It lies on the s. border of the co., w. of the center. Its surface is hilly in the center and s. and rolling in the s. The summits in the s. w. are 200 to 250 ft. above the valleys. The streams are Tonawanda Creek, flowing s. through the center of the town, Little Tonawanda, Huron, and Bowens Creeks, and several smaller streams. The soil upon the hills is a gravelly loam with a clay sub-soil, and in the valleys it is a rich alluvium. **Alexander**, (p. v.), incorp. April 24, 1834, is situated upon Tonawanda Creek, near the center of the town. It contains a flouring mill, seminary,⁷ and 3 churches. It is a station upon the Attica branch of the Central R. R., and also upon the B., N. Y. & E. R. R. Pop. 345. **Brookville** (p. o.) is a hamlet. The first settlement was made by Alexander Rea, in 1802.⁸ The first church (M. E.) was formed in 1835.⁹

BATAVIA—was formed March 30, 1802. Alexander, Bergen, Bethany, and Pembroke were taken off in 1812, and Elba and a part of Stafford in 1820. It is the central town of the co. Its surface is level or gently undulating. A limestone ridge, forming a terrace 20 to 50 ft. high, extends e. and w. through the s. part of the town. Tonawanda Creek flows northward from the line of Alexander to Batavia Village, where it turns westward and flows centrally through the town to the w. border. Bowens Creek is the only other considerable stream. The soil is a deep, fertile, sandy and gravelly loam with a clay sub-soil. **Batavia**, (p. v.), the co. seat, was incorp. April 23, 1823. Besides the co. buildings, it contains a female seminary,¹⁰ union school,¹¹ bank, 3

the abduction, an incident occurred which showed the excited state of feeling that pervaded the community. During the day, Frederick Follett, late Canal Commissioner, a mason, while attending to his duties as marshal of the day, suddenly found himself surrounded by an infuriated crowd of armed men, evidently determined to kill him. He drew his sword, put spurs to his horse, and succeeded in throwing off the grasp of two men upon the bridle, and escaped from the crowd.

¹Named from the State of Alabama, and said to signify "Hemlock." ²Intended to be named in honor of David Gary, one of the early settlers; but through a cheat it was called "*Gerrysville*," from Ebenezer Gerry, Ex-Vice-President.

³The so-called springs are 9 in number, and are all found within a circle of 50 rods. They issue from marl, evidently formed by the action of the water, 2½ to 4 ft. above the surrounding surface. No two of these springs are alike; and in one instance three springs issue from a single mound within 10 ft. of each other, and the waters are essentially dissimilar. The following is an analysis of the waters of the three principal springs:—
No. 1, by Prof. Silliman and No. 2, by Prof. E. Emmons.

Large quantities of this water are annually bottled and sold for medicinal purposes.

⁴Among the other early settlers were Robt. Harper, Jesse Lund, Dr. Smith (from Vt.), and Peter, Joseph, and James Holmes, (from Delaware co.) The first births were those of two children of James Walworth, in 1806; the first death was that of an unknown traveler, at the house of Mr. Walsworth, in 1808. He was buried without a coffin or religious services. The first school was taught by Henry H. Ward, in 1817; the first inn was kept by James Walsworth, in 1808; the first store, by Nahum Lotting, in 1828; and the first sawmill was erected in 1824, by Saml. Whitcomb, at Wheatville.

⁵The census reports 4 churches; 3 Bap. and 1 M. E. ⁶Named from Alexander Rea, the first settler, and for several years a State Senator.

⁷The Genesee and Wyoming Seminary was founded in 1834, through the efforts and liberality of Samuel Benedict and Henry Hawkins. In 1843, Mr. Hawkins bequeathed to the institution \$4000, his private library, and a geological cabinet. It has now a respectable library and cabinet of natural history; and its main building, erected of stone in 1857, has the capacity of accommodating 500 students. ⁸John Onev, Lewis D. Brown, Geo. Darrow, and Mr. Blackman settled in the town in 1802-03. The first death was that of Wm. Whitney, in 1803, by the fall of a tree. The first school was taught by Mr. Jones, in the winter of 1805-06, at Alexander Village. Harvey Hawkins kept the first inn, in 1809, and the first store, in 1807. Alexander Rea and Joseph Fellows built the first sawmill, in 1804; and Wm. Adams the first gristmill in 1807.

⁹The census reports 3 churches in town; Presb. M. E., and Univ.

¹⁰Mrs. Bryan's Female Seminary, a boarding school for young ladies. The school building is the former mansion of David E. Evans.

¹¹The Batavia Union Schoolhouse was erected in 1847, at a cost of \$7000. It includes a higher English and classical department.

newspaper offices, 5 churches, an arsenal,¹ and a number of manufacturing establishments.² Pop. 2868. **Bushville** is a hamlet. In 1800, Joseph Elliott fixed upon the site of Batavia Village as the most eligible place for the location of the office of the Holland Land Co., and in the spring of 1802 the office was removed to this place. The land office building is still standing. The old courthouse and jail is now occupied as a public hall. In March, 1801, Abel Rowe came to the place and erected the first building, and immediately opened it as an inn.³ The first church (Cong.) was formed by Rev. Royal Phelps, in 1809. Rev. Ephraim Chapin was the first preacher.⁴ Batavia was the focus of the great anti-masonic excitement which followed the abduction of William Morgan in 1826.⁵

BERGEN—was formed from Batavia, June 8, 1812. Byron was taken off in 1820. Its surface is gently undulating, and has a slight inclination toward the s. Black Creek flows n. through the town a little s. of the center. The soil is a gravelly and clay loam. **Bergen Corners**, (Bergen p. o.) on the e. border of the town, contains 3 churches and 30 dwellings. **Wardville**, formerly called "*Cork*," on the Central R. R., $\frac{1}{2}$ mi. s. of Bergen Corners, contains 43 inhabitants. **Stone Church** (p. o.) is a hamlet on the line of Le Roy. **North Bergen** (p. o.) and **West Bergen** (p. o.) are hamlets. **East Bergen** is a p. o. The first settlement was made at Bergen Village, by Samuel Lincoln, from Conn. about 1805.⁶ The first religious meeting was held at South Bergen, in Sept. 1807; Rev. Calvin Ingals (Presb.) was the first settled minister.⁷

BETHANY—was formed from Batavia, June 8, 1812. It lies on the s. border of the co., e. of the center. Its surface is hilly in the s. and rolling in the n. Black Creek flows s. through near the center of the town, and Little Tonawanda Creek through the s. w. and s. w. corners. The soil in the e. is a dark, gravelly loam, and in the w. a heavy, clay loam. Weak brine springs have been found; but all attempts to procure salt water by boring have proved unsuccessful. **Bethany Center** (Bethany p. o.) contains 2 churches and 35 dwellings. **East Bethany** (p. v.) a church and about 20 dwellings, and **Linden**, (p. v.) a station on the B. & N. Y. City R. R., a flouring and sawmill, a furnace, and 40 dwellings. **West Bethany Mills** is a p. o. **Canada** (formerly "*Bennetts Settlement*") is a hamlet. The first settlement was made in the s. e. part of the town in 1803, by John Torrey, from Cayuga co. The census reports 5 churches in town.⁸

BYRON—named from Lord Byron—was formed from Bergen, April 4, 1820. It lies on the n. border of the co., e. of the center. Its surface is gently undulating, with a slight inclination to the s. Black Creek flows s. to near the center of the town, receiving the waters of Bigelow and Spring Creeks, then turns s. e. and flows into Bergen. The soil is a fine quality of gravelly and sandy loam. A sulphur spring, from which issues carburetted hydrogen gas, is found on Black Creek a little s. of Byron. An acid spring, known as the "*Sour Spring*," is found in the s. w. part of the town.⁹ **Byron**, (p. v.) located near the center of the town, contains 2 churches and about 150 inhabitants. **South Byron**¹¹ (p. v.) is a station on the Central R. R. Pop. about 200. **Franklin Hill**¹² is a hamlet. Benham Preston, from Batavia, was the first settler, on lot 197,

¹ This arsenal was erected by the State, at Batavia, under an act of 1808 for the protection of the northern and western frontiers. It continues in use as a depository of arms and military equipment.

² This village is one of the most important r. r. stations in West in N. Y. From it three branches of the N. Y. Central R. R. extend w. and s. w.—to Niagara Falls, one to Buffalo, and one to Albany; and two toward the e.—one to Rochester and one to Canadawana. The Buffalo, N. Y. & Erie R. Road also passes through the place.

³ The village was named by Mr. Elliott in 1802, the locality having previously been known as "*The Bend*." The first road was opened through the village in Feb. 1802. Among the early settlers were Stephen Russell, Isaac Sutherland, Gen. Worthy L. Churchill, Col. Wm. Ramsey, John Thomson, John Lambertson, David E. Evans, James Brisbane, James W. Stevens, Richard Abhey, Jedediah Crosby, Colonel Elliott, Cotton Leach, Samuel E. Geer, Benjamin Workden, and—Munger. The first marriage was that of Wm. Weston and Layma How; and the first death, that of — Harris, in 1807. Hannah Austin taught the first school, in 1806; Stephen Russell opened an inn, in 1804; James Brisbane kept the first store, in 1802; and Jos. Elliott erected the first sawmill, in 1801, and the first gristmill, in 1804, on the Tonawanda Creek, for the Holland Land Co.

⁴ The census reports 6 churches; 2 Presb., Prot. E., Bap., M. E., and R. C.

⁵ See page 323.

⁶ Among the early settlers were Jedediah Crosby, David Potter, Wm. White, Jas. Linden, and David Franklin, (from Conn.) who came in 1805-06; and Simon Pearson, (also from Conn.) in

1808. The first child born was Luther Crosby, in 1806; the first inn was kept at Bergen Corners by Samuel Butler, in 1810; the first store by Levi Ward, in 1808. Jared Merrill erected the first sawmill, in the s. w. part of the town, in 1811; and Titus Wilcox (from Conn.) taught the first school, in the winter of 1807-08, at Bergen Corners.

⁷ The census reports 5 churches; 2 Cong., and 1 each Presb., M. E., and R. C.

⁸ In the same year Capt. Geo. Lathrop, from Conn., settled on lot 40, in the N. part of the town, and Orasmus Kellogg, from Sheffield, Mass., in the e. part. Lyman D. Pundell, from Hezekiah, settled at East Bethany in 1806; Joseph Adams, from Elbert co., and Mathew Peck, from Lyme, Conn., settled at Bethany in 1806. The first birth was that of a child of Orasmus Kellogg, in 1803; and the first death, that of Solomon Lathrop, in 1806. Martha Wedge, from New England, taught the first school, in 1808. Sylvester Lane kept the first inn; Elsha Hurlbut, from Vt., the first store, in 1808; and Judge Wilson built the first gristmill, in 1811.

⁹ 2 Presb., and 1 each M. E., Bap., and F. W. B. p.

¹⁰ The acid spring issues from a hillcock about 250 feet long and 100 broad, elevated 4 or 6 feet above the plain. The strength of the acid is increased by drought, and in some places it is quite concentrated and nearly dry in its combination with the clay; a vegetable coat which everywhere covers the hillcock to a depth of from 5 to 40 inches—*Bull's Monography N. Y.*, p. 149.

¹¹ Locally known as "*Bunschell's*."

¹² Named from the fact that an early town sign at that place was painted yellow and resembled a pumpkin.

in 1807.¹ The first religious services were held by Rev. Royal Phelps, (Presb.) from Cayuga co., in 1809. The first church (Bap.) was formed in 1810, by Elder Benjamin M. Parks.²

DARIEN—was formed from Pembroke, Feb. 10, 1832. It is the s. w. corner town of the co. The surface is hilly in the s. and rolling in the n. The streams are the Eleven Mile, Crooked, and Murder Creeks. The soil in the n. is a sandy and gravelly loam, and in the s. a clayey loam underlaid by limestone. **Darien Center**, (p. v.) formerly "*Kings Corners*," contains a church, seminary,³ and 20 dwellings. **Darien City**, (Darien p. o.) in the e. part of the town, contains a church and 50 dwellings. The first settlement was made near Darien City, by Orange Carter, from Vt., in 1803.⁴ The census reports 4 churches in town.⁵

ELBA—was formed from Batavia, March 14, 1820. Oakfield was taken off in 1812. It is the central town on the n. border of the co. The surface is level or undulating. Oak Orchard Creek flows s. e. through the center of the town to the s. e. corner, and thence turns w. and flows through the n. part into Oakfield. The Tonawanda swamp extends along its course in the s. part of the town. The soil is a fertile, sandy, gravelly and clayey loam. **Pine Hill** (Elba p. v.) lies near the center of the town. Pop. 400. **Transit**,⁶ (East Elba p. o.) on the line of Byron, is a hamlet. **Langtons Corners**, **Mills Corners**, and **Daws Corners** are farming neighborhoods. The first settlement was made at Daws Corners in 1801, by Samuel and Amos Ranger, from Vt.⁷ The first religious meetings were held by Rev. Mr. Mitchell, (M. E.) in 1807. The first church (Bap.) was formed by Elder John Miner, in 1821.⁸

LE ROY⁹—was formed from Caledonia (Livingston co.) as "*Bellona*," June 8, 1812. Its name was changed April 6, 1813. A part of Stafford was taken off in 1820, and a part of Pavilion in 1842. It is the central town on the e. border of the co. Its surface is level or gently undulating. A limestone ridge, 40 to 100 feet high, extends through the s. part of the town. Oatka Creek, the principal stream, flows from the s. w. corner of the town s. e. to a point a little s. of the center, thence turns and pursues a s. e. course to the e. border. Buttermilk Falls, 90 feet high, marks its descent over the limestone terrace.¹⁰ The soil is generally a sandy or gravelly loam. Gypsum and Onondaga limestone, for building purposes, are obtained in this town. In the e. part, s. of Oatka Creek, is an extensive tract of oak openings, covered thickly with stone and hard of cultivation. **Le Roy** (p. v.) was incorp. May 5, 1834. It is finely located on Oatka Creek, and contains a bank, 1 newspaper office, a female seminary,¹¹ 6 churches, and several manufacturing establish-

¹ Among the other first settlers were—Hoskins, in 1808; Elsha Taylor, from Otsego co. (on lot 186); Theodor T. Holbrook, from Cayuga co.; Wheaton Carpenter, from R. I.; and Elsha Miller, from Penn., on lot 2, in 1809; Nathan Holt, from Otsego co., in 1810; and Asa Merrills, from Oneida co., in 1811. The first child born was a son of Elsha Taylor, in 1809; the first marriage, that of Saml. Montgomery and Polly Parks, in 1811; and the first death, that of a son of Mr. Hoskins, Theodor T. Holbrook, taught the first school, in 1810-11; Ira Newbury kept the first inn, in 1815; Amos Hewett, the first store, in 1815; Wm. Shepard erected the first sawmill, in 1812; and Asa Williams the first gristmill, in 1814.

² The census reports 4 churches in town; 2 M. E., and French Presb., and F. W. Bap.

³ The Darien Seminary was established in 1850, by Robert Blennerhassett.

⁴ Isaac Chadlock, from Vt., settled near Darien City in 1801. The first child born was Harned Carter, in 1803. Stephen Parker kept the first inn, in Daws of Darien City; and Stephen King the first store, in 1813, at Darien Center. The first saw mill was erected by Amos Humphrey, in 1809, on Eleven Mile Creek.

⁵ Cong., Bap., F. W. Bap., and M. E.

⁶ Named from its location on the E. transit meridian of the Holland Land Company's survey.

⁷ Samuel Clark, from Mass., and his son Samuel, settled at Pine Hill in 1802, and Samuel Hill, from Seneca co., and John Young, came soon after. The first death was that of David Kingsley, in 1804; Mason Turner taught the first school, near the center, in 1811; and Stephen Harmon kept the first inn, in 1814, at Pine Hill. The first store was kept at the same place, by Saml. Lane, in 1819. Horace Gibbs erected the first sawmill, on a branch of Black Creek, in the e. part of the town, in 1819; and Comfort Smith the first gristmill, on the same stream, in 1815. The wifery of John Young gives the following account of some of the trials of pioneer life:—"My husband having the year before been out and purchased his land upon the Holland Purchase, in the fall of 1804 we started from our home in Vermont, on horse back, for our new location. We came through Mary Land crossing the Susquehanna at Milton, thence *via* Teoga Point and the then usual route. In crossing the Alleghany Mountains came upon us; the horses became frightened by wild beasts, and refused to proceed. We wrapped ourselves in our

cloaks and horse blankets, and attempted to get some rest, but had a disturbed night of it. Panthers came near us, often giving to rattle the teams. The frightened horses snorted and stamped upon the rocks. Taking an early start in the morning, we soon came to a settler's house, and were informed that we had stopped in a common resort of the panther. My husband built a shanty, which was about 10 feet square, flat roofed, covered with split ash shingles; the floor was made of the halves of split fesswood; no chimney. A blanket answered the purpose of a door for a while, until my husband got time to make a door of split plank. We needed no window; the light came in where the smoke went out. For chairs we had benches, made by splitting logs and setting the sections upon legs. A bedstead was made by boring holes in the side of the shanty, inserting pieces of timber which rested upon two upright posts in front, a side piece completing the structure, peeling fesswood bark answering the place of a roof. We of course had brought no bed with us, on horseback; so one had to be procured. We bought a cotton bag of Mr. Brice Lang, and stuffing it with cat-tail, it was far better than no bed. The second year we were in, I had an attack of the fever and ague, which confined me for nearly a year. That year my husband cleared four acres, besides taking care of me and doing the cooking. It was no uncommon thing, in the first years of settlement, for women in child-birth to be deprived of the aid of a physician; and often the attendance of their own sex had to be dispensed with. Mr. Young died in 1837. *Turner's Lion. Hist.*

⁸ The census reports 4 churches in town; French Bap., Cong., M. E., Prot., and Friends.

⁹ Named in honor of Herman Le Roy, one of the original purchasers of the "*Triangle tract*."

¹⁰ When the water is low, it disappears in the bed of the stream about 2 miles above the falls, and finds its way to the lower channel through a subterranean passage.

¹¹ The Ingham University, late Ingham College Institute, was incorp. 1857. The institution was first established at Utica, in 1834, by Miss Marietta Ingham, and a younger sister, in 1837. Ingham, now Mrs. Phineas Stanton, from Mass. In 1877 it was removed to Le Roy, and was established as the "Le Roy Female Seminary" by the founders, aided and supported by Messrs. Saml. Comstock, Jonathan P. Darling, Seth M. Gates, Albert Brewster, A. S. Upham, Enoch Bachelder, A. P. Hedges, Leo Comstock, Israel Rathbone, Richard Hollister, and Wm. S. Bradley. It was chartered in 1841; and in 1855 the whole

loam intermixed with clay. **Stafford** (p. v.) lies on Black Creek, near the center of the town. It is a station on the C. & N. E. branch of the N. Y. C. R. R., and contains 3 churches, a private seminary, and a pop. of 350. **Morganville**¹ (p. v.) contains 2 churches, 2 sawmills, a flouring mill, a brown earthen ware factory, and 200 inhabitants. A fall in Black Creek at this place is 30 ft. perpendicular and 30 ft. in rapids, affording a fine water power.² **Rennock**,³ (p. v.) formerly "Orangeburgh," contains a church, several mills, and 20 dwellings. The settlement was commenced in 1801, by Col. Wm. Rumsey and Gen. Worthy Lovel Churchill, (from Vt.) who located on the Buffalo Road, w. of Stafford.⁴ The first religious services were held at the house of Col. Rumsey, by Rev. Mr. Green. The first church (Bap.) was formed by Rev. Amos Lampion, in 1815.⁵

¹ Named from the wife of Wm. Morgan, of masculine notoriety.
² Two coves are found in the w. bank of the creek a few rods below the falls.
³ Named from the residence of John Randolph by Major Jas. Ganson.
⁴ Peter Stage (from Onondaga co.) settled in 1802. Benj. Ganson and John Annis were the first settlers in the e. part of the town. Gen. W. L. Churchill served with credit in the War of 1812, and subsequently as Sheriff of Genesee co. from 1820 to 1825. The first birth was that of a child of W. L. Churchill, March 9, 1807; and the first death, that of the wife of W. L.

Churchill, at about the same time. The first school was taught by Esther Sprout, in 1806. Frederick Walther kept the first inn, at Stafford Village, in 1799; and this was one of the first three taverns kept on the Holland Purchase. The village was then known as the "Transit Store House," from its being the principal supply station for the surveying company while running the "Transit Line." The first sawmill was built on Bigelow Creek, in 1810, by Amos Stow; and the first gristmill, on the same stream, in 1811, by Seymour Ensign.
⁵ The census reports 7 churches in town; 2 M. E., and 1 each Prot. E., Cong., Bap., Christian, and Unit.

GREENE COUNTY.

This county was formed from Albany and Ulster, March 25, 1809, and named in honor of Gen. Nathaniel Greene, of the Revolution. Parts were annexed to Ulster co. May 26, 1812. It lies upon the w. bank of Hudson River, centrally distant 32 mi. from Albany, and contains 686 sq. mi. Its surface is very broken and mountainous. The main range of the Catskill Mts. commences 8 to 10 mi. w. of the Hudson and extends along the s. border of the co. to Delaware co. These mountains are 3000 to 3800 feet above tide.¹ Their summits are broad, wild, and rocky, and their declivities steep and often precipitous. A branch from the main ridge extends in a w. direction through the co., separating the towns of Durham and Cairo from Windham and Hunter and dividing the co. into two nearly equal

parts. This ridge is 2500 to 3000 feet above tide. It has a steep and wall like front on the e., and on the w. it sends off numerous spurs, which extend to the valley of Schoharie Creek. The whole intermediate territory consists of high, rocky ridges separated by narrow valleys. The declivities are generally steep on the n., but more gradual on the s.² Another branch from the main range extends northward through the extreme w. part of the co., between the towns of Haleott and Lexington, and forms the series of highlands that rise upon the w. bank of Schoharie Creek. This range forms the watershed between Schoharie Creek and Delaware River. The e. half of the co. is hilly and broken. An irregular line of bluffs extends along the Hudson, with an average elevation of about 100 ft. Parallel to these bluffs, and 2 to 4 mi. further w., is a range of hills 500 to 700 ft. above the river. These highlands are known as the Potick Hills in the town of Athens. Between this ridge and the e. foot of the Catskills the surface is moderately hilly, gradually sloping toward Catskill Creek.

The principal streams of the co. are Hudson River, forming its e. border, Schoharie Creek and its tributaries, draining the w. slope of the mountains, and Catskill Creek³ and its principal tributary the Kaaterskil, draining the e. slope. Small branches of these streams flow through narrow, rocky ravines, which break entirely through the mountains and form passes locally known as "cloves." The principal of these cloves are the Kaaters Kil, opening westward from the Hudson into the valley of Schoharie Creek, and the Bushkil Clove, Stoney Clove, Mink Hollow, and Plattick Hollow, opening southward from Schoharie Creek into the valleys of Ulster co. In many places these ravines are bordered by naked cliffs, nearly perpendicular, and 1000 to 1700 ft. above the streams. The small streams that drain the w. slope of the range in Haleott form branches of the Delaware. Schoharie Creek rises in the town of Hunter, within 12 mi. of the Hudson, flows w. and n., and forms a branch of the Mohawk. The streams are mostly rapid, and are subject to sudden and violent freshets. The e. slope of the mountain and the outcropping strata of the Catskill and Kaaterskil Creeks present to the geologist one of the most interesting and comprehensive fields of investigation to be found on the continent. Within the distance of 12 mi. from the village of Catskill to the Mountain House may be seen nearly all the strata composing the New York system. The gray grits and conglomerates forming the floor of the coal measures are found 110 ft. deep at the summit of the Pine Orchard. The depth of the whole series, within the 12 mi. referred to, is scarcely less than 4000 feet. Few or no metallie veins or valuable minerals, except building and flagging stone, are found in the co.

The soil on the w. slopes of the Catskill is chiefly a reddish, gravelly or shaly loam extensively underlaid by hardpan. The surface is stony, except upon the river bottoms, where the soil is fertile and productive. North and e. of the mountains the soil is greatly diversified by sections of gravelly, shaly, clayey, and sandy loams; but a stiff clay predominates. Where properly cultivated, it is moderately productive. The whole region is best adapted to grazing; and the principal agricultural exports are butter, cheese, and pressed hay. Oats, barley, and potatoes are extensively cultivated, but, like most of the other eastern course, the grain grown is insufficient for the consump-

¹ High Peak has an elevation of 3804 feet above tide, Round Top 3718 feet, and Pine Orchard 3000 feet. The Catskill Mountain House is situated upon the last named mountain.

² The n. sides of these spurs are generally rocky and bare, and the s. sides covered with vast deposits of drift, indicating that a great current of water from the n. once swept over them. Nearly

all the valuable land in this section lies upon the s. side of the valley.

³ Named by the Dutch from wild cats found in this vicinity. Kaaters Kil has a similar signification, but is limited to the male animals.

tion of the population. The principal manufactured products are brick, leather, and paper. Brick are extensively made on the banks of the Hudson, in Catskill, Athens, and Coxsackie, for the New York market. The co. has a considerable interest in the commerce of the Hudson, but less, perhaps, than it had many years ago. No co. has been more seriously damaged in its commercial and manufacturing prospects by the public works of the State than Greene. Before the Erie Canal was completed, Catskill, the co. seat, commanded the trade of the adjacent co. w., and of the s. tier through to Lake Erie, and some portions of Northern Penn. It was a large wheat market; and at the falls of Catskill Creek, 3 mi. w. of the village, were the most extensive flouring mills in the State.¹ The canals and railroads have limited the commercial transactions of the co. strictly to home trade. A change scarcely less marked and important has taken place in the industrial pursuits of the mountain towns. About 1817, upon the discovery of improved methods of tanning leather, tanners rushed into the Catskill Mts., purchased large tracts of mountain lands covered with hemlock timber, and erected extensive tanneries. The valleys of Schoharie Creek, Batavia, and West Kils soon teemed with a numerous, active laboring population, and the solitude of the deep mountain glens was made vocal by the hum of industry, the buzz of the waterwheel, and the rattling of machinery. Villages of considerable magnitude, with churches, schools, stores, and taverns, rose up in the wilderness as if by magic. Thirty years ago Greene co. made more leather than all the State beside. The supply of bark in this region was soon exhausted, and the proprietors gradually abandoned their establishments and followed the mountain chain s., erecting new factories in Ulster and Sullivan cos.; and their successors are now pursuing the hemlock into the heart of the Alleghanies. The result of all this was to facilitate the occupation of the lands in the mountain towns, and in many cases to carry cultivation to the summits of the most lofty ranges, thereby opening one of the finest dairy and wool growing regions in the State.

The county seat is located at Catskill, on the Hudson.² The first courthouse was a wood building, erected under act of May 26, 1812.³ Some years since, this building was burned, and a new brick edifice was soon after erected in its place. It contains the court and jury rooms, and district attorney and co. clerk's offices. A stone jail was erected in 1804, and a fireproof clerk's office in 1812. The co. poorhouse is located on a farm of 130 acres in Cairo, 10 mi. w. of Catskill. The farm yields a revenue of \$900. It has on an average 130 inmates, supported at a weekly expense of \$ 75 each. A school is taught in the house most of the year. The condition and adaptation of the building, and the management of the inmates, are not thought creditable to the co. authorities.

Six weekly newspapers are published in the co.⁴

More than two centuries have elapsed since the settlements in the valley of the Hudson commenced at various points between New York and Albany. It was 150 years later when a few,

¹ Of this place Spafford's Gazetteer (ed. of 1813) says, "Catskill has considerable trade already, and must probably experience a rapid growth as the market town of an extensive back country. At some place in this vicinity, and on the w. bank of the river, future ages will probably find the third, if not the second, city on the Hudson, in wealth, population, and commercial importance."

² Ira Day, Isaac Dubois, Orin Day, Joseph Klein, Ezra Hawley, and Lyman Hill, having executed to the supervisors a bond, under a penalty of \$10,000, to procure a lot and build a courthouse, an act was passed May 26, 1812, allowing the judges to accept the premises when completed. Courts were previously held at these places, and the prisoners confined in Albany co. jail.

³ The first co. officers were Leonard Bronk, *First Judge*; Ebenezer Foot, *District Attorney*; James Hill, *Co. Clerk*; George Hale, *Sheriff*; John H. Cuyler, *Synagogue*.

⁴ *The Catskill Patriot*, the first paper in the co., was published prior to 1800.

The Catskill Recorder was started in 1801 by Macheo Crosswell.

In 1817 Edwin Crosswell assumed its control, and continued it until 1822. In 1827 it was published by Field & Faxon, and in 1828 it was issued as

The Catskill Recorder and Greene Co. Republican, by Faxon, Elliott & Gates. In 1819 it was united with *The Democrat*, and issued as

The Catskill Recorder and Democrat, under which name it is still published by Joseph Joscelyn.

The American Eagle was published at Catskill in 1810 by N. Elliott & Co.

The Catskill Emulator was commenced in 1813, and continued a short time.

The Greene and Delaware Washingtonian was commenced at Catskill in 1814, by Michael J. Kuppel. In 1816 it was changed to

The Middle District Gazette, and published by Wm. L. Stone.

The Greene Co. Republican was established at Catskill in Nov. 1826, by ——— Hyer. In 1827 it was sold to Ralph Johnson; in 1828, to C. Hull; and in 1829 it was merged in

The Catskill Recorder.

The Catskill Messenger was started in 1820, by Ira Dubois. It was subsequently issued by Wm. Bryan, C. H. Cleveland, and Trowbridge & Gunn. In 1849 it was changed to

The Greene Co. Whig; and in 1857 to

The Catskill Examiner, by which name it is now published.

The Catskill Democrat was started in 1843 by Joseph Joscelyn, and in 1849 it was united with *The Recorder*.

The American Eagle was started at Prattsville in 1854 by E. & H. Baker, who removed it to Catskill the same year. In 1859 its name was changed to

The Banner of Industry, and published by Jas. H. Van Gorden. In 1857 it was sold to Henry Baker, by whom it is now published as

The Catskill Democratic Herald

The Greene Co. Traveller was started at Coxsackie in 1832, and published for a time by Henry Van Dyck. In 1836 it was changed to

The Standard, and published by Thomas B. Carroll. It was subsequently issued a short time as

The Coxsackie Standard.

The Coxsackie Union was established in 1851 by Ersk. W. Hoffman. In Jan. 1857 it passed into the hands of D. M. & E. S. Slater, by whom it is still published.

The Prattsville Bee was started in 1852.

The Baptist Liberator was started at Prattsville in 1843 by L. L. & R. H. Hill. In 1845 it was removed to Lexington.

The Prattsville Advocate was established by John L. Hackstaff in 1846, and was discontinued in 1858.

The Mountaineer was published at Prattsville in 1853 by Chas. H. O'Connell.

The Windham Journal was started at Windham Center, March 21, 1857, by W. B. Stebbins.

The Athens Visitor was commenced in 1858 by R. Denton.

small, isolated settlements were made in the valleys of the streams in the interior of Greene co. The great Hardenburgh Patent, granted by Queen Anne, covered nearly all of that portion of the co. lying w. of the mountains. The s. line of this grant commenced at the headwaters of the Kaaters Kill, being the head of the upper lake at Pine Orchard, and ran a s. w. course to the headwaters of the w. branch of the Delaware, in Samford, Delaware co. This line was run at three different periods, near the close of the last century, by three different surveyors, no two of them agreeing by the width of whole farms. This disagreement has proved a prolific source of litigation in the courts of the State for 50 years. The patent included all that part of Delaware co. lying e. of the w. branch of Delaware River, and nearly all of Ulster and Sullivan cos. When the settlements commenced, the tract was owned by a great number of individuals, who had purchased by townships. At an early period, Stephen Day (from Conn.) purchased a large tract in Greene co., embracing a considerable portion of the old town of Windham, now forming the towns of Windham, Ashland, Jewett, and a portion of Lexington and Hunter. This tract was principally settled by immigrants from Connecticut.

ASHLAND—named from the home of Henry Clay—was formed from Windham and Prattsville, March 23, 1848. It lies in the s. w. part of the co. Its s. and s. borders are occupied by two parallel spurs of the Catskill Mts., 800 to 1000 ft. above the valley. Batavia Kil flows westward through the town at the foot of the s. range. This stream is bordered upon the s. by steep bluffs 150 to 200 ft. high; and from their summits the surface gradually slopes upward to the s. foot of the s. ridge near the s. border of the town. Lewis Creek and several smaller streams are tributaries of Batavia Kil. About two-thirds of the land in the town is improved. **Ashland**, (p. v.,) on Batavia Kil in the s. part of the town, contains 2 churches and a collegiate institute.¹ Pop. 400. **East Ashland** is a hamlet. The first settlement was made in the valley of Batavia Kil, previous to the Revolutionary War, by a few Dutch families from Schoharie co. During the war, being harassed by the Indians and Tories, the settlers returned to Schoharie co. The first permanent settlement was made in 1788, by Elisha Strong and several brothers named Stimpson.² There are 6 churches in town.³

ATHENS—was formed from Catskill and Coxsackie, Feb. 25, 1815. It is situated on the Hudson, near the center of the e. border of the co. Its surface is broken by several rocky hills and ridges lying parallel with the Hudson, with uneven or undulating intervals between. A range of high clay bluffs borders upon the river; and a high rocky ridge, known as Potick Hill, extends through the w. part of the town. Several small streams flow southerly through the town, and Potick Creek forms its w. line. In the w. part of the town are 3 small lakes. In their vicinity, 4 or 5 mi. w. of the Hudson, are extensive beds of the Helderbergh limestone, large quantities of which are quarried for building purposes and for the manufacture of lime. Near the river the soil is a tough clay, bordered by sand; elsewhere it is a sandy and gravelly loam of a good quality. Brick and lime are the principal articles manufactured, and these, with hay, form the exports of the town. **Athens**,⁴ (p. v.,) incorp. April 2, 1805, is situated on the Hudson, opposite the city of Hudson. Pop. 1747. The e. part of the town was settled at a very early period by immigrants from Holland.⁵ There are 5 churches in town.⁶

CAIRO—was formed from Catskill, Coxsackie, and "Freehold," (now Durham,) March 26, 1803, as "Canton," and its name was changed April 6, 1808. It is situated at the f. foot of the Catskill Mts., the crest of the mountain forming its w. boundary. Its central and e. parts are broken by several high, rocky ridges. Round Top, also called the Dome Mountain, is a rocky, isolated hill 500 ft. high. The Catskill Creek flows s. e. through the town, and receives from the s. John Debackers Creek and Platte Kil, and from the s. Shingle and Hagel Kils. The soil is a clayey, gravelly, and shaly loam, fertile in the valleys and of medium quality among the hills. **Cairo**, (p. v.,) situated near the center of the town, on the Old Susquehanna Turnpike, contains 4 churches and several manufacturing establishments. Pop. 353. **Aera**, (p. o.,) in the w., **S. Cairo**, (p. o.,) and **Cairo Forge**, about 1 mi. s. of Cairo, are hamlets. Settlements were made on the Shingle Kil previous to the Revolution.⁷ A Presb. church was organized May 22, and a Bap. May 25, 1799. There are 7 churches in town.⁸

¹ The Ashland Collegiate Institute was founded in 1854, under the care of the M. E. denomination. The present number of boarding pupils (1858) is 100.

² Among the early settlers were: Arden White, John Tuttle, James Strong, Solomon Ottusheo, Dr. Thomas Benham, and Medad Hunt, most of whom were from Connecticut. The first birth was that of Deborah Stone, in 1789. Sandford Hunt kept the first store, and Medad Hunt the first inn, in 1796. Lt. Gov. Washington Hunt, son of Sandford Hunt, was born in this town.

³ M. E., Presb. E., Presb., and R. C.

⁴ Formerly called "L. and North" and "Freehold." The steamer Swallow, on her way to New York with a large number of passengers, was wrecked in the river opposite this place on the evening of April 7, 1816, and about 20 persons were lost.—*South. Doc.*, No. 102, 1845.

⁵ A tannery was erected in 1790 by N. J. de Berry.

⁶ Bap., Friends, Luth., Presb. R., and R. C. Presb.

⁷ A family by the name of Strickland on the Shingle Kil, was murdered by the Indians during the war.

⁸ M. E., Bap., Presb., Prot. E., and Union.

CATSKILL¹—was formed March 7, 1788, as part of Albany co. It was annexed to Ulster co. April 5, 1798. A part of Woodstock (Ulster co.) was annexed March 25, 1800; a part of Cairo was taken off in 1803 and a part of Athens in 1815. It lies upon the Hudson, in the s. e. corner of the co. The surface is broken by several rocky ridges parallel to the Hudson; these ridges are principally composed of shales and gray grit. In the latter formation are extensive quarries, from which a fine quality of flagging stone is obtained and largely exported. A swamp, covering an area of several hundred acres, extends along the Hudson below Catskill Village. The Catskill Creek flows s. e. through the s. e. corner to the Hudson, and receives the Kaaters Kill after the latter has pursued an irregular course through the center and s. w. part of the town. The other streams are Kiskatom Creek, and Jan Vosent Kil. The soil is principally tenacious clay, with sections of gravelly and shaly loam. Hay is the principal agricultural export. Large quantities of brick are manufactured and exported. Catskill Village being the chief entrepôt for the co., commerce forms one of the leading pursuits of the people. **Catskill**, (p. v.), the co. seat, was incorp. March 14, 1806. It is situated on the Hudson, at the mouth of Catskill Creek. It contains 5 churches, 3 newspaper offices, 2 banks, and a large number of mercantile and manufacturing establishments. Pop. 2520. **Leeds**, (p. v.), situated at the falls on Catskill Creek, contains 2 churches and several manufacturing. Pop. 450. **Palenville**, (p. v.) on the Kaaters Kil, in the w. part of the town, contains 2 tanneries, a woolen factory, and 18 dwellings. **Kiskatom** is a p. o. Settlements were made upon the banks of the Hudson, at a very early period, by immigrants from Germany. The flats in the valley of Catskill Creek w. of Leeds were first settled by Martin G. Van Bergen and Sylvester Salisbury, who in 1677 purchased the Indian title to an extensive tract. There are 9 churches in town.² The Catskill Mountain House is on the line of Hunter. See page 333.

COXSACKIE³—was formed, as a district, March 24, 1772, and as a town, March 7, 1788. Durham was taken off in 1790, a part of Cairo and Greenville in 1803, New Baltimore in 1811, and a part of Athens in 1815. It lies upon the Hudson, s. e. of the center of the co. A range of clay bluffs about 100 ft. high extends along the course of the river, and a range of hills 500 ft. high through the center of the town. The surface is level or undulating in the e. and is hilly and broken in the w. The principal streams are the Cossackie, Potick, and Jan Vosent Creeks. The soil in the e. is clayey and sandy, and in the w. it is a gravelly, shaly, and clayey loam. Brickmaking is extensively pursued. **Cossackie**, (p. v.), situated near the Hudson, contains 6 churches, an academy, a newspaper office, a bank, and several manufactories.⁴ Pop. 1,800. **Cossackie Landing** is 1 mi. e. of the village. **Jacksonville**, in the w. part, is a hamlet. The Dutch settled in town about 1652, on a tract about 6 mi. sq. purchased of the Indians. There are 8 churches in town.⁵

DURHAM—was formed from Cossackie as "*Freehold*," March 8, 1790, and its name was changed March 28, 1805. Parts of Cairo and Greenville were taken off in 1803. It lies near the center of the s. border of the co. Its surface is hilly and broken, the s. e. corner being occupied by the s. slopes of the Helderbergh Mts., and the w. border by the Catskills. The principal streams are Catskill Creek, flowing s. e. through the e. part, and its tributaries Fall, Bowery, Posts, and Brink Street Creeks. The soil is generally a heavy clay, with occasional sections of gravel. There are several mills and tanneries on Catskill Creek, which stream affords a fair amount of water power. **Oak Hill**, (p. v.) on Catskill Creek, has a pop. of 320. **Durham**, (p. v.) 1 mi. w. of Oak Hill, contains 2 churches and 30 houses, **East Durham** (p. v.) 17 houses, **Cornwallville**, (p. v.) in the central part of the town, 15 houses, and **South Durham** (p. o.) 10 houses. **Centerville** is a hamlet. The settlement of the town was commenced in 1776. Capt. Asahel Jones and Rozel Post, from Conn., settled in 1788.⁶ There are 7 churches in town.⁷

GREENVILLE—was formed from Cossackie and "*Freehold*," (now Durham) March 26, 1803, as "*Greenfield*." Its name was changed to "*Freehold*" in 1808, and to Greenville, March 17, 1809. It lies on the s. border of the co., e. of the center. Its surface is hilly,—the southern extremity of the Helderbergh Mts. occupying the central and w. parts of the town. The principal streams are Potick, John Debackers, and Basie Creeks. The soil is chiefly a heavy, clay loam, well adapted to grazing; but much of it has been exhausted by too frequent croppings with hay. About 1 mi. w. of Greenville Center is a sulphur spring. **Greenville**, (p. v.), s. of the center

¹ Great Imbscht District, including this town, was formed March 24, 1772.

² 3 M. E., 2 Ref. Prot. D., Bap., Presb., Prot. E., and Union.

³ From Cossackie. Derived from an Indian word signifying "swamp-land."

⁴ Shipbuilding was formerly carried on at the lower landing,

near this place; and several of the early Hudson River steamboats were built here.

⁵ 2 Ref. Prot. D., 2 M. E., Prot. E., R. C., Union, and A. M. E.

⁶ Mr. De Witt built the first gristmill, in 1788, and Jared Smith the first sawmill, about the same time.

⁷ 2 Cong., 2 M. E., Bap., Presb., and Prot. E.

of the town, contains 3 churches, the Greenville Academy, and 35 houses; **Freefield**, (p.v.) in the s. w. part, 1 church and 24 houses; **Norton Hill**, (p.v.) in the s. w. part, 16 houses; **Greenville Center** 15; and **East Greenville** 1 church and 10 houses. **Gay Head** is a p. office. In 1768 the British Government granted 2 patents—one for 2000 and one for 5000 acres, located together in the w. part of the town—to Major Augustine Prevost, of the 6th British infantry, who served in this country during the Old French War.¹ Stephen Lantiman, Godfrey Brandow, and Hans Overpangh, who settled in the town in 1771, were among the earliest settlers.² There are 7 churches in town.³

HALCOTT—was formed from Lexington, Nov. 19, 1851, and named from George W. Halcott, then sheriff of Greene co. It is situated in the s. w. corner of the co., and is separated from the other towns of the co. by a mountain ridge 1000 feet high. This ridge is crossed by difficult and unfrequented roads. A considerable portion of the territory is covered with forests. The surface is mountainous, comprising four valleys, in which rise the sources of the n. branch of the Delaware. The soil is chiefly a gravelly loam of medium quality, and stony, but is well adapted to grazing. From its isolated position among the mountains,⁴ the chief avenue of communication with the outside world is on the s., by way of Middletown, Delaware co. **West Lexington** (p. o.) is in the central part of the town. The first settlement was made on the Bush Kil, in 1790, by Reuben Crysler, — Thurston, Joseph Brooks, and Timothy Tyler.⁵ There are 2 churches in town; O. S. Bap. and M. E.

HUNTER⁶—was formed from Windham as "*Greenland*," Jan. 27, 1813. Its name was changed April 15, 1814, a part of Saugerties was taken off in 1814, and a part of Jewett in 1849. The surface is rocky and mountainous, not more than one-fourth being susceptible of cultivation. Several of the highest peaks of the Catskills—among which are High Peak, Round Top, and Pine Orchard—lie within the limits of this town.⁷ Two narrow valleys extend quite through the mountains and cross each other at nearly right angles near the center of the town. The first of these is the valley of Schoharie Creek and its southerly continuation, that of the Platte Kil; and the second, that of the Kaaters Kil and Stony Clove. The soil is generally a heavy, clayey and shaly loam, very stony, and poorly adapted to agriculture. **Hunter**, (p.v.), situated on Schoharie Creek, in the s. w. part of the town, contains 2 churches and several manufacturing establishments. Pop. 393. **Farmersville**, near the center, is a p. office. Settlements were made during the Revolution, by "*cowboys*" from Putnam co. Their property was confiscated by the Whigs.⁸ Col. Wm. W. Edwards and his son Wm. W., from Northampton, Mass., moved into town in July, 1817, and erected the first extensive tannery in the State in which the then new method of tanning was adopted. Within a few years after, other tanneries were built, and a very large amount of leather was made in the town annually for a long series of years, until the hemlock bark was exhausted. Most of the establishments are now abandoned. There are 3 churches in town; Presb., M. E., and R. C.

JEWETT—was formed from Lexington and Hunter, Nov. 14, 1849. It lies near the center of the w. half of the co. Its surface is principally occupied by high and rocky spurs extending w. from the principal s. branch of the Catskills. A high and almost precipitous ridge extends along the s. w. border of the town. Schoharie Creek and its tributary East Kil are the principal streams. The soil is a heavy, reddish, gravelly loam of medium quality, often stony and rocky, and largely underlaid by a tough hardpan. **Jewett**,⁹ (p.v.) in the s. w. part of the town, contains 2 churches and 11 houses. **Jewett Center**, at the junction of East Kil and Schoharie Creek,

¹ Major Prevost erected a fine mansion on one of these tracts, a little w. of the village of Greenville, in which he resided until his death.

² Abraham Post, Deazar Knowles, Etheld Haman, Peter Curtis, and Edward Lake, from Conn., settled in the town in 1783. David Haddock and Davis Denning erected the first grist-mill, in 1780.

³ 2 Bap., 2 M. E., Prot. E., Presb., and Christian.

⁴ Wild game is still found in the mountains, and the pure, limpid streams abound in trout.

⁵ Ralph Cox and Henry Hosford built the first sawmill, in 1820. Ralph Cockett the first inn, and Henry Hamcan the first store. There is now no tavern, lawyer, nor doctor in town.

⁶ Named from John Hunter, an early proprietor of a part of the Hardenburgh Patent.

⁷ The Catskill Mountain House, upon Pine Orchard, is situated upon a precipice overlooking the Hudson, and is 2212 ft. above tide. It was built by the Catskill Mountain Ass'n., at a cost of \$22,000, for the accommodation of visitors. Among the hills, $\frac{1}{2}$ mi. w. of the house, are 2 small lakes, each $1\frac{1}{2}$ mi. in circumference,—their outlet forming the Kaaters Kil. Upon this stream, a little

below the lakes, are the Kaaters Kil Falls, where the stream plunges down a perpendicular descent of 170 ft. and, in a few rods, another of 84 ft., falling into a deep, rocky ravine of clay, and finally finding its way into Catskill Creek. The views from the Mountain House, and the scenery among the mountains, are among the finest in the country, and the place is visited annually by thousands of tourists.

⁸ Samuel, Elisha, and John Hames, and Gershen Godin, entered the mountains by way of King-ton and Mink Hollow, and settled on Schoharie Kil. Their location was discovered a year or two after by some Dutchmen from the e. side of the mountain, while hunting bears. They were followed, in 1786, by a number of Shuy's followers, from Mass., who, on the suppression of his rebellion, fled to the mountains. James and Jacob Carl settled in the town in 1780; Saml. Meritt, and Saml. and Wm. Hayes, in 1791. Roger Bacon was the first settler at the village of Hunter. The first birth was that of John Hames. Mr. Olmsted built the first grist-mill, in 1794 and subsequently the first tannery, and kept the first store and inn.

⁹ Formerly called "*Lexington Heights*."

and **East Jewett**, are p. offices. The first settlement was made near Schoharie Creek in 1783-84, by Wm. Gass, a Scotelman.¹ There are 4 churches in town; 3 M. E. and Presb.

LEXINGTON—was formed from Windham as "*New Goshen*," Jan. 27, 1813, and its name was changed March 19, 1813. A part of Jewett was taken off in 1849, but reannexed in 1858, and a part of Halcott was taken off in 1851. It lies on the s. border of the co., w. of the center. More than one-half of the surface is occupied by the lofty peaks and ridges of the Catskills. Schoharie Creek, flowing through the s. e. corner of the town, is bordered by high and steep rocky ridges. West Kil, its principal tributary, drains a valley 9 mi. in length, everywhere bordered by lofty mountains except on the w. Bush Kil Clove is a natural pass in the mountains, extending from the Schoharie Valley s. into Ulster co. The soil is a slaty and gravelly loam. Only about two-fifths of the surface is susceptible of cultivation. **Lexington**, (p. v.) on Schoharie Creek, s. of the center of the town, contains 2 churches and 27 dwellings, and **West Kil** (p. v.) 1 church and 31 dwellings. **Bushnellville** is a p. o. on the line of Ulster co. The first settlement was made in 1788, on the flats of Schoharie Kil.² There are 3 churches in town; 2 Bap. and M. E.

NEW BALTIMORE—was formed from Coxsackie, March 15, 1811. Scutters, Little, and Willow Islands were annexed from Kinderhook April 23, 1823. It lies upon the Hudson, in the s. e. corner of the co. The general surface is hilly and broken. A line of high, rugged clay and slate bluffs rises from the river to a height of 100 to 200 feet, and a range of high, broad hills extends s. through the center of the town. The w. part is comparatively level. The principal streams are Haanakrois Creek in the s. w. corner, Deep Clove Kil, Cabin Run, and the e. branch of Potick Creek. Nearly all these streams flow through narrow and rocky ravines. The soil is chiefly a heavy, clay loam, with limited patches of sand and gravel. **New Baltimore**, (p. v.) on the Hudson, in the s. part of the town, contains 2 churches, and has a pop. of 700. **Medway** is a p. office. Settlement was commenced upon the Coxsackie flats at an early period. The Broncks, Houghtalings, and Conyns were among the first settlers. There are 9 churches in town.³

PRATTSVILLE—was formed from Windham, March 8, 1833, and named from Col. Zaddock Pratt. A part of Ashland was taken off in 1848. It is the s. w. corner town of the co. Its surface is principally occupied by broad mountain uplands bordered by steep and rocky slopes. Schoharie Creek and Batavia Kil flow through wild and narrow mountain gorges. The soil is a heavy, reddish, gravelly and clayey loam, moderately fertile and profitable only for grazing. **Prattsville**, (p. v.) on Schoharie Kil w. of the center of the town, contains 3 churches and several manufactories.⁴ Pop. 617. **Red Falls**, (p. v.) on Batavia Kil, contains a cotton factory, a paper mill, and several other manufacturing establishments. Pop. 231. Settlements were made on the flats at Prattsville by Dutch immigrants from Schoharie co., during the period between the close of the Old French War in 1763 and the breaking out of the Revolution in 1776.⁵ During the latter war the settlement was attacked by a body of Indians and Tories led by a British officer. The inhabitants rallied, and a battle took place upon the bank of Schoharie Kil, a little below the Windham Turnpike Bridge, s. of the village, in which the Indians and their allies were routed. Rev. Cornelius D. Schernerhorn was the first settled preacher. There are 3 churches in town; Ref. Prot. D., Prot. E., and M. E.
